Non-dwelling houses flooded	20
Non-dwelling houses flooded under floor	89

2. Damage to fields:

Paddy fields flooded	330 chobu
Fields flooded	74 "
Fields swept off	5 tan

Police No. 80%

Sept. 23, 1947

To: 2nd Lt. Smith
Kochi Mil. Govt. Team

From: Director of Police Dept.

Subject: Report on Robbery Cases

Robbery cases have taken place in the areas under the jurisdiction of the Yamada Police Station and Takaoka Police Station. Offenders are now being strictly searched for.

The summary of these cases are hereby submitted to you for your information.

Case A

- 1. Date and time: Sept. 20, 1947 at about 11.50 p.m.
- 2. Victim:
Name & age: Hiroshi Yaida, 59
Occupation: doctor
Address: No. 1747, Yamada-machi, Kami-gun, Kochi Pref.

3. Place: Residence of the victim

4. Offender: A man whose name and address are unknown.

5. Summary of the case:

When the victim was sleeping in an eight matted room on the first floor of his house, the offender, opening paper sliding-door, intruded into the mosquito-net in the room and sat on the victim astride the abdomen and lighted him with an electric torch. Thrusting something like a knife before the victim, the offender said, "Give me money! Or, I'll stab you." Being awakened by these words of intimidation, the wife of the victim laid about 30,000 yen in cash in front of the offender. Then, the offender, saying "Hum, hum! Be quiet!", took the money and ran away.

01 -2- 01

- 3. No harm done to man or beast.
- 4. Damage to public facilities :
 - (1) About 10 meters of River Kagami's south-side levee was broken at Ishitatecho, Kochi
 - (2) Asahi Transformer Substation was flooded.
 - (3) Kochi Polytechnic School, Kochi Agricultural Senior High School, and Kochi Univ. Agriculture Dept were flooded.
 - (4) About 1,000 meters of Umegatsunji - Asakura Road was flooded near Koishigi, Gonose and Koda. Atagoyama, Yoshino and Nishiyama Roads were flooded.

Letter

To: Prefectural Public Health Department Chief

From: Prefectural Health Centre Chief

No: 24 Kochuhoei/93

Date: August 5, '49

Subject: Report on inspection of fish market

The inspection of the ~~for~~ Kochi City Central Fish Market was instituted as follows, for the period from July 29 to August 5:

Date	Inspector	Instruction	Sanitary conditions
July 29	Engineer Mizobuchi " Inoue	Disposition of dirty things insides and out sides of the market as well as in the ditches	Above all the ditches were full of dirty things
July 30	Section chief Wada Engineer Kiyooka " Kawasaki " Mizobuchi " Inoue " Arisawa " Nakajima (Health Centre) " Kiyooka " Tadokoro (Pref. Office)	(1) Establishment of a bicycle-shed. (2) Preparation of a box for dirty things (3) Equipment with ^a water main tap and a hose (4) Transport and disposal of dirty things The persons concerned are to meet on August 1 at 1 p.m. to discuss the matters	The direction given on the previous day was not observed. Health centre environment hygiene inspectors repaired to the spot and sprinkled medicals.

August 1	Section Chief Wada Engineer Kiyooka " Kawasaki " Mizobuchi (Health Centre) " Kiyooka " Tadokoro " Yamada " Kawasaki	Matters discussed at the meeting and results are as mentioned on the separate paper.	The instruction given on July 29 and 30 in respect to the disposal of dirty things in and around the market as well as the ditches was perfectly followed. All laborers turned out in force for the sweeping.
August 2	Engineer Kawasaki " Mizobuchi	In connection with the disposal of dirty things after operations and traders' dealing with the matters discussed at the arrangement meeting, concrete policies plans were told as per the separate paper.	As compared with the state before July 29, sanitary conditions are getting better by degrees. The sweeping ^{with water} in the market with is being done perfectly.
August 3	Engineer Mizobuchi " Inoue	Clearing away of dirty things flowing in the river running in front of the market	Sanitary conditions are good. However bicycles are being left out of order in the market
August 4	Engineer Mizobuchi	Prompt preparation of water-taps and bicycle-sheds	Dirty things in the river in front of the market were found made away with.
August 5	Engineer Kawasaki " Mizobuchi	Sanitary treatment handling of fish. Above all abstention from putting ones treading on fish	Dirty things in the river in front of the market were found made away with.

