

DR. RALPH LUSBY

LEAVES GLENDALE FOR A BETTER PROFESSIONAL FIELD IN SAN FERNANDO

The many friends of Dr. Ralph Lusby, who recently returned to practice in this city after discharge from army service, will learn with a feeling that is stronger than regret that he has been enticed away from this field and persuaded to locate in San Fernando. He is giving up his office and practice here the last of the present week and in explaining the change says he has been persuaded that San Fernando, which has a present population of about four thousand souls, is a coming town and a very desirable location for a professional man. Besides its urban population it draws from a wide surrounding country rich in agricultural resources and has every resource with which to build up a prosperous city. He has secured a very desirable office in the First National Bank Building of San Fernando, which will be furnished and equipped on the most modern lines and he has already been assured of a warm welcome in social and musical circles of the town with which he intends to thoroughly identify himself. He will reside at the Porter Hotel where he has obtained very satisfactory bachelor accommodations. In the meantime he promises not to entirely forget Glendale where he has many relatives and a host of friends and well wishers, who will miss him but rejoice in his prosperity.

THE CITY RECORDER'S DUTIES

Judge Lowe, City Recorder of Glendale thinks the activity of the traffic officer of Glendale and the fines imposed on speeders during January had a salutary effect on the motoring public which is inclined to break speed regulations for there were comparatively few infractions of the law in February.

The judge is quite as often called upon to settle cases out of court as to bring offenders into court. In the interest of community harmony he tries to bring disputants together in an amicable adjustment. He thinks the neighborhood feud is a very great damage to any town and he does all he can to reduce such friction here.

SUNDAY SCHOOL TEACHERS DINE

Teachers in the Tropico Presbyterian Sunday School met Tuesday evening at the church to discuss the best interests of the school and enjoyed a dinner served by Mrs. S. E. Brown, assisted by Mesdames Alexander and Cullingworth of the Primary Department. The surprise of the feast was a birthday cake for Mrs. O. P. Rider, who was to celebrate her advent into "this vale of tears and smiles" the day following. Spring flowers were used in decoration and it was a delightfully social as well as profitable meeting.

BURBANK HONORED

ARBOR DAY EXERCISES, INTERMEDIATE, INCLUDE DIALOGUE BY KATHLEEN CAMPBELL

The California Schools adopted a practical method of showing their appreciation of Luther Burbank and his work when they named March 7th, his birthday, as Arbor Day. As the regular assembly day at Intermediate fell on the 5th instead of the 7th, the Arbor Day program was put on then and it included some novelties which were ingenious and creditable. It was in charge of Miss White, director of agriculture, and the first number was a biography of the great originator of varieties, entitled, "The Flower Wizard," which was read by William Bishop. Shirley Chase then recited the charming "Robert O' Lincoln," there was a musical number and then an original dialogue written by Miss Kathleen Campbell, daughter of Mr. and Mrs. Dan Campbell, was put on by Kathleen and little Margaret Brown, daughter of Mr. and Mrs. Archibald H. Brown.

In proper garden togs and carrying a hoe, rake and other equipment, Kathleen represented the farmerette while her dialogue partner dressed in a green and gold caterpillar suit and a green cap and antenna, wriggled on to the stage in most suggestive fashion as the enemy of the farmerette. A spirited dialogue of re-creation followed, the little caterpillar putting up quite a defense and resisting all attacks until the poison spray was applied when it gave up the ghost.

The program closed with the singing of "Star Spangled Banner" and salute to the flag.

GLENDALE EVENING NEWS AS A TEXT BOOK

The Evening News is being used for the instruction of classes in civics in Glendale schools with an increase of interest among the pupils and enthusiasm on the part of teachers. In a recent lesson having to do with civic betterments, the report of the Greater Glendale Development Association meeting was read and the activities there reported were discussed by students. The work of the Community Sing was also made a part of the lesson.

RETURNS FROM CAMP

DAVID BLACK TO BE RELEASED FROM Y. M. C. A. WORK AT SAN DIEGO IN HOSPITAL

Mr. and Mrs. David Black of 1450 Kenneth Road will return to Glendale soon from San Diego where Mr. Black has had charge of the Y. M. C. A. work of the large base hospital near Camp Kearny. The hospital has a capacity of 2,000 beds. Since the demobilization of the 16th Division the work has been much reduced. Mr. Black has greatly enjoyed this work and while he dislikes the thought of leaving the boys he will be glad to be home again and have his family all with him. Mr. Black may have to return to Camp about April 1st to oversee the Y. M. C. A. part in some reconstruction work that is being started in connection with overseas features.

GETTING ESTIMATES

HENRY-BROWNE CO. WORKING ON PRELIMINARIES OF NEW LOCATION

The Henry-Browne Company, manufacturers of Sierra Beverages, are getting estimates from contractors for the remodeling of the building recently purchased by the firm at the corner of Wilson avenue and Isabel. A good many changes will be required to make it fit their needs as they will install more than double the machinery equipment of their present place of business and will also build an addition on the adjoining lot, which the firm owns, to provide a garage and shipping room. They hope to be established in their new location and ready to double and treble their output by the middle of April.

MEN WANTED

There is a call at the City Hall for men to register for jobs. The employers have been coming seeking help, but Miss Wilson who keeps the registry in the office of the City Clerk, has not been able to meet their demands. She says that men are wanted who can act as watchmen, who can drive autos or trucks, or do work with a team. This employment bureau is maintained by the city without cost to the man who wants a job or the employer, so if there are men seeking work, they should go to the City Hall and register with Miss Wilson without delay. The bureau is not limited to soldiers and sailors.

CARNATION REBEKAH LODGE

Carnation Rebekah Lodge met in the old hall on Tuesday night for the last time and hereafter will be found at the new location in Central building. At the next meeting an auction will be held when home-made pies and cakes will be sold; also the robes which have been used by the team, the proceeds to go towards the new orphans' home. The old one is entirely inadequate as 20 children were left orphans by the recent epidemic and must be cared for by the I. O. O. F. Lodge. The robes are of the finest quality soisette and in good condition and will be sold to the highest bidder.

THE LETTER CAME AT LAST

F. H. Robinson and wife of 139 N. Glendale Ave. were mightily relieved a few days ago on hearing from their son, F. H., Jr. This was the first letter in over three months and they had become very uneasy. He had had the flu and was in a hospital for several weeks. He is again on duty on a receiving ship in Liverpool harbor. His duty is to assist in gathering up convalescents from the various military hospitals in Liverpool and nearby cities and routing them for home on the various transports. He will have to remain till all the wounded have been sent home, which will be not before August, he thinks.

