# U.S. EXPORT SALES

- Outstanding Export Sales (Unshipped Balances) on FEBRUARY 18, 1979
- Export Shipments in Current Marketing Year
- Daily Sales Reported FEBRUARY 19 - 25, 1979 --As Reported by Exporters

DEPARTMENT OF AGRICULTURE  
OFFICE OF THE GENERAL SALES MANAGER  
FEB 13 1979  
COMMUNICATIONS SECTION  
CUSTOMER SERVICE RECORDS

★ A recently issued USDA news release announcing the results of a review of the reporting system by the Advisory Committee on Export Sales Reporting is reproduced on page 33. ★

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

COMMENTS PREPARED BY THE OFFICE OF THE GENERAL SALES MANAGER

EXPORT SALES REPORT

Comments on release of March 1, 1979, (based on reports from exporters for the week ending February 18, 1979).

Wheat: New sales staged a moderate recovery from the rate of recent weeks. Egypt (under PL-480) and Korea utilizing GSM-5 credit were the most significant buyers. Sales to unknown destinations were fairly heavy, while smaller quantities were registered to several other countries. Contract adjustments resulted in a decrease in outstanding sales to China-Mainland. Export clearances improved modestly over the level of recent weeks.

Corn: Net new sales (1,581,100 MT) exceeded the one million ton level for only the second time since the week ending December 10. Korea, Japan, Belgium and the USSR accounted for more than 70 percent of the increase in sales. Numerous other countries added significant quantities to prior contract balances. Sales to unknown destinations declined as notable quantities were switched to West Germany, USSR, the UK and other countries. The export volume improved for the fourth consecutive week.

Rice: Commercial sales accounted for all of the moderately heavy sales activity. South Africa and Nigeria added to earlier purchases. Sales of 8,800 MT to unknown were switched to Iran and shipped.

Sorghum: Market activity was modest as Israel, Japan and Yugoslavia added small amounts to earlier purchases.

Soybeans: Sales (357,700 MT) declined from the preceding week's level with the EC, Japan, Korea and unknown destinations accounting for most of the purchases. Exports (694,700 MT) were very strong with the EC (224,600 MT), the USSR (219,300 MT) and Taiwan (86,200 MT) the major recipients.

Soybean Cake and Meal: Sales (74,800 MT) were less than a third of the previous week but exports (190,700 MT) nearly doubled due to heavy European shipments.

Soybean Oil: Sales (18,900 MT) fell from last week's record high. Purchases by Japan, Peru and other destinations offset reductions in sales to the United Kingdom and unknown destinations. Exports (9,200 MT) were also down with a shipment of 5,800 MT to India the most significant. Optional origin sales were reduced as 10,500 MT was switched to U.S. sales to unknown destinations.

Cotton: Sales activity nearly reached last week's record level. Sales of 37,600 RB to Canada, 32,000 RB to Japan, 31,400 RB to Korea, and 15,400 RB to Taiwan lead the way for sales of 148,800 RB in MY 1978/79. MY 1979/80 sales of 134,700 RB were dominated by Korea and Japan. Exports of 188,900 RB were a MY record and the largest since March 19, 1978. Asian destinations accounted for 70 percent, Egypt - 18 percent, and Europe - 9 percent of the shipments.

Oats and Barley: Showed no significant activity.

DATA ON TRANSACTIONS REPORTED UNDER THE DAILY REPORTING SYSTEM FOR FEBRUARY 19-25, 1979, APPEAR ON PAGE 6.

U.S. DEPARTMENT OF AGRICULTURE

## EXPORT SALES COMMITTEE GENERALLY PLEASSED WITH PRESENT REPORTING SYSTEM

WASHINGTON, Feb. 28--A committee report submitted today to the Secretary of Agriculture concludes that the U.S. Department of Agriculture's present export reporting system for agricultural commodities should be continued in essentially its present form.

The committee recommended that regulations be revised to assure that sales are precisely defined and reported as early as possible and that the time taken to issue the weekly export sales report be shortened.

Under the present system, U.S. exporters must report to the department, within 24 hours, the quantity and destination of any sales over 100,000 metric tons for most farm commodities; sales of smaller quantities are reported on a weekly basis. Reported data is then summarized and released to the public.

The report acknowledges that the reporting system, by itself, does not provide a reliable basis for forecasting exports nor does it require foreign firms to report sales of U.S. commodities.

The report said that the department should continue to require U.S.-based firms to report sales but that extension of reporting requirements to foreign firms might cause losses of export markets. The committee nevertheless recommended that the secretary of agriculture be granted authority to extend reporting requirements to foreign firms under certain circumstances, such as extremely tight U.S. or world supplies.

Copies of the committee's report are available from the Office of the General Sales Manager, U.S. Department of Agriculture, Washington, D.C., 20250. Phone: (202) 447-5651.
