DAFFODILS AND HARDY LILIES

1934

EDWIN C. POWELL
8637 Colesville Road
Silver Spring, Maryland

Parkinson, in *Paradisi in Sole*, wrote:

Many idle and ignorant Gardiners do call some of the Daffodils Narcissus, when as all know, that know any Latine that Narcissus is the Latine name and Daffodil the English of one and the same thing.

The Daffodils offered herein are new and standard varieties of the better kinds, comprising the best of the European originations. By planting a suitable selection, including the earliest and latest varieties, you can have Daffodils blooming in your garden for 4 to 6 weeks.

Plant Daffodils in early September, if possible, as they make root growth in early fall, but they may be planted at any time after digging in July until the ground freezes. In a mixed border plant three or more bulbs of a variety 6 to 8 inches apart and 4 to 5 inches deep, according to size of bulb and character of soil—deeper in light than in heavy soils. Leedsii, white Trumpets, Poets, and bicolors produce the finest flowers when grown in partial shade.

Breeding daffodils is my hobby, and each year several thousand seedlings come into bloom. Anyone interested in fine daffodils is invited to inspect the seedlings, as well as the collection of 400 varieties.

Double-nosed Daffodil bulbs will be supplied, and prices are per bulb unless otherwise stated. Orders accepted subject to crop and previous sale. If any variety is sold out I will substitute a variety of similar character and value unless the purchaser instructs otherwise.

YELLOW TRUMPETS

Division 1a. *Trumpet or crown as long as or longer than the perianth segments. Yellow or lemon-colored trumpets, and perianth of the same shade or lighter (but not white).*

Apotheosis. A very large, graceful flower of exquisite form. Soft yellow, broad, somewhat pointed segments recurved and pointing forward; trumpet slightly deeper yellow, gracefully flaring, with a smoothly rolled edge. Each \$2.50.

Aureole. Giant bright yellow trumpet; perianth, soft lemon yellow. Each 25c.

Bulwark. Very large and imposing rich yellow flower of great substance. Much overlapping perianth of great size and breadth, standing well at right angles to the bold, large trumpet. Each \$5.00.

Cleopatra. Large and of perfect form and color. Very broad imbricated perianth and bold deep-yellow trumpet. Fine show flower. Each 25c.

Cornelia. Soft canary yellow, expanded trumpet; and broad, smooth perianth. Desirable garden variety of Emperor type. 3 for 50c.

Dawson City. A superb large flower of faultless form and fine quality. Soft, uniform yellow; strong grower and free bloomer. Each \$1.00.

Emerson. A fine large flower with frilled edge. Broad, overlapping perianth somewhat lighter in color than the rich yellow trumpet. Each 75c.

Emperor. Deep primrose perianth; rich yellow trumpet. The most popular of the older yellow trumpet varieties. Hardy, free-flowering, prolific. Doz. \$1.25.

Fantin Latour. Noble flower of great size, with very broad, round perianth of bright lemon yellow; short, broad, golden-yellow trumpet with large open mouth. Strong grower. Each \$1.00.

Fred Howard. A flower of delicate harmony in form and color; slightly lighter colored than King Alfred. Soft sulphur-yellow flat perianth; trumpet with deeply serrated brim nicely pleated. Each 40c.

George Philip Hayden. A very large refined flower. Perianth primrose, broad, and of fine texture; trumpet very bold, canary yellow, with large open mouth, boldly fluted and flanged. Strong grower with broad foliage. Each 50c.

G. H. Van Waveren. Enormously large bright-yellow flower; very tall, strong stems. Early. Each 50c.

Giant Muticus. Large and of characteristic form; long, narrow, rich yellow trumpet; smooth, beautiful soft yellow perianth. Each \$2.00.

Godolphin. A show flower of high quality. Very broad, overlapping, perfectly smooth perianth segments pointing slightly forward; large trumpet widely expanded at the mouth. Uniform clear yellow. Early. Each \$10.00.

Golden King. A rich golden-yellow self; broad, flat, overlapping perianth segments; refined, bold trumpet well frilled at mouth. A well-balanced flower with strong stems of medium height. Each 25c.

Golden Ray. Much like King Alfred, but larger and the perianth more overlapping. An exquisite flower. Each 25c.

Harold Beale. An almost perfect flower of the color and type of Emperor but very much larger. Very free flowering. Each 40c.

