To search for specific names, type keywords into the search bar in your PDF reader. If a keyword search doesn't turn up expected results, it is recommended that you also scroll down into the alphabetical listings to search for the name, as the font-reading software is not perfect.

The table of contents below can also give you an idea of where to look within the document for other kinds of information listed in the directory, like street guides, government listings, and advertisement indices. Note that the PDF page number and the original directory page numbers are different, because the color-printed advertisement pages in the directories were not numbered.

First-Class Fire Insurance.

Market Fire Insurance Co.

Office, 37 WALL ST., cor. of Jauncey Court.

Capital, - - - - - \$200,000

With large Surplus of over - \$165,000

Insures respectable parties against disasters by Fire, on MERCHANDISE, HOUSEHOLD FURNITURE, BUILDINGS, SHIPS IN PORT AND THEIR CARGOES, and the better class of risks generally, at the lowest rates consistent with the security of its Policy Holders, and the conservative character of its management. The BUSINESS of the Company is conducted on the **PARTICIPATION PLAN**, so successfully pursued by it for several years past, by which **Seventy-Five per Cent. of the Net Profits** is divided annually to the customers in SCRIP bearing interest, and the Fund represented by said Scrip is safely invested, and held until it shall amount to

Five Hundred Thousand Dollars,

For the guarantee of the Policies, by which the Security of the Insurance is increased, and the Cost reduced, without the least liability on the part of the assured.

The liberal and prompt adjustment of claims for Loss, when fair and square, is a specialty with this Company.

HENRY P. FREEMAN, Secretary.

ASHER TAYLOR, President.

GAYLORD'S
PATENT
HOSE, ENGINE AND HYDRANT
COUPLINGS.

The advantages of this Coupling over all others, are, that it is perfectly water and air tight, and can be used with ease and rapidity, and considering the many advantages, the saving of time, the durability, the ease of connecting and disconnecting, render it by far superior to any other Hose Coupling now in use.

It is now in use by the Government, and many of our Cities. It is used on Railroads, Steamships and in many factories throughout the United States. It is also invaluable to Plumbers for Street Washers.

This Coupling has received testimonials from the Fire Department of New York City, of the City of Brooklyn, and all of the Insurance Companies of New York, the Board of Marine Underwriters, and Engineers generally throughout the country. It is patented in Europe, and looked upon as one of the greatest improvements of the age.

This Coupling was used on the Engine and Hose that received the premium at the World's Fair in London. It also received the highest Premium at the Fair of the American Institute.

Hose of every description furnished at short notice.

P R E F A C E .

In our previous issues we have been able to announce to the public a steady increase of names from year to year. Not so, however, this year, as it will be seen that there is a slight decrease in the number of names from last year.

But we wish the public to understand that it is no fault of ours that the names run short.

The following are the explanations :

Just before we entered upon the canvass of the City on the third day of May last, it will be remembered that the daily newspapers, both of New York City and Brooklyn, were publishing articles stating that the draft would take place in Brooklyn about the first week in May.

We do not blame the public journals, however ; subsequent events have shown that they were correct.

But of course the excitement created by these announcements rose to fever heat with many persons liable to military duty, and in many instances our canvassers were refused the necessary information for the Directory, being taken, by the terribly frightened people, for the enrolling officers ; often being locked out of tenement houses, and, in some instances, threatened with violence. This is the first year the Directory has decreased in the number of names since 1854, when the present publishers embarked in the Directory enterprise. While we have lost the names of some of the timid, who are for the most part single persons, and not engaged in business on their own account, we feel justified in saying that we believe neither the Directory nor the public have suffered any material loss.

We again state that the fault is none of ours, as the same system and means have been employed this year that we always employ, and which we believe to be one of the best systems known among Directory publishers.

Many persons labor under a great mistake, by supposing that by withholding their names from the Directory, they will be able to shirk the responsibility of citizenship. In our next issue we intend giving a full and complete list of all those who refuse to give the information necessary to perfect the work, that the public may know where the blame lies for names not appearing in the Directory.

