ENGLAND FEARS GENERAL STRIKE

TROUBLE BREWING IN SEVERAL INDUSTRIES

Boiler-Makers, Miners, Railway Employees, Shipwright and Cotton Operatives in It

(Times Leased Wire.) London, Sept. 10.—England to-day is faced with the danger of a national industrial strike. The repudiation by the boiler-makers' union to-day of the efforts of their leaders to settle the strike between the boiler-makers and the Shipbuilding Employers' Association means a prolonged lock-out, affecting 50,000 men. More than 100,000 others will be idle if the strike is not settled.

SMALL BLAME TO HIM

King of Italy Said to Resent Abrogation of Engagement. (Times Leased Wire.) London, Sept. 10.—So incensed has King Victor Emmanuel become over reports sent out concerning the Elkins-Abruzzi affair that he has ordered the Premier to inquire into all dispatches relating thereto, according to a dispatch from Rome to-day.

STATES SHUTTING THE DOOR AGAINST HINDUS

Secretary Nagel in Frisco Making Preparatory Inquiry—Will Take Action

(Times Leased Wire.) San Francisco, Sept. 10.—Secretary of Commerce and Labor, Chas. Nagel, to-day is looking over the branch of his department here before starting to-night for Washington. Secretary Nagel has in mind a stricter exclusion of Hindus and other immigrants. He also wants to become better acquainted with the local situation before passing judgment on certain charges which have been published regarding immigration officials here. Nagel arrived here last night. He said to-day: "I believe some changes should be made in our immigration rules, and especially in the case of the Hindus. This, in the main, has caused my visit here. Some action probably will be taken when I return to Washington."

EARL GREY'S PLANS

(Special to the Times.) Ottawa, Sept. 10.—Earl Grey is contemplating a voyage in a government steamer to the West Indies next January. To Meet His Excellency. Quebec, Sept. 10.—Countess Grey left at midnight by the ocean liner en route for Sydney, where she will meet Earl Grey on Sunday. Her Excellency was accompanied by Lady Evelyn Grey, Lord Lanesboro and Mr. Sladen. Lord and Lady Grey will return to Quebec in a week's time.

LOOKS LIKE ROCHESTER.

Newark, N. J., Sept. 10.—By defeating Newark yesterday, Rochester virtually insured for itself the possession of this season's Eastern League pennant, for \$19. Only by losing practically every remaining game can Rochester be headed off.

RAINBOW REACHED RIO THIS MORNING

After Coaling Will Start on Voyage Around the Horn for Esquimalt

(Special to the Times.) Rio Janeiro, Sept. 10.—The Canadian cruiser Rainbow, Commander Stewart, reached Rio Janeiro this morning, having crossed the Atlantic from St. Vincent on schedule time. She will coal and proceed around the Horn for Esquimalt.

FIRE CHIEF KILLED

San Mateo, Cal., Sept. 10.—Fire Chief Brown, of San Jose, was killed almost instantly to-day when an automobile, in which he was returning from San Francisco to San Jose, overturned. The accident occurred on the San Bruno road between San Bruno and Colma. The body was taken to Burlingame.

BADLY HURT BUT STILL IN GAME

AVIATOR HAMILTON FELL FIFTY FEET

Had Made a Good Flight When Rudder Jammed—Glenn Curtiss' Trials

(Times Leased Wire.) Sacramento, Cal., Sept. 10.—"I'll fly again as soon as I am able to sit on my seat," was the determined statement to-day of Chas. K. Hamilton, the aviator, who was seriously injured last night when his aeroplane came tumbling to the ground from a height of 50 feet. Hamilton's first thought on awaking this morning was about his big machine. "How are the engines?" he asked a visitor who had been at the grounds when the accident occurred. "Are they broken?" His face lighted with pleasure when he was told they probably were not seriously damaged. Hamilton is much better to-day and, unless internal injuries were received, will soon be well.

CURTIS WILL TRY

Boston, Sept. 10.—Glenn H. Curtiss late to-day will try to win the \$10,000 prize offered for a flight to Boston Light and return, which Grahame White failed to capture last Tuesday. White is preparing for another trial for the prize. While up White will also try for the distance and the duration prizes. If successful in all three attempts it will net him \$14,000.

DEAD IN THE FOREST

(Special to the Times.) Port Arthur, Ont., Sept. 10.—Word has been received from Provincial Constable Campbell at Port Frances that William J. Woods, lumbering contractor, Port Arthur, has been found dead seven miles from that town. There were no marks of violence and heart failure is believed to be the cause of death. Woods was well known here and leaves a widow and six children. The body will be brought here for burial.

BARRY-ARNST RACE

(Special to the Times.) London, Sept. 10.—Ernest Barry says the cable description of his race with Arnet on the Zambesi river is misleading. It was really a very fine struggle.

KNIGHTHOODS GAZETTED

(Special to the Times.) Ottawa, Sept. 10.—The knightships of Sir Geo. W. Ross, Sir Edmund Walker and Sir Henry Bate, conferred in June last, are gazetted officially to-day in the London Gazette.

WINNIPEG WHEAT

(Special to the Times.) Winnipeg, Sept. 10.—Wheat—October, \$1.04 1/2; December, \$0.92 1/2; May, \$1.04 1/2; Cash close—Northern, \$1.02; 2 Northern, \$1.00; 3 Northern, \$0.98; 2 Western Oats, \$0.28; Flax, \$2.47.

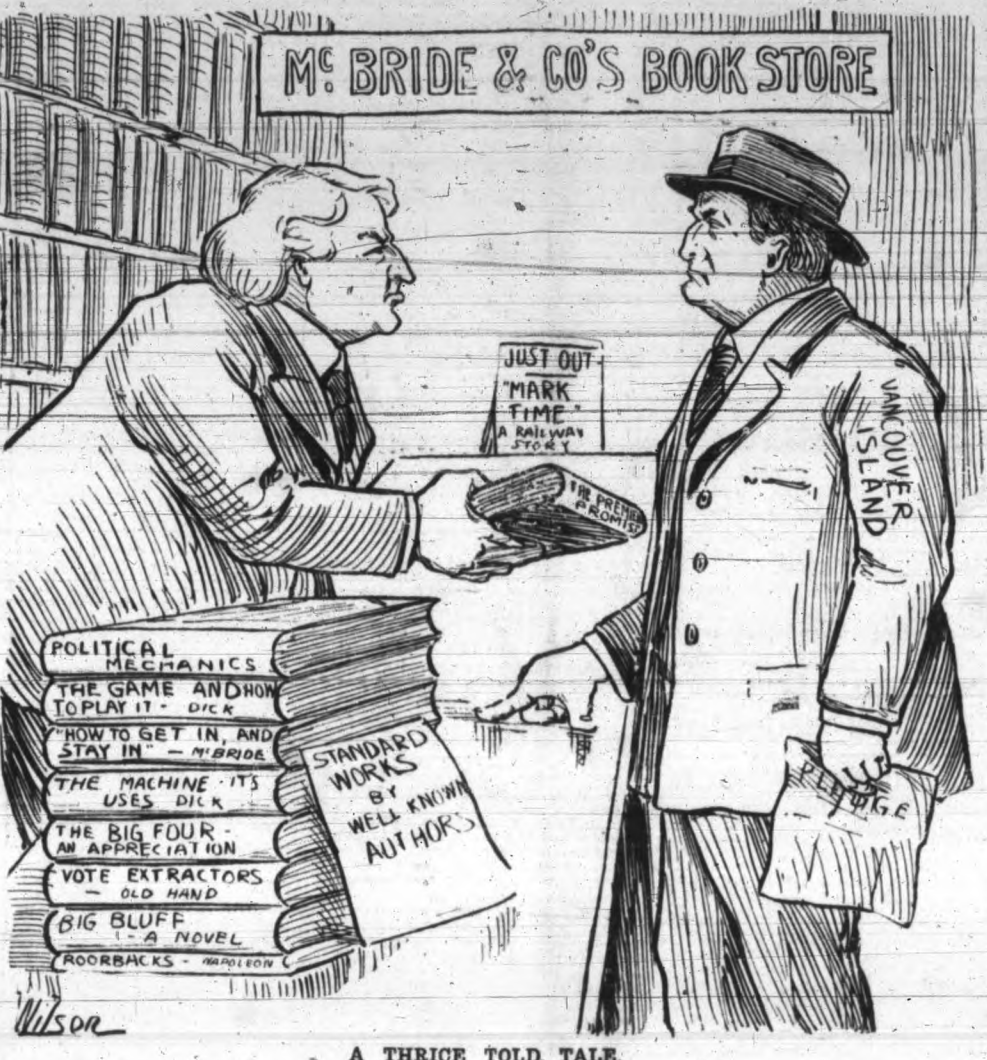

FOOTBALL IN SCOTLAND

(Special to the Times.) Glasgow, Sept. 10.—Following are the results of Scottish league football games to-day: Hamilton, Academy, 2; Glasgow Rangers, 4; Airdrieonians, 1; Motherwell, 1; St. Mirren, 1; Third Lanark, 2; Morton, 0; Kilmarnock, 0.

THOUSANDS WERE AT OPEN-AIR MASS

Solemn and Imposing Scene on Fletcher's Field, Montreal, Yesterday

Montreal, Que., Sept. 10.—The day's proceedings of the eucharistic delegates opened yesterday with the procession of the Roman Catholic young, escorted by Cardinal Vauthier to the immense beautiful altar at Fletcher's Field, near Mount Royal, where, in the presence of 100,000 people pontifical high mass was celebrated by Archbishop Harty, of New York. Archbishop Harty of France and Archbishop O'Connor of Boston preached sermons in French and English from the steps of the altar. The scene was a most brilliant one, the day being perfect, and the bright hues of the dignitaries' costumes formed an excellent contrast with the blue skies and green lawn. The moment was a solemn one when the thousands of faithful knelt to receive the benediction from his eminence. At St. Patrick's church at the same hour Cardinal Gibbons of Baltimore, and Cardinal Logue of Ireland, assisted at mass. At half past ten the business sessions were resumed. There will be a reception to the Cardinal at the arena to-night.

A THrice TOLD TALE. V. I.—"What about 'The Island Railway,' by Bill and Dan? You said you would let me have it months ago?" R. McB.—"My dear sir, don't worry. Let me give you a copy of 'The Premier's Promise,' by McBride, now in its third edition."

HOUNDING THE CITY ENGINEER

Mayor Morley Convenes a Secret Meeting of the City Council and Urges That Angus Smith Be Dismissed—Aldermen Opposed To Proposal Charge His Worship With Personal Animosity

Undeterred by the exposure of his first attempt, to remove City Engineer Angus Smith from office, Mayor Morley last evening organized another secret session of the council at which he sought the unanimous assistance of the aldermen in his plan to oust Mr. Topp's successor.

With the exception of Ald. Langley, who was not present, and Ald. Humber, Fullerton and Bishop, who steadfastly refused to be parties to the proposal, the council favored the mayor's plan of paying the city engineer a year's salary and giving him immediate notice to resign.

Charges and counter-charges were made; the most notable being that of Ald. Fullerton and Humber, who declared that the mayor had informed John Weston, three days after the city engineer arrived, that he would get rid of Mr. Smith "before the snow flies."

Ald. Humber, while admitting that the engineer had not done everything that might be expected, blamed the mayor for Mr. Smith's troubles. The mayor had, contended the alderman, allowed the engineer's subordinates to carry tales about him and had listened to these men instead of ordering them to take their complaints to their superior. Ald. Humber also claimed that the mayor had filled various positions in the engineer's department, before Mr. Smith's arrival, with favorites whose lack of ability it was left to Mr. Smith to discover.

That something was "in the wind" became evident very early in the streets committee meeting when the mayor stated that he did not wish any of the aldermen to leave early as he had an important matter for their consideration. The important matter did not make its appearance during the meeting but, at its adjournment, the news, paper men and City Engineer Smith were informed that the board was about to discuss something of a private nature.

"I object," commented Ald. Fullerton, "to discussing anything but legal matters in private. I think the newspapers should be allowed to hear what is said."

No notice was taken of the alderman's expression, so the press was excluded. Mayor Morley commenced the proceedings by saying that there was no doubt that the city engineer was an incapable man. Complaints had been continually received showing that the engineering work of the city was in a bad state. He personally liked Mr. Smith and thought him a most estimable man, but he was forced, as mayor of the city, to criticize him.

No specific charges were forthcoming when Ald. Fullerton protested against the condemnation of the en-

STATEMENT FROM THE CITY ENGINEER

Angus Smith, city engineer, takes issue with the mayor and certain members of the aldermanic board who charge that serious delays are being encountered in executing the various public works in hand by the civic staff. Mr. Smith this morning authorized the Times to publish the following statement:

"The various public works on behalf of the corporation are all progressing satisfactorily. "The staff of the engineering department is working effectually and energetically; and, although hampered by a late start with many undertakings, all the most important works are well under way."

He said that he would prevent any official doing good work. "The delays which had occurred on various work, Ald. Humber declared, were not by any means wholly blameable on Mr. Smith. The city was losing money through the contractor's failing to keep it supplied with materials to allow of the work being pushed on. The council did not seem to understand the difficulties under which Mr. Smith labored. Since the resignation of Mr. Bryson, his assistant, the city engineer had been forced to do his inside work and also attend to all the outside work. "If you cut Mr. Smith into a thousand pieces," said Ald. Humber by way of illustration, "you could not distribute him all over the city."

AM. Fullerton accused the mayor of having worked against the engineer from the time the latter was appointed. His worship denied the charge, but Ald. Fullerton followed it up with a specific allegation. "Didn't you tell John Weston three days after Mr. Smith arrived that you would get rid of him before three months ago?" "That is a false statement," said the mayor emphatically. "No it isn't," insisted Ald. Humber. "I told you that you had done what Ald. Fullerton says—and I heard it, from two men who were ready to take their oath on it."

The mayor reiterated his denial; and when asked by Ald. Fullerton why he had told the engineer that he had better not buy a house in the city because "he did not know what might happen," his worship said: "I told Mr. Smith that it would be unwise to purchase a house until he got acclimated. I told him it was very wet in Victoria during the winter and that he might not wish to stay after the first of next year."

This explanation was greeted with incredulous laughter by both Ald. Fullerton and Humber. Ald. Fullerton was accused by the mayor of having informed the newspapers of what had happened at the previous secret session when the engineer's downfall was first planned. In reply the alderman vigorously denied the charge, and then took up the cudgels for the engineer. He declared that Mr. Smith had not been given an opportunity to make good. If the mayor and the engineer's subordinates had not been working against him the council might have had an opportunity of judging what he could accomplish. Ald. Fullerton instanced Fire Chief Davis as an official who had been properly treated and had been able to make good in consequence.

"Well, I want to say," said the mayor, "that if Ald. Fullerton had not existed the fire department would have been in as good condition as it now is."

"At this time the expressions of opinion on the part of those present began to come thick and fast. His worship admitted that he had favored the appointment of City Solicitor McDiarmid, but now realized that the solicitor was a good man. Mr. McDiarmid had no better friend than he.

Ald. Fullerton again protested against the mayor's action in taking notice of complaints made against Mr. Smith by the latter's subordinates. "It is my duty," said the mayor, "to hear such complaints."

"Why didn't you refer these men to the engineer? That is what you should have done," said Ald. Fullerton. (Concluded on page 3.)

ROUTE OF THE NORTHERN ON VANCOUVER ISLAND

To Build Via Goldstream, Mill Bay Road, Cowichan Lake; Thence to Coleman Creek on Barkley Sound.

The Times is able to give its readers to-day semi-official information in regard to the route to be taken by the Canadian Northern Railway on Vancouver Island. The ferry will run between Port Mann and Deep Cove, near the north end of the Saanich peninsula, and for some time the B. C. Electric Railway will carry the cars to this city.

The railway between this city and Barclay Sound will take, approximately by the route outlined before by the Times. Leaving the city it will go by way of Goldstream alongside the wagon road, being built by the provincial government to Mill Bay. Thence it will proceed to the Cowichan river and up the north side of the river and Cowichan lake. From that point it will bend to the southward to escape some hills going almost as far as that direction as Nitinat lake and then turning to the right direct to Barkley Sound in the neighborhood of Coleman Creek.

The route, it is claimed, will tap all the best timber country on the south end of the island, and will make the line pay right from the beginning. When the line gets running and the business warrants it, the ferry will be run direct from Port Mann to Mill Bay, and thence to the new ocean port on Barkley Sound. A good grade has been discovered throughout the route, and the road, it is claimed, will be far superior to the E. & N., especially in the matter of grades.

It was expected that the road would have gone to Serita, but it is claimed by the railway engineers that this would mean the building of a piece of difficult road, and would be no advantage to the company, as Coleman Creek

HELD UP OPERATOR. Midnight Robbery at Indian Head Station—Negro Arrested. (Special to the Times.) Indian Head, Sask., Sept. 10.—W. E. Niles, the night operator at the C. P. R. Depot, was held up at 2 o'clock this morning while at work in the railway office and robbed of some \$20 in cash. Niles, while at his duty, found two revolvers pointed in his face and a man with a black mask behind them. He was ordered to hold up both his hands and back up, when the robber went to the till and took its contents, amounting to some twenty dollars. He then ordered Niles to hand him over the cash in his pocket, amounting to \$10. The robber then decamped. A Negro was arrested by the police shortly after, just as he was trying to board a freight.

WORK FOR PARLIAMENT. (Special to the Times.) Ottawa, Sept. 10.—The first notice of private legislation, apart from divorce bills, for the next session of parliament, has appeared. The Hudson Bay Mortgage Company, of Vancouver, will seek a bill of incorporation with general powers of a loan company.

IMPERIAL SERVICE MEDAL. (Special to the Times.) Ottawa, Sept. 10.—The Imperial service medal has been granted for long and meritorious service to Thomas Carr, laborer on the Cornwall canal, and Walter W. Smith, corporal of the Northwest Mounted Police.

CHIEF JUSTICE SAILED TO-DAY. (Special to the Times.) Liverpool, Sept. 10.—Sir Charles Fitzpatrick, chief justice of Canada, who was a member of the fisheries arbitration tribunal at The Hague, sailed on the Empress of Britain to-day for home. Baron and Baroness Mitsui were passengers by the same steamer.

CONGRATULATIONS TO NEWFOUNDLAND Foreign Secretary Makes Official Announcement—Award Will Be Accepted. (Special to the Times.) St. Johns, Nfld., Sept. 10.—Governor Williams, of this Colony has received an official cablegram from Sir Edward Grey, secretary of State for Foreign Affairs for Great Britain, acquainting him with the receipt of a formal report from Hon. A. B. Aylesworth, Canadian Minister of Justice and British agent before the Hague tribunal in the fisheries dispute between Great Britain and the United States recently decided there. Mr. Aylesworth described the award as "in favor of Great Britain on all questions of main importance." The foreign secretary adds that he "desires to tender at once to your government my most hearty congratulations on this point."

Will Accept Award. The Hague, Sept. 10.—It is intimated that representatives of the United States and Great Britain have decided not to question the finding of the arbitration tribunal but to accept the award in all its details binding both nations.

offers just as good advantages for railway terminals and shipping as does the other place. There is a large tract of level land which will be utilized for townsite purposes and which can be secured for practically nothing, whereas the Serita townsite would have to be purchased from private owners.

While it has not been so announced, it is understood that the C. P. R. will hand over their proposed Cowichan branch charter to the Canadian Northern and that the latter company will handle the lumber carrying contract for the American Securities Company which recently purchased a large tract of timber from the C. P. R. It is also understood that an arrangement has been made with the C. P. R. for the right-of-way through the E. & N. land belt.

There are now five survey parties in the field, and these are likely to be busy for a week or two yet, and thus it will be impossible to make a definite announcement of the detailed route until the reports from them have been received. Everything is settled with this exception.

Accompanying the announcement of the route to be taken will be another stating that construction work is to be commenced this autumn and will continue throughout the winter. Probably construction will commence from Mill Bay to the lumber areas, and the road will be practically a lumber road at first until the construction of the whole is completed.

The American Securities Company is anxious to commence work on their limits, and construction work will be rushed in order to allow the lumber to be shipped to a mill which is to be erected on tide water.

