ON THE FIRING LINE

Pulsebeats of the Warriors
Shown by Tongue and Pen From
Ocean to Ocean in Canada's
Greatest Conflict.

It will be a waste of time and effort for the opponents of reciprocity in Canada to interject other issues into the campaign. From Atlantic to Pacific the Dominion is aroused on the sole issue of reciprocity—or restriction. No question in the history of the American continent has ever cracked and disintegrated party allegiances as has the question now before the electors. It may safely be asserted that as the rural population investigates and discovers what reciprocity means in dollars and cents by the opening of a wider market, and the working classes understand how the cost of living will be reduced there cannot fail of a triumphant endorsement of the pact.

ROAR OF THE ATLANTIC

(Halifax Chronicle.)
In the Maritime provinces, at this end of the Dominion, in 1908, the Liberals elected twenty-six members and the Conservatives nine—a Liberal majority of seventeen. This was practically the same result as in 1904, although there were some changes in the constituencies. In the impending contest, the Liberal position promises to be greatly strengthened. New Brunswick Liberals are confident of carrying twelve of the thirteen seats, while in Nova Scotia there is hardly a seat to-day which the Liberals do not stand an excellent chance of winning. And in Prince Edward Island, where the farmers realize the tremendous advantage of obtaining a larger market, near at hand, for the sale of their products, reciprocity is bound to be a winning card for the Liberals. It therefore may be safely concluded that in the Maritime provinces the government will not only hold what it has, but will be supported in the new parliament by a considerably larger representation of Liberal members.

STRANGE BEDFELLOWS

(Montreal Witness.)
The Orange Sentinel is out against Sir Wilfrid Laurier because he is a tool of the Papacy. All the ecclesiastical organs are on against him in chorus as a traitor to his race. The Tories are denouncing him for being false to the Empire. Their allies in Quebec are indicting him with cringing to imperial influences. Are all these people going to get together and form a government when they get him out?

CANADA'S BEST INTERESTS

(Winnipeg Free Press.)
W. H. P. Trudgeon, member of the Republican state committee for Oklahoma city, a personal friend of President Taft, ex-President Roosevelt and many others of the leading United States politicians, has been on a visit to Winnipeg during the past four days. He had come to the west directly from Washington, where he had been in consultation with the Republican party in reference to the reciprocity pact, with the object of ascertaining the feeling of the people on the question.

In an interview Mr. Trudgeon stated that all statements as to the designs of the Republican party of the United States to absorb Canada were absurd and utterly foundationless, and that the reciprocity pact was a business proposition and simple. He was of the opinion that for all time to come the interests of Canada could be best served by retaining its connection with the British empire. Nothing but the most friendly feeling pervades the ranks of the governing classes and the masses of the people of the United States toward this country.

VOICE FROM THE SOUND

The Bellingham American, commenting on the reciprocity procedure has the following:
The lumbermen of Washington and of the country generally are particularly inclined to take a doleful view of reciprocity. They aver that it means we will lose all our saw mills as they can move to Canada, manufacture lumber there and sell it to us cheaper than we can manufacture it here. If this were true it would seem that the Canadian people, especially those of British Columbia, would welcome the reciprocity measure.

On the contrary we find that there are many Canadians who think that Canada has a great deal more to lose than to gain if reciprocity be accomplished, and are consequently opposing to the uttermost the passage of the bill by the Canadian parliament.

Indeed, the strong Liberal majority in the present Canadian parliament—and it was the Liberal government that concluded the present treaty—found it impossible to secure the passage of the bill without appealing to the country. This arose because of the fact that in the Canadian parliament they do not have a rule for shutting off a debate, like in our own House of Representatives. And consequently when the Liberal government would not permit a vote they were forced to "go to the country" on the issue. This means the Canadian people themselves are to be allowed to express their wishes in the matter—a thing unknown in our American form of government.

MANITOBA MACHINE OUT OF ACTION

CONSERVATIVES WILL NOT REVISE LIST

Halifax Liberals Nominate Hon. A. K. McLean and Dr. Blackadar

Winnipeg, Aug. 10.—The statement was made here that the Provincial government will abandon its proposed registration list for Winnipeg and Brandon, now that the Federal completion of lists has been definitely announced.

Halifax, Aug. 10.—The Liberal convention for Halifax City and County nominated Hon. A. K. McLean, former attorney-general for Nova Scotia, and Dr. Blackadar, editorial writer Canadian Recorder, as candidates to oppose R. L. Borden and A. B. Crosby whom the Conservatives will nominate to-morrow. The convention at Westville nominated A. C. Bell of New Glasgow to oppose the present member, E. M. McDonald of Pictou. Hants County Liberals will nominate Dr. Black to-day. At Glace Bay Alexander McKinnon, town engineer, has been nominated by the Socialists. A. E. Wall M. P. was chosen as Liberal candidate in Digby County, Nova Scotia.

St. John, N. B., Aug. 10.—King Albert Liberals have nominated Dr. McAllister, Westmoreland Conservatives has named M. Z. Siddall.

Montreal.—Dr. Hays of Richmond was nominated and accepted the offer as candidate in Richmond-Wolfe for the Conservative party. In Sherbrooke County C. D. White, son of Judge White, will be the Conservative choice at to-morrow's convention. G. W. Gale, of Coaticook, is almost certain, will run in the Conservative interest in Stanstead County, opposing Mr. Lovet. At the Conservative convention for Stantonia H. B. Ames was re-nominated. Laval County Liberals have selected Charles Wilson.

Ottawa, Aug. 10.—H. M. McEivern was nominated by the Liberals last night as English candidate and J. A. Pinard as French candidate.

Barrie, Ont., Aug. 10.—Hon. W. A. Charlton, ex-M. P. P., ex-speaker of the Ontario legislature, was nominated to-day by Norfolk Liberals.

Sarnia, Ont., Aug. 10.—F. F. Pardee, M. P., was unanimously re-nominated to-day by West Lambton Liberals.

Napanee, Ont., Aug. 10.—Dr. J. P. Vrooman has been chosen as Liberal candidate for Lennox and Addington to oppose Mr. Paul, ex-M. P. P.

Regina, Aug. 10.—In convention this morning the Conservatives of Regina Federal constituency nominated Dr. W. D. Cowan, dentist of Regina, to contest the seat.

Vancouver, Aug. 10.—Socialists here have selected E. T. Kingsley as their candidate.

Calgary, Aug. 10.—Alexander A. McGillivray has accepted nomination as Conservative Candidate for Red Deer. I. G. Van Wart was nominated by the Liberal convention.

Ottawa, Aug. 10.—It having been ascertained by the census taker last June that the towns of Brockville, Owen Sound, Sarnia and Sudbury have now more than 9,000 population, an order-in-council has been passed ordering registration courts for manhood suffrage in these towns.

CAUSE OF 'LEADER' BORDEN'S OPPOSITION TO RECIPROCITY
Also indicating why the masses of the people should support it.

FIVE PERISH IN THE FRASER

SMALL BOAT SWEEP AWAY BY CURRENT

Occupants Lose Lives While Trying to Place Cable Across River

Hope, B. C., Aug. 10.—Five men, names at present unknown, were drowned yesterday in the Fraser at Saddle Rock, the first flag station above Yale. They were part of a gang attempting to place a cable across the river.

A scow with three men was swept away, but made the shore lower down. The five men were in a small boat and were overcome by the current.

This makes a total of nine drownings since the beginning of the preparations for railway construction from Hope northwards.

HARNESSING WATERFALL

Prince Rupert, Aug. 10.—The Simpson Light & Power Company commenced to-day to harness the big water falls 24 miles up the Skeena river. They will spend \$2,500,000 to supply light and power to Prince Rupert.

EXPRESS DELAYED

Toronto, Aug. 10.—The Toronto express from Winnipeg and Vancouver is not expected to arrive until 7 a. m. to-morrow, though due at 3:30 this afternoon. A serious washout on the line near Schreiber, Ont., caused fifteen hours delay.

RIDICULES CRY OF CONSERVATIVES

Dundee Advertiser Scores the Canadian Opponents of Reciprocity

London, Aug. 10.—The Dundee Advertiser to-day says the Canadian opponents of reciprocity are now giving a turn to the discussion which is regrettable in the present circumstances. The dying embers of the anti-American feeling are being fanned in a way calculated to create a situation which has been for years the aim of statesmanship to avoid. The reduced to plain English argument is, "The more business you do with a man the more harm he will do you." That idea of course is an absolute absurdity.

POPE'S CONDITION SHOWS IMPROVEMENT

The Pontiff, Despite Illness, Attends to Important Affairs of Church

Rome, Aug. 10.—Dr. Petacci and Professor Marchisava visited Pope Pius early to-day and found his general condition improved. This was attributed to the removal of the patient from his small chamber to more spacious quarters, which, according to the pontiff's own expression, affords him the feeling of being in the open air. Despite his illness, His Holiness ratified the decision of the consistorial congregation, presented by the secretary, Cardinal G. Delal, appointing the Right Rev. J. J. Keane, now bishop of Cheyenne, as archbishop of Dubuque, and the Right Rev. Joseph Schrems auxiliary bishop of Grand Rapids, to be bishop of the new diocese established at Toledo, which has been detached from the diocese of Cleveland. The pope was somewhat worried to-day over the illness of his sister Rosa, who is suffering from the effects of the unusually hot weather. He asked Dr. Petacci to visit her twice daily. The other two sisters, Anna and Maria, and the pope's niece, Gilda, are caring for both patients and frequently went from one to the other during the night.

Cardinal Del Val, the papal secretary of state who went to his summer residence at Montemarie last yesterday, returned to-day, not wishing to be long absent from the Vatican while in the present condition of the pope continues. Under the direction of Doctors Marchisava and Petacci, Dr. Andrea Amici, who also is a physician to the Vatican household, to-day lanced the Pope's swollen knee and succeeded in extracting a liquid of a serum character. The operation gave the patient much relief.

COLOSSUS COMMISSIONED

London, Aug. 10.—Great Britain's tenth Dreadnought, the Colossus, has been commissioned for service. She carries a battery of 12-inch breech-loading guns and has an anti-torpedo armament. The Colossus is a sister ship to the Neptune, which was the most powerful warship at the coronation review.

GRAINMEN OF EAST OPTIMISTIC

FAVORABLE REPORTS REGARDING CROPS

It is Now Predicted Yield of Wheat Will Reach 217,000,000 Bushels

Toronto, Aug. 10.—The chief concern of the banking circles of Toronto and in fact of the whole country centres just now around the crop prospects. A reporter made a tour of the grain houses in the city and was surprised to note the extent of the feeling of optimism regarding the crop outlook in the west, based on the reports from their own men in the field. The consensus of opinion is that the crop will even surpass the big estimate made by such authorities as Sir Wm. Whyte of the C. P. R., who stated that the yield should approximate nearly 200,000,000 bushels. Estimates far and above this were the rule rather than the exception among the grainmen and an average struck from a round-down estimates ran into 217,000,000 bushels.

CONDITION IN STATES

Washington, D. C., Aug. 10.—A tremendous decline in the condition of the crops generally throughout the country, and traceable to drought and intense heat, occurred during last month, as indicated by official figures and estimates made yesterday in the monthly crop report of the department of agriculture. The report is the worst, as to general crop conditions, that the department has issued for any single month since 1901. The area most seriously affected extends from New York and Pennsylvania westward to the Rocky Mountains, embracing all the great corn, wheat and hay producing states in the country.

Conditions in the Pacific Northwest are regarded as excellent, although during July that territory suffered from a brief but exceedingly hot period. While the crops in many instances probably will be short in the yield per acre, yet in total production they will not be small, as shown by the following estimates of the yields of standard crops: Corn, 2,620,221,000 bushels; winter wheat, 455,149,000 bushels; spring wheat, 209,646,000 bushels; oats, 817,700,000 bushels; potatoes, 249,893,000 bushels; tobacco, 600,588,000 pounds and hay, 490,129,000 tons.

REPORTS DISAPPOINTING

Chicago, Aug. 10.—While the government crop estimates are exceedingly disappointing to bankers and commission men here, bankers as a rule do not accept them, as indicative of actual present conditions in agricultural districts. In other words, advices from bankers at interior points fail to show crop conditions as bad as the agricultural department shows them.

WARM IN PARIS

Paris, Aug. 10.—This has been the hottest August day Paris has known in 154 years, or ever since the weather bureau was established. The thermometer registered 100 degrees in the shade. Parisians are nearly prostrated by the unusual heat. The forest of Senart, near Paris, is in flames, which are supposed to have been caused by the heat. To-day's record was surpassed by two degrees eleven years ago, but the record then was in July.

VETO BILL PASSED

London, Aug. 10.—The House of Lords to-night passed the veto bill by a vote of 151 to 114.

(See also page 16.)

SHIPPING EYES ALL TURN HERE

SERVICE FROM BRISTOL TO THE PACIFIC PORTS

British Columbia is To-day Considered the Mecca for British Emigration

Although not at present able to give details, E. Manning Lewis, chief freight agent of the port of Bristol, England, stated to the Times this morning at the Empress that in all probability a steamship line will be running shortly between the Pigeon Sound district and Bristol. Mr. Lewis expects negotiations to be sufficiently advanced to give particulars in the course of a few days.

Mr. Lewis' visit is brought about by the desire and claims of the port of Bristol to greatly extend its import and export trade with British Columbia and the west through the opening of the Panama canal. Mr. Lewis mentioned that although he had not previously given any interview in Victoria, the local "interview" reproduced this morning from the Post-Intelligencer was correct as far as it went.

"Practically every important steamship company in the world is making enquiries with regard to the Pacific and accommodation on the Pacific coast," this statement, said Mr. Lewis, to recently heard in Seattle from John Barrett, director-general of the Pan-American Union, and Mr. Lewis is entirely convinced that it is absolutely correct. The opening of the Panama canal will revolutionize the freight-carrying trade of the world, and nowhere will the effect be more felt than in the ports of British Columbia.

Other features, too, will then be apparent. For one, it is no secret in shipping circles that the emigration traffic from continental Europe will probably largely come that way, and the import freight traffic which now comes to British Columbia overland, at great expense, will then be direct.

(Concluded on page 3.)

TORONTO LIGHT COMPANY

Number of Changes Has Been Made in Directorate.

Toronto, Aug. 10.—Sweeping changes in the directorate of the Toronto Electric Light Company were made to-day at the first meeting held since the interest represented by Sir William Mackenzie took control. Sir Henry Pellatt continues as president, but D. B. Hanna, third vice-president of the Canadian Northern, succeeds W. D. Matthews as vice-president of the Toronto Electric Light Co. H. H. McRae retires from the general management of the Company, but becomes second vice-president. This office, having been created for him, the new directors are: Sir Wm. Mackenzie, Robert J. Fleming, manager of the Toronto Railway and Toronto Power Co.; J. B. Hanna, Z. A. Lamb, general counsel of the Canadian Northern; E. R. Wood, H. H. McRae, R. G. Brown and C. A. Morrow. The former directors who remain are: Sir Henry Pellatt, Senator Cox and Fred. Nicholls. One of the old directors, S. F. McKinnon, died last week, while the seven who retired are: W. D. Matthews, H. H. McRae, W. R. Brook, Thomas Wainwright, D. Goldman, Samuel Trees and Hugh Blinn.

FALLS TO HIS DEATH

Kingston, Aug. 10.—Captain Lewis Morrison, about 45 years of age, living near Sarnia, was killed last night as a result of a fall on his vessel, the steamer Arcadian, which discharged grain here. He fell from between decks to the lower deck. His skull was fractured and death was almost instantaneous.

STRIKERS AND POLICE CLASH

SOLDIERS MAY BE CALLED OUT IN LONDON

Provisions Are Becoming Very Scarce—While Prices Advance Steadily

London, Aug. 10.—The neighborhood of the docks was practically under mob rule to-day with the result that there was such a dwindling of food supplies that the metropolis experienced something akin to what might happen if a hostile foreign force should succeed in interrupting Great Britain's trade routes.

Unless good progress is made to-day in the negotiations looking to a settlement of the strike, the calling out of the troops seems inevitable, as the police are unable to deal with the emergency.

The only quarter where relief was experienced was Billingsgate. There the striking fish porters were granted all they demanded and returned to work to-day.

On the other hand, hundreds of railroad carmen quit and several stations were practically in a state of siege, strike pickets preventing by force, all attempts to handle goods. It was the intention of the strikers to tie up all street traffic until their demands were conceded within a few hours.

Should they be successful, London would be perilously near actual famine conditions. The stream of motor traction to-day was hardly half its usual proportions. So short was the supply of petrol that hundreds of motor boats and taxi-cabs were unable to move.

The only traffic passing without fear of interference was that of vans carrying hospital stores. They were labelled with red signs with a permit from the strike committee explaining that they must not be interfered with. Until this system of identification was adopted the hospitals felt a shortage of ice and other supplies.

Thousands of tons of fruit, vegetables and provisions are rotting on the wharves, and in the freight depots. Unless they can be moved soon, they threaten to endanger the general health.

Among the larger consignments which probably will be a dear loss, is a huge quantity of California fruits on the steamer Minnehaha. The Central Meat and Provision Markets are short of supplies, and prices have advanced alarmingly.

The temper of the strikers appeared ugly to-day and scenes of violence increased. Throughout the East End clashes were frequent wherever attempts were made to move a wagon. The men refused to intervene and brushing aside the inadequate police squads overturned the wagons and scatter their loads in the gutters. Police charges were made every few minutes, but with little effect.

The board of trade is seeking a settlement of the strike.

TROOPS IN READINESS

London, Aug. 10.—(Later.)—The trouble with the coal porters was settled at the board of trade conference this afternoon. The demands of the lightermen and carmen remain to be adjusted.

Troops at Aldershot were held in readiness throughout the day to proceed to London if the disturbances continued.

Soldiers at Liverpool.

Liverpool, Aug. 10.—Detachments of troops arrived here to-day to assist the police who have been unable to control the striking rioters. A fusillade of bricks and stones met the soldiers, but they finally took up a strategic position and enabled the police, by baton charges, to effect a clearance of the provisions and other goods at the Central railway station.

WATER POWER FOR SALE

Montreal, Aug. 10.—Hon. Mr. Allard, minister of crown lands, has offered for auction in September ten water powers situated in different portions of the province.

A Liberal Convention

Will be held in INSTITUTE HALL VIEW STREET

On Wednesday August 16

At 5 p. m.

All Liberals of Ward Associations will be admitted if card of membership is produced.

Hello There! Mr. Auto Man!

YOU CAN'T AFFORD TO BE WITHOUT

CAMPBELL'S AUTO LUSTRE

It's a Time Saver when cleaning your Machine. It will make an old machine new. You can shine your auto up in half the time and with a quarter of the trouble. You put it on with a spray in half a minute and wipe it off with cheese cloth, then look at the shine on your auto; it can also be used to polish Furniture, Piano, etc.

WILL ESTABLISH

COLONY IN ALBERTA

Duke of Sutherland Intends to Add to His Holdings at Brooks

Bristol, Aug. 10.—The Duke of Sutherland, accompanied by Lord Charles Beresford and Lord Desborough, sailed from here yesterday en route for Brooks, Alta. The trio, after visiting Vancouver, will return at the end of October.

One of the objects of the Duke's visit to Brooks, where his fine summer house is built, is to purchase enough land to establish a modern colony for a party of retainers from his Scottish estate, Lord Desborough, who is chairman of the London Chamber of Commerce, also intends acquiring extensive land interests in western Canada.

ASTORIA CENTENNIAL

Celebration in City of Columbia River Will Last One Month.

Astoria, Ore., Aug. 10.—This afternoon President Taft in Washington pressed an electric key which sounded a gong in the stadium in this city announcing to the waiting throng the formal opening of a month's celebration of the Astoria one hundred years ago.

The sounding of the gong was followed by the firing of a huge bomb, and before its echoes had died away war vessels of the United States navy in the harbor and the guns at Forts Columbia, Canby and Stevens followed with the presidential salute. All the bells and factory whistles in the city joined in the noisy demonstration.

Following the demonstration, John Barrett, director-general of the Pan-American Union, and the personal representative of President Taft, read a message of congratulations from the president to the people of "our country" and Astoria on the remarkable development that has taken place during the hundred years past.

BIG CUT IN PIANO PRICES

The Montelius Piano House, Ltd., Great Alteration Sale

Our entire stock of Pianos, the largest in western Canada, offered at the greatest discount that a similar line of Pianos has ever been sold at.

