

WIND CAUSE OF INJURIES TO BOYS

Calgary School Windows Broken; Planks Torn Up

Calgary, May 31.—Two boys were painfully hurt when a cyclonic wind struck McDougall School, smashing two large windows, yesterday afternoon. The whirlwind also tore up the planking of a half-completed swimming pool two blocks away.

Cheese Drops

Mrs. Haron sends this recipe, which she says we gave her several years ago. We are glad to get it for our own card was lost. Beat two eggs slightly and add one-quarter cup of Pacific Milk. Pour this gradually into one cup of sifted flour with one teaspoon of salt. Put a collander over boiling water and force the mixture through with a potato masher. As soon as the buttons come to the top of the water, skim them off and sprinkle with salted grated cheese. Put them in the oven five minutes and serve.

M. P.'S ON PLATFORM HAD A DISPUTE

Liberal Reunion Caused Heated Scene at Meeting in England

London, May 31.—(Canadian Press Cable)—A heated dispute between William R. Fringle, Liberal member of the House of Commons for Penistone, and J. M. Hoggs, Liberal, East Edinburgh, both seated on the platform at the time, was the spectacle provided for the rank and file of the party at the annual meeting of the National Liberal Federation at Buxton yesterday when the question of Liberal reunion was under discussion. The gathering was mostly composed of Asquithians and the burden of the speeches was denunciation of the misdeeds of the Lloyd Georgeans in the past few years and right down to a few days ago, when they voted with the Government on the indemnity bill. A resolution was passed against a proposal that there should be a meeting of the leaders of the two wings of the party to discuss the matter of the promotion of unity.

GREATER BRITISH AIR FORCE URGED

London, May 31.—A meeting of the Air League at the Mansion House yesterday adopted a resolution demanding a one-power standard air force for Great Britain and the fullest development of Empire routes. Lord Birkenhead, who addressed the gathering, declared: "We would be quite defenceless in the event of an air attack."

BRANTFORD, Ont., May 31.—Rev. G. D. Draper, of Preston, Ont., was elected president of the Hamilton Methodist Conference here yesterday.

L. R. Steel Stockholders in Canada Take Measures

Ready to Treat With Creditors, Says Secretary

Winnipeg, May 31.—"The battle in three-quarters won and we are now in a position to treat with the creditors," declared J. Campbell, secretary of the local L. R. Steel Stockholders' Protective Association, at a meeting here last night. Mr. Campbell said the trust funds "had been magnificently subscribed."

Definite figures as to the amount that had been subscribed by stockholders throughout Canada were not made public, but it is known that the total already is well over \$1,000,000. When the chain stores have been released from the receivership, it will rest with the stockholders whether or not the Canadian chain is operated apart from the American chain. The question of operation will come up at that time and the appointment of a trustee board or board of management.

SALE OF CATTLE BROUGHT \$94,655

Allentown, Pa., May 31.—Bidding was spirited at the Jersey cattle sale yesterday at the Linden Grove Farms, near here. One hundred and five head were sold for a total of \$94,655. "Raleigh," a handsome bull by "Oxford Yoke," Jr., and "Haleigh's Beauty of St. Martin's" brought the highest price of any single animal. He was bought by Frederick Underwood for \$3,300.

INDIAN STUDENTS IN SEATTLE SOON

Will Come to This Continent to Study Logging Methods

Seattle, May 31.—India has chosen the forestry school of the University of Washington to train young men in logging until such instruction can be developed in the country. C. S. Martin, a representative of the Indian Government, announced here yesterday. He said a party of Indian students would arrive here in the fall for a two-year course in logging engineering.

"India has one of the finest tracts of timber in the world," said Mr. Martin, "having 250,000 square miles of forests ranging from hardwoods to trees resembling the fir, pine, spruce and hemlock of the Pacific Northwest."

INVESTED BUT HAD NO PROFIT

Witnesses Testify at Company Promotion Trial in Texas

Fort Worth, Texas, May 31.—That he had invested approximately \$10,000 in the three promotion companies of the general Lee, expecting to receive six for one within thirty days, for which he received nothing, was the testimony of William Williams, of Port, Pa., at the trial of the Lee interests here yesterday. Another witness, Fred Bernstorf, of Colorado, also told from the witness stand how he had invested \$1,000 in the company of the general Lee on promises of big dividends and for which they received nothing. These witnesses included the Rev. M. H. Clifford, of Oshkosh, Wis., who invested \$70; Joseph W. Buckley, of Chelsea, Mass., who invested \$500; J. H. Kirkland, of Brunswick, Ga., who invested \$1,000; and J. J. Mahoney, of Surf Burnett, Texas, who invested \$500.