-2-

August 1, 1949, at 1 P.M. (at the Kochi Fish Market Co. Ltd.)

I. Reason for holding the conference

1. Instruction from Section Chief Mege
2. Report on steps taken and matters carried out
3. Section Chief Mege's career
4. Victuals sanitation inspectors and surroundings sanitation inspector
5. Relation between persons concerned with the market and the Victuals Sanitation Law.
6. Constant incessant warning was given by the C.A. Team on account of the market being in a dirty state

I. Matters desired as to future measures

1. ^{Designation} ~~Designation~~ of persons responsible for sanitation at the firm and each association (Preparation of name-lists)
2. Constant ~~at~~ employment of laborers exclusively for sweeping purposes
3. Prompt establishment of bicycle-sheds
4. Establishment of big hydrants and hoses
5. Immediate ~~for~~ enforcement of the sweeping around the market
6. Daily sending of transport-carts for clearing away things thrown away. (The firm and the City Office will be responsible.)

7. Preparation of a temporary waste-~~box~~^{box}.
 8. ~~Spread of~~ Sanitary idea to be spread to each employe for the purpose of keeping the market in a sanitary state. (Each association will be responsible for it.)
1. Separate paper
 2. Kenshiro Ogawa
 3. Negotiations are being held with the City office. They are likely soon to be established.
 4. 1-inch hydrants are to be established at 3 spots in the market.
 5. Finished
 6. Under way
 7. On foot. It will be available in a week.
 8. In future, traders will be made to assemble at the health centre ^{to get} for sanitary education.

FILEJune 6, 1949On watch and improvement guidance of hygiene of paper mills and their environments

Regarding the above mentioned matter we hereby report about the situations of two mills at Inomachi, Agawagun as follows.

AccountsI. Kanegafuchi Mill

- (1) It is located at the southern area of Inomachi. General condition for selection of the site is usual.
- (2) As to institutions within the mill there are no dormitories. The two water-closets are old Japanese styled and are very inconvenient to control flies. We requested the responsible persons of the company promptly to improve them.
- (3) There exist twelve tanks which store size , the material of paper. In six of them they now use dirty water is kept. They smell bad. As flies swarm to them we requested them to stretch nets over them. As to those which they do not use at present we ordered them to drain them in order not to cause origination of mosquitoes.
- (4) As mosquito larvae will originate in three water-tanks

-2-

for fire fighting use we guided them that they would change water once a week without fail.

After fourteen days from the above mentioned guidance we inspected the actual place. The result is as follows.

(1) As to water-closets the stepping-boards of them were renewed; the urinals were revised as crockery made and after use of them they are put on the lids. As to the hand-washing equipments they are those that from the bottom of the hanging tank water flows out. As to the doors the double system of both inside and outside is ideal. ^{But,} ^{inferred} from the style of the building they are single doors. It cannot be helped. As wooden lids are equipped to the loopholes for dipping up night-soil it is enough for prevention of flies for the time being.

As they pour caustic soda fluid into the night-soil tank maggots do not originate.

(2) Among the size storing tanks, to the six they use now they stretched metal nets. The disposition for prevention of flies and mosquitoes is good. Other six tanks are drained and are dry.

(3) Mosquito larvae do not originate in the fire fighting tanks.

II. Nakata Paper Mill

(1) It adjoins the Kanegafuchi Mill. The condition of selection of the site is not so good.

(2) In the factory there are no dormitories.

The water-closets are Japanese styles. As the structures of

-3-

the loopholes for dipping up night-soil are not good we requested them to improve them promptly.