If the Piano Buyers desire to Save Money this is their opportunity and one that cannot be overlooked. Sale positively will last for Ten Days Only. It is a well known fact that when this Old and Reliable House put a sale on, it is genuine, and there can be no better evidence of this fact than is expressed by the many buyers who have taken advantage of their past Special Sales. Remember in this Alteration Sale There are no Reserves. Every Piano is offered at a great sacrifice. Our object is to make a Clean Sweep, Clearing the Floor for the contractor and his carpenters. In High Grade Pianos we offer the celebrated Broadwood & Sons of London, Eng.; the unsurpassed New Art Ball, the Pride of Canada; the well known artists' favorite, Chickering & Sons, America's Oldest and Grandest Productions in Piano Construction. We also carry such other well known makes as Haines Bros., Brewster, Lachner, Schumann, Gilbert, Columbus, etc., all too well-known to need special mention.

In used Pianos and Organs we offer a number ranging in prices from \$60 up, all guaranteed. Remember that we do not require all cash. Every proposition offered by us is open and above board, and we court the fullest investigation. We again call your attention to the fact that the sale closes Saturday Evening, August 12, 10 o'clock.

MONTELIUS PIANO HOUSE, LTD., Largest Piano Concern in Western Canada.
1104 Government St., Victoria.

CASE AGAINST

DR. LINDA HAZZARD

British Vice-Consul at Tacoma to Visit Victoria in Search of Evidence

Tacoma, Wash., Aug. 10.—Following assertions made by Miss Margaret Conway, nurse, to Miss Dorothea Williamson, that patients at the Hazard Institute of Natural Therapeutics, on "Starvation Heights," Olalla, were forced to go twenty days without food of any kind, except the water they pumped for themselves, British Vice-Consul C. E. Lucian Agassiz, of Tacoma, accompanied by Attorney Frank H. Kelly, left Seattle yesterday afternoon to get affidavits from other patients in order to complete their case against the practitioner. They will also go to Victoria and Vancouver, B. C., to-day in search of other evidence. They expect fully to substantiate the charge of first degree murder placed against Dr. Linda Hazzard.

Among other things they will investigate clues to the case of the Williamson sisters had in the Canadian banks and which was transferred, they said, to Seattle institutions by Samuel Hazzard, the accused woman's husband. They will also inquire into the disappearance of the wearing apparel and other personal effects of the two sisters.

FORTY-FIVE MINERS DROP 300 FEET

Cage Drops to Bottom of Shaft—Eighteen Men Sustain Serious Injuries

Rochum, Prussia, Aug. 10.—A serious accident to the hoisting machinery at Krupp Hannibal coal mine to-day caused rumors that many persons had been killed. Later reports show there were no deaths, but eighteen miners were seriously and 25 others slightly hurt.

The machinist lost control of the hoisting machinery while a four-storey cage occupied by forty-five men was descending, and the cage dropped 300 feet to the bottom of the shaft. Fortunately, the companion cage ascending was empty through a delay on the part of the night shift to leave the mine. Otherwise a far more serious accident must have resulted.

REMOVAL OF COAL DUTIES.

Action Taken by Dominion Government as Result of Strike—Order Goes Into Effect.

Ottawa, Aug. 10.—With a view to relieving the situation, as it has developed in the Canadian west in consequence of the prolonged cessation of mining operations at the coal mines in southern British Columbia and Alberta, an order by the Dominion government has gone into effect removing the duties, which are 53 cents per ton for run of mine, and 14 cents per ton for slack, on all coal coming into frontier of Saskatchewan, southern Saskatchewan and Manitoba, for consumption in British Columbia, Alberta, Saskatchewan and Manitoba. This order of course, only affects bituminous coal as there is no customs import on hard coal.

The action is taken by the government, based on representations made by the governments of Alberta and Saskatchewan, and by boards of trade and public authorities of many localities in the provinces concerned, to the effect that a serious shortage of coal in eastern British Columbia and the provinces of Alberta, Saskatchewan and Manitoba is likely to result from the prolonged cessation of work in the various coal mines, and that such shortages are liable to be the occasion of widespread privation and possible disaster among the inhabitants of the provinces referred to.

The remission of the coal duties will continue so long as, in the opinion of the government, the coal mines may through lack of operation fail to produce sufficient coal to meet the public requirements, and for a period of two weeks with the passing of an order revoking the order which authorizes the remission of the coal duty.

CANADIAN BOY SCOUTS.

Contingent on Way Home Send Message to Capt. Grenfell.

London, Aug. 10.—The coronation detachment of the Canadian Boy Scouts are now returning on the Royal George and sent the following wireless message to Capt. Grenfell:

"Canadian Boy Scouts, homeward bound, send heartfelt thanks for kindness extended us. Had glorious time. Assembled at the dock and have just given three cheers for the King and Queen and royal family, also for Chief Scout Grenfell."

GEN. FRENCH'S APPOINTMENT.

London, Aug. 10.—King George has approved of the appointment of Gen. Sir John French as chief of the imperial general staff.

COMMISSIONER ON TOUR.

Copenhagen, Aug. 10.—Dr. J. W. Robertson, chairman of the Dominion government educational commission, is here. He has been making a special tour of rural Denmark.

CHOLERA AT MARSEILLES.

Marseilles, Aug. 10.—It is officially admitted that there have been 37 cases of cholera with 20 deaths.

MILITARY TRAINING IN GREAT BRITAIN

Premier of Western Australia on Need of Compulsory Service

London, Aug. 10.—Hon. Frank Wilson, premier of Western Australia, interviewed before sailing for home, said he had received a lasting impression of the might of the Empire. He was more than ever convinced of the need of compulsory military training in Great Britain. He further advocated the military scheme for the development of the Australian navy.

APPEAR IN SHIRT SLEEVES.

London, Aug. 10.—"Shirt sleeved" statesmen appeared for the first time in the House of Commons yesterday. The heat was intense, 95 degrees Fahrenheit being recorded in the shade and 113 in the sun. In the law courts wigs and gowns were generally discarded.

How To Secure Beauty

Beautiful hair does not come by chance. This is a law of nature. Man has ever had to devote care and study to secure and maintain the beautiful. This is demonstrated in everything and more so with the hair.

Providence has made it possible for every man and woman to have beautiful hair, but demands that it be cultivated and cared for. Neglect your hair and it becomes thin and lifeless. It then commences to fall out and just at the time you should be looking your best you are old looking and unattractive.

A woman's glory is her hair. And yet how often we see women who would otherwise be called beautiful, marred by the neglected appearance and dried up condition of the hair. Fair must have proper nourishment or die. Parisian Sage is a hair nourisher and one that is fully guaranteed by Dr. E. Campbell, who will refund your money if it fails to cure dandruff, stop itching of scalp, hair falling out and promote a thick and luxuriant growth. All druggists and stores 50¢. Fall Suits as Shown by "The Cash Dry Goods Store"

Suits at \$15.75

Comprising a line of fine serges in navy and black, with a showing also of the Herringbone Serges and Tweeds in plain "snappy" cuts.

Suits at \$16.50 to \$22.50

In this lot are included all the newest clothes and finishing touches that are only found on much higher priced garments, and which will cause you to wonder how we can deliver such values.

Suits at \$25--the best ever offered

Perhaps you have paid \$35 to \$50 heretofore for a costume; such an outlay is unnecessary, and it certainly suggests the necessity for you to inspect our values and prices first. Among this very fine line are the Coronation and Diagonal tweeds. Oh yes, we have higher-priced costumes perfect in style and somewhat more elaborate, but for the woman who seeks a sensible, modestly-priced and serviceable costume we heartily commend our \$25 line.

THE FISHER INTERVIEW.

London, Aug. 10.—W. T. Stead, discussing the interview with Premier Fisher, which appeared in the Review of Reviews, citing the premier's position at the Imperial conference, stated that he forwarded a copy of the interview with a letter to Mr. Fisher before publishing it. Mr. Fisher had apparently left London and when, after two or three days, no reply had been received, the silence was assumed to mean consent to publish it. "It was because Mr. Fisher had been saying exactly this kind of thing ever since coming to London that I went to see him," added Mr. Stead.

AEROPLANES IN MANOEUVRES.

Hamburg, Aug. 10.—In accordance with the wish of Emperor William, aeroplanes will participate for the first time in the army manoeuvres to be held near Eschborn, beginning August 20. Almen, Kaenig, Buechner, Wenzelers and Gordon will take part.

NEWSPAPER WAR CONDEMNED.

Los Angeles, Cal., Aug. 10.—The newspaper controversy which has been waged bitterly here for the past month, brought forth from the grand jury yesterday a criticism in which the warring morning journals are advised to stop a course which makes Los Angeles appear as "the referee of a continuous ring-fight."
The strictures are made in the course of a report to the superior court, exonerating Edward T. Earl, publisher of the Tribune and the Express, of any culpability in reference to the allegations made by other paper publishers that he sought to influence the city council in the fixing of telephone rates. The investigation of the telephone rate matter followed the indictment of Mr. Earl on the charge of having published the contents of an aerogram that passed between the editor and the manager of an opposition paper.

WILL EXPLORE POLAR REGIONS

The Norwegian Explorers Will Travel North by Way of Edmonton

New York, Aug. 10.—Bound for the far north and expecting to push their way across the frozen polar seas, Christian Leden and Harold Thaulow, members of the Norwegian Ethnological Arctic Canadian expedition arrived on board the steamship Katerin Auguste Victoria. Both men have had experience in northern wilds and are prepared for a battle with the snow and ice and rigors of polar climate.

Messrs Thaulow and Leden will go from this city to Montreal and then into the far north country by way of Edmonton. They will get most of their equipment from the stores of the Hudson's Bay Company when they strike the "great snow line." Dogs and sledges will be purchased and the two hardy explorers will make a study of the tribes encountered beyond the Arctic circle.

All the scientific data they can get will be carefully preserved.
On board the same liner came James F. J. Archibald, who has travelled at one time or another with 25 armies in the field, declaring that France has one of the best armies in the world to-day. Mr. Archibald said that the esprit de corps of the French army was magnificent. Mr. Archibald says that if war should arise between European countries it would be the first test of the value of the aeroplane and dirigible balloon in actual warfare.

THREATS AGAINST LOS ANGELES JUDGE

Letters Received by the Judge Who Will Hear Case of McNamaras

Los Angeles, Cal., Aug. 10.—Judge Walter Bordwell, before whom the McNamaras will appear on October 11 for trial on the charges of conspiracy and murder, said yesterday that he had received threatening letters in connection with the case. He declined to give out the contents of the letters, but told Attorney Leconte Davis, of counsel for the McNamaras, that the (Davis) was in a position to put a stop to that.

Davis said that if the letter received yesterday was like another threatening letter the judge had shown him previously, he could not condemn it too severely. He declared he would be only too glad to take any step suggested by the court toward the prosecution of the writer. He added that he would confer with the court on the matter later on.

CONTROLLER BAY INQUIRY.

Washington, D. C., Aug. 10.—The proposal of the house interior department expenditures committee to delay until fall further investigation of the controller Bay affair in Alaska, involving the alleged "Dick to Dick" letter, will be opposed bitterly by Republican members of the house. They assert that the committee is trying to drop the matter after allowing unwarranted reflections to be cast upon the president and the administration.

Two resolutions looking to immediate disposition of the matter were introduced by Republicans yesterday, one in the house by Representative Humphrey of Washington, and another in the committee itself by Representative Burke of South Dakota, one of the three Republican members. No action was taken on either resolution.

Mr. Humphrey's resolution asked for the discharge of the committee from consideration of the matter and the appointment of a special committee to conduct the inquiry.

The Burke resolution provided that Controller Bay be made a special order and that the "hearing continue from day to day until a thorough and full and complete inquiry has been made of the whole subject."

Mr. Burke endeavored to have this considered in open session, but Chairman Graham ruled him out of order, and by a vote of four Democrats and four Republicans the committee went into executive session.

THREATENED STRIKE.

Demonstration of Strength by Shop Employees of Western Lines.
Chicago, Aug. 10.—Railroad officials yesterday declared that the strike which threatens western railroads is being planned as a demonstration of strength by the railroad department of the American Federation of Labor.

The railroad department of the American Federation of Labor was organized four years ago. It is said to have a membership of nearly 700,000, comprising the shopmen and telegraphers of 18 railroads.

The action of the Harriman lines in refusing a wage increase, it is said, will be followed by the heads of other railroads. The informal conferences between western railroad officials on the subject of the strike are being continued.

COTTON CROP THREATENED.

Lahore, British India, Aug. 10.—The ravages of the bollworm are so widespread in the Punjab that unless it can be speedily checked the belief is expressed that there may be little or no cotton crop in that province this season.

In West Australia there are only 54,000 women in a population of 105,000.
At least 20,000 different kinds of butterflies are in existence.

THINKING THEMES

BY DR. FRANK CRANE

Action is the father of thought. We do not learn all about a thing and then go and do it; we do it, badly perhaps, and keep on doing it; and out of the Doing the Understanding of it.

Truth is not found by study, nor by searching for it, least of all by the idle and "do-less." It is a sort of light that is secreted by the concrete deed.

Hence students, investigators and theorists are proverbially cautious. With them everything depends. It is said of James Buchanan that he was so circumspect that if you asked him whether the sun had arisen that morning, he would answer, "Well, that, of course, depends upon where one is standing on the earth."

Now, there is none of this hesitancy about a blacksmith. He knows what he can do with red-hot iron, because he has tried it. His knowledge came not by memorizing or speculating, it is the product of sweat, fire and hammer. The real "learned class" consists of farmers, butchers, bakers and candlestick makers. What they know they know. The so-called "learned professions" are composed of doctors and lawyers and preachers, who are all more or less expert guessers.

This is the fist of what is called Pragmatism, which means, in plain English, that Truth is not a Thing, like a pebble or a fish, to be picked up or caught. Hence you can never squeeze it into a Statement. Truth is a Relation, like a sine or a cosine; it is a sort of color or perfume attached to and growing out of a Deed. Hence Truth is what will work; error is what will not work. The only way to tell one from the other is to try them and see. Sometimes it takes a thousand years, and battles, and epochs of madness, and kingdoms and republics, and a whole world to try them out.

U. S. SENATE MAY AMEND TREATIES

Friends of Arbitration Believe Changes Will Be Necessary

Washington, D. C., Aug. 10.—Friends of the British and French arbitration treaties in the senate have reached the conclusion that it will be necessary to amend the conventions in order to get favorable action upon them. This conclusion is the result of decisions by the Senate committee on foreign relations.

After two prolonged sittings the committee adjourned late yesterday to meet again on Saturday. Both meetings were devoted to the consideration of the documents on their merits, the first in company with the second by members alone. No effort was made to have the treaties reported, and it became extremely doubtful to some of the friends of the administration whether such effort would be wise at present.

Special objection was made at both sittings to the provision submitting questions of difference to the joint high commission of inquiry. Fault was also found with the provision in the French treaty authorizing ratification by that government in accordance with the procedure required by the laws of France, with the condition in the British treaty that matters affecting dependencies of Great Britain should be submitted to the governments of such dependencies. It was thought the latter cause might lead to undesirable complications, while, it was feared that the former might necessitate a change in the methods of proceeding in this country.

Nevertheless it became evident that the power conferred upon the joint commission is the only real obstacle to early action. Several senators expressed unalterable opposition to this paragraph, and more than one suggestion was made that it should be eliminated or materially modified. No motion was made to this effect, but if there had been a vote it probably would have carried. The extent of this criticism will be brought to the President's attention, and some senators will urge the cancellation of the provision.

At the afternoon session a suggestion of the morning meeting that the whole question be postponed until December took the shape of a motion to that effect. It was made by Senator Charles of Arkansas, but was withdrawn upon a general expression of opposition.

In this connection the friends of the treaties received the greatest encouragement during the day. Many members of the committee expressed themselves as friendly to the general proposition involved in the treaties, and some went so far as to say that with a few changes it might be possible to get favorable action during the present session, especially if it should be prolonged to any extent.

NIobe AT HALIFAX.

Cruiser Towed From Clark's Harbor By the Cornwall.
Halifax, N. S., Aug. 10.—The warship Niobe has arrived here in tow of H. M. S. Cornwall from Clark's harbor. The passage of 140 miles was made at the rate of six knots an hour. The Niobe's pumps easily kept pace with the inflow of water. The Lady Laurier followed the cruiser to steer her, as her rudder was not in order.

EXPRESS SHIPMENT OF DRESSES

We have just received an express shipment of Dresses in Sicilian and Venetian Cloths. These are neither morning nor evening dresses, yet they are very suitable for either and exactly appropriate for the girl's business dresses. They come with long sleeves, kimono sleeves, braid or lace trimmed. Prices start at \$5.50.

WIRELESS MESSAGES FROM AEROPLANES

Experiments Are Being Conducted by the United States Navy Department

Washington, D. C., Aug. 10.—Efforts are being made by the navy department to perfect a system of wireless communication between shore stations and aeroplanes. Captain Mayo, commandant of the Mars Island navy yard, has been authorized to conduct experiments with models of aeroplanes suspended in the air and equipped with wireless outfits to determine whether the frame of an airship will act as a "ground" for the type of wireless apparatus used by the navy shore.

The models will be suspended on insulated ropes between the smokestacks at the navy yard, and an effort will be made to send messages to the wireless stations at San Francisco and Yerba Buena, Cal. More experiments with the wireless telegraph in conjunction with aeroplanes are looked for as soon as the naval aerial school at Annapolis is opened.

One important point in dispute is whether the wire necessary to establish communication should be suspended from top of the machine or suspended from the bottom. In the latter case, many aviators contend the wires might interfere with the propulsion.

DEFIES JUDGE.

Commissioner Refuses to Permit Woman to Work on Rockpile.
Iola, Kas., Aug. 10.—The order of Judge D. B. D. Smeltzer of the Iola municipal court that a woman convicted of an offence of a vicious nature should in default of payment of her fine, don overalls and work out her sentence on the rockpile like a man, was defied yesterday by Street Commissioner G. O. Glyn, who refused to allow Mrs. Ella Reese to work on the streets.

Mrs. Reese was convicted Monday and the judge announced that she would work out her fine on the rockpile. In pursuance of the judge's advice, the foreman of the city cleaning department led Mrs. Reese from the jail yesterday to a downtown street, where the city prisoners were working. Reese could take her place with the street workers, Commissioner Glyn called a halt and Mrs. Reese was taken back to the jail while the bystanders cheered Glyn, who remarked he thought the law would uphold his action.

"I am willing to obey the order of the court," said Mrs. Reese, after she was returned to jail. "If he says so I'll put on bloomers and go to work on the streets, but I believe I would be the last woman that would ever do so, as well as the first. I believe the people would not stand such a thing."

When Judge Smeltzer learned that his orders had not been obeyed, he said emphatically that Mrs. Reese should go to work.

"If she don't go to work she will stay in jail until she concludes to obey the court," he said last night.

THE DAILY TIMES

Published daily (excepting Sunday) by THE TIMES PRINTING & PUBLISHING COMPANY, LIMITED

RECIPROCITY AND WAGES.

Yesterday the Times received—with some amusement it must be confessed—very credible evidence that agents of the opposition to reciprocity are canvassing the laborers in the employ of the city and on other work with a view to frightening them into the belief that while reciprocity will undoubtedly cheapen food it will at the same time decrease wages.

We may be permitted to submit a list of questions which it will be well for those who labor with their hands for daily bread to have answered for them by those who try to frighten them with bogey stories about the danger of reduced wages under reciprocity.

In pursuance of the subject he might ask, if the Conservative opposition in Canada is suddenly so anxious for the rights interests and benefit of the workmen, why Mr. Borden's campaign managers have accepted \$500,000 from the Tariff Reform League in England to buy help of Canada to inflict a duty on food stuffs imported into the Mother Country, thus raising the price of living for the workmen there.

Intelligent laboring men know that the cost of living has nothing to do with the rate of wages. They know that the cost of living can be safely reduced one quarter without in any way endangering the prosperity of those for whom they labor.

These are history-making days. A few of the great events culminated or culminating are: Signing of arbitration treaties between France and the United States and England and the

that ever has in any way assisted the workmen of the Dominion to wrest some of their rights from the protectionists and industrial magnates. It is scarcely likely that the party that has persistently opposed these remedial measures is all at once changing its sympathies and developing concern for those who toil.

We shall be much surprised if the intelligent laboring men of this country allow themselves to be deceived with the old Tory theory, so recently advocated in Victoria, that high prices of food stuffs are the only guarantee of good wages, and that whenever the cost of living is reduced wages must come down.

GOVERNMENT OR OPPOSITION.

The morning paper indulgently asks the Times to put our imagination at work and tell what a "solid seven" Liberals would do should that number be returned to parliament.

As far as the Times outlining what a "solid seven" could do—since the members of the opposition could do nothing—we may say the candidates will no doubt speak for themselves.

We may say, however, that when the Liberal programme for the province of British Columbia is laid before the public by those who will be nominated as Liberal standard-bearers, it may somewhat surprise our rapacious morning contemporary to find that it must either endorse these, or else block the wheels of progress.