Through the testimony of these witnesses, David C. United States Assistant Attorney-General conducting the Government's case, pictured the operations of the three defendants, Charles Sherwin, H. H. Schwarz and General Robert A. Lee, in their alleged conspiracy to defraud investors through the United States mails.

"VOICE OF THE PEOPLE"

The Gold Coast of West Africa has a small newspaper called "Voice of the People," published at Accra. Under the heading Minnah (Nigeria) is the following note: "A few days ago a Cheki steward boy accidentally missed one of his legs when he was about to jump on train whilst in motion. The man is now lying in the hospital under the kind treatment of Dr. Pollard."

The next paragraph is extremely moving. It reads: "We are sorry to say we have again commenced to experience the atrocious ill-feelings by stopping our pito drinks, when we are not permitted to purchase whisky or gin. May we be permitted to learn the reason?"

After 6 years it began to get serious and I had to give up my work. I had special treatment for a while, without much, if any benefit. I took different kinds of medicines both for internal and external use. I started taking Dodd's Kidney Pills and found them excellent. I have derived a great deal of encouragement and benefit from using them. Dodd's Kidney Pills are a wonderful remedy to do work of this kind. I recommend them to my many friends and neighbors." OUR BANKING GUESTS.

Victoria heartily welcomes the members of the Washington Bankers' Association on their three-day visit of business and pleasure.

It may be permitted to assure our distinguished guests that this city feels deeply honored by their selection of Victoria as this year's meeting place of their Association.

Victoria will make it known to the Washington Bankers' Association that this community will be ever ready to be pressed into such pleasurable service as that which it feels honored to render for the next two or three days.

MUSSOLINI THE DICTATOR.

At yesterday's session of the Chamber of Deputies a former Fascist appealed to Premier Mussolini to return to normal constitutional methods.

It will have to be admitted that Mussolini has pulled his country out of a sorry plight and started her social and industrial machinery running in smoother paths.

Periods of national stress and abnormal conditions of any kind command bold and sometimes thoroughly unconstitutional tactics.

PUT IN A BUSINESS MANAGER.

The proposal, advanced by some of the aldermen, that a business manager be appointed to co-ordinate and supervise the various departmental activities at the City Hall is sound in principle and we hope will be adopted.

The Mayor and Aldermen, either as committees or in their collective capacity, cannot spare the time to supervise and co-ordinate the activities of the different departments, since they cannot altogether neglect their own private affairs.

A JUVENILE COURT.

No Police Magistrate used to dealing with the more serious breaches of the Criminal Code relishes the task of hearing cases of youthful delinquency.

Saving the younger element from drifting into delinquency, and the salvage of those who are actually heading for a career of crime in the absence of intelligent guidance, is a social service undertaking of the first magnitude.

SHE MUST STOP PLOTTING.

Russia ought to know that she cannot expect to maintain amicable trade relations with Great Britain as long as she retains and pays representatives in various parts of the British Empire to plot against British interests.

NOTE AND COMMENT

Washington seekers after bank loans should be in Victoria and tackle their men when a nice long putt has been held during the golf tournament now in progress.

No tears will be shed over Leo Rogers even if the police did riddle him with bullets. It is perhaps better that justice came in its own swift way.

It is reported that certain English newspapers seem to delight in poking fun at American customs and manners. We shall hope that no reputable journal in Britain would insult the intelligence of its own readers by displaying a rudeness that was formerly associated with a tent-rattle music hall.

Business in the British Parliament lacks nothing in interest and variety. The singing of "Gloria Hallelujah" and "We'll Hang Bob Cecil to a Sour Apple Tree" during the all-night session on Tuesday must have livened up the proceedings as members waited for the first grey light of the morning after.

If Premier Mussolini is wise in his day and generation he will go to the people and ask them whether they want him to run the country or not. But if appeals from Deputies for a return to normal constitutional procedure are answered by attacks in the dark he will be removed by the same agency as that to which he owes his present position—force.

