TITLE 10—ARMY: WAR DEPARTMENT

Chapter IX—Transport

PART 94—PRIORITIES FOR AIR TRANSPORTATION¹

Sec.

- 94.1 Office of Military Director of Civil Aviation.
- 94.2 Priority for air transportation.
- 94.3 Priority classifications and identifications.
- 94.4 By whom priorities authorized.
- 94.5 Procedure to secure priority.
- 94.6 Air priority control points.
- 94.7 Directives.
- 94.8 Return from overseas.

AUTHORITY: §§ 94.1 to 94.8 inclusive, issued under sec. 1, 39 Stat. 645; 10 U.S.C. 1361, and E.O. No. 8974, 6 F.R. 6441.

§ 94.1 *Office of Military Director of Civil Aviation.* (a) Under authority contained in Executive Order No. 8974, dated December 13, 1941, there has been established under the immediate direction of the Chief of the Army Air Forces an Office of the Military Director of Civil Aviation to function under the Commanding General, Army Air Forces.

(b) Pursuant to War Department instructions dated March 2, 1942, the responsibilities for establishing priorities of space assignments for personnel and cargo on civil air transport formerly charged to the Assistant Chief of Staff, G-4, were transferred to the Chief of Transportation Service, Services of Supply. Within the office of the Military Director of Civil Aviation is hereby established the Air Priorities Branch of the Air Division, Office of the Chief of Transportation Service, charged with responsibility for the performance of these duties. [Par. 1]

¹ §§ 94.1 to 94.3 (7 F.R. 943) are superseded. The regulations contained in §§ 94.1 to 94.8 inclusive, are also contained in Cir. 168, W.D., June 1, 1942, the particular paragraph being shown in brackets at the end of sections.

§ 94.2 *Priority for air transportation.* (a) Priority for air transportation will be extended to and only to:

- (1) Personnel engaged upon essential war work, including members of the armed forces, other employees of the Government, representatives of allied Governments and civilian personnel.
- (2) Essential war materials.

(b) These priorities will be construed very strictly and will not include usual inspection trips except by highest officials engaged in the war effort. All persons who can travel to destination by train will do so except in real emergencies. Merely because an individual is a member of the armed forces or is engaged in war work will not in itself entitle him to the use of air transport. [Par. 2]

§ 94.3 *Priority classifications and identifications.* General classifications for priority are shown below and will normally take precedence in the order listed. However, the Chief of Transportation Service, Services of Supply, War Department, will have authority to change the priority classification assigned any individual or cargo movement when such reclassification appears to be to the best interest of the national war effort and his decision will be final. In such cases, the importance and urgency of the mission to be accomplished in connection with the war effort will determine the priority assigned the individual or shipment for air transportation.

(a) *Class 1—(1) Personnel.* Personnel of the White House or others for whom priority air transportation is directed for accomplishment of a particular mission by the President, the Secretary of War, or the Secretary of the Navy.

(2) *Identification.* Priority certificate (see § 94.5 (b)) giving classification No. 1; or air ticket marked "Priority Class 1;" or direct instructions from the Chief of Transportation Service, Services of Supply, by letter, telegram, or telephone (no certificate required).

[Docket No. A-1350]

PART 323—MINIMUM PRICE SCHEDULE, DISTRICT NO. 3

RELIEF GRANTED

Findings of fact, conclusions of law, memorandum opinion and order in the matter of the petition of the Bituminous Coal Producers Board for District No. 3 for the establishment of price classifications and minimum prices for the coals of Mine Index Nos. 928, 937, and 941.

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on March 10, 1942, by the Bituminous Coal Producers Board for District No. 3 (hereinafter referred to as "District Board No. 3"), pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. In its petition District Board No. 3 requests the establishment of price classifications and minimum prices for the coals of Mine Index Nos. 928 and 941, and the revision of certain price classifications and minimum prices now effective for the coals of Mine Index Nos. 928, 937 and 941.

The petition requested temporary relief. By Order of the Acting Director dated April 4, 1942, 7 F.R. 2651, temporary relief was granted as follows: The Schedule of Effective Minimum Prices for District No. 3 For All Shipments Except Truck was supplemented to include Price Classification "B" for the coals in Size Groups 11-16, inclusive, produced at Mine Index Nos. 928 and 941.

