## TITLE 10—ARMY: WAR DEPARTMENT

### CHAPTER V—MILITARY RESERVATIONS AND NATIONAL CEMETERIES

#### PART 52—REGULATIONS AFFECTING MILITARY RESERVATIONS

##### Commanding Officer<sup>1</sup>

§ 52.19 *Duties, general*—(a) *Emergency issue of subsistence to destitute persons.* Subsistence to destitute persons to relieve starvation or extreme suffering will be issued by the commanding officer as prescribed in paragraph 9, AR 30-2210.<sup>2</sup>

(b) *Quarters for civilians.* The commanding officer may grant permission to servants and civilian employees to occupy such quarters as are available.

(c) *Aid to mail contractors.* Commanding officers will assist mail contractors by furnishing them with Government transportation, provided it can be spared without detriment to the service, when, through accident or unavoidable causes, a mail contractor is deprived of the necessary means to fulfill his contract. Such assistance will cease as soon as the contractor can, by exercise of proper diligence, resupply himself with transportation. Receipts for the transportation loaned will be taken, which, in the event of its loss or damage, will be forwarded with a report of facts to The Adjutant General in order that the expense involved may be collected through the Post Office Department.

(d) *Use of Government airdromes or landing fields for privately owned aircraft.* (1) Owners of private aircraft will not be permitted to use any active Government airdrome as a base. The use of such airdrome by operators of private aircraft may, however, be permitted, in the discretion of the commanding officer of the post, upon condition that

<sup>1</sup> These regulations supersede Sections 52.19 and 52.20, Chapter V, Title 10, Code of Federal Regulations.

<sup>2</sup> Administrative regulations of the War Department relative to rations.

the aircraft is not operated for profit, that it is housed in privately owned hangars not located on Government land, and that assistance will not be required from the personnel of the post as to maintenance, repair, or operation.

(2) In the case of Government-owned airdromes announced from time to time as being on an inactive status, operators of private and commercial aircraft may be permitted, when airdrome facilities are available, to use such facilities, subject, however, in each case to the approval of the War Department and under such regulations as are now or may hereafter be prescribed.

(3) With regard to airdromes leased by the Government, owners of private and commercial aircraft may obtain permits from the lessor to use the facilities at such airdromes under the rules and regulations that apply to the use of the airdromes by Army organizations. In all cases, however, this permit must have the approval of the War Department.

(4) Operators of aircraft making use of the facilities at any Air Corps airdrome will be required to conform to the local rules and regulations in force at that post.

(5) While owners of private aircraft are not permitted to use any Government airdrome or landing field as a base, the commanding officer may in an emergency permit them to use such landing field, provided the aircraft require no Government supplies or property.

(e) *Construction of buildings other than public.* No buildings other than public will be erected or constructed on military reservations unless authority is granted by the Secretary of War under a revocable license in which the conditions for occupancy will be clearly set forth. Exceptions may be made with respect to unimportant and temporary structures such as are necessary and incident to the work of contractors on Government work, provided that such temporary buildings will be removed at the expiration of the permit. It is the policy of the War Department to eliminate as promptly as practicable all temporary structures on military reservations. The Panama Canal, Hawaiian, Philippine, and Puerto Rican Departments are excepted from these provisions in view of the special situations in those departments. See also section I, A.R. 30-1425.<sup>3</sup>

(f) *Welfare*—(1) *Young Men's Christian Association.* (i) At posts where Young Men's Christian Association buildings have been constructed pursuant to the act of May 31, 1902 (32 Stat. 282); 10 U.S.C. 1346; the Young Men's Christian Association will be permitted to continue to conduct thereat helpful physical, intellectual, and nonsectarian religious activities. The commanding officer will assist and facilitate these activities in such ways as he may deem appropriate and desirable.

<sup>3</sup> Administrative regulations of the War Department relative to construction.

(ii) Duly appointed secretaries of the association serving at such posts will be permitted to purchase from the quartermasters such necessary supplies as are available.

(2) *American National Red Cross.* The activities of the American National Red Cross at posts will be as prescribed or implied in A.R. 850-75,<sup>4</sup> and the commanding officer will assist and facilitate such activities in every appropriate manner.