Britain's new Prime Minister says that one of the most important and congenial of his many duties will be the fostering of Anglo-American friendship. He declares that he left Washington after completing his business in connection with Britain's debt to the United States—more than ever convinced that the prosperity and peace of the world depend to no small extent upon the steady growth of Anglo-American friendship.

OUR CONTEMPORARIES

COLOSSAL PAGANISM.

London Advertiser:—A copious rain in Alberta brings forth the remark that Hatfield, the rain-maker, is not needed in that Province this year.

NO MORE BANK MERGERS.

Winnipeg Free Press:—We hope that both in the Banking Committee and afterward, if necessary, in the House, a definite, clear-cut amendment to the Bank Act absolutely prohibiting mergers will be proposed and vigorously supported by those members who believe that further concentration of banking capital would be an injury to the country.

NO NEED TO WORRY.

Hamilton Herald: Why should the Labor members in the British House of Commons clamor against Lord Curzon's note to the Russian Soviet Government because it might "lead to war"?

Other People's Views

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of its appearing.

CONSIDERATION NECESSARY.

To the Editor:—Recently I read an article in The Times regarding the possible intention of the Government withdrawing the special grant of £50 for High School pupils coming from outside districts.

The very thought of such a thing should rouse all parents at once for their children's rights.

Now, I would suggest that the Minister of Education get in touch with the High School masters, more than in the past, and speak to the pupils who go to the High School, at the expense of the parents and the Government, for a social time instead of learning and possibly hindering the study of pupils who do try, also getting the High School teachers a bad name into the bargain.

THE BOY SCOUTS

To the Editor:—I should be glad if you would allow me to answer the letter in Tuesday's Times criticising the efforts of the Boy Scouts in the recent Frolic celebration.

"Parade efficiency" in the Boy Scout movement is of secondary importance, moreover the spirit of chivalry and loyalty of an organization cannot be measured by its appearance in street parades.

HEAVY CHARGES.

To the Editor:—I noticed in the paper about the gentleman from the States remarking on the possibility of the pick system going on. For instance, I sent for six apples from New York.

A LETTER OF THANKS.

To the Editor:—The Island Racing and Breeding Association beg to thank the ladies and gentlemen who kindly assisted them in carrying out their sports and amateur meeting on the 27th, 28th and 29th of May.

To make meals pleasanter—

THERE'S nothing quite like having enough silverware. It removes annoyance in serving the meal and makes the eating of it more agreeable.

And to try to get along without enough silverware is quite unnecessary. For in 1847 Rogers Bros. Silverplate you can provide all you need quite reasonably. Tea spoons in the beautiful Old Colony pattern, or in any other, cost only \$3.75 the half dozen. The other pieces—table knives and forks, dessert spoons, salad forks—are priced on the same moderate scale.

A sensible scheme is to purchase now the pieces you need most, and to add others in the chosen pattern from time to time. In the newer patterns, your dealer always will be ready to supply your wants. Remember that "1847 Rogers Bros." is made to last a lifetime. It leaves nothing to be desired in durability or guarantee.

Send for "How Much Silverware," a new booklet which is a faithful guide to reasonable silverware purchases for families large and small.

Anti-Feminists Are Organizing; Women Oppose Women

Do women always vote for women? An emphatic and negative answer is being made by fair sex voters in Atlanta. As a result of their determined effort to prevent a ticket composed entirely of women from gaining office—political speaking, Atlanta is in a turmoil of excitement. When the Women's Political League recently announced a complete ticket, from mayor on down, for the pending primaries, their sisters of the ballot drew back in amazement. Mass meetings were held and voters urged to register a petticoat protest.

"Antis" contended: "That it was all right for women occasionally to hold political office. That an effort to gain complete control of a city government was going too far. That good men should be chosen. That the burden of political responsibility belongs on masculine shoulders. That women have other and more useful spheres. Undaunted by the sortie, members of the league still insist that Mrs. J. E. Gibbs will run for mayor and be backed with a complete ticket. Mrs. Florence Moore and Miss Frances Russell, leaders of the "anti-feminist" group, voice the opinion of hundreds, it is reported, when they say the league is "going too far." The chief point of debate between the two factions is the final content-