GERMAN GOVERNMENT HAS UPPER HAND

GOVERNMENT TROOPS HAVE DRIVEN REVOLUTIONISTS TO OUTLYING SECTIONS OF BERLIN

(Special Service to Glendale Evening News)
Berlin, March 6.—The government appears to have the upper hand in the Spartacan revolt. Government troops have driven the revolutionists to the outlying sections of the city and have shut them off from all important points with barbed wire entanglements. The revolutionists have been forced to limit their activities to sniping, and the casualties are extremely light. Many factory employes have refused to join the strike, and the telephone system is still operating.

REVOLUTIONARY FORCES DWINDLED

REDUCED TO A FEW LAST STANDS IN BERLIN, WHERE LOOTING OF FOOD AND JEWELRY STORES CONTINUES

(Special Service to Glendale Evening News)
London, March 6.—Dispatches from many sources received today indicated that the Spartacan revolt in Germany has been reduced to a few last stands in isolated sections of Berlin. Half-hearted support from workers and military demonstrations on the part of the government have apparently broken the revolt. There is still some looting in Berlin, mostly of food shops and jewelry stores.

HOG PRICES TO SOAR

PACKERS PREDICT THAT VALUES OF PORK IN SOUTHERN CALIFORNIA WILL NOT BE AFFECTED

(Special Service to Glendale Evening News)
Chicago, March 6.—Experts here today declared the lid is off of pork prices and predicted an immediate increase in hog prices far beyond last winter's record of \$20.

Los Angeles, March 6.—Representatives of three leading packers today agreed that Southern California retail pork prices are not likely to be affected by the increased price quoted in Chicago.

H. C. L. REDUCED IN FRANCE

GOVERNMENT OPENS WAREHOUSES AND SELLS FOOD AT FIGURES DESIGNED TO BRING DOWN PRICES 40%

(Special Service to Glendale Evening News)
Paris, March 6.—The French government has started a drive against profiteering designed to reduce the cost of living 40 per cent in the next two weeks.

The government has opened fifteen large warehouses, where it has started selling provisions at prices far below what the retailers are asking. Similar action will be taken throughout the country.

Government figures show that a model certified ration costs 65c a day in Paris, 42c in New York and 35c in London. The government plans to bring the cost here to 39c.

NEW CALIFORNIA CONSTITUTION

COMMITTEE ON AMENDMENTS IN LEGISLATURE CONSIDERING CALLING CONSTITUTIONAL CONVENTION

(Special Service to Glendale Evening News)
Sacramento, March 6.—The committee on amendments is meeting today to consider calling a convention to frame a new state constitution.

RAYMOND ROBINS REPROACHES U. S.

SAYS FAILURE TO RESPOND TO RED CROSS APPEALS FOR AID AGAINST BOLSHEVIKI GAVE RADICALS CONTROL

(Special Service to Glendale Evening News)
Washington, March 6.—Raymond Robins, a member of the American Red Cross mission to Russia, testified before the Senate Bolsheviki investigating committee today that the failure of the United States to reply promptly to the appeals of the Red Cross for help in opposing the Bolsheviki gave the radicals control of Russia. He denied charges that Colonel Thompson, head of the mission, had helped Bolsheviki.

Robins declared that Allied propaganda in Russia has been worse than nothing, and that it consisted of posters telling how great France was, how mighty England was, and how overwhelming America will be.

PRELIMINARY PEACE COMPLETED TODAY

Paris, March 6.—Today's war council session is expected to practically complete military and naval terms of the preliminary peace with Germany.

CANNOT RETURN RAINBOW DIVISION NOW

Washington, March 6.—Secretary Baker today notified Secretary Glass that it will be impossible to bring the Rainbow Division home in time to participate in the next Liberty Loan campaign.

DES MOINES MAYOR ELECTED BY GLENDALE MAN'S VOTE

There is a man in Glendale who once elected a mayor of the City of Des Moines, Iowa. He voted at 7 a. m., left for Kansas one hour later and never saw Des Moines again. The man he voted for was elected mayor by one vote, hence the Glendale man insists that he elected the mayor. He moved from Abilene, Kansas, to St. Louis, Mo., and from there to Glendale where he now ministers to one of our churches. Can you guess his name?

PLEASANT FUNCTION

MRS. D. E. JOHNSTON ENTERTAINS FOR DAUGHTER ON EVE OF DEPARTURE FOR L. A.

Mrs. D. E. Johnston was hostess at a farewell party for her daughter, Christina Ferriss, Wednesday evening, at the Johnston home, 207 1/2 Hawthorne street, which they are giving up today to make their residence in Los Angeles.

The young people spent a delightful evening dancing and playing games and at its close were summoned to a supper table, beautiful in its appointments and centered with pink and white sweet peas, where delicious refreshments were served.

Covers were laid for Misses Dottie and Billie Gregg, Martha Ray, Marcella Miller, Christina Ferriss, Mr. and Mrs. Harry Wilson, Harold McGillis, Fred Dodge, Robert Blackburn, Marshall Pearson, Harold Russell, and the hostess, Mrs. Johnston.

The Johnstons have a large circle of friends in Glendale and will be greatly missed.

FAREWELL PARTY

MR. AND MRS. H. P. GOODWIN ENTERTAIN FOR WILDE AND McFADDEN FAMILIES

A quite informal and impromptu party, but nevertheless an exceedingly pretty one, was given Wednesday evening by Mr. and Mrs. H. P. Goodwin of 212 West Garfield avenue to especially honor Messrs. Ben Wilde and Wilbur McFadden, who are leaving for Bakersfield where they are establishing the agency for the Nash automobile.

The evening was devoted for the most part to Five Hundred though it ended in a "sing," and very suggestive were the tally cards provided by the hostess, a hand-painted representation of the bell and standard which marks the route of the Camino Real, its little sign being inscribed "Bakersfield."

The high score for the gentlemen was made by Mr. Wilde and high score for the ladies by Mrs. Emil Tholen who insisted that the honors should be divided between the families who were special guests and so bestowed the little hand-made fancy handkerchief she had won upon Mrs. McFadden.