There is no doubt that in spite of the dog in manager policy of the provincial government, which corruptly administers its own badly devised land laws; in spite of the wholesale jobbery of the local government with railway companies; in spite of the false pretences as to its deals with corporations, the Dominion government will undertake to develop this province in a way hitherto hindered by these obstructionists.

The Colonist may as well get ready for a few somersaults, as it may find its way as an opponent of government plans a very thorny one to travel.

To come out right, a man should start in right. That's where Mr. Borden made his mistake—Winnipeg Tribune.

The man who rules himself and exercises his own judgment at the ballot box, comes under the heading of intelligent citizen.

Get a pamphlet containing the tariff changes proposed under reciprocity and ask any man to point out the item to which he objects.

Ex-Admiral Dan McGillicuddy, it is announced, will take the stump against Hon. Frank Oliver. This is not surprising. There is no more bitter politician than the man who is willing to be "squared," but is turned down—Hamilton Herald (Con).

The last edition of the London Financial Post says the British newspaper that mixes up in our reciprocity fight is "nothing more or less than a meddler." It really makes no difference, however, Canadians, like the people of the Old Land, go on looking after their own affairs, quite oblivious to outside interference—Winnipeg Tribune.

"Slanderbund" is the name given by the Hamilton Times to the coterie of mongers of alleged news appearing in the opposition press throughout Canada. It's a good name for general description, but there is evidently no collusion. Every alleged correspondent lies according to his own sweet will and we have one neutralizing another. Not much fecundity in the game.

These are history-making days. A few of the great events culminated or culminating are: Signing of arbitration treaties between France and the United States and England and the

United States; the reconstruction of the British House of Lords; the ratification by the United States congress of a reciprocal trade pact with Canada; and the holding of a general election in Canada on the proposed ratification by the Dominion of the pact—Winnipeg Free Press.

The Toronto World, which for weeks published letters from some yawningly-declared that the prosperity boom in Vancouver had burst and that thousands of men were out of employment, many starving, has at last been compelled, editorially, to eat crow.

The Mail and Empire in its insane search for suspicious circumstances connected with the reciprocity pact has this to say: "President Taft says that it may take a decade to make all the advantages of the reciprocity agreement apparent. That is, he takes it for granted that there will be no breaking away from it for ten years. Doubtless there is some understanding with our Ministers to this effect, but they keep on saying that we can break away from the agreement whenever we like."

We are asked to state the policy of the Dominion government in the matter of a Canadian navy. The policy of the present administration, in a word is to construct in Canada and maintain and enlarge in accordance with the resources of the country a navy for defensive purposes at Esquimalt. In contradistinction to this the policy of the Nationalist-Tory combination is no navy at all.

THE FARMER'S TURN.

When tariff protection for manufacturing industry was proposed, it was seen and admitted that it would enhance the price of everything the farmer had to buy. And yet the farmers of Canada assented to the adoption and continuance of that policy as being in the general interest.

Under it they saw the cities grow, under it they saw the countryside deserted. They saw the cities fill with young men and women who were dissatisfied with the interior economic opportunity offered by life on the farm.

THE SOLE ISSUE.

And now the battle is joined and the issue is clear. There is to be no side-tracking, no shirking, no drawing of red herrings across the trail, no confusing and deluding of the electorate by the raising of false cries or the holding out of ignis fatuus lights to dazzle and mislead. Reciprocity is the sole issue which must be discussed from every newspaper from Cape North to Nootka Sound, from Halifax to Vancouver. He who talks or writes anything else for political consumption is wasting breath and ink.

BOY STILL MISSING.

Chicago, Aug. 10.—Angelo Mareno, the kidnapped child, was reported found late this afternoon. Detectives were said to have been sent to take the boy and make arrests.

Later it was learned that the police had expected to find the boy in a lonely house at Craigh. They rushed to the place in an automobile, but found no trace of the missing boy.

BISHOP PERRIN'S APPOINTMENT.

London, Aug. 10.—Rt. Rev. W. W. Perrin, formerly Bishop of Columbia, who was a short time ago appointed the first bishop of the new suffragan see of Willesden, London, will hold simultaneously the rectory of the parish of St. Andrew and Undershaft.

SCHOOL BOARD FILLS VACANCIES ON STAFF

Manual Training Building for George Jay School—Tenders for Coal

J. Spouse, a member of the staff of the George Jay school, and J. Larsen, were appointed to the staff of the high school at the meeting of the school board last evening. Mr. Spouse took his position in George Jay school with excellent recommendations, and during the year that he has been in this city has earned the respect and esteem of pupils and associates. He will be science teacher in the high school. Mr. Larsen is well recommended for the position which he will

JOE COOK
The nifty, natty, natural, nigger man at the Empress this week, who gives a whole vaudeville show in ten minutes.

take as teacher of English literature. The salary fixed in each case is \$110 per month. Miss Juniper and Miss L. Preston were appointed to the staff of the domestic science classes of the city schools, the former at a salary of \$109 a year and the latter at \$750. Both teachers had the best of references for the positions. The appointment of a

manual training instructor will be made later. The contract for the erection of the George Jay manual training building was awarded to Knott & Jones, whose bid was the lowest, at \$3,572. Others who tendered were Parritt Bros., the builders of the school itself, \$3,938, and Luney Bros., \$5,556. The plans call for a one-story structure of brick, to harmonize with the main buildings in design and color.

The Vancouver Island Coal Company and Joshua Kitching were the bidders for supplying of the city schools with fuel, each firm offering to take the contract for \$4.40 per ton. The former company was given the contract.

Trustee Hiddell, chairman of the buildings and grounds committee, reported that tenders for the new high school will be called for in about two weeks. All schools will be ready to open on August 25. The offer of the Hinton Electric Co. to install the fixtures of the domestic science building for \$295 was referred to the committee in charge of the work. Accounts to the amount of \$1,302 were presented by the finance committee and ordered paid. The resignation of A. Cunningham, who is going to take a position on the staff of the Nanaimo schools, was accepted with regret.

indignation. "Either rail it in as a sort of relic until all the bricks have been carried away, which, at the present rate of progress, looks like taking about two hundred and seventy-nine years, or else expropriate it yourselves, and build a city hall on the spot which will be a credit to the place.

"You've got the best possible site there, and by far the most convenient for a city hall. Right in the middle of the city, and with your parliament buildings on one side of the harbor you ought to have something good to look at along Government street. A graceful, full, modern building there would add enormously to the beauty of the city, street, would greatly bespeak of the Victoria and would be worthy of the Victoria and come. Why don't you do it?"

"If such a plan could be carried out what would be your idea?"

"I'd put up a city hall, big enough to contain all the proper departments, and I'd make it form the centre of the site. Then I'd have asphalted paths leading from the main building out to all the four streets, through arcades, and I'd let off the space in the buildings on the front of the whole four sides made up of other uniform and artistically built stores of one story in height. This would not hide the city hall, and the plan would bring in a

fine return in rentals. It would altogether give you an up-to-date civic building, would do away with the present heap of debris, and would pay well into the bargain, as you could get big rents from such positions.

"Don't forget that Victoria is bound to go ahead greatly. The opening of the Panama canal will make more difference to Victoria than it will to Vancouver. And for another thing, the time is drawing near when lots and lots of well-to-do Vancouver business men will build homes here and come over from Friday night to Monday. That's what I'm going to do as soon as there's a night boat from Vancouver, and that won't be long. There's no residential part of Vancouver which can hold a candle to Victoria for picturesque, and beauty, and comfort, let alone the attraction of being practically on the sea. Get busy, and see if your people can't do something with that Burnt Out Block."

NEWS OF SPORT

PROGRAMME DRAWN FOR BAY CLUB SPORTS

Oarsmen Have Busy Time Ahead—Compete at Shawigan and Vancouver

Arrangements are now under way for the annual water sports of the James Bay Athletic Association which will be held at the Gorge on August 26, and will be known as the Flumerfelt regatta. The oarsmen and other members who intend participating are in steady training.

The Bay oarsmen have quite a busy time ahead. Only a week or so after their own regatta at the Gorge they will, in all probability, compete in the S. L. A. A.'s Labor Day sports. The secretary has also received an invitation from the Vancouver Rowing Club asking him if the J. B. A. A. crews, fours, doubles and single, will enter the Vancouver club's annual regatta, which will be made the occasion of the opening of the new club house in the near vicinity of the one now in use. The date for the Terminal City affair has not yet been decided on.

The following is the programme of the J. B. A. A. club sports: Club fours; junior singles; ladies' and gentlemen's dinghy race, double sculls; dinghy race, double sculls, lady coxswain; double tandem canoe race; lady and gentleman; tandem canoe race; single paddle canoe race; upset canoe race; tilting match; swimming races.

stuck out one fin, corralled a swift grounder off Coleman's bat and pegged the runner at first. It sure had the appearance of a hit.

Tauscher robbed Grindle of a hit in the ninth when he deflected a grounder ball towards first and, chasing it up, got it to the sack in time to catch Grindle.

DeVogt was caught napping again yesterday. He hit over first in the ninth, bringing McMurdo in. Kennedy threw to Schmutz, and DeVogt, thinking the pitcher was going to try for McMurdo at the plate, started for second. Too late he saw his mistake and fell an easy victim, Schmutz running over himself and negotiating the out.

ABOUT BASEBALL

Kellar got back yesterday, but did not play owing to the fact that the boat was late. His continued absence was beginning to look bad, and the rumor had begun to be circulated that he had jumped to be circulated that when Kellar stated that on leaving his home for the boat on Monday he boarded a crowded car. He was unable to get a place anywhere but on the steps, and was shoved off by the expansion of the crowd when it began to dig down for nickels. His back was hurt, but not badly, but enough to impel him homewards.

A few pretty plays were made in the opening stages of yesterday's game. The best was one by Goodman, who

The standing of the Northwestern League team is:

Team	W.	L.	Pct.
Vancouver	69	46	.600
Tacoma	66	48	.579
Seattle	60	52	.535
Spokane	61	54	.529
Portland	56	54	.500
Victoria	59	55	.514

The Vancouver Ball Club has bought the release of outfielder Emil Frisk from Spokane.

The Shawigan Lake Athletic Association will close the season of 1911 by holding its second annual Labor Day regatta on the lake, just off Keonig's station. A splendid programme of land and water events is being drawn up and the committee is arranging for a good prize list. The amusements will close with a flannel dance in the S. L. A. A. ballroom.

The J. B. A. A. has been invited to enter as many crews as it can in this regatta and, although the number has not yet been decided on, it is known that the four which rowed against the senior four of the S. L. A. A. on Saturday will be sent up.

Convenient railway transportation from the city to the lake will be provided. Entries must be sent in to E. W. Blake, S. L. A. A. secretary, Koontz

"MAC" WENT TO BITS IN SEVENTH INNING

Victoria Took Lead at Start but Batting Rally Gave Tacoma Six

A batting rally in the seventh inning, in which two-thirds of the Tigers took part, Mike himself being in the front with a four-bagger, scored six runs and won yesterday's game for the visitors. Only on one of two other occasions have the fans been so sore as they were yesterday. Everything went along beautifully for six innings and all was smiles and sunshine. Victoria took the lead in the first inning and threatened to show Tacoma a clean pair of heels to the wire, but stumbled badly in the seventh. Before she could recover Tacoma was out of sight and Victoria was left inside of a tomb stumbled, understandingly over the rest of the course.

McCreery had the Indian sign on the Tacoma batsmen and would have won his game if he had not lost his nerve and gone all to pieces as soon as things took on a darkish hue. Up to the seventh inning Victoria had scored four runs, two each in the first and fifth, in both cases a pass preceding a home run turning the trick. The Tigers in the meantime had notched up two, Moss's homer with a man on bases in the fourth being responsible.

Then the disastrous seventh was ushered in. Victoria went out in order. Tauscher and Schmutz were cut down and Basse rested on first before the fun commenced. "Mac" was successful in causing Coleman to whiff at two but after working him to the limit was finally forced to put one over. Coleman met it on the nose and almost broke down the right field fence.

If it did not quite break the fence he did break something else apparently—McCreery's nerve. The heavy end of the Benjal batting list was up and the pounding that ball received was something awful. Lench and Fisher got four-baggers but the others were content with singles. When the dust had settled and the fans were in a position to see exactly what damage was done it was found that whatever

chance the Islanders might have had of recovering the lost ground was reduced to a minimum by their listless, nerveless playing. All the heat had been taken out of them. The best they could do was to score one run in the ninth. The score:

Team	A.	B.	R.	H.	P.	O.	A.	E.
Brennan, s. s.	3	1	2	4	0	0	0	0
Million, r. f.	2	3	1	1	1	0	0	0
Goodman, 3. b.	4	2	2	2	0	0	0	0
Ward, 2. b.	4	0	0	0	0	0	0	0
Clemenson, 1. f.	3	0	0	0	0	0	0	0
McMurdo, 1. b.	4	1	13	0	0	0	0	0
Grindle, c. f.	4	0	0	0	0	0	0	0
DeVogt, c.	4	0	1	7	1	0	0	0
McCreery, p.	4	0	0	0	0	0	0	0
Totals	32	5	6	27	17	0	0	0

Score by Innings:
Tacoma 0 0 0 2 0 0 6 0 0 5
Victoria 2 0 0 0 2 0 0 0 1 5

Summary:
Sacrifice hits—Spencer. Stolen bases—Brennan (2), Million, Lench, Lynch, Miller and Goodman. Bases on balls—Off Tauscher, 2; off McCreery, 5. Left on play—Ward to Brennan to McMurdo. Passed ball—DeVogt. Hit by pitcher—Moss by McCreery. Time of game—1:55. Umpire—Baumgarten.

PIPPINS WIN.

The Giants outthrew the Pippins at Seattle yesterday but the visitors' swats were more timely and several were longer and Portland won, 7 to 5. The home team obtained a substantial lead in the first inning, but were unable to hold the advantage. The score:

Team	A.	B.	R.	H.	P.	O.	A.	E.
Leard, 2. b.	4	1	2	4	2	1	0	0

SPORT NOTES

Hal Beasley is the only Victorian who will enter the P. N. A. sports at Astoria on August 25 and 26. He will run in the 100 and 250, and, as he will have as opponents some of the best sprinters on the continent, may be counted as a "comer" for national fame if he wins. Hal, of course, is at a disadvantage in having to do all his training alone; he has no experts to look after him, to see that he does not take a chill, does not eat too much or does not do anything of the hundred and one detrimental things an athlete who has to be in the pink of condition may do.

Entries are coming in fast for the J. B. A. A. field and track sports on August 15 at Oak Bay. Several athletes from the northern part of the Island are among others who will compete.

Capt. Foulkes, of Victoria, won two games yesterday in the men's singles in the Pacific Northwest annual tennis tournament in progress at Tacoma. He won from Franciosa, of Tacoma, by default and defeated Lewis, of Seattle, 6-1, 6-2. The stars in the men's class at Tacoma are Nat Emerson, of North Yakima, and J. C. Tyler, of Spokane.

The Kingston Street Tennis Club opened its annual tournament to-day. There are about 25 participants, and it is expected that the finals, which, it is hoped, will be reached on Saturday will be full of excitement.

RUGBY TEAM AGAIN TO BE INVITED SOUTH

Suggested Forming Fifteen From Victoria, Vancouver and Nanaimo Players

Berkley, Aug. 10.—In order to make sure of a visit from British Columbia Rugby footballers this fall, Graduate Manager Burbank, of Stanford University, has set out for the north to press for the trip. Last year Vancouver failed to send down a team, much to the disappointment of the two southern universities, California and Stanford, and the reasons then given were that Vancouver could not send down a sufficiently strong team. Burbank will urge that if Vancouver cannot send a team of her own down this fall, a side composed of Victoria, Vancouver and Nanaimo men make the trip.

The proposition will probably be warmly received in British Columbia. There should be a large list of Rugby players on hand this coming season, and there should be nothing to prevent Victoria and Vancouver each springing men to make the tour.

Dr. Morse's Indian Root Pills

exactly meet the need which so often arises in every family for a medicine to open up and regulate the bowels. Not only are they effective in all cases of Constipation, but they help greatly in breaking up a Cold or the Grippe by cleaning out the system and purifying the blood. In the same way they relieve or cure Biliousness, Indigestion, Sick Headaches, Rheumatism and other common ailments. In the fullest sense of the words Dr. Morse's Indian Root Pills are a Household Remedy.

Two years and a half to pay for a lot is different from most terms and the difference is in your favor.

PLAN OF RICHMOND PARK

Key—Richmond Avenue runs north two blocks to Oak Bay Avenue

Richmond Park from a Home Standpoint

Taking Richmond Park from a home standpoint, we contend that this subdivision offers more attractions, to the man who buys to build, than any subdivision on the market in Victoria.

Richmond Park has the advantage of being within the city limits, and of being surrounded by the best homes in Victoria's best residential district. The holding of this property after surrounding property had been sold accounts for its present unique position.

The fact that Richmond Park has been so long withheld from the market greatly increases the speculative value of these lots, and for the man who buys to build, gives the advantage of being surrounded by the best residential district in Victoria.

Apart from the surroundings of these lots is the question of improvements, so important to the man who buys to build. The person who buys in Richmond Park is assured of every modern convenience. Sewers are already on two streets, and will be laid on others as required by home builders. Water will also be piped to the property as needed.

Streets are already being graded and will be rushed to a speedy completion. The Oak Bay car service assures an easy and efficient access to down town.

Another question usually asked by the prospective home builder is "What class of houses will be built on the property?" In answer to this we would say that there is a building restriction of from \$2,000 to \$4,000 on the property. This restriction places no great hardship on anyone, yet it means the right kind of environment, and will tend to enhance values as soon as improvements commence.

Already several homes are contemplated and there is no doubt of many more being built in the near future.

If you contemplate building a home it will be to your advantage to see Richmond Park.

Remember This: Richmond Park is the Only Subdivision Left For Sale Within the City Limits; further, it is in line for all modern, Sanitary and Civic Improvements

FIRST WOMAN AS A SOUND SKIPPER

Mrs. T. J. Walthey Master of Tug Elmo at Tacoma—Husband as Engineer

Tacoma, Aug. 10.—From a girl's basketball team to the desk of stenographer in a lawyer's office and thence to the captaincy of a tugboat sums up the unique life record of Mrs. T. J. Walthey, a young woman of this city, who has just assumed command of the tugboat Elmo, of the Betts Towing & Wrecking Company.

Mrs. Walthey took temporary command of the tug Elmo, of the same company, yesterday while a new engine was being installed in the Elmo.

"I have always been an athlete and a lover of the outdoors," she said, "and naturally the sea appeals to me. I feel much better than if I were shut up in an office bending over a typewriter and then there is always something of interest or excitement. Why, two weeks ago we had a fire in the engine room of the Elmo while near Alki Point and we had a woman skipper certainly can't complain of monotony."

"But it is mild here as compared with the Great Lakes. There is too much peril back there to make it pleasant, but here on the Sound conditions are ideal."

Mrs. Walthey likes the Elmo but her heart is with her regular command, the Elmo, which she will command in the city waters as she talked. The Elmo is a larger and roomier boat with a hull of graceful lines and is very comfortably fitted up.

"I'll be glad when we get back to the Elmo," she said, "the cabins are large and we are able to make them home-like and a woman skipper has the same home-instinct as any other member of her sex."

Mrs. Walthey paused to issue two or three orders. The tug was preparing to tow a scow over to the Dash Point. She put on her skipper's cap and it was decided by becoming. Her orders were obeyed, too, just as promptly as if they had come from some salty old skipper.

She was born in Minneapolis and was graduated from the central high school of that city. She became an athlete when 10 years old and played on the Pillsbury House basketball team for two seasons. After graduating from the high school she completed a course in a business college and was stenographer in a Minneapolis law office for several years. Then she married Captain Walthey, a Great Lakes sailor, and voyaged with him. He was captain of the steamship Northwest out of Chicago, and she qualified as quartermaster, later obtaining a master's licence. From Chicago they moved to the Sound, Walthey sailing for five years out of Seattle on Alaskan boats.

Four years ago Mrs. Walthey obtained her papers as pilot for vessels of 100 tons and under between Puget Sound points and Cape Flattery. She acted as quartermaster of skipper before attaining the rank of skipper. The problems of tides, currents, winds, atmospheric conditions, navigation and the like have no terrors for the golden-haired skipper who bosses the tug as easily as another woman would run household affairs.

So far as known here Mrs. Skipper Walthey is the only woman commanding a tugboat on Puget Sound. Several other women on the Sound, however, hold masters' licences.

MARINE NOTES

The Blue Funnel liner Teucer, which cleared this port with a light cargo last month, has arrived at Singapore.

The Boscowitz steamer Venture will arrive at Victoria on time next Wednesday with freight from northern B. C. ports.