After due notice to interested persons, a hearing in this matter was held on April 28, 1942, before D. C. McCurtain, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Petitioner appeared.

At the conclusion of the hearing, the petitioner waived the preparation and filing of a report by the Examiner, and the record was thereupon submitted to the undersigned. The only witness who testified did so on behalf of the petitioner.

This proceeding involves consideration of proper price classifications for coals from the Pittsburgh Seam in District No. 3 produced at three mines. These three mines are the Davis Fork Mine, Mine Index No. 928, operated by the Davis Fork Coal Company; the Kingmont, Jr. Mine, Mine Index No. 941, operated by H. R. Hebb,¹ and the Delphi Mine, Mine Index No. 937, operated by Walter Long. According to witness D. T. Buckley, Chairman of District Board No. 3, the price classifications and minimum prices now

¹ Mine Index No. 941 was described in the petition as "Beech Hill Mine" operated by O. W. Stevens & Son. Evidence adduced at the hearing indicates that H. R. Hebb has been operating Mine Index No. 941 since March 1941. However, records of the Division reveal that Hebb's acceptance of the Code did not become effective until March 30, 1942, so that he cannot complain of the fact that copies of the petition and of the Notice of and Order for Hearing were sent to O. W. Stevens & Son rather than to him.

effective for coals produced at these three mines stem from the estimate formed by District Board No. 3 as to the qualities and market values of such coals before complete data were available. Proximate analyses representative of the coals produced at these mines made by District Board No. 3 since the establishment of the presently effective price classifications and minimum prices reveal that Delphi coals have a sulphur content above 1.35 per cent, whereas Davis Fork and Kingmont, Jr. coals are to be deemed low-sulphur coals with a sulphur content below 1.35 per cent. At present, however, the Delphi Mine is treated in the price schedule as a low-sulphur mine with a classification of "DE" in Size Groups 1 through 6, one of "DF" in Size Groups 7 through 10, and with a "B" classification in Size Groups 11 through 16. On the other hand, the Davis Fork and Kingmont, Jr. Mines are treated as high-sulphur mines with "F" classifications in Size Groups 1 through 10. These two mines have not been accorded price classifications in Size Groups 11 through 16, the size groups in which coals fit for by-product, retort, or water gas use are classified.

In order that the price schedules for all shipments except truck in District No. 3 may reflect the sulphur content and market values of the coals from these three mines, District Board No. 3 asks, first, that the price classification for Delphi coals in Size Groups 11-16, inclusive, be cancelled, and that a price classification "B" be established in these size groups for Davis Fork and Kingmont, Jr. coals. District Board No. 3 asks further that a classification of "F" signifying high-sulphur content, in Size Groups 1 through 10 be substituted for the classifications now effective in such size groups for Delphi coals, and that a classification of "DE" in Size Groups 1 through 6 and of "DF" in Size Groups 7 through 10 be substituted for those now established for Davis Fork and Kingmont, Jr. coals.

No objection has been made to granting the relief asked for. On the basis of uncontroverted evidence, I find that the establishment, cancellation and revision of price classifications and minimum prices, as suggested by District Board No. 3, will more accurately reflect sulphur content and market values of the coals produced at Mine Index Nos. 928, 937 and 941, and thus will further intra-district coordination. Accordingly, the relief asked for will effectuate the purposes of subsections (a) and (b) of section 4 II of the Act.

It is, therefore, ordered, That § 323.6 (Alphabetical list of code members) in the Schedule of Effective Minimum Prices for District No. 3 For All Shipments Except Truck be, and it hereby is, amended as follows:

1. By making permanent, effective forthwith, the temporary relief establishing price classification "B" in Size Groups 11-16, inclusive, for the coals produced at the Davis Fork Mine, Mine Index No. 928, and the Kingmont, Jr. Mine, Mine Index No. 941, for all shipments except truck, as set forth in Supplement R and

PART 331—MINIMUM PRICE SCHEDULE,
DISTRICT No. 11

RELIEF GRANTED

Order amending memorandum opinion and order, approving and adopting, with modifications, the proposed findings of fact and proposed conclusions of law of the examiner and granting, in part, permanent relief in the matter of the petition of Maumee Collieries Company for revision of the effective minimum prices for Mine Index 68, District 11, by providing deductions in mine prices based upon differences in freight rates among District 11 mines for shipment to Market Areas 32, 33, and 35-38, inclusive; and of Bituminous Coal Producers Board for District No. 11 for revision of the effective minimum prices for District 11, by providing deductions in mine prices based upon differences in freight rates among District 11 mines for shipment to Market Areas 20, 21, and 30-38, inclusive.