Spring spoke in the floral accessories, the living rooms being beautifully decorated with peach blossoms and jonquils. When the two-course supper was served at the close of play, guests gathered around a table, beautiful with more spring flowers in the pastelle shades. Centering the board was a large cut-glass compote filled with pale blue and pink hyacinths, fresas, jonquils, pink sweet peas and fern and surrounded with pink candles.

The surprise of the evening came when a handsome birthday cake was placed before Mr. McFadden, beautifully decorated in the pastelle shades, repeated in the candles which surrounded it and which were aflame when it was brought in.

As the special celebrant, Mr. McFadden was made the toast of the evening by the host who mingled with his congratulations the regrets which his friends all feel in parting with McFadden and Wilde families and the hope they entertain that some day Glendale will again possess them as residents.

Guests of the evening were: Messrs. and Mesdames Benjamin Wilde, Wilbur McFadden, Walter Stamps, W. E. Evans, Albert Pearce, J. G. Huntley and Mrs. Emil Tholen.

Chapter A. H. of the P. E. O. will be entertained Friday by Mrs. Edward M. Lynch at her home, 807 South Maryland. An informal luncheon will be served at noon which will be followed by a business session at which officers will be elected and installed. There will be no program.

FIRE ENGINE TEST

EVERYBODY INVITED TO WITNESS TRY-OUT OF NEW AMERICAN-LA FRANCE ENGINE

The beautiful new American-La France fire engine, recently purchased by the city of Glendale at a cost of \$10,000, will be given an official test Friday morning of the present week, beginning at 9:30 o'clock, at the junction of Howard and Doran Streets, where there is a large open space well adapted to such a test. It will probably last all the forenoon, and citizens are invited to come out and witness it. It will be conducted by the fire insurance underwriters of the Los Angeles district, and on their verdict will depend the completion of the purchase transaction by the city.

COUSINS DISCOVERED

Mrs. Gertrude Follansbee and her mother, Mrs. Wright, of 310 Maryland Avenue, spent Monday in Pasadena as guests of Mr. and Mrs. John Childs and Mr. and Mrs. Woolley, cousins whom they have recently discovered through the kind offices of an uncle in Yakima, who knew that the three families were in California and brought them together. Mrs. Follansbee had never met them until they visited Pasadena. Mr. Woolley is the inventor of a substitute for gasoline soon to be patented, which promises to make him a rich man. It has been thoroughly tested and he is already manufacturing it in small quantities and retailing it to his friends, who are enthusiastic over it. As soon as he receives letters patent it will be made in quantity by one of the large concerns.

TO SAIL FOR ORIENT

Mrs. W. Lindsay of 142 Wabasso Way, Glendale Heights, has been entertaining house guests who have been taking in the sights of Southern California and who are very much delighted with Los Angeles county and its people. The party included Major and Mrs. Bidwell and Miss England, who are leaving for Shanghai, China, in the near future, and Mrs. Stokeley of San Francisco.

PVT. ROBERT McLAREN

DESCRIBES VILLAGE OF ST. VINCENT, FRANCE, WHERE HE IS STATIONED

Mrs. M. McLaren of 303 North Jackson street is happy in the receipt of a letter of recent date from her son, Private Robert McLaren, dated from St. Vincent, France. As it gives quite a picture of life in a French village, she kindly permits the Evening News to publish it herewith:

"St. Vincent, France, "Feb. 1, 1919.

"Dearest Mother:— It is snowing today and not very cold. Everything sure looks pretty all covered with white.

"I saw a French wedding the other day in the little church in this town. Some of the people had their wooden shoes on, in fact, they wear them over here all the time. There is very little here, only a church, a small store and a few houses. I do not see many young people around, but mostly old people and children. The church bells just rang twice for the quarter hour. It rings four times for the half, six times for the three-quarters, eight times for the hour, and then it strikes twice for whatever the hour may be, so we always know about what time it is.

"We are not doing much drilling now on account of the weather and may be leaving here soon, but do not know for sure.

"I have not had a chance to have a picture taken; wish I could get some for you.

"I received the present from Dad all O. K., but I have not received your Christmas package nor the one from Uncle Will. I suppose they got lost. Do not send any more, they get lost too easy.

"We had a divisional parade the other day and General Pershing reviewed us. Quite a number of the men received D. S. C.

"There is a little white dog here that goes all over with the boys, follows them on all their parades, hikes and drills. He will not have anything to do with the French people, but is always around with the American soldiers.

"Well, Dear Mother, I cannot think of anything else to tell you this time so will close with lots of love to all.

"Your son,

"ROB."
Prvt. Robert McLaren,
Co. M., 362d Inf.,
A. E. F.

THE GLENDALE EVENING NEWS

THE EVENING NEWS IS NOT SENT TO PERSONS WHOSE SUBSCRIPTIONS ARE NOT PAID IN ADVANCE

GLENDALE, CALIFORNIA, THURSDAY, MARCH 6, 1919

TO TALK OR NOT TO TALK

According to reports this morning, telephone operators and employes of all kinds have voted to strike unless Postmaster General Burleson allows the increase in wages demanded and recognizes the union. Operators to the number of 9,000 are involved, and 3,000 linemen. The wage increase demanded is from \$4.75 to \$6.40 for men, and from \$9 to \$14 a week to \$4 to \$6 a day for women. Heads of local organizations of workers are forbidden by an executive order from headquarters of the brotherhood to agree to any increase offered by the Pacific Telephone and Telegraph Company.

WRITE "CALIF.," NOT "CAL."

The post office department has officially designated "Calif." as the proper abbreviation for California in addressing letters instead of "Cal.," as the latter is so often mistaken for Colorado. Correspondents are urged to conform to this ruling, thus preventing delays in receiving mail, as well as trouble for the mail clerks.

SOMETHING NEW UNDER THE SUN

Many world-old proverbs are receiving a black eye in this age of marvelous inventions. Tuesday a surgeon on one of the transports homeward bound with wounded soldier boys prescribed treatment, by wireless telephone and telegraph, for patients on two other transports, after receiving reports of their condition by the same medium. Guess there really is something new under the sun after all, Uncle Solomon.