FINANCE MINISTER BACK FROM EUROPE

Later on Cabinet Will Hear What United States Has to Offer for Reciprocity

(Special to the Times.) Ottawa, Sept. 10.—Hon. W. S. Fielding, who returned yesterday from Europe, disembarked at Quebec and went directly to Chester to visit his family. He is not expected in Ottawa for ten days or a fortnight. It is stated officially that until his return there will be no reciprocal negotiations with Washington. The premier says he is ready to negotiate, but it is denied that he has taken any initiative.

Whether President Taft will move at once or await the conclusion of the election campaign remains to be seen.

FAILED TO TRACK. Suspected Murderer Believed to Have Taken Train to Seattle. Bellingham, Wash., Sept. 10.—In spite of the hot pursuit of a pack of bloodhounds and a posse of sheriff's deputies, George Reid, charged with the murder of his wife at Clayburn, B. C., last Tuesday, is believed to have escaped to Seattle. Several people knowing the fugitive declare that he was seen to board a train Seattle-bound at 7 o'clock last night. The bloodhounds' trail ended at the Northern Pacific tracks.

CIRCLED ST. PAUL'S DOME. Aviator Flies Over London and Covers Fifteen Miles. (Times Leased Wire.) London, Sept. 10.—Two million persons to-day saw Crust Willows fly around the Crystal Palace, twice circle St. Paul's dome and twice cross the Thames. Willows covered 15 miles. Not once during the flight did he cross a spot that would afford him a safe landing place. He was compelled to circle back to the Crystal Palace garden to alight.

BUILDERS' TROUBLE IN WINNIPEG OVER

But Public is a Little Doubtful as to Whether It May Not Be Resumed. (Special to the Times.) Winnipeg, Sept. 10.—The return to work of the bricklayers and masons on Peter Lyall's contracts this morning was a certain indication that the trouble between the union and the builders' exchange had been smoothed over. It is expected that every bricklayer and mason in the city will be at work Monday morning.

No one is prepared to offer a guess as to how long the smoothness will last, and in view of previous assurances that went wrong, the situation cannot yet be regarded with satisfaction. The real reason for the trouble has not yet been divulged clearly, and as the excuse for the lockout has not been made plain, the public is not sure when another rumour of a similar sort may not be precipitated.

ANOTHER SALE NEAR NEW THEATRE SITE

House and Two Lots Fetch \$17,000 on Elliott Street—Many Other Sales

Properties continue to change hands in the neighborhood of the parliament buildings. There is evidently a demand for lots just there for apartment house and other purposes. This will be always a busy part of the town no matter in which way the rest of the city grows. The latest sale to be made there recently is of the house which was built some years ago by Mr. Michaels, just at the rear of what is expected to be the theatre site. The price paid for the house and two lots was \$17,000, the deal being put through by Captain D. McIntosh.

Besides the above Captain McIntosh has sold recently five lots on Faithful street in the Fairfield Estate at \$500 each, and two lots on Moss street at the same price. A number of sales have been made recently by L. W. Bick, among them being two houses on Burdette avenue; a block of eight lots near the Mount Tommie car line; a house and lot on Simcoe street; house and lot, North Park street; two lots Cecelia street; 43 lots to one purchaser in the Port Alberni township, and a number of lots in different parts of Victoria and district.

The general opinion around town is that a general movement has commenced which will continue throughout the autumn and winter, and that in the near future there is likely to be an advance of prices in certain districts. D. H. Hale has been awarded the contract for a modern bungalow residence for Mrs. E. J. Wilson to be built on Mason street. A sewing meeting of the Ministering Circle will be held at the Fort street rooms on Monday afternoon, at 2:30 p. m. It is especially requested that there shall be a large attendance. The funeral of the late Eliza Hope Shakespeare will take place on Monday afternoon at 2 o'clock from the family residence, 421 Wilson street, Victoria West, instead of at 10 o'clock as announced in another column. At the Victoria theatre on Monday evening Huron L. Blyden and his associate players will be seen at their very best in "Are You a Mason?" the funniest of all farce comedies. With a full cast, rich scenic effects, and a faithful interpretation of the respective parts it will be an evening of unalloyed pleasure. There is every promise that there will be a large attendance at the official opening of the Tranquille sanatorium on September 14th. The programme as officially arranged is as follows: 10 to 12 a. m., inspection of building and grounds; 1 p. m., lunch; 3 p. m., formal opening of new building; 6:30 p. m., dinner; 8 p. m., informal concert. Orders for accommodation may be left at D. E. Campbell's drug store. The Centennial Adult Bible Class held their monthly business meeting last Wednesday evening with the president in the chair. Reports were read from the officers of the last six months and some very good plans were presented for aggressive work during the coming term. The Bible class meets every Sunday afternoon at 2:30 in the parlour of the Centennial church, Gorge road. Special efforts are being made in the preparation of next Sunday's lesson to make the session unusually interesting. Visitors and strangers are cordially invited to come and visit the class. Members of St. Andrew's Society are looking forward to spending a pleasant evening on Monday when the third of a series of smoking concerts inaugurated recently will be given. The concert will commence at 8:45, by which time the regular business will have been concluded. Refreshments and smokes will be provided, and a first class concert programme has been arranged. The success of former smokers has been most encouraging, and the committee feels justified in continuing these entertainments throughout the winter season.

DOWN WITH TYPHOID. Seven Officers of Queen's Own Rifles Are Stricken. (Special to the Times.) London, Sept. 10.—Captain R. Pellatt, of the Queen's Own Rifles, is critically ill with typhoid fever here, but there are no complications. Six other officers, including the medical officer and his secretary, have been stricken with typhoid and are now in the hospital. Col. Pellatt, in the course of an interview said that during the week after the officers had dined with the Eighth Royal Rifles at Quebec some of them had been taken slightly ill. Scarcely symptoms developed later on and before long typhoid had been reached by all. None of the men were sick. Col. Pellatt added that the British climate suited the regiment thoroughly. He put all the blame on the experience at Quebec.

CRAZED BY FEVER. Boy Fled Across Field and Is Likely Drowned. Sandy, Ont., Sept. 10.—Shouting: "The ghosts are after me," John McDonald, a 17-year-old boy, dashed into the home of A. C. Bombay, a neighbor, at midnight, then rushed out the back door and fled across a field towards the Sandy river, where it is believed he was drowned. A searching party was organized today and the youth was traced for a mile. His tracks were lost near a cliff which overhangs the stream. McDonald was dressed only in his night clothing. It is believed that he was temporarily deranged by typhoid fever, from which he was suffering. McDonald's mother is prostrated over his disappearance.

LEAVES FOR TORONTO. (Special to the Times.) London, Sept. 12.—Doctor Griffith Thomas, of Oxford University, will sail for Canada on Thursday next to take up his new work with Wycliffe College, Toronto. There will be a farewell dinner at 7:30, a substantial presentation at Oxford prior to his departure.

ISSUE WARRANT FOR A REST

POLICE ANXIOUS TO SECURE W. J. BALCOM

Alleged to Have Victimised Local Firm by Cashing Fraudulent Cheques

A warrant was issued yesterday afternoon for the arrest of W. J. Balcom, whose business tactics have brought him under the eye of the police for some time past, and who is charged with obtaining \$500 from the firm of Moore & Whittington by means of a valuable cheque.

Balcom came to Victoria about the beginning of June and went to Stewart & Co. He returned from Stewart in about four weeks and chartered the steamer John L. Card to take cargo to Stewart. While loading under his charter, the John L. Card sank in a mysterious manner. The ship was eventually raised and took the cargo to Victoria, where it was landed. Balcom was eventually raised and took the cargo to Victoria, where it was landed.

On his return here he cashed a cheque on the Stewart bank which was issued by the Stewart bank when Moore & Whittington and left the same night for Vancouver, giving the statement out that he was en route for Stewart. The morning of the day he left Victoria he negotiated the cheque at the Pacific Coast Construction wharf at the foot of Johnson street, and gave instructions for painting "Balcom Shipping Line" as a sign on the wharf buildings.

From the time of his arrival here he commenced shipping goods to Stewart on his own and other accounts. Cheques issued by him in the firm name for payment of these goods have been returned from Stewart, from where Moore & Whittington and left the same night for Vancouver, giving the statement out that he was en route for Stewart. The morning of the day he left Victoria he negotiated the cheque at the Pacific Coast Construction wharf at the foot of Johnson street, and gave instructions for painting "Balcom Shipping Line" as a sign on the wharf buildings.

The business operation on which the charge is based is as follows: Balcom owed Moore & Whittington \$100. He paid the account with a cheque for \$100 on a Stewart bank, which was cashed by Moore & Whittington for the balance of \$100. Moore & Whittington accommodated him, and Balcom cashed the cheque, which he received the day he left town, at the local bank. Since then Moore & Whittington have been returned through the Stewart bank.

CONVICTED OF MURDER; CANDIDATE FOR OFFICE

Caleb Powers Likely to Get a Nomination for Congress in Kentucky

(Times Leased Wire.) Barboursville, Ky., Sept. 10.—Caleb Powers, the central figure in one of the most remarkable tragedies of American political life, is to-day making a strenuous primary campaign for the Republican nomination for congress with every prospect of winning the nomination.

The return of Powers to public life recalls the assassin of Gov. William Goebel of Kentucky, who was killed by a rifle bullet shot from some distance. Powers was arrested and convicted of complicity in Goebel's murder. He was convicted three times, twice sentenced to death and finally sent to the penitentiary under a life sentence. Governor Wilson pardoned him after a disagreement of the jury at Powers' fourth trial. Powers charged that his conviction was due to the fact that he was a political enemy of Governor Goebel. When he was on trial political feeling ran high.

DOWN WITH TYPHOID. Seven Officers of Queen's Own Rifles Are Stricken. (Special to the Times.) London, Sept. 10.—Captain R. Pellatt, of the Queen's Own Rifles, is critically ill with typhoid fever here, but there are no complications. Six other officers, including the medical officer and his secretary, have been stricken with typhoid and are now in the hospital. Col. Pellatt, in the course of an interview said that during the week after the officers had dined with the Eighth Royal Rifles at Quebec some of them had been taken slightly ill. Scarcely symptoms developed later on and before long typhoid had been reached by all. None of the men were sick. Col. Pellatt added that the British climate suited the regiment thoroughly. He put all the blame on the experience at Quebec.

CRAZED BY FEVER. Boy Fled Across Field and Is Likely Drowned. Sandy, Ont., Sept. 10.—Shouting: "The ghosts are after me," John McDonald, a 17-year-old boy, dashed into the home of A. C. Bombay, a neighbor, at midnight, then rushed out the back door and fled across a field towards the Sandy river, where it is believed he was drowned. A searching party was organized today and the youth was traced for a mile. His tracks were lost near a cliff which overhangs the stream. McDonald was dressed only in his night clothing. It is believed that he was temporarily deranged by typhoid fever, from which he was suffering. McDonald's mother is prostrated over his disappearance.

LEAVES FOR TORONTO. (Special to the Times.) London, Sept. 12.—Doctor Griffith Thomas, of Oxford University, will sail for Canada on Thursday next to take up his new work with Wycliffe College, Toronto. There will be a farewell dinner at 7:30, a substantial presentation at Oxford prior to his departure.

CERTIFICATES PRESENTED AT BOYS' CENTRAL SCHOOL

Successful Candidates at Recent High School Entrance Examinations

The senior classes of the Boys' Central school assembled in the gymnasium of that institution yesterday afternoon to witness the presentation of certificates to the successful candidates at the recent High school entrance examination. Honor rolls were also presented to those entitled to them, as was also a handsome gold medal for the head pupil of the school for the past year. This medal was presented by Trustee Stansland and was won by Robert S. O'Meara. Mr. Stansland in a few words complimented the past year's entrance class upon its success, and particularly Master O'Meara upon his splendid effort. In commending his remarks Mr. Stansland announced that he would present a medal to the head pupil of the school for the current year.

Mr. Stansland's remarks were heartily applauded by the youthful audience, who were not slow in showing their appreciation of his kindness. Honor List, Div. I.—General proficiency, Robert S. O'Meara; deportment, Harry McKel, respectively; and substantially, James P. Cameron, Edward Andrews, Harry Brown, Cyril Harrison, Marshall Henderson, Wong Bing Ken, Clarence Lee, Wm. McKay, Samuel Youden.

A CITY IN MOURNING. Drowned Ferry Crew Were From Same Town. (Times Leased Wire.) Ludington, Mich., Sept. 10.—This little city is in deep mourning to-day for the victims of yesterday's disaster to the Pere Marquette railroad car ferry. Almost everyone of the men who lost their lives lived in Ludington. Survivors of the wreck tell thrilling tales of the heroism of members of the crew. The lives of at least ten persons, they say, were saved by the daring of their comrades. An official investigation of the disaster has been ordered by the railroad of Michigan. It is not believed, however, that much light will be shed on the affair.

BALLINGER CONTROVERSY. Minneapolis, Minn., Sept. 10.—The decision of the anti-Ballinger members of the congressional investigating committee to ignore Chairman Nelson's order to meet in Chicago next week, if carried out, will leave the pro-Ballinger members of the committee in no better shape than their opponents. Without the bolters they will be unable to muster a quorum. It is believed here that the Ballingerites will adopt a report at their Chicago meeting which later will be signed by Senator Flint, of California. In this event, they will have a majority of the committee, rendering their report a majority report. The Chicago findings, it is believed, will be published immediately after adoption. Before adjourning to meet in Washington, December 2, the anti-Ballingerites reiterated formally their claim that the meetings they have held in Minneapolis are legal, and that they constitute a committee under the congressional authorizing resolution. They elected Representative Graham temporary chairman of their committee.

BORN AT SEA. Liverpool, Sept. 10.—Mrs. Skedmore, of Shelburne, Ont. gave birth to a child on board the Virginian on the last day of the voyage from Montreal. Both are doing well.

BORN. JOHNSTON—On Sept. 5th, 1910, the wife of W. J. Johnston, 425 Cook street, of a daughter.

FREIGHT RATES TO BE ARGUED IN MONTREAL

Railway Commission Appoints a Meeting There for January Next on B. C. Case

Vancouver, Sept. 10.—The railroad commission completed its work here late yesterday and left for Nelson afternoon, where it holds its next sitting. In the application of the Vancouver Board of Trade and coast cities regarding alleged discrimination by the C. P. 2. in freight and passenger rates, it was ordered that the next hearing of the question be held at Montreal in January. During the argument on the rates

question W. A. Macdonald, K. C., stated that the board of trade was satisfied that the first hearing should be at Montreal, but he asked the commissioners that an order be issued instructing the railway company to produce certain information; otherwise they would naturally prepare statistics made out from their own point of view which he would have to refute and thereby delay the case further. For instance, he said he wanted to know the amounts of freight passing over local divisions, both local and through freight. The railway company admitted that the rates came within the discriminatory clause and sought to justify this. Chairman Mabee did not think it necessary to make this order, but stated that Mr. Macdonald would get all the information required at Montreal to be able to present his case intelligently.

FALL FAIR TO BE BIGGEST YET

MANY ENTRIES ARE BEING MADE DAILY

Monday Last Day on Which Exhibitors May Enter in All Classes

Monday will be the last day on which entries will be received for the big fall fair which is to be held here commencing September 27th. Secretary George Sangster has been kept very busy during the last day or two taking entries from all and sundry. A number have arrived by mail, but at times the office in the Law Chambers has been crowded with groups of women entering their bread, garden produce, or some other product, and the secretary's tongue had to wag at a sixty-mile tick to keep pace with the crowd.

The show is going to be a big one, the biggest ever held in the city. The big circus will in itself be sufficient to insure a record attendance. This circus is one of the finest on the continent. It is a big three-ringed affair with ten carloads of trained animals. All those who have seen it in Alberta speak most highly of the performance. There has not been a circus in the city for a number of years and everyone will want to see it. It will be held right in the centre of the race track, and will be open only to those attending the fair.

Among the interesting entries which have been received are 23 from Count Goo, de Roides and H. du Bern of Kew, Alberta. These exhibitors are absolutely new to this province and the saddle horses, steeple chasers and other horses will be something seldom seen. There will also be an entry from these people in the broncho busting contest. A few of the horses will be for sale. There will also be a carload of Percheron and Belgium stallions just imported from the Old Country. These come from Olds, Alberta.

E. R. Ricketts, one of the most popular men and finest sports in the country, will have a number of entries.

There are already a number of fruit entries, but most of the big growers are yet to be heard from. A number of new orchards are bearing this year, and it is confidently expected that the exhibit of fruit will be larger than has ever been made here before. This is a fruit district and it is up to the grower to demonstrate this in their exhibit.

Broncho busting is to be one of the big features. Fifteen competitors have already indicated their intention of taking part, and a carload of bronchos are being specially imported from the ranges of Alberta.

The ladies are taking great interest in the offer of prizes by the society for the best decorated box at the Horse show. A number of entries have already been received for this, but there will be more yet. The three prizes for this aggregate \$75.

THIRTY WENT DOWN IN FERRY

TWO RESCUERS WERE AMONG THE NUMBER

Believed That Compartments Must Have Filled, Causing Vessel to Founder

Ludington, Mich., Sept. 10.—Thirty lives were lost yesterday when the Pere Marquette ferry No. 18, bound from Ludington to Milwaukee, went to the bottom of Lake Michigan. The dead include Captain Peter Kilty, of Ludington; S. F. Szepanek, of Chicago, the purser and the wireless operator whose assistance in distress brought assistance to the sinking steamer, and two members of the crew of ferry 12 who lost their lives in an effort to rescue the crew of No. 18. J. E. Colbean, of Saginaw, Mich., a member of the crew of No. 18, would make a thirty-first victim, but it is believed he was not on board when No. 18 foundered.

Among the dead are: Peter Kilty, Ludington, Mich.; Joseph Berezinski, Manitow, Wis.; W. H. Brown, second mate, Ludington; G. F. Szepanek, Worcester, Mass.; E. R. Leedham, chief engineer, Ludington; C. Chalmer Rencraux, assistant engineer, Northport, Mich.; Paul Rennere, second assistant engineer, Ludington; J. MacSteward, Westfield; N. L. Bertrand, passenger, Ludington; Michael Haythaler, fireman, Forestville, Mich.; Samuel Doupele, fireman, Riverbourn; N. S. W. Mr. Parker, Marine City; S. W. Marlon Turner, cabin-maid, Ludington; Peter Hite, watchman, Ludington; P. Balken, wheelman, Ludington; Joseph Marion, scrubber, Ludington; Tom Kelly and B. Brother, stowaways, Detroit; F. Warner, Chicago; Jacobson, seaman, residence unknown; Charles Jensen, oiler, Ludington; Joe Peterson, watchman, steamer number 17; Jacob Jackson, scrubber, steamer number 17, Ludington. The steamship company issued a list of 45 names of the survivors of the

Abbey's Effervescent Salt
A sensible man takes out rheumatic kinks with a morning draught of Abbey's Salt. What do you do with them? 25c and 60c. Sold everywhere.

wreck all members of whom were brought here to-night on Pere Marquette number 17. Eight bodies were recovered. The cause of the disaster is a mystery. Among the survivors the conclusion seems to be that the car-ferry's after airtight compartment filled through an open or broken deadlight, which was followed at the last minute by a bursting of bulkheads.

SOCIAL AND PERSONAL

A Lockey is among the visitors in town from Dunbar. Mr. and Mrs. John Worth are visiting friends in Portland. Arthur Ward, Ganges, is spending a few days in town on a visit. Mrs. E. J. Wilson is about to erect a residence on Mason street.

A. G. McCandless is among the Vancouver business men in the city. Mrs. M. Malcolm left yesterday on a visit to friends in Bancroft, Idaho.

Jas. McEneaney, Fort George, spent yesterday in this city on a business trip.

Messrs. T. E. Harris and H. Kirby, Otter Point, are spending the week-end in town.

S. Bunting, Stewart, arrived from the north yesterday and is registered at the King Edward hotel.

Mrs. A. H. Sholtz, 2313 Quadra street, will receive on the second Wednesday of each month.

Mr. and Mrs. C. Bethune, formerly of Victoria, now of Vancouver, are holidaying at Lake Louise and Banff.

Mrs. Longford and Mrs. F. W. Peters, of Winnipeg, who are touring the coast cities, are making a short stay here.