An experience of eleven years in Directory publishing has shown one curious fact, that those persons loudest in their denunciations of the Directory have been found to be those who contribute nothing towards its support.

We have been encouraged by the city authorities, from year to year, to believe that the law relating to the re-naming and re-numbering of the Streets, which has long since become a crying evil, would be carried out. For reasons beyond our comprehension, the work still remains unfinished.

As the price of publishing materials and labor have so greatly advanced during the past year, we are compelled to advance the price of the work to three dollars per copy.

After expressing our gratitude to those who have so kindly contributed information for the work, we leave the present issue in the hands of a generous public.

BATCHELOR'S

LIQUID

HAIR DYE.

The ORIGINAL and only PERFECT Hair Dye

EVER YET PRODUCED.

This splendid preparation produces IMMEDIATELY any shade of Brown or a glossy Black, natural in appearance, and harmless in its effects, leaving the hair quite soft and silky. Its continued use does not injure the hair nor stain the skin; but, on the contrary, it remedies the evil effects of bad Dyes, and

INVIGORATES THE HAIR FOR LIFE,

Frequently restoring it to pristine Vigor and Vitality.

SPECIAL NOTICE.

This ORIGINAL and CELEBRATED DYE has attained a very enviable reputation in every part of the United States, England, France, Central and South America, the East and West Indies, and other parts of the world, which reputation has excited the cupidity of a host of imitators and counterfeiters, who have flooded the market with their worthless and injurious compounds, inflicting RIDICULE and DANGER upon the unfortunate purchaser.

To avoid all this DANGER and RIDICULE, be sure that you obtain the GENUINE ORIGINAL, SURE and SAFE ARTICLE:

WM. A. BATCHELOR'S HAIR DYE,

GRATES, FENDERS, AND FIREPLACE HEATERS.

W. JACKSON & SON,

Late of the well-known firm of W. & N. JACKSON & SONS

Manufacturers and Dealers in every
variety of

Parlor Grates, FENDERS,

AND

Fireplace Heaters,

246 FRONT STREET,

NEAR PECK SLIP, AND

930 BROADWAY

Between 21st and 22d Streets,

NEW YORK.

UNION HEATER.

This cut represents a Heater to set in the fireplace, designed for heating the basement, parlor and second story. It occupies no more room than an ordinary grate. Its superiority over others is manifested by its flues being so constructed as to prevent choking. The air is received either from basement or cellar, and in passing through the various flues acquires a genial warmth, which is diffused throughout the rooms at pleasure.

Has followed the upward tide of population and business so far as

233 Fulton Street,

Where he has re-established himself with a view to permanency. Each department is more complete than ever, with increased and increasing facilities for executing orders for, or furnishing from his stock of

CLOCKS, WATCHES, FINE JEWELRY,
Silver and Plated Manufactures,

&c., &c.

SPECIAL ATTENTION

To the Finest Clock and Watch Work, to Diamond and other Precious Stone Setting, and to suiting Impaired Vision with Spectacles and Eye-Glasses. Pebble and other fine Lenses adapted.

MME. MORROW,
Corset & Dress Making
ESTABLISHMENT,
273 FULTON STREET,

(One door above Tillary Street.)

A large assortment of **French Corsets**, both Embroidered and Plain, that cannot be equaled in the City, to meet the demands of her numerous patrons. An assortment of her own manufacture, of a superior shape, and warranted to fit the most difficult figure, giving them a style and shape that cannot be acquired by any other corset, and yet MME. MORROW sells them low enough that all classes may wear her perfectly-fitting corsets.

She also sells a superior **HOOP SKIRT**, at a low figure, and has added still more to her stock a line of **HOSIERY**, that ladies and gentlemen would do well to examine before purchasing elsewhere.

FRENCH DRESS-MAKING, as usual, MME. MORROW superintending the fitting personally. Dresses Cut and Fitted. Marking for Braiding and Embroidery.