(3) There were two sige storing tanks. In one of them dirty water was kept. It smelled bad and flies swarmed to it. In another of them the sige was soaked and small flies originated to it. We instructed them to stretch metal net over it and change water.

After we guided them as above mentioned we inspected the actual place fourteen days later. The result was as follows.

(1) The lids of the loopholes for dipping up night-soil are not yet completed. We instructed them to complete them promptly.

(2) The disposition of the sige storing tanks is not yet completed. We urged them to put it into practice promptly. It is necessary that we shall plan improvement of the environments and hygiene instead of neglecting watch on them.

製紙工場環境衛生並視察改善指導について

右について吾川郡伊野町に於けるコニエ工場の状況を別紙の様に報告する。

記

一、鐘測工場

1. 位置 伊野町中央南部に在る一般立地的條件は普通である。

2. 工場内諸施設の内寄宿舎はない。

便所二箇所は日本在来の型式で駆蠅には頗る

高知縣

悪條件であるから會社経営責任者に対して速に改造を要望した

3. 製紙原料たる黄蘗皮等増産に資する

2. 工場内諸施設の内寄宿舎はない。

便所二箇所は日本在来の型式で駆蠅には頗る

高知縣

悪条件であるから會社経営責任者に対して速に改造を要望した

3. 製紙原料たる黄蜀葵野蔵槽十二箇あり現在使用中のもの六箇は汚水猪溜し悪臭あり、蠅の蟻集があるので金網を張る事よう要望し常時使用しないものは排水して蚊の発生源をなくするよう指導した。

4. 防火用水槽三ヶ所（二ヶ所は鉄板水槽）にはフボララの発生があるので一週一回は必ず水を換へる様指導した。

右のように指導後十四日を経て實地を巡視した結果は次の通りである。

1. 便所は二箇所とも便房の踏板を更新して排

便口はカラツ製に改め使用後は必ず蓋をする手洗設備は吊下水槽の底部より流下式のものである。扉は内外側二重とするを理想なるも建物の方式上一重扉であるがニルは止むを得ないと認める。取口は完全なる木製の蓋を施してあるので防蟻には差當り充分である。

便壺の蛆は苛性ソーダ液(紙の原料を煮熟した不
用液)を投入した結果蛆の発生を見ない

2. 黄蜀葵野蕨槽中常時使用の六箇は金網を張りてある防蟻防蚊の処置はよろしい他の六箇は排水乾燥の状態である。

3. 防火用水槽にはフホーフラムの発生を見ない。

二 中田紙工場

軍政部衛生課長 殿

衛生班宣傳教育活動計畫について

右について別紙の通り計畫を樹てたので御報告
する。

高知縣

衛生班宣傳教育活動計畫

高知縣立中央保健所

一 本計畫立案の目的

一 保健所の使命と活動状況を認識させると共に民族昆虫駆除の意義を徹底させて本事業に対する協力を求める。

二 小中學校生徒を対照としたのは感性与陶冶性に富む児童生徒を通じて一般に普及させたい為である。

三 村民は一般を対照とせず、各部落世話係、衛生委員、民生委員、婦人団体幹部、青年団幹部、村役場吏員、協同組合役職員等の参加を得て村中堅層に呼びかけ講話、座談等によつて本事業に対する理解と協力を求める。

二 本計畫の対照

管内各町村小中學校及一般中堅層

三 計畫

一 小學五年(男女何れにても可)「蚊の研究」(細案は別に用意)

目的 蚊の生態、習性、種類の概要を研究、蚊は種々の傳染病を人体に媒介させ人間生活をおびやかす昆虫である事を認識させて其の發生を防止駆除に努め傳染病流行時には特に刺されない様に注意させることを目的とした研究。

