SUMMARY OF ENEMY RADIO ACTIVITY FOR 31st MARCH.
FROM CENTRAL BUREAU SOURCES

W

35 ARMY

Activity among 35 Army Radio Stations is declining as the Army Stations at CEBU, BACOLOD, ILO ILO, ZAMBOANGA and LEYTE were not heard during the period. IMPALUTAO seem anxious to contact CEBU but without success. There is evidence of a possible link between IMPALUTAO and JOLO.

ARMY AIR

BACOLOD Army Air Station was heard but did not originate any traffic. All Central PHILIPPINES Air Bases were inactive. There is some evidence that there is a new Army Air Base headquarters in the CENTRAL PHILIPPINES but it is not yet identified or located.

DEL MONTE was the most active base in MINDANAO but DALIAO. LASANG and VALENTIA were also active.

DOROGON originated traffic for BACOLOD, this can be DULOGAN located 5 miles south of VALENCIA and on the DEL MONTE - LASANG route.

MAIN FEATURES OF ENEMY RADIO ACTIVITY FOR 29th MARCH.
(FROM CENTRAL BUREAU SOURCES).

Several radio stations serving 35 Army Units were silent during the current period, doubtless due to Allied activity, and therefore the volume of traffic was reduced. Nothing was heard from the Army Radio Stations at CEBU LEYTE and ZAMBOANGA.

CEBU used its ARMY AIR link to transmit its Army Traffic.

The C.O.S. 102 Div. and C.O.S. 35 ARMY were addressed at CEBU.

Evidence of continued shipping activity at CEBU was seen from a message to CEBU addressed to No.3 Shipping Branch, and a message from BACOLOD to CEBU addressed to 35 ARMY SHIPPING UNIT.

Traffic again between DAVAO and CAGAYAN. Routine traffic from IMPALUTAO

ARMY AIR activity was light, BACOLOD and DEL MONTE being the most active bases.

There was continued evidence of withdrawals from the CENTRAL PHILIPPINES to MINDANAO.

The C.O. YOSHIOKA UNIT was addressed at SAN JOSE by BACOLOD.

BACOLOD acknowledged an allied attack there.

ENEMY RADIO ACTIVITY FOR 28th MARCH.(CENTRAL BUREAU SOURCES)

The radio station at CEBU was not heard for the second consecutive day although it was called by IMPALUTAO and the LEYTE garrison.

Since CEBU was attacked its contact has been limited to BAGUIO.

There was considerable activity at IMPALUTAO and traffic indicates that 30 Div.Headquarters is still there as well as 35 Army Hqs.

There was evidence of activity between CAGAYAN and DAVAO.

ZAMBOANGA Army Radio Station was heard.

Army Air activity centres around BACOLOD,DEL MONTE,VALENCIA,MALAYBALAY and LASANG.

F

For the last few days there has been regular contact between JOLO and BACOLOD Army Air Stations.

There is some suggestion of evacuation by air from CEBU to DEL MONTE.

PHILIPPINES.

Traffic from BAGUIO to CEBU was very heavy and probably concerned plans to evacuate CEBU. The C.O.S.14 AREA ARMY was addressed at CEBU by SAIGON. At 262010/1, CEBU told IMPALUTAO "Am moving from here now, please listen in for certain from 0800 on 27th." As the move only takes 12 hours it cannot be very far from CEBU CITY.

CEBU was also in contact with "CANQUIPOT" and with elements of 55 IMB.

On MINDANAO army activity was chiefly between IMPALUTAO and DAVAO.

There is some evidence of a radio circuit between JOLO and IMPALUTAO which means that 35 Army is still concerned with 55 IMB.

ZAMBOANGA sent the following message to IMPALUTAO via DAVAO "owing to shortage in expendable equipment, we regret that our transmission is bad and communication is impossible, we thank you for your co-operation."

IMPALUTAO did not BOTHER to call ZAMBOANGA.

On MINDANAO, DEL MONTE and LASANG were active between themselves and with BACOLOD. There was substantial traffic at BACOLOD with DEL MONTE, VALENCIA and LASANG as principal addressees but contact was also maintained with JOLO, CEBU and SAN JOSE.