A. C. Flumerfelt has gone to Coleman, Alta. to inspect the mines of the International Coal and Coke Company.

Mr. and Mrs. L. Overton left today en route for Montreal, where they will sail by the Megantic of the White Star line, for Liverpool.

Mrs. John Goodyear and Miss May Goodyear, Los Angeles, arrived in town yesterday and will be the guests of friends for some weeks.

Mr. and Mrs. Frank Watson, who have been enjoying an outing with friends at Cadboro Bay, returned today to their home in Seattle.

Hon. Price Ellison left this morning for Vancouver, where he will be busy today and leave tomorrow for Vernon in company with Hon. Dr. Young.

Mrs. I. W. Powell leaves today en route for England, where she will make an extended stay. She will be accompanied as far as Montreal by her son, B. W. Powell.

Mrs. W. G. Hay was the guest of Mrs. W. K. Griffin during her stay in Vancouver, where she was a delegate to the Woman's Council. Mrs. Hay returned to town on this afternoon's boat.

Mrs. Rochfort has returned from an extended vacation trip to California. Messrs. William and Henry and Miss Charity Rochfort went to Seattle to meet their mother and returned with her yesterday on the steamer Princess Victoria.

The many friends of W. L. Chaloner will learn with regret of his illness. For the last ten days he has been confined to his residence, 1659 Oak Bay avenue. Yesterday his condition was reported as much improved, but it will be at least a week before he will be around again.

Miss Lettich left today en route for Grand Rapids, Michigan, where she will be the guests of her sister, Mrs. Currie. Before returning, Miss Lettich will attend the annual convention of the King's Daughters to be held in Ottawa in October. She will be accompanied on the trip by her cousin, Mrs. Leslie Henderson, Vancouver.

W. T. Whitehead, of Fredericton, and Mrs. Whitehead are in the city on a visit. Mr. and Mrs. Whitehead are the parents of Mrs. Shute, whose husband is the manager of the Royal Bank here. Mr. Whitehead was until recently manager of the New Brunswick Railway Land Company, but he retired from the position last February, his health not being quite satisfactory. He was a member of the New Brunswick legislature and was offered

THE WATER QUESTION.

The Times is willing to give all who have opinions on the water question an opportunity to express their views through its columns. But correspondents who cannot refrain from throwing insinuations at the motives of persons who favor the acquisition of the works of the Esquimalt Water Company must expect to have their communications thrown into the pidge prepared for all such documents.

tions and whose bona fides are beyond suspicion, including engineers in the service of the Dominion government, and the fact has been established that there is sufficient water available there to meet the requirements of a greater Victoria than any one at present living is likely to see.

It is depressing to observe the division of opinion which has arisen over this question, so vital to both health and progress. It does seem impossible for us to come together when issues arise upon which all the people should be agreed.

WILL M'BRIDE SUCCEED BORDEN?

No better illustration of the value of advertising could possibly be given the public than the case of Premier McBride of British Columbia. This we do not postulate in any spirit of adverse criticism.

Perhaps it is time there was a change at the city hall, but it is doubtful if the people can be convinced that the change should be in the position of city engineer. It is simply disgraceful the treatment to which Mr. Smith has been subjected since he entered the service of the city.

Earl Grey is evidently determined to have a good time during his last year in Canada. The Governor-General has just completed a trip through part of our former Great Lone Land.

What Other People Think

JUSTICE, IN BRITISH COLUMBIA. To the Editor:—The above question is asked by Mr. E. D. D. Allan in last evening's Times, that he was criminal-ly shot near a year ago when out hunting, and in a cowardly manner left to die by the perpetrator.

speeches entered upon a direct controversy with Mr. Roblin concerning the boundary extension dispute. In British Columbia it was different. Crossing the boundary from Alberta, Sir Wilfrid got a telegram of welcome from the Conservative Premier, Mr. McBride.

That Victoria is growing rapidly is eloquently demonstrated by the school attendance returns for the term just opened, which were issued this morning by E. B. Paul, city superintendent.

ALLEGES CONSPIRACY AGAINST THE DALLAS

Statement Made in Police Court This Morning in Liquor Selling on Sunday Case

Solicitor J. A. Alkman, appearing in the police court this morning for Isabelle Patterson, licensee of the Dallas hotel, who was also present, said, in defence of an action brought against the licensee of selling liquor on Sunday last, that there was a conspiracy against the hotel licensee.

The centre of population in the United States is also moving westward. Indiana was for many years the pivotal point, but the census will shift it along further towards the setting sun.

DANISH PRINCE AND CRETE.

A rumor is circulating in Turkish official circles in Constantinople to the effect that the idea of a conference for the establishment of an autonomous regime in Crete has sprung up again, and that the candidacy of a Danish prince as ruler of the island has even been suggested.

DANISH BUTTER EXPORTS.

Mention is made in a Consular report on the trade of Denmark that butter in that country decreased in price during 1909, the official quotation of average price being about 15 1/2, which was about 2c less than 1908.

A LOVER OF JUSTICE. MAYOR AND ENGINEER.

To the Editor:—Can it be true that His Most Gracious Worship the Mayor has again commenced an attack on our city engineer?

After the manner in which the Mayor's wickedness was exposed by you a few weeks ago, I could hardly believe my eyes when I read this morning that he is again meddling with matters of which he knows so little.

OBITUARY RECORD

The remains of the late Mrs. Sarah Ellen Taylor, the beloved wife of J. F. Taylor, 256 Quadra street, were forwarded to Courtney, B. C., this morning. The casket was covered with beautiful floral offerings, which were presented by sympathizing friends.

At Ross Bay cemetery this afternoon the remains of the late William Scott Spalding were interred. The funeral took place from the family residence, 483 Superior street, at 2.30 o'clock. Rev. Dr. Campbell conducted the services both at the house and graveside. The attendance of friends was very large, and a wealth of floral offerings were presented. The following acted as pall-bearers: C. Spalding, J. Spalding, Samuel Brethour, Henry Brethour, Joseph Emery and Mr. Aitkin.

The First Presbyterian church club will resume its meetings next Monday evening. All strangers and visitors are cordially welcomed to all of its sessions. The meeting Monday evening will be one of reorganization.

Building permits have been issued to A. Wright for a dwelling to be erected on Hereward street to cost \$2,000; to R. T. Elliott, dwelling on Summit avenue to cost \$1,350; to A. Martin for alterations to dwelling on Shelbourne street to cost \$250.

Word has been received from Otter Point that the forest fire, which has been burning in that vicinity for several days past, and which on Wednesday evening assumed serious proportions, has yielded to the efforts of the fire fighting brigade, all immediate danger being now regarded as past.

Since Rabbi Joseph Zeleler has assumed charge of Temple Emanuel in this city the attendance at the services each Friday evening have been increasingly large. Last evening the Rabbi delivered a very interesting sermon, taking for his text "The Well of Clean Waters," Gen. xxvi, 19-23. All those of the Jewish faith and their families, and the public generally, are invited to attend these services. Seats are free and there are no collections taken up.

The programme which has been arranged by Mrs. H. Crane and Mr. Williams for the concert to be given in St. John's school room on Wednesday evening next, as a social ending to the religious services held in connection with the jubilee anniversary, promises to be a most enjoyable one. Mr. and Mrs. Gelder, newcomers to Victoria and late members of the choir of Canterbury cathedral, will contribute vocal numbers. Miss Shields will render a piano solo, Miss Gladstone will recite, and the solo favorites, Mr. Jack Fetich with others, will also contribute to the programme. Two suitable addresses will be given, and the school room will be decorated for the occasion.

Wedding Presents

When a gift is artistic as well as useful it is such a blessing to the happy couple. Any September bride of culture would be delighted to become the recipient of any of our handsome, high class goods.

Cabinets of Sterling Silver, Tea Sets, Table Ware, Table Cutlery, Cut Glass, Copper or Brass Goods, Clocks, Hand-painted China, Etc., Etc.

W. H. Wilkerson

The Jeweler,
215 GOVERNMENT STREET.
Phone 1608.

At a well attended parade of the Fifth Regiment held last evening the local militia were subjected to an inspection by Lieut.-Col. Wadmore, the newly appointed district officer commanding, who was accompanied by Major Bennett. Both officers were complimentary in their references to the corps afterwards.

The plans of the apartment house which was to have been erected by J. Bowker on Fort street on the site of the Bank Exchange saloon, have been amended to provide a single story brick building with five stores. The plans, which were drawn by Elwood Watkins for the new building, have been completed and work on the construction of same will be begun in the near future.

Premier McBride has accepted an invitation to open the eighth annual Coquitlam Agricultural Exhibition on Tuesday, the 20th inst. The fair at Coquitlam this year will be held in the just erected new building, insofar as general exhibits are concerned, while the stock ring will have a very strong special attraction in the form of the new prize Holstein herd recently imported from Syracuse, N. Y., by the provincial government for the Coquitlam Retreat farm.

R. S. Lennie, K. C. of Nelson, who left for home last evening after a business visit to Victoria, in speaking of the fruit industry, pointed out that the land bordering on Kootenay and Arrow lakes was rapidly being populated with a very desirable class of settlers. The fruit section in this part of the Kootenays was as good as any throughout the province. The nearness to the markets of the prairie provinces will enable small fruits to be distributed there before they decay. Mr. Lennie says that the district will be sending train loads of fruit to the northwest within a very short time.

In a communication to the provincial secretary, Hon. Dr. Young yesterday, Vice-President Brown, of the Victoria & Sidney Railway Company, inquired specifically as to the nature of the statement in connection with the business of the road demanded by the government in accordance with statute law. Replying the minister transmitted a copy of the act, marking the pertinent paragraphs. Hon. Dr. Young also communicated yesterday with Acting Deputy Attorney-General McLeod, requesting an expert opinion upon the points raised by City Solicitor McDiarmid in respect to a desired audit of the company's accounts.

ALD. FULLERTON AND THE MAYOR

HAVE LIVELY TILT AT MEETING LAST EVENING

His Worship Charged With Working Against Interests of Corporation Laborers

Asking that a standard rate of pay be fixed for the city laborers, a deputation of 48 members of the Laborers' Protective Union last night waited upon the city council, and after several of its speakers had been heard, was promised that the matter would be given full consideration. The hearing of the deputation was enlivened by a tilt between the mayor and Ald. Fullerton, each of whom claimed to be the workman's friend and accused the other of being insincere.
On behalf of the men A. Sherk informed the council that, although the cost of living had increased from 25 to 50 per cent since the laborers last received an increase, the latter were only asking that wages be raised 10 per cent. Some objection had been raised in the council to the request on the ground that this was a bad time of the year to grant more money to civic employees. This objection, the speaker contended, was not justified as most of the city's work was being done on the frontage tax system and the cost of labor did not materially affect the carrying out of such work.
The laborers, continued Mr. Sherk, wanted a standard rate of pay fixed so that the engineer and his foremen would be unable to favor any one workman. The laborers were well acquainted with cases where foremen had paid their friends more than others. The responsibility of determining the wages to be paid to each man should be taken off the city engineer's shoulder. "That official," said Mr. Sherk, "has enough to think about."
The scale the workmen favored was as follows: Responsible foremen, \$4; engineers, \$3.50; blacksmiths, \$3.50; rock-drillers, \$3.00; laborers, \$2.75. The present average wage for each class of work is as follows: Responsible foremen, \$3.50 to \$3.50; engineers, \$3.50; blacksmiths, \$3.50; rock-drillers, \$2.75; laborers, \$2.50.
The waterworks laborers, Mr. Sherk added, were being paid \$2.00, \$2.25 and in a few cases \$2.50. These men wanted a standard wage of \$2.50. The request of the men could be summed up as being an increase of 10 per cent, which meant, in most cases, 25 cents a day more than they were now receiving.
Ald. Bannerman read over the schedules of pay in Vancouver, New Westminster, Comox and Victoria. In Vancouver laborers are paid 31 1/2 cents to 34 cents an hour, and in Westminster 27 1/2 cents an hour, the working day in the latter case being nine hours. In the man's opinion, the city of Victoria was paying wages as high as in any other city on the coast.
Mayor Morley said that the chief bone of contention was the establishment of a standard wage. If this were granted the city would be placed on the same ground as a contractor, and sentiment would have to be cut out altogether. His Worship explained that at present the city tries to find work for any deserving citizen. Men who were pressed with domestic troubles or had been ill came to him and asked for work. Often these men were unable to do a good day's work and so they were paid as much as the city could afford to pay them for the labor they performed. If a standard wage were adopted the city would be forced to select men in the same cold-blooded way as a contractor did, and instead of helping the class of men he had referred to would have to support them and their families out of charity. If any of the deputation could show him how the adoption of a standard would be in the best interests of the city he would withdraw his opposition to the laborers' proposals. He thought that a man who could earn more than the standard proposed should be allowed to do so.
Following further discussion Ald. Fullerton challenged any of the aldermen present to show that the city was not paying lower wages than any contractor in the city. The mayor evidently wished the able-bodied men to be penalized so that men who were not able-bodied could be kept working at low wages. The mayor appeared to be working against the increase asked by the men.
Mayor Morley challenged Ald. Fullerton or any other alderman to show that he had even said the increase should not be granted.
Ald. Fullerton—"You did not want to grant any increase at the last two meetings when this matter was discussed, did you?"
Mayor Morley—"All right, Ald. Fullerton, you can pretend to talk to the press on behalf of the workman, but these men are not asking for such sentiments from you."
Ald. Fullerton—"Why did you go against their request at the previous meetings?"
Mayor Morley—"Well, the mayor is not playing to the crowd; Ald. Fullerton is. That's all."
The deputation finally withdrew, on being informed that the council would give their request every consideration.
Bolts and bars are not the best of our institutions; nor is shrewdness in trade a mark of superior wisdom.—Emerson.

FRANK CHANCE EARNS \$25,000

HIGHEST PAID BALL
PLAYER ON EARTH

Wagner a \$10,000 Man, Ty Cobb \$9,000 for Annual Season in Big League Baseball

Of all the men actually playing baseball, and eliminating Connie Mack, manager of the Athletics, who owns stock in the club, Frank Chance, manager of the Cubs, is generally held to be far and away above all other active players in his earnings from baseball. This, too, is because Chance also is a stockholder in the Chicago Cubs, owning a one-tenth interest.

Prior to the season of 1908, Chance received a salary of \$5,000 a year, which was augmented by his dividends and the share of one player in post-season and exhibition game receipts. Chance had signed a four-year contract at \$7,500 a year, but a dispute arose between him and Charlie Murphy, president of the club, and he announced that he would not play with the Cubs.

Makes Secret Arrangement.

A Chicago man was sent to California to arrange a truce between Chance and Murphy. One of the conditions of the truce was that no party to it should ever reveal the salary part of the deal, whether raised or continued the same. But with his dividends on his one-tenth interest, Chance earns, between \$20,000 and \$30,000 a year, probably \$25,000 on an average.

This one-tenth interest was obtained for Chance in the same manner in which Murphy obtained a majority of the stock. Charles P. Taft, brother of President Taft, loaned money to Murphy and Chance to buy the club, which was sold at the bargain price of \$100,000 in 1905, a figure so small that several persons to whom the franchise was offered, thought something was wrong and refused to consider it.

Because of the national commission decision in his case sentencing him to play for his contract salary, it is known that Johnny King signed a three-year contract for \$4,000. To this, of course, must be added what the players get from the post-season series, which, when the world's championship games are played, runs up to \$1,500 and \$2,000 extra. Brown, Overall, Tinker and Evers probably receive amounts varying from \$4,000 to \$5,000.

Wagner \$10,000 Beauty.

Fred Clarke of the world's champion Pirates is reputed to receive \$12,500 annually for services as player and manager, while "Wagner called a \$10,000 beauty," although it is not likely that figure is correct. Ty Cobb of Detroit, and Charles A. Comiskey recently picked as the greatest ball-players of the time, was reported to receive \$9,000 a year. Probably some salt can be placed on this estimate also.

The average player of experience on a winning club considers himself worth from \$2,500 to \$3,000, while one with pretensions to being a star estimates himself as worth from \$3,000 to \$5,000, depending on the club and his ability. This is good money for seven months' work, including the training season; more, probably, than the same player could average in other lines of endeavor. But the life of a ball player is short. Club owners with enormous profits, and of sentiment there is little. It is pretty safe to say that the players earn all they get.

ATHLETES TRAINING FOR B. C. MEETING

J. B. A. A. Squad Working Out Under the Watchful Eye of Trainer Parnwell

Local track athletes are busy preparing for the big championship meet for the British Columbia titles that will be decided at the Willows track during the fall exhibition this month.

There are but a few weeks left now for the local spike shoe wearers to get in shape for the big meeting, and all local and mainland athletes are losing no time in rounding into form.

J. B. A. A. athletes will be strongly represented in the big track meet. The management of the local athletic club has secured the services of A. E. Parnwell to train them for the meet. Parnwell is a former track star and is a masseur of some ability, and should be able to get the Victoria athletes in the pink of condition. In his camp he will have some classy runners, including John P. Swenney, the Pacific Northwest champion, S. J. Winsby, who won the quarter-mile last year at Vancouver; Harry E. Beasley, the phenomenal little runner who has earned a name in many meets; the trio will be the leaders in the J. B. A. A. squad, which will be made up with a good relay team as well as a contingent of juniors. William Day, Bert Mackay and Percy Beasley have joined the ranks of the Bays and will be seen in action in the big B. C. meet.

Just who will represent the Bays in the big relay race has not yet been definitely decided, as there are a host to pick from. Beasley and Winsby will be sure members of the relay quartette. The other two places will be selected from the fastest of the following: Adair Carrs, the speedy lacrosse player; Ernie Todd, who has travelled with "Gardie"; Fred Schneider, Bob McInnes.

As there is but a few short weeks now before the big meet, Trainer Parnwell wants all the above mentioned athletes to be on hand at the Willows track tomorrow morning at 10.30. During the week they are all expected to come out on Mondays, Wednesdays and Fridays at 6.30 in the evening. As Parnwell wants his men to be all peak winners, it is absolutely necessary that they begin training tomorrow, so that when the day of the big meet arrives they will be in condition to give the fast runners from the various parts of the province a good run for the bacon and repeat their victories of last season.

16,000 persons annually die violent deaths in England and Wales.

MISS SUTTON STILL HOLDS CHAMPIONSHIP

Defeated Miss Hotchkiss at Del Monte Yesterday in Two of Three Sets

(Times Leased Wire.)

Delmonte, Cal., Sept. 10.—Miss May Sutton still may claim to be the premier woman tennis player of the United States, but the terrific battle she was compelled to fight against Miss Hazel Hotchkiss, of Berkeley, yesterday, to retain her laurels is food for much speculation here to-day regarding future meetings of the pair.

In the final of the Delmonte tourney yesterday, Miss Sutton defeated Miss Hotchkiss in two of three sets.

JOHNNY EVERS JOINS POST SEASON PLAYERS—SAYS PLAYERS DISSATISFIED WITH ULTIMATUM

Chicago, Sept. 10.—Trouble is ahead for the National Baseball Commission if many more of the National and American league stars decide to play 'ball.

TROUBLE IS AHEAD OF NATIONAL LEAGUE

Chicago, Sept. 10.—The soccer schedules of the first and second divisions were issued last night. The season commences September 24th and will close December 24th. In between these dates every Saturday is occupied and there are four games each week. The complete list of fixtures reads as follows:

First Division.

Saturday, September 24th—Garrison v. North Ward; Cedar Hill v. J. B. A. A.; Esquimalt v. Victoria West; Foresters v. Empress.

October 1st—J. B. A. A. v. Garrison; Victoria West v. Cedar Hill; Empress v. Esquimalt; North Ward v. Foresters.

October 8th—Garrison v. Victoria West; Cedar Hill v. Empress; Esquimalt v. North Ward; Foresters v. J. B. A. A.

October 15th—Empress v. Garrison; North Ward v. Cedar Hill; J. B. A. A. v. Esquimalt; Victoria West v. Foresters.

October 22nd—Garrison v. Cedar Hill; Esquimalt v. Foresters; North Ward v. J. B. A. A.; Victoria West v. Empress.

October 29th—Esquimalt v. Garrison; Foresters v. Cedar Hill; Victoria West v. North Ward; Empress v. J. B. A. A.

November 5th—Garrison v. Foresters; Cedar Hill v. Esquimalt; North Ward v. Empress; J. B. A. A. v. Victoria West.