The steamer Vado of the Boscowitz line reached Vancouver last night from

TACOMA WINNER OF A SEA STORY PRIZE

Brain Fog or Snakes Produces a Buccaneer Ship in Active Pass

A dispatch bearing all the hall marks of "inspiration" was sent out yesterday from Tacoma, alleging that Capt. McMullen of the British tug Bermuda, to Tacoma from Texada Island, reported that at 8 o'clock Tuesday night, in the vicinity of Active Pass, he saw a man throw overboard from a tramp steamer flying a foreign flag. The vessel was alleged to be passing out to sea from Victoria or Vancouver.

The captain was looking at the vessel through his binoculars. He saw it was a foreign flag, but failed to mention to the dispatcher of the story which foreign flag it was. No tramp has been sighted in the vicinity mentioned lately that would be carrying a foreign flag, and it can only be supposed the dispatcher is lying or that a buccaner slipped in during the night, and as it has not arrived anywhere, it was—or again, maybe, it is snakes.

UMATILLA IS SOUTH BOUND; QUEEN NORTH

Puebla to Discharge Victoria Freight and Take Excursionists Aboard Here

The Pacific Coast Company steamer Umatilla out bound for San Francisco left the Outer Wharf this morning taking 25 tons of hides from Victoria for the Golden Gate city, and a total freight of 1862 tons. From Victoria she had as passengers in the saloon G. W. and Mrs. Wilson and two children; and Assistant Fire Chief and Mrs. W. W. Stewart who are en route to San Francisco for a holiday trip. Other passengers were Mrs. Alice Mannes, Miss C. D. Lang and C. Lang. There were three passengers from Victoria in the second cabin.

With the French Consul at Vancouver, D. C. Viscount Bernard D'Arny and Countess D'Arny and their son aboard, the Pacific Coast company's excursion steamer Queen departed from the Outer Wharf this morning at 11 o'clock for the excursion sight seeing trip north. She had a full complement of passengers and was barking from Victoria were Mrs. and Miss Ellis.

Bringing 89 tons of general freight from San Francisco to Victoria and considerable freight for Sound ports the Pacific Coast steamer City of Puebla will dock to unload and take on Sound excursion passengers tomorrow night at about 11 o'clock.

There are 39 excursionists taking the Sound trip from Victoria on this trip. They will visit all the Sound ports of interest returning here on the City of Puebla on her out bound voyage next Wednesday morning.

HENRIETTE OUTBOUND; PRINCE RUPERT GONE

Three-Funnel Boat Takes 80 Tons and Passengers—Lumber on Freighter

Carrying 80 tons of general merchandise north the G. T. P. steamer Prince Rupert went on her regular northern bound trip this morning departing at 10 o'clock from the G. T. P. wharf.

She had on board as passengers F. McNeill, H. S. Lang, for Skidgate; D. D. and Mrs. Ewart H. G. Marvin, A. Heino, for Ikeda Bay; Viola Campbell, H. Campbell, Mrs. T. E. Thompson and E. L. Fisher. The G. T. P. steamer Henriette from the Northern ports arrived at the G. T. P. wharf last night and is due to steam out again on the return journey at 11 o'clock to-night. The freighter will carry 50,000 feet of lumber and 75 tons of general merchandise.

ESTEVAN SPEAKS OVER 1,600 MILES

IN TOUCH WITH FOUR SHIPS DURING NIGHT

New Wireless for Cable Ship Restorer—Large Installation by U. S. Alaska

The wireless operator stationed at Estevan was in communication last night with vessels far out at sea, speaking as far out as 1,600 miles, at which range the operator picked up the Great Northern Steamship Company's liner Tamba Maru inbound for Victoria from the Orient. The operator spoke the Tamba Maru at 3 a. m. when she was in latitude 56.90 north and longitude 127.10 west. With 1,600 miles of her Pacific journey to complete the Tamba Maru will be here early next week. At the time of speaking all was well aboard.

The Tamba Maru left Yokohama August 3 west bound with 395 tons of freight for Victoria and 97 passengers for this port, of whom 18 are Europeans and 79 Chinese.

Estevan also spoke the Bank Line steamer Kumeric at 8:50 p. m. the vessel then being 159 miles from Cape Flattery. At 8:30 a three-masted steamer was sighted but her name not made out. At 2 a. m. this morning Estevan also spoke the Mexico Maru of the O. S. K. line west bound, her position being given as at 8 p. m. yesterday latitude 51.22, longitude 151.15 west, 1,000 miles from Estevan.

New wireless apparatus is being installed on the cable ship Restorer, Capt. Coombe, now lying in Esquimalt harbor, where she has had permanent headquarters for the last two years. The old Lodge-Muirhead system on the Restorer is being replaced with a Marconi installation and an additional fifty feet, giving her greater sending power. The apparatus being installed now will be on the most improved plan.

Wireless Stations in Alaska. Seattle, Aug. 10.—Within a month the United States Signal Corps will throw into its chain of telegraphic circuits the largest and most expensive wireless installation in Alaska, when communication is entered into with Nulato, 248 miles from Port Gibbons in the northern territory. Work points in the northern territory for the aeriatics was yesterday reported under way at the Seattle office of the Signal Corps.

The new station was created under the supervision of A. C. Knowles, who has charge of all the wireless installations for the government in Alaska, at a cost of \$40,000. It is of ten kilowatt capacity.

The chief efficiency of the new station is expected to be felt as a relay station from Iditarod to the main line in case of any interruption with the land, the messages being relayed to St. Michael and Nome, in such events.

TAKE EVIDENCE ON FISHING COMPLAINTS

Washington State Commission in British Columbia and Expected Here Shortly

George Donworth, Josiah Collins, Ralph Nichols of Seattle, and Dr. Tory of Port Townsend, all members of the Senate of the State of Washington, together with United States Fisheries Commissioner Capt. John L. Risland, forming a commission appointed by the governor of the state of Washington, are expected to arrive in Victoria shortly to examine into the alleged non-observance of the Canadian fish-

ing laws by the American fishermen, and to obtain information regarding the fish catch along the coast this season.

The commission is at present in Vancouver as a result of complaints made in a report last year by Mr. Babcock for the province of British Columbia that traps were being and had been set by American fishermen within the Canadian boundary, and that they were eluding the Dominion patrol boats. The commissioners have instructions to interview interested officials and those interested in the fishing business with a view to getting full information and particular information of instances complained of with a view to follow up and prosecute the offenders on their home side.

They have been interviewing Dominion Fish and Game Commissioner Cunningham at New Westminster and yesterday went to the Fraser river points, expecting to come across the sound on their return from the Fraser. They are travelling in Commissioner Risland's launch Bessie.

COAL IS DUMPED IN GULF OF GEORGIA

Scow Overturns With 500 Tons on Way From Union Bay to Vancouver

Coal, like gold is where you find it, and fishermen have now an opportunity to locate between 400 and 500 tons which was yesterday accidentally dumped in the sea somewhere between Union Bay and Vancouver.

Early yesterday morning the tug Heron started from Union Bay with two scows containing about a thousand tons of coal for Macdonald, Marpole & Co., Vancouver. Shortly after noon the tug arrived in Coal Harbor with the two scows, one loaded with coal and the other upside down.

When the scows started they were both laden with coal. After they had cleared Union Bay and were crossing the Gulf of Georgia one scow sprang a leak and filled with water. It then turned completely over dumping the cargo in the briny. Both scows were brought in, the loaded one taken to the coal pier at the foot of Georgia street and the upturned one tied to some piles near the C. P. R. tank.

It is improbable that the coal company will lose by the wrecking of the large, inasmuch as most of the coal brought across the Gulf is insured by them.

GRATEFUL AND COMFORTING

NOTICE TO CONTRACTORS

Tenders for Terminal Station, Quebec.

SEALED TENDERS, addressed to the undersigned, and marked on the envelope "Tender for Terminal Station, Quebec," will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, Ont., until 12 o'clock noon of the 21st August proximo, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of terminal station in the City of Quebec.

Plans and specifications may be seen, and full information obtained, at the office of Mr. Gordon Grant, Chief Engineer, Ottawa, Ont., and of Mr. A. E. Deuce, District Engineer, Quebec, P. Q.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied by the Commissioners.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an acceptance cheque on a chartered bank of the Dominion of Canada, payable to the order of The Commissioners of the Transcontinental Railway, for the sum of One Hundred Thousand Dollars (\$100,000).

The cheque deposited by the party whose tender is accepted will be deposited to the credit of the Receiver General of Canada.

The Commissioners of the Transcontinental Railway,
Dated at Ottawa, 2nd July, 1911.
Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

BUILDING SHOWS LARGE INCREASE

REPORT ON OPERATIONS IN CANADA IN JUNE

Average Gain of 40 Per Cent. Over Corresponding Month Last Year

An average gain of 40 per cent., representing a total investment of \$14,590,238, as against \$10,636,278 in the corresponding period of last year, briefly summarizes the building situation as based on operations undertaken in the 31 cities reporting to Construction, Toronto, for the month of June. Taking into account the tremendously heavy investment of the preceding month, the showing made clearly indicates that as regards structural development, the country in general is moving on apace. Twenty-two gains in all were noted in the 31 cities referred to, the totals in a large number of instances denoting a decidedly marked increase.

Winnipeg's total of \$2,790,250 is the largest amount registered; Toronto's expenditure of \$2,354,400 shows the next heaviest investment, and Calgary comes third with an amount of \$1,826,250. Calgary's advance, in view of the high state of activity experienced in the month of May, reflects a most remarkable expansion; her increase of 186 per cent. being proportionately greater than that noted in the case of Winnipeg or Toronto, where the gains registered were 15 per cent. and 3 per cent. in order named. The West in fact moved along with its characteristic stride; the only two places to suffer a loss being Brandon and Vancouver, their respective decreases being 65 and 22 per cent. Vancouver's set-back can be attributed to a great extent to labor troubles affecting several branches of the building trades. So far Vancouver has a two and a quarter million dollars increase over the same period of last year; and according to its report from Building Inspector Jarrett, his department feel confident of an increase correspondingly as great for the next six months.

Saskatchewan witnessed heavy operations throughout, the investment amounting to \$103,000 to \$73,725 in the four principal cities. Saskatoon noted an increase of 301 per cent.; Regina an advance of 180 per cent.; and Prince Albert and Moose Jaw respective gains of 283 and 600 per cent. In Alberta a like degree of prosperity was found in evidence, for aside from Calgary's gain, other increases noted are: Edmonton, 53; Medicine Hat, 353, and Lethbridge, 5 per cent.

In British Columbia, Victoria is ahead by 10 per cent. At North Vancouver the value of permits amounted

to \$55,415, and at New Westminster new work was started amounting to an expenditure of \$68,000. Neither of the two latter places submit corresponding figures, but it seems safe to assume, considering their respective populations, that both are substantially ahead.

The bulk of the decreases were centered in Ontario, five of the seven losses occurring in this province, viz.: Fort William, 13; Berlin, 17; Brantford, 9; Stratford, 62; St. Thomas, 24 per cent. In several instances, however, the declines are of no serious consequence. On the other hand, Hamilton has a total of \$618,675, netting a gain of 104 per cent., and Ottawa issued permits valued at \$404,375, which is 33 per cent. better than her corresponding figures.

Windsor advanced 306 per cent.; Guelph 274; Kingston 104, and London and Port Arthur noted increase of 15 and 180 per cent. in order named.

Montreal has the fourth largest amount noted, the aggregate value of new work amounting to \$1,780,860, which is 12 per cent. better than the same month last year. In the Maritime district the situation also showed improvement. Halifax annexed a gain of 140 per cent.; Sydney one of 40 per cent., and St. John advanced 35 per cent.

Reports to hand give every indication of a large volume of work ahead, and it is quite evident that the present wholesome condition will see no change for at least some little time to come.

The value of permits issued in June, 1911, and June, 1910, follow:

June, 1911.		June, 1910.		P. C. P. C.

TO DEAL WITH LABOR DISPUTES

Will Crooks Will Introduce Bill Based on the Canadian Act

London, Aug. 10.—Will Crooks, the Labor leader, on behalf of the laboring interests, will, next Tuesday, submit a bill to the House of Commons for the purpose of establishing industrial arbitration courts along the lines of the present Canadian courts of this character.

To the Canadian Associated Press Mr. Crooks stated that the bill follows the Canadian legislation very closely. While visiting Canada he was very much impressed with the fairness of the Canadian Act, which left workers the right to strike for their rights. The Canadian system every party concerned must show his hand.

SHIPPING EYES ALL TURN HERE

(Continued from page 1)

... will find its way to these ports and cities through boats coming by the canal. Especially will this be the case in the winter, when the six months closing of navigation on the St. Lawrence river, which puts the port of Montreal out of business until the ice goes, and the eastern climatic conditions, will all go in favor of an open route all the year round to all the year round open ports.

For all this increased trade Mr. Lewis, who represents both the port of Bristol and the traders of the city—naturally here, to promote facilities for securing a large share of it for Bristol. Claiming that Bristol is one of the finest ports of the world Mr. Lewis mentioned that \$15,000,000 was spent there in 1908 on the construction of the Royal Edward dock, where any vessel can enter at any time of the year, and that \$20,000,000 had also been expended in preparing the docks and river for the trade the city considered itself entitled to. Three lines of steamers, the C. P. R., the C. N. R., and the White Star-Dominion, were already there, carrying the close one half a million boxes of Canadian cheese, the sixty per cent. of the whole export butter trade of Canada, and the various other Canadian products. Mr. Lewis says Bristol wants more of the butter, the lumber, the grain, and all these products, and there exists not the slightest doubt but that they will have a line of local steamers from Bristol to the ports on the west Pacific by the opening of the canal.

In addition to developing the trade from the west to England, Bristol will in this way, send its own manufacturers and the manufacturers of the district it serves into Bristol Columbia. That these alone will be considerable will be seen when it is remembered that, included in that district is Birmingham, and included in Bristol's manufactures are the chocolates of Fry's, the tobacco of the Imperial Tobacco Company, the tin plate, galvanized iron, ores for making paint (which are the largest in the United Kingdom), boots and shoes, corsets and ready-made clothing. It is itself a very large distributing centre.

As to the way the province is viewed in Great Britain, Mr. Lewis stated that British Columbia was booming very largely in the public eye, and that it was to-day looked upon as the Mecca for British emigration and Victoria as the ideal place to live in. Mr. Lewis, who saw the board of trade this morning in Great Britain, in a few days, and thence via Calgary, Regina, Winnipeg, and Toronto to Montreal.

ANOTHER POLICE BLANK.

Another blank had to be recorded on the calendar at the Victoria police court this morning, and if the traditions of the English court extend as far west as this fair city Magistrate Jay, who again presided, should be laying in a nice stock of white gloves, the judicial emblem of criminal immunity. There was only one case to try, that of a man who had been arrested on a charge

WILL HONOR ADMIRAL TOGO.

Two Cruisers Will Accompany Steamer to Cross When Japan's Naval Base Sails for Home.

Seattle, Wash., Aug. 10.—When the Japanese steamer Tamba Maru, carrying Admiral Count Togo, sails from Seattle for Yokohama on the morning of August 25, she will be conveyed to the ocean by the crack cruisers West Virginia and Colorado. There will be the proper salutes and ceremonies when the great sea-fighter leaves Seattle, and when his escort takes leave of him off Cape Flattery.

The navy department, at the office of the chamber of commerce, has detailed the ships and made other arrangements for paying honor to the admiral, and it is expected that nearly all the Japanese inhabitants of Puget Sound will be at the wharf and on steamers in the harbor to say farewell to the national hero.

The state department's entertainment of Admiral Togo will end when he crosses to Canada at Niaga Falls to take a Canadian Pacific train for Vancouver and Seattle.

FROST IN ALBERTA.

St. Paul, Minn., Aug. 10.—Reports received by the local weather bureau say Edmonton and Calgary, Canada, experienced breaths of frost this morning. The temperature dropped to 36 degrees.

It was cool throughout all the Northwest.

"Ain't you working to-day, Bill?" a loafer inquired curiously of an acquaintance. "No, I've a day all to myself." "Que's that?" asked the curious one. "Well, you see, it's this way. I work in a domino factory, a-putting on the spots, and to-day they're making all double blanks, so I ave a day off."

THE EDITOR'S TRIALS OUT IN INDIANA

THE Rev. F. Wilson Kaler, Preacher, Apiarist and Publisher of the Unique Four County Herald, the Only Newspaper Published on a Rural Route

Copyright, 1911, by the New York Herald Co. All rights reserved.

66 **O**WING to the fact that ye editor is conducting a religious revival at Bulltown at this writing and meeting with a large measure of success, having got two converts right off, there will not be any issues of the FOUR COUNTY HERALD for a spell, and we graciously ask the indulgence of our readers.

used as a playhouse. The tombstone was the foundation of his business, and with the foundation of "Herald Square," in Andersonville, Indiana. The stone was then mounted on a crudely built platform about two feet in height, which served as the bed for a printing press. Next a small tree was sawed down and from the trunk the ingenious young man cut a log four feet long, which he padded and covered

Rev. F. Wilson Kaler, the "Editor-Preacher"

Mr. Kaler and Family

Most of them are good anyway. But everybody, nearly, reads the newspapers, and by these mediums you can reach folks that need the most help and the very ones you can't reach any other way.

The editor-preacher makes a practice of visiting a majority of his subscribers in their homes and stores. It is in this manner that he gathers his news. If a horse or cow dies in the community the Rev. Mr. Kaler hurries to the scene and gathers "mental data" for a minute and graphic account to be published in the Herald. In cases of loss by death or fire he invariably suggests a plan for assisting an unfortunate neighbor. In short, the Herald has brought the people

fellows buy you Sunday evenings after church. We helped kill the bear, we did. Ha! ha!"

For the most part the columns of the Herald are filled with small news items of local interest. News of the outside world is considered of such little significance that it is absolutely ignored. But if an Andersonville resident visits a next door neighbor it is liable to find its way into print. If a man goes hunting, paints his buggy or discharges a farmhand it is all duly chronicled in the Herald. The Rev. Mr. Kaler places a value of his own upon news matter. "When I go out to gather matter for the Herald," he says, "I don't look for news, I look for excuses,

"Herald Square" in Andersonville, Indiana.

Somebody started the report around here that we had suspended publication for all time—but we believe the wish that we had was rather to the thought—and we can assure our subscribers, one and all, that such is not the case, by any means. We believe our present occupation is a worthy one and that the better class of citizens are with us. We will put a stop to all uneasiness in a few weeks, when the revival is over, and will burn the midnight oil but what we get out a better paper than ever before. At the expiration of subscriptions, as many issues as we miss, will be added on free of charge, so you see nobody is really out anything on the deal."

This announcement recently appeared on the editorial pages of the Four County Herald, a unique Indiana weekly newspaper, which boasts among other distinctions, of being the only newspaper in the United States published on a rural route. The Rev. Mr. F. Wilson Kaler is responsible for the publication. Besides gathering all the news which appears in the four page weekly, the Rev. Mr. Kaler sets up the type and prints the paper on a crude printing press he contrived himself, part of which consists of an old fashioned tombstone that saw service for many years on the sloping hill of a country graveyard. Filling the pulpit and filling the columns of the newspaper are only a few things which the editor-preacher does. For a livelihood he raises honey. That is, he is a highly successful apiarist and tends a large colony of bees during his spare hours, if any part of his life can so be designated.

with canvas to be used as a roller for the press. At the local blacksmith shop he directed the making of a crude iron chase, a square frame, the size of a newspaper sheet, used in printing establishments to place the type after it is set up and arranged in the form of a page.

His First Publication.

With these essentials at hand the young editor set about to get out his first publication. The iron chase was laid on the tombstone, and when the centre was filled with type it was held secure with small blocks of wood. From a discarded piece of printing press roller, made of rubber composition, young Kaler fashioned a small roller, which he used in inking the type on the form. Then he laid a blank piece of paper on the type and rolled the padded log over the top. The result was a somewhat blurred but still readable page of printed matter. In this manner the first issue of the Four County Herald "saw the light of day" and brought a thrill of delight to the proud sponsor.

The Rev. Mr. Kaler still uses that old printing press, but he has added many improvements during the many years of its service. His office equipment, too, in the way of more type for advertisements and news matter, has been increased from time to time. But most of the "sweepings" he collected when he began publication are still scattered through the type cases and occasionally appear along with the "bought" type. It is not an uncommon thing to be treated to a display of five or six varieties of type (including German "caps" and Roman Italics) in the one line of news matter in the Herald. As the editor-preacher never installed a proofpress, it is superfluous to add that innumerable and highly indelible mistakes, such as an entire row of type upside down, words misspelled and errors of omission, creep into the otherwise dignified columns.