A PRECIOUS REJECTION

A rejection of offered service is not generally regarded as a badge of honor, yet that is the way Lieutenant Georges Mesnager of Los Angeles and France regards his. In the pride of his lusty young manhood he went forward as a 22-year-old volunteer when his beloved France came to a death grapple with the mighty Hun in 1871. As a gray-haired youth of 70 he came back this week to his adopted country and is now on the way to his Southland home, Los Angeles, bearing on his breast his precious Croix de Guerre, given him for gallantry in the Franco-Prussian war and a similar decoration for valued services rendered the land of his birth during her awful travail of 1914-1918. But in his possession is an equally precious slip of paper conveying the official rejection of his eagerly offered services in any capacity to the land of his adoption. France and America join in giving honor to this gallant son. And when he arrives to resume again his work as a humble notary, Los Angeles will give him a reception that will warm his heart.

WILL IT NEVER END?

More than two months ago we were informed by the War Department that the casualties in all branches of the service during the world war totalled 236,000. This included killed, wounded and missing, and was said to be absolutely correct. Yet the sickening casualty lists continue daily, and the total is above 270,000. It is becoming a ghastly joke, for some named in very recent lists were reported to their relatives months ago. Will the awful list reach 300,000? is the constant query. Governor Allen of Kansas has made serious charges of incompetence against the War Department for failure to provide proper ordnance supplies and claims several thousand Kansas boys were needlessly sacrificed, as a direct result of this failure, in the awful Argonne forest. It is charged that many of our soldiers were killed by the barrage fire of their own comrades in the rear. This is attributed by generals in the field to the impetuosity of the boys, who could not be restrained and hence rushed far ahead of appointed positions directly into the barrage.

GOVERNMENT CORNER ON WHEAT

If a private company had in its grip all the country's wheat, and if there was more of the wheat than could possibly be used, what would the people think of that corporation if, inspite of such a glut of wheat, it made them pay famine prices for their bread? What should the people want to do to that grasping private corporation?

In this country there are some 450,000,000 bushels of wheat. The United States grain administration holds more than 150,000,000 bushels of it. The rest is at the flour mills, in the grain terminals and elevators and on the farms. But, except for such wheat as can be exported, the government is the potential owner of all the wheat because the government is pledged to buy on the basis of \$2.25 a bushel every bushel of wheat that comes from the farms. Any excessive price that the public is compelled to pay for its bread, therefore, is gouged out of the public, in fact, by the United States government.

When the government should release overabundant wheat to the consuming public under the law of supply and demand, so that the people might have cheap bread, it is still proposed in the name of the government that the American loaf shall remain a famine loaf.—New York Sun.

DEVELOPMENT IN CALIFORNIA

The giant strides that were pictured for California as an accomplishment of peace are beginning already to take form.

The public service corporations are making preparations for large expenditures for betterments. One Southern California company has just deposited \$16,000,000 worth of securities, with which hydro-electric power will be developed, adding 50 per cent to the present capacity of the largest concern in that part of the state.

For Northern California, recommendations for an expenditure of \$50,000,000 for similar purposes are made in a report just filed by Major George F. Sever, an army engineer, after completing an exhaustive survey for the war industries board. With a deficiency

last year of 25,000 kilowatts, and a further need of 50,000 kilowatts increase annually to reduce the drain on the oil supply, the necessity for extensive development of this nature is apparent. With more rapid extension of manufacturing interests, the demands for power will multiply with rapidity from this time forward, and to meet it one of the northern companies has in hand an improvement that will cost more than \$7,000,000, and another has a \$6,000,000 project under way, requiring two or more years to complete. Other power plants are also being enlarged, or plans are under way to that end.

This is just one item in a wonderful forward movement. Add to it other factors connected with utilization of the streams of California, for irrigation, navigation and general reclamation movements, and one can begin to appreciate the great work that is in store.

THE LEAGUE OF NATIONS IS NOT DEAD

Thousands of American citizens are keenly disappointed at the Senate's failure to confirm the League of Nations pact, deeming this action a repudiation of the President and a betrayal of the Nation. But let us look at the matter calmly and perhaps we will find less cause for anger and chagrin. The League of Nations is not a new idea nor is it a discovery by the President or the Peace Congress. It has been advocated for years right here in California, and was regarded by many as a mere chimera, not possible of realization. It required a world war with all its accumulated horrors to bring home to all peoples the vital necessity of such a league. But this league pact, in its present form, was the work of brilliant leaders, such as President Wilson and Premier Lloyd George and Clemenceau—men of lofty ideas, versed in diplomacy but not in constitutional law. When two of the brainiest constitutional lawyers of the United States, if not of the world—Senators Henry Cabot Lodge and Philander Knox—voice grave objections to the form of the document while approving unqualifiedly the idea itself, it is time to pause instead of rushing headlong into an action that might involve this country in disaster by nullifying the Monroe Doctrine and our sea power. A week is too short a time to decide a subject of such vast importance, not only to this country, but to all the Allied Nations. And any action the Congress might have taken could be annulled by any succeeding Congress. It would require an amendment to the Constitution to bind the Nation to any such course. May it not be that Lodge, Knox and their associates, realizing his fact, strove, not to defeat the League of Nations plan, but to take time to write its provisions in such language as would not infringe the rights of any Nation, but would really insure permanent world peace? We may yet see the day we will thank those who held up ratification till a calm and serious consideration was possible. The League of Nations is not dead. It is a living, breathing reality and we will yet see it at work in perfected form.

AMERICA AT TOP IN WORLD FINANCE

The current annual report of the comptroller of the currency, John Skelton Williams, is a veritable wonder book in respect to the growth of the nation's financial power since the world war began. Two facts stand out particularly in a bewildering detail of banking and loan operations as notable for their undisturbed progress under the federal reserve system as for their unparalleled magnitude.

The banking power of the United States since June, 1914, has increased from \$24,340,000,000 to \$39,082,800,000—a gain of 60 per cent, contrasted with a net gain of 15.6 per cent for the previous period of equal length. This banking power of the nation is today nearly two and a half times greater than for the whole world in 1890.

During the five past calendar years the merchandise exports of the United States aggregate \$23,462,191,652, and imports \$11,881,973,986. Against the enormous balance in our favor of \$11,580,217,666 stand net imports of gold exceeding \$1,000,000,000 and the bonded obligations of foreign governments plus the return of American securities held abroad and hold here early in the war.

If we assume that Europe held \$5,000,000,000 of American stocks and bonds at the outset of the war, the outcome reveals a net debt of Europe to the United States in just about the same amount; and this additional to the more than \$1,000,000,000 gold sent here, which puts the gold holdings of the United States at a third of the whole world's stock of the metal.