November 12th—North Ward v. Garrison; J. B. A. A. v. Cedar Hill; Victoria West v. Esquimalt; Empress v. Foresters.

November 19th—Garrison v. J. B. A. A.; Cedar Hill v. Victoria West; Esquimalt v. Empress; Foresters v. North Ward.

November 26th—Victoria West v. Garrison; Empress v. Cedar Hill; North Ward v. Esquimalt; J. B. A. A. v. Foresters.

December 3rd—Garrison v. Empress; Cedar Hill v. North Ward; Esquimalt v. J. B. A. A.; Foresters v. Victoria West.

December 10th—Cedar Hill v. Garrison; Foresters v. Esquimalt; J. B. A. A. v. North Ward; Empress v. Victoria West.

December 17th—Garrison v. Esquimalt; Cedar Hill v. Foresters; North Ward v. Victoria West; J. B. A. A. v. Empress.

December 24th—Foresters v. Garrison; Esquimalt v. Cedar Hill; Empress v. North Ward; Victoria West v. J. B. A. A.

Challenge cup presented to the Victoria Tennis Club by the Chaloner & Mitchell Company, and won on Thursday by F. J. Marshall, who will hold it for one year and have the right to defend it at the next annual tournament of the club.

with an all-star team after the expiration of the regular season, despite the commission's contrary orders.

Little Johnny Evers, the Troy, N. Y. shoe merchant, better known as second baseman of the Chicago Cubs, is the latest to hurl defiance at Garry Herrman and his National commission. Evers said to-day that no matter what the consequences are, he will play next season ball if he chooses.

"I see no reason why we should not pull down a little extra coin," said Evers, "and I for one intend to do it if I have a chance."

"A good many of the best men in the big leagues are dissatisfied with the commission's ultimatum and you need not be surprised. If several all-star teams are organized at the close of the season."

Thirty years ago there were only two dozen explosive compounds known to chemists; now there are over 1,000.

SOCCER SCHEDULES DRAWN FOR SEASON

Matches in First and Second Divisions Open Sept. 24 and Close Dec. 24

The soccer schedules of the first and second divisions were issued last night. The season commences September 24th and will close December 24th. In between these dates every Saturday is occupied and there are four games each week. The complete list of fixtures reads as follows:

First Division.

Saturday, September 24th—Garrison v. North Ward; Cedar Hill v. J. B. A. A.; Esquimalt v. Victoria West; Foresters v. Empress.

Notice To Sportsmen

The shooting season opens Sept. 15th for grouse and deer in all districts of Vancouver Island; pheasants in some districts; and quail come in on Oct. 1st. When you are making preparations don't forget an Accident Policy. As every year the number of sportsmen increases, so the chances of accidents become greater; remember the unfortunate hunting fatalities of last year and guard against possible ones this season by taking out a policy which will at least compensate you if you are shot or hurt in any way.

I am agent for the best English Accident Insurance Co. and shall be glad to talk the matter over with you.

N. B. GRESLEY

SPORT NOTES

Challoner & Mitchell telephoned the Times office this morning that the cup presented to the Victoria Tennis Club is valued at \$300, and not \$150.

All doubts as to whether the Nationals would come west this season or not were set at rest last night when Secretary, H. Ryall received the following telegram: "Will accept Barr and Yorke to referee games." Matt Barr and Lionel J. Yorke are two of the men selected by the Salmonbellies and as both of these officials are well known in Western Canada the Royals should have no kick coming in this respect. The first game is set for September 17.

The Atwell featherweight champion of the world, knocked out Billy Lauder of Calgary in the seventh round of their scheduled fifteen-round contest yesterday. A big crowd was in attendance. The champion outpointed his opponent in nearly every round and cleverly evaded Lauder's rushes.

Tom Burke, Vancouver's fighting fireman, and Lee Hansen of Nanaimo, battled fifteen fierce rounds at the Nanaimo Athletic Club this week, and referee Jimmy Hewitt of Vancouver, called it a draw to the intense satisfaction of the big crowd of fight fans in attendance.

On August 16th—Lord Hawke, captain of the Yorkshire C. C., celebrated his fiftieth birthday, and every lover of the national summer game will wish him "many happy returns of the day." For twenty-five years he has captained the Yorkshire team, and made it one of the most powerful elevens in the country. He is undoubtedly among the most popular cricketers in England, and has specially endeared himself to Yorkshire professionals on account of the keen interest he has always taken in their welfare. He is godfather to most of their children and out of the season he has each professional in

turn, with his wife and family, if such exist, to stay with him at Tadcaster. It is stated that among his lordship's personal possessions there is, perhaps, nothing quite so interesting or so highly valued as a little, well-worn edition of the English prayer book. This has belonged to Lord Hawke since he was a child, and on its interlarded pages is entered a careful record of every Sunday he has spent abroad in his life. As Lord Hawke has been an almost constant traveller, the diary covers a good many pages.

The Davis cup management committee in Sydney have decided that the selecting English lawn tennis team is of insufficient strength to justify a guarantee of \$3,000. The Australian authorities consider that they have been shabbily treated by England since the initiation of the series of international matches, contrasting it markedly with the treatment they have received from America.

There will be an informal smoker for yacht club members to-night. The smoker takes place at the yacht club house at 8 o'clock.

North Ward athletic club will hold its regular winter dance at the A. O. U. W. hall on 22nd September. All members are working in the interests of a big attendance.

Cyclone Thompson, Ray Brinson and Bill Papke left on the Australian boat last night under the management of Hugh D. Macintosh, the Australian promoter. They will box four matches each with Australian boxers.

The Vancouver lacrosse team, winners of the Kilmarnock cup, will not be able to play for the Mann cup until the eastern C. L. A. winner is decided. The eastern games will take two weeks at least.

TIRE COST PER MILE.

The average cost per mile is lower with Dunlop Automobile Tires—because, besides the quality that goes with the name, the Dunlop Company is ever anxious to thoroughly satisfy every user of Dunlop Automobile Tires.

NORTHWEST TEAMS PLAY HERE MONDAY

Arrangements Completed for Vancouver and Spokane Ball Teams at Royal Park

Monday afternoon at 4 o'clock the Vancouver and Spokane ball teams, which are leading in the pennant race for the northwestern championship, will play at the Royal Athletic park. Negotiations have been completed for the grounds and with the teams. The promoters announce that the game will take place without fail, and that the teams will take the field at 4 p.m.

The Vancouver team has been picking up a little lost ground, and the meeting of the teams next will be when Vancouver has to beat the Indians to get a final chance in the pennant race for first place. No announcement has been received as to what the line-up of the teams will be, but Gardner and Bonner are expected to be the pitchers respectively for Vancouver and Spokane.

The game will be the regular league game of the northwestern league, and the result will count in the league just as if the match had been played at Recreation park, Vancouver.

The reason the game is transferred to Victoria is because the A. J. Barnes club is showing at Recreation park. The remainder of the series between the Indians and the Beavers will be played at the park in Vancouver.

The reason Victoria got the game was because Victoria offered the largest guarantee of any city in the northwest. The Vancouver manager wanted \$350, Victoria offered \$200, and as no other city in the northwest submitted an offer, Victoria's offer was accepted.

CHARGES FOR HIRE OF ROYAL PARK GROUNDS

Association Meets—Rugby Games There This Winter—Soccer Support Weak

The Royal Athletic Park Association met last night to discuss the plans formed by the association's manager for the hiring of the ground out to the promoters of the Vancouver-Spokane baseball game which takes place here Monday afternoon, and it was finally decided that the promoters would be allowed the grounds free of charge on this occasion.

This announcement, which was published some days ago and confirmed by the park proprietors last night, is commented on by local athletic organizations who have been charged 40 per cent. for the grounds. The Victoria lacrosse players for the labor day game played the park company 40 per cent.

which amounted to \$120 for the use of the grounds, and for the other matches played this year they have paid the same percentage, while for the Victoria baseball club matches this season the percentage paid to the Royal Park Association has been only 25 per cent. to 30 per cent.

The lacrosse players feel that if Manager Wattlelet of the baseball club and Manager Wattlelet of the Athletic Park can fix the smaller rate for ball games, that the lacrosse men should have had the smaller rate also, and not be charged 40 per cent.

The reason put forth why the promoters of the Vancouver-Spokane ball game should have the grounds for nothing is that it was in the interests of baseball. The Victoria Rugby club went W. Newcombe and L. Spaulding, captain and secretary respectively, to the meeting of the Royal Park Association last night, and negotiations were opened with a view to having the Rugby games played there this season. The grounds were offered to the club for less than 40 per cent, and the Rugby club will have practically full control of the park this winter.

There will be few soccer matches played there because the public support given soccer at the Royal park last year was sometimes in finances less than the amount of expenses of the gatekeepers and attendants.

ESQUIMALT ATHLETIC CLUB HOLDS A SMOKER

Address by President, Song and Musical Programme With Bountiful Refreshment Board

The Esquimalt Athletic Club at its election of officers elected Harry Pooley president and the president in a short and interesting address announced that one cricket match only had been lost during the season. The announcement was made also that members who were in arrears for last year, with subscriptions were allowed to start fresh from September 7th. All back unpaid subscription accounts have been wiped off to that date.

The president referred to the completed club rooms and the playing field of the club as one of the greatest advantages, and as a reason why the Esquimalt club should be ahead in faithful training of other clubs who this winter are not so well situated.

Alexander Lockley, the football delegate, reported on the admission of the club to the city league, and maintained that Esquimalt would this year have the strongest football club that has ever come from that district. He figured that the cup would rest in the Esquimalt rooms at the New Year, and the applause signified that others present were of like opinion.

There was a long programme of music. J. Ball performed at the piano and contributed the refreshments for the evening, and selections were given by Messrs. Goiding, Dulvey, Brown, Ball, Sterling, Irwin, Bridgton, Spencer and Jasper. Tuesday night there will be a committee meeting of the Esquimalt Athletic Club at the club rooms to make further plans for the soccer season.

IRISH BUTTER INDUSTRY.

Writing to the secretary of the Caven Central Co-operative Society (Limited), E. W. Russell says that he is at present engaged in consideration of the report of the departmental committee on the Irish butter industry with a view to the preparation of a bill to be introduced into parliament at the proper time. The idea so laboriously created and pushed that the department of agriculture desired or intended to attempt to control the butter industry had no foundation in fact.

VOLCANO IN SPITZBERGEN.

The Press Association is informed that the following telegram has been received from London from the manager of the Norden-Nielsche Steamship Company, Trondheim: King Harold returned from Polar ice. Reached 80 deg. 10 min., within 10 deg. of the Pole. Met Farm (Fran's) expedition at Spitzbergen. Farm has discovered volcano and hot springs. Wood Bay beach covered with lava. Zeppelin taken possession of tract of land at King's Bay and named it Zeppelinshafen. Wood Bay is in the northwestern portion of Spitzbergen.

For thawing dynamite a metal Kettle has been invented, in which the explosive is placed in an inner compartment, which is surrounded by hot water.

AUTOMOBILE FACE DUE TO SPEED MANIA

This is But One of the Many Effects of Motoring at Insane Rate

The ill experienced by excessive bicycle riding and racing used to result in the "bicycle heart," according to the authorities of that long past era when bicycles were as thick as fireflies on a summer's evening. Now, it seems, the physical troubles of the rabid motorist are to be typified in the "automobile face." There may even be some unfortunate still outside of hospitals who in bygone days acquired a "bicycle heart," and have now added an "automobile face" to their personal collection.

In both bicycle riding and automobile driving, doctors agree, it is the respiratory organs which suffer when either sport is indulged in to excess. But in bicycle racing the great exertion of the rider while in a cramped position finally affected his heart, while with the motorist the lack of exertion coupled with the greater air pressure and other elements etches his troubles in new facial lines.

In the current issue of the Medical Record, Dr. H. H. DeLavan discusses the danger from the prevalence of automobiles to the health both of motorists and pedestrians, and he divides the factors that may work injury into two groups: First, the air itself in its various phases, and second, the impurities in the air. The first includes temperature, air currents and air pressure; the second, dust and smoke.

A chill is put down as the primary result of unwise exposure to sudden changes of temperature or to air currents, both of which the motorist finds it difficult to avoid. But chills may be picked up in other lines of sport or endeavor from the same cause, while the increased air pressure due to speed-

ing and its attendant ills are more peculiar to motoring. Dr. DeLavan says: Increased atmospheric pressure, especially when combined with cold, must of necessity exert important influences upon the respiratory region, from the nasal cavities and their communicating passages to the ultimate vesicles of the lungs. Examples of this are common.

Thus, during the height of the great blizzard of 1888, many persons attempted to walk from their places of business to their homes, facing the storm. The number of those whose air passages suffered injury was incredible. While the variety of affections included a fair proportion of the inflammatory conditions possible to the ears, nasal region, pharynx, larynx, trachea, bronchi and lungs. Deaths were numerous, while there are many patients suffering from chronic disorders to-day who date the origin of their troubles to that or similar experience.

The physician says that a speed of thirty miles an hour represents a stiff breeze and one of sixty miles a gale, and in computing atmospheric pressure he points out it is necessary to add to the speed of the automobile the speed also of the wind which it may be hitting into. At thirty miles an hour he says the increased pressure amounts to two and one-half pounds, and at ninety miles twenty-nine pounds. At speeds below twenty miles the increased pressure is considered negligible in its effects, or even beneficial.

"While there may be some conditions of the lungs," continues Dr. DeLavan, "in which exposure to a moderate increase of air pressure for a limited amount of time would be beneficial, there must be many cases in which great increase of pressure, or pressure long continued, would result in injury even to a healthy lung."

The pedestrian as well as the motorist is put down as the sufferer from the dust and smoke kicked up by the ever present automobile. Dr. DeLavan says he has not yet found any adequate protectors against those irritating impurities, although he considers

the injury to health from them obvious. When their presence is added to the increased air pressure in the case of the motorist he thinks it is not hard to account for the development of the "automobile face," one of the principle characteristics of which, he points out, is the open-mouth, suggestive of mouth breathing.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Sept. 10—5 a.m.—The barometer remains high along the Coast and the weather is general from Alaska to California, and with the exception of showers in Kootenay the weather is fine eastward to Manitoba.

Observations at 5 a.m.
Victoria—Barometer, 30.18; temperature, 46; minimum, 42; wind, calm; weather, part cloudy.
New Westminster—Barometer, 30.20; temperature, 47; minimum, 40; wind, calm; weather, cloudy.
Kamloops—Barometer, 29.94; temperature, 45; minimum, 40; wind, 4 miles S.W.; rain, 0.2; weather, part cloudy.
Barkerville—Barometer, 29.96; temperature, 37; minimum, 26; wind, calm; weather, cloudy.
Prince Rupert—Barometer, 29.29; temperature, 50; minimum, 45; wind, calm; weather, cloudy.
Edmonton—Barometer, 29.90; temperature, 40; minimum, 36; wind, 4 miles W.; weather, cloudy.

Winnipeg—Barometer, 29.97; temperature, 48; minimum, 44; wind, 18 miles S. E.; weather, clear.
Victoria Daily Weather.
Observations taken 5 a. m., noon and 5 p. m., Friday.

Highest temperature, 53
Lowest temperature, 44
Average temperature, 54
Bright sunshine, 7 hours.
General state of weather, fair.

The Mechanical Construction of Chalmers MOTOR CARS

Places Them Far in Advance of Any Other Car on the Market

When we make the statement that Chalmers Cars are the best cars made, we are not exaggerating in the least. Honest materials and mechanical skill have brought them to such a state of perfection that they stand in a class entirely by themselves. The steel in the frame and axles is the best the world knows for the purpose; nothing better could be found in any other car. The same applies to every other part. For finish and grace of model they are particularly attractive. They are equipped with two separate ignition six-volt storage and four unit coil; also the highest tension Bosch Magneto. Better drop in and let us demonstrate one for you.

Chalmers "30" Touring Car, 1911 Model, \$2,600.

Bosch high tension magneto, gas lamps, Pest-O-Lite tank and special Chalmers mohair or pantesote top. Colors: Chalmers blue all over with grey striping; Chalmers blue body with grey striping, cream running gear; Chalmers blue body, grey striping, grey running gear. Complete with foot rail, robe rail and wind shield.

Chalmers "30" Pony Tonneau, \$2,725.

Bosch magneto, gas lamps, Pest-O-Lite tank and special Chalmers top. Colors: Chalmers blue all over with grey striping; Chalmers blue body, grey striping and cream running gear; Chalmers blue body, grey striping and grey running gear.

EXPERT SAYS OIL IS THERE WELL BEING DRILLED AT MOUTH OF MUIR CREEK

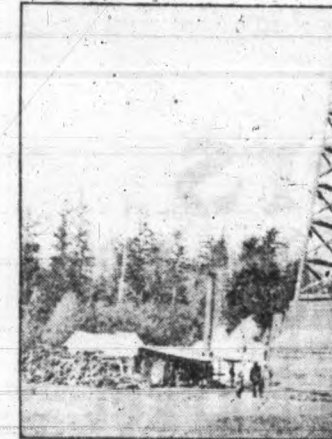

Every Indication Encourages Local Capitalists—The Bore is 400 Feet Deep

While others talk or wait for outside capital to come in and develop the vast unexploited resources of this island...

At the mouth of Muir creek, in Sooke district, the Western Canada Oil Prospecting Company, Ltd., is putting in a test well...

The location of the well was fixed by J. N. Frank, the well known oil and natural gas expert of San Francisco...

That oil exists at the spot was decided many years ago by the late Dr. Dawson, of the Geological Survey...

DRILLING FOR OIL.

The well which is being put down at the mouth of Muir Creek for the Western Canada Oil Prospecting Company.

to sink a well was in the meadow-like expanse where Muir creek debouches into the sea.

Here, a few weeks since, M. H. Murray, a prominent well-driller of great experience, and his men set up their plant and are now actively boring down to the oil which they, like all others familiar with oil-fields, believe to be there.

A man of great experience in the Texas and Petaluma fields who visited the scene of operations the other day was so well satisfied with the prospects that he immediately invested a considerable amount in the project.

RATES FOR LUMBER AGAIN ON DECLINE

Number of Charters Reported by Hind, Rolph & Co. in Weekly Circular

Coastwise lumber charter rates have declined again, this time, close to a point where ship owners assert there is no profit to be made in the trade...

The freights on lumber of Puget Sound loading to various ports coastwise and offshore, as quoted by the association are as follows:

San Francisco, \$3.50; San Pedro, San Diego and other Southern California ports, \$4; Hawaiian Islands, \$5; Guam, \$5.25; Santa Rosa, \$4; Sydney, \$5.25; Melbourne or Adelaide, \$5.25; Port Pirie, \$5.25; Hongkong, Shanghai, Kioachow or Weihaiwei, Port Arthur, Taku or Newchwang, Kobe, Yokohama or Nagasaki, \$1.60; Valparaiso, \$1.60 (2s. 6d. less direct), 42s. 6d. 4s. 9d.; Callao, 48s. 4d.; Cape Town and other South African ports, 52s. 6d.

Hind, Rolph & Co. in their weekly freight circular, report the following figures: Matthew Turner, Willapa Harbor or Grays Harbor or Columbia river to direct port West Coast, private terms; Antelope, Kure's to Sydney, owners' account, steamer Strathgore, Puget Sound or Columbia river to Australian ports, time charter; steamship Sark, 32s. 6d.

AUSTRALIAN BOYS WHO TOURED WORLD

Party of Twenty Cadets Sailed for Home Last Night on Zealandia

A party of twenty Australians mounted cadets, led from 15 to 18, who have been all the way around the world on an educational tour and in special search of military knowledge, left last night on the Zealandia for home.

In the United States the boys visited New York, Washington, and Philadelphia, and also spent a day at West Point. In Canada they were two days at Quebec, two at Montreal, and two at Toronto, and one at Winnipeg.

Without exception the boys are enthusiastic over their trip, but are loyal enough to declare that they belong to the best part of the British empire, and for that matter the best country they have yet seen.

Without exception the boys are enthusiastic over their trip, but are loyal enough to declare that they belong to the best part of the British empire, and for that matter the best country they have yet seen.