A message from BACOLOD EAST to SAN JOSE was addressed to "C.O.YOSHIOKA UNIT"

A message from BACOLOD to BAGUIO at 271000 "Enemy ships departed ..... things here are all right but soon ....."

INFORMATION FROM ENEMY RADIO ACTIVITY ON 14th MARCH.
(FROM CENTRAL BUREAU SOURCES)

1. On March 12th, JOLO addressed a message to WASHI BUTAI and signed it from YAMAMOTO BUTAI.

2. On 13th March at 0940 JOLO sent the following message to BACOLOD "At 0155 what appeared to be Torpedo Boats minesweeping 1000 metres off the shore, (part missed) and headed west. From SHO ATTACK UNIT"

3. Message originated by BACOLOD on 13th March at 1915 and broadcast "(part missed)sound of gunfire increased in intensity. At 1510, one P/T boat patrolling on the horizon off the right tip of (rest missed)"

4. Message originated by JOLO on 14th March at 0600 "Time 0600. Two enemy Torpedo Boats after shelling ground positions proceeded east distance 2 Kilos."

5. A Broadcast message originated by ZAMBOANGA on 14th March at 1030 "At 2200 on the 9th the enemy landing began. At 0200 on the 10th this station moved into the KAPI MOUNTAINS 15 kilos north of ZAMBOANGA. As we were gathering the signal equipment together, communication was broken off."

NOTE. KARI mountains unlocated, but it is now known that the new location of the ZAMBOANGA STATION is 15 miles north of ZAMBOANGA CITY.

SUMMARY OF ENEMY RADIO ACTIVITY FOR 13th MARCH.

1. BAGUIO continues to dominate the internal LUZON radio networks with substantial traffic to BALETE PASS, DUPAX, BAMBANG and LAL LO. BAMBANG was the only station to return a substantial volume of traffic to BAGUIO.

2. A "GEKI" message addressed to the "C.O.S., 14th Area Army BAMBANG" again suggests that the 14th Area Army HQ at Baguio is planning to move or is in process of moving to BAMBANG. Other evidence suggests that the HQ for the defence of the BAGUIO area will be located in the vicinity of Mt. SANTO TOMAS.

3. LAL-LO originated two messages for NAGASAKI and one for TOKUSHIMA.

4. IMPALUTAO - Activity at IMPALUTAO remains substantial, and traffic with BACOLOD gives added evidence of the move of part of 35 ARMY to IMPALUTAO

5. HEAVY traffic for BACOLOD was a feature of CEBU activity and substantial traffic at DAVAO was chiefly for IMPALUTAO.

6. ZAMBOANGA re-established communications only with DAVAO and was not in communication with IMPALUTAO, CEBU or JOLO. JOLO was out of contact with IMPALUTAO.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

7. On 13th March at 0019 CEBU said to BACOLOD "Strength not known, only sound of gunfire heard."

8. Heavy traffic from BAGUIO to DAVAO, CEBU and IMPALUTAO shows its concern with the MINDANAO situation.

9. Traffic between LIMBOENG (MACASSAR) and CAGAYAN suggests 2 Air Div. may be going from BACOLOD to CAGAYAN and not to DEL MONTE as suggested.

10. HEITO addressed traffic to DAVAO KO (believed to be an ARMY AIR HQ at DAVAO)

11. Traffic observed between DEL MONTE and YEHO.

12. Heavy traffic between BACOLOD and LASANG and VALENCIA. Traffic between BANQUERO and MACTAN for the first time this month.

MAIN FEATURES OF ENEMY RADIO ACTIVITY FOR 12th MARCH.
(FROM CENTRAL BUREAU SOURCES)

1. With the exception of BAMBANG,whose traffic for BAGUIO was somewhat above par,internal LUZON activity was generally light. As a reflection on the state of the enemy's communications,BAGUIO,BALETE PASS,LAL-LO and BATAN IS.are still trying to clear messages originated as far back as 5th March.