The above-entitled proceedings were instituted by original petitions filed with this Division pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. A final Order granting in part the relief sought was entered in this proceeding on November 15, 1941. The Order of November 15, 1941, 6 F.R. 6500, was amended by an Order of the Acting Director dated February 10, 1942, 7 F.R. 1489, granting temporary relief and conditionally providing for final relief. On May 5, 1942, District Board No. 11, the original petitioner in Docket No. A-195, filed a petition praying for a modification of the relief granted in the Order dated November 15, 1941, as amended by Order dated February 10, 1942.

In support of this petition the District Board alleged that the Order of the Director dated November 15, 1941, as amended February 10, 1942, granted permanent relief which permitted the Hill Coal Company, Horton Mine, Mine Index No. 43, located on the Evansville & Ohio Valley Railway, in Freight Origin Group No. 51, District No. 11, to adjust the effective minimum prices for its coals for shipment to Charlestown, Indiana, and Speed, Indiana, to the extent necessary to equalize its freight rate differences with other code members located in other freight origin groups; that the specific adjustment or deduction permitted on such shipments are set forth in detail in the "Supplement" annexed to and made a part of the Order dated February 10, 1942; that with respect to the destination of Charlestown, Indiana, the adjustment or deduction granted by the Order dated February 10, 1942, is predicated upon a freight rate effective prior to April 30, 1942; that effective April 30, 1942, the freight rate applicable from the Horton Mine of the Hill Coal Company, located on the Evansville & Ohio Valley Railway, Freight Origin Group No. 51,

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 330.1 (*Alphabetical list of code members*) is amended by adding thereto Supplement R-I, and § 330.10 (*Special prices*—(a) *Railroad locomotive fuel prices*) is amended by adding thereto Supplement R-II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: June 6, 1942.

was reduced 22 cents per ton from \$1.73¹ to \$1.51;¹ that said reduction in rate is published in Supplement 18 to Illinois Freight Association Tariff 9-C, Indiana, R.C. No. 129, I.C.C. No. 493, effective April 30, 1942; and that, therefore, the deduction of 32 cents for shipments to Charlestown, Indiana, shown for Freight Origin Group No. 51 in the afore-mentioned supplement annexed to the Order of February 10, 1942, is erroneous to the extent of 22 cents and that the said supplement should be corrected to allow a permissible absorption to Charlestown, Indiana, of 10 cents per ton in Freight Origin Group No. 51. The District Board also alleges that with respect to the destination of Speed, Indiana, no adjustments or deductions were granted by the Order of February 10, 1942, because there were no published through rates in effect from mines located on the Evansville & Ohio Valley Railway to Speed, Indiana; that effective April 30, 1942, the Evansville & Ohio Valley Railway has published a freight rate of \$1.51¹ from the Horton Mine of the Hill Coal Company, Mine Index No. 43, Freight Origin Group No. 51, to Speed, Indiana; that said rate is published in Supplement 18 to Illinois Freight Association Tariff 9-C, Indiana, R.C. 129, I.C.C. No. 493, effective April 30, 1942; that the lowest freight rate from any producing subdistrict to Speed, Indiana, is that in effect from the Princeton-Ayrshire Groups, namely, \$1.41;¹ that because of a difference of 10 cents which exists between the Princeton-Ayrshire freight rate to Speed, Indiana, and the freight rate of the Hill Coal Company in Freight Origin Group No. 51 to become effective on April 30, 1942, the permissible deduction for the Horton Mine, Mine Index No. 43, of the Hill Coal Company, in Freight Origin Group No. 51, on shipments to Speed, Indiana, should be corrected to read 10 cents.