LOCAL FIRMS WILL BID ON STEAMER

Estevan Plans Now at Marine Department—Vessel to Be Larger Than Quadra

Specifications of the new steel light-house steamer, tenders for which have been asked for some weeks through the advertising columns of the Times, have been received, and it is understood that local shipyards will put in bids for the construction work.

That the new vessel will have all modern conveniences including wireless telegraphy apparatus goes without saying. No boats of this class are now built without them.

ADMIRALTY FORCED TO ADMIT INJUSTICE

Young Cadet Accused of Theft—His Father's Long Fight to Clear His Name

A cadet at the Osborne Naval College received a postal order for \$5, and was charged with the theft of the money. His father, a prominent local merchant, has been fighting for two years to clear his name.

"The question which will present itself to parents, however, is this," says the Chronicle: "Was everything done that could reasonably be suggested to give the boy and his father a fair chance? We cannot think that it was."

"The question which will present itself to parents, however, is this," says the Chronicle: "Was everything done that could reasonably be suggested to give the boy and his father a fair chance? We cannot think that it was."

Another, and a more general, remark will suggest itself to those who consider this case," continues the Chronicle. "Departments are stubborn things; they are slow to admit that they can be in the wrong; and these are days in which the scope and power of the bureaucracy tend steadily to increase."

Whatever passing advantages we may gain from possible developments of the German shipyard trouble, we are, in the main, says the Newcastle Inquirer, losing our relative position in great industries because of the pressing forward of the Teuton on the course laid down for it when we have remarked, Bismarck in 1875 gave his country a tremendous industrial impetus by means of the scientific tariff policy which he then established.

NOTICE. Subscribers of the Victoria Daily Times are requested to pay their subscriptions to the collector, and not at the office.

TENDERS. TENDERS addressed to the undersigned at Ottawa, and endorsed on the envelope "Tender for Lighthouse and buoy steamer" for the Pacific Coast, will be received up to noon of the 10th day of October, 1910, for the construction of a Twin Screw Steel Lighthouse and Buoy Steamer for the Pacific Coast, to be delivered at Victoria, B. C., of the following leading dimensions: Length between perpendiculars 28 feet 6 inches, and 32 feet 6 inches, draft 11 feet 6 inches, and 12 feet 6 inches, and speed 12 knots per hour.

Plans and specifications of this steamer can be seen at the Department of Marine and Fisheries, Ottawa, at the offices of the Collector of Customs, Toronto, Col. J. M. G. M. and at the Agencies of the Department of Marine and Fisheries at Montreal, Quebec, Victoria, B. C., Halifax and St. John, N. B.

Plans and specifications can be procured by application from the Purchasing and Contract Agent, Department of Marine and Fisheries, Ottawa, and from the Agent of this Department at Victoria, B. C.

Each tender must be accompanied by an accepted bank cheque in favor of the Deputy Minister of Marine and Fisheries equal to 10 p. c. of the whole amount of the tender, which cheque will be forfeited if the successful tender declines to enter into a contract with the Department or fails to complete the steamer. Cheques accepted by unsuccessful tenders will not be returned.

The Department does not bind itself to accept the lowest or any tender. Newspaper copying this advertisement without authority from the Department will not be paid.

ALEXANDER JOHNSTON, Deputy Minister of Marine and Fisheries, Department of Marine and Fisheries, Ottawa, Canada, 22nd Aug., 1910.

HOUNDING THE CITY ENGINEER

(Continued from page 1) The discussion then turned on the quality of the men holding positions under Mr. Smith. The mayor said it was the engineer's duty to hire and discharge any man, to which Ald. Humber replied that the mayor had filled a number of positions with his own favorites and had told the engineer that these men were good men. Ald. Raymond said that the mayor was right. Mr. Smith should see that his subordinates were competent. The alderman stated that he had spent three hours with the engineer, urging him to employ capable men. "Well, I suppose he thanked you for telling him his business," remarked Ald. Humber. Ald. Kargison commenced to instance a specific case in which the engineer had lowered the grade of a road, but, on being asked by Ald. Humber if he had not personally approved of this being done, sat down without replying. The meeting revolved into a somewhat noisy proceeding. Half a dozen of the aldermen insisted on talking together, and the result was that nobody seemed to understand the drift of the discussion. A renewal of Ald. Fullerton's charges that he had "worked against Mr. Smith since he first came to the city" roused the mayor to fury. He commenced to criticize the alderman, when the latter interrupted him by asking him why the matter should be dealt with in secret session? "I don't care a continental," said his worship. "I'll bring it up in public—at next Monday's council meeting if you like." A second outburst of noise was occasioned by Ald. Bishop who raised an objection to the way in which the engineer was being treated by the council, without having a chance to reply. At this declaration Ald. Raymond

MARICOPA OIL COMPANY OF LOS ANGELES, CALIFORNIA

Under Canadian Control Capital \$1,000,000

What Our Neighbors Are Doing

(Extract From the California Oil World.) Maricopa, Aug. 21. — The Midway Northern Oil Company operating an eighty-acre lease in the northern quarter of Section 22, 12-23, has made a contract to deliver its oil to the New Centre and Anaconda Oil Companies, which supply two railroads and a small refinery in the north part of the state. The Midway Northern has laid 12,000 feet of pipe connecting its wells with the receiving tanks at the New Centre loading racks, has installed a large pump and expects to commence to deliver not later than Saturday, S. M. Warmbath, secretary and manager of the Midway Northern, states that the oil will net the company 47 1/2 cents per barrel. The Midway Northern finished its well about six weeks ago at a depth of 1900 feet and has since put in an eight and a quarter inch agitating string. The well flowed recently for four days, producing from 1700 to 2200 barrels per day, the oil testing 19, 3-10 B. It is expected that when the well thoroughly cleans itself out that it will have a production of about 2500 barrels per day. The company has let a contract to J. M. Latta at Maricopa for a standard 34-foot rig for well No. 2 and has placed orders for a new boiler and engine. Drilling the second well will commence within thirty days.

This company owns a lease of 60 acres in Section 32, 12-23, in the very midst of the Gusher Territory of the Maricopa-Sunset Field on a royalty to the owners of 1-7 of the oil produced. Our property actually adjoins that of the Midway Northern to which the annexed press extract refers. We have now about eight hundred feet to drill. A similar well should be obtained at about the same depth on our property. Such a production with a similar contract would enable this company to EARN A DIVIDEND OF 2 CENTS MONTHLY, OR 24 CENTS PER SHARE PER ANNUM ON ITS FULL CAPITAL. With such prospects, are you not buying dollar bills for 25 cents?

Price To-day, 25c per \$ Share Fully Paid and Non-Assessable Price of shares will be advanced to 50c on 15th of Sept. next.

jumped to his feet and flung his chair against the wall. "Hang it, Ald. Bishop," he said with heat, "you have been against the engineer right along. Why do you switch around?" Ald. Mable took little part in the talking, but ventured an opinion that the city engineer was probably a very good engineer, and failed to satisfy because he could not handle men. Ald. Ross expressed regret that the proceedings at the last secret session had become public, and the mayor, interrupting, said that no alderman who had a spark of honor in him would tell the newspapers what had been done after promising to keep the secret. "What we want," said the mayor, "is a canvass of the council. Those who are in favor of discharging the engineer as proposed say so." Ald. Bishop, Fullerton and Humber strenuously refused, however, to "say so," and the meeting adjourned shortly before midnight, with the mayor and his supporters still unsuccessful in their attempt to decapitate Mr. Smith. SUNRISE ON MONT BLANC: Mont Blanc, says Tyndall, in his "Glaciers of the Alps," rose for a time cold and grand, with no apparent stain on his snow. Suddenly the sunbeams struck his crown and converted it into a bow of gold. For some time it remained the only gilded summit in view, holding communion with the dawn, while all the others waited in silence. Then, in the order of their heights, came afterwards, relaxing, as the sunbeams struck each in succession, into a blush and a smile.

TENDERS FOR STREET PAVING ARE RECEIVED

City Engineer, Warwick Paving Co. and Pacific Coast Co. in Competition

At last evening's meeting of the streets committee of the city council, the following bids were received for the paving of four streets under the local improvements plan.

For standard asphalt-Fernwood road, \$19,000; Rockland avenue, \$13,425; Richardson street, \$12,080; Fort street, \$10,375.

Work will be started at an early date on a two-story brick and stone ticket office and waiting room building for the G. T. P. on their Wharf street site.

All are welcome. W. C. T. U. Mission, Store street, Spring Ridge Methodist choir will conduct Saturday evening concert to-night at 8 o'clock. All heartily welcome. Gospel service on Sunday at 7.30.

Fort St. Snap! We have for quick sale, lot 60 x 120 ft. Fort St., near Vancouver, good 6-room house. Price \$8,750. Other lots in this vicinity held at \$10,000 to \$12,000. This is positively the best bargain on this street and will double in value within a year. Investigate. British-American Realty Co. 124 DOUGLAS ST. PHONE 219.

Jubilee of St. John's

An event of great local interest will be the observance of Jubilee services in St. John's church, Douglas street, on Thursday, September 15th. This is one of the oldest religious institutions in the city, and although the present edifice has been considerably remodelled and modernized, the site and original walls are the same.

The word "Jubilee" is derived from the Hebrew—*yobel*—meaning a ram's horn. The year of jubilee was a great festival among the Jews, celebrated every fiftieth year to commemorate their deliverance from the bondage of Egypt. The proclamation of this festival was with the "blowing of trumpets or rams' horns," and so became known as the Festival of Jubilee.

To-day the term is generally accepted as denoting a period of fifty years, at the end of which time there is an appointed day of rejoicing.

On Friday, April 14th, 1860, the corner stone of St. John's church was laid with fitting ceremony by the late Sir James Douglas, then governor of the province now known as British Columbia. The procession, which nearly the whole population of the city turned out to see, was a most impressive one.

First came the superintendent of works, carrying the plans and drawings; next the members of the committee

on the shores of Vancouver Island, we were charmed with the rich and varied scenery of the country, but we sought in vain for any work of art—for any trace of the presence of civilized man. Nothing of the kind was to be found; the country was the abode of the wandering savage, and of the best of the field. It has now become the home of a Christian people, nurtured in the fear and knowledge of the Lord. Its present progress is, I trust, a mark and proof of God's blessing, and I hope an earnest of the great things He has in store for this colony, if we are found worthy of His favor. I hope that our worthy bishop may soon see the fruits of his exertions in the general growth of Godliness, in the spread of the Gospel—in the moral elevation of the Indian race, and in the completion of that Scripture promise which assureth us that the day cometh when the earth shall be covered with righteousness, and the desert shall blossom as the rose. My Lord, your noble devotion to the Christian cause, and the unswerving exertions you have made in behalf of Vancouver Island, and of the sister colony of British Columbia, are well known and appreciated, and have won for you our warmest respect and admiration; and you may rest assured that we will not fail in our efforts to aid and

Asaya-Neurall
THE NEW REMEDY FOR
Nervous Exhaustion
Physicians agree that a vigorous nervous system is essential to the successful treatment of Consumption. "ASAYA-NEURALL" feeds the nerves with Lecithin (obtained from eggs), the element required for nerve repair. Its use maintains full nerve vigor, restores courage when hope is failing, and thus lends incalculable aid in throwing off the disease.

BIBLE DISTRIBUTION REACHES A RECORD

Six Million Copies of Sacred Book Issued by Bible Society

The one hundred and sixteenth annual report of the British and Foreign Bible Society shows the society's total issues for the past year were as follows:

Bibles	843,784
New Testaments	1,158,228
Portions	4,578,014
Total	6,520,026

This result is 685,000 in excess of the output in the previous year, and constitutes a record in the history of the society. Three times in the last seven years the total has exceeded 5,000,000, but hitherto it has always been below 4,000,000 copies. Last year's issue of complete Bibles was, however, 40,000 below that of the previous year, while the issue of New Testaments was nearly \$2,000 above that of the previous year. The marked increase in the issues during the past year is chiefly due to the advance of Christianity in the Far East. More than 1,500,000 copies of the Scriptures went out to China, and of these nearly 99 per cent. were sold; while 235,000 books were circulated in Korea and 305,000 in Japan. In India, circulation rose to 700,000. In South America 155,000 copies and in Canada 148,000 copies were put into the hands of the people, while 1,115,000 copies were distributed in Continental Europe. The falling off in the sales of complete Bibles and Testaments has taken place, not as a rule in the mission field, but almost entirely in Great Britain and Europe, where the society is not the sole source of supply.

The Reverend Rector of St. John's Parish, Who has had the Spiritual Oversight of it for Forty-two Years.

carrying the trowel, square, mallet and glass jar to be laid under the stone. Following came the church warden, the clergy, Bishop Hills, captains and officers of H. M. ships, members of the legislature, chief justices of British Columbia and Vancouver Island, the colonial secretary, and the governor with his private secretary.

The band of H. M. S. Topaz was in attendance and played the National Anthem as the governor entered the grounds. The choir was composed of the boys from H. M. S. Ganges and several gentlemen who had kindly volunteered their assistance. The service used was the one compiled by the bishop when in England for the

promote to the utmost of our power your benevolent designs." The bishop made a suitable reply and expressed his perfect confidence in the future material and spiritual welfare of the colony.

The following was the programme of services connected with the consecration:

Thursday, September 13th.
Consecration service at 11 a. m. Sermon by Bishop of Oregon. The Holy Communion will be administered in the evening service at 7 o'clock. Sermon by the Bishop of Oregon.

Friday, September 14th.
Morning service at 11 a. m., sermon by the Rev. D. Ellis Willis (rector of St. John's, Olympia). Evening service at 7 p. m., sermon by the Rev. W. D. Crickmer (minister at Fort Yale).

Sunday, September 15th.
Morning service at 11 a. m., sermon by the Bishop of Columbia. Afternoon service at 3 p. m., sermon by the Rev. E. Cridge (minister of Christ church). Evening service at 6.30 p. m., sermon by the Bishop of Oregon.

Tuesday, September 18th.
Evening service at 7 p. m., sermon by Rev. J. Sheephanks (minister of New Westminster).

Friday, September 21st.
Evening service at 7 p. m., sermon by the Rev. C. Garrat, B.A.

Sunday, September 23rd.
Morning service at 11 a. m., sermon by the Bishop of Columbia. Afternoon service at 3 p. m., sermon by the Rev. T. Woods, principal of the Collegiate School. Evening service 6.30 p. m., sermon by the Rev. R. Dundas (minister of St. John's).

fifty years ago, now rear tall heads towards the sky, and over the buildings the hand of time has left its mark—decay, not decay. The school room—a comparatively modern structure, is commodious and cheery, and fitted with every convenience for carrying on the social and religious life of the church.

Next Tuesday there will be a celebration of Holy Communion at 11 a. m., with sermon, evening and thanksgiving service at 8 p. m. The Very Rev. The Dean of Columbia will preach. On Wednesday evening, September 14th, a concert and social will be held in the school room, and on Sunday, September 18th Holy Communion at 8 a. m., followed by morning prayer at 11, will conclude the jubilee services. Special preachers are being arranged for.

The Rev. Percival Jenks, who has now been rector for over forty years, was born in England in 1824. He was educated at home until he entered Winchester theological college, where he completed his studies for the min-

REV. R. J. DUNDAS.
Rector from 1860 to 1885.

istry. For several years he was curate of St. Paul's, Westminster road, London, a parish which must have afforded a splendid opportunity to study the "seamy side" of the great metropolis. When he came to British Columbia it was with the idea of settling at Hope, but on finding that there were only about seven families there he went to New Westminster, and then to Nanaimo, where he remained until he came to St. John's in August, 1868.

In his younger days Mr. Jenks was one of the most active men in town. For some time he taught a class in Angela college, and afterwards became principal of the Collegiate school, and in spite of the many calls he had upon his time carried out the interior decoration of the church. As a lecturer on botany and astronomy he was much sought after, and there are many to-day who recall the pleasure those lectures afforded them.

The rector has ever been most assiduous in the performance of his pastoral duties and he is loved and esteemed by every member of his congregation. He is an earnest preacher.

in Braille type for the blind, new books of the Bible were completed last year in Welsh, Spanish, Italian, Gujarati, and two Chinese dialects. The re-issue of the English Bible in revised Braille has now been completed. In producing editions of the Scriptures, the committee laid out \$106,553 last year, or 14,977 more than in the previous year. The cost of foreign deposits—\$34,121—showed a decrease of 11,653. On the other hand, the amount spent from the general fund on colportage—\$44,953—rose by 11,550. The other items of expenditure show an increase amounting to 11,475. Since its foundation in 1804 the Bible Society has issued over 222,000,000 copies of the Scriptures.

HEAVY DRINKER CURED

Samaria Cured Him and He Helps Others

"A man who has been released from the awful cravings of drink and whose first thought is to help others, shows the spirit of true brotherhood and philanthropy. Read his letter."

"The Samaria Remedy Co., Toronto, Ont."

"Will you please send me book on drink, also circulars relating to your valued remedy for the drink habit. I wish to hand these to a friend who is going to run through drink. You will remember that I have taken your remedy, and I find it to be all you claim it to be. I never think of taking or using strong drink in any way, as all desire for it has left me. I cannot speak too highly for your wonderful remedy. You may use my name in any way you wish in public."

"H. Lilywhite, Brigidon, Ontario."

Samaria Prescription is tasteless and odorless, and dissolves instantly in tea or coffee, or can be mixed with food. It can be given with or without the patient's knowledge. It removes the craving for drink, builds up the system and restores the nerves. Drink becomes distasteful and even nauseous. Drink is a disease, not a crime. One drink of whisky always invited another. The influence of drink is so strong that it is almost impossible to be satisfied by more whisky or removed by scientific treatment like Samaria Prescription. Samaria Prescription has been in regular and successful use by Physicians and Hospitals for over ten years.

If you know of any family needing Samaria Prescription, tell them about it. If you have a husband, father or friend that is drifting to drink, help him save himself. Write to-day, help him save himself. Write to-day.

A FREE TRIAL PACKAGE of Samaria Prescription, with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write to-day.

THE SAMARIA REMEDY CO., 75 Jordan Street, Toronto, Canada.

REV. A. J. STANLEY ARD.
The Popular Curate of St. John's.

Some few years ago he had a serious illness and last year he sustained an irreparable loss in the death of his wife. His people feel that after such a long term of faithful service he should now be spared, as far as possible, all worry and anxiety in connection with the church.

PAN-AMERICAN CONGRESS.

The Pan-American congress (says the Times correspondent at Buenos Ayres) have passed unanimously important resolutions favoring a universal international patent law, governing both Americas, and providing equal rights of protection against infringements. No patent will be granted in respect of inventions already patented, or for which a patent has been applied for in another state.

Reflect upon your present blessings, of which every man has many—not upon your past misfortunes, of which all men have some.

ST. JOHN'S CHURCH.
As It Appeared When First Erected.

laying of the first corner stone of St. John's church, Yarmouth, his late parish.

After the singing of the psalms, and some prayers, His Excellency Sir James Douglas, laid the stone in due form and declared: "This stone is laid in Faith and Hope, to the honor and glory of God, through Jesus Christ our Lord, Amen."

In his address His Excellency said: "I rejoice, gentlemen, that I have been spared to take part in the impressive ceremony we have just witnessed, and to see the foundation laid of another edifice which is to be dedicated to the worship of Almighty God."

"When first I landed a few years ago,

SHEPHERD FINDS ANCIENT SHRINE

Untouched by Human Hands for Seven Centuries—Aphrodite's Pastures Invaded

Untouched by human hands since at least seven centuries before Christ, the shrine (Paphos) in the classics of Aphrodite has been discovered at Rantidi, in the southwest corner of Cyprus. One of the discoverers, Dr. Max O. Richter, in his account in the Times, says: "We became as excited as if we had drunk a whole bottle of Yeuve Cliquot."

The worship of Aphrodite (Venus) is known to have been derived in part at least from the Phoenicians, who were in Cyprus some 3,000 years ago. Milton gives the other names of the goddess, who was Cupid's mother, in his lines: "Astereth, whom the Phoenicians called Astarte, Queen of Heaven." Ever since 1878, when the English occupied Cyprus, they have conducted archaeological research, notably at Kouklia, but it has been reserved for the Germans to discover the shrine a short distance away at Rantidi, a place mapped by Lord Kitchener in his early days.