2. A message from BAGUIO for the "Geki" C.O.S. was relayed by DUPAX to an unlocated station,again suggesting that the GEKI (2nd Armoured Div) HQ.have moved.

3. SANTO TOMAS (probably Mt.Santo Tomas,west of Camp Four) made its first appearance in traffic,originating a message for Lal-Lo. BOSOBOSO also made its debut with a message for BAGUIO.

4. LAL-LO contacts during the period included BAGUIO,BAMBANG,ECHAGUE, SANTO TOMAS,FUKAKUSA and TAKAO.

5. While activity among 35 ARMY units was on a low scale,ARMY AIR traffic, particularly at BACOLOD,DEL MONTE,LASANG,and VALENZIA was very heavy. Heavy traffic was noted between CAGAYAN and CEBU probably concerning transportation.

6. JOLO - There was no traffic from JOLO for the first time in over a month, and there is some evidence that the JOLO -CEBU link is closing down.

7. The "ORMOC" unit was active with CEBU and BAGUIO during the period.

MAIN FEATURES OF ENEMY RADIO ACTIVITY FOR 11th MARCH.
(FROM CENTRAL BUREAU SOURCES).

1. Generally Army and Army Air activity throughout the PHILIPPINES was somewhat reduced.
IMPALUTAO continues to be the centre of importance and is in contact with all 35 Army units along with CEBU,BAGUIO,SAIGON and TOKIO.

2. Neither the ARMY or ARMY AIR stations at ZAMBOANGA were active during 11th March.

3. Right activity at CEBU. Traffic continues to suggest shipping activity directed from BACOLOD and affecting ILO ILO and DAVAO.

4. Army Air activity heavy at DEL MONTE especially with BACOLOD. Message from DEL MONTE to MUTANGKIANG may possibly concern two Flying Divisions which at one time had elements at MUTANGKIANG.
Activity at BACOLOD was the lowest in two weeks,but it received traffic from TUGUEGARAO for the first time in two weeks.

MAIN FEATURES OF ENEMY RADIO ACTIVITY FOR 10th MARCH.
(FROM CENTRAL BUREAU SOURCES)

1. There was only routine air activity throughout the Philippines.

2. IMPALUTAO - Activity suggests a HQ.higher than just for the 30 Div,, possibly advanced HQ.of 35 ARMY,in charge of ground activity on MINDANAO.
IMPALUTAO continues to address traffic to BAGUIO,SAIGON,and TOKYO, all subordinate units of 35 ARMY,and even the "ORMOC" unit.

3. ZAMBOANGA continues with heavy Army traffic. On 10th March the Radio Station told CEBU "I am closing down. I expect to communicate on the 11th."

4. CEBU activity is very low.

5. ILO ILO activity in which DAVAO is interested seems to involve shipping.

6. A pronounced revival of activity over internal LUZON circuits has been observed during the past two days. Of particular significance was a record burst of traffic from WAWA to BAGUIO,which may indicate some new development in the enemy's plans for the defence of that area.

7. There is some slight evidence that the HQ.of the 2nd Armoured Div.may possibl have moved from DUPAX recently. Messages from BAGUIO to the C.O.S. of this unit on 10th March were sent to a station the location of which has not been determined.

8. There are some indications that BAMBANG may be a more important base than its traffic volume would indicate. There have been many instances of messages from both LAL LO and WAWA being co-addressed to BAGUIO and BAMBANG. On 9th March,two messages from DUPAX (possibly 2nd Armoured Div. HQ.) to a station possibly at BAMBANG were addressed "To the Chief of Staff 14th Area Army and BAMBANG". There is a possibility that the HQ.of the 14th Area Army may plan to move to BAMBANG when BAGUIO becomes untenable.

1. Message from JOLO originated at 102240 "In view of the fact that the enemy bombardment has shifted from PANTA MARGA, three kilos north from the sea coast (6.55' N. 122.05' E.) to PASONANGA, five kilos from the coast (7.00' N. 122.05' E.) and that a bombardment is developing in that sector it appears that the enemy xxx intends to make a thrust into the same area, which is in the hands of Naval Forces, meanwhile he is strictly withholding his dispositions."