Circulation and advertising—the two mainstays of every successful newspaper—were the two last things considered by the Rev. Mr. Kaler when he began publication. With him the first and evidently the only thing in mind was the anticipated joy of seeing a real-for-sure newspaper born of his labors; possibly the same brand of thrill experienced by the bride wife on making her first loaf of bread.

The Herald started with just twenty bona fide "paid-up" subscribers on the office list. The young editor lost money on every issue, besides much time. But persistency marked his efforts, and, fortunately, time meant but little to him, for it was the one thing above all others that he could afford to sacrifice. He was intent on becoming a power and wielding a big influence throughout the little community by the medium of his newspaper. He was willing to walk in bare feet over the thorny path of endeavor as long as there was a hope of reaching the velvety, easygoing incline—the primrose path.

His neighbors began to take him seriously—and incidentally take his paper; he was the happiest of men. He could descend upon the country store forum at any hour and hear the "boys" discussing and "cussing" the brain-children that sprang into the columns of the Herald from his pen. Not from his pen, however, if one desires to state the truth accurately, for rarely did he write an article. Fact is, he would go among his neighbors with a sort of dignified, clerical air, which plainly said:—

"Peace be with you—what do you know to-day?"

"Then, on learning of something he considered of news value, he would stroll back to his little office, mount a high stool at his case and soon reduce his thoughts into cold type. He never made notes of projected stories.

When there was an editorial of great import to be given to his readers he would set aside part of a certain night to do that work, alone in his workshop-editorial sanctum, free from the interruptions of the "town loafers." Many times he labored far into the night on editorials of vast moment, such as, "Why Don't Our Road Supervisor Put Gravel on the Pinhook Turnpike Same as He Has Done on the Lower Grave-

yard-Road? Taxpayers, There is a Nigger in the Woodpile Somewhere."

Fearlessly ye editor would then proceed to point out that said supervisor lived "beyond" the Pinhook turnpike, and also that he had a married son and a brother-in-law living down that way.

In setting up the type for editorials and news matter, if the editor-preacher ever desired to make a change once he had the matter in type he could not "cross it out" after the fashion of the eager copy reader of the metropolitan daily with his big blue pencil, but he was obliged to throw all the type back in the case and "begin all over." And this meant a lot of time and previous labor lost and more kerosene for the big hanging lamp in his office. So, often after realizing that he had made a blunder or that he desired to change the tone of a news article or editorial, rather than lose time he would let the type stand and print it in the Herald against his better judgment. Such circumstances often resulted in bringing trouble down upon him and forced the publication of many retractions in subsequent issues.

Needless to say, the Rev. Mr. Kaler soon became the most talked of man for miles around. His friends were proud of him and declared he was doing a great work; his enemies—the kind that springs up in the wake of every aggressive man—said he should "stick to the preacher business and stop meddling in other people's affairs," while his wife implored him to give more attention to the now neglected stands of bees which were bringing them in their only source of revenue.

The circulation of the Herald grew by leaps and bounds, that is considering the sparsely settled and inhabited hilly country where it was received. There are more than seven hundred subscribers now on the "readed" subscription list, and advertisements crowd from ten to twenty columns in every issue. The Rev. Mr. Kaler has made a success of his undertaking and has made "Herald Square" in Andersonville the most prominent point in the four counties that join each other in that locality.

Making His Influence Felt.

The editor-preacher has made his influence felt time and again. Was he not responsible for the installation of the horse watering trough at the cross-roads, to say nothing of the fifteen street lights that blaze nightly in Andersonville? And the farmers have repeatedly risen up and called him blessed because he insisted on the County Commissioners putting in new iron chains in the hitch rack back of Morgan's general store.

It can be said in truth that the Rev. Mr. Kaler is at once a wag, poet, essayist, humorist and moralist, and his readers reap the benefit of his wide versatility. When a prominent citizen succumbs, for instance, every subscriber knows that in the next issue of the Herald, in addition to the usual obituary, will appear six or eight original verses with a tear in every line. Then, again, following a joyous occasion, such as a watermelon frolic or strawberry festival in the front yard of the Hardsell Baptist Church, verses of a highly humorous nature are sure to appear. Inspiration also comes to the editor-preacher at such times as the birth of twins in the community, the wedding of an elderly couple, defeat of the local horseshoe pitching squad, the chasing of a stray pig through the village streets and like occasions.

What he has repeatedly described as his "favorite poem" is one he wrote several years ago. It is entitled "The Local Stop" and has to do with the troubles of a countryman riding through an unknown part of Indiana on an interurban car. He has reprinted the verses on request several times, each succeeding time putting them in larger type and in a more prominent position in the Herald.

The Rev. Mr. Kaler has often declared through his paper and from the pulpit and he believed the power of the press was a greater influence than that wielded from the pulpit. The argument in his own words was:—

"There is just a certain element that go to church.

In the Composing Room.

around Andersonville close together and made of them one great family. The weekly perusal of the Herald amounts to the same thing as the general discussion, in confidence, which the average family indulges in at the evening meal. Faults are pointed out to some and praise given to those deemed worthy, but the whole is always tempered with a general tone of charity.

For several years now the Rev. Mr. Kaler has been assisted occasionally by his wife and daughter. His wife can set type faster—and a deal more accurately—than the editor himself. His daughter Nora, who is thirteen years old, often assists him in printing the papers.

But he does not call upon them unless he is pressed for time in his ministerial capacity. Since they live in a little cottage hard by the Herald office they often prove a most desirable convenience. It is not uncommon for the neighbors to see the soiled aproned Rev. Mr. Kaler appear at the door of his office and hear him call out to his wife:—

"Sarah, oh, Sarah!"

"Yes," comes the reply, as a window goes up in the house.

"Can you come over a little while and set up five or six small items for the fourth page? I should like to go to press this morning."

"What are they about, Parson?" asks the wife as she hurries to his side.

"Oh, I don't know exactly. Can't you think of something to fill out? Let's see. I'll tell you. Might make two or three lines about Aunt Mirandy Smiley still being on the sick list, with no change in her condition. Oh yes, I knew there was something I was forgetting. There's Orange Felt's new barn. I almost clean forgot about that. That would never do, for Orange would be mad as a wet hen and like as not cancel his subscription."

Thus it often occurs that many people owe their newspaper prominence in that locality to the "extra lines" contributed by the faithful wife, who deserts her household duties that the Herald may get to press on time.

But it does not always get out on time. On such occasions as the County Fair, Fourth of July celebrations, State ministerial conventions at Indianapolis or a revival the editor-preacher merely suspends publication and explains the next time he issues a paper. While it is always a disappointment to his readers to miss a single issue, they seldom complain. They feel that they are equally blessed in having in such a small community any kind of newspaper, regardless of its shortcomings and irregularity. Hence they are ever ready to grant the Rev. Mr. Kaler the sacred privilege of omitting a number or two occasionally, if he so desires, without subjecting him to unfavorable criticism.

An Editorial Apology.

For instance, last winter he failed to publish the Herald one week, as he devoted five days to assisting the local druggist to cut ice from the creek and help store it away in sawdust for summer consumption. His apology, which appeared the following week, read:—

"Last week we helped Rayme Hargrove put up ice. Nobody can kick on that, even if we didn't get out a paper. Because next summer it will be fine to drop in on Rayme some fine hot day and have a dish of his cooling, inimitable ice cream. You can thank us, girls, next summer for part of that ice cream your

Just any old excuse for putting a person's name in the paper. They all like to see it, and to this I attribute my success."

Whenever the only physician in Andersonville reports a birth or the illness of one of his patients his name always appears with the news item. Some of the characteristic items which have appeared in the Herald recently follow:—

"Pl King was sick on the east side last week."

"Born to Dutch Ensweller and wife this week, a ten pound boy—a little republican. Reported by Dr. Metcalf. It pays to be an officer, don't it, Dutch and Fatty?"

"Harry Miller and his best girl were at Pinhook attending church last Sunday night. He drove her home."

"Fred and Ray Cooner were in town one day this week having some blacksmithing done."

"Joe Pike passed through Wed. en route to Glenwood to have a horse shod."

"Sallie Lewis and Irene Stevens kept house for Dr. Metcalf while his frau was visiting in the city. Doc likes good cooking, eh, doc?"

"Ye editor will preach at Bulltown next Lordsday, morn and eve. All are welcome. Come."

For of such is the little kingdom ruled by the editor-preacher. His is the typical country newspaper, an institution which is fast passing out with the introduction of modern machinery at a small cost. Out of his almost inadequate and crudely arranged printing establishment he has preached the gospel of righteousness for many years now, moulding the sentiment of the community and directing every progressive move they have made since he entered the arena battling for public benefactions.

The Rev. Mr. Kaler is not content with being the busiest man in that "neck of the woods," for hardly a month passes that he does not seek additional labor in other avenues than the ones that now engage him during his waking hours. He is forever taking up the agency of some newly patented articles, besides, he carries a full line of both fire and life insurance. Not long ago he took a dip in politics and was nominated for State Assemblyman. The campaign cost him quite a sum of money, not to speak of the dozen or more issues of the Herald he missed publishing. And in the end he was defeated. He has quit the political game forever, he says, but philosophically adds that it was a valued experience. Another thing that consumes a great deal of his time is his religious attendance at lodge meetings. He is what the countrymen call a "joiner," for he belongs to six lodges. In most of these organizations he fills an office, which requires his presence at a dozen or more meetings every month. But the Rev. Mr. Kaler says belonging to lodges is part of an editor's life, for it is at these gatherings that he often gets some of his best news.

Despite any shortcomings of the quaint editor-preacher, or his publication, the folk around Andersonville are always ready to swear by him. They admire him, they respect him, they fear him and they love him. Of one thing they are sure, no minister motive ever prompts him to take a position contrary to honest judgment. The sincerity of his stand on any question is never doubted, for during all the years he has conducted the Herald he has faithfully lived up to his motto:—

"Hew to the line and let the chips fall where they've a mind to."

SOCIAL AND PERSONAL

Mrs. Harry Briggs is on a visit to Vancouver. Mrs. Marie Camassa is the guest of Mrs. Ryder, Alberni. Mrs. F. B. Pemberton and son arrived from the Mainland yesterday. Mrs. William Drew is spending a few days with relatives in this city. Mrs. John Elford and Miss Lillian Elford are visiting friends in the Sound cities. Mrs. H. J. O'Leary and son returned yesterday from a short visit to Vancouver. Miss Mabel MacDonald, Vancouver, is the guest of Mr. and Mrs. J. D. MacDonald. Miss L. M. Bowron, of the premier's office, is seriously ill at St. Joseph's hospital. Miss M. M. Daton, Vancouver, is spending a few days with friends in this city. Thomas Hooper has returned home after a business visit to the lower mainland. D. H. Smith, collector of customs, Nanaimo, is spending a few days here on business. Elmore Casey has been appointed a junior clerk in the provincial bureau of information here. Colin McKenzie, Strathyre Ranch, near Kamloops, is on a visit to his aunt, Miss Hutchinson. Miss Helen Thompson has returned from Alberni, where she has been the guest of Mrs. C. M. Pines. J. C. Bethune, Ottawa, who was for many years a resident of this city, is revisiting his former home. Miss Mary Stewart, who has been spending a few days in the Terminal city, returned home yesterday. Hon. Price Edilson, provincial minister of finance and agriculture, left for the mainland yesterday afternoon. Mrs. J. A. Anderson and Miss Gladys Anderson are spending a few days with Mrs. E. Blythe, Florence Court, Vancouver. Mrs. Thomas Fox and family were among the passengers on the Princess Victoria from Vancouver yesterday afternoon. President Schurman, of Cornell University, is a visitor in Vancouver, and is expected to come over here for the week-end. Mr. Robert Hay, Vancouver, and Mrs. Hay (who was Miss Margaret Ellen Ross) are spending their honeymoon here. Miss Stevens, of the Alberni Industrial School for Indians, who has been spending her vacation in this city, has returned home. Miss Lillie Baron, Duncan, who has been on a visit to Miss Polly Shore for some days, is now the guest of Mrs. W. H. Porter, Pendergast street. Hon. C. C. Kearley, son of Lord Devonport, chairman of the rehabilitation scheme for the London waterfront, and Dr. Steele, are making a short visit to this city. On Saturday the wedding of F. T. Raylins, headquarters fire station, and Miss Lottie Gunter, Oak Bay, was solemnized at First Presbyterian manse by Rev. Dr. Campbell. Mr. and Mrs. James Phair have left on a trip to the old country, by way of the Orient. They expect to return in six months' time by the Atlantic route. The Misses Phair, who are at present visiting friends in Vancouver, will later proceed to Europe to meet their parents. A pretty wedding took place yesterday afternoon at the residence of Mrs. A. R. McDonald, 1503 Chambers street. Miss Marjorie Hurst, eldest daughter of Mr. and Mrs. H. Hurst, was married to Mr. R. L. M. Rideout, formerly a member of the firm of Plummer & Rideout, real estate and customs broker.

The Evening Chit-Chat By Ruth Cameron

"Socrates thought that if all our misfortunes were laid in one common heap whence everyone must take an equal portion, most persons would be content to take their own and depart." — Plutarch. "It's a beautiful day for driving," I commented to the stable man the other morning. He looked up from the traces he was fastening and out of the dinky stable into the world of sunshine and almost blinked. "It is that, ma'am," he said wistfully, "and we've had a lot of them lately."

"Do you go out much?" I asked. The wistfulness suddenly changed into bitterness as he answered, "Do I go out much? No, not at all, from half past five in the morning when I have to get here to feed the horses until seven at night when I take the car home. All I see of the beautiful day is the dawn. The most of the time I'm down there—pointing with his thumb to the basement of the stable,—cleaning and feeding the horses, and then, maybe, up here for a few minutes to harness or to eat my lunch. Beautiful days and bad ones, they're all the same to me."

Why ma'am I've five children and the two youngest I've scarcely ever seen. Of course, they aren't up before I go and before I get home they're asleep. Holidays? I don't have any. Horses have to eat and be cleaned Sundays and holidays just the same as any other time. No, ma'am, it's three hundred and sixty-five days in the year for me. The bitterness died out of his tone as suddenly as it came. A sense of the futility of revolt seemed to have taken its place. "Yes ma'am," he said, as he handed me the reins, "it is a wonderfully fine day for driving." The stable man was very pale with the pallor of those who do not have enough sunlight—a palor that suggested the sickness of cellar-raised plants. His shoulders stooped. A heavy stubble of neglected beard covered his face. His eyes were sunken. He sent me out into the beautiful day with a shadow on my heart that the sunshine could not chase away. For the times when you are blue— For the times when you are inclined to be discontented with your share of the world's happiness— For the days when you think that if you tried the experiment Socrates suggests you would prefer an equal portion of the whole to your own misfortune—I have told you this dismal little story. When these days come, please think of this man and be ashamed of your discontent. Just think what his life is—or rather, his existence—I can't see that he has any life. No Sundays to live through the week for, no holidays to look forward to—nothing. Why does he endure such a condition, you wonder, perhaps. Well, I suppose for five good reasons, five hungry little reasons that have to be clothed and fed and sent to school. And if he complains too much, doubtless there would be another man eager for the position. Of course, the thought of him can't cast such a dismal shadow over your heart as it did over mine, because you didn't see him. I don't think I'd tell you if it could. I only want to cast enough shadow to make you realize, by contrast, how bright your own life is. Have I done that? Ruth Cameron

CHERRY SEEDING DEVICE. Plunger Pushes Pits Out and Drops Into Bowl. Cherry pie is a toothsome bit, but when the teeth bites on a stone much of the enjoyment is lost. Most careful cooks stone the cherries before they bake the pie, but that is a long and tedious operation unless performed with the assistance of the seeding machine invented by a Pennsylvania man and shown in the illustration. The machine clamps to the edge of the kitchen-table and has attached to it a plate to hold the cherries before the stones are removed. A plunger operates through a ring that holds the fruit. The cherry is laid over this ring and the plunger pressed down, returning by the action of a spring. The downward pressure

ers. Rev. William Stevenson officiated. Following the ceremony, the guests sat down to a dainty supper. The drawing room was beautifully decorated with pink and white roses and red and white carnations, intermingled with smilax, executed by the deft fingers of Mrs. G. Oliver and Miss Jean McDonald. Misses F. McDonald, P. Johnson, P. Gowen and Mrs. Renfrew attended the guests at tea. The bride was given away by her father, Mr. H. Hurst, and was attended by Miss Edna Hurst and Miss Nina Rideout, sister of the groom, as bridesmaids. The bride's dress was a Copenhagen blue—tinted—satin. Her trousseau was supported by Messrs. P. W. Ross and D. W. Spence. His gift to the bride was a ring set with diamonds and emeralds, to the bridesmaids gold band bracelets, and to the groomsmen pearl stickpins. Many beautiful and valuable presents were received by the young couple. They left by the afternoon train for Vancouver, and on their return will reside in Biggar, Sask. The many friends of S. Tingley, Ashcroft, who has been in the Royal Jubilee hospital since the beginning of July, will be pleased to learn that he is now approaching convalescence and is expected to return to his home in a few days. He had been suffering from quite a long while. Six or seven weeks ago he returned to Ashcroft from a trip to California, but his condition was such that he at once left there for Vancouver and on July 4 was operated on by Dr. Jones. About a fortnight later he was able to dress and sit up a few hours each day, but complications set in which threw him back. Now, however, he is sufficiently on the way towards recovery to allow of his leaving his bed during the daytime and seeing his family callers. He hopes to leave the hospital for the hotel a week or two hence, and thereafter to regain his accustomed health. There are few men living who have been so long and actively associated with the development of the interior of the province, from Ashcroft north to Fort George and south to the international boundary line. He has been longest and most intimately known in connection with the establishment and operation of the mail and express stage line to Cariboo which, in conjunction with F. S. Barnard, he started in 1864, and of which he was afterwards sole proprietor. Thousands of travellers to and from Cariboo and way-points have known Steve Tingley, as he is familiarly called, and notwithstanding that there have been great changes in men and things there are still in the province many of them to whom it is a real pleasure to meet him and again meet the sturdy old pioneer and exchange friendly greetings with him. That he may speedily be restored to good health and be able to move around in his accustomed manner will be the hearty good wish of large numbers who read the news concerning their old friend and fellow-traveller.

CANADA MONTHLY. The Money-Mad Farming campaign continues in the August number of Canada Monthly (formerly Canada West), the leading article by Rex Crosswell dealing with this theme, and advocating the adoption of mixed farming instead of continual wheat croppings, which the author says depletes the soil and reduces its fertility. The magazine has for some time carried on a campaign along this line and announces editorially that it will continue to do so for an indefinite time. "The Half-Caste" is the tale of Japanese life, by Hilda Virginia Jones, and deals with the race problem in Japan; William Dunseth Eaton, in "The White Crow," claims to prove that there are genuine cases of prophesy fulfilled. Ellis Parker Butler tells about "Putting One Over on Abram" in his usual non-sensical style, with illustrations by Peter Newell. Mrs. Schaeffer, the famous woman explorer of the Canadian Rockies, narrates some of her experiences in mountain-skiing and exploring. Mary Wheelerlight explains how a red-headed girl proved she was not afraid of cows; and in "Salt" Narelise de Polen tells a tale of the Red Sea and an optum-eater. "The Scarlet Strand" is continued, and there is other fiction, verse and articles. The illustrations are by Frederick M. Grant, Percy E. Anderson, M. H. Alesbire and others, the cover a photograph of a bucking horse just getting ready to pitch.

Direct Importers of High Grade American Footwear WALKING SHOES

For the Lady, Gentleman or Child Those desiring a conservative Walking Shoe, of superior material, finish and comfort, will find great flexibility in many of our specially imported models. For travelling and the fatigue incidental thereto our Fall showing is particularly commendable. Our experience in HIGH CLASS Footwear is our best guarantee of your complete satisfaction.

SUCCESSFUL SEASON AT FISH HATCHERY

Inspector Taylor Visits West Coast—Inspection of Gold Properties

(Special Correspondence.)
Tofino, Aug. 1.—An enjoyable social ball was held here in the town hall when the residents of this hospitable burg entertained a number of visitors, who were awaiting the arrival of the steamship Toes.
Messrs. Bowles and Hanbury, of Victoria, have been visiting their gold mining properties on the Elk river, at the head of Kennedy lake. There are strong evidences of gold formations everywhere on the peninsula, between Elk river and Clayquot arm, but no far it has only been prospected in a haphazard way, prospecting having hitherto been confined to one-day trips from the lake, which, owing to the inaccessibility of the country, takes in but a very limited territory. Although there are some very promising deposits along the water front, it is confidently believed that they will be far eclipsed in value by later discoveries in the interior.
Mrs. (Capt.) Townsend and her daughter Orma, of Victoria, are spending the summer as the guests of H. C. Brewster at Wildwood-by-the-Sea.
Mr. Taylor, fish hatchery inspector, who was here recently, found the salmon hatchery, which is under the supervision of John Martin, in excellent working condition. Mr. Martin turned out seven million of young salmon last season, and if only one fourth of these arrive at maturity it will materially augment the salmon fishing industry at this place.

