==Need somebody to look at the interaction, it is devolving into harassment==

I'm not sure if this is the best place for this but things seem to be getting rather out of hand between [[User:BananaBelen]] and myself to the point that I think that it can be considered an incident.

They have accused me of [[Gaslighting]] ([https://en.wikipedia.org/w/index.php?title=User_talk%3AAppleAndy&type=revision&diff=796497815&oldid=796077469 diff]), which is not a term I had heard of before, but based on the article I take to be a personal attack as it refers to an intentionally abusive form of dishonest manipulation. I am genuinely unable to see how my actions could be interpreted that way so I removed the comment and warned him for personal attacks. He has doubled down on this, reposting the accusation on his own talk page([https://en.wikipedia.org/w/index.php?title=User_talk%3ABananaBelen&type=revision&diff=796586426&oldid=796561259 diff]) he has since posted what I take to be a threat on my talk page: [https://en.wikipedia.org/w/index.php?title=User_talk%3AAppleAndy&type=revision&diff=796587776&oldid=796561434 diff] (I'm not too bothered by the first part of that but the part saying "You might be seeing me a lot these days, so maybe trying to be my worst enemy right now isn't the best idea. Just saying." doesn't seem too healthy.)

Please help. -- [[User:AppleAndy]] ([[User talk:AppleAndy|talk]]) 22:40, 21 August 2017 (UTC)

Bread is the staple [[food]] of the [[Middle East]], [[North Africa]], [[Europe]], and in European-derived cultures such as those in the [[Americas]], [[Australia]], and [[Southern Africa]], in contrast to East Asia where [[rice]] is the staple. Bread is usually made from a [[wheat]]-[[flour]] [[dough]] that is cultured with yeast, allowed to rise, and finally baked in an [[oven]]. The addition of yeast to the bread explains the air pockets commonly found in bread.<ref>[http://www.quakeroats.com/cooking-and-recipes/content/baking-101/yeast-breads/common-yeast-bread-issues/air-holes-or-tunnels-inside.aspx Air Holes or Tunnels Inside]. quakeroats.com</ref> Owing to its high levels of [[gluten]] (which give the dough sponginess and elasticity), [[common wheat|common or bread wheat]] is the most common grain used for the preparation of bread, which makes the largest single contribution to the world's food supply of any food.<ref name="FAO">{{cite web |last1=Peña |first1=R.