時間 一時間

準備

豫め學校に連絡して児童に蚊の研究をさせておく。

児童に蚊(家の中にあるもの、野外にあるもの)を捕集させておく、出未得る限りは大鏡用意させる。

政の松六園一に依りてもの二三種（本所に依りて作製せる）
乙 中學三年又は二年女子共々に於ける殺鼠劑アンソーを用いた餅の作り方実習、
（餅蒸は別に用意）

目的 ねずみの習性及び其々の生活に及ぼす影響を知らせて殺鼠劑の作り方並に与へ方
の研究と実習

時間 一時間

準備 小麦粉（又は稚穀粉）茶さじ三杯程度、魚粉（肥料にて可）少量、茶碗又は皿、
仰籠生徒各自に用意せしむ。

アンソー生徒数の五分に相当する袋数、（本所より持参）

3. 全校生徒（但し小學一、二年生を除く）に「保健所の話」と童話「幸一のよるこび」を講
せる。

保健所の話（約十分）

○保健とはどんな所か、又何をする所か、

○保健所の利用 等

すべて興味本位にわかり易く、飽かせざる様に、

童話「幸一のよるこび」（約三十分）

幸一の村でねずみの一奔駆除が行はれるので先生から殺鼠劑の作り方与へ方を教へられ
友達と競争する事を約束する。

幸一の家では祖父が迷信とアンソーに対する効めの誤解から反対する。

幸一の悲しみ、父は未だ復員せず、母は町の工場に働いてゐる、

其の夜「母が病氣」との電報を受ける、

翌朝祖父と幸一は取るものとりあへず母のもとへかけつけた、母は黄痘疫の疑で手当を
受けてゐたが其の疑は晴れた、

鼠の害とそれによる病気の恐ろしさを祖父が認識する、

其の時新聞で「父帰る」の記事を見る、

幸一の上ろこびー父が帰るー友達との約束も果せるー、

☆村の中堅層を対照とした宣傳と教育

保健所業務の大要

環境衛生の意義目的を認識させ衛生班の活動とそ族昆虫駆除の重要性を説き、今後に行け
る協力を求める。

備考

講話によるの外座談の時間を用意して質疑に應答し親切に熱を以て目的を達する様力め
る。

公衆衛生課

from Kochi Central Health Center No. 68.

June 4, 49.

Subject: Planning of Propagating and **FILE** Educating Activities of Sanitation Parties.

1. Aims of the activities: the knowledge of
 - a. To give the people the general idea and its activities of Central Health Center and also to give the full knowledge of the importance of ~~termination~~ of insect and rodent control to get the full coordination of the people.
 - b. The reason we are working to the Primary and High School children, is that they are sensitive and instructive, easy to approach. Through them we expect to expand the knowledge to their parents and brothers and sisters.
 - c. By lectures and discussions, we want to enlighten the program and to get the coordination of the people gathering together community promoter, health man, musician, representatives of women's and youth associations, village officials and farmer's corps representatives.

166	TABLE, bridge, folding	1		-do-

181	TUB, wash	2		Per family
182	UNIFORM, dress, short sleeve	3		Per female servant
183	UNIFORM, work	3		-do-

2. The people to approach:

- Primary and High School students within the prefecture.
- Village middle class people.

3. Planning:

1. Fifth year grade primary school kids:
 Subject: Study of mosquitos ^{mosquitos}
 to study the ways and behavior of the mosquitos
 to get full understanding of it being the medium
 medium of communicable disease so that
 they will get the importance of control.

hours to study: 1 hour

Preparation: Students will be asked to study mosquitoes before hand and asked to catch ~~mosquitoes~~ and also asked if possible to carry magnifiers with them.

Magnified representative mosquito pictures will be shown.

2. High School 3rd or 2nd grade girls:

To study how to make the mouse killing food with antu.

hours to study: 1 hour.

preparation: wheat flour, fish meal, dishes

3. ^{Happiness of Koichi} Story of Health Center will be told to the students (exclude Primary school 1st, 2nd year grade children)

Story of Health Center (10 minutes)

What is Health Center? How it works?

What benefits can we get?

very interesting and easy to understand.

↳ Happiness of Koichi? (30 minutes)
 Story of rodent control.

(4) Propagation and education to the general people through middle class people.

The outline of Health Center business.

The importance of having sanitary environment

Activities of Health Parties. Importance of insect and rodent control. Ask the people's cooperation to the program.