Several reasons have been given why the United States may be expected to speak the deciding word in shaping the world peace. One reason is given above, and it is highly important.

CLASSIFIED ADS

FOR SALE

FOR SALE—A 5-room, absolutely modern bungalow, nearly new, for \$2,400; terms; worth more. Stoddard or Kranz, Glen. 515-J, evenings. 154t3

CHURCH NIGHT A SUCCESS

"Church Night," an innovation urged by Pastor Cole a year or more ago, is proving a great impetus to fellowship and correlated work in the Christian Church. The supper, served at 6 o'clock by committees of six ladies changed monthly, is growing in popularity, as a merely nominal sum is charged, just enough to cover expenses. "The fellowship induced by getting our feet under the same table, endures," to quote Pastor Cole. Sixty were served last night, then committees met and transacted business while those not thus engaged visited with each other and with any strangers present. Prayer meeting followed, beginning at 7:30. The attendance at these meetings has largely increased, also, is the report.

James R. Mann spoiled his political chances by accepting a steak from Swift & Co., but a man who owns a steak in these times would doubtless feel above a mere speakership anyway.

Personals
 Rev. and Mrs. Birchby of Placentia were in Glendale Wednesday calling upon old friends here.
 Mrs. Nellie Simmons of East Lomita avenue is entertaining a young lady friend from Omaha.
 The XVI Club will meet Saturday, March 8th, at the home of Miss Carrie Cornwell at 135 North Kenwood street.
 Mr. and Mrs. Edw. M. Lynch have returned from a business and pleasure trip to San Diego which kept them away about a week.
 Mr. and Mrs. H. B. Lynch, who have been living at 361 West California avenue, moved Wednesday to a house they own at 314 South Brand boulevard.

Santa Ana's building permits last month totaled \$27,000, the largest February record in her history. Wait till Glendale settles into her stride and we'll beat that all hollow.

Mr. and Mrs. R. M. Brown of 416 North Kenwood street entertained a few friends informally at dinner Wednesday, the guests remaining for an evening of cards.

J. B. Clark of 336 North Maryland avenue, who recently moved from North Glendale, likes his new residence very much. He has bought the property and will make it his permanent home.

Mr. and Mrs. J. E. Houle of 122 East Maple Street have named their baby son, who was brought by the stork Feb. 26, 1919, and who weighed eight and three-fourth pounds, Francis Joseph Houle.

D. R. Denison and wife of 702 East Harvard returned recently from a month's visit in Ventura, where they lived for 32 years before moving to Glendale 15 months ago. They found the old town moving along at a lively rate with some of the streets torn up for new paving.

John Camphouse of 421 North Maryland avenue, auditor of the Farmers' & Merchants' National Bank of Los Angeles, left Wednesday as a delegate to the Arizona State Bankers' Convention, which is being held at Nogales. He expects to be away for a week or ten days.

Captain G. O. Lockwood of 415 East Harvard street is in great anxiety about his brother, who is lying at the point of death in Los Angeles. He is suffering from double pneumonia following influenza and has been ill for seven weeks. No hope of his recovery is entertained.

Members of the Ladies' Aid of the First Methodist Church are meeting today for their regular work and business session and at noon entertained the husbands of members at luncheon. This practice makes the repeat more of a social function and also reconciles the husbands to the church activities of their wives, as the men never refuse an invitation knowing they will get a fine "feed."

A charming program has been arranged for a pupils' recital which will be given Saturday, March 8th, at 8 p. m., at the home of Mrs. Claude Case, 343 North Maryland Ave., by young people who have been under the instruction of Mrs. Eva J. Cunningham to which Mr. Vernon Spencer will also contribute a short talk on the piano and interpretation of six poetic study pieces. Seventeen pupils will be heard.

L. T. Rowley has received a snapshot picture of his son, Robert, in service in Italy, which is so illuminating in regard to his service and war conditions that he is thinking of having it enlarged. In addition to the portrait of his son it shows his ambulance loaded with Austrians wounded in the Plave drive, and beside the ambulance is a huge pile of Austrian equipment and accoutrements which were thrown away in the mad flight of the troops.

DORAN STREET P. T. A.
 One of the largest meetings ever held by the Doran Street P. T. A. convened Wednesday. The organization now has 100 per cent membership, i. e., there is a mother member for every family represented in the school.

The speaker of the afternoon was Superintendent Richardson D. White, who talked on legislation affecting the schools and also on the proposed park and civic center which has been suggested as a memorial for the soldiers and sailors who went from Glendale to the great war, something which they can enjoy and use. Songs were given by little Catherine Sonntag, there was the usual salute to the flag, light refreshments were served and a very pleasant social hour was enjoyed following the program.

UNITY CHAPTER, NO. 116, R. A. M.
 A stated meeting of the above Chapter will be held Thursday evening, March 6th, at 7:30 p. m., Masonic Temple. All companions welcome.

CHOIR REHEARSAL
 The choir of St. Mark's Episcopal Church meets every Friday evening at 8:00 o'clock for rehearsal at the residence of Capt. D. R. Jackson, 214 E. Chestnut street. The program for a series of special musical services has been arranged by the organist, Miss Ina Whitaker, the first of these to take place Sunday evening, March 16th. Besides the regular soloists, Mrs. Mabel Capell, soprano, and Capt. Jackson, tenor, the choir will have the assistance of Mr. and Mrs. Charles Parker, bass and contralto. Among other things will be given "Hark, Hark, My Soul," anthem by Shelley; "I Waited for the Lord," duet and chorus from "The Hymn of Praise," Mendelssohn, and "Magnificat in F." Berthold Tours. The full program will be given next week.

All members of the choir are urged to come to rehearsal tomorrow evening. Volunteers and those desirous of joining the choir are cordially invited to attend. At the most musical service one of the most beautiful numbers will be "Hear My Prayer," Motett by Mendelssohn, with soprano solo and chorus.

NEW RED CROSS WORK
 Officials of the Glendale Red Cross Chapter announce that the materials for the last allotment of garments to be made for Belgian and French refugees have been received from San Francisco and needlewomen are wanted to report at sewing headquarters and take out the work.

They also state that another First Aid class has been called for and Dr. Boyer has kindly consented to act as instructor. It will start in about a week and all who are interested are asked to register at headquarters. The government feels that First Aid and Home Nursing Instruction are exceedingly important and will do much to maintain the health and physical welfare of our citizenship. It is therefore urging the establishment and large attendance on such classes.

