3. (a) Basic types of industry in the prefecture
 Total number of workers and total population
 of prefecture.

As the prefecture is situated quite near Tokyo, it is including all sorts of industries, such as metal industry, machines & tools industry, chemical industry, spinning & weaving industry and wood working industry. Big scaled plants of these industries are located in the southern part of the prefecture and they are extending to Tohoku and Takasaki lines. Characteristic family industries such as textile, wood-working, ceramics and agriculture industries are operated in the northern-part. Industries of unique colour are copper rolling of Asaka, Tabi of Gyoda and casting works of Kawaguchi and they are well-known for their great amount of production. As to mining industry, we have 127 mine lots (metal mines 57, non-metal mines 49) but they are not worth mentioning.

Statistics data are as shown in separate sheet.