Doctor Richter was led to the discovery in a way that reads like an eclogue: "One day a shepherd was sitting on one of the ancient stonefields of Rantidi. After playing for a long time on his reed flute he grew tired of his pastoral airs and began to scratch with his long staff one of the stones at his feet. As he did so he saw appearing on the surface of the stone in two regularly chiseled lines most curious signs unknown to him and quite different from the Greek inscriptions lying about in the temple yard of Kouklia, his village home, which he passed every day with his flock."

Ultimately this stone reached Mr. Cleonthis Pierides, expert in antiquities, who at once recognized the Cyprian syllabic inscription. The shepherd was invited to a sumptuous meal, and received a packet of tobacco, as well as a good bakshesh. He returned to his village, engaged some secret diggers, and in a short time ten inscribed stones or more, counting what were broken, were carried in mule carts to Limassol, the naval port of Cyprus.

Doctor Richter was informed, and located the spot with Doctor Koritsky, last May. "The new, like the old, road to Paphos runs through Rantidi. After walking for about ten minutes we lighted on the first field of ancient remains. A thick, more or less dense,

STATE OF WORK IN THE CHURCH

VALUABLE REPORT
READ AT CONFERENCE

In Optimistic Language Rev. Dr. Bland Reviews the Methodist Situation

One of the reports which attracted a good deal of attention at the recent meeting of the Methodist General Conference, was that on "The State of the Work," read by Rev. S. G. Stand, D.D., Winnipeg. Many of the delegates requested that it be printed for circulation and we are pleased to be able to present the report in full in this issue. It is an excellent summing up of church work and is most optimistic in tone. The report follows:

The committee on the State of the Work feels that this time-honored phrase imposes on it a very difficult task—a survey and criticism of the wide, complex, many-tinted and ever-changing Christian life of our Methodist people.

It has been concluded that, perhaps, nothing could lead men more directly into the heart of the subject than the memorial from the Laymen's Association of the Toronto conference, deploring the decline in class-meeting attendance, and asking for an inquiry as to the cause of such decline. So vital and characteristic an institution from the first has the class-meeting been, that perhaps no one feature of our life affords a better key to the understanding of the present spiritual condition of our church.

Too extravagant an estimate can scarcely be made of the value of the class-meeting in Methodist history. To it second only, and perhaps scarcely second, to the flaming evangel of Methodist preaching, has been due the unparalleled growth of Methodism. No more perfect embodiment of Christian fellowship has, perhaps, ever been discovered in Christian history. No instrument more effective in holding beginners in the divine life, and building them up in knowledge and character.

Still it has to be recognized, as the memorial states, that the class-meeting to-day is far from occupying the place it once held in the life of our people. Such a fact is one of grave concern, and your committee ventures to suggest the following reasons, as at least a partial explanation of it:

1. The deeply experimental character of early Methodism gave to the class-meeting a markedly subjective and emotional tinge. The present character of Methodist piety is objective, ethical rather than religious; reflective rather than emotional; active rather than introspective.

Where the class-meeting has adapted itself to the changed temper and has become a place for vital Bible study, and for the frank and full discussion of the problems and temptations of life, it has maintained itself with unabated or even increased power. And your committee is deeply convinced that there is a specific and permanent place in the church for the class-meeting; that no work in the church of Christ calls for finer qualities of knowledge, tact, character and religious experience than that of class leader; that no work is higher or more fruitful, and that pastors should steadily hold before the best of our people this claimant field of service, and seek to inspire them to qualify themselves for it. The fellowship meeting, it would suggest, neither can perform the function of the smaller and more intimate gathering, nor does it train up leaders, and the class-meeting to supersede the other only with loss.

2. But failing to find in the usual type of class-meeting the satisfaction for its characteristic needs our age has sought help in other forms. The class-meeting has declined partly because of the rise and development of Young People's Societies, Adult Bible classes, Young Men and Young Women's Clubs, Y. M. C. A. meetings, in which the craving for intellectual rather than the emotional stimulus has been to a greater extent met, and so far as this has meant that the study of God's word has taken the place of that introspective scrutiny which so easily becomes morbid, the institution of these forms of fellowship and edification for the class-meeting presents no cause for lament.

Not must also be made of the rich and varied nutriment for the Christian life furnished by the literature of to-day, not only by the periodicals and books ministering expressly to the religious spirit but outside these by a large element of the genuinely religious in the general realm of literature.

3. But the altered spirit of the age shows itself not only in craving for the light rather than heat, but in transfer of interest from the world within to the world without.

Each age on the church would seem to have its specific task. That of our own age the Christian church is coming to recognize as the establishment of the Kingdom of God upon the earth. The new conception of the missionary enterprise as not only the salvation of individuals, but the uplifting and redemption of nations and races with the new enthusiasm begotten of it as illustrated in the Students' Volunteer and the Laymen's Missionary Movements; the ever mightier and more varied and scientific philanthropies; the growing passion for clean and beautiful and well-ordered cities; the awakening to the recognition that land is doled in which righteousness is not public and national, as well as private and personal—all these indicate what as yet the church only partially realizes, that

a definitely new chapter of to-day in Christian history has begun, and that the Christian life cannot justly be measured by the standards of the past. There is today a Christianity without the church which the church fails to recognize only when loss and discouragement, and a Christianity within the church which finds its expression in service rather than in conventional religious exercises; and the most effective church will be the church which guides its membership more generally and heartily into the widest variety of human service.

Yet with the most cordial recognition that it is from the spirit of God that these impulses come, with the firmest assurance that we do not think ourselves Christians, the church of Christ must not add another to the many false antitheses which have been such a melancholy feature in her history. There was a time when the inner was opposed to the outer, when it was thought that the spiritual life could be most perfectly developed in retirement, when the salvation of the individual was sought while the social order was surrendered to the evil one. There is danger, or there may be, at least, in the near future, that in their enthusiasm for social betterment, men may forget that the religious is deeper and more potent than the ethical, that a high social order demands a high individual, and that the only unfailing spring of lofty and sustained effort is a deep and constant communion with God. There have been ages when the stream of Christian life was deep but narrow; it may in our day become broad but shallow unless Christian men by meditation and prayer and spiritual fellowship, keep open these secret channels by which the deepest life of men is fed.

But life is always twain, soul needs body as body needs soul. Neither the love of God nor the love of man can subsist alone. Inner and outer progress must proceed simultaneously. A better man demands a better society.

The church of to-day cannot but be deeply interested in the question of environment. She cannot be indifferent to the cramping and distorting pressure of unjust and oppressive conditions. Few things are more to be desired than that those who care supremely for the individual character, and those who feel the need of changes to institution and laws and usages should learn to understand each other.

Having regard to the influence of environment, your committee would earnestly suggest that the church of to-day should inquire most carefully into the working of the competitive principle in our commercial, industrial and political life. Competition in many of its forms is war, and war can never be made compatible with Christian brotherhood. It may be questioned whether anything in our present civilization is doing more to lower and impair the Christian life than the excessive competition which is so characteristic of our Anglo-Saxon civilization.

Even where it does not harden the heart and blunt the conscience by the force it exerts it puts on men a strain which many are not physically able to bear; it steals their time and interest that should be claimed by the home and the church and higher culture. Perhaps the chief reason why in some places men do not take the place in the church they should, is neither defect in preaching nor masculine indifference but the tyranny of business organized on the competitive principle. Careless and well-considered changes in the direction of a larger co-operation should be welcomed by none more eagerly than the church.

The old gospel, with new adjustments and new applications, that may perhaps be affirmed as the watchword of to-day, "The faith once for all delivered, but a living principle, a seed unfolding continually into new forms of beauty and fruitfulness. Our church, in common with her sister churches, has suffered from a certain difficulty in recognizing this. Reverence for a great and heroic past has seemed to constrain loyalty to the forms of thought and the methods by which that past expressed and propagated its faith. And there has been perplexity and discouragement when under new conditions the venerated methods and the cherished phrases no longer awakened the old response.

Between those, too, who cling to the tried wisdom of the past, and those who reached out eagerly to the new discoveries of the future there has been some misunderstanding and some sense of strain.

Yet at the close of the first decade of the twentieth century, almost wherever we look we see ground for hope. Misunderstandings are being resolved, alien temperaments are learning that each needs the other. The glorious catholicity of the apostolic church is being slowly but surely recovered.

Those who insist on individual regeneration, and those who call for social reform, are coming together. Christianity is coming to be seen, as a spirit whose fullness no one creed can express, whose infinite applications no one period can embody.

Each age must make Christianity at home with itself, must relate to its science and its social life, and must equally be prepared to find its interpretations and embodiments unsatisfactory to the age that follows.

Peace and progress may be difficult to reconcile, but as the one is not found in clinging blindly to the accepted and the familiar, neither is the other found in a reckless abandonment of them and both are united in the clear and steadfast vision of Jesus Christ through all the changing conceptions and institutions by which men have striven to express and embody His spirit, "the same yesterday, to-day and forever."

A photograph of a person, which does not have a perspective and relief has been invented by a Paris physician, who also was a pioneer in color photography.

AMONG THE CHURCHES

PRESBYTERIAN.
St. Andrew's.

Service of Praise.—A service of praise will be given at St. Andrew's Presbyterian church next Sunday evening, for which the choir and organist are preparing extra music. Solos and duets will be rendered by Mr. and Mrs. Alfred A. Codd, lately of Winnipeg, and Mr. Theodore Lennie, bass soloist of St. Paul's Presbyterian church, Montreal. An appropriate address will be given by the pastor, Rev. W. Leslie Clay.

BAPTIST.
First Church.

New Building.—Work on the new temporary building now being erected at the northeast corner of Yates and Quadra streets, is progressing favorably and it is hoped to have the opening ceremonies in the early part of the month of October. A committee of arrangements has this in hand and are corresponding with well known Baptist brethren on the coast, whom it is expected will accept invitations to be present. Special music is also in preparation under the direction of the choirmaster, H. J. Pollard.

Ladies' Aid.—At a meeting held last Tuesday afternoon a Ladies' Aid Society was organized in connection with the church. The following officers were elected: President, Mrs. C. W. Bradshaw; vice-president, Mrs. J. L. Beckwith; secretary, Mrs. M. E. Walter; treasurer, Mrs. H. Wilson; executive, Mesdames Gonnason, Price and Warnicker, with the foregoing officers. The first meeting of the new organization is called for Monday afternoon at 3.30 o'clock. A large attendance of the ladies is hoped for as plans for furnishing the new building will be in contemplation.

Baraca Annual Meeting.—The annual meeting of the Men's Baraca class was held last Tuesday evening in the Victoria hall. Officers for the ensuing six months were elected as follows: Hon. president, Rev. J. B. Warnicker, B.A.; president, Henry Driver; vice-president, W. Christiansen; secretary, Leonard Warnicker; treasurer, Albert Middleton; reporter, E. Stevens. During the evening reports were received from the retiring officers and the various committees. The Baracas are entering a team this winter in the second division of the football league.

Ladies' Philanthropic Class.—The Ladies' Philanthropic class resumed their meetings last Sunday and will continue to meet each Sunday afternoon hereafter at 2.30 o'clock.

Emmanuel.—The services will be conducted on Sunday by the pastor, Rev. William Stevenson, who will preach in the morning on "Jesus the Root and Offspring of David," and in the evening on "The Greatest Moving Pictures in the World."

Young People's Union.—The Y. P. U. commences a new session on Monday by holding a social. The committee has prepared a good strong programme of interesting subjects, including lectures by several well-known lecturers in the city.

Church Business.—At the next church meeting special business dealing with the organization of the church will be brought forward and voted upon, when it is hoped that members will be in their places.

BUYING AN AUTOMOBILE TIRE.

You don't buy an Automobile Tire out and out, you buy it upon the understanding that under certain normal conditions of usage it will give you so many thousand miles of service—therefore the actual cost of a tire is not its initial purchase price, but the purchase price plus the cost of tire repairs, during the time you are running your car. Dunlop Automobile Tires give a low average cost per mile, because, besides the quality of the tire, there is a further guarantee of service in the ready willingness of the Dunlop Company to thoroughly satisfy every user of Dunlop Tires.

EASILY TIRED, EXHAUSTED

Does This Describe You?—Then Read This Letter About DR. CHASE'S NERVE FOOD

The accompanying letter describes so well the condition of a person whose nerves are weak and exhausted that little need be added:

The dangers of such a state of health is sometimes overlooked by persons who do not realize that the next step is some form of paralysis which leaves one helpless in mind and body.

Mrs. Edward Schwartz, Ladysmith, Que., writes:—"It is a pleasure to let you know how I was benefited by Dr. Chase's Nerve Food. I was run down and weak, unable to do any household work, was easily tired and exhausted, lacked energy and ambition, was very nervous, easily irritated, could not concentrate the thoughts, hands and feet were cold, I could not sleep, had frequent headaches and dizzy spells and palpitation of the heart."

"Nervous prostration" was my trouble, but Dr. Chase's Nerve Food cured it all—and I cannot find words to express my thankfulness for this wonderful medicine."

The results achieved by Dr. Chase's Nerve Food are often more wonderful than words can tell. In cases such as this patient persistent treatment is necessary, but you are encouraged by steady and natural improvement until the cure is thorough and complete.

There is a satisfaction in knowing that each and every dose is bound to be of at least some benefit in rebuilding the wasted nervous system.

Dr. A. W. Chase's Nerve Food, 50 cts. a box, 5 for \$2.50, all dealers; or Edmondson, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Recipes.

EFFECT OF LICENSE DUTIES.

Mooney & Co., proprietors of large licensed houses in Dublin and London, have issued a circular to shareholders, stating that they cannot pay an interim dividend, their profits being wiped out by increased taxation under the budget. The head of the firm is a director of the Freeman's Journal, and brother of Mr. Mooney, M. P., whip of the Irish party.

What Other People Think

THAT VIENNA EXHIBIT.

To the Editor:—Referring to a communication in your issue of the 7th inst. regarding the Vienna exhibit written by Capt. Wolley, it would appear that he objects to my description of what I saw, on the ground that it is hostile criticism and has some bias attached. It was not so intended.

My letter was simply a statement of fact from one who did not get his information from an Old Country periodical, but at first hand.

My remarks were intended to give prominence to this feature—that the best of material was there, but that in the first place the name of the province was not pushed forward enough to catch the eye insofar as the general public was concerned, and, secondly, it was so imperfectly staged in the Canada building, where it was obscured by the C. P. E. that when contrasted with the other magnificent collections it did not tend to show off the very large variety of games in this wonderful territory to their very best advantage.

Regarding Mr. Lowenberg's interview in the Colonist of the 9th inst., he admits that in the Canada building the C. P. E. was unduly prominent, but qualifies this by the statement that the B. C. exhibit in this building was only an accessory to the heads shown in the "Hall of Trophies."

My contention is that if the whole of the B. C. contribution had been kept together and enough space been reserved to show it as a large individual collection, it would have been by far the finest and most representative of all the specimens of game shown in the entire exposition.

Where would a Canadian naturally look for his country's representation to a foreign show but in the Canada at British Empire building? My impressions were formed after a great many visits to the exposition, spread over a period of four weeks. I am, moreover, quite as much interested in seeing British Columbia get all the credit to which she is entitled, as it is possible for either Mr. Wolley or Mr. Lowenberg to be.

B. W. POWELL
September 10th, 1910.

WANTS LIGHT ON QUESTION.

To the Editor:—A friend and I dropped into the city council chamber Thursday evening, as we were informed that there was to be a meeting of the citizens' water committee to hear Mr. Moore on the Sooke lake side of the water question. Unlike some others, we want to get all the information possible on that question, no matter what the source it comes, before we again vote on this long drawn out problem.

On arriving there the council business had been completed and the mayor was just introducing Mr. Moore to the meeting. The first thing which struck the writer as peculiar was the desperate efforts that were made by certain gentlemen to prevent Mr. Moore from getting a hearing. In the pursuit of these dilatory tactics a venerable ex-mayor, a distinguished member of the trades and labor council, and an alderman from ward three, especially distinguished themselves. The first of these flatly accused Mr. Moore of "putting in," of insulting the members of the water committee, and of diverse other misdemeanors. He waxed warm in his anger and raised all kinds of objections against Mr. Moore's interference at this meeting. The labor man took another course. Apparently with the object of preventing Mr. Moore from speaking, by taking up all the time himself, rather than because he had anything to say. He talked for twenty-seven minutes by the clock, without saying much of anything. He even wandered off on to the question of street sprinkling, claiming that this could be done with salt water from these high pressure pipes. Apparently this gentleman thinks these pipes are to be kept filled with salt water all the time. I wonder how long they would last if they were.

If Mr. Moore had come to the city as a burglar to steal something, and had been caught in the act, he could scarcely have received less courtesy than he did. He was flatly contradicted at times, his motives were suspected, and he was told that no man with any reputation to lose would make some of the statements he had placed in his Sooke lake report. Yet through it all he was cool, suave, gentlemanly, and he impressed the writer as being thoroughly conversant with all the details of the subject.

Throughout the whole meeting one could not help asking himself why these men were so anxious to prevent Mr. Moore from being heard. This is a subject in which the taxpayers are deeply interested, concerning which every one wants all the information available. Why shut out any light, no matter from what source it comes? Why oppose free speech? Who is going to be hurt by full and free discussion? Are the merits of the Goldstream proposition to be measured as compared with those of Sooke that its supporters hold the fullest discussion? The action of its friends last night went far toward creating that suspicion.

If the gentlemen who compose the majority of that citizens' water committee wish the ratepayers to place any confidence in their recommendation they must show a little more liberality of spirit than they did last night. They must manifest a did not night intention to have all the information that can possibly be gleaned from every source go to the ratepayers. The people will be quick to resent any attempt to withhold anything from them or to keep them in the dark.

SPECTATOR.

A PROTEST.

To the Editor:—May I ask, in all seriousness, if the time has not arrived when some steps should be taken to put an end to the antics of those who for the moment, being "dressed in a little belief—authority," are dragging the fair name of Victoria into disrepute? I refer to the attitude of the mayor and certain members of the aldermanic board towards the city engineer, Angus Smith.

At two meetings held secretly it has been proposed to dismiss the city engineer and pay him a year's salary. As far as I can gather from the pub-

Nyal's FAMILY REMEDIES

LOOK FOR THE DANDELION COLORED PACKAGE

That trade-mark is widely advertised for YOUR protection. When you see the name NYAL'S on a family remedy you can be quite sure of three things, viz:

First—Pure ingredients scientifically compounded.

Second—That its beneficial effects have been proven.

Third—That we know the formula and your doctor may know it too.

Nyal's Family Remedies are made by a house with a solid reputation of over half a century. The formulas are all exceptionally good—very similar to what your doctor would prescribe. We know what's in all Nyal's Remedies. That's why we recommend them.

Anything you buy with the name **Nyal's REMEDIES** will give you entire satisfaction.

READ THE DAILY TIMES

lished reports he is denounced as an incompetent. Now, surely, if this charge be true it is capable of demonstration. Mr. Smith, on being interviewed on the occasion of the first attempt to dismiss him, hinted that he was the victim of a conspiracy. That is the engineer's story.

But what I object to is the indisposition of the mayor and those on the board who take sides with him to let the public into their confidence as to what evidence they hold that the city engineer is incompetent. There is something mysterious about the whole business—and I am sure it is damaging to the good reputation of the city. How can we expect to get the services of professional men of any status when it is on record that our mayor and council do not seem capable of treating those in the employ of the city with ordinary decency? I really cannot imagine any other city in the world of the size of Victoria tolerating what the people of this city have put up with since the present mayor assumed the reins of office.

MERCHANT.

For the second year in succession the corn crops of the Old Country have furnished the unfavorable anticipations based upon the meteorological conditions of a season which has been in many respects unmitigated to some of them. On the whole (says the Economist), so far as can be judged, probabilities seem to point to a sufficient supply of wheat for the coming year.

Municipal Notice

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable to construct permanent sidewalks of concrete on both sides of Collinson Street, between Cook Street and Trutch Street, and to construct curbs, gutters and boulevards (including maintenance) on said street, and that the said work shall be carried out in accordance with the provisions of the Local Improvement General Bylaw and amendments thereto, and that the Engineer and City Assessor having reported to the council in accordance with the provisions of section 4 of said bylaw, upon each and every of said works of local improvement giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said works and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the council:

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the city assessor, City Hall, Douglas Street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the council within 15 days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by bylaw in that behalf regulate and determine.