CARD OF THANKS
 We wish to express our thanks to our friends and neighbors for the kindness and sympathy shown to us during the illness and death of our wife and mother.

HIGH SCHOOL NOTES
 Business Manager Irving Oliver reports the entry into Glendale Union High School of 52 new students this semester. Also the entry of 28 students who dropped out during the influenza epidemic and have now returned, bringing up the extra enrollment to 80.

Teachers are still working on programs trying to get them so arranged that there will be no conflicts. It is always a difficult task, but is said to have been easier than usual this time.

Report cards of last term's work are being prepared by members of the faculty and will be given out Friday so each student will know just where he is "at" so far as credits are concerned, and whether the "flu" and the correspondence courses it necessitated bettered or lowered his standing.

Friday afternoon of the present week there will be a try-out of all the students who have entered for work in debating to determine the quartette who will constitute the debating team. The general question on which Glendale's team will debate with Hollywood and Pomona concerns immigration, and at the Friday try-out there will be general talks upon it. It is also expected that the first limitation of the subject will be received from Dr. Hunt of the University of Southern California Friday morning.

WONDERFUL GROWTH

One who views a modern telephone exchange, with its complicated system for interchanging calls between hundreds of thousands of phones without the operators moving from their seats, the electric torches to denote a person calling and the many other marvelous contrivances, would rub his eyes in amazement could he behold for a moment the exchange of 20 years ago. Here is a picture of one in a city of 30,000 people. There were 300 phones, a very large number then for a city of that size. They were arranged in sections of 50 and there was no interchange except by individual cords. These cords were of great length and each had a sliding weight attached to pull it down into a deep well which yawned beneath the operators' feet. When a call came in a shutter dropped, exposing the number of the party calling. A plug was put into the hole under this number and its mate was similarly placed in the hole under the shutter of the number called. The fall of either shutter would signify that the party had "rung off." To get central you had to ring the bell on your phone, thus causing your shutter in the exchange to drop. When a party on one side of the board called another on the other side, the latter's cord was stretched to its extreme limit. When there was a busy season of calls for a few minutes the cords became badly tangled and much patience and time was necessary in unraveling the snarl. Each operator was an "information" in herself for she soon learned everybody's number.

W. C. T. U. MEETING

Glendale City W. C. T. U. will meet Friday afternoon, March 7th, at 2 o'clock, with Miss Olive Marsh at 237 North Cedar street near the Eagle Rock car line. Annual reports of departments by superintendents will be given and yearly dues payable in March will be collected. The report of the opening of the Frances E. Willard Home for Girls at the Temple in Los Angeles, which took place Wednesday evening, will also be given. A full attendance of members is expected.

A VERITABLE MONSTER

Such, indeed, is the enormous Goodyear Pneumatic Truck Tire, on exhibition in the doorway of the Monarch Company, 121 South Brand boulevard. This tire stands 44 inches high, is 10 inches in diameter, weighs 225 lbs. and its price is \$360. It is calculated to carry an air pressure of 150 lbs. and is the class of tire now being used quite extensively on five-ton trucks doing cross-country heavy freighting, principally in the eastern part of the country. Mr. Butts says the big tire is proving a great attraction, but that he is kept busy answering questions most of the time. He says some of the remarks he overhears are quite amusing, for example, one man asked another how he would like to "fill it up with a hand pump out of order."
 The Monarch is now receiving large numbers of Goodyear Tires, some of them being sizes they have been out of for more than six months.

ANOTHER SENSATION EXPLODED

And now comes Dr. McCracken, of Vassar College, and denies most emphatically the widely published statements that girls of that great female seminary have full permission to smoke cigarettes. He says that exactly the contrary is true, but that the girls are put upon their honor to obey the mandate. All infractions are to be punished by decree of the student body.

A Los Angeles man has instituted a suit for slander against a neighbor for calling him a "dirty German." He did not resent the implication of uncleanliness so much as that of being a Hun.

DELIGHTFUL AUTO TRIP
 W. J. Stone and wife of 641 North Brand boulevard returned home yesterday from a week's visit in and around Paso Robles, more than 200 miles north. They made the run from Ventura, 75 miles, in just three hours, nearly all the way against a high wind, which was particularly annoying during the last 27 miles of the journey, blowing the sand into their faces and piling it in the roads. Aside from this the trip was a delight every minute of daylight. Paso Robles and vicinity they found dressed in vivid green from recent rains. Not as much moisture has fallen as hereabouts, but it seems to have been more effective. Ranches are being set largely to walnut and almond trees, peaches, pears and similar fruits. No citrus fruits are grown there. While delighted with the looks of the country, Mr. and Mrs. Stone think Glendale good enough for them.

To Be Delivered in the Church Edifice, Maryland Avenue and California Street

SUNDAY AFTERNOON, MARCH 9, 1919
THREE O'CLOCK

TUJUNGA

The Ladies' Aid held their monthly meeting at the home of W. H. Wieman on Thursday. The time was used to tie a quilt for the hostess and sew on garments for relief work. It was an all-day session, with lunch served at noon.

Charles W. Dean, who has been spending a week at his home here, returned to Brawley on Tuesday.

Mr. Chapp received 800 baby chicks this week, and all the rest of our chicken men and women are filling up their brooder houses with the fluffy babies. The chicken business has proven a good one this year the high price of feed being offset by the high prices of eggs and chickens.

Mr. Bell of Monte Vista boulevard, who has been quite ill, is now out again.

Mr. Van Batum came up from Los Angeles for the week-end.

The Woman's Club will hold a "Good Luck" picnic at the home of Mrs. Darlington on Saturday, March 22d. The dinner will be served at 1 o'clock, each lady to furnish part of the meal. As Mrs. Frost who has been a member of the Club since it was organized, and a former president, is soon to leave for her old home in the east, the picnic is a "Good Luck" send-off for her. Miss Cora Lewis, her sister, expects to be present on that day.

The annual celebration of the founding of the Colony will take place at Bolton Hall on March 17th, in form of a Colony picnic. Each one is to bring their own lunch and knife, fork and spoon. Coffee will be served. There will be some good speaking, music and a general social time. Let every one and his neighbor turn out and get acquainted. It's St. Patrick's night.