☞ Remember the number, **273 FULTON STREET**, (occupying the store and house for business,) one door above Tillary Street, **BROOKLYN**.

STREET AND AVENUE DIRECTORY

OF THE

(CONSOLIDATED)

CITY OF BROOKLYN.

Corrected and revised in accordance with the latest Corporation numbers up to May, 1864.

SHOWING the position, commencement, and termination of each Street, Avenue, Place, Lane, Court, Alley, etc., in the Consolidated City, with the junctions and crossings of the intersecting streets, also, the number of the building at the corner of the street, avenue, etc., where there is any

When there is no house on the corner, or where the corner house fronts on the crossing street, the number nearest the corner is given, and a * placed before it, to denote that that number is not to be looked for on the corner of the street or avenue named

A — denotes that there is no number on the corner, or near the corner.

A † placed in the right or left column denotes that the street does not extend to that side of the one under whose heading it is found.

As a rule, the numbers will be found to commence westward, and northward from the opening of the street or avenue, the even numbers occurring generally on the right hand side.

EXPLANATIONS.

If you wish to find the location of any number—for instance, 115 Bridge Street—on consulting the Directory you will observe that 105 Bridge is on the left hand of that street, and on the corner of Prospect, and 129 Bridge is on the left hand corner of Sands; hence, the desired location of 115 Bridge is between Prospect and Sands, on the left hand side.

The capitals E. D., when placed after a street, avenue, etc., denote that it is in the Eastern District. As there are several streets in Greenpoint, Bushwick, and Williamsburgh of the same name, and all being reckoned as the Eastern District, the exact location of such streets is given in connection with the capitals E. D.

Note—As there are two Hudson Avenues in the Western District—one running from East River, between Gold Street and the Navy Yard, south to 203 Fulton Avenue, the other from Fulton Avenue, between Brooklyn Avenue and Albany Avenue, south to City Line (Flatbush)—the latter will be designated through the body of this work by *Italics*.

A Policy of Life Insurance is the cheapest and safest mode of making a certain provision for one's family.—*Benjamin Franklin.*

A Policy of Life Assurance is always an evidence of prudent forethought; no man with a dependent family is free from reproach if not Assured.—*Lord Lyndhurst.*

There is nothing in the commercial world which approaches, even remotely, to the security of a well-established and prudently-managed Life Insurance Company.—*Professor De Morgan.*

There is no more advantageous or secure form of investment than a Life Policy in a Mutual Company. In the NEW ENGLAND MUTUAL LIFE INSURANCE COMPANY it is the best investment that can be made; for, under all circumstances, you get good interest for outlay of premium paid, and in case of sudden or unexpected death, the legal representatives of the party insured are largely the gainers.

Cash Assets, Jan. 1st, 1864 - - - \$3,000,000
Last Cash Return [now being paid], 750,000
40 PER CENT IN CASH PAID TO ALL INSURED.

This Company, established in Boston, Mass., in 1843, is the oldest and most reliable wholly Mutual Life Insurance Company in the United States, and has been uniformly successful, having always made large returns in cash to all the Policy-holders. Last cash return, just declared, and now being paid, 40 per cent., amounting to \$750,000, and leaving a large surplus besides.

It is strictly a benevolent institution for mutual protection, entirely beneficent in all its workings and tendencies, and is an excellent form of investment.

By the last report of the Insurance Commissioners, the surplus of Assets over liabilities was proportionately greater than any Life Insurance Company in the United States. Expenses proportionately "less" than any other Company.

This Company, being purely mutual, insures at the lowest possible rates; and if the premiums paid exceed the actual cost, the surplus is returned to the parties insuring.

Every fifth year, at the time of declaring the return to members, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time, and the surplus funds are divided *pro rata* among all the insured. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

Insurance may be effected for the benefit of married women, beyond the reach of their husbands' creditors. Creditors may insure the lives of debtors.

Parties at a distance may insure from blanks, which will be supplied and forwarded free of expense.