(g) *Granting use of water to certain nonmilitary agencies.* At a few posts the Secretary of War has authorized in particular cases the establishment and maintenance by religious, fraternal, or benevolent organizations, of chapels and other facilities for service in or with the Army. Commanding officers will grant to such authorized establishments the use of water and sewer facilities within the posts, provided that the water supply is ample, that the facilities are adequate, and that the granting of these privileges will involve no expense to the Government.

(h) *Competition with civilian enterprises.* (1) The commanding officer will be charged with the responsibility that no enlisted man of his command shall be detailed, ordered, or permitted to leave his post to engage in any pursuit, business, or performance in civil life, for emolument, hire, or otherwise, when it will interfere with the customary employment and regular engagement of local civilians in the respective arts, trades, or professions.

(2) He will prohibit the use of military personnel or civilian employees of the Army, during normal working hours, in conducting cooperatives (other than post exchanges) which operate in competition with civilian enterprises. (R.S. 161; 5 U.S.C. 22) [Pars. 12, 14e, 16b, 22, 24, 32c and d, 33, and 36, A.R. 210-10, July 1, 1939]

§ 52.20 *State fish and game laws*—

(a) *Jurisdiction.* The fish and game laws of a State are not operative on a military reservation over which the United States has exclusive jurisdiction unless authorized to that effect, and a State or local official who attempts at any time to enforce such State laws thereon will be directed to desist from such attempted enforcement. Should he persist therein he will be removed from the reservation.

(b) *Permits.* All permits to hunt, catch, trap, or kill any kind of game animal, game or nongame bird, or to fish on a military reservation or the waters thereof will be issued by the commanding officer. (R.S. 161; 5 U.S.C. 22) [Par. 37, A.R. 210-10, July 1, 1939]

## TITLE 14—CIVIL AVIATION

### CIVIL AERONAUTICS AUTHORITY

[Regulation 401-K-1]

#### TEMPORARY SUSPENSION OF SERVICE UNDER CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AUTHORIZING INTERSTATE AIR TRANSPORTATION

At a session of the Civil Aeronautics Authority held at its office in Washington, D. C. on the 21st day of July 1939.

Acting pursuant to the Authority vested in it by the Civil Aeronautics Act of 1938, particularly sections 205 (a) and 401 (k) thereof, and finding that this action is necessary and appropriate to carry out the provisions of the Act, and is required by the public interest, the Civil Aeronautics Authority hereby makes and promulgates the following regulation:

(a) The holder of a certificate of public convenience and necessity authorizing interstate air transportation (hereinafter called a "Certificate") may at any time file with the Authority an application for the approval of the temporary suspension of service to any point named in the Certificate. Such application shall be conspicuously entitled "Application for Order Authorizing Temporary Suspension of Service," shall state the facts on which it is based, and shall include the names and addresses of the persons upon whom a copy of such application was served. The execution, number of copies, and verification of an application filed hereunder, and the formal specifications of papers included in an application, shall be in accordance with the requirements of the "Rules of Practice Under Title IV and Section 1002 (d) to (i) of the Civil Aeronautics Act of 1938" relating to applications generally. At the time the application is filed a copy shall be served by personal service or registered mail upon the chief executive of such point, each scheduled air carrier which regularly renders service to such point, and, if the Certificate authorizes the holder to engage in the transportation of mail to or from such point, upon the Postmaster General, marked for the attention of the Division of Air Mail Service. Each copy so served shall be accompanied by a letter of transmittal stating that such service is being made pursuant to Regulation 401-K-1 of the Authority.

The Authority may by order (hereinafter called a "Service Suspension Order") grant an application if it finds that the temporary suspension of service to such point is in the public interest. The Authority may by order at any time revoke or amend a Service Suspension Order.