2. Message originated by JOLO at 102020 "
Paragraph 1 . Battle position of 33 Garrison Units Jolo 10th March. Enemy Battleships from force of three battleships, 2 cruisers, 5 destroyers, 10 mine sweepers, 70 transports (10 large 60 small), 90 landing craft began bombarding ISABELLA from 0557 and the environs of the airfield from 0637. From 1145 the cruisers also took up the bombardment."
Paragraph 2 "it continued until 1400. From 0845 - 1030, 80 B.24s bombed the airfield area. At 0945 the enemy commenced landing on the centre of the coastline on the old army airfield. It is confirmed that by 1130, 8 tanks and about 1500 men had effected a landing."

3. Message originated by Jolo at 102300 for broadcast :
Part 4. "At 1000 two enemy P.T.boats burst into Isabella Harbour (BASILAN ISLAND) according to a message from ZAMBOANGA NAVAL GARRISON to JOLO NAVAL GARRISON."

~~TOP SECRET~~.

MAIN FEATURES OF ENEMY RADIO ACTIVITY FOR 9th MARCH.
(FROM CENTRAL BUREAU SOURCES)

1. Activity throughout the MINDANAO area increased both in volume and in addressees. This was especially so at IMPALUTAO which sent traffic to 35 ARMY HQS.at CEBU,all subordinate 35 Army units,and to higher Commands at BAGUIO,SAIGON and TOKIO. This traffic seems to be concerned with the allied threat at ZAMBOANGA.

2. Traffic at CEBU remains normal indicating that IMPALUTAO has taken over control of the MINDANAO area and probably acts as an advanced 35 ARMY HQS.

3. There appears to be evidence of some army activity at ILO ILO.

4. ZAMBOANGA army traffic was heavy,but surprisingly there was no ARMY AIR activity.

5. CEBU traffic with FABRICA continues to indicate shipping activity between CEBU,NEGROS and PANAY. The Chief of Staff 35 Army is still being addressed at CEBU by BACOLOD WEST.

6. DEL MONTE originated a message to "Chief of Staff War Ministry".

7. Activity at BACOLOD was the heaviest observed in two weeks. Again messages were re-directed from BACOLOD to ECHAGUE which together with heavy traffic to ECHAGUE may indicate some move of HQ.personnel to ECHAGUE.

8. LUZON. Restoration of communications between BAGUIO and BALETE PASS and BAGUIO and BAMBANG caused a considerable increase in the volume of traffic passed over internal LUZON circuits. BAGUIO and LAL LO however are still having difficulty in maintaining radio contact.
The bulk of the traffic during the period was passed by BAGUIO to DUPAX and BALETE PASS and by BAMBANG to BAGUIO.
BALETE PASS COMMUNICATED with TOKIO and possibly FUKUCHIYAMA during the period.

The following message,while not concerning the Philippines,is of interest. It was originated by KUCHING ANCHORAGE (Borneo).
"At 1050 hours on the 9th,the NIIKAMARU was strafed and bombed by five waves of B.24s at a point 8 miles upstream from the mouth of the ?Rajian? River,and was sunk. Extent of damage to personnel - one ?woman? passenger received three machine-gun wounds."

SUMMARY OF ENEMY RADIO ACTIVITY FOR PERIOD 9th MARCH.
FROM CENTRAL BUREAU SOURCES

1.. Heavy traffic was observed at ZAMBOANGA but all Army, no ARMY AIR .
ZAMBOANGA addressed a message to IMPALUTAO: 35 Army Intelligence.
The following messages are from Pearl Sources:-
ZAMBOANGA originated 9th MARCH 2000, " 1400 Although landing craft attempted to land they were repulsed 1500 Although landing craft were patrolling and attacking to the South West of the Southern airfield they were repulsed. Morale is high."
DEL MONTE originated for BACOLOD on 9th MARCH 2200:
at ZAMBOANGA at 21? minutes, details unknown" . From Washi Staff Officer to Chief of Staff Washi Butai.
From ZAMBOANGA on 9th March: " In order to improve communications 4 personnel braving bombardment made their way into Naval Equipment Store and succeeded in bringing back transmitter".

