## SHIPPING SUSPENDED DURING HURRICANE

### ADDITIONAL DETAILS OF STORM IN SOUTH

### Several Vessels Wrecked on Coast of Honduras—Serious Loss of Life in Salvador.

(Associated Press.)  
Mobile, Ala., Oct. 22.—The latest news of a terrible hurricane that visited the towns of Duatan, Teja, Uchla, Carival in Honduras on October 12th was brought here last night by the Norwegian fruit steamer Harold. A number of vessels were wrecked, several destroyed and buildings in each of the towns mentioned badly damaged. The loss to the owners of the fruit plantations will, it is stated, reach almost a million dollars.

The British schooner Southern Queen was thrown on the beach at Ruatan and went to pieces in less than an hour, and the Harold suffered somewhat and will have to be docked.

A tidal wave accompanied the hurricane and swept everything before it. Captain Henry Henrikan reports that when he left the beaches were strewn with vessels of all kinds, including three large sailing vessels. No lives were reported to have been lost.

Over One Hundred Drowned.  
San Salvador, Republic of Salvador, Oct. 22.—Telegraphic communication with interior points has been restored and news of the disaster wrought by the terrific storm which has swept over the country is being received. Over a hundred persons were drowned in Coateque.

A vast quantity of sulphur water was thrown out of the Chulo volcano and killed many of the inhabitants. From other points also reports of the terrific devastation are coming in. Pimintou and other towns are reported to have been swept away by the floods.

The schooner Azelene, with a number of passengers on board, has been lost between Corinto, Nicaragua and Amapala, Honduras. Everybody on board was drowned.

The floods have disinterred a number of corpses from cemeteries and are carrying them down the streams. It is reported that the railroads in Honduras have suffered seriously.

Steamer Overdue.  
New York, Oct. 22.—The British steamer Arabistan is now several days overdue at San Juan, Porto Rico. The Norton Company, the agents here, say the ship is all right and will soon appear.

The Arabistan, besides a miscellaneous cargo carries \$600,000 in gold and 70 men. On her way from Buenos Ayres for New York, she stopped at St. Lucia for coal. She sailed for San Juan on October 12th, and should have crossed the Caribbean sea in from five to seven days. After the Arabistan sailed from St. Lucia a hurricane tore across the Caribbean sea and there is some fear the ship was caught by it.

"WHITE SLAVE" TRADE.  
Meeting in Paris to Discuss Steps For Its Suppression.

(Associated Press.)  
Paris, Oct. 22.—President Roosevelt has cabled to Ambassador McCormick, designating Secretary Vignaud, of the American embassy, to represent the United States at the congress for the suppression of the "white slave" trade, which opens here to-day.

THE FRENCH CABINET.  
M. Clemenceau Submits Names of Those Who Have Accepted Portfolios in New Ministry.

(Associated Press.)  
Paris, Oct. 22.—The new French cabinet has been completed as follows: Premier and minister of the interior, M. Clemenceau; minister of justice, M. Guze; minister of foreign affairs, M. Etienne; minister of education, M. Briand; minister of finance, M. Caillaux; minister of war, General Picquart; minister of marine, M. Thomson; minister of public works, M. Barthou; minister of commerce, M. Doumergue; minister of agriculture, M. Rual; minister of labor, M. Viviani.

FAMILY BURNED TO DEATH.  
Remains of Farmer, His Wife and Daughter Found in Ruins of Home.

(Associated Press.)  
Washington, Kansas, Oct. 22.—Fire which last night destroyed the home of J. M. Elliott, a farmer, burned to death Elliott, his wife and daughter. In the smoldering ruins the bodies of the three were found this morning.

FATAL BOATING ACCIDENT.  
Rochester, N. Y., Oct. 22.—Edward Mason, 45 years of age, of Canton, Ohio, was drowned in Silver lake last night. Mason and two companions were in a boat which capsized. He leaves a wife and five children.

## TROLLEY CAR WRECKED.

Collided With Telephone Pole and Turned Over—Number of Passengers Injured.

(Associated Press.)  
Schenectady, N. Y., Oct. 22.—A trolley on the Schenectady railway Company, bound for this city from Troy, failed to take the curve at Union and McClellan streets this morning and dashed into a huge pole, turning on its side and injuring a score or more passengers.

The accident was due to the slippery condition of the tracks which was caused by the falling leaves. The motorman applied the brakes as he approached McClellan street, but the car slid over the switch toward Union avenue. As a Rosedale car was ahead the motorman expected to stop the trolley with a cut and a portion of the street.

Another passenger had his arm hanging by a few strings of flesh at the shoulder. The hospital ambulance and delivery wagons carried the injured to the hospital while the less seriously injured were taken into nearby houses and all the doctors of the city hurried to the scene.

## NEGROES TRIED TO STORM THEATRE

### NUMBER INJURED IN FIGHT WITH POLICE

### Rev. Thomas Dixon's Play "The Clansman" Was Responsible for Trouble in Philadelphia.

(Associated Press.)  
Philadelphia, Pa., Oct. 22.—Rioting among thousands of negroes was caused last night by a production of the Rev. Thomas Dixon's play "The Clansman." Before it was ended panic reigned inside the Walnut street theatre where the play was on, the car service to the central part of the city was stopped, windows were broken and a score of blacks were badly battered up. Several were taken to the hospitals and a number were arrested.

A committee of ministers called upon Mayor Weaver yesterday to protest against the play and thousands of postal cards were sent to the negroes in the negro section, calling upon them to march upon the theatre and stop the play by force. Recent lynchings in the south were attributed to it.

Three thousand negroes filled the streets and two squads of reserve police from the city hall had all they could do to protect the theatre doors. It was not long after the curtain went up that a fight began in the gallery and down in the street came a negro with his head and face streaming with blood. "Refrain the theatre," the crowd cried, but just then one hundred more police charged on the blacks.

While the trouble was at its height Director of Public Safety McKenty and Fred Shoyer pushed through and reached the theatre steps. They and three ministers among them managed to quieten the crowd. After a council meeting had been arranged for to-day and announced to the crowd it began to melt away. It is probable that the press agent will be arrested for inciting a riot.

Considerable property damage was caused by the stones, and only a few remained in their seats to see the play.

## SENTENCED TO DEATH.

Fourteen Members of the Socialists Fighting Organization Will Be Executed.

(Associated Press.)  
Warsaw, Oct. 22.—Fourteen members of the Socialists fighting organization, who were arrested on October 2nd, have been condemned to death by the action of the court will result in a general strike to-morrow.

The military authorities continue their domiciliary visits in the residential districts. They recently searched the house of Count Krasinski, the most prominent of the Polish nationalists.

## CHURCH FOR CANAL ZONE

Will Be Erected by Presbyterian Mission Board at Cost of Ten Thousand Dollars.

(Associated Press.)  
New York, Oct. 22.—The home missions board of the Presbyterian church here is having constructed for shipment in sections to the Panama canal zone an entire church structure and parish house building for the use of the Presbyterian mission there. This is regarded as one of the most unique enterprises ever undertaken by any denomination. The church structure is to cost \$10,000.

## LIFE UNDERWRITERS MEET.

(Associated Press.)  
St. Louis, Mo., Oct. 22.—The seventh annual convention of the National Association of Life Underwriters began here to-day. Many questions of vital interest affecting the insurance business will be exhaustively discussed during the three days' session.

## ENGLISH OARSMEN WILL BE INVITED TO PARTICIPATE IN RACES IN JAMESTOWN

Number of European Clubs Will Be Represented at the International Regatta.

(Associated Press.)  
New York, Oct. 22.—Henry Phillip Burchell leaves for England to-day on the Cunard liner Carmania as the special commissioner of the Jamestown exposition to invite the winner of the coming British inter-varsity rowing contest to meet the winners of the next Yale-Harvard race together with the winners of the inter-collegiate eight oar event at Poughkeepsie.

The English colleagues will be given the option of a dual contest with the winner of the New London contest of participation in a three-colored race, to include the winner of the varsity race at Poughkeepsie. Should Oxford and Cambridge decline Mr. Burchell will endeavor to arrange for a combination crew from the Oxford and Cambridge and London rowing clubs to meet American oarsmen.

This decision to hold an international rowing regatta at the exposition was reached at a conference here between C. H. Sexton, of the Jamestown exposition, and the members of the executive committee of the National Association of Amateur Oarsmen. Assurance, it is said, has been received that one or more clubs from Europe will send crews.

## SNOW STORM RAGING.

Union Pacific Forced to Abandon Freight Traffic in Wyoming.

(Associated Press.)  
Denver, Colo., Oct. 22.—Cheyenne, Wyo., this morning reported that a storm which has continued three days without interruption is raging with increased force accompanied by a heavy fall of snow. The Union Pacific railway is trying to keep its line open with snow ploughs and passenger trains are arriving several hours late. Freight traffic has been abandoned. Telegraph wires are down east of North Platte, Neb., and west to Rawlins, Wyo.

## EMPLOYERS THREATEN TO LOCK OUT MEN UNLESS THEY ABIDE BY WRITTEN CONTRACTS

President Samuel Gompers Declares That Inter-Union Strife at Chicago Must Cease.

(Associated Press.)  
Chicago, Oct. 22.—President Samuel Gompers, of the American Federation of Labor, was asked yesterday by leading Chicago manufacturers to compel the local unions to cease fighting among themselves. If this fighting was not stopped he was told, the open shop would be established in the large wood working factories of the city. The case was put plainly to Mr. Gompers. He was informed that either the unions must abide by their written contracts and conduct themselves peacefully or else a great lock-out, which may involve as many as 5,000 skilled factory workers will follow. After receiving the complaints of the employers, Mr. Gompers admitted that they were in the right and declared the inter-union strife must stop at once.