It appears, therefore, that in order to effectuate the purposes of the Order of the Director dated November 15, 1941, in the above-entitled proceedings, that order should be modified so as to reflect the presently effective freight rates for Freight Origin Group No. 51 on shipments to Charlestown, Indiana, and Speed, Indiana, for the Horton Mine, Mine Index No. 43, of the Hill Coal Company. No petitions in opposition to the prayer of the District Board No. 11 have been filed and it appears that no parties will be injured by the requested modifications.

Now, therefore, it is ordered, That the part of the Order herein dated November 15, 1941, as modified in the Supplement R annexed to and made a part of the Order dated February 10, 1942, relating to permissible freight absorptions to Charlestown and Speed, Indiana, for

the Horton Mine, Mine Index No. 43, of the Hill Coal Company, Freight Origin Group No. 51, is deleted, and the Schedule marked "Supplement R", § 331.9 (*Adjustments in f. o. b. mine prices*), attached hereto and made a part hereof, is effective in its stead.

[Docket No. A-1343]

PART 334—MINIMUM PRICE SCHEDULE,
DISTRICT No. 14

RELIEF GRANTED

Memorandum opinion and order granting additional temporary relief and conditionally providing for additional final relief in the matter of the petition of District Board No. 14 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 14.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was duly filed with the Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 14.

A reasonable showing of necessity having been made for the granting of the relief prayed for by the petitioner, except with respect to the coals of the Davis Mine of the S. & S. Coal Company (J. W. Sanders), an Order was issued on April 3, 1942, 7 F.R. 2815, granting the relief prayed for by the petitioner, except with respect to the coals of the Davis Mine. This exception was due to the fact that the records of the Division indicated that the coals of that mine had been classified and priced in General Docket No. 15 under the name of Economy Mine, Mine Index No. 30, of the Economy Coal Company (Garland Tinsley).

Additional data submitted to the Division, however, discloses that the Davis Mine, operated by the S. & S. Coal Company, is not the same mine that was operated by the Economy Coal Company, and that no price classifications or minimum prices have heretofore been established for the coals of the Davis Mine. Accordingly, it now appears that a reasonable showing of necessity has been made for the granting of temporary relief for the coals of the Davis Mine, and that the price classifications and minimum prices proposed by petitioner should be established for the coals of that mine.

Now, therefore, it is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 334.5 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 334.24 (*General prices for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the

PART 1381—SOFTWOOD LUMBER

[Maximum Price Regulation No. 164]

RED CEDAR SHINGLES

In the judgment of the Price Administrator the prices of red cedar shingles have risen and are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of red cedar shingles prevailing between October 1 and October 15, 1941, and

has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith and filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1, issued by the Office of Price Administration, Maximum Price Regulation No. 164 is hereby issued.

AUTHORITY: §§ 1381.1 to 1381.11, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong.

§ 1381.1 *Maximum prices for red cedar shingles.* On and after June 29, 1942, regardless of any contract, agreement, or other obligation,

(a) Where the shipment originates at the mill rather than at a distribution yard, no person shall sell or deliver red cedar shingles, and no person shall buy or receive red cedar shingles in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1381.11; and

(b) Where the shipment originates in a foreign country, no person shall sell or deliver red cedar shingles and no person shall buy or receive red cedar shingles in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1381.11; and

(c) No person shall agree, offer, solicit or attempt to do any of the foregoing.

(d) The provisions of this section shall not be applicable to sales or deliveries of red cedar shingles to a purchaser if prior to June 29, 1942, such red cedar shingles had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1381.2 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1381.11) may be charged, demanded, paid or offered.

§ 1381.3 *Conditional agreements.* No seller of red cedar shingles shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1381.11, in the event that this Maximum Price Regulation No. 164 is amended or determined by a court to be invalid or upon any other contingency: *Provided,* That if a petition for amendment (or for adjustment or exception) has been duly filed, and such petition requires extensive consideration, and the

Administrator determines that an exception would be in the public interest pending such considerations, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment (or for adjustment or exception, as the case may be). Requests for such an exception may be included in the aforesaid petition for amendment (or for adjustment or for exception).