2. Traffic was observed between DAVAO and ILO ILO for the first time in over a month. There is some evidence of Army Activity at ILO ILO.

3. Despite activity in MINDANAO there is only moderate activity at CEBU, indicating most of the control of MINDANAO is at IMPALUTAO.

4. Traffic from CEBU to FABRICA addressed to 35 ARMY SHIPPING UNIT suggests continued shipping activity at CEBU, NEGROS and PANAY.
The Chief of Staff 35 ARMY was addressed at CEBU by BACOLOD WEST.

5. DEL MONTE sent a message to TOKYO addressed: Chief of War Ministry Staff.

6. ARMY AIR traffic was observed possibly for the first time between CEBU and SILAY.

7. Very heavy traffic was observed at BACOLOD especially ECHAGUE connections, and there is further evidende of movement of personnel to ECHAGUE.

1. Army activity throughout 35 ARMY circuits was very light. ZAMBOANGA was very active but mostly sending messages concerned with allied activity off ZAMBOANGA.
C.O.S.35 ARMY addressed at CEBU by BACOLOD.
C.O.No.1 Field Replacement Depot Shipping Engineers addressed at CEBU by SINGAPORE shipping.

2. Brisk Army Air Activity at DEL MONTE especially with MINDANAO ARMY AIR Bases. Steady activity at BACOLOD. Traffic suggests some Army Air Personnel leaving BACOLOD for ECHAGUE probably to leave PHILIPPINES via LUZON.
C.O.67 Hikosentai addressed at API by JOLO.

3. Activity over internal LUZON circuits continues to decline to an exceedingly low level. Both LAL LO and BAMBANG were unable to make radio contact with BAGUIO during the period. BAGUIO in its turn had considerable difficulty in maintaining satisfactory communications with WAWA. Communications between BALETE PASS and BAGUIO appear to have been restored, and all messages for BALETE PASS were retransmissions of messages sent on 4th and 5th March.

4. Message from ZAMBOANGA to BACOLOD at 081300 "As when this station moves receivers and batteries are being taken along. We want you to continue sending if contact is broken."

SUMMARY OF ENEMY RADIO ACTIVITY FOR 2nd MARCH.
FROM CENTRAL BUREAU SOURCES

There was routine traffic only between 35 ARMY HQRS and its subordinate units.

1. CEBU received a message from ILO ILO addressed to the C.O. SOUTHERN EXPEDITIONARY ARMY #10678 BUTAI. The Chief of Staff of 35 ARMY was addressed at CEBU by BACOLOD TE and API.

2. BACOLOD Signals Office sent messages to CEBU addressed :- "35 ARMY SHIPPING " and " C.O. CEBU DETACHMENT DENSEI UNIT ".

3. ZAMBOANGA was very active in ARMY AIR matters and appears to be one of control or suggested withdrawal of ARMY AIR personnel to BORNEO bases.

Over Internal LUZON circuits activity conformed to the usual pattern but a general increase in the volumne of traffic was observed.

1. LAL LO originated traffic for ECHAGUE, BAGUIO, BAMBANG and BATAN ISLAND.
2. DUPAX had substantial activity with BAGUIO.
3. BAGUIO was active with LAL LO, WAWA, DUPAX, BAMBANG and BALETE PASS. Also with TANGEDON, LUCBAN (13.05 N. 123.55 E.), MORONG (NUEVA VIZCAYA) and BAGABAG.
4. BAMBANG had considerable traffic exchange with BAGUIO. Also for LAL LO and WAWA.