The labor leader left for Lafayette, where he promised to confer with President Wm. D. Huber, of the International Brotherhood of Carpenters, the organization involved in the complaints.

## CALGARY NEWS.

District Exhibit For the Chicago Stock Association Show—Theatre Managers Meet.

(Associated Press.)  
Calgary, Oct. 22.—Another large establishment will be located in Calgary soon. It is stated here on good authority that a branch of the J. D. King & Company, boot and shoe manufacturers, will locate in Calgary.

A handsome Masonic temple will be erected here.

The Canadian Pacific Irrigation and Colonization Company will send a big exhibit of grains and products from this district to the Chicago Fat Stock Association exhibition to be held in Chicago in December. The exhibits will be taken from there to Guelph fat stock show.

Theatrical Circuit.  
An important meeting of the theatre managers of Western Canada was held in Calgary yesterday for the purpose of securing a better circuit in the west. E. Willis was appointed manager, secretary and treasurer. Mr. Douglas, of the Dominion theatre, was present and promised to give all possible assistance.

## SAANICH MUNICIPALITY.

Third Reading of a By-Law to Prohibiting Discharge of Firearms on Public Highway.

The municipal council of Saanich met at the office on Glanford avenue on Saturday evening with all members present. After transacting routine business a by-law was read a third time forbidding the discharge of firearms on any public highway in the municipality. The by-law is as follows: "No person shall discharge any cannon, gun, rifle, revolver, pistol, fowling piece or any firearm upon, in, or within sixty feet of any public highway within the limits of the municipality of the district of Saanich." The penalty for any infraction of the by-law will be for every offence a sum not less than \$5 and not greater than \$25.

The question of dividing the municipality into wards was discussed, some members of the council favoring the Catholic associations in France to which church property may be surrendered, a modus vivendi between the church and the government is possible, and the Vatican will not insist upon parliamentary action in the circumstances.

Under date of October 5th, Whiteley Reid, the American ambassador, addressed a note to the British foreign office to the effect that he was authorized by his government to ratify a modus vivendi in regard to the Newfoundland fishery questions on the basis of the foreign office memorandum dated September 15th, in which the foreign office accepted the arrangements set out in Mr. Reid's memorandum of September 15th, asking consent to the use of purse seine by American fishermen during the ensuing season, subject to due regard being paid in the use of such implements to other modes of fishing. Ambassador Reid said that the United States understood by this that the use of purse seines by American fishermen was not to be interfered with and that the ratification of Newfoundland by American fishermen outside the three-mile limit was neither to be subject to interference nor penalized. But at the same time the British government was assured that should such shipments be found necessary, they would be made far enough from the exact three-mile limit to avoid any reasonable doubt.

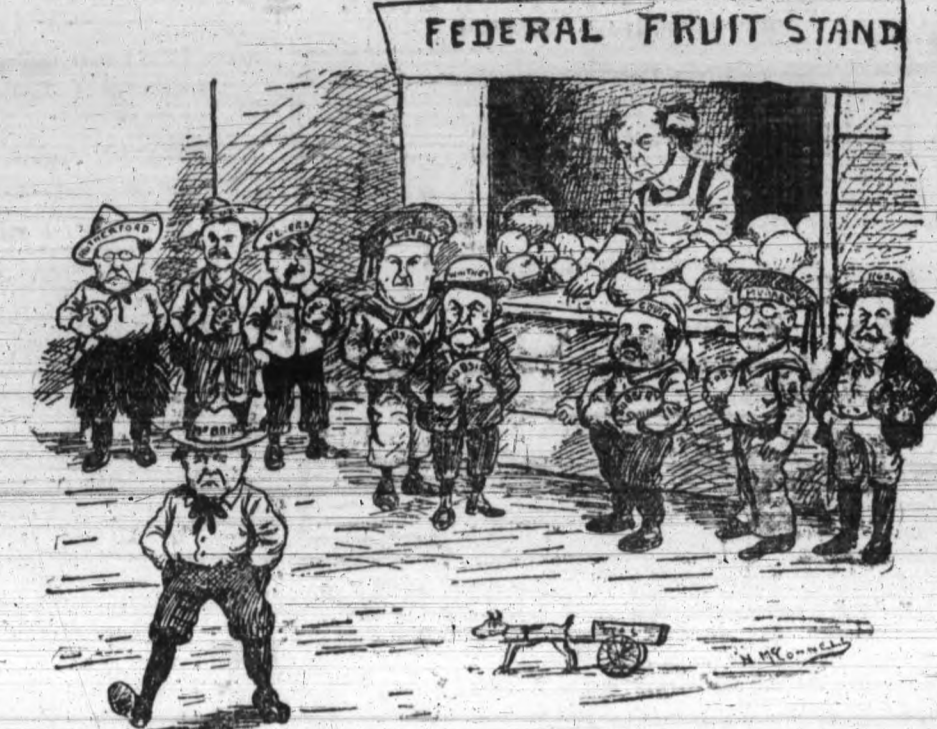

On the other hand it was understood by the United States, Mr. Reid said, that "our fishermen would be advised by our government and would agree not to fish on Sunday."

It was further understood that the British government would not bring pressure to force the Newfoundland fishing vessels at sea, but that the ratification of American fishing vessels certain restrictions in addition to those imposed by the act of 1905. American fishermen, Mr. Reid said, would gladly pay light dues if they were not deprived of their rights to fish and were not unwilling to comply with the provisions of the colonial customs law as to reporting at a customs house when physically possible to do so.

Mr. Reid concluded by saying that the American government was anxious that the provisions of the modus vivendi should be made effective at the earliest possible moment, and he would be glad to be assured by the British foreign office that the note would be considered sufficient ratification of the modus vivendi on the part of the American government.

The British foreign office replied to this note of Mr. Reid's on October 8th. This reply said that the note had been received with satisfaction, and that it would be considered by the British government a sufficient ratification of the modus vivendi on the part of the United States government. The British reply said also that King Edward's government fully shared the desire of the American government that the provisions of the modus vivendi should be made effective at the earliest possible moment, and that the necessary instructions for its observance had been accordingly sent to the government of Newfoundland immediately on receipt of Mr. Reid's communication.

## STEAMER REPORTED.

(Associated Press.)  
Cape Race, Nfld., Oct. 22.—The steamer Caledonia, from Glasgow for New York, was in wireless communication with the Marconi station when 100 miles west of this point at 5.40 last night. She will probably dock on Thursday morning.

## CATHOLIC ASSOCIATIONS.

Nice, France, Oct. 22.—While disclaiming to speak on the authority of the Pope, Bishop Chapon, in an interview to-day, flatly declared his conviction that if the church hierarchy through the bishops is given the right by a decision of the council of state to decide on the regularity of taxation between the property owner and trader more equitable. Another chief aim of the report is to remark on the incompleteness of the Municipal Clauses Act, which, in the committee's opinion, does not sufficiently define the powers of different municipalities according to their population and does not fairly separate the powers of district and township municipalities.

## LICENSE BY-LAW IS AGAIN TURNED DOWN

The liquor license by-law was again turned down by the city council at last night's meeting, when a motion to read it a second time was greeted with a similar performance as that of the last meeting. It being lost on a tie vote.

Ald. Hall brought the matter up by moving that the resolution negating its second reading at the last meeting be reconsidered. His motion carried and a short discussion followed.

Ald. Fell moved that the by-law be read a second time. Ald. Douglas, however, did not agree with him. He thought that, as AM. Fell had previously admitted that several clauses in the by-law should be eliminated, he had no faith in its effectiveness and consequently it was absurd for him to move its second reading. He, Ald. Douglas, thought that the liquor license should be heard from on the matter. It was a serious business and both sides of the case should be listened to and considered.

Ald. Vincent said he did not like to vote for a second reading. He thought the by-law should be referred back to committee to be redrawn, as it was too voluminous and inexplicit in its present shape.

Ald. Fullerton expressed it as his opinion that such an action would be a waste of time as it had already been shown that the committee could not agree upon it.

Ald. Yates thought that the license board should be consulted upon the merits and demerits of the by-law as it, at present, stands. He could not favor a second reading while it was in such an abstruse form.

Ald. Fell said that he had not heard a single objection to the by-law which carried any weight or was borne out by facts. Three men had complained to him of what they thought were minor defects in its composition, but he had not encountered any reasonable opposition to it.

The motion to read the by-law a second time was lost on a tie, the yeas and nays being as follows: Yeas, His Worship, Ald. Fell, Hall, Fullerton and Dayes; Nays, Ald. Goadacre, Stewart, Douglas, Yates and Vincent.

Fishes have been discovered in Guatemala with two pairs of eyes. One pair does duty below the wing and the other below, the fish being thus able to see equally well in two elements.

## IMPORTANT CHANGES WILL BE MADE

MUNICIPAL CLAUSES ACT INCOMPLETE

Mayor Morley Will Present Report of Legislative Committee at the Kamloops Convention.

The recommendations of the legislative committee of the city council, which were presented in the form of a report on August 8th, and, with a few slight changes, adopted, will be placed before the meeting of the union of municipalities at Kamloops by Mayor Morley either to-morrow or on Thursday. A copy of the report has been in the hands of the secretary of the union for some time past, and it is expected that the reading of it before the delegates from the various municipalities of British Columbia will provoke a long discussion.