FIRE DOG WHO IS AFRAID OF FIRES

TRUFFLES

"Truffles" is a "fire dog" of Newark, N. J., who is afraid of fires. He has seen only one fire in his career. It was the one from which he was rescued two years ago to become the pet and watch dog of "Engine Twenty-Five." Truffles will not even go near an open stove. He is so afraid of fire, for locked in that long-snouted head of his is the memory of a blaze from which he was dragged with his coat singed and hind paw burned. While Truffles may be a frost as a genuine fire dog, his smoke-cater friends insist that he is the none-plus-ultra, buy-him-for-a-million watch dog. In his early days at the engine house he took his duties so seriously that he tried to keep the

firemen out on their return from a three-alarm blaze. Fireman John J. Walker who rescued Truffles is his special friend and patron. Walker is plump, jovial and happy. "He's the best dog in the world," Walker says. "Maybe some day I'll break him in to run to fires. The trouble is he has such a long memory."

IN LORDLY STYLE.

Two farmers had a dispute over some land. The case came before the High Court. The judge tried to soothe the parties. "This is a trivial case," he said. "You men have got to be neighbors all your lives. Now," he added, addressing the plaintiff, "I suppose that, apart from this trespass, you consider the defendant a very decent man?" "Well, he is, sir, but he sometimes gets as drunk as a judge." "You mean drunk as a lord," remarked the judge. "Yes, my lord."

SPIRITS!

They're Carving Their Pictures on Tombstones Now

TOMBSTONE OF SMITH TREADWELL SHOWING "SPIRIT FACE"

Would a spirit from the life beyond grave come back and chisel his likeness on the tombstone over the spot where his mortal body lies buried? For 10 years this has been the question asked by those visiting the cemetery here, near Dalton. Back in 1873, Smith Treadwell Sr. was buried. Natives say nothing unusual occurred for 40 years. Then slowly, but surely, the face seen in the photograph took form on the side of the tombstone. It now has reached what may be called perfect form. It is as closely like photographs of Treadwell as two pictures can be, they say—a perfect resemblance of the man buried this half century. Was it the wind, the rain and the snow? And, if so, why has not the phenomenon been repeated in other parts of the world if it were a work of the elements? Has a spirit hand carved the engraving? Or has someone on this earth done it? No one has accounted for it as yet, and the strange uncanny happening has strengthened the belief in spiritualism by many of those in these parts who hitherto have scoffed.

WOMAN'S DOMAIN AT DREYER-GENERAL HEARS PLEA FOR JUVENILE COURT

Delegation of Sixty-Three Women Urge Fuller Operation and Adequate System Here

Preliminary steps to the waging of a concerted campaign by the women of the city to ensure the fullest operation of a juvenile court in Victoria were made yesterday afternoon when a deputation of sixty-three women presented their case to the Attorney-General at the Provincial Government Buildings. After hearing the views of several speakers, the Minister expressed his whole-hearted sympathy with any movement tending to the protection and saving of the children, and as earnest of his interest advised the women to appoint a committee to bring the matter before representatives of the Victoria, Saanich and Esquimalt municipalities at a conference which he proposed to call within the course of the next few days. The Hon. J. MacLean, Minister of Education, was present during the interview and expressed his sympathy with the women in their mission, voicing his opinion of the urgent need of adequate juvenile court provision.

Many Organizations The delegation was sponsored by the Local Council of Women, and included representatives of the Council of Canadian Women's Club, O. U. E., Kumtuka Club, University Women's Club, Friendly Help Society, Social Service League, Liberal Women's Forum, Catholic Women's League, Catholic Ladies Aid, Christ Church Cathedral W. A., and other organizations.

Psychologist Essential Miss Olive Snyder, general secretary of the Social Service League, urged the appointment of competent, trained women as officers, and for the boys and a woman for the girls. (Concluded on page 18.)

Salient Features "That a juvenile court is virtually a necessity in every city of any considerable size is beginning to be recognized almost universally. The words of the late Theodore Roosevelt are very true: 'If you are going to do anything permanent for the average man you have got to begin before he is a man.' The chance of success lies in working with the boy, not the man," he said.

For the reason the juvenile court should be looked upon as a branch of constructive preventive social service, entirely separate and apart from police and their jurisdiction. The magistrate in charge should be chosen, not because of legal efficiency, but because of human qualities, wisdom in understanding boys and girls, and knowledge of the social causes that need amelioration. For this reason, in Toronto Judge Mott was chosen to succeed Mr. Boy, a barrister. For this reason Judge Murphy and Bishop Gray were chosen in Alberta, D. B. Harkness in Winnipeg, and Mrs. Ethel MacLachlan in Saskatchewan," continued Mrs. Schofield.