Honey Boy. An exquisite flower of unusually perfect and pleasing balance and proportion, smooth waxy texture, and very refined quality. Color a most lovely and distinct soft lemon yellow. Each \$3.00.

Hope of Holland. A very large pure yellow trumpet with deeply serrated brim; very substantial and a strong grower. Each \$1.50.

John Farquhar. An enormous well-finished pure yellow exhibition flower with large, flat perianth. Each 50c.

King Alfred. The most popular yellow trumpet. Large size, fine substance, refined finish, and uniform intense rich golden-yellow color. A tall, vigorous grower and free bloomer. Dozen \$1.50.

King of May. Very large, with widespread perianth and a splendid long trumpet. Rich in color. Very late. Each \$2.00.

Lord Roberts. Large golden-yellow flowers with broad, massive perianth and a noble trumpet. Tall; free bloomer, with strong constitution. Each 50c.

Magog. A graceful self-golden giant of great vigor. Somewhat after King Alfred in style, but larger. Each \$1.00.

Michael. A splendid, deep golden yellow of excellent form and substance. One of the best. Each \$1.00.

Monarch. Noble flower of model form and good substance. Large trumpet and perianth of full rich yellow. Strong, sturdy grower. 3 for 50c.

Moonlight. A flower of unusual color. Long, flaring, light lemon-yellow trumpet well expanded at the brim. Broad, well overlapping, shovel-pointed perianth segments. Vigorous; prolific. Each 50c.

Obvallaris. The Tenby daffodil. Medium sized, early, rich yellow, and of pleasing symmetry. Excellent for naturalizing. Blooms over a long period. 3 for 50c.

Olympia. A showy market variety with enormous, deep-yellow trumpet and bright-yellow perianth. 3 for 50c.

Oregon. Broad almond-shaped rich-yellow petals slightly overlapping and gracefully curved. Dark-yellow trumpet, broad, flaring, with frilled and serrated edge. Medium height. Each 50c.

Prospector. Probably the darkest yellow. Long trumpet with a neat flange at the mouth. Graceful perianth segments slightly twisted. Very lasting as a cut flower. Each \$1.25.

Robert Sydenham. A big, bold, rugged exhibition flower. Well-formed sulphur-yellow perianth; wide open trumpet with a fine, deeply frilled brim. Tall and vigorous. Each 25c.

Sassenheim's Giant. An enormous flower with deeply serrated, flaring pure yellow trumpet. Tall, strong stems. Each 50c.

Sir Francis Drake. Very fine, large, handsome, bold, clear yellow. Each 40c.

HARDY LILIES

The following varieties are of the easiest culture and thrive in ordinary garden soil, either in full sun or partial shade. All are stem-rooting and should be planted from 6 to 8 inches deep.

Formosanum. A hardy form of the Philippine lily of refined and graceful appearance; long, narrow foliage and beautifully shaped, long, wide-mouth trumpet of purest white, sometimes lightly covered externally with reddish brown. It is very fragrant and one of the most graceful of the trumpet lilies. Flowers about as large as the common Easter lily, but with a smaller tube. Height three to five feet. Blooms July and August. Each 40c.; 3 for \$1.00.

Longiflorum. The pure white trumpet lily grown largely for Easter. Increases rapidly from stem bulbs or seeds. Height three to four feet. Each 25c.; 5 for \$1.00.

Regal. One of the hardiest and most popular lilies which should be grown by every flower lover. Blooms in July or August and produces many large, fragrant flowers. Trumpet shaped ivory white with a reddish-brown blush on the external petals. Height four to five feet. Each 25c.; 5 for \$1.00.

Tiger. One of the oldest, best known and most worth-while of all our hardy lilies. Flowers are orange-red and spotted purple on reflexed petals. It increases rapidly from bulbils which are produced freely in the axils of the leaves. Height four to five feet. Each 25c.; 5 for \$1.00.

Sulphureum. A beautiful species with very large, fragrant, funnel-shaped flowers, pale sulphur-yellow on the inside deepening at the throat; the outside of the trumpet streaked and shaded with claret red. Height six to seven feet. Blooms in late August or September. Each \$1.50.

Umbellatum. An early-flowering group of hybrid lilies bearing a large umbellate head of flowers with shadings of orange, yellow, and crimson. Height 2 to 3 feet. A very desirable group and should be planted in quantities. Each 25c.; 5 for \$1.00.