The chief aim of the report is to remark on the incompleteness of the Municipal Clauses Act, which, in the committee's opinion, does not sufficiently define the powers of different municipalities according to their population and does not fairly separate the powers of district and township municipalities.

The committee recommends in the report that amendments be made to the act on many clauses and suggests changes which, if adopted, would call for a practical re-modelling. One recommendation suggests an amendment which will enlarge the revenue of the city by making the incidence of taxation between the property owner and trader more equitable. Another seeks to reform license matters, and after pointing out that the present license tax on general traders calls for urgent amendment, suggests several changes and recommends that license taxes be made open to regulation and adjustment by a court of revision, as in the case of other taxes.

There are many suggestions and amendments in the report dealing with matters of importance to this city, some dealing with regulations governing the conduct of business, distribution of advertising matter on the streets and theatrical performances and shows, others seek to bring about the regulation or prohibition of the blowing of factory whistles, discharge of smoke, steam, sparks and embers from locomotives and steamboats.

Whether the report brings about any changes in the act or not it will at least bring to the notice of the delegates the great difference between municipalities in the matter of powers and privileges.

## PLANS TO EXTEND INDUSTRIAL DISPLAY IN CONNECTION WITH TOURIST ASSOCIATION

There was a meeting of the manufacturing committee of the Victoria Development and Tourist Association yesterday morning at the rooms, Fort street, when the extension and improvement of the permanent exhibit was discussed at length. It was stated by Secretary Cuthbert that the display always attracted the attention of visitors and generally elicited favorable comments. One Tacoma man, after an inspection, had written in the register his opinion as follows: "The finest exhibit of manufacturing goods for a city of Victoria's population I have ever seen." This, he thought, proved the value of the arrangement from the standpoint of advertising, not only to merchants individually, but to the city as a whole as an industrial centre. It was somewhat surprising that all the space had not been taken, and with the object in view of having

## BRITISH MINISTERS AND CANADIAN DEFENCES

(Special to the Times.)  
Ottawa, Oct. 22.—Sir Frederick Borden, seen to-day, said that he had several interviews with Sir Edward Grey, secretary of foreign affairs, while in England and also met Hon. R. B. Haldane, secretary of state for war.

"I think," said Sir Frederick, "that they are all well satisfied with the position taken by Canada, and also with the condition of affairs here in regard to defence. They are not only satisfied with the taking over the Halifax and Esquimaux garrisons, but also of the development of the militia system."

## COUNCIL AT BUCKINGHAM.

London, Oct. 22.—King Edward held a council at Buckingham Palace at noon today for the transaction of the state business referring to to-morrow's reopening of parliament. The premier, Sir Henry Campbell-Bannerman, was subsequently received in audience by the King.

The scheme to erect a public zoo and aviary on Beacon hill, which was first put forward by Ald. Douglas, is now being energetically pushed by that gentleman. Ald. Douglas is enthusiastic over his project and proposes to ask for a meeting of the city council at an early date to discuss the matter.

He informs the Times that he has a scheme on hand which will provide money for the undertaking without drawing on the city's finances. Just what this scheme is he cannot, at present, divulge. Ald. Douglas, in company with Mr. Adams, of the city engineer's staff, paid a visit to Beacon Hill park yesterday and examined its lay out with a view to discovering a prospective site. Ald. Douglas has also obtained the following itemized estimate from Building Inspector Northcott, showing the approximate cost of erecting a monkey house, park keeper's lodge, bear house and aviary: to be \$6,128; Seal bath, 25 by 50, \$1,250; park keeper's house, with five rooms, \$2,000; monkey house, 3500; bears' house, with bath, brick duns, concrete floors and sides with partition, \$1,130; eagle's aviary, 25 by 50 and 20 feet high, \$1,363; total cost, \$6,128.

FEATHERSTONE FOUND GUILTY

HE IS SENTENCED TO DEATH FOR MURDER. Condemned Man Doomed to Execution in Victoria Jail Yard on December 12th.

Robert Stiles Featherstone was found guilty of the crime of murder at Nanaimo last evening at 8.30, and was sentenced by Mr. Justice Morrison to be hanged in Victoria jail yard on December 12th. The condemned man was found guilty of the murder of Miss Mary Jane Dalton at South Wellington some months ago, the crime being a most brutal one. The story has been published in the Times.

Yesterday the jury visited Squah Whitington to view the various places connected with the evidence. On returning the prisoner read a statement to the court regarding his past life and the events on the night preceding the murder.

As evidence of his innocence the prisoner's statement contained the following: "I turned down the road towards the mill, and caught up with Bob Dick and Godfrey, the planer man. We walked down as far as the railway crossing together. I remarked to them that I should not be much longer here if things did not change, or words to that effect. I said 'I will go and pay the old man a visit' (Mr. Dalton). I left them, turning south, down the railway. They went on to the mill. When I got down the railroad track, nearly opposite the Dalton house, on the railway track, I heard a woman's voice call out, 'I did not.' She seemed to be sort of crying. I looked towards the Dalton house and saw a man in dark clothes. He seemed to be pounding one hand on the other at the time. The door of the Dalton house was open and the man was standing opposite it on the verandah with his back kind of sideways to me, but I thought it was John Dalton, and still thought so until I heard the evidence at the inquest. When I saw the man on the verandah I was fixing my nail with a small piece of glass. I dropped my eyes for a moment, heard the door open and when I looked up the door was shut and the man gone. I thought that the old man and the girl were having words, so I turned around and went back up the railway track."

Col. Gregory, who defended the prisoner, made a strong plea for him, followed by the deputy attorney-general, who pressed for a conviction.

Mr. Justice Morrison in charging the jury said with reference to the plea of insanity on behalf of the prisoner that if they believed the man committed the murder they must find him guilty. After that, however, if he was insane the law simply provided for that view of the case. The evidence showed that he was drinking heavily. Voluntarily drunk, he did not excuse the crime. Dementia caused by insanity and that caused by drunkenness were two different things. The former constituted a defence, the latter did not. There was such a thing as drunken intention. The law did not coquette with this.

Exactly 25 minutes after the jury had retired after being addressed by Mr. Justice Morrison, they came to a decision. In the short interval before the foreman was asked for the decision, Featherstone keenly studied the faces of the jurors as if to learn his fate.

Foreman Jones rose in his place, and in a low tone with a catch in his voice, said: "We find him guilty." All eyes in the court room instantly turned to Featherstone, who had stood up to hear the sentence, and when the foreman had spoken, not even as much as by the gutter, or "not lips" which had worked once or twice nervously as the jury took their places, did he manifest any signs of distress.

In fact, as he stood up, straighter than in his custom, with his shoulders squared and his head thrown back defiantly, he showed more of his mounted police training, then he has done since his arrest.

In a clear voice, penetrating to the farthest corners of the room, Featherstone said: "I am in the same position as Capt. Dreyfus, and apparently I am unable to prove that I am innocent. But as God is my witness, I am not guilty of this charge."

After a slight delay the prisoner asked to make a statement, which privilege was granted.

In it he said: "I do not put any faith in Karlberg at all. In his evidence he says, 'I made a statement about this poor, unfortunate young lady, as a bad woman, and the evidence goes to show that there were only three people present when I was introduced to her myself, her father and the girl herself.'"

"Again Karlberg stands in the witness box and he says he resigned from the company. Against that I put Mr. Mull's sworn evidence here that he was discharged. If he stands up then and says that, what will he say against me. That's all the statement I have to make, my Lord."

HOODOO NECKLACE

All Its Owners Suffered From Misfortune—Last Killed by Husband.

A grim story of a fateful necklace lost on the eve of her death in the summer garden, St. Petersburg, by Mme. Andreff, who was cut down by her husband, is told by the Novos Vremys. It was an old piece of work by one of the best Parisian jewelers, and was sold first to the head of a French court family, nearly all the members of which were guillotined during the Revolution. A few escaped to Brussels and were obliged to part with many fine jewels, among them the necklace in question. From that time they enjoyed good fortune.

The necklace, after changing hands about ten times, was sold for \$20,000 to a prince, who gave it to the ballerina, Tsukki. For this act he was exiled from St. Petersburg. Tsukki left the imperial ballet, and finding her health failing, she went to her native country, and abandoned the stage forever. Before doing so she sold the necklace.

A subsequent owner, the antiquary, Linivitch, died suddenly at Monte Carlo, and the next to gain possession of the jewelry was a gambler at Monte Carlo, who lost all his money. The sale of the necklace saved him from beggary.

Finally, it fell into the hands of Mr. Andreff, a broker on the Bourse of St. Petersburg. He paid \$10,000 for it, and his wife was wearing it when in a fit of anger, he killed her.

What Other People Think

HOUSEHOLDERS' QUALIFICATION. To the Editor:—In this morning's paper I notice a paragraph headed "Householders' List," which, referring to the matter of householders registering, says: "The qualifications for a vote are: He must be a British subject over the age of 21, and have resided in the city since January 1st." This is misleading, inasmuch as it conveys the idea that ladies are excluded, whereas the Municipal Elections Act distinctly says: "Householders" shall mean and include any person of the full age of twenty-one years who occupies a dwelling, tenement, hotel or boarding house, or any part or portion of a dwelling, tenement, hotel or boarding house, and who shall, unless exempt by statute or municipal by-law, have paid directly to the municipality rates, taxes or fees of not less than two dollars for the current year." It seems clear, therefore, that all ladies over 21 occupying a dwelling as described are eligible, because by our statutes they are exempt from taxes. The same exemption also applies to men over 50 years of age. No one will doubt that both sexes of 21 and men over 50 must be included as voters under the "any person of the full age," etc. It is now hoped that the ladies especially who are excluded are being registered as quickly as possible before the last day of this month.