EHIME MILITARY GOVERNMENT TEAM
APO 317, U.S. ARMY

25 July 1947

SUBJECT: X-Ray Film and Paper

TO : Japanese Liaison Office, Ehime Ken

1. A letter has been received from the Chief of Ehime Tuberculosis Control Association, Matsuyama, requesting assistance from this office in obtaining X-ray film and paper from the Fuji Film Company, Osaka and Oriental Film Company in Tokyo, in order that chest X-ray examinations may be carried out at time of employment of certain persons employed by the Occupation Forces.

2. Furnishing supplies to carry out required physical examinations of Japanese Nationals employed by the Occupation Forces is the responsibility of the Japanese Government. It is requested that your office render necessary assistance to the Ehime Tuberculosis Control Association to enable them to carry out their responsibilities.

FOR THE COMMANDING OFFICER:

ROBERT M. RUDOLPH
Captain, QMC
Adjutant

Copy to Public Health Section

Letter from Japanese

To: Commander of the Military Government Company at Matsuyama
 From: Shiro Senshu, Director of Besshi Hospital, No B 1, 334
 Base of Hospital Kaneko, Niihama City, Ehime-ken.
 Date: Feb, 19, 1947. 34 Kaneko, Niihama City, Ehime-ken.

Number of Beds: 221
 Re: Purchase and Transportation of Foodstuffs for Patients
 Number of Patients: Indoor patients: 5,223... (175 per day)
 (Per Dear Sir, Out-Patients: 22,278
 Total: 27,491

Under the present circumstances it is almost impossible for us to procure any fish, vegetables and eggs necessary for the indoor patients of our hospital, which directly exerts a very unfavorable influence upon their cure. requisit foodstuffs per month

I implore you on behalf of these patients to take into consideration the above mentioned fact and give us your special permission to purchase and transport the requisite foodstuffs for the sick and wounded.

AMERICAN RED CROSS

My dear Mr. Lawrence.

One of our →
christian women (65 years of age)
is ill with Pneumonia. She has
been suffering terribly for 3
weeks. Yesterday when I went
to see her, the doctor said
if he only had some Penicillin
or some Sarngol(?) he thought
she could be saved. He asked
me if I could not get him
one or the other of these.
I have no way to obtain it
but to come to you.

If it is necessary to see the
patient the girl who brings
this letter will guide you. She
is in the "Kenryo in". It is
unbearable to see her suffer.

ing so if you can help please
do.

I should come to you but I
have an appointment at
Saijo & must leave early in
the morning so I am sending
this note.

Yours sincerely

R. M. Francis.

LETTER OF INFORMATION

1 September 1947

TO : Ehime Military Government Team, Ehime-Ken.
FROM : Osamu Matsuki, Nagaki, Nakayama-machi.
SUBJECT: Concealment of Dysentery Case.

Allow me to disturb your busy life and ask your help for the rapid solution of the following problem.

Ten days ago an epidemic disease occurred at a temple named Chosenji, in our village. The patient did not consult the doctor until he died.

The priest of the temple buried the dead from infectious disease without any permission.

The villagers who are afraid of the spread of the disease went to the temple to complain of the priest's conduct.

However, the priest did not listen to the villagers, saying it was authorized by Nakayama Police Station.

So they are obliged to withdraw with little result, but we, inhabitants of other hamlets, can not remain silent. That's the reason I ask your legal decision.

The said priest is a scoundrel who lives on the money swindled from the weak. The priest did not call a doctor. He rested the dead body in a coffin with his own authority. Afterwards, he sent for a doctor of Nakayama-cho, who diagnosed a dysentery case.

According to the village folk it smells so badly that it cannot be said to be a proper burial.

I wonder the police leaves it as it is. I, sympathize with the people in the neighborhood of the temple whose priest does not care a bit for the burial of the dead from epidemic disease.

I heartily desire the aid of the Military Government authorities. If you want to know the fact in detail, please refer to Takizo Shimizu near the temple, and to Kunitaro Nagaoka, too.