§ 1381.4 *Evasion.* (a) The price limitations set forth in this Maximum Price Regulation No. 164 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to red cedar shingles, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying agreement or other trade, understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited: (1) decreasing the percentage of cash discount below that granted by the seller in October 1941, or shortening the cash discount period or the credit period granted by the seller in October 1941, (2) making any charge for extension of credit if no separate charge for such credit was made by the seller in October 1941, or increasing the charges for extension of credit in effect in October 1941, (3) unnecessarily routing red cedar shingles through a distribution yard, (4) falsely or wrongly grading or invoicing red cedar shingles, (5) refusing to sell except on a delivered basis, and (6) quoting a flat price on items covered by this Maximum Price Regulation No. 164, and items not covered by any price schedule or regulation or the General Maximum Price Regulation.

§ 1381.5 *Records and reports.* (a) On and after June 29, 1942, every person, who, during any calendar month offers or agrees to sell, sells, or delivers, or offers or agrees to buy, buys, or receives a total of 250 squares or more of red cedar shingles in the course of trade or business, where the shipment originates at the mill, shall keep for inspection by the Office of Price Administration for a period of not less than two years, a complete and accurate record of every such offer, agreement, purchase, sale or delivery, showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the quantity of each kind or grade purchased or sold.

(b) Such persons shall keep such other records in addition to or in place of the records required in paragraph (a) of this section and shall submit such reports to the Office of Price Administration as that Office may from time to time require or permit.

§ 1381.6 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 164 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages pro-

vided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 164 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1381.7 *Applicability of General Maximum Price Regulation.* The provisions of this Maximum Price Regulation No. 164 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this Regulation.

§ 1381.8 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 164 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1381.9 *Definitions.* (a) When used in this Maximum Price Regulation No. 164, the terms:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successors or representative of any of the foregoing and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

§ 1381.10 *Effective date.* This Maximum Price Regulation No. 164 (§§ 1381.1 to 1381.11, inclusive) shall become effective June 29, 1942.

§ 1381.11 *Appendix A: Maximum prices for red cedar shingles.* (a) The Maximum prices f. o. b. mill per square, green or dry, in mixed or straight load shipments, shall be

Where the shipment is by common or contract carrier, such charge may not exceed the amount actually paid by the seller to such carrier. (c) The maximum prices f.o.b. mill for a "three-bundle square" or other unit of measurement shall bear the same proportion to the maximum prices set out in paragraph (a) of this section that the coverage of such unit of measure bears to the coverage of a square, as defined in paragraph (a) (3) of § 1381.9.

INTERSTATE COMMERCE COMMISSION.

[Service Order No. 78]

CANADIAN NATIONAL AND GRAND TRUNK RAILWAYS

EMERGENCY REROUTING OF TRAFFIC

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 15th day of June, A. D. 1942.

It appearing, that, due to the wash-out of a bridge near Lennoxville, Province of Quebec, Dominion of Canada, on the line of Canadian National Railways and Grand Trunk Railway between Montreal, Quebec and Portland, Maine, the Canadian National Railways and Grand Trunk Railway are unable to transport the traffic offered to them between Montreal and Portland so as to properly serve the public; and

It appearing, that an emergency exists which in the opinion of the Commission, requires immediate action:

Therefore, in order to best promote the service in the interest of the public and the commerce of the people, and to prevent shortage of equipment and congestion of traffic:

It is ordered, 1. That, effective immediately and until further order of the Commission, the Canadian National Railways and Grand Trunk Railway be, and they are hereby, directed to forward traffic routed over their lines between Montreal and Portland by routes most available to expedite its movement and prevent congestion, without regard to the routing thereof made by shippers or by carriers from which the traffic is received, or to the ownership of the cars, and that all rules, regulations, and practices of said carriers with respect to car service are hereby suspended and superseded insofar only as conflicting with the directions hereby made.

2. That inasmuch as such disregard of routing is deemed to be due to carrier's disability, the rates applicable to traffic so forwarded by routes other than those designated by shippers, or by carriers from which the traffic is received, shall be the rates which were applicable at date of shipment over the routes so designated.

3. That inasmuch as the necessity for such disregard of routing arises from circumstances beyond control of carriers, car hire payments covering both railroad and privately owned cars shall be

made on the basis of the handling of cars as originally routed.