SELL-INTEREST IN MINE

Nelson, Aug. 9.—Messrs. A. W. Constans, W. Shackleton and George Maurer have sold their interests in the Athabasca mine to A. E. Rand of New Westminster. C. W. Riley of the Dundee mine at Ymir has been appointed manager of the three big properties in which Mr. Rand is interested, the Toad Mountain Consolidated, the Dundee and the Athabasca. Several gold bricks have been produced by the Athabasca mine, which is equipped with air drills operated by water power.
Sixteen feet of ore, of which seven feet have been sampled, and have assayed nearly \$140 per ton have been struck in the shaft, which is being sunk on the lowest level of Queen mine at Sheep Creek, according to W. B. Poole, who reached the city from the gold camp. This shaft is now down 1200 feet.
The Slocan-Kootenay mines were added to the shipping list for the present year last week, when the Arlington near Slocan, City and the Lightning Peak, back of Edgewood, sold consignments to the Trail smelter.

Returns from other mines in the Rossland, Boundary and Slocan-Kootenay districts were well up to the average, the total for the week being 32,030 tons. For the year to date the aggregate is 1,174,905 tons. The smelter receipts for the week and year respectively are 29,925 tons and 1,120,731 tons.

SUICIDE AT VANCOUVER

Vancouver, Aug. 10.—Edward Owen Murphy, a shipbuilder who came to Vancouver last December, shot himself last evening shortly before 10 o'clock in a broker's office on Granville street.
The deceased, who was 45 years of age, was a native of Liverpool, Eng., and committed the act while depressed and worried with business affairs. His physician had strongly advised a sea voyage, and he was ready to go, but at the last moment decided to remain in Vancouver.
He was married, and Mrs. Murphy is at present in the city.

R. H. DUKE DEAD

Vancouver, Aug. 10.—R. H. Duke, general manager of the B. C. Permanent Loan Company, died here yesterday suddenly, following an operation for appendicitis. Mr. Duke was well known in financial circles.

One of the customs of the opera season at Covent Garden, London, is that the men members of the chorus must be clean-shaven, and their contract includes an allowance of 1s. 6d. per week for barber's expenses.

IMPROVEMENT OF COLUMBIA

Rossland, Aug. 9.—A. B. MacKenzie, Secretary of the Associated Boards of Eastern British Columbia which body is keenly interested in the project of navigation of the Columbia river is in receipt of two important communications bearing on the subject.

One of these is from R. J. Maclean, secretary of the Spokane chamber of commerce, who writes that the members have received information that the board of engineers at Washington have received an unfavorable report regarding the improvement of the Columbia river from Snake river to Wenatchee and that August 15 had been set as the date for hearing an appeal and for filing statistics and papers regarding this matter.

His board had telegraphed the board of engineers asking for a reconsideration. They were informed that the project was disapproved upon the ground that the cost of the improvements would not be justified on account of the limited commerce to be benefited. Of course the amount of commerce depended upon the facilities offered. If the river was unfit for navigation there would be little or no commerce offered, but if on the other hand the river was made navigable commerce would be created. The amount of commerce depended upon the amount of facilities offered. If Mr. MacKenzie had any information at hand that would aid in filing a strong protest with the board of engineers the chamber of commerce would be very much obliged for it.

The second letter was from Elias J. Pava of Olympia, Wash., who wrote that as long ago as Sept. 22, 1898 the Republican party adopted the following resolution: "We favor the construction of the Puget Sound and Gray's Harbor and Columbia rivers and the improvement of the Columbia and Snake rivers thus uniting all navigable and inland seas and rivers of the state with the Pacific ocean."

Mr. MacKenzie is preparing the replies asked for and a strong case will be able to be presented to the board of engineers.

—Wm. Stewart, men's and ladies' tailor, over Terry's Drug Store, Douglas Street.

Imperfect Kidney Action Causes Rheumatism

Rheumatism with its kindred ailments—Lumbago, Wry Neck, Neuralgia, etc., usually results from lodgments of uric acid in the joints and muscles.
Now the chief function of the kidneys is to properly filter this poison from the blood.
Only when they fail to do this is Rheumatism probable.
Kidney weakness starts in various ways. A sudden chill, after perspiring freely, sometimes settles in the kidneys—or an unusual strain may cause it.
Poisons which should be filtered out of the system are pumped back into the blood, causing Uric Acid, the real cause of Rheumatism, Lumbago, Wry Neck, Neuralgia, etc.
In the early stages Nyal's Stone Root Compound will soothe and soothe.
Will start your kidneys working properly so that the Uric Acid is reabsorbed and eliminated.
Away goes your Rheumatism with it. Perhaps these early warning twinges have passed unheeded, and your Rheumatism has become deep seated.
Muscles all snarled up in knots as it were.
Then you'll need Nyal's Rheumatic Cure.
Ask your own druggist about these remedies.
His opinion is worth while.
Sold and guaranteed by D. E. Campbell, John Cochrane, Dean & Hiscocks, F. W. Fawcett, Messrs. Hall & Co., W. Jackson & Co., F. J. Williams, Victoria

CITY OF VICTORIA

A complete list of Local Improvement Works, authorized by By-Law, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall.

Municipal Notice

That the Municipal Council of the Corporation of the City of Victoria, hereby determines that it is desirable to open up a lane through Block 3, bounded by Yates, Johnson, Blanchard and Douglas streets, the said lane to be 14 feet wide, the said lane to be taken from the lots 1 and 2, and 7 feet to be taken from the lots 3 and 4, and 7 feet to be taken from the lots 5 and 6, and 7 feet to be feet to be taken from the lots 819 and 820, and 7 feet to be taken from the lots 821 and 822, and 7 feet to be taken from the lots 823 and 824, and 7 feet to be taken from the lots 825 and 826, and 7 feet to be taken from the lots 827 and 828, and 7 feet to be taken from the lots 829 and 830, and 7 feet to be taken from the lots 831 and 832, and 7 feet to be taken from the lots 833 and 834, and 7 feet to be taken from the lots 835 and 836, and 7 feet to be taken from the lots 837 and 838, and 7 feet to be taken from the lots 839 and 840, and 7 feet to be taken from the lots 841 and 842, and 7 feet to be taken from the lots 843 and 844, and 7 feet to be taken from the lots 845 and 84

ZIONIST MOVEMENT.
 Hundred Delegates Are Taking Part in Annual Congress in Switzerland.
 Switzerland, Aug. 10.—The annual congress of the Zionist movement opened here yesterday with 500 delegates taking part. Dr. Wolfsohn of Cologne, president and chairman of the executive committee, in welcoming the delegates, said the Zionist movement has made the immense progress of the past year, despite the great obstacles. He declared it was the absolute desire of the Zionists to become

a loyal and useful part of the Ottoman Empire which throughout history and at present, he said, had been exceedingly kind to the Jews.
 Max Nordau followed with an address, depicting in the darkest tints the situation of the Jews in Eastern Europe. Nordau was elected president of the congress and the first session ended by the adoption of a resolution to give \$10,000 to the victims of the recent fire at Constantinople, and the approval of a telegram of condolence to the Turkish government.

SEA WALL CONTRACT RATIFIED TO-MORROW

Question of Supervising Engineer Likely to Raise Some Heated Discussion

When the city council meets to-morrow night for the first time this week the contract for the Ross Bay sea wall construction will be ratified and signed, and the question of the engineer will be threshed out to a conclusion, as the work must be proceeded with at once in view of the proximity of the fall and the impossibility of doing more than a certain amount of protection work before the winter seas put a stop to construction till the spring of next year.

While there are not so many candidates for the engineership as there were contractors tendering on the construction work it is likely that the rivalry between them, or rather among their respective fractions in the city council, since they themselves are not likely to participate, will be keen and that the result will not be arrived at without the shedding of some bitter words.

Despite all these matters, however, which it is possible to regard in the light of details, it will readily be conceded that the fact of the work having at last been placed upon such a basis is a point for congratulation. Just whom these congratulations are due to may be a nice point, but no exception will be taken to the courteous and of extending the "glad hand" to Ald. Langley and Peden, who, if they were not responsible for conceiving the work or even for agitating for it particularly, certainly displayed the liveliest interest and enthusiasm in having it advanced once it was placed within their jurisdiction by the council.

No man in the council exercised his voice against the scheme and any criticism that has been offered, and of course there has been no dearth of that, has been directed with a constructive rather than a destructive motive. The scheme was so great and novel as to give everyone a chance to know something about it which apparently no one else had got hold of, and it was the custom of the council members to shoot these little bits of information at the heads of their colleagues, not so much in a critical vein as with the hope of obtaining further information on the point. Since the plans of Cecil B. Case have been before the council the criticisms have taken a definite form, but even at their worst or most vehement period they never gave birth to the suggestion that the scheme should be hung up and now that these plans have been adopted it is probable that the last adopted in this academic sort of bickering.

The question now is to get the construction work so far advanced as to render the cemetery at Ross Bay immune from the devastating and depressing influences of the winter weather before such time as work must be stopped for the season. With this purpose in view the plans have been conceived in two sections and the section covering the frontage of the cemetery will of course be attacked by the contractors first.

Who shall supervise the work is a question that looms large at the present time, and in that connection it may be not altogether uninteresting to review the situation in regard to the chances of Cecil B. Case, the young Englishman who is responsible for the plans upon which the contract has been awarded.

Several of the aldermen allege that Mr. Case's principal opponent in the council is the mayor; that his worship has heard all the magnificent encomiums passed upon the Englishman by his admiring friends of the aldermanic board with feigned coolness. "It is not a question of antipathy toward Mr. Case, they say, but he has read his recommendations and heartily endorses their tone and character. His attitude is based upon the simple fact that he has been kept in a blissful state of ignorance regarding the whole scheme and declines to be saddled with any of the responsibility for it. In that connection it is claimed that the mayor ought to have known as much as anybody else about the negotiations for the wall.

There are others, however, who refer to A. E. Foreman as the suitable engineer for the wall construction, and it is likely that his name will figure prominently in whatever discussion takes place upon the point. That the situation is decidedly interesting and pregnant with still more interesting possibilities is without doubt. Friday night should solve the riddle, or at least unravel it so far as to be able to dissociate the discordant elements in the game. Whichever engineer gets the post it is safe to say that the utmost credit will be done to it.

FATAL FIRE IN LONDON.

American Actor Loses His Life in Blaze in Carlton Hotel.
 London, Aug. 10.—Fire destroyed a portion of the Carlton hotel last night and resulted in the death of one person. After the flames had been quenched, a charred body was found on the top floor. It was identified as that of James Lee Finney, an American actor.

The Carlton is one of London's most fashionable resorts. The fire burned for two and a-half hours but was confined mainly to that end of the hotel adjoining His Majesty's theatre, and the fifth and sixth floors, which were gutted. Part of the roof also was destroyed. The alarm was sounded at 7 o'clock, while most of the guests were dressing for dinner. They poured out into the streets, leaving all their baggage.

Firemen arrived quickly and rescued a number of servants who were shrieking from upper windows. They also carried out two invalid guests. Mr. Finney's body was found in the bathroom adjoining his room on the fifth floor of the annex. The charred features were unrecognizable. Appar-

We Open the Only Semi-Ready Store in Victoria on Saturday

- ¶ The new home of Semi-ready Tailoring in this city has been built, designed and equipped specially for us and with the hope that it will be ever in keeping with the higher ideals which the Semi-ready name stands for.
- ¶ In all our years of clothing and tailoring experience we have found this one line of clothes to give all four essentials of service and satisfaction, and coupled with its quality and worth there is the protection it affords the customer in the absolute one price from Coast to Coast, and the written guarantee of satisfaction given with every garment.
- ¶ The spirit of fairness and faith is evidenced in the business policy back of Semi-ready Tailoring.
- ¶ Alone does "Semi-ready" stand for that one plain marked price in West and East—and in the face of the higher prices ruling in the West this is a policy both courageous and convincing.
- ¶ We want you to see—to come anyway whether you wish to buy or but to look. Your welcome will be as hearty and sincere in any event.
- ¶ Judge us not by our words, but by what you see.

"The Mark that Marks Their High Degree"

Victoria's Semi-Ready Store Corner of View and Douglas

SIXTY ACRES

for Subdivision

There is a steady demand for big lots in the suburbs which will give breathing room to the occupants. The sixty acres we offer to-day, if cut up into acre lots, would attract buyers immediately. The property is on the 2 1/2 mile circle, has good road frontage and will soon have city water and electric light. The terms of sale are very easy.

British Canadian Securities LIMITED
 909 Government Street
 Hugh Kennedy, Manager

INITIAL OFFERING
 Of Shares in the **oronet Coal, Mineral and Oil Lands Co., Limited**

(Non-Personal Liability.)
 The Company has acquired the rights to FIVE COAL AND PETROLEUM AREAS, containing about 3,200 acres of Coal and Oil lands, situated on 718-1N1427, West Coast of Graham Island, which shows excellent indications of large deposits of both Coal and Oil.

Important Features

WATER INLET is a land locked harbor able of affording anchorage to any vessel on the Pacific seaboard.
LEASES front on deep water, offering every advantage to the shipping of wharves, bunkers, etc.
CAPITAL is low, being only \$250,000, 50 shares in the Treasury for development purposes.
PERSONAL LIABILITY. The OIL indications are highly satisfactory and COAL has been found within a mile of the property.
DRILLING is being done on the claims and is expected to be found at any moment.
OPPORTUNITIES of the opportunities of Graham Island, Mr. J. W. Covert, a Civil Engineering of Portland, who in the past two months has been inspecting various properties on the Island. His views very clearly before the public in an article in the Vancouver Free Press under date of July 22nd, in which he says in part:
 "I would like to have stayed a month or two, for taken as a whole, Graham Island is the most wonderful undeveloped territory I have ever seen."

Address all applications and make all cheques payable to the Secretary of the Company, 20 Premis Block, 1006 Government St., or P. O. Box 620, Victoria, B. C.

ently he had gone into the bathroom to bathe before dressing and was asphyxiated.

George Ernest Holmes of Saskatoon, Sask., who was a guest, got out safely and praises the London firemen for the good work they did.

New York, Aug. 10.—James Lee Finney, who lost his life in the London fire, appeared in many of the recent successful plays on the metropolitan stage and in cities throughout the country. He was born 47 years ago in St. Louis and made his first stage appearance in Syracuse, N. Y., in 1861. He appeared for a time in various

parts with the Metropolitan Opera Company. In 1894 he joined the Toronto Stock Company and remained in that capacity until 1901. He was with David L. Edmondson's company, and for the next two years appeared steadily in New York theatres.

The Victoria Sporting Goods Co. are removing to the Pemberton Block, Sept. 1st. Get in on the bargains at the three weeks removal sale now on.

The most expensive cigar in the world belongs to the Pope. It is of solid silver, and cost \$200.

WILL BUILD BIG BAKERY.
 Winnipeg, Aug. 10.—W. J. Boyd, vice-president of the Canada Bread Company, announced yesterday that the merger would commence at once to build a bread plant here at a cost of \$200,000. Until the completion of this factory, Boyd's old plant will be used, afterwards being converted into an exclusive candy factory.

FOUR PERSONS KILLED.
 Sioux City, Ia., Aug. 10.—Four persons were killed and another injured near Galva, Ia., yesterday, when an automobile occupied by A. E. Johnson, a farmer,

living near Akron, Ia., and family, was struck by a Northwestern passenger train travelling 30 miles an hour. The automobile was carried 100 feet on the pilot of the engine before it dropped off.

LAKE HILL PARK
 Has the 2-foot City-Water Main running through it now.

NOTES ON POULTRY RAISING FOR MARKET

NO. XVII.

We have now to consider the proteins and fats in the ration.

We would first, however, remark that apart from their suitability as regards composition, some foodstuffs are more palatable to the fowl than others, and this is an important point which must be taken into account in considering a ration. So again the digestibility of one foodstuff is greater than another, and we must consider this point also. The tables given below are based upon the amounts of each constituent, estimated to be digested out of the whole ration fed.

It is not necessary for the practical poultryman to work out his rations with minute accuracy. The following is merely given to show the reason for and to justify the importance of the balanced ration. A knowledge of what is theoretically correct will prove of great service as a guide to practical feeding, if only that it will prevent us from killing our fowls from indigestion by feeding a result not known. We believe that if it were more generally understood that no one grain contains everything necessary to the maintenance of the fowl, thousands of the latter would not have died in torment, nor poultry have been condemned as unprofitable servants.

The writer is now able to give the composition of the hen's body, which is as follows (Jenter's analysis): Water, 58.8 per cent; protein, 21.6 per cent; fat, 17.0 per cent; ash, 3.8 per cent. The composition of the egg without the shell or water is as follows (Jenter's analysis): Protein, 49.3 per cent; fat, 33.6 per cent; ash, 3.5 per cent. As we have seen, for the practical poultryman all foodstuffs consist of protein, carbohydrates and fats, the ash and water.

We may still further simplify the composition of our foodstuffs by grouping the carbohydrates and fats together. The fats have a feeding value nearly 2 1/2 times greater than the carbohydrates, so that if we multiply the fats by two and a half, we shall be able to add them to the latter, as we shall have brought them to the same denomination—to the same feeding value.

As we have said previously, the practical poultry-keeper need only consider the protein as furnishing the material for the machinery, and the carbohydrates (and fats) as the fuel which drives the machinery and the ash as the oil, without which the machinery of the fowl's body will come to a standstill.

What is the proportion of protein to the carbohydrates (and fats) which we must have in our rations to give the best results for matured hens? The ratio usually given is that of one part of protein to five of fat. The writer's friend, Mr. W. E. Nathrieh, however, prefers a narrower ratio, i.e. about 1 to 3 1/2, and probably this is better, where fowls have free access to a feed hopper, and there is a risk of their getting too fat. The following ration is worked out on the basis of 1 to 5, to serve as an example.

We now want a table showing the composition of the more usual foodstuffs.

Digestible Constituents of Foodstuffs

	Protein.	Carbo- hydrates.	Fat.	Relative Ratio.
Maize	7.9	65.7	4.3	19.8
Wheat	10.2	69.2	1.7	17.5
Wheat bran	12.2	33.2	2.7	13.8
Oats	9.2	47.3	4.2	15.3
Barley	8.7	62.8	1.4	13.8
Kaffir corn	7.8	37.1	2.7	18.2
Millet	8.9	45.9	3.2	14.9
Sunflower seed	12.1	39.9	29.9	17.6
Lucerne green	3.9	12.7	3.9	13.6
*Skim milk	2.1	4.7	3.9	13.6
*Dried blood	4.3	4.7	2.5	13.6
*Meat scraps	5.4	4.3	2.5	13.6
*Buckwheat	11.0	64.5	2.2	13.6
*Potatoes	2.1	15.3	0.1	13.6

The composition of the foodstuffs marked with an asterisk is taken from a paper of Mr. H. E. Moss, a great American duck breeder. For the other figures I am indebted to the late chief of the Chemistry Division Agricultural Dept., Transvaal, to whose kindness I am also indebted for checking the figures given below.

The column headed "Relative Ratio" means the proportion of protein to carbohydrates which, as we have seen, is taken at 1 to 5 for matured fowls. Taking maize, the first on the list, we find that it only contains 1 part of protein to nearly 10 of carbohydrates (and fats) i.e. it is much too rich in fat to be given alone. As an exclusive diet, therefore, the practice of giving maize is to be condemned altogether, and is responsible for poor egg production, excessive fat and liver disease.

We want then, to add to the maize some food which is rich in protein to supply the deficiency of that material in the maize. Let us take bran, the third article in the table. We find this contains 1 part of protein to less than 4 of carbohydrates. What amount of bran should we mix with our maize meal to get a ratio of 1 part of protein to 5 of carbohydrates? Let us try 2 parts of bran to 1 part of maize meal. The simplest way to use the table is to move the decimal two places to the left, which gives us the composition of one pound:

2 lbs. Bran, 1 lb. Maize Meal.

	Digestible Protein.	Digestible Carbohydrates.	Digestible Fats.
1 lb. maize meal contains.	0.079	0.657	0.043
1 lb. bran contains	0.122	0.332	0.027
1 lb. bran contains	0.122	0.332	0.027
	0.223	1.451	0.097

We have seen that the fat must be multiplied by two and a half to make its feeding value equal to that of the carbohydrates; 0.097 multiplied by 2 1/2 equals 0.242. We can then add 0.242 to the carbohydrates 1.451, which gives us 1.593. The protein then is 0.223. We divide the second by the first, we get one part of protein to 5.3 of carbohydrates (and fats). This is near enough for practical purposes to our standard of one to five.

