

List of the problems, the objectives and the outcomes of a project

	The problems	The solutions	Project Outcomes that contribute to the solution of the problems
Overall objectives	Underdevelopment; Disasters; Lack of health and security, ...	Understanding and contributing to change the factors that have caused the problems	<i>Expected changes</i> induced by the project
Specific objectives	Determinant 1 that have fuelled the factors causing problems	<b>Objective 1.</b> contributing to change the determinant 1	<i>Expected changes</i> induced by the project that contribute to the achievement of the objective 1
	Determinant 2 that have fuelled the factors causing problems	<b>Objective 2.</b> contributing to change the determinant 2	<i>Expected changes</i> induced by the project that contribute to the achievement of the objective 2
	Determinant 3 that have fuelled the factors causing problems	<b>Objective 3.</b> contributing to change the determinant 3	<i>Expected changes</i> induced by the project that contribute to the achievement of the objective 3
	Determinant 4 that have fuelled the factors causing problems	<b>Objective 1.</b> contributing to change the determinant 4	<i>Expected changes</i> induced by the project that contribute to the achievement of the objective 4

do not include here in the project business case document neither the project deliverables (you will do after the green light for the project business case when you will prepare the [List of the objectives, the outcomes and the outputs of a project](#) in the [Initiation](#) phase) nor the project activities (you will do after receiving the green light for [Project scope document](#) when detailing the [List of the outputs and the activities of a project](#))

(See [project planning phases](#))