Yours ever,

One Villager.

(K. Miura)

The priest of the temple buried the dead from infectious disease without any permission.

The villagers who are afraid of the spread of the disease went to the temple to complain of the priest's conduct.

However, the priest did not listen to the villagers, saying it was authorized by Nakayama Police Station.

So they are obliged to withdraw with little result, but we, inhabitants of other hamlets, can not remain silent. That's the reason I ask your legal decision.

The said priest is a scoundrel who lives on the money swindled from the weak. The priest did not call a doctor. He rested the dead body in a coffin with his own authority. Afterwards, he sent for a doctor of Nakayama-cho, who diagnosed a dysentery case.

According to the village folk it smells so badly that it cannot be said to be a proper burial.

I wonder the police leaves it as it is. I, sympathize with the people in the neighborhood of the temple whose priest does not care a bit for the burial of the dead from epidemic disease.

I heartily desire the aid of the Military Government authorities. If you want to know the fact in detail, please refer to Takizo Shimizu near the temple, and to Kunitaro Nagaoka, too.

Yours ever,

One Villager.

(K. Miura)

LETTER OF INFORMATION (2497)

28, November 1948

TO : Ehime M.G.T. (Economic, Legal)
FROM : 4 Mitsuhamma Citizen
SUBJECT: Illegal sale of morphine

I have already informed you of the illegal sale of morphine at the hand of Takayuki Sakamoto, Mitsuhamma, Matsuyama. But hitherto no investigation seems to have been carried out. The Matsuyama Nishi Police Station seems to hush up the case. I request your own investigation. Japanese police are not to be relied upon now-a-days, I am very sorry to say. The details thereof have already been informed to the Police Office.

LETTER OF INFORMATION (359)

28 Oct. 1947

TO : Ehime MGT.

FROM: A Villager of Sakuragi-mura, Shuso-gun

SUBJECT: Medical practice of an unlicensed physician

I beg to inform you that though he is an unlicensed physician, a doctor's assistant of Sakuragi branch of Yokoyama hospital at Kurase is performing a surgical operation or making a narcotic injection for the absence of a doctor there. And as I feel uneasy of his medical treatment, I shall be very much obliged if you ~~give any warning to him.~~ *warn him*

of unlicensed practice

LIAISON SECTION
EHIME KEN

Sept. 6, 1948

TO : Capt. Bascom W. Bentley, Ehime Mil Govt Team
FROM : Governor, Ehime Ken
SUBJECT: Inauguration of Model Health Center
(the Matsuyama Health Center)

It is a great pleasure for us to inform you that the said Health Center has come to be opened in a few days, for the establishment of which we are greatly indebted to you.

We are going to hold an inauguration ceremony as follows, and shall be much obliged if you would kindly attend the ceremony to congratulate us on its start and to assist us in its further development in future.

1. Date: 10 a.m., 13 Sept., 1948 (Monday)
2. Place: Matsuyama Health Center;
2-chome, Idebuchi-machi, Matsuyama

*W. Miyachi, vice Governor
for S. Aoki, Governor*

S. Aoki

Governor of Ehime Ken

Y:I

To : Chief, General Affairs Section, Welfare Minister's Secretariate.
From : Shiro Senshu ; Dir., Besshi Hospital.

Date : Dec. 8, 1948.

Subject : Petition for Borrowing Motor Car Disposed of by Allied Forces.

It is requested that the following item be lent to Besshi Hospital for the reason mentioned in the attached paper.

Item : Weapon Carrier 1.

Petition Re Ambulance Car

Besshi Hospital has a floor space of 11,332 'tsubo' and is equipped with 221 beds. All kinds of diseases are treated here, and 1,200 patients are under medical treatment in a day in average.

Formerly we had no ambulance in time of emergency, so sometimes it happened that the sick could not see the doctor in time. Besides, we had been worried very much in conveying the patients to and from the hospital.