(b) Without obtaining from the Authority a Service Suspension Order pursuant to paragraph (a) of this regulation, the holder of a Certificate may

(1) temporarily suspend service to a point named in such Certificate during such time as the air carrier operating

certificate together with the operation specifications of the holder do not authorize service to such point through the airport and with the type of aircraft last regularly used by the holder to serve such point,

(2) In the case of a point named in a Certificate issued pursuant to section 401 (d) or section 401 (e) (2) of the Act and which has never been regularly served by the holder after the date of issuance of the Certificate, temporarily suspend service to such point during such time as the air carrier operating certificate together with the operation specifications of the holder do not authorize service to such point through any airport convenient thereto with any type of aircraft then being regularly used (or, if the holder is not operating, proposed to be used) by the holder for scheduled operations between other points named in such Certificate, or

(3) In the case of a point named in a Certificate issued pursuant to section 401 (e) (1) of the Act, continue temporarily to suspend service to such point if service to such point has been suspended during the thirty days immediately preceding the effective date of this regulation.

With respect to any such point the Authority may by order at any time revoke or amend the authority conferred on the holder by this paragraph (b).

(c) Before issuing, amending, or revoking any order pursuant to this regulation the Authority may require that a hearing be held with respect thereto.

(d) The temporary interruption of service to a point named in a Certificate caused by adverse weather conditions or by other conditions which the holder could not reasonably have been expected to foresee or control shall not be deemed to have caused a temporary suspension of service to such point within the meaning of such Certificate or this regulation.

(e) The Authority may by order or otherwise authorize such other temporary suspension of service as it may deem in the public interest.

(f) Nothing in this regulation shall be construed as prohibiting or restricting the holder of a Certificate from landing or taking off in an emergency at a point not named in its Certificate.

(g) This regulation shall become effective on July 31, 1939.

By the Authority.

The Secretary of the Treasury, on behalf of the Commodity Credit Corporation, invites subscriptions, at par and accrued interest, from the people of the United States for notes of the Commodity Credit Corporation, designated 5/8 percent notes of Series D. The amount of the offering is \$200,000,000, or thereabouts.

**II. DESCRIPTION OF NOTES**

1. The notes will be dated August 1, 1939, and will bear interest from that date at the rate of 5/8 percent per annum, payable semiannually on February 1 and August 1 in each year until the principal amount becomes payable.

They will mature August 1, 1941, and will not be subject to call for redemption prior to maturity.

2. These notes are issued under the authority of the act approved March 8, 1938, (Public No. 442—75th Congress) which provides that these notes shall be fully and unconditionally guaranteed both as to interest and principal by the United States; that they shall be deemed and held to be instrumentalities of the Government of the United States, and as such they and the income derived therefrom shall be exempt from Federal, State, municipal, and local taxation (except surtaxes, estate, inheritance, and gift taxes); and that the notes shall be lawful investments and may be accepted as security for all fiduciary, trust, and public funds the investment or deposit of which shall be under the authority or control of the United States or any officer or officers thereof.

3. The authorizing act further provides that in the event the Commodity Credit Corporation shall be unable to pay upon demand, when due, the principal of, or interest on, such obligations, the Secretary of the Treasury shall pay to the holder the amount thereof which is authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, and thereupon to the extent of the amount so paid the Secretary of the Treasury shall succeed to all the rights of the holders of such obligations.

Others than banking institutions will not be permitted to enter subscriptions except for their own account. Subscriptions from banks and trust companies for their own account will be received without deposit but will be restricted in each case to an amount not exceeding one-half of the combined capital and surplus of the subscribing bank or trust company. Subscriptions from all others must be accompanied by payment of 10 percent of the amount of notes applied for. The Secretary of the Treasury reserves the right to close the books as to any or all subscriptions or classes of subscriptions at any time without notice.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of notes applied for, to make allotments in full upon applications for smaller amounts and to make reduced allotments upon, or to reject, applications for larger amounts, or to adopt any or all of said methods or such

other methods of allotment and classification of allotments as shall be deemed by him to be in the public interest; and his action in any or all of these respects shall be final. Allotment notices will be sent out promptly upon allotment, and the basis of the allotment will be publicly announced.

### IV. PAYMENT

1. Payment at par and accrued interest, if any, for notes allotted hereunder must be made or completed on or before August 1, 1939, or on later allotment. In every case where payment is not so completed, the payment with application up to 10 percent of the amount of notes applied for shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

§ 202.27 *Delaware River, Delaware, explosives anchorage in vicinity of Reedy Island.*<sup>1</sup>

<sup>1</sup> These regulations are supplementary to Title 33, Chapter II, Part 202, of the Code of Federal Regulations.