SOME DAY

To the Editor:—Will you kindly inform us through the columns of your paper the number of lighthouses, fog alarms and whistles erected on this Coast by the Dominion government during their term of administration, compared with the number erected by the present government?

INQUIRER

A special meeting of the Victorians' Association was held last evening when general business was transacted.

Do You Easily Tire?

IF A DAY'S TOIL EXHAUSTS BODY OR BRAIN, FIND THE REASON WHY. We all inherit a disposition to disease. With one it's consumption, another heart disease or perhaps nervousness.

At first you are languid, but as the fatigue increases you lose appetite and spirit, feel as if work wasn't in your line, and long for a vacation.

Surely, no clearer evidence of ill-health is needed. Thousands have been in the same sickly condition; those who heeded not were sory—those who used Dr. Hamilton's Pills were cured.

Shipping

A smooth sea and generally favorable weather are making the work of landing material from the steamer Quadra, for the new lighthouse at Pachena Point, much easier than the officials anticipated.

The steamer Petrel left port today for Pine Point, taking with her the new lighting apparatus for the lighthouse at that place, and it is expected that the plant will be installed within a few days. The steamer Casca, which has been assisting the Quadra, is expected back daily.

WILL SOON START

An Associated Press dispatch from Detroit says: "The steel passenger steamers Chippewa and Ironquels have been sold for \$400,000 to the Puget Sound Bay Line of Seattle, and will soon start from Detroit, for the long voyage down the St. Lawrence and around the Horn to Puget Sound."

LIGHT RE-ESTABLISHED

The department of marine give notice that the repairs to the lighthouse tower at Cape Beale having been effected, the temporary fixed light is being discontinued, and the revolving light formerly shown from this station has been re-established.

MARINE NOTES

Steamer Tango Maru, Capt. A. W. Moses, left Yokohama on the 11th inst. and will be due on the 31st inst. She has 200 tons of cargo for Victoria, and the passengers there are a total of 100 on board.

Steamer Spokane arrived from San Francisco last evening, having come north in place of the Queen, which has been tied up for renovation and repairs.

The steamer Henley arrived yesterday from Comox to be drydocked at Esquimalt for a scraping, cleaning and repainting.

The C. P. R. liner Empress of India, carrying the overseas mail, arrived at Hongkong last Sunday.

TIDE TABLE

Victoria, B. C., October 23, 1906. Date, Time of High Water, Time of Low Water, etc.

The time used in Pacific Standard Time for the 18th meridian west, it is counted from 9 to 24 hours, from midnight to midnight. The figures for daylight serve to distinguish high water from low water.

The height is measured from the level of the lowest water at spring tides. This level corresponds with the datum to which the soundings on the Admiralty chart of Victoria harbor are referred, as closely as can now be ascertained.

During the year forces have been operating which portend a very interesting time at the beginning of next year when the present municipal council shall be dissolved and the people of Victoria will be called upon to elect a Mayor and Aldermen. The usual procedure is to allow a Mayor to serve the city for a second term without opposition; but we are inclined to think the custom will not be observed in the case of Mayor Morley. That, however, is only an opinion. While it undoubtedly expresses the sentiments of a very large municipal element, there is a possibility that the plans of the opposition may miscarry, largely because the fact is recognized that a strong man and a popular will have to be placed in the field to upset the generally accepted municipal tradition that a Mayor is entitled to a second term in order that any policy he may have elaborated may be carried as nearly as practicable to fruition.

THE RETURNING CONQUEROR.

Premier McBride is coming back to his own, "a bigger man than ever," one of these days. It is not very certain when the great one will arrive. He has probably withdrawn himself temporarily into a retreat to ponder over the glories he achieved as the valiant champion of British Columbia's rights. But in the meantime another great one—great in the reflected glory of his renowned chief—one who would also be described on sight by Premier Whitney of Ontario as "neither frank nor candid"—is preparing the way for the advent of the master diplomat. The currents which it is hoped will galvanize into a semblance of life the reception movement have been set in motion. As the Times predicted, there is to be a "great popular demonstration" in honor of the victorious champion. It will be the beginning of the campaign the Premier had in mind when, like the hero in the melodrama, he loftily pushed aside an additional subsidy of two hundred and fifteen thousand dollars a year, contemptuously rejected all overtures for a reconsideration of the terms offered, pulled his coat collar tragically up over the lower portion of his classic features, and stalked with the air of a conqueror from the presence of the assembled premiers.

OUR "DEAR" PREMIER.

What is a million and a few odd hundred thousand dollars to a government such as that of Hon. Richard McBride? Has it not given away to favorites of some of the ministers property potentially worth many millions within the last couple of years. It has divided up about equally between the C. P. R. and the Kalen Island adventures of both sexes a portion of the people's heritage whose value we shall more clearly comprehend within the next decade. Therefore it is no wonder the leader of the government regards with contempt a few millions of dollars that might be applied to the relief of the people from the grinding taxes that have been imposed within the past few years, preferring a cry that will save the administration from extinction to the better terms programme recommended by a Conservative provincial premier who was naturally irritated and characterized Mr. McBride in terms the people of British Columbia know to be applicable and appropriate.

It is impossible to say what may be the outcome of the inter-provincial conference. But for the attitude of Premier McBride it would have borne fruit. The federal government was plainly sympathetic, and would doubtless have been disposed to submit to parliament some measure embodying the views of the conference if such views had been harmonious. But in the light of what has taken place and because of the outspoken opposition of many influential men and newspapers, an antagonism evidently intensified by the play-acting attitude of Premier McBride, it may be that the question of better terms may be left in abeyance for the present.

ISLAND SUNSETS.

Have you been on the islands at sunset? When they rest in a silence profound, When the lapping of waves on the pebbles Is the only soft murmur of sound? The bright golden masses of color, Of dotted and speckled with red, Are rounded by darkening blues, With threatening night overhead. The mountains, so gloomy and distant, Encompass the vision, and yet Give dreamings of what is behind them, And what one would strive to forget. The noise and the turmoil of business, The petty, small details of life, Are lost in the soul-resting stillness; Forgotten are trouble and strife. The grandeur of scenery and sunset Overawe you and wondrous you stay, Regretfully counting each second That carries it, sinking, away. Fainter it grows and still fainter, So slowly, as loath to depart, And leaving a feeling of sadness, And loth to creep into your heart. But now it is over, the darkness, For a space at least, has its way; It broods o'er your fancies unconscious, Till you wake to the sunshine of day.

larger percentage of these returns to the provinces.

"Certain newspapers and public men have taken strong ground against the wisdom of increasing the provincial subsidies. Chief among these is the Montreal Gazette, whose opinions were quoted in these columns the other day. The argument is that it is fallacious to imagine that the people of a province can be benefited by enlarged grants from Ottawa because they themselves have to supply the money. It is simply taking the money out of one pocket and putting it in another. Further, it is argued that nothing will so tend to induce a desired spirit of economy in the administration of the provinces as the certainty that continuance in extravagance means direct taxation. There is considerable force in these contentions; and they gain in strength if there is no finality in the arrangement arrived at."

Ottawa Free Press: "A game of selfishness unworthy of the head of a provincial government was that which the premier of British Columbia played in the provincial conference which has just closed. So extreme were the demands of Premier McBride upon the Dominion treasury that the other premiers appear to have become ashamed of him. They were even willing to attempt to secure more for British Columbia than they asked for their own provinces, but this did not satisfy the ambitious young politician from the coast, who finally falling to impress his claims upon them, withdrew from the conference. "The attitude of Premier McBride may possibly make more clear to the public the real nature of the whole business of extra grants. The contention of Premier McBride was that his province contributed more to the federal treasury per head than any other of the provinces. This statement is, at least in part, fallacious. British Columbia takes all of the customs dues paid at its ports of entry as so much money paid by the province into the Dominion treasury by its people, when, in reality, a considerable portion of the goods are consumed by the people of the whole Dominion and the tax is paid by the consumer. Possibly British Columbia's contribution to the federal treasury is larger per head than some of the other provinces as a result of the enterprises in which the people are engaged compelling them to consume a greater quantity of dutiable goods than people of other parts of the Dominion, but British Columbians have compensations for this in various concessions and also in the Canadian Pacific railway which brought them into contact with other portions of the Dominion. Yet no province can expect to get out of the federal treasury the amount it pays in, for there must be something left for the general fund which is absorbed in the usual order of expenditure. British Columbia should have been satisfied with a reasonable allowance, but apparently the need of an election issue has weighed heavier upon Premier McBride's thought than the justice of his claims as viewed dispassionately from a provincial and federal standpoint."

Halifax Chronicle: "Mr. McBride is the youngest of the premiers conferring at Ottawa, and his present attitude in holding up the claims of the provinces may be excused on that account. His obduracy, however, while it may be a pretty grand stand play, may not be profitable eventually for British Columbia."

We say that whatever the demonstrated advantages of any schemes of water supply for the city of Victoria, when it comes to a final choice the Colonist will be found supporting with characteristically specious arguments the acquisition of the Goldstream system. Make a note of this against the day when a choice will be necessary.

Premier McBride will make speech when he returns home and the "boys" have received him with becoming honors. He will give his version of the negotiations, and it is pretty safe to predict it will be neither a frank nor a candid story he will tell.

Winter has commenced early in the East and the South. We have had a degree or two of frost here also. That is the extent to which our climate responds to the movement which is so general in less favored portions of the continent.