But on May 20, 1947, the Welfare Department lent us a weapon carrier (No. 2213) disposed of by the Allied Forces. So we at once set about completing the car and equipping it with such accessories as the hood, seat and soon with a fund of ¥ 6,200. We also built a garage at the expense of ¥ 100,000. Thus we commenced using it for the conveyance of patients and for a first aid. It used to run about 120 Kilometres a month in average. Thus we were delighted that we could solve our pending issue for many a year which had been the cause of our trouble

CORRECTION

**THIS DOCUMENT

To : Chief, General Affairs Section, Welfare Minister's Secretariate.
From : Shiro Senshu ; Dir., Besshi Hospital.

Date : Dec. 8, 1948.

Subject : Petition for Borrowing Motor Car Disposed of by Allied Forces.

It is requested that the following item be lent to Besshi Hospital for the reason mentioned in the attached paper.

Item : Weapon Carrier 1.

Petition Re Ambulance Car

Besshi Hospital has a floor space of 11,332 'tsubo' and is equipped with 221 beds. All kinds of diseases are treated here, and 1,200 patients are under medical treatment in a day in average.

Formerly we had no ambulance in time of emergency, so sometimes it happened that the sick could not see the doctor in time. Besides, we had been worried very much in conveying the patients to and from the hospital.

But on May 20, 1947, the Welfare Department lent us a weapon carrier (No. 2213) disposed of by the Allied Forces. So we at once set about completing the car and equipping it with such accessories as the hood, seat and soon with a fund of ¥ 6,200. We also built a garage at the expense of ¥ 100,000. Thus we commenced using it for the conveyance of patients and for a first aid. It used to run about 120 Kilometres a month in average. Thus we were delighted that we could solve our pending issue for many a year which had been the cause of our trouble

very often, when, however, we were told by your instruction No, 239 dated Feb. 26, 1948 to hand it over to Matsuyama Branch of Japan Red Cross Hospital in Matsuyama City on April 1. Thus it was transferred from us much to our disappointment, because we had devoted our efforts to completing the equipment of the carrier at the expense of much money, and we had been glad that our pending question for many years was at last brought to a successful issue.

But the Matsuyama Branch of Japan Red Cross Hospital to which our carrier was handed over, has at present no garage to shelter it, nor does it repair the damage of the carrier and abandons it to the mercy of wind and rain only with a cover on it. Indeed it has scarcely been used by the branch hospital since its transfer. This is deemed not to have been your intention when it was transferred.

Now our Besshi Hospital is going to be a model hospital after American fashion on the advice of the Shikoku Military Government. So we are in urgent need of an ambulance car for emergency use more than ever. Therefore we ask you to lend us one once more taking these circumstances into your consideration.

And if I am allowed to state my personal opinion in this connection I should say that we should be very happy if you would please lend us once more that weapon carrier which is lying idle at the Matsuyama Branch of Japan Red Cross Hospital, because it was formerly mended by our own hand and used by us.

Dec. 25, 1948.

To : Brig. Gen. C.F. Sams.

Chief,
P.H. & W. Section,
G.H.Q., SCAP.

I hereby submit for your concurrence a draft of the ministerial instruction to the governors of all prefectures in regards to re-assay of the Japanese produced biologic products.

Y. Kasai,

Vice-Minister,
Ministry of Welfare,
Japanese Government.

We are very sorry to see the unfortunete cases have happened at Kyoto and Shimane recently from diphtheria vaccination, in spite of the fact that the good results have been shown by the enforcement of the Preventive Vaccination Law for which you have always given great efforts. The Ministry of Welfare has given serious consideration for the bad influence of these cases on the future enforcement of the Law and consequent hindrance for the promotion of the health of the people. Therefore, we have done the extensive investigation of the facts. Our findings are, as announced previously, the fault in the process of manufacturing diphtheria vaccine.

Because of this fact, we decided to re-assay all the vaccines under the Preventive Vaccination Law according to the followings, in order to prevent the repetition of the same in the future and, at the same time to protect the health of the people. You are expected to exert utmost effort in putting this plan into operation.