Under the provisions of Section 7 of the River and Harbor Act approved March 4, 1915, the following explosives anchorage area is established with rules and regulations pertaining thereto:

*The Anchorage Area*

(a) At the upper end of Artificial Island, to the eastward of the dredged channel along Reedy Island Range, northward of a line 103° from Reedy Island Light, extending upstream about 5,000 feet to a line 110° from the Quarantine Tank on Reedy Island, eastward of a line 500 feet from and parallel with the edge of the channel to the 26-foot curve of depth.

*The Rules and Regulations*

(b) (1) This anchorage area is intended primarily for vessels engaged in the transportation, storage, stowage and handling of explosives and other dangerous articles. No vessel not so engaged will be permitted to anchor in this anchorage area except in a case of emergency.

(2) The anchoring of vessels in this anchorage area shall be subject to supervision and approval of the District Engineer, Engineer Department at Large, in charge of the locality.

(3) Vessels shall be so anchored within this anchorage area that no portion of the hull or rigging shall at any time extend outside the boundaries of the anchorage area.

(4) Vessels within this anchorage area shall not be anchored closer than 500 feet within one another and not less than 500 feet from the edge of navigable channel.

(7) The owners of vessels or interests using the anchorage area shall comply with all Federal, State, and local rules and regulations governing the transportation, storage, stowage and handling of explosives and other dangerous articles.

(8) Nothing in these rules and regulations shall be construed as relieving the owner or person in charge of any vessel or plant from the penalties of the law for obstructing navigation or for obstructing or interfering with range lights, or for not complying with the navigation laws in regard to lights, fog signals, or for otherwise violating law. **TREASURY DEPARTMENT.**

**Federal Alcohol Administration Division.**

**DISTILLED SPIRITS LABELING AND ADVERTISING**

**DECISION ON CERTAIN PROPOSED AMENDMENTS TO REGULATIONS NO. 5**

*To All Importers, Bottlers and Wholesalers of Distilled Spirits:*

Pursuant to notices of hearing issued by the Administration on March 17 and March 30, 1939,<sup>1</sup> public hearings were held in Washington, D. C. on April 27 and 28, 1939, upon fourteen proposals to amend the distilled spirits labeling and advertising regulations. The Administration has now completed its study and analysis of the testimony adduced upon several of these proposals and takes this occasion to advise the industry that Items 2, 4 (b), 5 (e), 6, and 12 (b) have been rejected. These proposals were as follows:

"2. To amend Article II, Class 6, and other pertinent sections of the regulations, in such manner as to establish a minimum proof of 60 degrees for all distilled spirits marketed as cordials or liqueurs."

"4 (b). That there be stated upon the labels of all Scotch type whiskey and Irish type whiskey, in direct conjunction with the class and type designation, a statement of the name of the country in which the product was produced, preceded by the words 'product of' or a similar appropriate phrase."

"5 (c). That where Scotch whiskey, rum, and other distilled spirits, imported in bulk and domestically bottled, are reduced in proof in the United States at the time of bottling, a statement to that effect be required to appear in conjunction with the required name and address statement upon the brand label."

"6. To amend Article III, Section 37, and other pertinent provisions of the regulations, in such manner as to permit the statement of net contents to be eliminated from the label in all cases where the net contents are displayed, by having the same legibly blown in the bottle, either on the back or on the front."

"12 (b). That all distilled spirits, whether domestically manufactured, domestically bottled, or imported, be pack-

aged in liquor bottles of the following sizes only: to wit, one gallon, one half gallon, one quart, one pint, one half pint, and one eighth pint, and that the following sizes of liquor bottles presently authorized for use as containers of distilled spirits be eliminated as standards of fill: to wit, four fifths quart, four fifths pint, one tenth pint, and one sixteenth pint."