DOCTORING TREES IS NOW A SCIENCE

Regular Dispensary Service Maintained by New York Parks Department

An alert and efficient dispensary service is maintained by the park department of New York City for all trees which may be attacked by illness or accident of any kind. If the patient has met with a bad accident which demands an immediate surgical operation a skilful tree surgeon is at once rushed to the spot. In case of tree sickness of any kind the patient is visited, diagnosed and a prescription is issued.
Within the past three years more than 25,000 trees have been treated in Brooklyn alone. In a single year fully 4,000 surgical operations have been performed on trees. The operations have been almost invariably successful.
The anxious attention directed toward keeping the city trees in good health comes to the average citizen as a surprise. In Brooklyn a complete census is kept, up to the minute, showing the location of every tree and recording its exact condition.
A number of inspectors are employed to canvass the streets thoroughly. If a tree, no matter how unimportant the street, is menaced by a disease its condition is closely watched. It is, of course, much more difficult to keep a great number of trees in good condition in the city than in the country, and in view of this the condition of our trees in New York is surprisingly good.
Tree surgery has come to be an exact science. It is, of course, by far the most interesting part of the city forester's work. An accident to a tree which a few years ago, would have quickly proved fatal, is now handled with perfect confidence.
A heavy windstorm, for instance, gives the tree surgeon plenty to do. Suppose a valuable tree in the track of the storm is badly split, a few years ago the case would have been hopeless, and the broken limbs must be cut away and destroyed.
To-day the tree surgeon handles the fracture in a thoroughly scientific manner. The fractured surface or wound is first cleansed antiseptically. It would never do to allow any disease germs to lodge in the exposed surface. The air itself is full of microscopic organisms, which would gradually eat out the very heart of the tree.
The fractured surfaces are thoroughly cleansed and brought together and bolted securely in position. A water shed, usually of cement, is then arranged so that no water can work its way into the crevices.
Formerly a split tree was held together by metal bands. As the science of tree surgery has developed it has been found, however, that a tight band tends to check the circulation of the sap of the tree, just as a tight band about a leg or an arm would interfere with the free circulation of the blood.
Another danger of the band is that if neglected the tree will gradually grow about it and be seriously injured. On the other hand it does no damage to a tree to have a bolt hole.
There are many kinds of fungus growths which may only be treated successfully by resorting to an immediate surgical operation. The growth may be scarcely noticeable at first, but it quickly eats its way into the very heart of the tree, the moisture next enters, and causes decay, and the first thing the owner knows the wind blows it over.
The tree surgeon attacks the root of the problem. The affected part is skilfully cut away and the exposed surface washed with a solution of carbolic acid. In case the tree has been drilled with small holes a solution of carbolic acid is injected forcibly into the cavity and surrounding tissues by means of a powerful syringe.
The cavity once made septicly clean is filled with cement. It is not enough to fill up the cavity until the cement is flush with the surface. The filling must be done about as carefully as though it were a tooth.
The art of filling a tree cavity is to shape the cement at the edges of the wound in such a way that the new wood may grow over it, and completely seal the exposed surface.
If this is not skilfully done an ugly wound is produced. It is very common for the wound to remain open so that in time moisture will force its way in and produce widespread decay.
The filling must give the sap every opportunity to heal the wound. This sap, which is digested by the leaves, is sent back to the trunk of the tree to make new wood. A tree is, of course, always trying to heal itself.
There is great art again in pruning, as regards the treatment of the wounds. If a limb is simply amputated and carelessly treated or neglected downright, the wound not only does not heal, but is likely to form an opening, through which dangerous germs will find their way into the very heart and circulation of the tree.
The limb should not be sliced off, hit or miss, but the angle at which the amputation is made must be carefully determined. If there be any crevices they should be treated with antiseptic washes, and then covered with salves to keep the air from the exposed surface.
It sometimes happens that a cavity must be filled in a tree which is constantly swaying in the wind, when special precautions must be taken. The vibration will quickly loosen the cement filling and crack it. In such cases a metal plate may be introduced in such a way that it will keep the cement in position.
Many diseases of trees are particularly fatal when permitted to develop in darkness or with the assistance of moisture. In operating on a wound it is therefore of the utmost importance that no germs be allowed to remain in the tissues. A careless operation which left such germs under the cement filling would, in all probability, prove fatal in the course of a few years.
When a suspicious hole is noticed in the bark of a tree the tree surgeon at once proceeds to wash it out with a powerful solution, and then fill it up thoroughly with soap, just as a surgeon covers a wound with cotton.
A particularly difficult wound to treat is a long crack or hole which penetrates far into the inner fibres, it

is often impossible to reach all the diseased surfaces with a knife. In this case it is a common practice to fumigate the interior of the trunk.
A powerful antiseptic solution is then forced into the innermost recesses of the crack. When there are narrow recesses where it is difficult to force the cement the surface is painted with white lead paint.
The entire interior of a tree may become so affected that a great shaft or hollow space must be filled with cement. In some cases when the cavity is very large a reinforced concrete construction is resorted to.
In the spring the trees are sprayed to remove all scales. There are six of these spraying machines in Manhattan alone, each equipped with twelve sprays. From two to four men accompany each wagon.
The trees must be sprayed again for all forms of plant lice which abound in this region. The caterpillar is one of the most dangerous enemies, and it is only by eternal vigilance that tree doctors manage to keep the upper hand.
There are an annoying number of dangerous insects in and about New York. There are feeding insects which bore into the wood, while others suck the sap, and still others eat up the leaves. The ordinary medical remedies are employed whenever possible. In the serious cases the tree surgeon must be called in.

PROGRAMME FOR THE FALL FAIR

The official programme for Victoria's fall fair, which opens on September 27, is as follows:
Tuesday, Sept. 27th—Children's Day.
10 a.m.—Judging of section 1, Clydesdales.
10 a.m.—Judging of section 76, standard bred horses.
10 a.m.—Judging of section 196, Holsteins.
2 p.m.—Grand opening of exhibition by his Honor Lieut.-Governor Patterson, accompanied by Hon. Richard McBride and others, to be escorted by a guard of honor composed of drafts from Military Cadets, Boy Scouts and Boys Brigade. His Honor and party to be met at the gate by the president and officers of the association, escorted through the buildings and thence to grand stand, where his Honor will declare the exhibition open. Short speeches by the president, Hon. Richard McBride and the minister of agriculture; responded to by his Worship the Mayor.
2 p.m.—Class 71, most accomplished lady rider.
2.15 p.m.—Class 72, most accomplished gentleman rider.
2.30 p.m.—Class 73, most accomplished young lady rider, from 10 to 15 years.
2.45 p.m.—Opening address at grand stand.
3.10 p.m.—Parade of military cadets, Boy Scouts and Boys Brigade.
3.25 p.m.—Elephant performance.
3.40 p.m.—Class 74, most accomplished boy rider.
4 p.m.—Lieut.-Governor opens V. I. arts and crafts exhibit.
4 p.m.—Opening of rough riding competition.
4.10 p.m.—Class 75, most accomplished girl rider under 10 years.

INVESTIGATION AGAIN POSTPONED

Ballinger's Friends Fighting to Save His Face—Minority Active

Minneapolis, Minn., Sept. 10.—Chairman Nelson of the Ballinger investigating committee yesterday called off the meeting of the committee scheduled for the afternoon and instructed the members to meet in Chicago next Tuesday morning. Inability to secure a quorum is supposed to be the reason for postponing the meeting. The anti-Ballinger members of the committee declared they would disregard Chairman Nelson's order to meet in Chicago next Tuesday. They will continue their session here, they say, and make a formal report. This action on the part of Ballinger's opponents on the committee makes it appear probable that the committee may meet in two sections, and that two reports will be rendered.

Senator Root telegraphed the committee yesterday and it is expected he will leave New York at once for Minneapolis. It is evident that the bolters intend to prevent a quorum being present at the sessions until the other members of the committee arrive. A later telegram from New York announced that Senator Root is on his way west.

The morning session was taken up with the efforts to induce the bolters to return. The latter suggested adjournment to Chicago, urging their desire for a full attendance, as the meeting was of great importance. The anti-Ballingerites asked Chairman Nelson to arrest Sutherland, McCall and Denby and force their attendance. A United States marshal waited outside the door of the room in which the committee was meeting to carry out the order if it was issued. Senator Nelson declined to act, saying that he had no authority to issue such an order, and during a recess left the room.

An hour after Secretary Slesman handed the waiting members a notice that the meeting had been adjourned to Chicago. After waiting half an hour longer in order to establish Nelson's intentional absence, Representative James of Kentucky rose and formally recited the futile efforts that had been made to secure a quorum. He submitted a report which is being held in abeyance. It reviews the charges and contains a digest of the evidence and declares that the charges made by Glavis and Pinchot have been sustained; that Secretary Ballinger has been found unfaithful and recommends his

removal. The report contains about 15,000 words.

LOOK FOR INVESTMENT.

Much Foreign Capital Seeking Timber Limits.

Vancouver, Sept. 10.—Representatives of German, French and Australian capital are now visiting British Columbia with a view to purchasing timber limits. Several deals are pending. The agent of a French syndicate recently arrived here after making an inspection trip through Oregon and Washington, and after looking up the question of title they concluded that foreign capital would be better protected in British Columbia than over there and accordingly will recommend the purchase of several tracts of timber.

An Australian syndicate also recently sent an agent here to look for a timber proposition. He has recommended the purchase of a tract on Vancouver Island, estimated to contain three billion feet.

FRIENDLESS AND DYING.

Portland, Ore., Sept. 9.—Dying from the ravages of tuberculosis and starvation, John C. Gustafson was removed to a sanatorium to-day from a room in a cheap lodging house where he had remained without food for 18 days. The man was discovered late last night by a patrolman. According to Gustafson's whispered statements, he contracted tuberculosis two years ago. He sought relief in the southwest without success, and finally returned to Portland.

Three weeks ago he decided to adopt the starvation method of eradicating the tubercular germs from his system. He rented a small back room, and the proprietor of the place forgot about his guest until last night, when the police were called and the door broken in.

MARITAL TROUBLES.

New York, Sept. 9.—Hysterical, hair dishevelled and perturbed, Robert Chanler, who recently married Mme. Cavalari, the opera star, arrived in New York to-day. The reported separation between them is generally credited here. When a reporter entered Chanler's apartments he was shouting to a friend—"I'm through, I tell you, I'm through."

When questioned by the newspaper man about the report that he had left his wife and did not intend to return he was petulant. "You came here to ask me about my private affairs," he said, "but I will tell you nothing. It's nobody's business. I can keep my business to myself and also my troubles, if I have any."

JUDICIAL APPOINTMENTS.

Beverly, Mass., Sept. 9.—President Taft was deeply affected to-day when he was informed that Solicitor General Lloyd W. Bowers was dead. He heard the news while on the golf links. Taft and Bowers had been close personal friends for many years, having attended Yale together.

The death of Bowers opens up the matter of appointments to the supreme court. Taft had planned to appoint Governor Hughes of New York chief justice and name Bowers to succeed Justice Brewer and Judge Francis J. Swayne of New Jersey to succeed Justice Moody, who plans to retire.

CHARGE AGAINST SCOUT-MASTER

Montreal, Sept. 10.—Cuthbert Singleton, a boy scout-master, recently from England, was arrested by Constable Lauzon at the Mountain park on charge of assault on one of the young members of the Boy Scouts aged 12 years. Judge Lanctot was very severe on the culprit, whose guilt was conclusively proved, and he was sentenced to six months' imprisonment, a fine of \$50 or three months more, and then to be deported.

POLICEMAN DECORATED.

Ottawa, Sept. 10.—Corporal Walter Smith of the Royal Northwest Mounted Police, has been awarded the Imperial Service medal.

EE CONTAIN NO POISON EE

CIVIC NOTICE.

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:

- To grade, drain and pave with asphalt Government street, from Belleville street to Michigan street, and to construct boulevard (including maintenance), curbs and gutters, on both sides of said street between Belleville street and Superior street, and sewer connections, water mains, and moving poles if necessary.
- To grade, drain and macadamize with bituminous Government street between Niagara street and Dallas road, and to construct gutters on both sides of said street, including the cost of surface drains, sewer connections, water main, and moving poles, if necessary.
- To widen sidewalks and to construct curbs and gutters on both sides of Yates street, between Douglas street and Blanchard avenue.
- To construct curbs and gutters on both sides of Quadra street from Blanchard avenue to Pandora avenue.
- To pave with asphalt Vancouver street from Pandora avenue to the south line of Burdette avenue (roadway 32 feet wide), including cost of sewer, surface drains and water laterals.
- To grade, drain and pave with asphalt Fort street, from Yates street to St. Charles street, including the cost of sewer connections to sewers, surface drains, and water mains.
- To pave Rockland avenue with asphalt between Vancouver street and Moss street (roadway 30 feet wide), and to construct curbs, gutters and boulevard on each side of Rockland avenue between Vancouver and Cook streets, including cost of sewer and surface drains laterals.
- To pave with asphalt Richardson street (roadway 26 feet wide between curbs), and to construct boulevard on both sides of said street, including cost of sewer and surface drain laterals.
- To widen, grade and rock surface Poul Bay road from Fairfield road to where Poul Bay road crosses Section 2, and that the said work shall be carried out in accordance with the provisions of the Local Improvement Act, 1909, and amendments thereto, and the City Engineer and City Assessor having reported to the council in accordance with the provisions of Section 4 of said by-law, upon each and every of said works of local improvement giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said works, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the council.

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, is presented to the council within 15 days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by by-law in that behalf regulate and determine.

NEW MACHINERY FOR HEDLEY'S GOLD MINE

Engine Being Put in to Drive Dynamo, Which Will Run Stamp Mill

Hedley, Sept. 9.—During the past week another consignment of new machinery for the Hedley Gold Mining Company came to hand, the most important part of it being the new compound condensing Corliss engine, which in the auxiliary steam plant is to furnish all the motive power outside the supplying of compressed air for the drills at the mine, that being furnished by the big air compressor installed last spring and utilizing either steam or water or both.

This new engine, however, will only work with steam and during the time that water power is available its work will be done by a separate water wheel which is yet to come. The engine now here is a 21x30 compound condensing Corliss engine built by the Goldie & McCulloch people of Galt, Ont. It will be required to drive the electric trolley line at the mine, and furnish juice for all the various electric motors in the mill, including the stamps, vanners, crushers, tube mill, Delster tables, filter presses, classifiers, pumps, etc.

It is a machine with ample reserve power and capable of the highest degree of efficiency for long periods without a moment's cessation. The bed plate of it alone weighs about ten tons. It is to be placed at the south end of the power house alongside the generator it is to drive and connected with it direct, while the water wheel which is to relieve it will be placed at the other side of the generator. The water wheel will not be here for some time yet, as the manufacturers were held up by a moulder's strike and will not be able to ship before next week, which will leave it pretty late in the fall before it can get here to be installed. The generator has also been later in coming than was counted on, but will likely be here before the water wheel. Meanwhile the cement foundations for both of them are being made ready for them.

FIRST DEER OF SEASON.

Prince Rupert Hunters Are Out After Game.

Venison is on the bill of fare here, but as far as known only one deer has been brought in, and this was exhibited at the Prince Rupert fish market. It came from Porcher Island and weighed one hundred and thirty pounds. There has been no change in the game regulations as to deer, and the open season for pheasants, blue and willow grouse, quail, and quail, will start on the 15th of September as originally set. This announcement is contained in a letter from the provincial government to C. E. Todd, chairman of the Vancouver Island Fish and Game Club, which body requested the authorities to postpone the shooting of a fortnight, making all game legal prey from the 1st of October.

TWO ARCHITECTURAL MASTERPIECES

Two of the most magnificent pianos that have ever been made in Canada are now being displayed to interested visitors at the New Scale Williams piano warerooms. These are the New Scale Williams "Louis Grand" and "Baby Grand."

These grand pianos—with their elegance and beauty of design and finish—would be superb ornaments to any home and certainly reflect infinite credit on the master-minds which created them from wood and metal. It is hardly necessary to mention the fact that the tone is fully in keeping with the appearance.

These pianos may be seen at the warerooms of M. W. Waitt & Co., 1004 Government Street.

DEAL WITH SCHOOL OVERCROWDING

New Westminster Takes Up Matter at Special Meeting—Remedies Are Suggested

New Westminster, Sept. 9.—At a special meeting of the New Westminster school board the question of the overcrowding of the city schools was taken up.

The trustees indicated that they considered the question an important one and it is the general opinion that before the autumn term has far advanced the accommodation of all the city schools will be taxed to the limit. In the Boys' and Girls' Central school, and the High school on Sixth street it is believed that the present staff will be amble for the present by re-arranging the classes. Should the attendance increase materially during the progress of the term some further arrangement will be made.

At the Lord Kelvin school Monday a large number of the attendance of children, particularly in the primary and junior rooms that many had to be turned away until provision was made for their accommodation. To obviate this difficulty the board has decided to open a primary room in the old school building on Fifth street, near the Sixth Avenue Methodist church. The question of any further provision for room in any of the city schools will be considered at the next regular meeting.

The work of the Manual Training department which is now in charge of William Nelson has increased so rapidly that unless assistance is secured a part of the work will have to be dropped. The secretary was instructed to make inquiries as to the feasibility of securing an assistant and if possible one who can also teach drawing in the schools. More equipment for the manual training department is also required, including work benches and tools.

MAY INVEST IN RUPERT.

Prominent French Financiers Visit That City.

Prince Rupert, Sept. 7.—The sons of two of the wealthiest families in France have been in Prince Rupert this week in the persons of Camille Riboud of Lyons, and Maurice de Schlumberger of Paris. Mr. Riboud's father is one of the principal bankers in France, and the visitors stated that their mission to this country was to investigate the opportunities presented for capital, and that in all probability a great deal of French capital would be poured into British Columbia in the near future.

Canada, however, is not their only field of investment, for they are making a tour of the world, and wherever prospects look bright they will advise their principals in the old country. They came to Prince Rupert on the invitation of C. M. Hays. After this trip they will call for Honolulu, Japan and China.

NEW BANK MANAGER.

Prince Rupert, Sept. 9.—A change is to be made in the management of the Bank of British North America in this city. About four months ago Mr. Stotham, one of the inspectors of the bank, came to the city and opened the branch. He is now to be removed to a permanent manager will take his place here in the person of F. S. Long of Dawson. The new manager is well known to many residents of this city and throughout the whole of the north. He is a popular banker and will be an acquisition to the business life of the city.

VERNON CIVIC AFFAIRS.

Vernon, Sept. 9.—Things have been moving rapidly in municipal matters during the past week. In connection with the hotel closing by-law, a large deputation waited on the council and presented a petition to have the by-law remain intact. Ald. Howard was accused of accepting a contract from the city and the charge admitted and as a result has been compelled to resign his seat on the aldermanic board.

One hundred and twenty applications were received for the position of city clerk. The old plumbing by-law has been torn to ribbons so as to do away with what some of the aldermen called the plumbing monopoly which has hitherto been in existence.

The grand meaning of faces, as well as of written words, may be chiefly in the impression of those who look on them.

SKEENA BEING POLLUTED.

Hazelton, Sept. 6.—Offal from the slaughter house at Mission point is being dumped into the Skeena river. When coming up the trail from Sealey to Mission point one day this week refuse from beef carcasses had grounded at several points and the resulting smell was very noticeable. There is a chute leading from the slaughter house to the water's edge, apparently used for running all offal into the river. No other means of taking care of it was in evidence.

All for two dollars: A neat, durable, attractive, handy lantern that gives a good light, suitable for buggy, wagon or cart. See it at Brown's, 1320 Douglas street.

Uncle Walt The Poet Philosopher

When a beggar asks a dime, loosen up! To refuse him is a crime—loosen up! When we need some money down for a scheme to help the town, draw your bundle from your gown—loosen up! If the hausfrau needs a hat, loosen up; if the daughter wants a rat, loosen up; if your children have the blues 'cause they're needing shirts or shoes, and are shy the revenues, loosen up. When the elders pass the plate, loosen up; help the church to pay the freight—loosen up; when it's time to pay your tax, do not use your trusty axe on the poor assessors' backs; loosen up. If you'd have a happy life, loosen up; if you'd have a joyous wife, loosen up; if you'd walk in ways of peace, finding things as sleek as grease, loved by people and police, loosen up. In the raging winter storm, loosen up; when the summer days are warm, loosen up; in the fogbank and the sleet, in the store room, in the street, blow your bundle and repeat—loosen up. When you hear a wail of pain, loosen up; when the homeless folk complain, loosen up; spread your shining seeds abroad; when you're laid beneath the sod you can't use your little wad—loosen up!