Have you been on the islands at sunset? When they rest in a silence profound, When the lapping of waves on the pebbles Is the only soft murmur of sound? GETTING OVER A DIFFICULTY. Lippincott's. An instructor in a certain boys' school is asked among his pupils for his difficult examination question. One of the youthful students, after struggling over a particularly strenuous list of questions in geography, came upon the following query, which completely stumped him: "Name twelve animals of the Polar regions." The youngster scratched his head, thought hard for many minutes, and finally, under the spell of a sudden inspiration, wrote: "Six seals and six Polar bears."

David Spencer Ltd. WESTERN CANADA'S BIG STORE. Bargain Briefs for Wednesday's Wants. Our Monday's offerings of Linoleum had such an enthusiastic reception and success that we are glad to report that we still have 100 ROLLS YET TO BE DISPOSED OF. A few years ago linoleums were only considered SERVICEABLE but in these later times linoleums such as we are showing, have an artistic value equal to any kind of floor covering. So closely in effect do they resemble tiles, mosaic parquetry and even carpet, that many who realize its sanitary qualities and small cost and durability, use it in many rooms in their homes. Combined with rugs, linoleum will suit any room. We are offering Linoleums at 25c, 35c, 50c, 85c and \$1.00 per Square Yard.

Hours before it comes fishes leave the shallow waters inshore and seek deeper water, which in its depths will stay warm and keep an equable temperature after the shallower and surface waters have turned cold. Oh, yes, fishes know a thing or two about the weather.

WEATHER WISDOM OF FISHES. New York Sun. "In their way," said the old fisherman, "fishes are good weather prophets. If a storm is approaching the fish stop biting and they won't bite again until the storm is well over. They appear to know when a storm is coming and when it has really passed. And to fishermen and farmers living along the shore fish foretell the near approach of cold weather. Hours before it comes fishes leave the shallow waters inshore and seek deeper water, which in its depths will stay warm and keep an equable temperature after the shallower and surface waters have turned cold. Oh, yes, fishes know a thing or two about the weather."

PL1614

There will be a sitting of the County court on November 12th. Judge Lampan is expected back before that time and will take the sitting. For County court chambers on Friday next Judge Henderson is expected from Vancouver.

—Corsets.—The reason why we do the largest corset trade in Victoria: First, we have the goods. Second, they are stylish fit and wear. Third, the price is on the rocks. Girdles, 40c; new century, 50c; bathie, 75c. Prices and styles to suit all. Robinson's cash store, 56 Yates street.

—The funeral of Mrs. Clow took place from the residence, Esquimalt, and later from St. Joseph, R. C. church, to Ross Bay cemetery, yesterday. The pallbearers were T. Young, C. Lynch, T. McCarty and E. Fulham. The funeral was conducted by F. Brooks, of the Victoria, undertaking parlors, 35 Yates street.

—A meeting of the Oak Bay municipal council was held last night. Reeve Oliver and Councillors Henderson, Noble Haynes and Hattersburg being present. The meeting was an hour in length, but was chiefly confined to the transaction of routine business. Nothing of importance was brought up under the head of new business.

—Something entirely new. Radically different from, and better than any other towel produced. Made wholly from Egyptian (imported) long fibre cotton and possessing all its fine qualities. Novel effect and handsome appearance. Looks better, feels better, washes better, wears better and altogether gives better satisfaction than any other towel. Wonderfully absorbent, soft and ornamental gold. The tumbled towel marks a distinct revolution in towel manufacture. It is so made as to produce all necessary friction with an utter absence of harshness. The rubber bath towel is sold only at Weller Bros., 33 Government street.

—The biggest hit at the New Grand since its opening was achieved last night by the Nellie Andrews Company, which will be heard all week in excerpts from "Hi Trovatore." It is but very rarely that voices such as possessed by Miss Andrews and her support are heard in vaudeville. From first to last the singers were listened to with attentive and, very evidently, critical appreciation. Miss Andrews, soprano; Henri Gunson, tenor; and William Gordon, basso; took the house by storm with their rendering of solo and concert numbers from Verdi's immortal work. The Misere in particular, with its haunting minor, appeared to touch every hearer, and the great challenge, in which each of the singers was heard to special advantage, was received with breathless silence, which gave way to boundless applause as the last note died away. The rest of the bill is up to the usual high standard. Mildred Newell, assisted by Grace Turner and Mary Tracey, presents a most amusing farce entitled "Last Night." O'Brien and West are above the average as song and dance artists. Paul La-Drew has a very funny old maid act, while Andre is a clever magician. Frederic Roberts sings the illustrated song "Coming Through the Eye, Jemie Mine," and a most amusing line of moving pictures concludes the performance.

—The Metropolitan Magazine for the month of November are a couple of excellent pictures furnished by C. P. Patterson, of the B. C. Photo-Engraving Co. staff.

—Victoria Hive, No. 1, Ladies of the Maccabees, will hold its regular review this evening in the A. O. U. W. hall at 8 o'clock sharp. All officers and members are requested to attend, and members of other hives are cordially invited.

—James Kirby, employed in Bray's livery stable, had his leg broken last evening by a young horse he was driving becoming unmanageable. Dr. Robertson was near at the time and after having the young man removed to the hospital set the fracture.

—This evening the Victoria branch of the Navy League will celebrate the anniversary of the Battle of Trafalgar by a patriotic concert in the Y. M. C. A. rooms. There will be no admittance fee charged. The concert will begin at 8 o'clock and will include patriotic addresses and musical selections.

—Bulletin No. 10 has been issued by the provincial department of agriculture. It is a carefully compiled volume and contains all available information respecting the agricultural possibilities of the respective districts of British Columbia. Every article is profusely illustrated, the best being the work of the B. C. Photo Engraving Company of Victoria. These are really beautiful specimens, and add materially to the appearance of the booklet.

If you are caught in the wet, get sore throat, neuralgia or muscular pain, don't wait for worse troubles. Begin prompt treatment with Polson's Nerviline. It drives away all trace of cold, eases rheumatism, neuralgia and pain, saves you from a lay-up in bed. No 25c. purchase can bring more comfort than a bottle of Polson's Nerviline; it's the cleanest, strongest liniment made. Sold everywhere in large 25c. bottles.

—Men's large heavy ribbed wool shirts and drawers, 75c. and \$1.00 each, also heavy Scotch wool at \$1.00 and \$1.25. Fleeced at 50c. and 75c. Boys all sizes and prices. Robinson's cash store, 56 Yates street.

**EQUAL TO OCCASION.**  
On board one of the Scotch steamers, which have to be built with exceedingly light draft to get over the frequent shallows of one of the rivers in Scotland, a Yankee tourist remarked to the captain, a shrewd old Scotchman: "I guess, skipper, that you think nothing of steaming across a meadow when there has been a heavy fall of dew."

"That's so," replied the captain, "though occasionally we've to send a man ahead with a watering can."

—The weekly rehearsal of the Musical Society will be held to-morrow evening in the city hall at 8 o'clock.

On board one of the Scotch steamers, which have to be built with exceedingly light draft to get over the frequent shallows of one of the rivers in Scotland, a Yankee tourist remarked to the captain, a shrewd old Scotchman: "I guess, skipper, that you think nothing of steaming across a meadow when there has been a heavy fall of dew."

"That's so," replied the captain, "though occasionally we've to send a man ahead with a watering can."

THOROUGHBREDS

BY W.S. FRASER.

CHAPTER XLV.—(Continued.)

"No, you can stay in the bank. I don't think you'll ever listen to the voices again; it's bad business."
Cass sat and stared at the strange man who said those things out of stilly expressionless eyes that were blurred with tears.

"Yes, you can go right on as you have been. It will be understood that the money was found, had been mislaid; I'll think that out. It's nobody's business just now. I run the bank and you take orders from me. Go back to your desk and stay there. I've got to tell Mortimer and Miss Porter that you made this mistake, and Lane, too. I suppose, but nobody else will ever know of it. I was going to make you sign a confession, but it's not needed. You may go now."

"Cass rose, his thin legs seeming hopelessly inadequate to the task of carrying his body, and said, 'Will you take my hand, sir?'"
"Of course I will, just do right from this on, and forget—no, better not forget; remember that there is no crime like weakness; all crime comes from weakness. Be strong, and listen to no more voices. But I need not tell you I know from this out I can trust you further than a man who has never been tried."

At the door Cass turned and looked back at the man who had reached down into the abyss, pulled him up, and stood him on his feet. The man was sitting quite still, his back to the light, his head drooped, and Cass could not see his face. He strove fruitfully for some adequate expression of gratitude, but his senses were numb from the shock of what he had escaped. He simply nodded toward the sitting figure, turned and passed out into the street, where the sunlight baptized him with warmth as though he had been born again.

want any drink. A strong hand had held him by the collar, and the house was rocking violently, and he could scarcely keep his feet.
"Wake up, you're drunk. Is Miss Porter down stairs?"
"Porter, Porter, yesh, Portershi gal; thatsh what I said, Whatsh matter with you?—leg-go. Keep cool, don't get excited."

"Here, get out—go, down stairs!"
And he did, hurriedly.
Crane had followed him down. Allis was standing just within the hall door. "Good afternoon, Miss Porter," he said. "It was good of you to come. I've got something very important to tell you, and it's better that we have quiet—it doesn't seem quite the usual order of things here. Should you mind coming upstairs to the sitting room, where we shall be undisturbed?"