Fifty per cent of the voters of British Columbia are women, and they are becoming more articulate in their hopes and aims for the welfare of the young life of the Province. Briefly, therefore, this delegation desires to emphasize the need of a properly constituted juvenile court in Victoria separate from the police court.

Proposed Plan Mrs. Schofield explained the following plan, each part of which was essential to its successful working, and without part of which the whole plan would fall through. 1. Provincial jurisdiction, whereby a girl or boy under surveillance of the juvenile court may still be cared for in his or her own district or part of the Province he or she may reside. 2. A woman judge dealing with girls of juvenile court age. 3. Probation officers, in no way connected with police officers, but trained to handle juvenile delinquency.

A psychologist who is also a psychiatrist. Roughly thirty-five per cent of cases submitted to the juvenile court come under this department. 4. A clerk of the court who shall be a woman trained in case record work. 5. A detention home, with a man and woman in charge. Present Court Inadequate Various speakers then dealt at greater length with points in the proposed plan. Mrs. J. D. Gordon indicated that the present juvenile court in Victoria was inadequate and lacked the necessary machinery to remove the causes of delinquency. She objected to the present system in Victoria because it was inimical to the interests of the children to have a juvenile court judge who was also a police magistrate, and it was essential that the juvenile court should be entirely dissociated from the police court. For the same reason Mrs. Gordon disapproved of the so-called probation officers being also a police-woman, and observed that with a proper probation officer the tragedy of the Lorenz case might have been averted.

Mrs. H. W. Graves further emphasized the necessity of an adequate and properly functioning juvenile court. The underlying principle of

JUNIOR RED CROSS MOVEMENT GROWS

Programme Being Endorsed in Schools of B. C.; Caring for Six Children

The organization of the Junior Red Cross is making rapid progress throughout the Province. Miss Jean Urquhart, Provincial secretary of the Junior Red Cross, has recently visited several of the larger towns in the northern part of the Province, where the Junior Red Cross programme has been enthusiastically endorsed by the principals and teachers in the schools, who are assisting the children in organizing themselves into branches.

The goal of the Junior Red Cross is that the children in the schools might be taught to serve humanity by first thinking of others, to care for the health of their bodies by observing simple health rules daily, and by striving to bring about health and happiness to other children who are unable to enjoy the best in life because of physical infirmities which could be cured if their parents only had the money to provide the necessary treatment. This branch of service is rapidly growing, and the Juniors are already caring for six physically defective children perhaps in present in hospital. The Junior Branches are planning to raise money for their Sick Children's Fund in many original ways.

At present over 70,000 children in the schools of Canada are helping to realize these aims and objects of the Junior Red Cross. In Calgary there is a hospital maintained entirely by the Junior Red Cross of Alberta. There are 40 beds which are occupied continuously. During the past year 153 children have been treated, most of whom would have continued to suffer perhaps indefinitely had it not been for Junior Red Cross. It is hoped that in course of time it will be possible for the Juniors of British Columbia to maintain a similar hospital in this Province.

Similar work is being done, not only in every province of the Dominion, but in every civilized country in the world. The public health nurses are realizing the value of the Junior Red Cross. They know that if they discover cases of physically defective children for whom the necessary care and treatment cannot be provided by their parents, that they can report the cases to the Junior Red Cross for assistance. No case is undertaken, however, without the written authorization for treatment forms being signed by the parents or guardians.

Angel of Siberia

Two women sat sewing in an open window on the fifth floor of a city apartment house. Both were occupants of flats in the building, and both had noisy young sons who were now conspicuous by their absence and their non-noisiness.

"Where do you suppose the boys have gone?" questioned one of the mothers, looking a little anxious. "I try to keep an eye on Herbert and see that he stays at home, but there is no place to play in but the street and that's bad for him," she sighed.

The other mother shared her anxiety. "I think perhaps the boys have gone out to the park. My Bob is crazy about tennis, which he learned to play indoors last winter, and the only courts available are out in the park. But I don't like to have him go there." He comes home using rough language—evidently there is not a very nice class of boys there.