Printed Documents of an interesting character, showing the benefits of the Mutual plan, and the advantages generally of Life Insurance that this Company has to offer, supplied gratis, or forwarded, free of expense, by addressing

BENEFITS OF LIFE INSURANCE.

The principles of Life Insurance are now so well established, that they are no longer matters of experiment, and its advantages are beyond dispute.

The great and special advantage is the securing of wife and children against want and misery after the death of the husband and father. Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life, and it is the moral, social, and religious duty of every one, not to abandon those dependent upon him to the cold charities of the world, and liable to the temptations and sufferings of poverty, when deprived of his protection and support. The late Lord Chancellor of England declared, that "no man with a dependent family is free from reproach if his life is not insured." The man who neglects to insure his house is condemned for imprudence. How much more imprudent is he who refuses to insure his life? Every house may not be burned, but every man *must* die. Bishop Hawkes wisely declares, that "Life Insurance is not only a humane, but almost a Christian institution," for the Apostle says: "If a man provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel."

This important duty of every head of a family may be easily and securely performed by obtaining a Policy of Life Insurance. A very small daily saving will accomplish this purpose. Five cents a day, commencing at the age of twenty-one, will insure one thousand dollars at death, whether immediate or remote, together with all the profits which may accumulate on the policy; and six cents a day, at twenty-eight years of age, will accomplish the same object. And by the judicious laws of Massachusetts and New York, policies issued for the benefit of widows and orphans, are protected from the husbands' creditors. *The question is not whether one can afford to insure, but rather whether he can afford not to insure.*

Can it be that any father, husband, or man, is unwilling to make a little sacrifice of daily comforts, in most cases of what would be unnecessary expenses, to protect those most near and dear to him from suffering and want after his death?

There are many other advantageous uses of Life Insurance, besides the security of a family against want. Creditors can insure the lives of their debtors as a security for their claims. A man with incumbrances upon his property may insure to the amount of them, to secure their ready payment at his decease. A young man may borrow money to complete his education, or may obtain credit for a stock of goods, or tools, or a farm, by insuring his life and assigning the policy as contingent security. A parish may relieve their clergyman from anxious care by raising a small sum to insure his life, and provide for his family. In short, Life Insurance is applicable all purposes of raising money on loans, where only personal security can be offered; and, generally, as affording means of certain indemnity against any pecuniary loss, claim, or inconvenience whatsoever, to which one individual may become subject, by reason of the death of another.

The moral and social influence of Life Insurance is no slight benefit both to the individual and to the community. It develops the amiable and generous traits of character, accustoms a man to think others, induces habits of industry, economy, and accumulation, and by relieving the mind from anxiety and over-exertion, promotes health and longevity. A systematic adoption of Life Insurance, by the people of any country, would do more to eradicate pauperism and crime than the combined wisdom of its legislators; so that a well-founded, well-conducted institution of this description is a subject of public interest, as its beneficial effects are at least equal to those of any charitable, philanthropical public institution; and these effects are produced without any donation, sacrifice, or act of beneficence by the public or by individuals, being the natural and easy results of the spontaneous thrift, prudence, and forecast of individuals in conducting their own concerns.

SECURITY OF LIFE INSURANCE.

Life Insurance Companies are the most stable and permanent institutions known among men. The experience of the commercial world can point to no such permanency, nor do any class of institutions compare with Life Companies for uniformity, safety, and reliability. The insured cannot invest their funds in a more sure and profitable manner; for Life Insurance is simply setting aside and investing a yearly sum, with the certainty of a safe return with accumulations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an entire loss.

An investment in a policy of Life Insurance is far preferable to deposits in a Savings Bank. An Insurance Company accomplishes all that is done by a Savings Bank, and much besides, combining all the advantages of the latter with an indemnity against risks. Like the Savings Bank, it takes care of the depositor's money, and it virtually allows him interest upon his deposits; but it does more. What is of higher importance to the depositor, the Company engages, in consideration of a certain sum of money paid to it annually, during the life of the depositor, to pay a much larger sum to his family upon his decease.