"I don't mind," answered the girl, simply.
"Have a chair," he said, motioning to the one Cass had lately sat in.
"Crane did not take the other seat, but paced restlessly up and down the room; it cooled the fever of his mind. He hopes it isn't more bad news, Mr. Crane," Allis said, for her companion seemed indisposed to break the silence.

"It is," the girl started, "for me," Crane added, after a little pause, "and yet I am glad."
"That sounds strange," Allis commented, wonderingly.
"Whatever I am going to say to you means the destruction of the dearest hope I have in life, but it can't be helped. Now I wouldn't have it any other way."

"Suddenly he stopped 'in his swift pace, faced the girl, and asked, 'You are quite sure you can't love me?'"
He was waiting for an answer.
"No, I can't—I hate to cause you misery, but I must speak the truth, you have asked for it."
"And you've answered honestly. I know it was foolish in me to ask the impossible. Just one more question and then I will tell you why I brought you here. Do you still believe in Mortimer's innocence—do you love Mortimer?"

afraid to be your husband, you master me so easily."
"That's Mortimer coming," Crane said, suddenly, as a step with more consistency in its endeavor than pertained to the hostler's, sounded, coming up the stairs. "I sent for him," he added, seeing the look of happy confusion in Allis' face.

"Come in," he called cheerily, in answer to a knock on the door.
"You sent for me?" Then Mortimer stopped suddenly, and stood staring first at Allis, then at Crane, alternating by back and forth from one to the other.
Crane turned his back upon the younger man and busied himself wondrously over the manipulation of a chair. A strange dread crept into Mortimer's heart; it smothered him; he felt dizzy. Why did Allis look so happy—why were there smiles on her lips when she must know there were shades of gloom in his soul? Why was she alone there with Crane? Was it but another devilish trick of the misfortune that pursued him?

"Good afternoon, Miss—" the words stuck in Mortimer's throat, and he completed his greeting with a most dreadfully formal bow.
The girl laughed outright; how droll it was to see a man trying to make himself unhappy when there was nothing but happiness in the world. Through the open window she could hear the birds singing, and through it came the perfume of clover-buried fields, across the floor strewn with bright sunlight from a blue sky in which was no cloud. And from their lives, Mortimer's and her own, had been swept the dark, cloud-and-here, in the midst of all this joy was her lover with a long, sad face, trying to reproach her with a stiff, awkward bow.

Her laugh trailed Crane about like a top. He saw the odd situation; there was something incongruous in Mortimer's stiff attitude. Crane had a big cloud of his own quite driven from his sky, but a smile hovered on his thin lips. This happiness was worth catching.
Mortimer noticed the distasteful mirth reflected in the other man's face, and he repeated with asperity, "You sent for me, sir—may I ask—"

"Will you take a chair," said Crane, and he pushed the one he had been toying with toward Mortimer. The latter remained standing.
Allis sprang forward and caught him by the arm—Crane turned away, suddenly discovering that from the window the main street of Brookfield was a most absorbing study.
"I'm so happy," began Allis. Mortimer shivered in apprehension. Why had Crane turned his face away—what was coming? How could she be happy, how could anyone in the world be happy? But evidently she was. She stole a quick look at Crane—to be exact, Crane's back, for his head and shoulders were through the window.

Then the girl—she had to raise on her tiptoes—kissed the sad man on the cheek. He was ashamed to say that he stared. Were they all mad—was he not standing with one foot in the penitentiary?
She drew him toward the chair, calling, "Crane says you please tell Mr. Mortimer the good news. I am too happy, I can't!"
A fierce anger surged in Mortimer's heart; it was true, then—his disgrace had been too much for Allis. The other had won; but it was too cruel to kiss him.

ROUTINE BUSINESS AT COUNCIL MEETING

CATHOLIC CEMETERY TO BE PROVIDED

Totem Poles Will Not Be Allowed in Front of Curio Stores in Future.

Half the time at last night's meeting of the city council was taken up with routine business.

A letter was read from the trustees of the Odd Fellows' union, in which the latter stated that, as the city was about to lay a permanent sidewalk on the street in front of the Odd Fellows' hall, which was to be from five to seven inches above the doorstep of that building, the council was asked to consider the advisability of either reducing the proposed height of the sidewalk so that it would not affect the entrance to the hall and the buildings on both sides of it, or of settling by arbitration or other means a certain sum of money to be paid as compensation to the trustees of the hall.

Ald. Stewart suggested that, as the street was a wide one, it should be possible for the sidewalk to be laid so as not to interfere with the entrances. If a raised sidewalk was put down, the city would be liable for any damage done or less caused to the owners of the premises by the sidewalk.

A. J. Garsche, secretary of the Victoria Automobile Club, wrote on behalf of that body asking that the council delay action in regard to local automobile regulations until a deputation from the club had conferred with the Mayor and the city solicitor.

Mrs. Margaret Fields, Blanchard street, wrote saying that the grading of that street had rendered the entrance to her residence very dangerous and had also taken away the support from her garden fence, which was liable to collapse at any time in consequence.

H. Stathagen asked permission to erect a totem pole in front of his curio store as an advertisement. He stated in his letter that others had been allowed to erect poles and he desired the same privilege to be extended to him.

Ald. Fullerton made some strong remarks upon the pertinence of Mr. Stathagen's request. He said that while Mr. Landsberg had been refused permission to erect a pole, Mr. Aaronson had defied an order from the civic authorities to take down his pole, and had not taken any notice of the council's action.

Ald. Vincent said that the city had struggled hard to remove ugly disfigurements such as the old verandahs, which at one time disgraced the principal streets. He thought the council

should take steps to clear away totem poles on the business streets.

Ald. Douglas was of the opinion that these poles were an attraction to tourists and that the city was noted for its curio stores. He thought that there was no harm in permitting their erection.

"There are some people who try to make Victoria a two-penny half-penny tourist town," said Ald. Fell, "but that doesn't concern us. The C. P. R. get all that there is to be got out of the tourist. We want to get these poles off the streets in the same way as we once removed the fish boxes, and other things with which the tradesmen used to litter the sidewalks. And we should not stop at totem poles. We should get after all obstructions and disfigurements."

After a little further discussion it was moved and seconded that the request be refused. Carried.

Ald. Stewart then moved that Mr. Aaronson be given seven days to comply with the city's order to remove his totem pole and to be notified that his failure to do so would be followed by legal proceedings. Carried.

The city clerk reported that communications from J. B. Colbert, J. A. Van Tassel, W. E. Shakespeare, Watson Clark, Wm. Ross and A. J. C. Galletty had been received and referred to the street, sewer and bridge committee.

The plot is original, both in its conception and development, and the characters are clearly drawn and extremely interesting in their naturalness.

THE PACIFIC CABLE.

Interview With General Manager, Reynolds, Who Has Completed Tour of Inspection.

The Pacific Cable Company is prospering and the cable working admirably. In this manner cable matters were described to the Montreal Star by C. H. Reynolds, C. I. E., general manager of the Pacific Cable board in London.

"I remained four months in Australia and New Zealand," said the general manager, "carrying on negotiations with the government of the Commonwealth and the New Zealand government, as a result of the attitude adopted by the delegates at the Pacific Cable conference held in London during July, 1905, at which Sir William Mulock was the Canadian delegate."

"It was recommended at this conference that falling an amicable arrangement with the Eastern Extension Company, the board should enter on a policy of active competition for traffic, and as such an arrangement was not feasible, the principal object of my visit to Australia and New Zealand was to secure for the Pacific route equal facilities for doing business with the public which hitherto were enjoyed by the rival route."

"We have now been successful in acquiring these facilities and the matters stand to-day there are in Melbourne two routes enjoying exactly similar facilities, as the Commonwealth government closed the office of the Eastern Extension Company at that point. This was most advantageous for our company, because at the time when the Eastern Extension Company had an office in Melbourne, and the Pacific Cable Company none, the public almost entirely deserted our rival owing to the greater facilities offered for handling the business which it had obtained. Now that this office is closed, the Pacific gets a much larger proportion of the business. It might be explained that this office was only a temporary affair, and its closure was necessitated owing to the Eastern Company refusing to accept the terms offered by parliament by which the office would have been retained until 1910."

"In the city of Sydney, the Eastern Company has perpetual rights, and we were obliged to obtain the sanction of the government to open an office and conduct business on the same basis as the opposition company. In Perth and Adelaide the Eastern Company have offices of their own under similar perpetual conditions, but the Pacific Cable board, though reserving the right to open in these cities, did not consider it necessary to open the offices at the present time."

"In New Zealand, Queensland and Tasmania the entire cable work is done through the post-offices, and consequently no offices for the companies are needed."

"We found the cable all through in perfect order, in fact, it is still in its original condition. The business of the Pacific Cable Company is steadily increasing, and with the more favorable conditions now obtaining, we hope in a few years' time to carry a great traffic over the wire."

"We are encouraged in this idea owing to the fact that the future will unfold an immense growth of trade between Australia, Canada, Great Britain and the United States, and make the cable self-supporting."

"Although the cable has only been in operation for two years, the amount to be contributed by the governments owning the cable on account of the annual sinking fund payment to the British treasury which represents the capital advanced to lay the cable with interest thereon."

"Indeed it is not hard to say that our condition may be considered very satisfactory because in addition to paying the very great expenses incumbent upon the opening up and development of an enterprise like ours, we are annually putting by a reserve which will enable us to lay a second cable, rebuild ships, and meet other necessary expenses when the time comes."