MAIN FEATURES OF ENEMY RADIO ACTIVITY FOR 24th FEB. 1945
FROM CENTRAL BUREAU SOURCES

1. There was activity observed between the MINDANAO ARMY AIR BASES of DALIAO, CAGAYAN and VALENCIA.
There was alsosome evidence of activity among MINDANAO ARMY Bases at DAVAO, IMPALUTAO, ZAMBOANGA and JOLO.
A message from DEL MONTE to LASANG was addressed;
" C.O. No.1 Signals Unit from C.O. 23 Wireless Signals Unit."
Two messages that were originated at SANDAKAN and sent to TALISAY were redirected to ZAMBOANGA. THese messages were addressed to 45 Dokuritsu Hikochutai. It is probcble that this Unit is now at ZAMBOANGA.

2. Activity was normal at CEBU. HIROSHIMA addressed the C.O. 35 ARMY SHIPPING UNIT at CEBU.
Four messages were sent by SAIGON to CEBU addressed to the Chief of Staff, 35 ARMY
BACOLOD originated a message for CEBU addressed; 12944 (3 SHIPPING TRANSPORT COMMAND, SOUTHERN AREA ARMY).
There was a decline in the observed activity at BACOLOD.

3. There was traffic between PUERTO PRINCESA and TUGUEGARAO.

4. The activity at BAGUIO was highest since January 26th and included messages to 35 ARMY HQRS., the unlocated "ORMDC" unit, DAVAO, IMPALUTAO, ZAMBOANGA and JOLO.
On LUZON substantial traffic was equally divided between WAWA and LAL LO with messages also going to DUPAX and SAN JOSE. These appear to be principal enemy headquarters on LUZON under command of BAGUIO.
BALETE PASS now addresses its traffic to LAL LO not BAGUIO.
BAMBANG originated traffic for DAVAO for the first time.
ECHAGUE sent traffic to BAMBANG and NORTH BAMBANG.
LAL LO sent messages to BAGUIO and BAMBANG.

MAIN FEATURES OF ENEMY RADIO ACTIVITY FOR 23rd FEB.
FROM CENTRAL BUREAU SOURCES

1. Substantial activity continues at CEBU. SAIGON sent a message to CEBU addressed "C.O. 35 ARMY SHIPPING UNIT "
BACOLOD signals Office originated a message for CEBU addressed " C.O. DETACHMENT AT CEBU (probably message) OFFICE " (This is a probable and partial translation).

2. Messages appeared purporting to have been originated at ORMOC and were addressed to BAGUIO. This traffic came from the unlocated Radio Station serving a Unit of 35 ARMY mentioned in previous reports. It is suggested that the term ORMOC is used to designate elements which escaped from LEYTE and may now have moved to TICAO, MASBATE or some island in that area.

3. Heavy activity at BACOLOD. BACOLOD's control of ARMY AIR activity extends in two directions, first to MINDANAO AIR BASES such as DEL MONTE, CAGAYAN, and LASANG and to bases in CENTRAL PHILIPPINES at DUMAGUETE, CABATUAN, PUERTO PRINCESA which are associated with BORNEO BASES at API, SANDAKAN and KUDAT.

4. CEBU sent a message to FABRICA addressed C.O. 35 ARMY SHIPPING UNIT. This is unusaul since FABRICA is an ARMY AIR base.
CEBU originated a message for BACOLOD addressed "61 ANCHORAGE BRANCH"

5. Substantial activity in LUZON and except for small amount of traffic for CEBU, BACOLOD, DAVAO and IMPALUTAO the bulk of the traffic was about equally divided between WAWA, LAL LO, SAN JOSE and DUPAX.
BAMBANG sent a message to LAL LO.
DUPAX originated traffic for BAGUIO and BALETE PASS.
Message from BACOLOD to IPO for " 2nd. Lt. SAITO care 12 AIR SIGNALS REGIMENT." ~~[illegible]~~ asking the present whereabouts of certain personnel and signed C.O. 99421 BUTAI.
Principal connection of LAL LO is with BAGUIO and regular traffic with TOKYO and BAMBANG. Traffic was also addressed to DUPAX.
MONTALBAN addressed message to LASANG for first time (Suggested traffic being passed for IPO).
TANGODAN and WAWA sent traffic to BAGUIO.