4. That in executing the directions of the Commission contained in this order the common carriers involved shall proceed without reference to contracts, agreements, or arrangements now existing between them with reference to the divisions of the rates of transportation applicable to said traffic; that such divisions shall be, during the time this order remains in force, voluntarily agreed upon by and between said carriers, and that, upon failure of the carriers to so agree, said divisions shall be hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

It is further ordered, That copies of this order and direction be served upon the Canadian National Railways and Grand Trunk Railway and upon the Car Service Division, Association of American Railroads, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement, and that notice of this order be given to the general public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by publication in the FEDERAL REGISTER.

By the Commission, division 3.

Emergency Gasoline Rationing Regulations]

A. WALTON KRAMER

SUSPENSION ORDER

A. Walton Kramer, Esso Service Station, Haverford Road and Wynnewood Road, Ardmore, Pennsylvania, is a dealer, engaged in transferring gasoline directly to consumers and subject to the provisions of Ration Order No. 5, The Emergency Gasoline Rationing Regulations (7 F.R. 3438, 3524, 3554, 3577, 3723, 4232), issued by the Office of Price Administration. On June 8, a notice of hearing was served, upon A. Walton Kramer, this notice stating specifically that A. Walton

² 7 F.R. 971.

³ 7 F.R. 3438, 3524, 3554, 3577, 3723, 4232.

Kramer was charged with having violated the provisions of Ration Order No. 5, The Emergency Gasoline Rationing Regulations. A hearing on this charge was held on June 11, in Philadelphia, Pennsylvania, at which time and place there appeared a representative of the New York Regional Office of the Office of Price Administration and A. Walton Kramer. Both parties presented their evidence pertaining to such charge before a duly authorized presiding officer. Such evidence having been duly considered by the Administrator.

It is hereby determined that:

A. Walton Kramer has violated the said Ration Order No. 5, The Emergency Gasoline Rationing Regulations, in that on June 6, 1942 A. Walton Kramer sold and transferred to two consumers 3 gallons each of gasoline without requiring the exhibition of a gasoline rationing card, and without cancelling, or witnessing the cancelling, of any unit of any such rationing card, said transfer of gasoline having been made to the fuel tank of a motor vehicle clearly identifiable as a private, passenger vehicle.

Because of the great scarcity and critical importance of gasoline in the Philadelphia area, violations of Ration Order No. 5, The Emergency Gasoline Rationing Regulations, necessarily result in the diversion of gasoline from essential civilian and military uses into non-essential uses, in a manner contrary to the public interest and detrimental to national defense. It further appears to the Administrator, on the evidence before him, that further violations of these Emergency Gasoline Regulations by A. Walton Kramer are likely unless appropriate administrative action is taken.

It is therefore ordered:

(a) During the period in which this Suspension Order No. 1 shall be in effect,

(1) A. Walton Kramer shall accept no deliveries or transfers of, nor in any manner directly or indirectly receive from any source, any gasoline; and

(2) No person, firm or corporation shall sell, deliver, or in any manner directly or indirectly transfer any gasoline to A. Walton Kramer, regardless of whether such gasoline has been previously purchased and completely paid for.

(b) This Suspension Order No. 1 shall become effective Wednesday, June 17, 1942, and, unless sooner terminated, shall expire 12:01 a. m. July 2, 1942. [Pub. Law 421, 77th Cong.; Sec. 2 (a) of Pub. Both parties presented their evidence pertaining to such charge before a duly authorized presiding officer. Such evidence having been duly considered by the Administrator,

It is hereby determined that:

Charles Veitch has violated the said Ration Order No. 5, the Emergency Gasoline Rationing Regulations, in that on June 6, 1942 Charles Veitch sold and transferred to a consumer 3 gallons of gasoline without requiring the exhibition of a gasoline rationing card, and without cancelling, or witnessing the cancelling, of any unit of any such rationing card, said transfer of gasoline having been made to the fuel tank of a motor vehicle clearly identifiable as a private, passenger vehicle.