Saved the Life of Columbus

When Christopher Columbus was in Jamaica he would have died but for the herbal medicines the natives brought him. There is no doubt that the medicinal virtues of herbs and roots that are sometimes conceded when Captain Cook discovered Australia he was amazed by the freedom from disease which the natives enjoyed, in consequence of using certain roots and herbs as medicines. It was in this country that the herbal remedy Bileans was first produced. Their use sprang as their value was made more known, till to-day all over the globe Bileans are a household remedy.

Miss E. Reed, of Kingston (Ont.), says: "I suffered terribly with acute indigestion all last winter. Pain followed all food, with wind spasms, rifting, etc. My sleep at night was fitful and broken and my strength failed. Bileans were introduced to me, and I found relief from their use within a very short time. They have now cured me." Bileans cure constipation without causing griping, cure piles, biliousness, indigestion, sick headache, etc., and give strength and energy to run-down systems. All druggists sell at 25 cents a box, or post free from the Bilean Co., Toronto, on receipt of price.

ASSOCIATION FOOTBALL.

INTERNATIONAL CONTEST.

For the first time in the history of Association football, teams representing the United States and England will meet in the international competition in England next year. Arrangements have been made for an all-American eleven to England in April, 1907, to play against an all-England team. Only one match will be played, and the date will be governed by the date of the cup tie for the British Association championship. The famous Crystal Palace grounds, which will hold over 100,000 spectators, have been secured for the contest, and the game will take place on the Saturday preceding the English cup tie.

Negotiations looking to the completion of the deal have been in progress for some time. It was intended to wait until after the Pilgrim's second trip, which was planned for November and December, but this has been indefinitely postponed. It is intended to select the strongest team possible in the United States to take to England. The selection of the team will be placed in the hands of a committee comprising the heads of the Association football organizations of New York, Philadelphia, Boston, Fall River, Worcester, Lowell, and Springfield, and positions on the team will be open to any one of the best representative team will be selected.

EXECUTIVE MEETING.

On Wednesday evening a meeting of the executive of the Victoria Football Association was held, commencing at 8 o'clock, at the Y. M. C. A. rooms, Broad street. Among the business to be considered is the selection of official referees and to decide protests received from Victoria, and from the Central juniors in regard to the age of a number of North Ward representatives. A full attendance is required.

ATHLETICS.

GENERAL MEETING.

A general meeting of the James Bay Athletic Association will be held to-night for the purpose of arranging winter sports. A full attendance is requested, as it is important that the programme should be outlined as nearly as possible to the satisfaction of all concerned without delay.

LACROSSE CLUB MEETING.

The semi-annual meeting of the Victoria Lacrosse Club will be held on Thursday, the 1st of November, at 8 o'clock, at the Y. M. C. A. rooms. It is understood that owing to the poor support received there is a heavy deficit, this and other matters will come up for consideration.

HOCKEY.

TO PLAY NANAIMO.

To-morrow afternoon a meeting of the Victoria Ladies' Hockey Club will be held at Oak Bay for the purpose of practicing in preparation for a match to be played with Nanaimo next Saturday. The executive is anxious that all arrangements should turn out, as it is important that they should be ready to put a hard, fast combination against the Nanaimo representatives. The latter have been training

faithfully, and the Victoria girls must be ready to put up a determined contest in order to leave the field victorious.

BILLIARDS.

A J.B.A.A. TOURNEY.

Last evening the drawings in the J. B. A. A. tournament were completed. The match will start immediately and all concerned are requested to accept this notice and be prepared to play when called upon.

RUGBY FOOTBALL.

LEFT FOR CALIFORNIA.

Members of the Vancouver Rugby Club who have been selected to meet the Universities of California and Stanford for San Francisco on Sunday. As an offer has been made by the Americans to pay the expenses of another team to the south later in the season it is not improbable that a fifteen will be selected from the players of Victoria and Nanaimo to make the trip. The team which has just departed under the auspices of the Vancouver club follows: Mark Vicars, D. Johnston, E. Marshall, J. Young, C. H. Woodward, E. de Beck, W. Newcombe, E. Snowden, L. Bishop, G. Harris, C. Keenan, W. Hays, Fowler, G. Campbell, D. Kitchie, Roper, E. O'Callaghan, G. Van Horne, and R. P. Woodward.

NEW ILLUSTRATED PAPER.

Canadian Pictorial Films Needed Place in Newspaper Field.

Everybody likes pictures, especially pictures of live interest. And it has been estimated that for such pictures Canadians have up till now had to depend on the high-priced publications from Britain and the United States, which contain a large proportion of pictures and other illustrations of no interest to Canadians. Canada's need in this respect is to be most worthily filled by the Canadian Pictorial which is evidently going to excel, if possible, the high standard set by such publications as the Illustrated London News, the Graphic, Frank Leslie's or Collier's. And yet it will be very much cheaper than any of these, for it has its name and fame yet to make. And though cheap, an issue of the Canadian Pictorial will contain about a thousand inches of pictures, some of them full-page pictures fit for framing, many of them international interest, and none of them inferior. It is indeed being edited entirely from the Canadian point of view, but with a wide horizon, embracing the great world wide interests, the management having secured connections with the leading photographers in all foreign countries. The telegraph and cable being used to secure the photographs at the earliest possible moment. As its name suggests, the Canadian Pictorial will consist largely of pictures of the leading features of the world's news, pictures of world-famous people, in which series Canadian men and women will take their rightful place; pictures of Canadian events and scenes; pictures of Canadian enterprises; pictures of striking and picturesque scenes of children of beautiful things, curious things, inventions; snap shots of animals and photo contests of "Happy or Comical Situations" or news events, with money prizes for the best. Verily, a twelvemonth of the Canadian Pictorial will be worth binding. Its shape is similar to the publications already named above, or about 10 1/2 inches the length. The price is ten cents a copy, one dollar a year, including the remainder of 1906 free.

# BUY BEFORE THE ADVANCE

**A Splendid Investment for Quick Profits. Buy now the Stock of the PITTSBURG-MANHATTAN Mining Company of Tonopah, Nevada. 100,000 Shares--Par Value \$1.00, Fully Paid and Non-Assessable--Offered at 10 Cents Per Share.**

## PROPERTY AND LOCATION.

The most notable facts of the Company are that it owns proven gold and silver bearing land; not only is the ore there, but it is there in quantities, an apparently inexhaustible supply of pay ore. The Company owns the Gregory Group of Five Claims, situated in the Famous MANHATTAN DISTRICT, and also has several Claims in the LONE MOUNTAIN DISTRICT; both these districts are the richest in the WORLD. The tunnels have been opened up on the Lone Mountain Claims and indications point to striking large bodies of high-grade ore carrying values in Gold and Silver.

## MINING HAS BUILT MANY GREAT FORTUNES.

Nothing so surely offers large returns as a good Mining Stock. Probably you do not realize how many people there are who are enjoying a regular income as a result from investing in Mining Stocks. There are thousands of them, and they are largely those who bought their stock when the opportunity was first offered to secure shares at a low price before the company had begun to pay dividends. Stocks of many mining companies have advanced from a few cents a share to prices ranging from \$100 to \$1,500 a share in value, and besides have paid back to the investors in dividends many hundred times what they first invested. Many of the companies are paying from 100 per cent to 1,000 per cent in dividends on the first price of the stock. To grasp this opportunity and purchase stock in the PITTSBURG-MANHATTAN MINING COMPANY at 10 CENTS a share means success to you; and that means houses, good living, travel, education and social privileges for your children. If you do not grasp this opportunity and secure a good share of wealth you are likely to be classed as a failure. The proposition is in the hands of men whose ability and integrity cannot be questioned, and these men pledge themselves to see that each and every investor in the enterprise receives an equal division of the profits. Experts have examined the property, and it is the universal opinion that it has a wonderful future.

## ORGANIZATION.

The Company is organized under the laws of the State of Nevada. Capital stock of \$1,000,000, divided into shares of the par value of \$1.00 each; 400,000 shares are in the treasury which will be sold as required for developments from time to time.

## 10 CENTS PER SHARE, CASH OR INSTALLMENTS.

We want to impress upon you the fact that you don't have to be rich in order to become a shareholder in this splendid Company. The price of shares is only 10c and you can buy as few as one hundred (100), \$10.00 worth. If you are not in a position to pay cash for all the shares you desire to own we will accept a small payment down with the order, the remainder to be paid in five monthly installments. Suppose you want to invest \$10.00 in this Company; simply send us \$2.50 with your order for 100 shares, and thereafter \$1.50 per month for five months and the stock will be paid for. It's very easy—anyone can afford to do this. Almost everyone has enough money in a year to buy them an interest in this Company which would make them independent for life. Send in your order to-day. The following table will show you just how many shares your money will buy, the amount you send if you want to pay all cash, and the plan for monthly payments:

### What Your Money Will Buy

100 shares	\$ 10.00 cash or	\$ 2.50 cash and	\$ 1.50 per month for 5 months
200 shares	20.00 cash or	5.00 cash and	3.00 per month for 5 months
300 shares	30.00 cash or	5.00 cash and	5.00 per month for 5 months
400 shares	40.00 cash or	5.00 cash and	7.00 per month for 5 months
500 shares	50.00 cash or	10.00 cash and	5.00 per month for 5 months
600 shares	60.00 cash or	10.00 cash and	10.00 per month for 5 months
800 shares	80.00 cash or	10.00 cash and	14.00 per month for 5 months
1,000 shares	100.00 cash or	20.00 cash and	15.00 per month for 5 months
2,000 shares	200.00 cash or	40.00 cash and	32.00 per month for 5 months
3,000 shares	300.00 cash or	100.00 cash and	30.00 per month for 5 months
10,000 shares	1,000.00 cash or	200.00 cash and	150.00 per month for 5 months

In offering this stock we present it as a solid and safe investment, not a speculation. The resources of their properties and the amount of rich ore seems so inexhaustible that we recommend the purchase of this stock to every investor.

### SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS.

Any steel numbered section of Dominion Lands in Manitoba, or the Northwest Provinces, excepting 8 and 35, not reserved, may be homesteaded by any person who is at least 21 years of age, or over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less. Application for homestead entry, or inspection must be made in person by the applicant at the office of the local Agent or Sub-Agent.

An application for entry or inspection made personally at any Sub-Agent's office may also be made at the office of the Sub-Agent, at the expense of the applicant, and if the land applied for is agricultural, it must be held until the necessary papers to complete the transaction are received by mail.

In case of "persecution" the entry will be summarily cancelled and the applicant will forfeit all priority of claim. An applicant for inspection must be capable of homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, or who has obtained approval of Department, may relinquish it in favor of father or mother, son, daughter, brother or sister, if application is made in person, on filing declaration of abandonment in writing to the Sub-Agent, at the expense of the applicant, and if the land applied for is agricultural, it must be held until the necessary papers to complete the transaction are received by mail.

If the entry is in good standing and the homesteader is in default, and if subsequently the state-ment is found to be incorrect, the homesteader's rights, should the land become vacant, or if the homesteader becomes a tenant, or if the homesteader is granted it may be summarily cancelled.

By 1885 Act, it is required to perform the conditions under one of the following plans:

- (1) Six months' residence upon the cross of land in each year during the term of three years.
- (2) If the father or mother, if the father is deceased, or a homesteader residing upon a farm in the vicinity of the land entered for, by such homesteader or his representative, as such homesteader, is in possession of such land, or is satisfied by such person residing with the father or mother.
- (3) If the father or mother, if the father is deceased, or a homesteader residing upon a farm in the vicinity of the land entered for, by such homesteader or his representative, as such homesteader, is in possession of such land, or is satisfied by such person residing with the father or mother.

Before making application for patent, the settler must file six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to cultivate the land in each year during the term of three years.

If the father or mother, if the father is deceased, or a homesteader residing upon a farm in the vicinity of the land entered for, by such homesteader or his representative, as such homesteader, is in possession of such land, or is satisfied by such person residing with the father or mother.

A fee must be paid for the land, and if the fee is not paid, the land will be cancelled.

ADVANCE IN WOOD. Dealers in the City Decide to Raise the Prices.

The wood dealers in the city have decided to make an advance in the price of wood to consumers. The new prices will be \$4.50 for long wood, \$4.50 for wood cut into stove-lengths and split, and \$4.50 for blocks without splitting.

On the other hand the general public loudly cry out against the increase in rates. They also take exception to the amount delivered presumably as a cord of wood. It is argued by the consumers that there is not nearly a cord in the load delivered, and they think that the load should be made to conform with the cord measure.

A RESIDENT OF VANCOUVER ISLAND DOUBLES HIS MONEY.

R. L. Drury, Victoria, B. C. Dear Sir:—I am in receipt of your letter enclosing cheque for \$1,011.38 in settlement of my endorsement policy in the Mutual Life of Canada. I take pleasure in expressing my satisfaction with your Company's dealings with me and the good return I have received on my investment. The dividends on my policy were applied to reduce the premiums each year, with the result that I have paid very moderate rates for the protection afforded by the policy. For the last twenty years of the period the average annual cost for carrying the policy has been only \$14.00 per \$1,000, being cheaper than any assessment society could have done at my age, and, in addition, I have received a large return for a total payment of \$38,616, being a return of nearly two dollars for every dollar paid the company. I can heartily recommend the Mutual Life of Canada to all intending insurers.

A lightning wax vesta thoughtlessly thrown from the top of an electric car at Gillingham, Kent, has caused the death of a girl named Elsie Wright, who was about fifteen years of age. The match caught the girl's light summer attire, and she was almost immediately enveloped in flames. Her screams brought prompt assistance, and the fire was quickly extinguished, but not before the girl had been severely burned about the head, face and shoulders.

'CUPID IN POSTERLAND.' Sale of Seats Opened This Morning. Performances on Thursday and Friday.

Usually when playgoers are about to attend a performance at the theatre they first try to gain some general idea of what they are to see. It is very seldom that they allow themselves to risk an evening's enjoyment without some conception of its nature, and now that the day for the first performance of 'Cupid in Posterland' approaches the same question arises and back comes the mysterious answer couched in J. W. Evans' own words, when asked for the 'argument' of the play: 'There is none. A reward is offered by the author for a trace of plot. Mathematicians from fourteen colleges assembled in secret sessions for two suns, and with the aid of eighteen rabbits' feet, known to have been secured in an old cemetery on a dark night by three dark persons, absolutely failed to discover the plot. Others desiring to attempt, please leave name at the 'box office after the last act. Be sure and wait until the last act is concluded as you may change your mind.'

'This oddity is constructed for the purpose of introducing an assemblage of odd and familiar persons that they may do and say odd and pleasing things in song and story. Lady Bountiful presents a garden-party during the first act for this purpose and ostensibly to introduce Old King Cole and from then on it is one continual buzz of life and fun. A general quarrel amongst the lovers necessitates Cupid's interference and with the aid of a kind fairy and all his subjects kneeling in homage, a great sea shell bursts open revealing the little rascal.

The second act shows King Cole's court with a general gathering of entertainers. Eventually Cupid brings together the many hearts of the Posterland Kingdom. With an arrow he punctures a great cloud that strews the lovers with a merry storm of flowers while wedding bells ring. Although the seat sale only opened this morning, lovers of lively, cheerful fun and music were not slow in securing tickets for Thursday and Friday nights, when sixty clever amateurs will sing and dance for charity.

HOW CHILDREN ARE QUICKLY STRENGTHENED. DEVELOP THEM WITH FERROZONE, WHICH MAKES RICH BLOOD, HARDY MUSCLE, STEADY NERVES. Children brought up on Ferrozone are known by their strong, rugged, healthy appearance. Mothers find it an indispensable tonic and body builder, and in thousands of homes no other remedy is used.

EVERY CHILD IMPROVES ON FERROZONE. Mrs. E. Montgomery, of Pittsburg, writes: 'A little niece came to visit me, and noticing her pale and haggard looks, I started her on a course of Ferrozone. The change that girl underwent in a few weeks was marvelous. Her appetite chirped up, she had more spirit and strength, and a rosy color came into her cheeks that I never saw there before. I weighed my niece about the time she started to pick up, and in seven weeks she gained almost eight pounds, and just looked the picture of health. I think this should be an example to many mothers, and I hope that others will try Ferrozone for their little boys and girls. I am thoroughly convinced that it's the most strengthening tonic. It has my strongest endorsement.'

The reason Ferrozone works so beneficially with Ferrozone is that it acts directly on the blood, freeing it of all unhealthy matter, at the same time giving it an additional supply of iron. This at once results in more strength, new spirit and renewed vitality. Just one tablet at meal time works wonders.

Refuse to accept any article the druggist may say is 'good'—Get Ferrozone, and the result we guarantee will be satisfactory. Price 50c. per box or six boxes for \$2.50, at all dealers. Men's heavy tweed top shirts, the biggest in Victoria. Special at \$1.50; also heavy flannel top shirts at 25c., 50c., 60c. and 75c. Robinson's cash store, 86 Yates street. There are, according to M. Quatrefages, seventy-two distinct races of the human species.

SUCCESSFUL EXPERIMENTS DURING BRITISH ARMY MANOEUVRES. The Morning Leader representative, who has followed the fortunes of this war (that between the 'English' and 'Irish' armies) in all its stages, the paper stage, the real man stage, and now the sham fighting stage—has found nothing more interesting or attractive than the side shows. To-day the fight may have been raging furiously on those delicious southern slopes of the Goodwood hills. A whole battery of artillery may or may not have been captured from one side or the other. The man who rivetted attention was that one on the look-out, who went up on a kite at West Hampten to spy the land. It made you feel that you were watching one of the feats that the defunct Dangerous Performances Bill was inspired to suppress.

According to the strength of the wind, low or moss box kites, very much larger than those that children so laboriously fly at the seaside, are sent up, and lift a very strong wire from the earth. What boy, having got his kite to keep aloft without ducking, doesn't love to cut a hole in a piece of paper and send it up as a messenger. The war kite was working on exactly the same principle. A third kite, with a basket car hanging from it, and a man in the car, was carried by the stiff breeze up the cable as jauntily as the paper messenger used to travel up to the common or garden flat-kite of our boyhood. He had a clutch on the cable that was held aloft by the two kites, which enabled him to stop at any altitude he wished, and he used it as a brake when he wanted to come down.

Although the man on the kite has limitations compared with the man in the car of a captive balloon, the experiments would indicate that the military kite can be employed in boisterous weather, when a commander would think twice before sisking the skin of his balloon.

The kites were also used as a signalling station. Strings of flags, each delivering some message to a distant commander, were occasionally run up a few hundred feet in the air, where they fluttered for a moment, and, being acknowledged, came down. There is another novelty with the troops, which we shall probably not see put to the test until to-night—that is a telescopic searchlight. From what is said about it the thing is on the principle of the American fire tower. It shoots up at a great height, and pours a flood of light from on high, just as the fire tower pours a flood of water. The advantage of it in military operations can easily be imagined. In civil life it would be very useful for a policeman to man up in the middle of the street on a dark night and direct the searchlight over the houses into the back gardens, to see that fowl houses were not being raided.—London Leader.