MADAME MELBA MAY SEEK ELECTION TO BRITISH HOUSE. London, May 31.—Madame Nellie Melba, the prima donna, contemplates a bid for a seat in the British Parliament, but has not yet made a definite decision because she is still convalescing from a recent operation. ROYAL REVIEW. The regular meeting of Royal Review, No. 18 W.B.A., was held at Harmony Hall on Monday evening, Mrs. Stephen, commander, presiding. Several visitors were present. The degree of fraternity was conferred on three candidates. Plans for the coming convention were made, nearly every member signifying her intention of going to Vancouver on June 18. It was decided to hold a gingham dance on June 11, the committee being Mrs. Warren, Mrs. Beckett and Mrs. Carver. In the drawing contest, Mrs. Wilkinson, Chester Street, won the luncheon set with No. 44.

YOUR HOME AND YOU. BY HELEN KENDALL. The Neighborhood Tennis Court. If we had a house with a yard we might fix up a court for him, but what can you do in a city apartment? Her neighbor looked out of the window thoughtfully. Next door to the building was a vacant lot, covered with sparse, dried grass, brown papers, and hard caked mud. "Do you suppose," she murmured, meditatively, "that we could get the owner's consent to lay out a tennis court down there? We could get the men living in all these apartments around here to chip in on the expense, and a net doesn't cost so very much, does it? The boys themselves could measure off the courts and chalk them, and one of them could be responsible for taking the net in at night. All the children of the neighborhood could take turns playing—perhaps a 'set' at a time. It would keep them here where we could watch them, and yet they would be safe and busy and happy." Both women brightened. "We can certainly try it, anyway," they decided. "It will be noisy, of course, but merry noise never really bothers anyone. Our husbands can start the thing, and I'm sure other men will be only too glad to join in. And if the owner of that lot is in any kind of public-spirited citizen, he will be glad to have the land put to some good use."

A woman advertised for a caretaker for her town house, and after interviewing a number of applicants she at last found one who suited her. "Thank you for giving me the job, ma'am," said the new caretaker. "I hope you won't think me impertinent for asking questions, but you stated in the advertisement that you must have a married man. Are there any duties for my wife?" "Oh, no," replied the lady of the house, "I wanted a married man so that I could have somebody who is used to taking orders from a woman."

DR. FRANK CRANE GOES TO ORIENT

Famous Editorialist Believes People of States Desire League Membership

Dr. Frank Crane, New York journalist who has earned international fame by his editorial writings, is a passenger sailing by the Empress of Australia due to sail this evening for China and Japan.

It means Crane found to give the people of the United States an opportunity to express an opinion on the advisability of the United States becoming a member of the League of Nations, untrammelled by consideration of domestic issues and politics.

The difficulty is to separate the question from domestic political issues and allow a clean-cut vote on the subject, he declares. The time will undoubtedly come when America will join the League, he believes, but he is not making any predictions as to when that time will arrive.

INTER-COASTAL TRADE WILL BE LATEST VENTURE

Transmarine Company to Place Thirteen Vessels in Service

The Transmarine Boat Corporation of Port Newark, N. J., announced this week that it is entering the inter-coastal steamship business with thirteen vessels and that the first carrier in the new line, the Surace, is scheduled to leave New York on June 12 for this coast and Pacific Northwest ports.

While it was announced that W. D. Benson would represent the new service at Seattle, no word has been forthcoming from Port Newark as to whether Mr. Benson would have the entire coast under his jurisdiction or not.

The Transmarine Boat Corporation is a subsidiary of the Submarine Boat Corporation, and has a fleet of about thirty vessels. The thirteen which will be employed in the inter-coastal run are standardized steel steamers of 3,000 tons deadweight and capable of a speed of 16 1/2 knots.

STEAMSHIP LINES HAVE TWENTY-FIVE YEARS TO MAKE GOOD

Steamship man Thinks Ships Will Replace Trains in Freight Service

A prominent Eastern steamship man has made an optimistic forecast for the future of the shipping business, holding that the steamship lines will have the advantage over the railroads in handling freight on hauls of 500 miles and over for at least twenty-five years.

The cost of all materials used by the railroads has greatly increased since 1914. The cost of railroad labor has increased in proportion. On the other hand, the cost of steamship materials has been cut in half. A ship which cost \$50 a ton in 1914 can now be bought for \$30.

This official, who has made an intensive study of the shipping situation, has found that Baltimore manufacturers of canned goods can land their product in San Francisco by steamship as cheaply as Los Angeles can deliver the same goods by rail.

