LEVEL II
WIKIDATA

User : _____
Babel : _____ *ex. fr-N eo-4 en-2 br-1* _____

Mission

On this level 2, your goal is to make Wikidata more consistent.
To achieve this, join contributors from other cultural and language backgrounds,
and discuss how to solve non trivial cases, typically concepts which are a bit diffe rent
depending on the language.

Tips

You can use the Wikidata list of interwiki confli cts : http s://www.wikidata.org/wiki/Wikidata:Interwiki_confli cts/Unresolved/2018

If a case needs profond thinking about its conceptual tree, give it to the level 3 participants.

Why people will thank you for the eternity

Making Wikidata more consistent eases interwiki collaboration and reuse of data.
Readers will be able to bette r navigate between Wikipedias, and the data tree will be able to germinate!

>>> **Next step :** LEVEL **3 !**

In that level you will be able to think deeply...
It's mandatory to build a powerful data tree!
See you at the next workshop, gardener.