We have now got the bulk of our ra-

At Death's Door From Kidney Disease

SAVED ONLY BY "FRUIT-A-TIVES"

Clanbrassie, Ont. "Two years ago, the doctor made forty-four calls on me, and the said he had done all he could for me. I was suffering with intense Kidney Trouble and Inflammation had set in. Two other doctors were consulted and agreed that nothing could be done to help me.

On the recommendation of a neighbor, I took "Fruit-a-tives" and they cured me. To-day, I take "Fruit-a-tives" for my kidney medicine. I am in excellent health, and "Fruit-a-tives" is the medicine that cured me after I had been at Death's Door for months.

I am glad to be able to give you this testimonial. It may benefit some other woman suffering as I suffered, as I believe that I would not be alive to-day had I not used "Fruit-a-tives."

Mrs. P. E. Webber. "Fruit-a-tives" — by its marvellous action on the kidneys — completely restores these vital organs to their normal strength and vigor — and cures every trace of Kidney Trouble. "Fruit-a-tives" is the only medicine in the world made of fruit.

All that remains to be done is to recognize the fact that the proteins contained in meat, blood, etc. (animal protein), must also be present in our ration. We may therefore add about 3 ounces of lean meat, cut up fine, to every three pounds of our mixture of bran and maize meal. Dried blood may be used, or both meat and milk may be added; a pint of table salt should always be added to this ration, which, if milk is added, should never be soggy.

The great point for the practical poultryman to see to is that the fowls get enough protein in the ration. The much is extravagant, as foods rich in protein are generally expensive, but a better too much than too little, as without a sufficiency the fowl cannot maintain its machinery properly, nor find the material for one-half of the dry matter of an egg. An excess of animal protein tends to force egg production and should be avoided. Experience will show what amount gives the best results in the hatchery, and if the eggs and their number, and if the fowls thrive on a particular ration, it is better to stick to it.

It is probably desirable to use 4 or 5 materials in the mash. The above simple ration is merely given to show how to balance a ration roughly for practical purposes.

To ensure a sufficiency of mineral ash in the mixture, the writer's salts may be given twice a week in the proportion of 1 tablespoonful to 5 lbs. of mash.

A different strain should be fed every day — Oats, wheat, buckwheat, maize, Kaffir corn and barley are usually available, with the fowl, variety is the spice of life, which gives it all its flavor." C. DEVONSHIRE.

REASON IN ANIMALS

French Scientist Declares No Evidence Brutes Possess Power.

A brilliant Frenchman, Dr. Yves Delage, Professor of Zoology in the Sorbonne, head of the Roscoff Maritime Station and Member of the French Academy of Sciences, has lately written a thoughtful article as to whether the brute creation has reasoning processes after the manner of man. He has, after long observation and experiment, come to the conclusion that to say they have is to say they do not. He states that human thought is of another nature and differs quantitatively from that of lower creatures. "The capital difference," says he, "consists in the fact that man speaks and other animals do not." Words alone have rendered possible the two intellectual processes of generalization and abstraction—and speech belongs to humanity alone. The simplest processes of induction and deduction are wanting in the lower animal, and so therefore is the power of generalization. A lower animal cannot generalize. The most intelligent dog cannot think. "I shall eat this to-morrow." He can in no way conceive "to-morrow." Man having the power of speech can have some one to aid him, and using words can get the notion of "to-morrow." The dog does not know that the soup coming from the fire is too hot. He only knows by trial. No doubt man's original thought was by means of cerebral, sensorial, visual, auditive and other images, but Man by means of articulate language thinks in verbal images. "The dog thinks through the medium of the sense of touch, these being substituted for the movements of the lips during the exercise of speech. The brain of a dog Delage compares to a magnificent screen, on which are projected visual images, which the animal itself perceives nothing at all. The perceptions of an object by a dog is most likely composed of olfactory, visual and auditory images. The succession of these makes the dog dream. With this basis the professor goes on to explain the remarkable acts which lower animals undoubtedly perform. "The dog," he says, "is a creature whose head, depending on instinct, those which are the result of education, and those coming from personal initiative. He maintains that instinct is composed of reflex action, i.e. of motor reactions depending solely on the lower nervous centres, and with these the likings of the animal. The dog likes sugar; the cat dislikes it. Using the case of the spider spinning its web. "This 'liking' governs their actions. The professor contends that they do not understand what they are doing. The lower animal has no notion of geometrical, mechanical, or utilitarian things. It does all that it does mechanically, just as the navy unconsciously draws in his breath, and fixes his muscles to throw a heap of earth with his shovel. It is purely automatic. In regard to education, it is wonderful what some animals can be

Original and effective photographs, sketches and plans for apartment houses, office buildings and residences of every style and size are on display in these studios. You are cordially invited to inspect them.

Humorist or Dunce.

A boy in Oklahoma City submitted the following essay on the ship of the desert:

"The cannibal is a sheep of the desert. It is called a bacteria because it has humps on its back. The cannibal is very patient and will lie down and die without a groan, but when it is angry it gets its back up, which is called taking the hump. The shepherds of the cannibals is called Arabs. When they live in towns they are called street Arabs. When the cannibal goes on a journey it drinks as much as it can last for many days. Such animals are called aquil-

ducks. Those that cannot carry enough are called incubates."

The boy is eight years old. His teacher says he is an ignorant. His father says he is a young Mark Twain.—New York Herald.

Two farmers near Brest married two sisters recently. There were 1,129 guests at the double marriage, and 250 carts and carriages were utilized to take them to church. The wedding breakfast was served in a field. The guests were seated round 170 long tables, and disposed of ten barrels of wine, 4,000 bottles of lemonade and 500 bottles of beer, to say nothing of an immense quantity of food.

HOBBLE SKIRT AS SEEN IN ENGLAND

Takes Edge off Criticisms of French Styles and Habits.

(English Fashion.)

After careful observation of the way the English woman trips down Knightsbridge or Oxford street on shopping intent, I have come to the conclusion that the hobble skirt has worked a silent revolution.

There used to be a time when the travelling Frenchman came to England with a penny notebook and a cheaper pencil and, after shrugging his shoulders until he made the back of his suit look like crepon, devoted the rest of his time to jotting down rude things about the English woman. He said she was dowdy. Perhaps he had visions in his mind's eye of the trimly garbed little woman he had left behind him; the tight little brunettes who plucked and wholly adorable, have tripped so many years, ever so faintly, through the more fascinating streets of the most fascinating city in the world. And side by side with this delightful recollection his warped mind bade him see our English women through the conventional eyes of the Parisian caricaturist.

It must be admitted that the French person with the cruel pencil had a somewhat outrageous view of the British female—he had not seen her as a Suffragette marching on to Albert Hall, and marching "as to war." The type he drew was an unbecoming person with a rabbit mouth. The characteristic of the rabbit mouth, which can be developed in any country, is the quaint tendency of nature to anticipate the artist by foreshortening the forelip, without waiting for the need of the artist to cultivate a knowledge of perching as an aid to reproduction. The result of such an arbitrary foreshortening is that the canine teeth gleam like twin tombstones in an otherwise deserted cemetery.

The English woman of that epoch, according to the Parisian critic, dressed her hair bun fashion and forward, as if her face were a confectioner's shop window in which all the buns had to be heaped toward the front. On this she pitched a hat of the Mary Jane variety, which tried to outbulge the bun. And this was not the worst that happened to the English woman in France. She wore tweeds, Harris tweeds, with tails to her jackets, and her skirts, inches too short, showed boots with hobnails in them.

These boots the Frenchman saw were cruel boots, unjust boots. They were boots with hobnails in them, and boots with hobnails in them look big, even if they are little. The woman with the rabbit mouth always wore big hob boots with big nails in them. In French drawings of English women their still looms as large as Noah's elephants must have done when on a certain fine morning they ambled out of the ark two by two.

As a matter of fact, we never had a type of woman in that type of boot, but our women's boots were bad enough in all conscience, and a nation may be pardoned for stereotyping its pet caricature. Even in England we visualize an Italian as a man who plays an organ and lives on macaroni and the capers of monkeys, while for purposes of identification we still cling to the belief that the German wears a moustache like Bismarck and parades a pipe that knocks the size of the discarded calabash silly.

The French type of English woman was founded on an abiding truth—she was bigger-booted than she might have been. At that, however, is a matter of the past. The English woman to-day is no more big-booted than she is big-toothed. While she never wears hobnails, her boots, be it admitted, had that look about them. It is one of the glories achieved by hobble skirts and all the abbreviations and slenderifications (my word) which have happened to the lower garment since the crinoline and the bustle that they have hit the old hobnailed boot so hard that you cannot find one clumping a foot of pavement between Piccadilly and Hyde Park Corner, unless it is on the practical foot of a peripatetic nurse.

To-day the English woman does not wear hobnailed boots or boots at all. She wears shoes, and pretty shoes, chic enough to twinkle piquantly on the boulevards of the French capital. If you doubt my word, start at Leicester square and travel through Regent street to the Marble Arch, collecting boot impressions. You will find your boot impressions are all dancing little tit-bits of color, and that the shape—if an impression ever had shape—follows the model of the shoe.

You will find these shoes are no longer made of leather—or, at least, black leather. They affect all the colors of a rainbow perfectly arching itself to its utmost. You will find them pink or salmon colored, white-topped, red-strapped, yellow-buttoned, and if you do not find them exactly that way, you will find them any color you want to see, body, tops, straps, or buttons, even to the hue that prevailed when our forefathers affected gamboge uppers. Not a hob shape in the lot, nor a nail in the sole, but shapely, in every color possible to tender suede—the sort of footwear fairies might have worn as they danced through the woodlands, if they ever danced at all.

Also they have buckles, and when

GOOD INVESTMENTS!

50 ACRES WATERFRONT, Metcoshin district, close to new Canadian Northern Railway, about 12 miles by road; 25 acres cleared and cultivated, excellent soil on main road. If you want good land, here is a bargain. Per acre \$250

Cross & Co.

622 Fort Street.

You see a boot with a buckle, a feminine shoe without one is a grim monstrosity, meet only for a Parisian caricature. The buckle is a pretty thing. It shines in the sun, catches up the light of heaven and wink it like laughter through the skies. A buckle—why, a buckled shoe is better than a silver-gilt spur on the foot of a scarlet-clad man-at-arms.

Where the spur rings a martial, big-booted laughter, the buckle is the dimpling smile of a procession of half-dancing shoes. They go trip-trip-trip-trip down Piccadilly, as you may see them for yourself on any of these days of August. And even as they trip they tramp our English women once, and, maybe, even does to-day, so booted as if she considered a greater adventure than a climb across the Himalayas.

STATEHOOD BILL

Washington, D. C. Aug. 9.—The new Mexico-Arizona statehood bill was passed by the senate yesterday by 52 to 18. It provides for the automatic admission of Arizona after its citizens vote on the recall of judges provision of its constitution, and of New Mexico after its people vote on the proposition to make its constitution easier of amendment.

TRY TO BURN HOME.

Chicago, Aug. 9.—Four inmates of the Ulrich Evangelical Lutheran Orphan's Home set fire to their dormitory where there were one hundred other children yesterday, because other children had been denied the daily privilege of a visit to Lincoln park. The fire was extinguished after \$200 damage had been done.

GENERAL'S HEROIC ACT.

The King's Congratulations to General Fanshawe.

An act of dashing gallantry by General Fanshawe at the Dublin review has led to the general being personally congratulated by the King, and the following note in General Orders.

The General Officer Commanding the 14th Division wishes to place on record for the information of all ranks, his appreciation of the conspicuous gallantry displayed by Brigadier-General G. A. Fanshawe, C. B., of the division, who placed himself in front of a fallen driver of the Royal Horse Artillery and prevented him from being ridden over by the 3rd Cavalry Brigade when galloping past at the royal review in Phoenix park, Dublin, on the 11th inst.

At the garden party after the review the King sent for General Fanshawe, and personally expressed his

A. TOLLER & CO., 604 YATES STREET

appreciation of the general's courage and presence of mind. In consequence of the cloud of dust raised by the Artillery the general ran a great risk of being ridden down before the Hussars had time to open their ranks, but the Hussars smartly opened just in time. General Fanshawe's two aides de camp dismounted, and one of them placed his arm over the unconscious man, and in this way the whole remaining body of cavalry galloped past the little stationary group—London Standard.

BAD AS CANNIBALISM.

Farmer Hitches Wife to Plough Alongside Mules.

Because her husband hitched her to a harrow beside a team of mules and drove her around a corn field, Mrs. Lafayette Choate, wife of a farmer living near Birmingham, Mo., appealed to

the juvenile court at Kansas City for the custody of her two sons, four and six years old.

Mrs. Choate declared that her husband tied her hands behind her and drove her four times around the field hitched with the mules. She said that when she stumbled and fell he beat her with a club.

She bared her arm before the court. It was black and blue. When asked by the court why she did not prosecute her husband, she replied that she would not do so because he was the father of her children.

The court gave the children to her and provided that they be sent to the Institutional church until she could give them a home.

King Peter of Servia has become reconciled to his son, the ex-Crown Prince George, and has directed that all his debts are to be settled.

LOCAL NEWS

The Pride Clear ball team will hold its final practice to-night at the Royal park for its final game with the Bays on Saturday.

The coroner's jury which heard the evidence at the inquest yesterday afternoon into the death of Raymond Lane, V. & S. brakeman, found that it had been accidental and that no blame could be imputed to the company nor to any person.

Among the parcel of mail which arrived at the office of the Vancouver Island Development League this morning were two letters from Belfast, Ireland. One writer stated that he had a capital of £1,000, which he would like to set at work. It was his intention to come out here next spring, but before doing so he wanted some definite, reliable information as to the conditions of living and climate in Vancouver.

FLOUR GOES UP

Winnipeg, Aug. 10.—All the prominent milling companies have raised the price of flour 10 cents per sack of 100 pounds and 30 cents per barrel of 196 pounds. The new price went into effect yesterday at noon, but all of yesterday's billings were made at the old rate. The increase is due to the rise in the price of wheat, October option being particularly responsible.

OBITUARY RECORD

The funeral of the late Michael Buckley took place this morning from the Victoria Undertaking parlors at 8.45 and proceeded to the Roman Catholic cathedral, where services were held by Rev. Father Laterne. Many friends attended and numerous floral pieces were sent. The pallbearers were: George Stanley, Thomas Cole, T. M. Ecker, and A. McDonald. Interment was made in Ross Bay cemetery.

The funeral of the late Daniel Raymond Lane, who was killed in the wreck of the V. & S. freight train on Tuesday, has been arranged to take place on Friday at 2.30 p. m. from the B. C. Funeral Furnishing parlors. Services will be conducted by Rev. A. J. Stanley. Deceased was a native of Pennsylvania.

The death occurred at Vancouver on Tuesday of W. J. Bunker, aged 84. The remains were laid to rest in Ross Bay cemetery here, the funeral taking place upon the arrival of the boat this afternoon.

The death occurred at Seattle yesterday of Frank Theriault, a well known former Victorian, commonly known as "Babe." Deceased was educated in this city. In the Central and High schools. He was very popular in athletic circles and was at one time the star goal-tender of Victoria's lacrosse team. He and his mother, who formerly resided on the corner of Johnson and Quadra streets, moved about two years ago to Seattle, where the late Mr. Theriault took up an important position with his uncle. He was taken ill with appendicitis several weeks ago and suffered a relapse during the last few days, which ended in his death. Besides his mother he is survived by one brother, Frederick, of this city. Interment will be in all probability be made in this city.

Jack Quann, known throughout British Columbia as one of the greatest lacrosse stars ever, passed away at Vancouver in the evening. He played for Vancouver in the '90's, and was considered the best goal-keeper that the Terminal City ever had. He was extremely wealthy at one time, but having too many irons in the fire he was met by a tide of adversity which he could not offset. Deceased was 74 years of age. He leaves a widow and one child.

The funeral of the late Mrs. Mary Bell took place from the Victoria Undertaking parlors yesterday afternoon at 2.30 o'clock. Services were conducted by the Rev. R. A. McConnell. There was a large attendance of friends and many beautiful floral offerings were received. The following acted as pallbearers: George Cain, W. Pollard, T. Finley, W. Banks. Interment was made in Ross Bay cemetery.

WHITE STAR LINE IS COMING TO PACIFIC

Vice-President, Who Was Here Saturday, Looking for Docks at Frisco

San Francisco, Aug. 10.—Negotiations for docking facilities here for the White Star Line of steamers have been opened and Philip A. S. Franklin, vice-president of the company, arrived in San Francisco yesterday to conduct the arrangements in person. The White Star line is dominated by the Morgan interests.

Mr. Franklin was in Victoria on Saturday, as told in Monday's issue of the Times, and while he had nothing to say for publication at the time as to his plans it is known that he was looking into the shipping situation here.

ROYAL COMES SOUTH THROUGH DENSE FOG

Princess Brings 135 Down and Took North Largest Freight for Season

With foggy weather the whole of the way down the C. P. R. steamer Princess Royal, Capt. Neurotoas, docked at the C. P. R. dock early this morning from Prince Rupert and Northern B. C. ports, bringing 50 tons of general freight down and 135 passengers. Returning from the northern trip on the Royal were Dr. Rogers of the Chemainus hospital and his father, Colonel Rogers, with H. B. and Mrs. Robertson. Mrs. David Spener, Jr., and Miss Spencer, were passengers also. At Prince Rupert the Princess Royal put off Provincial Inspector of Legal Offices W. J. Goepel, who is making his annual northern trip of inspection of the legal offices in that part of the province.

On the up journey from Victoria and Vancouver the Princess Royal took the largest freight this season, 560 tons. On arrival in port this morning remains were ordered to her passenger deck and starboard rail. The Royal will sail for Skagway on Friday night.

PERSONALS

Arthur Barry, Montreal, is registered at the Empress.

Dr. A. C. Brydson-Jack, Vancouver, is at the Empress.

Gerald C. Kearley, London, arrived at the Empress yesterday.

H. M. Plumble, Mansfield, Notts, England, is at the Dominion Hotel.

T. F. How, general manager of the Bank of Toronto, paid a business visit to the city yesterday.

Fred Sturges, David Woolsey and party have gone to Alberni on a motoring trip. They expect to return Saturday.

W. McNeill, vice-president and general manager of the Western Canada Power Company, with offices at Vancouver and works at Stave Lake, was in the city yesterday.

ELOPERS ARE CAUGHT

Tacoma, Aug. 10.—Charges will probably be filed in the federal court to-day against Joe Smith, who eloped with Mrs. George Gield from Victoria a few days ago. Smith and the woman were traced here by the deserted husband and the immigration authorities, and arrested by United States immigration officers Fulton and Keagy, at the home of the man's friends Tuesday afternoon. Earlier in the day the husband went to friends of Smith near Point Defiance park, and obtained his ten-year-old son, who had been placed there for care by the eloping couple. Smith remains in confinement pending possible arraignment to-day. The woman was removed to the woman's ward of the city jail and will be held there pending the outcome of the inquiries. She is 25 years old and a Canadian by birth.

DR. JOHN C. DAVIE DIED THIS MORNING

EMINENT SURGEON'S DEATH WAS NOT UNEXPECTED

Was Oldest Practitioner in British Columbia—Studied Medicine in California

Dr. John Chapman Davie, the oldest practitioner in British Columbia and one of the most eminent surgeons of the Pacific Coast, passed away at the family residence, corner of Saratoga and Monterey avenues, Oak Bay, at 9.10 o'clock this morning. Death was not unexpected, he had been a victim of tuberculosis and had been failing for many years.

The late Dr. Davie was 67 years of age and was a native of Wells, Somersetshire, England. He came to Victoria with his family when a boy. He studied medicine in California and after taking his degree returned to Victoria where he practiced until very recently. His father was a medical man before him.

The late Mr. Davie was the son of the late Hon. John Chapman Davie, M. R. C. S. L. & A., who practiced his profession in Merton, Surrey, England, and afterwards in Victoria. He was educated in Silcoates College, near Wakefield, under tuition of Rev. Dr. Beyoglass and after remaining in Victoria for a year went to San Francisco, where he entered the university and studied medicine. Among the professors, whose lectures he attended, were Drs. H. H. Ireland and L. C. Lane, both of whom had continental reputations and who subsequently distinguished themselves by founding colleges.

When Dr. Davie returned to Victoria he practiced in conjunction with his father. He was at one time president and afterwards a member of the provincial medical council. He was a member of the Odd-Fellow order. Dr. Davie's brothers, A. E. H. and Theodore, both took a prominent part in the politics of this province in its infancy. Alexander held the offices of premier and attorney-general of the province in the eighties. Theodore was attorney-general in his cabinet, becoming premier in 1889 and chief justice of British Columbia in 1895.