Mr. Correa was here from Los Angeles, looking after his property on San Ysidro Road.

Mrs. Mullihan and Mr. Fortier have both been visiting in Los Angeles the past week.

Red Cross work still continues every Tuesday at Bolton Hall, and as

there is much work to do more hands are needed. Can't you come for a few hours?

The Woman's Club met at the home of Mrs. Darlington, Thursday, February 27th, and an outline of work for the coming year was arranged. The study of Political Economy will be taken up at each meeting. A paper will be prepared each month by the members on the following subjects:

March 27.—History of the Monroe Doctrine, Mrs. Cora Lineberry.

April 24.—The League of Nations, Miss Zoe Gilbert.

May 29.—Seven Simple Desserts, Mrs. E. Darlington.

June 26.—Russia Under Nicholas II., Mrs. D. C. Dean.

July 31.—The Value of the Public Park in the Small Community, Mrs. M. M. Mendenhall.

August 28.—How We May as a Club Best Serve Tujunga, Mrs. E. V. Hoffman.

Sept. 25.—American (Leading) Poets, Mrs. Mary Fairfield.

Oct. 30.—The Best Screen Plays for the Month, Mrs. E. Yarnell.

Nov. 27.—The Significance of the Increase in Divorce, Mrs. E. Shaner.

Dec. 25.—Are the Fashionable Modes for Women Decent?

Other subjects to be discussed, Review of the Scarlet Letter, by Hawthorne; My Favorite Flower and Why; The Merchant of Venice; Synopsis and Invitations.

The meetings will be held on the fourth Thursday of each month. Every lady in Tujunga is invited to join the organization.

HOSPITAL SERVICE REDUCED

An order issued by Surgeon General Blue, head of the army medical department, has been received at the Arcadia balloon school to the effect that hereafter none of the personnel of the post, with the exception of officers and enlisted men, may be afforded the use of the post hospital. The reason given for this order is that the demobilization has so reduced the number of men available for hospital service that it is desirable that nothing except absolutely necessary cases be handled there.

Hereafter Y. M. C. A., Knights of Columbus, and members of other similar organizations will have to go elsewhere for medical care. The order stated that this ruling would not apply to isolated posts far from a large city, where suitable hospital accommodations could not be had.

A FULL-FLEDGED BOLSHEVIST

A man was arrested Monday in Santa Ana charged with ordering his children in school to refuse to join in singing patriotic songs and to stand when the "Star Spangled Banner" was sung. He is to be tried under the Espionage Act. He is said to have defiantly stated that he believed in no kind of government and in no kind of law. He claimed to be a

Quaker, recently from Connecticut, where he said was quite a colony of them who held to his views. We are exceedingly skeptical regarding this claim for all Quakers we have known were of sturdy loyalty, though religiously believing that all war is wrong, for so their religion teaches them. Despite this belief thousands of them have rallied to the country's support in nearly every war we have had. Gen. Greene, one of the greatest generals of the Revolutionary War, was a Quaker, and it was his great military genius that saved the South from annihilation in 1780-81.

NOTICE TO THE PUBLIC

At the general election of officers of Glendale Lodge No. 1289, B. P. O. E., I was elected to the office of secretary for the ensuing year. This position will necessitate my entire time and attention, therefore I shall, on or before the 15th of this present month, close my jewelry and watch repairing business that I have conducted for the past four years in what was formerly Tropic, but now Greater Glendale. All repairing now in my possession will be finished to be called for or delivered to the proper owner. No further repairing will be accepted after this date. Those who are indebted to me on account will please make arrangements to close the same at once. If desirous of further information, please me at GLENDALE 7-J, my residence, or Glendale 1169, my business place.

Very respectfully,
154t5 W. E. HEALD.

NOTICE TO CREDITORS

No. 41128
Estate of Eliza C. Owsley, deceased.

Notice is hereby given by the undersigned executor of the estate of Eliza C. Owsley, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within ten months after the first publication of this notice, to the said executor at the office of Evans, Abbott & Pearce, 1007 Van Nuys Building, City of Los Angeles, County of Los Angeles, State of California, which said office the undersigned selects as a place of business in all matters connected with said estate, or to file them with the necessary vouchers, within ten months after the first publication of this notice in the office of the Clerk of the Superior Court of the State of California in and for the County of Los Angeles. Dated February 14, 1919.

FRANCIS J. GIBBONS,
Executor.
Evans, Abbott & Pearce, Attorneys for Executor, 1007 Van Nuys Building, Los Angeles, California.

The desire of Canada and Australia to associate with other nations on a basis of equality seems more a condescension than an ambition.

THE WILLARD HOME

GLENDALIANS ATTEND DEDICATION W. C. T. U. SHELTER FOR GIRLS IN TEMPLE

Quite a party of Glendale residents which included Rev. and Mrs. A. B. Smart, Prof. and Mrs. W. D. Root, Mrs. J. P. Fansett, Mrs. George Lemon, and Miss Frances Gauntlet, journeyed to Los Angeles Wednesday evening to attend the opening and dedication of the Frances E. Willard Home for Girls which has been established by the State W. C. T. U. at its headquarters, 301 North Broadway, Los Angeles. There was quite a large gathering of friends of the enterprise which, it is believed, will be of far-reaching importance since it is designed for the protection of girls temporarily stranded in Los Angeles without money and not as a permanent lodging house or as a reformatory institution for girls who have gone astray. It is a temporary shelter, attractive in all its appointments and in charge of a motherly matron, and no charge is made for the service it renders. The quarters are furnished by the State organizations and the fifteen rooms have been furnished by various county unions of Southern California.

An inspection of this shelter dedicated to the memory of the great temperance leader, Frances E. Willard, was made. A different color scheme was carried out by each union and all the furnishings are new and beautiful. The room for which Los Angeles county was responsible in which pink dominates the hangings and furnishings is called the Rose Room. In the Orange county room orange color predominates, while Riverside has furnished a charming Blue-Bird Room. Kern county used a green color scheme and San Diego county, lemon color. There was also a Memorial Room in shades of lavender.

The sitting room of the Home was furnished by Los Angeles First Union. Several counties contributed the equipment of dining-room and kitchen, Imperial county giving a handsome range. The larder was filled with fruit and canned goods, all donations, and the Good Hope Society sent \$300 worth of food.