In rejecting Proposal No. 2, dealing with the establishment of a minimum proof for cordials and liqueurs, the Administration is cognizant of the opinion expressed by various members of the industry that a minimum proof should be established for these products, but that all legitimate cordials and liqueurs would not be embraced within the proposed 60° minimum. The Administration, therefore, proposes to devote further consideration to this question with a view to the later adoption of some minimum which will embrace all legitimate cordials and liqueurs.

In rejecting Proposal No. 12 (b), the Administration is of the opinion that the question of more adequate information to the consuming public regarding the capacities of the various standards of fill can be obtained by a change in the labeling requirements, without the complete elimination of such sizes. This will require a new proposal at a public hearing. Such a hearing it is proposed to hold at some future date, after proper notice to all interested parties, but such a hearing will not be held until late in the fall.

With respect to the other proposals contained in the public hearing notices of March 17 and 30, 1939, the Administration announces that no decision has as yet been arrived at. Upon some of these proposals the testimony adduced at the public hearing was voluminous and will require extensive study and careful analysis and consideration before any definite action is taken. It is possible, with reference to some of the proposals on which evidence was taken, that the Administration may desire, at some future date, to take evidence upon proposals which are alternative to some of those considered at the public hearings on April 27 and 28, 1939.

This course of action may be found to be particularly appropriate in connection with the Administration's efforts to establish more effective standards of identity for brandy. It will be recalled that in the spring of 1938 evidence was taken on a proposal to establish a maximum distillation proof of 160° for brandy. This proposal has not been disposed of and the record of the hearing of April 27 and May 2,<sup>2</sup> held during 1938, on this question, has been kept open pending completion of scientific research under the auspices of the University of California. When such research is completed, it will be made a part of the pub-

DEPARTMENT OF LABOR.

Wage and Hour Division.

IN THE MATTER OF THE APPLICATION FOR EXEMPTION OF THE SPRING FRESHET DRIVING OF LUMBER IN THE STATES OF MICHIGAN, MINNESOTA AND WISCONSIN FROM THE MAXIMUM HOURS PROVISIONS OF THE FAIR LABOR STANDARDS ACT OF 1938

Whereas, the Timber Producers' Association of Minnesota has filed an application with Elmer F. Andrews, Administrator of the Wage and Hour Division, United States Department of Labor for a determination that spring freshet driving of lumber in the States of Michigan, Minnesota and Wisconsin is a branch of an industry of a seasonal nature within the meaning of Section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526<sup>1</sup> of the Regulations issued thereunder, and

Whereas, the Administrator determined, after a public hearing<sup>2</sup> held before him in Washington, D. C. on April 17 and 18, 1939, that the spring freshet driving branch of the lumber industry conducted in the States of Maine, New Hampshire, New York and Vermont is entitled to the seasonal exemption provided in Section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526 of the Regulations issued thereunder, and

<sup>1</sup> 3 F.R. 2534, 3127 DI.  
<sup>2</sup> 4 F.R. 94 DI.

Whereas, it is alleged in the application filed by the Timber Producers' Association of Minnesota that spring freshet driving in Michigan, Minnesota and Wisconsin is similar in all material respects to spring freshet driving in Maine, New Hampshire, New York and Vermont.

Now, therefore, upon consideration of the facts stated in the said application, the Administrator hereby determines, pursuant to Section 526.5 (c) of the Regulations that a *prima facie* case has been shown for the granting of an exemption, pursuant to Section 7 (b) (3) of the Fair Labor Standards Act of 1938 and Part 526 of the Regulations issued thereunder to the branch of the lumber industry which is engaged in spring freshet driving in the States of Michigan, Minnesota and Wisconsin.

In accordance with the procedure established by Section 526.5 (c) of the Regulations, the Administrator for fifteen days following the publication of this determination will receive objection to the granting of the exemption and request for hearing from any interested person. Upon receipt of objection and request for hearing, the Administrator will set the application for hearing before himself or an authorized representative.

If no objection and request for hearing is received within fifteen days, the Administrator will make a finding upon the *prima facie* case shown upon the application.

The application may be examined in Room 5144, U. S. Department of Labor, Washington, D. C.

Signed at Washington, D. C., this 20th day of July, 1939.

Administrator.
