The latest journal be comment favorably upon this compilation is the London Empire, and from its review we shall offer a few examples of Miss Mc-Nab's emiment unfitness to discuss her great subject. We can only hope that the next and all speceding works upou British Columbia will be undertaken by persons who have Miss McNab's an-doubid appleation and industry and very much poster than her knowledge of the fatest journal to the subject. Discuss-ing the traits of character of the Ameri-cans as compared with the Canadians, Miss McNab helps to propagate the silly phunder that Canadians live in a mean, parsmonious way: "The (immigrants to Chunda), she says, "must be employed of two fields of the institution of the American is increasintly as the American." A SAD LIFE STORY.

A woman was found recently in the streets of New York. She was not more than thirty years old, and evidently had been a woman of refinement and cal-ture. Who her trisends are, and where she came from is not known. Her life-story was pathetically hinted by the con-fents of her pocket, her swollen feet and her worn shoes. The pocket con-tained beside the ernst of hread, two brokes atcheds of chuly, a cheap wooden reserve and two Salvation Army fickets, on which were printed: <u>IOST-All have snned.</u>

on which were printed: LOST-All have sinned, lost of the second for the size of neuty-folded and per-fectly clean paper was the following: On the street, on the size the size of the size of the size of the street, on the size Neuty for the size of the size Net with rain and shame. anteted with such nu absence of bitter-ness. Sharply at 4 o'clock Mr. Northeott de-clared the poll closed, and the task 'or counting the vote was at once proceeded with. The arrangements in this respects were well nigh perfect, for with the ex-perience which he has acquired in many revious detections, the city assessor has very detail reduced to a system. From the beginning the mayor led in the count, and the work had not proceeded far be-fore it became evident that it was only a question of majority. When the last ballot had been counted it became evi-dent that the mayor had been returned by a very large majority. ### THE ALDERMEN.

on Sunday. —The concert in Temperance Hail to-morrow versing promises to be very in-teresting, and will no doubt attract a large audience. The following Indies and gentlemen wild contribute the pro-gramme: Misses Underhill, Andrews, Arthur, Lyons, Cutter, Dwyer and Messrs, Mortimer, Hatcher, Lane, Cor-tin, Etherton, Check, Pedderick, Harris and Brown. THE ALDERMEN. For the positions of aldermen there was a full field of candidates, many of whom were new men of undoubted pop-ularity, and some of whom had given an carnest to the people of their capability as municipal legislators by their work on the committee of fifty. It thus hap-pened that they were not altogether un-tried men and in that way enjoyed an advantage they would not otherwise have had.

ndrantage they would not otherwise have had. Of the old souncellors those from the North and South Wards suffered most heavily, the Centre returning only one new man, Ald. Stewart, who, from his long municipal experience, can hardly be regarded as an altogother new man. Ald. Williams again led in the Centre. Ald. MacGregor, who suffered defent. has been one of the conservative men of the aldermanic board and his defeat was one of the anexpected things of the con-text.

The other ward and his dereit was one of the unexpected things of the con-test. In the North Ward both Aldermen Bragg and Humber went under, the vet-eram 'Ald Kinsman securely holding his seat in the saddle with a majority over all comers. Messers. Brydon and Beek-with are the two new representatives from this division. In the South Ward Aldermen Wilson and Hall encountered defeat. The form-er has had a long and useful aldermanis career and has never previously been defeated. On one occasion he tied with another and the sent was awarded his poponent, it being a curious, fact that the gentleman with whom he fied at that the gentleman with whom he fied at that the gentleman with whom he fied at that the gentleman with bim. Ald Humphrey again takes his sent for this ward and das associated with him Chas. Hayward and Captain Langety. One House Stands in Part In Six of Them.

Ine Honse Stands in Part in Six of <u>Then</u>. No. 11 Queen Victoria street (Mansion Iones-Chambers), in the site of Lon-lon, is situated in no fewer than six arishes, arising from the verticus way in which the city parishes run into one mother. There are several instances of mildings vanding in four or three par-shes, and at least one honse is halt in the city and half beyond its borders. The Bank of England, Threadneedle Theet, is in three parishes—Ht. Bartholomew, H. Christopher-lesShocks and St. Mar-mes square mile in area, has sixty par-shes, none of them of very great dimen-tions, but nome of an almost inconceiv-thy small size. The Parish of St. Mary Mounthaw, for instance, which has only aix houses in it, is the smallest parish in the city. This parish stands at the corner of Oueen Victoria and Friday streets, and has not possessed a church since the great fire of London, in 1000, burned down the one it formerly had.

oth's Road Overseers Election Bill Is Withdrawa by Him on the Suggestion of the Premier.

Thursday, January, 12, 1898. The speaker took the chair at 2 'clock, and prayers having been read y Ven. Archdeacon Scriven, PETITIONS

ented as follows:

were presented as follows: By Mr. Prentice-From Peter Ryan, John Shields and C. R. Doxat, asking for a private bill to consolidate the Ash-eroft Water Works Co., Ltd., and the Asheroft Light & Power Co., and for m-enlargement of the powers enjoyed under the respective charters. By Mr. Munro-From Albert Nichol-son and others, respecting certain lia-likities meured by the late commission-er of Sums dyking district. By Mr. Higgins-From John H. Senk-ler, Arthug P. that our riches on the co a doubt that our riches an the coast mould be protected. Hon. Premier Semiin said the sooner uch legislation as this was carried out he better, and the information could the ariser be conveyed to those who are coing up to the Affin contary. It would be an act of crueity to them to get there out find they were excluded. The object of the bill was quite clear, it yes to pro-cet Pritish subjects. It was not pro-mosed for the anere purpose of excluding blens; there was something to be gained of the dimes becoming citizens of the country. In the United States every ran was regarded as an alien until he become a citizen. He had insisted for the province and of the Empire that people coming here should become cit-izens, and be had seen no reuson to change the opinion he had held for years are stat.

at. Col. Baker thought there were some ros and cons to be considered in the matter. There were, of course, certail matter. There were, of course, certain

by of some people to cereil mining pro-perties, but why should the act apply only to placer mining? It should also have application to lands and to quartz mining. He could not but admit that the enterprise of American citizens had de-veloped the rast resources of the Koo-tenay country.

enterprise of American citizens had de-reloped the vast resources of the Koo-tenay country. He objected to sub-section 2 of the bill, providing that no joint stock com-puny or corporation shall be entitled to take out a free miner's certificate unless the same has been incorporated, and not simply licensed or registered, under the laws of this province, and unless such company or corporation is authorised to take out a miner's license by the license-not governor in council. He thought this savored too much of an oligärchy, and was quite consistent with the policy which had shown itself in all the actions of the government. He would take the opportruity of amending the bill in com-mittee. It had been the custom when important measures of this nature had been brought down to refer them first of all to the mining committee, and he would not object to the second reading it the government would promise to refer it to the mining committee. Hon, Mr, Hume sai'l he would have no objection to réopt the suggestion to re-fer the measure of the suggestion to re-fer the measure of the suggestion to refer the measure of the suggestion to re-fer the measure to the mining committee. Hon, the Attorney-General said Col.

mines of the province than out of the placers. Mr. Helgesen (Cariboo) was not de-sirous of seeing any of the freedom hitherto enjoyed being lestroyed, buit did wish to see the country preserved for the benefit of the country. In the Cari-boo country the people, even Americane, had asked him to have an athen exclusion not passed as soon as he was elected. He thought it was high time to begin to save the resources of the country for our own people, but he had not halt time to go into the details of the bill, having only seen it to-day, and strongy recommended that it be referred to the mining committee.