There are *three reasons* why a Life Insurance policy is a wiser investment than a deposit in a Savings Bank: 1. Money in a Savings Bank, being entirely at the will of depositors, is too easily drawn out to gratify some passing desire, and there is no strong motive to compel a regular deposit. How many persons have commenced an account with a Savings Bank, and continued for some time with a laudable perseverance, but at last have been tempted to withdraw, and never had sufficient confidence to commence again! In Life Institutions, a man, after mature deliberation, binds himself to make a deposit of a specified sum at a specified time; knowing this, he provides for it, and we can safely say, that in a majority of cases the money saved to deposit in a Life Institution, *would not be saved at all, had they not insured.* 2. Money in a Savings Bank is exposed to the demand of creditors, while an Insurance policy is not liable for a man's debt, being held by a special law of the State, as a fund for the benefit of his family; and thus, in times of pecuniary disaster, to which every man is more or less liable, it often becomes

a means of support when everything else is gone—cheering with ease and competence the declining years of those who, without its aid, would have been left to all the miseries of poverty and old age. 3. *Life is uncertain, while death is certain*; and a Savings Bank makes provision only for life. The average length of human life is only thirty-three years. Of 500 persons, only one lives eighty years, and of 100 only six live sixty-five years. Those who can cheat themselves into the belief that they run no risk of dying, will not, of course, insure. No one, however, need consult books to learn lessons of mortality. 'Tis the burden of pulpit eloquence; the lesson of the graveyard; and the teaching of every day's experience. The uncertainty of life being admitted, it will follow that accumulation upon the Savings Bank principle, does not meet the requirements of the case.

To illustrate: suppose a husband and father, thirty-three years old, wishes to leave his family the sum of \$2,000, and for that purpose deposits annually \$50 in some Savings institution. In the course of thirty or forty years he will thus accumulate the required sum. But what guarantee has he that he will live ten years, or even one year? He has none, and, of course, no security for provision for his family. But, if he pays \$50 as an annual premium for a policy of Life Insurance, he will be SURE of leaving \$2,000 to his family *whenever he dies*—in six months or twenty years. Thus, while all other means are fluctuating and uncertain, and riches often "fly away," a Life Insurance policy (if from a reliable company) is certain, and becomes a patrimony JUST AT THE TIME IT IS MOST NEEDED.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

In answering this question, it will be necessary to explain, briefly, the

DIFFERENT KINDS OF LIFE INSURANCE COMPANIES.

They are all based upon the same fundamental principles, but are divided into classes, according to the different plans of their organization and the different methods of conducting their business. They are either *Stock*, *Mixed*, or *Mutual* Companies.

Joint Stock Companies issue at fixed rates, the profits being wholly divided among the proprietors, and the enormous dividends thence divided have, in some cases, raised the value of the stock to *seven hundred per cent.* upon the amount paid in.

Mixed Companies are also *Joint Stock* Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies are owned and managed *exclusively* by policy-holders, *all of whom* have their proportionate share in the surplus accruing from the business.

The *Mutual* Company is clearly the most perfect in principle, and experience has fully tested and placed beyond a doubt the perfect security of the system. No *Mutual* Company, when once well established, has ever met with disaster on account of the mutual principle; but, on the other hand, they have rapidly accumulated funds, reaching sometimes in amount to millions of dollars. In *Mutual* Companies, too, the assured have entire control of the funds; there is "universal suffrage," and the form of government is essentially "democratic." A *Mutual* Company divides the *whole* surplus among the insured, after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a degree with the *Mixed* companies. This plan of operation insures the applicant at the *lowest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the *Stock* companies, and only partially so with the *Mixed* companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

The Governor of Massachusetts has recently vetoed a bill to incorporate a Life Insurance Company, because, among other reasons, it was not a *Mutual* company, and had no limit as to its expenses. He says: "Purely *Mutual* Life Insurance Companies have been proved, by experience, to be the safest and best for the insured."