An Irishman was walking in the country when an angry bull rushed at him and tossed him over a fence. The Irishman, recovering from his fall and looking up, saw the bull pawing and tearing up the ground. He smiled at the animal and said, "If it was not for your bowing and scraping and your humble apologies, you brute, I should think you'd thrown me over this fence on purpose."

A clergyman came upon several boys engaged in a heated dispute. "What are you arguing about?" he inquired. "Well, sir," answered one of the boys, "you see this 'ere dog? Well, the one that tells the biggest lie gets it."

GREATER NEW YORK'S FIRST BABY.—Consuelo Barbinson was born two minutes after various boroughs were combined to make Greater New York City. She is to have a prominent part in Mayor Hyland's proposed 25th anniversary celebration.

SMOKE EATERS AT THEIR KNITTING.—Spot, hero mascot of Engine No. 18, in Greenwich Village, New York, watches Engineer Frank Patzack and Fireman Peter Brennan at their knitting. They intend to enter the National Knitting Contest in which a \$2,000 prize is at stake.

LORD AMPHILL, grandmaster of the Grand Lodge of England, is to visit Canada in July, in connection with the annual meeting of the Grand Lodge of Canada.

ATTENTION OF COUNTRY TURNED TO NORTH BAY, ONTARIO, BY DESPERADO'S CRIMES.—After a chase of two weeks, Leo Rogers, who had killed two policemen in North Bay, Ont., was shot and killed by policemen some miles from that town yesterday afternoon. The large upper right hand picture above gives a glimpse of the crowd at the funeral of Constable Fred Lefebvre, who was killed by Leo Rogers on May 17, while he and other constables were trying to arrest Rogers. The picture below shows three armed men who participated in the hunt for the outlaw. At the left side are pictures of Mrs. Mary Rogers, mother of the late Leo Rogers, Constable William McGovern, shot and wounded by Rogers on May 17, and the late Constable Lefebvre, shot and killed by Rogers on May 17. Below are pictures of J. H. McDonald, Mayor of North Bay, who assisted with the measures for the pursuit of Rogers and who years ago was counsel for Rogers, and Inspector J. A. Ataman, of the Ontario Provincial Police, who helped to direct the hunt for the desperado. The two other figures, at the right, are Mary Rogers, sister, and James Rogers, father of the late Leo Rogers.

ON NEW JOB.—Director of legal work of the Department of the Interior is the task of John H. Edwards. He heads a force of more than thirty attorneys in this branch of the government's service. Mr. Edwards, who was solicitor in the Postoffice Department, went over to the interior office with Secretary Work.

SHEIKS OKEH.—After having crossed the Sahara Desert on the swaying hump of a camel and having lived for weeks among the nomads of the sand wastes, Mrs. Edward S. Jordan, society woman, says the sheik craze isn't so foolish, after all. "The real sheiks are magnificent specimens of manhood," says Mrs. Jordan. "Their features are handsome, their bodies excellently proportioned. And they are kindly, courteous, honorable, possess a fine feeling for romance and a delicate appreciation for poetry." But from the untamed, hard-riding, hard-fighting sheik of the Sahara to the jazz-clothed, smooth-shaven, bell-trousered "sheik" of the American dance hall seems a far cry to Mrs. Jordan. Mrs. Jordan is the wife of the president of a leading motor-car company.

TILDEN'S EYES NOW BOTH HIM BUT HE STILL WINS GAMES

Philadelphia, May 31.—Wm. T. Tilden, national tennis champion, added another title to his list yesterday when he won the Philadelphia and District championship at Cynwyd from W. F. Johnston. Tilden dropped the first set, but took the next three, scores being: 2-6, 6-3, 11-9, 7-5.

The champion appeared to be suffering from a slight impairment of vision. Several times during the match he swung blindly at easy shots and missed them.

NOT WHAT HE EXPECTED.

A local celebrity, visiting one of the schools in a certain town, thought it proper to ask the youngsters a few questions. "Can any little boy or girl tell me," he said, impressively, "what is the greatest of all virtues?" There was no reply. "We will try it again," said the

visitor. "What am I doing when I give up my time and pleasure to come and talk to you in your school? "I know now, mister!" exclaimed Johnny Smith, raising his hand. "Well, what am I doing, little man?" "Buttin' in!" was the startling rejoinder.

Philadelphia, Pa., May 31.—William T. Tilden II, national tennis champion, after defeating Wallace F.
