APO 710 (Nagoya, Honshu)

13 January 1950

SUBJECT: Procurement Demand Status of Privately Owned Reparations Machines

TO : Chief
Civil Affairs Section
GHQ, SCAP
APO 500

1. Reference is made to letter from Civil Affairs Section, GHQ, SCAP, dated 23 December 1950, subject: Procurement Demand Status of Privately Owned Reparations Machines.

2. In compliance with paragraph 5 of reference letter, IBM listings of reparations machinery in authorized use by Occupation Forces are herewith returned (Incl. 1) with the appropriate data and corrections noted as requested.

3. In compliance with paragraph 4 of reference letter, six separate listings of reparations machinery in authorized use by the Occupation Forces, but not included in the IBM listings, are herewith transmitted (Incls. 2-7).

4. In the course of the investigation by this headquarters of authorized use by Occupation Forces the following problems were raised:

a. Presumption

It is now apparent that during the period from the surrender until early 1947 many tactical units located in this area availed themselves of needed equipment by the simple expedient of issuing a hand receipt for items taken. Plants affected by such "procurement" seldom reported the matter even to the local military government team. A number of the hand receipts submitted as evidence are even signed with obviously bogus names. Information is requested as to whether it is desirable that CAR investigate all such claims as pertain to reparation plants, or whether this is properly the function of another agency.

b. Responsibilities of Contractors under Procurement Demands

Recently the Nagoya Ordnance Works of BIC-5 was advised that machinery needed by its principal contractor, Central Japan Heavy Industries Corp., must be legally procured by BIC-5. Since this directive

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Eq. TECAR, ltr dtd 13 Jan 50 to Chief, CAS, GHQ, Subj: Procurement Demand Status of Privately Owned Reparations Machines.

- -

25 items of reparations machinery have been so procured. Prior to this directive, however (going back as far as 1947), a considerable number of machines were brought in not only to Mitsubishi Jukogyo, Oye plant (former name of Central Japan Heavy Industries) but also to the Koromo works of Toyoda Motor Company at the sole responsibility of the Japanese concerns involved. The question has arisen as to whether all of these items are now to be considered as in authorized use for the occupation forces, or are to be considered as only being in authorized use for the Japanese contractors. Clarification of this matter is requested.

5. While it is believed that the aforementioned lists of machinery in authorized use are complete, further investigation will be made by this headquarters to ascertain whether any other few items, not recorded in the files of TECAR, are in authorized use. Disclosure of any such items will be immediately reported to CAS, GHQ, SCAP.

1. Confirming verbal instructions given at Economic Conference on 30 November 1950, this headquarters is currently compiling records on the procurement demand status of privately owned reparations machines. Copies of IBM listings of items authorized for use by the Occupation Forces from installations located within your region are inclosed (no inclosures for Chugoku, Hokkaido and Shikoku Civil Affairs Regions).

2. The following information will be obtained from plant custodians and local Japanese Government officials and recorded in the columns indicated on the IBM lists:

a. Procurement demand number: "none" will be entered where applicable.

b. Inclusive dates of procurement demand coverage.

c. Inclusive dates of use by Occupation Forces not covered by procurement demand.

3. Entries will be legibly made in ink. Ditto marks may be used to avoid duplication. Appropriate comments will be made in the event IBM listings are erroneous.

4. Reparations items including land and buildings discovered in complying with paragraph 2 above which are in use by the Occupation Forces but not included in the IBM listings will be reported by separate inclosure to include code number, description, using unit and inclusive dates of use.

Minato-ku, Nagoya City

17 September 1946

SUBJECT : Transfer of Reparation Machinery.

TO : Headquarters Aichi Military Government Team.

THROUGH : The Japanese Liaison Office, Nagoya.

1. Under the authorization of your office (letter dated 9 Sept. 1946: subject, transfer of reparation machinery) we supplied two (2) of 200 KVA transformers to the 5th Air Force Transmitter Detachment on 12 September 1946.
A copy of receipt is attached.

2. These transformers were removed from the electric nitrate bath furnace in our Heat Treatment Shop.
Because it was quite impossible to remove such furnace, we classified it into Class 4, excluding from the Inventory. The permission for this classification wad duly obtained from the field man of your office.

3. As it was considered that those transformers attached to the furnace make an integral part of the equipment, they were also not inventoried.

4. From the reasons mentioned above, we think it is not necessary to submit "Corrected Copy" for the transformers turned over to the supply.