Broad and View Streets.

WANT A BARGAIN?
We are instructed to sell at once, and on very reasonable terms, the following choice property: 8-roomed modern house with full basement and hot air furnace, 4 large lots, corner on Fort street. Price \$6,500. See us about this if you want an unusually good buy!

MERRITT'S ELECTRIC LIGHTING SCHEME
Company is to Instal Plant to Be in Operation Before Christmas

Merritt, Sept. 8.—If everything goes along according to present plans the metropolitan zone of Merritt will be further enhanced within the next few months by an electric lighting system.

This was fully decided upon at a meeting of the Merritt Water, Light & Power Company. The company, which was organized several months ago with A. W. Strickland, president, and G. B. Armstrong, secretary-treasurer and director; Wm. Voght, Wm. McIntyre, Jos. Collett, A. W. McVittie, directors; W. E. Green, Dr. Curtin, Geo. E. Hygh, S. L. Smith, John Hutchison was appointed assistant secretary.

It is the intention of the company to have an electric light plant with a 1,000-light capacity in operation before Christmas. Arrangements are already in progress for securing the plant. Two large capacity gasoline engines are to be installed for the present to operate the dynamo. One of the engines would be enough for present purposes, but the other is to be used as an auxiliary when required, to ensure the continuance of the system in operation.

Street lights are to be arranged for, and it is expected that the expense of these will be met by public subscription until such time as incorporation materializes.

The members of the company have every confidence in the future of the town and are fully alive to its requirements in the way of modern improvements and the decision just made to go ahead with a street lighting system is only a forerunner of other enterprises into which it is the intention of the company to embark just as soon as circumstances will permit. By a perusal of the names mentioned above it will be seen that the company is substantially backed by progressive business men who have a habit of going through with whatever they undertake in a manner that spells success.

A. M. GREGG
REAL ESTATE, INSURANCE, ETC.
620 JOHNSON ST.

Victoria is on the verge of the biggest boom that has ever been witnessed on the Pacific Coast. Why not take advantage of your opportunity today. Get in line and buy your own home on easy terms. I have one of the largest lists of houses and lots for sale in the city. From my list you may secure a beautiful home in any part of the city on terms to suit your requirements. Procrastination is the thief of time; therefore its up to you to act at once. Now.

CONGREGATION SHOULD HELP CHOIR IN SINGING

"Make Some Noise, Even if You Cannot Sing," Requests St. Andrew's Church Pastor

New Westminster, Sept. 9.—The congregation of St. Andrew's Presbyterian church is not enthusiastic enough in the singing of hymns at the Sunday services, according to Rev. J. S. Henderson, who has admonished his flock in this respect.

"In future I would like to hear the congregation to take a heartier part in the singing than is now the custom," commented the preacher. "I know that many of you realize that you could hardly follow the Psalmists' instructions to 'make joyful sound,' but anyway you can at least make a noise. The hearty singing of bygone times is sadly lacking in these days and I would like to see it revived. I intend bringing this matter to your notice every Sunday until there is a noticeable improvement in the singing."

The church choir is evidently at one with the pastor in this respect, for an effort is to be made this fall to considerably improve the choir in numbers and usefulness, presumably with the intention of gaining the volume of sound expected from the auditorium into the right channels.

Incidentally, the new organ motor, which is operated by water power, is to be in use in about two weeks' time.

STOMACH DISTRESS AND DYSPEPSIA GO

Heartburn, Gas and Indigestion Vanish and Your Stomach Feels Fine in Five Minutes

As there is often someone in your family who suffers an attack of indigestion or some form of stomach trouble, why don't you keep some Diapensin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy stomach five minutes after.

Tell your pharmacist to let you read the formula, plainly printed on these 50-cent cases of Pape's Diapensin, then you will readily see why it makes Indigestion, Sour Stomach, Heartburn and other distress go in five minutes, and relieves at once such miseries as Belching of Gas, Eructations of sour, undigested food, Nausea, Headaches, Dizziness, Constipation and other Stomach disorders.

Some folks have tried so long to find relief from Indigestion and Dyspepsia or an out-of-order stomach with common, every-day cures advertised that they have about made up their minds that they have something else wrong, or believe theirs is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is, what you eat does not digest. Instead, it ferments and sours, turns to acid; Gas and Stomach pain, which putrefy in the digestive tract and intestines, and, besides, poison the breath with nauseous odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the Stomach, is waiting for you as soon as you decide to try Pape's Diapensin.

KING LEOPOLD'S FORTUNE.

According to the Brussels Patriote, the Belgian government and the heirs to the fortune of the late King Leopold have not come to a satisfactory agreement. With regard to the question of the Coburg foundation, Countess Louisa and the creditors of Princess Louise are upholding their rights, while the Belgian government claims the whole of the assets.

THE B. C. LAND & INVESTMENT AGENCY, LTD.
822 GOVERNMENT STREET.

FOR SALE, CHEAP, ONE OF THE BEST KNOWN FARMS NEAR WEST HOLME.

This most desirable property consists of 100 acres, of which 25 is good bottom land under cultivation and pasture, three small paddocks and orchard. The remainder is bush land, containing some timber, parts of which can easily be cleared. Creek runs through property. Bottom land stands dry summers and will grow anything.

WATER is obtained by gravitation from tank on property, and water rights are recorded. Water is laid on to house, garden, barn and stable yard; also well and pump in garden.

FARM BUILDINGS—One Barn, 11 cow and 2 calf stalls; Loose-box, 2 stall stable; separator house, machine houses, buggy house and granary with loft overhead; two pig sties; three row houses and 4 enclosed runs; good 4-room cottage and wood shed.

HOUSE—The dwelling is a good, modern one, containing 2 sitting and 4 bed rooms, kitchen, pantry, larder, bathroom (h. and c.), W. C. connected with septic tank, linen room; wood shed and workshop behind house; verandah 3 sides of house; china, glass and kitchen utensils are included.

STOCK—Three horses, 8 cows (4 Holstein, 1 Jersey, 3 grades), 1 heifer (Holstein), 1 bull calf (pure bred Holstein), 4 pigs, 20 head of fine bred poultry.

IMPLEMENTS—All implements (space will not permit of enumeration) are included in the purchase price.

SITUATION—This farm lies in a sheltered position on trunk road 6 miles from Duncan, 1 1/2 miles from Westholme, P. O., and one mile from Tye Siding.

The house is in thoroughly good repair, and newly furnished throughout, including glass, china and kitchen utensils.

The reason that this property is up for sale is, that the owner has to leave to attend to urgent business in England.

PRICE IS \$14,000.
Half cash, remainder at 6 per cent. for 6 years. This includes furniture, or if desired can be purchased without furniture.

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1902," to obtain a license in the Victoria Division of Victoria Water District.

(a) The name of Company in full—The Terminal Gravel Company, Limited. The head office—265 Hastings street, Vancouver, B. C. The capital, now divided, showing amount paid up—Capital, \$250,000 divided into 2,500 shares of \$100 each; \$150,500 paid up. (If for mining purposes) Free Miner's Certificate No. . . . Not for mining purposes.

(b) The name of the lake, stream or source (if unnamed, the description is—Lake on the southeast slope of Mount Wood, Malahat District.

(c) The point of diversion—On the north side of said lake.

(d) The quantity of water applied for (in—Dam at south side of said lake and culvert for discharge—Gravel pit on west of Saanich Inlet, south of Indian Reserve.

(e) The character of the proposed works (in—Ditch on north side.

(f) The premises on which the water is to be used (describe same)—Gravel pit on west of Saanich Inlet, south of Indian Reserve.

(g) The purposes for which the water is to be used—Washing gravel and industrial purposes generally.

(h) If for irrigation describe the land intended to be irrigated, giving acreage—Not for irrigation.

(i) If the water is to be used for power or other purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return—Not to be used for power or mining, but can be returned into John's Creek below lake on north side of Malahat mountain; 750 feet approximate difference in altitude.

(j) Area of Crown land intended to be occupied by the proposed works.

(k) This notice was posted on the 25th day of July, 1910, and application will be made to the commissioner on the 25th day of August, 1910.

(l) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the point of diversion—Nanaimo Railway Company.

Attach copy of such parts of the Company's memorandum of association as authorize the proposed application and works.

(p) To construct and operate works and to supply and utilize water under the provisions of the Water Act, 1902; and to apply for, receive and enjoy all powers and privileges authorized to be conferred on any Company under the provisions of the said Act.

(q) To construct and operate works and to supply and utilize water under the provisions of the Water Act, 1902; and to apply for, receive and enjoy all powers and privileges authorized to be conferred on any Company under the provisions of the said Act.

(r) The place of the proposed works (in detail)—Lake on the southeast slope of Mount Wood, Malahat District.

(s) The means by which it is proposed to store the water—Dam at south end of lake.

(t) The area of the reservoir site (in detail)—(1) 677,360, (2) 717,054, (3) 756,740, (4) 815,472, (5) 871,177, (6) 899,229, (7) 922,301, (8) 955,385, (9) 984,468.

(v) How it is proposed to acquire the land necessary for the purpose—By arrangement with owners.

(w) Approximately the number of acre feet intended to be impounded—19.5.

(x) Whether it is proposed to lower the water in any natural lake or standing body of water, and if so, then—Not intended to lower.

(y) The anticipated extent of the lowering and re-fill—.

(z) The nature and character, in detail, of the works proposed to be constructed to provide for the discharge and penning back of the water—1,600 ft. dam. Not intended to lower.

There seems to be no doubt that Victoria is to have at last the modern theatre which its position among the cities of the coast entitles it to. The proposition is being mooted on a thoroughly sound business basis, and for that reason the plans are proceeding apace.

The new house will be built on the large lot at the corner of Government and Elliott streets, adjoining the Parliament buildings and the Grand Trunk Pacific hotel. No finer site could be obtained anywhere and the building plans which have been prepared by L. W. Houghton, Seattle, show that the edifice will be worthy of those which will surround it. The contracts for the excavation will be let within a few days and the builders will be held to a guarantee that the house shall be completed by January 1. Thus Victoria will lose none of the attractions which E. R. Hicketts had already booked for the season of 1910-11 which will offer as the season advances.

It is proposed to incorporate a local company to acquire the site and build the new theatre, the cost of the building and equipment being estimated at between \$75,000 and \$80,000, and the cost of the site at \$30,000, for which \$110,000 worth of debentures will be issued, guaranteed to bear five per cent. interest. Simon Leiser, Richard Hall and C. W. Rhodes are named as the provisional trustees, to act for all parties concerned. The debentures are to be doubly secured, by first mortgage on the property and by the guarantee of the Northwest Theatrical Association as to twenty years' lease returning continuous net dividends of five per cent. per annum. The owner of the proposed site is sufficiently impressed with the desirability of the investment to accept debentures in full settlement of the purchase price.

Marc Klaw, one of the members of the firm of theatrical managers which for years figured as the ruling power in the syndicate, left New York today for the Pacific Northwest. It is understood that Mr. Klaw is on his way to this part of the world to look into the opportunities for bookings for the season now opening and for the future. The policy of the recently formed National Theatre Owners' Association of which John Cox is president and the Northwest Theatrical Association is a member—being that of "open houses." Klaw & Edwards at any other. That firm is quite alive to the value of the northwest cities, including Victoria and Vancouver, and are quite willing to book their attractions here despite their many reflections on one-night stands.

New Grand Theatre.
Walter Law will bring his own company of players to the Grand theatre next week, appearing for the first time on Monday afternoon in the newly-written sketch entitled "At the Theatre." Among the many features which will distinguish this headliner is the scenery Mr. Law will bring along with him. This will be the handsomest stage scene ever set in position at the Grand. The story of the new tabloid sketch is domestic. A burglar gets into domesticity and finds he has been there before, but many years ago. Eventually he recognizes a runaway wife and daughter. In a shower of forgiveness a happy reunion follows. Mr. Law as an actor is among the best of the legitimate stage who have taken to vaudeville. His support is good, as he never travels without a complete party.

La Belle Meeker stands for anything but the undeveloped, for La Belle is the dream of feminine perfection. Her act is physical culture, and it is claimed that by the athletic exercises she follows she has developed her figure to the perfect proportions, admired and copied by sculptors of olden times. These facts will be of especial interest to the lady visitors to the Grand next week.

Another dainty impersonator comes here Monday, and patrons will have the pleasing chance to compare the new visitor with Betty Urna who at the Grand this week, has created a furore by her fetching and bewitching appearances. The lady next week is Emma Don, with a long list of English newspaper clippings of her fame and ability. She has been a figure of much note on the stage at home as well as upon it. Tom Gillen is a shadow boxing mon-

ologist. He is "Finnegan's Friend" with a line of amusing entertainment. He is a shadow boxer who can flicker with his hands as fast as moving pictures, and has quite a "come back" appearance.

Will Lacey, the waltzing cyclist, is billed for Monday and the other five days of the week. He has had a continuous engagement with his bicycle and unicycle since 1908, and has played for every theatrical circuit on the American continent. He will appear here in a series of dances, performing to music time, while riding a single wheel.

The Grand bill will contain the regular stock features of the show, with the song by Mr. Price, the moving pictures after the five big acts and the orchestral music all-through the bill. A Bright Comedy.
A comedy of unusual brilliance is "Going Some," with Lawrence and Sandusky are bringing to the Victoria theatre, Wednesday next, for an engagement limited to one night. Rex Beach and Paul Armstrong have given the world of laughter something that will live a long and jolly life in these jaded ears of un-novelty. A theme

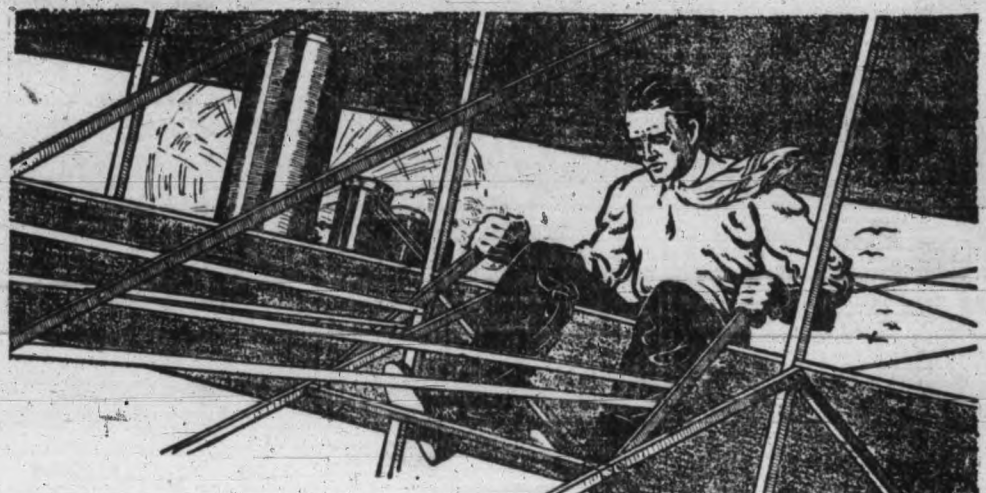

WILL LACEY
The greatest of all cyclists at the Grand next week.

unique and a brightness of conception have all made towards the success of this jovial attraction, and when the delight is heightened by artistic portrayals of the types chosen to interpret the plot there is decidedly nothing to be desired on the part of play patrons who love a good clean comedy, into which is instilled the poverty of naturalness and sincerity. Few attractions these days enjoy the combination of plausibility and at the same time screamingly funny comedy elements, which come fast and naturally one after the other, fairly treading upon each other's heels, as one metropolitan paper put it, "The web and woof of the whole affair is comedy bright and new, and the company which has been selected by Lawrence and Sandusky is second to none in the interpretation of the lines and scenes of this now famous Paul Armstrong and Rex Beach masterpiece.

"The Manxman."
The brilliancy of Hall Caine was never more brilliantly expressed than in his master-story, "The Manxman," which the author has dramatized and which will be presented for a single evening's engagement at the Victoria theatre on Thursday, September 15th, with that clever young star, Frederick Clarke, and a specially selected company of players. The play, like the story, gets right down to the heart of things and makes a deep impression upon the auditor. Power of conception and brilliancy of theme have always been telling attributes in the success of Hall Caine, and in the present instance these features are even more marked than in any of his previous work.

"The Burgomaster."
The "Burgomaster," which was at the Victoria theatre last night made no mistake in arranging to stay here two nights. The show was an excellent one, for music was first class, the settings always interesting and the humor supreme. It is seldom that the choruses at a musical comedy amount to anything, but on this occasion they were excellent, the voices being far above the average. Gus Weinberg, as the "Burgomaster," was pretty nearly a perfect character. Aided by Wm. Conley as "Noodles" he kept the audience laughing almost all the time. There was a full house and evidently the show was appreciated by those who were present. The "Burgomaster" will be repeated to-night, and now that the quality of the show has been proven, doubtless there will be a larger turn-out than last night.

Lyceum Theatre Opens.
The "Hunt Musical Comedy Company, which open at the Lyceum theatre on September 13th, will present for their opening bill "My Niece from Asia," one of the fastest moving comedies that Mr. Hunt has ever presented. It has to do with a picture, purchased by Adam Lyve in London and brought to this country. After it is comfortably installed in this house "the fool thing comes to life." The complications that arise out of this event are too numerous to mention; trouble piles upon

Soon we'll be flying through the air like the birds. Nearer and nearer come the days of practical aviation and with them will come a new race of fighting men. The new days will have food and drink problems, just as we do, for on proper sustenance depends the daily battle. The aerial fighting man will demand a beverage which will nourish and strengthen him and keep his nerves at highest strength.

Ghirardelli's GROUND CHOCOLATE
will be the favorite beverage then as it is now, for it is the best of all beverages; it contains the greatest percentage of nutriment that nature has concentrated into any food substance. Ghirardelli's Ground Chocolate is absolutely pure; not only purity which conforms with the law, but the purity that comes from perfect materials and scientific processes.
D. Ghirardelli Co. Since 1852

trouble, especially when Adam and his two assistants, Willie Sleepy-weather and Pompey, attempt to make a dress for the picture, so as to disguise it from the eyes of Adam's wife and his aunt, Miss Nousey. They are just finishing measuring Naida (which is the picture's real name) when the "wimmen folk" come in and catch them. The finish of that "jalimony," as Willie calls it, will have to be seen to be appreciated.

"The Manxman."
The brilliancy of Hall Caine was never more brilliantly expressed than in his master-story, "The Manxman," which the author has dramatized and which will be presented for a single evening's engagement at the Victoria theatre on Thursday, September 15th, with that clever young star, Frederick Clarke, and a specially selected company of players. The play, like the story, gets right down to the heart of things and makes a deep impression upon the auditor. Power of conception and brilliancy of theme have always been telling attributes in the success of Hall Caine, and in the present instance these features are even more marked than in any of his previous work.

BRITISH PRODUCTS PRAISED.
In a diplomatic and consular report on the trade of the district of Yalparaiso it is stated with respect to the district of Talcahuano that the export of wheat, the principal cereal passing through that port, is in the hands of British firms almost entirely. There is a lively German competition in imports of general merchandise and German commercial travelers are seen more frequently than British. No goods, however, enjoy a better reputation for being honestly made and for excellence of quality and workmanship than the British products.

GETTING VALUE OUT OF A TIRE.
It is not the tire that will carry you furthest on a test run—it is the tire that will wear the longest and give you the lowest average cost per mile while you are using your car—Dunlop cost per mile because the quality of the tire is backed up by the Dunlop Company's ready willingness to thoroughly satisfy every user of Dunlop Automobile Tires.
FRENCH ARMY RIFLE.
A communication from the French ministry of war is published, declaring that France's position with respect to her service rifle is in no way inferior to that of other countries. The ministry is, moreover, in a position, if necessary, should arise, to introduce a new weapon embodying every latest improvement. The lease-