[Suspension Order 7 Under Ration Order 5¹—
Emergency Gasoline Rationing Regulations]

C. J. SIMPSON
SUSPENSION ORDER

C. J. Simpson, Jericho Turnpike, Westbury, Nassau County, N. Y., is a Dealer, engaged in transferring gasoline directly to consumers and subject to the provisions of Ration Order No. 5, The Emergency Gasoline Rationing Regulations (7 F.R. 3438, 3524, 3554, 3577, 3723, 4232), issued by the Office of Price Administration. On June 8th, a notice of hearing was served, upon C. J. Simpson, this notice stating specifically that C. J. Simpson was charged with having violated the provisions of Ration Order No. 5, The Emergency Gasoline Rationing Regulations. A hearing on this charge was held on June 11, in New York City, New York, at which time and place there appeared a representative of the New York Regional Office of the Office of Price Administration and C. J. Simpson. Both parties presented their evidence pertaining to such charge before a duly authorized presiding officer. Such evidence having been duly considered by the Administrator,

It is hereby determined that:

C. J. Simpson has violated the said Ration Order No. 5, the Emergency Gasoline Rationing Regulations, in that on June 6th, 1942, C. J. Simpson sold and transferred to a consumer 3 gallons of gasoline without requiring the exhibition of a gasoline rationing card, and without cancelling, or witnessing the cancelling, of any unit of any such rationing card, said transfer of gasoline having been made to the fuel tank of a motor vehicle clearly identifiable as a private, passenger vehicle.

Because of the great scarcity and critical importance of gasoline in the New York area, violations of Ration Order No. 5, The Emergency Gasoline Rationing Regulations, necessarily result in the diversion of gasoline from essential civilian and military uses into non-essential uses, in a manner contrary to the public interest and detrimental to national defense. It further appears to the Administrator, on the evidence before him, that further violations of these Emergency Gasoline Regulations by C. J. Simpson are likely unless appropriate administrative action is taken.

It is therefore ordered:

(a) During the period in which this Suspension Order No. 7 shall be in effect:

(1) C. J. Simpson shall accept no deliveries or transfers of, nor in any manner directly or indirectly receive from any source, any gasoline; and

(2) No person, firm or corporation shall sell, deliver, or in any manner directly or indirectly transfer any gasoline to C. J. Simpson, regardless of whether such gasoline has been previously purchased and completely paid for.

(b) This Suspension Order No. 7 shall become effective Wednesday, June 17, 1942, and, unless sooner terminated, shall expire 12:01 A. M. July 17, 1942. [Pub. Law 421, 77th Cong.; Sec. 2 (a) of Pub. Directive No. 1 and Supplementary Directive No. 1H (7 F.R. 562, 3478, 3877)]

Issued this 15th day of June 1942.

NATIONAL POWER & LIGHT COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 15th day of June, A. D. 1942.

Notice is hereby given that a declaration or application (or both), has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by National Power & Light Company, a registered holding company, and a subsidiary of Electric Bond and Share Company, likewise a registered holding company;

Notice is further given that any interested person may, not later than June 25, 1942 at 5:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

As of May 29, 1942, there were outstanding with the public \$330,000 face amount of non-callable Fifty-Year Five Per Cent Collateral Trust Mortgage Gold Bonds, due July 1, 1951, of Lancaster County Railway and Light Company ("Collateral Trust Bonds") assumed by National Power & Light Company ("National").

National states that beginning in 1930, purchases of the Collateral Trust Bonds have been negotiated through the firm of Van Alstyne, Noel & Company, or a member thereof, in the following manner: Such firm has approached holders thereof and has reported to National the price at which such holders expressed a willingness to sell. Upon National's agreement to such price, the Collateral Trust Bonds have been purchased by the firm and resold to National at a price running from three-quarters of a point to one point in excess of the price at which they had been sold by the individual holders.

National now proposes to acquire all or any portion of the \$330,000 principal amount of bonds presently outstanding, without limitation of amount in any year, by continuing the above described method of making such acquisitions. However, National reserves all rights to acquire such bonds directly from the holders. National further proposes to pay Van Alstyne, Noel & Company up to one and one-half points per bond for additional purchases of the Collateral Trust Bonds. The application or declaration states that National has never reimbursed such firm for its expense in connection with the acquisitions and that it does not now propose to do so.

National describes the proposals set forth in its application or declaration as a step toward compliance with this Commission's order of August 23, 1941 under Section 11 (b) (2) of the Act requiring the dissolution of National.

By the Commission.