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

SUPERIORITY OF THE NEW ENGLAND LIFE INS. CO.

It is a purely *Mutual* Company, and has made four distributions of surplus funds (1848, 1853, 1858, and 1863) in cash, amounting to over \$1,500,000. It now has a well invested fund of \$3,000,000, which is much more than sufficient to meet all possible contingencies and make a large return to all the insured besides.

The New England *Mutual* Life Insurance Company do not pay their dividends in scrip, but always in CASH. At the close of every five years the Company, after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against; and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters to credit their distributions on the policies in the form of a bonus, payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums, and in times of great financial distress, are sensibly felt. In no event does the bonus (if a member choose so to apply his distribution) become forfeited. The cash distribution in 1863 amounted to \$750,000.

Its standing and economy are unequalled. The Insurance Commissioners of Massachusetts, in their last report to the Legislature, compare the standing and the economy of the eighteen Life Insurance Companies which issue policies in that State, comprising the principal companies in the country; and they place the New England Company first in standing, i. e., in its ratio

value to liability, and first in economy. This Company's expenses are only 8 per cent. of the receipts, while those of the others average more than 11 per cent. ! This is the oldest Mutual Company in the country, and, for that reason, must be the safest and most economical.

Its Directors are well known to community as men of integrity, sagacity, and experience in business; and every year the affairs of the Company are thoroughly investigated by a body of Commissioners chosen by the State of Massachusetts, for that purpose; and a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured, of the condition of the Company. Every five years, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

The New England Mutual Life Insurance Company has deposited with the Comptroller of the State of New York, \$100,000 for the security of its policy-holders in this State.

A company in which so shrewd a financier as the late ABBOTT LAWRENCE, and so profound a lawyer as the late ELLIS CHOATE, insured their lives to the largest possible amount, needs no other voucher for its economy, stability, and perfect security.

TERMS OF PAYMENT.

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

PREMIUM may be paid quarterly, semi-annually, or annually; or one-half of the amount of five premiums may lie over on notes for a term of years, on whole life policies, interest being charged at the rate of six per cent. per annum, on the deferred portions. Premiums for the whole life may also be settled in ten annual payments, or in a single payment.

This is not insuring on credit: for the Company gets pay, from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding so long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company, by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

In this Company a person cannot forfeit a policy until its value is worked out in insurance. For example, if a person pays four life premiums in cash, this will insure him seven or eight years, or about three years after his four have expired, if he is unable, from any cause, to pay the annual premiums.

SURRENDER OF POLICIES.

It sometimes happens that the motive for making insurance ceases before the policy has expired. Instances will also occasionally occur of persons being disappointed of the means of paying the premium, and so being liable to forfeit their policies. In such case, the Company consents to a surrender of the policy upon fair terms, if application is made for that purpose before it is forfeited.

All over and above the actual cost will be returned of the premiums paid.

Now is the time to effect an insurance! As a man grows older, the rates of premium are higher, and his health is liable to fail. Life is uncertain, and delays are dangerous!

A good and popular form of policy, and one much in vogue, is a policy for life, the whole premium being paid in ten annual installments (which installments may be paid quarterly, or otherwise); and if, before the expiration of the ten years, the payments are discontinued, a paid-up policy will be given for an amount proportionate to the premiums paid. On this form of policy a dividend is payable during the whole life of the insured. This form of policy enables the insured to make all the payments due on the policy in the prime of his life, thus guarding against future misfortune.

TAKE NOTICE.

A party out of the city desiring to insure, may go before a respectable physician to be examined, and fill up the questions in the application with plain answers, yes or no, as the case may be. The doctor will also fill up the medical certificate on the application, and forward the same to this office, and I will send him the usual fee, upon receipt of the application, even if the risk should not be accepted by the Company.

Any further information will be promptly given, and blanks forwarded free of expense when desired.