Following the inspection a reception for Mrs. Frances T. Parks, National Corresponding Secretary, was held. The program which followed included interesting and pertinent addresses by Dr. Barton of the Moral Efficiency Committee, Chief of Police Butler, Mrs. Elery, Secretary of the Social Welfare organization, all of whom believe this Home will be a great protection to innocent girls who happen to be penniless in a big city and without such protection may easily become the prey of vicious men and women.

Mrs. Parks brought greetings from the National Union and gave an outline of the work in general.

Three beautiful whistling solos were given by Miss Irvine, and a song by the soloist of the First Methodist Church of Los Angeles.

Roses and carnations were used in the floral decoration of the headquarters where the program was given.

SGT. GEO. DRINKWATER NEAR BORDEAUX

Recent letters which have been received by Mrs. T. P. Drinkwater of 118 East Lomita avenue from her son, Sergeant George Drinkwater, were postmarked at Perigueux, a suburb of Bordeaux. He is now with railway forces operating American army trains. He was formerly with the 53rd Ammunition Train and was with that division in the battle of the Argonne Forest. When he last wrote he had no idea when he would be sent home.

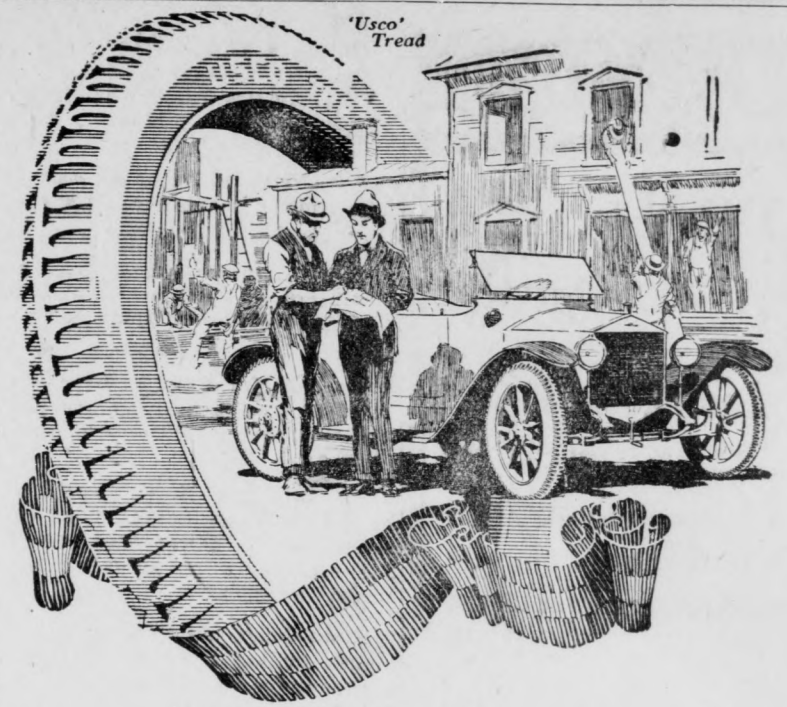

BUY NOW, BUT BUY CAREFULLY

"Buy now, but buy carefully," is the advice that the state committee on readjustment has been requested by the Council of National Defense to transmit to the people of California from Secretary Redfield of the Department of Commerce.

The secretary points out that commerce and industry rest on personal purchases by individuals, and that in order to restore industry to a pre-war basis and furnish employment for the returning soldiers, the people of the country should buy what they need now, but without haste.

After referring to the congestion in the cities of men seeking employment, Secretary Redfield says:

"To these conditions is added the business hesitation normal to this period of post-war readjustment. Prices are to some extent declining. Men hesitate to buy materials and supplies on a falling market. This means stopping work in some places

The More You Use Your Car The More You Need Good Tires

Your car's usefulness is increasing every day.

It is becoming more and more of a real necessity to you—both in your business and home life.

For that very reason you need good tires, now, more than ever.

The out-and-out dependability that created so tremendous a demand for United States Tires in times of war is just as desirable today.

It reduces tire troubles to the vanishing point—multiplying the usefulness of your car and putting the cost of operation on a real thrift basis.

United States 'Nobby', 'Chain', 'Usco', and 'Plain' are the most popular fabric tires built. They have all the strength and stamina our years of experience have taught us to put into tires.

There is also the United States 'Royal Cord', the finest tire built for passenger car use.

Our nearest Sales and Service Depot dealer has exactly the treads you need for your car and the roads you travel.

He will gladly help you pick them out.

United States Tires are Good Tires

and reducing the amount of work done in others. It is normal but it means an addition to the usual unemployment at this season. The return of our soldiers in quantities adds for the time to the problem.

"The situation lends itself to the evil work of the enemies of society. The Bolshevik takes advantage of idleness. An empty stomach and empty purse create his opportunity. His fellow, the I. W. W. agitator, seizes the same occasion. We have only to look abroad to see how disaster has come by hunger.

"There is a great volume of business waiting to be done in America. Private stocks of all kinds are low. The country has ample means and when once the stream of private buying commences to flow, there will be business for all and to spare, but it may take several months to bring this about and meanwhile winter is here and men who are unemployed may be hungry. Action is needed now for the moment in order that trouble may not come in severe phases ere normal forces have time to work out their happy results.

"Our commerce rests after all upon the personal purchasing of individuals. If all were to stop buying for their personal needs, there would be no commerce, no industry. So far as all have stopped buying, industry has slackened. So far, therefore, as all can resume buying for their actual needs industry must move again.

It is what is called good business, perhaps good economics, to delay buying till the market has reached bottom, but more is at stake, the peace of the country, the saving of men from unemployment and its consequences to them and to the land. Yet we must not waste. We must still save. Taxes are coming. There will soon be another loan and we must not undo the habits of thrift that have been formed. Between the extreme lies a possible course of helpful action which is this: Buy only what you need but buy it now. The men and women who do this contribute patriotically to the country's need just as they did when they saved at their tables to feed our friends abroad last year, just as they did when they bought war savings stamps or liberty loans. If each of us would buy what he needs at once, but buy no more than he needs, the springs of action would be tapped and a real danger averted."

MEMORIAL TO VAN LOAN

It is proposed by the Los Angeles Country Club to dedicate a perpetual golf championship cup to Chas. Van Loan, the writer of short stories, recently deceased, to be played for on "Van Loan Day," in June. Van Loan was a prolific writer of short stories dealing with sports such as golf, baseball, horse racing and movie scenes.