The death of Dr. Davie will cause universal regret throughout the province of British Columbia and on the Pacific Coast, as he was respected and liked not only for his skill in his profession, but for his integrity and gentleness of heart.

Three daughters, Mrs. Sims, Mossa Jaw; Mrs. Craig, Phoenix, Arizona, and Mrs. Pole-Hampton, of England, two brothers, Horace and William, of Somenos, and one sister, Selina, of Reno, Nevada, survive.

The remains will be forwarded to Seattle to-morrow for cremation.

LONDON HOTEL FIRE

Property Loss at the Carlton Will Probably Exceed \$150,000.

London, Aug. 10.—The loss to the American guests at the Carlton hotel, the two upper floors of which were damaged last evening by a spectacular fire that drove the occupants of the place into the street, is not so heavy as had been expected.

The guests who deserted their rooms as they were by the flames broke out, found this morning that the salvage corps had done their work so thoroughly that in many cases their baggage, clothing and other possessions, even down to toilet articles, had been saved.

The loss to the hotel is estimated at \$150,000, but this probably is an under-estimate, as all the ceilings and most of the furniture must be replaced.

An inquest into the death of James Lee Finney, the American actor who lost his life during the fire, will be conducted Saturday.

PLATINUM DISCOVERY

A. Gordon French Issues a Note of Warning.

Nelson, B. C. Aug. 10.—A. Gordon French, of Vancouver, discoverer of the platinum group of metal in the ore of the Granite-Poorman mine, has issued the following warning: "While platinum metals are beyond doubt present in payable quantities in various places in this district within the granitic horizon, still it will be expecting too much to find them all over the ground."

"I understand staking of claims is being done very widely, and I should like to be the cause of loss to any investor, and would therefore suggest that before investing in any prospects, a thorough investigation should be made."

MANITOBA REGISTRATION

Winnipeg, Aug. 10.—Registration opened in Winnipeg and Brandon to-day under the federal proclamation. Intense interest is being displayed by Conservatives and Liberals alike. At noon the percentage of registration in both cities was 20 per cent in excess of the usual registration in those cities. Great difficulty is being met with in registering those who are out of the city, not expecting to register until next week.

CHANGES MADE IN THE CABINET

Dr. Beland Becomes Postmaster-General in Succession to Hon. R. Lemieux

Ottawa, Aug. 10.—The government this morning made an order appointing Dr. Beland, of Beauport, postmaster-general, Hon. R. Lemieux, minister of marine and fisheries, and Hon. L. B. Brodeur, a judge of the Supreme court. A successor to Sir A. B. Aylesworth will be named later.

RETURNING OFFICERS FOR THIS PROVINCE

Ottawa, Aug. 11.—British Columbia returning officers are as follows: Victoria—Alex. M. Bannerman, Victoria.

Comox-Atlin—P. P. Harrison, Cumberland.

Kootenay—John Keen, Nelson.

New Westminster—David Douglas, New Westminster.

Vancouver—Frank Burnett, Vancouver.

Yale-Cariboo—D. B. Johnston, Pritchard.

Yukon—Robert J. Nilbeck, Dawson.

MAN STABBED TO DEATH AFTER DANCE

Found Dead Near Orillia—Police Searching for Murderer

Orillia, Ont., Aug. 10.—With three deep knife wounds in the chest the body of Ross Ford, a young Orillia man, 23 years old, lies at the room of the undertaker while the local police are surrounding a swamp in North Bay, where it is thought his slayer is in hiding.

Last night there was a country dance at the Duff farm house, four miles north of the town, and Ford and another young fellow were among the merry crowd present. The gathering broke up shortly after midnight and Ford started homeward. This morning Ford's body was found lying at the roadside. The police claim to have traced the man who accompanied Ford from the farm house as far as the big swamp and are searching there. Their theory is that Ford was stabbed to death in a quarrel probably over a girl.

PORTLAND POLICE DEPARTMENT

Detective Burns Will Investigate as Result of Charge Against Agency.

Portland, Ore., Aug. 10.—Detective W. J. Burns is coming to Portland to dig into conditions here, and the first step was taken yesterday when his local superintendent, Otto Kulper, filed charges of graft against Police Detective Carpenter, with John B. Coffey, chairman of the police commission of the executive board.

Burns' action is the outcome of a charge that the local Burns agency "shook down" a client, and Burns is determined to wipe out the imputation. The integrity of his detective agency being questioned, Burns means to delve into the police department and show up the men who have been taking money from women, parasites and saloonkeepers, for protection. Burns has become incensed over the accusation that his branch here has been a party to a shady transaction. The charges are said to have been made by Detective Carpenter.

TENNIS AT TACOMA

Tacoma, Wash., Aug. 10.—Another beautiful day favored the players in the Pacific Northwest tennis championships. Morning results:

Ladies' Singles. Mrs. Cook, of Tacoma, beat Miss Lowell, of Tacoma, 5-2, 4-3. Mrs. Fahnstock, of Tacoma, beat Mrs. Edens, of Seattle, 6-2, 6-4. Miss Bowen, of Tacoma, defeated Miss Skevis, of Tacoma, 6-2, 6-3.

Men's Singles. Joe Tyler beat S. Pulford, 5-2, 6-3. Emerson, of Tacoma, beat Thynge, of Tacoma, 6-1, 6-4. Jim Lyon, of Tacoma, defeated Kaufman, of Tacoma, 6-0, 6-1. Sam Russell, of Seattle, defeated Henry Caldwell, of Tacoma, 6-2, 3-6, 6-1.

Ladies' Doubles. Miss Schaffer, of Portland, and Miss Pording, of Portland, won from Miss Davis, of Tacoma, and Miss Dempsey, of Tacoma, 6-0, 6-2.

Mixed Doubles. Miss Gillison and Kelleher, both of Seattle, defeated Miss Stimpson and S. Pulford, both of Tacoma, 6-1, 10-8. Miss Livingston and Shannon, both of Seattle, defeated Miss Pording and Gorvill, both of Portland, 6-4, 3-6, 6-4.

DENIAL BY PERKINS

Washington, D. C., Aug. 10.—George W. Perkins, director of the United States Steel Corporation, testifying before the House steel investigating committee to-day, created a stir when he jumped to his feet and brandished as false the assertion that the panic of 1907 had been started to ruin certain banks.

New York, Aug. 10.—William Alloway Deering, advertising manager of the New York Sun, is dead at his home here after a short attack of pneumonia. He was born in Toronto in 1853, and did newspaper work in several Canadian cities before coming to New York.

DETERMINED TO PASS VETO BILL

VISCOUNT MORLEY'S ULTIMATUM TO LORDS

Creation of Peers Will Follow Defeat of Measure in Upper House

London, Aug. 10.—When the debate on the veto bill was resumed in the House of Lords to-day, Viscount Morley, speaking for the government, announced if the measure was defeated, the King had assented to the creation of sufficient peers to guarantee against a possible campaign of the different opposition parties by which the bill may be exposed a second time to defeat.

"Every vote given against my motion not to insist on the amendments is a vote given in favor of a large and prompt creation of peers."

Lord Rosebery admitted that it was not his intention that the bill must pass. The former premier denounced the government for having gone to "a young and inexperienced King, not yet five months on the throne, to ask for guarantees to pass a bill that had not even passed its first reading in the House of Commons."

He concluded: "If the bill passes to-night there will still be force left in this House to oppose the dangerous measures of the government, and Europe and the Empire will be spared the sight of a scandal which would go far to weaken the centre of the Empire in its component parts."

The Earl of Camperdown, having announced that he would support the government in preference to having the Upper House swamped with new peers, the Duke of Norfolk declared that if any Unionist peer supported the government he would vote with the insurgent followers of the Earl of Halsbury.

DEPENDENT'S WOMAN'S SUICIDE

Tacoma, Wash., Aug. 10.—The story of a girl stenographer's unrequited love was ended last night when Miss Hazel Anslow, aged 25, donned her white frock and went to the home of Emmet L. Moody, at 1532 South 8th street, and swallowed the contents of the strychnine vial in his presence.

Moody and a woman, said to have been in the house with him, and this time only persons to receive the dying girl's message, and as the remains were being carried to the morgue the man and the other woman, left, stating they were going to Spanaway to tell Miss Anslow's sister the details of the suicide.

Miss Anslow was seen yesterday evening to enter the Moody home upon three different occasions. Twice during the afternoon garbed in black, she went to the front porch and rang the bell in vain for an answer. She went away, and in an hour returned dressed entirely in white, and this time the door was opened in answer to her ring, and she was admitted. What took place after that is known only by Moody and the other woman. When a physician arrived he found Miss Anslow stretched upon the floor dead. The girl left no note.

Efforts are being made to get into communication with her mother who lives in Port Orchard.

HEAT WAVE

Kansas City, Mo., Aug. 10.—Excessively high temperatures prevailed in the southwest again to-day. At 7 a. m. the government thermometer here registered 82 degrees, the same as the temperature at Houston and Memphis at that hour. At 9.30 a. m. the heat increased to 94½ degrees. Indications were that yesterday's maximum of 95 degrees would be equalled.

DIED

WOODFORD—On Aug. 9th, Margaret Jean Russell, the 4 month old daughter of Mr. and Mrs. Charles Woodford, 406 Quebec street.

DAVIE—At the residence, Oak Saratoga and Monterey avenues, Oak Bay, on the 9th inst., Dr. John C. Davie, 67 years, and a native of Wells, Somersetshire, England.

Cremation in Seattle. No flowers.

CHEAP BUNGALOW

Just off the Oak Bay Car Line, on good street, with cement sidewalks, we have a beautiful new 6-room bungalow, with large verandah, brick mantle and fireplace, hurlay and tiled walls, piped for furnace, dug out cement basement, and lot all fixed for lawn—

Price \$3,500 \$600 Cash, Balance Rent. To see this is to buy it.

MANY PROSPECTORS JOIN IN RUSH

PLATINUM FOUND

NEAR SLOCAN JUNCTION

Number of Claims Have Been Staked—Assays Run \$176 to the Ton

Nelson, B. C., Aug. 10.—Immediately opposite Slocan Junction, on the opposite side of the Kootenay river, is the latest scene of the platinum rush, 14 claims having been staked on the dyke along this waterway during the past fortnight by a syndicate composed of Alfred Jaffe, R. A. Brown, Bob Elliott, M. R. McQuarrie, and Hugh W. Robertson. According to figures exhibited by McQuarrie and Robertson, the highest assay from samples from this dyke ran \$176 to the ton, and the lowest assay gave a figure of \$72 to the ton.

News of the discovery leaked out Tuesday and preparations were immediately made by a number of well known prospectors in the city to go out to Rover creek and stake up all available land in the vicinity of the new strike. Six men left on the train Tuesday with the intention of sleeping at Slocan Junction, and crossing the river at an early hour Wednesday, and getting their stakes in before others who expected to leave for the trip about 3 o'clock yesterday morning.

Mr. Robertson stated that the dyke showed plainly just above the bridge across Rover creek, and that it was about one hundred feet in width. The dyke runs up the creek in a southerly direction. The ore in appearance is very hard, much harder than that from the Granite-Poorman dyke and is of a grey-green color. It is claimed by the syndicate who staked the 14 claims, that it is the richest discovery of platinum that has yet been made in the world.

Bob Elliott made the discovery of this dyke and it was he who staked the majority of the claims, some of which were at one time worked for gold.

The dyke is apparently of a later formation than the surrounding rocks, and appears to have been forced up, although it runs more in line with the regular formation than it does at the Granite-Poorman.

The 14 claims were recorded about noon Tuesday, and in order to cope with these and other claims Stephen Hoskins, mine recorder, is compelled to work night and day. The rush of business at his office is said to be greater than ever before. The extent to which claims are being staked is shown by the fact that one enthusiastic believer in the strike has actually staked a piece of land which includes the city sewer plant, while one rancher was so afraid that his land would be taken-up as a mineral claim that he spent all Saturday on watch with a shotgun ready to repel invaders. This same man on Monday handed over the loaded shotgun to his wife and ran into the city in search of legal advice as to how he could prevent his ranch becoming a platinum producer.

NEW CANADIAN RIVER.

Surveyors Follow Black Crow for 300 Miles.

Ottawa, Aug. 10.—A big river has been discovered in Canada. It is new in the sense that no one had any conception of its extent. The Porcupine river is a tributary of the Yukon. It has a tributary known as the Black Crow. Until a month or so ago no one believed that the Black Crow was more than twenty or thirty miles long. It is now known to be hundreds of miles long.

The discoverers are the surveyors delineating the international boundary in the far north. The last word received from them was that they had traversed 300 miles of the Black Crow. Access to the Arctic ocean will be rendered much easier from the northern portion of Canadian territory.

NEW AEROPLANE RECORD.

Paris, Aug. 10.—Jules Vedrines, the French aviator, broke the record for a single long distance flight yesterday in competing for the Michelin cup. He covered 500 kilometers (310 miles) in seven hours, 56 minutes and 36 seconds, beating Lorigan's mark of 702 kilometers (436 miles).

Vedrines flew over a measured course of 101 kilometers. When he had made the round trip eight times he did not come down, but continued for the purpose of remaining in the air for another hour. He flew at a height of about 1,500 feet.

Three-quarters of the total population of Spain are engaged in agriculture.

WAS PAID FOR HIS VOTE FOR LORIMER

Former State Senator Admits He Took Bribe—Tells of Furniture Deal

Washington, D. C., Aug. 10.—Former State Senator D. W. Holtzlaw, the 62-year-old Illinois banker and church leader, related to the senate Lorimer committee his story of being paid for voting for Lorimer for senator. He admitted, he told of asking and of being paid \$1,500 for buying furniture for the state from a certain firm.

Holtzlaw was asked many humiliating questions. He was required to tell of being called before the grand jury of Sangamon county, on his way back from a Baptist convention in Baltimore, to which he was a delegate. He was led by counsel into all the details of his demand to be paid by the furniture men before he bought furniture for the state.

"You were looking out for the best interests of the state when you demanded \$1,500," asked Senator Kenyon. "I felt honestly that I was not taking anything from the state, but was getting part of the agent's commission."

"You were worth \$100,000 and didn't need the money?" "No, I didn't need it."

"Did you intend to turn it over to some charity fund?" suggested Attorney Markie. "Oh, no, I intended to keep every cent of it."

He did not get the money because he told the grand jury about it, he said. He declared it was mostly to get immunity from his part in the furniture deal that he told the grand jury of receiving money for voting for Lorimer. He said that when he wanted to correct his testimony in regard to the furniture deal and avoid prosecution for perjury, State's Attorney Burke sent word, "that I would not be allowed to go back and correct any statement, unless I told all I knew about the Lorimer deal."

SEATTLE RECALL PETITIONS.

Seattle, Wash., Aug. 10.—Mr. and Mrs. Frank Stirman, who have directed the circulation of petitions for the recall of Mayor George W. Dilling and Councilmen Max Wardell, F. S. Steiner, E. F. Blaine and J. Y. C. Kellogg, stated yesterday that the petitions would not be ready for filing to-day, as promised, but would be completed next week. The officials against whom the petitions are directed profess to treat the movement with complete indifference. The only candidate mentioned for the mayoralty is former Mayor Hiram C. Gill, who was recalled by an enormous majority last spring. No councilman candidates have announced themselves.

LUMBER STATISTICS.

Canada's Supply of Special Grade Wood Diminishing.

Ottawa, Aug. 10.—Statistics of the lumber used during the past year have been received from 152 companies, consisting of the agricultural implement and vehicle manufacturers of Canada in six provinces by the forestry branch of the department of the interior.

Seventy-six million four hundred and seventy-four thousand feet of lumber were used, worth \$2,513,265, or an average cost of \$32.86 per thousand. Of the native woods, cherry was the most expensive, at \$104 per thousand, and iron wood the cheapest at \$15 per thousand. Mahogany at \$120 per thousand was the most expensive of imported woods.

The species of woods having the technical qualities required by these industries at present grow only in small quantities in the agricultural and farming districts of Canada. For this reason, it is stated, the supply is rapidly becoming diminished.

MARRIED BY TELEPHONE.

Train Dispatching Distanced in Race For Utility of Invention.

Marriage by telephone, with the officiating clergyman in one place, the bridegroom in another and the bride in still another is an innovation in weddings. The Rev. H. B. Minton, sitting in his study at Coon, Iowa, united in marriage George Prentice at his home in Northboro and Miss Mary DeWitt, who at that particular moment, surrounded by relatives and friends, was sitting in the parlor of her home at Blanchard.

Coon is a small town five miles north of Blanchard, and Northboro, three miles west of Blanchard, is about the same distance southwest of the pastor's home.

At the appointed hour the minister got the DeWitt and Prentice homes on "the line" and when everything was ready the bride and bridegroom, each holding a phone to their respective ears, were married.

When they answered "We do," the pastor said, "Join hands over the wire." The rejoinder was "We have."

The clergyman replied, "I pronounce you man and wife."

The foundations of learning are being quick, suffering much, studying much, Catherall.

A Trial Treatment of Cuticura Soap and Ointment Free to Skin Sufferers

Are you or your little ones suffering the itching, burning, sleep-destroying torments of eczema, or other cruel, disfiguring skin eruption? Have you tried all manner of treatment, no matter how harsh or expensive, without avail?

For more than a generation skin sufferers, from infancy to age, have found that the first warm bath with Cuticura Soap and gentle application of Cuticura Ointment bring instant relief, permit rest and sleep, and prove the first steps in a speedy, successful and economical treatment, when all else has failed. Read what they say!

Miss Mary A. Bentley, 92 University St., Montreal: "Some nine years ago I noticed small pimples breaking out on the back of my hands. They became very irritating and gradually became worse, so that I could not sleep at night. I consulted a physician who treated me a long time but it got worse, and I could not put my hands in water. I was treated at the hospital, and it was just the same. I was told that it was a very bad case of eczema. Well, I just kept on using every thing that I could for nearly eight years until I was advised to try Cuticura Ointment. I did so, and I found after a few applications the burning sensations were prevented. I could sleep well, and did not have any itching during the night. I began after a while to use Cuticura Soap, for nearly six months, and I am glad to say that I have hands as clear as anyone's." (Signed) Mary A. Bentley, Sept. 14, 1910.

Mr. Robert Mann, of 781 Queen St. East, Toronto: "Our boy was born in Toronto on Oct. 12, 1908, and when three months old a slight rash appeared on his cheek. What appeared to be a water blister would form. When it broke, matter would run out, starting new blisters until his entire face, head and shoulders were a mass of scabs and you could not see a particle of clear skin. We did not know what to do for him and tried about every advertised remedy without avail, indeed some of them only added to his suffering, and one in particular, the Remedy, almost put the infant into convulsions. A family doctor prescribed for him. This did not do any good, so we took him to a hospital. He was treated as an outpatient twice a week and he got worse, if anything.

"We decided that it could not be cured and must run its course, and so we just kept his arms bandaged to his side to prevent his tearing his flesh. The Cuticura Remedies were recommended. We used them in May, 1909, and soon the cure was complete. Cuticura made his skin perfectly clear and he is entirely free from the skin disease." (Signed) Robert Mann, May 3, 1910.

Mr. Mann adds: "My boy has never had any more trouble since using Cuticura."

Miss Mabel Morash, of Dover West, near Halifax: "When I was about twelve or thirteen years of age, my face broke out with pimples, and I tried everything to get rid of them, but failed. The pimples

were the worst on my forehead and chin. They came out in groups and developed later into sores. Being on my face they caused great disfigurement, and were most embarrassing.

"After trying so many remedies without success, I saw the Cuticura Ointment advertised, and I sent for a box. I then applied it to the pimples, and in a week I saw a great change in my face. I kept using it, and in a few months it rendered ever had pimples, thanks to the Cuticura Ointment." (Signed) Mabel Morash, Mar. 11, 1911.

Mr. T. Williams, 115 Pacific Ave., Winnipeg: "The Cuticura Remedies certainly did work finely, and I am thankful that there is such a remedy, and that I tried it. About three months ago a terrible itching commenced on my body. I could not understand it. It gradually grew worse and covered a large portion of my body. There was also a slight eruption of the skin, sort of a rash. I suffered greatly with the itching and at night time I had little sleep. I tried one or two remedies which did no good, and then I tried Cuticura Soap, Ointment and Resolvent. In about ten days I was completely cured." (Signed) T. Williams, Jan. 14, 1911.

Send a postal to-day for a free sample of Cuticura Soap and Cuticura Ointment, with 32-p. book on skin and scalp troubles. Address "Cuticura," Dept. 26 Y, Boston, U. S. A. Cuticura Soap and Ointment are sold by druggists and dealers throughout Canada.
