CONFIDENTIAL IVI

From: CG, 20th Bomber Command, Kharagpur, India

To: War Department

Nr: CMD 9287 D 14 February 1945

COMAF 20 pass to Technical Air Intelligence Center Anocostia from COMGENBOMCOM 20 CMD 9287 D.

Three observations of Jap fighters were made on XX Bomber Command mission number 33 against Singapore 1st February which are of interest despite incomplete details caused by sightings having been made at long ranges. The first aircraft was described as being very similar in appearance to a VAL, but with retractable landing gear and wing span estimated at 50 feet. The second aircraft had a thick, round, tapered fuselage with several swept back wings. The fuselage tapered sharply to a pointed tail. Neither of these aircraft had been sighted before. The third observation was a Tojo which appeared to be firing possible off-set wing guns to the right rear of a B-29 about 2000 yards out. Report is questionable because of distance involved. Tojo later moved ahead, turned and made normal attack against the frontal quarter.