1. The use of the Japanese produced vaccines for the preventive vaccination against any and all diseases are suspended hereby immediately and until further notice.

the Preventive Vaccination Law according to the followings, in order to prevent the repetition of the same in the future and, at the same time to protect the health of the people. You are expected to exert utmost effort in putting this plan into operation.

1. The use of the Japanese produced vaccines for the preventive vaccination against any and all diseases are suspended hereby immediately and until further notice.

2. These vaccines shall immediately be collected for re-assay, and the laboratories producing these vaccines shall be reinvestigated thoroughly. The procedure for all these investigation shall be instructed later.

3. The vaccines suspended for use shall be kept in the refrigerators at the Health Department of the prefectural office according to the method already instructed.

4. The vaccines which are re-assayed according to the procedure described above and are proved to be safe and potent shall be notified for use by later instruction.

5. Suspension of use and the collection of vaccines shall be given full publicity so that there will be no such cases happen during the course of the execution of this instruction.

- End -

Report to I 4 - 17 Nov 1946

- a. Does the Public Health Officer have confidence in the Prefectural statistics made available?
- b. Does he spot check them?
- c. Is there a check system on rates of increase of disease and is action taken to prevent spread to epidemic proportion?
- d. Do such actions result in assistance from other prefectures, cities, Japanese Red Cross etc., in emergency supply of medicines, vaccines, nurses, doctors, etc.?
- e. Is there a standby supply of medicines and vaccines to meet disease increases of emergency proportions?
- f. Are hospital facilities being improved? If not why not?
- g. Is there a program for the improvement of general local sanitation in progress?
- h. Are the prefectural authorities aware of prevention methods of disease spread?
- i. Are these methods resorted to?
- j. Does the prefecture investigate foods to determine if it is contaminated?
- k. Is the public informed of the foods necessary to a nutritious diet under present conditions of limited food supply?
- l. Is the public informed of general measures which the individual can take to prevent the spread of intestinal diseases?

- m. Are local officials aware of their responsibility under SCAP Memo AG 710 (22 Sept 45) PH SCAPIN regarding Public Health Measures in Japan?
- n. Have the following memoranda to the Japanese been compiled with: SCAPIN 98, 130, 153, 167, 214, 229, 304, 331, 355, 368, 389, 457, 465, 871, 913, 920, 921, 1274-A?
- o. Are all current Eighth Army Operational Directives pertaining to Public Health on file? These are O.D. 28/2, 37, 38, 39, 40, for 1, 945, and 3, 7, 15, 38, 40/1, 42/2, 52, 56, 37/1, 3/1, 57, 32/2, 37/2, 54/1, 55/6 for 1946.
- p. Does the Public Health Officer check the communicable disease statistics reported by the Prefectural Health Authority?
- q. Are Prefectural Health Authorities carrying out instructions pertaining to immunizations and inoculations, such as, small pox, typhus, cholera, diphtheria and thyphoid?
- r. Is Venereal Disease being brought under control by prefectural public health officials in accordance with existing Japanese laws?
- s. Are at least two copies of receipts for V.D., typhus, insect & rodent control supplies & the like being forwarded to SCAP and one info copy to Headquarters Eighth Army as required by Operational Directive No. 37/1 dated 12 June 46?
- t. Have insect and rodent control plans been worked out with the prefectural insect and rodent control officer?
- u. What measures are being taken by Local Japanese prefectural authorities to obtain medical and insect and rodent control supplies through Japanese channels & from the Welfare Ministry?

Investigation into Hospitals and Clinics under
National Health Insurance Association's management.

Name of a clinic — Higashigawa-mura Clinic under
the National Health Insurance Association's manage-
ment (Higashigawa-mura Kokumin Hoken Chokuei
Shinryosho).

Location — 486-1, Irikawauchi, Higashikawa-mura,
Aki-gun.

Date of commencement of construction work — June 8, '48.

Date of completion expected — March 8 1949.

Date of opening — August 20, 1949 (or it is expected
so).

Area of a site — 150 tsubo (1 tsubo = 36 sq. ft.),
items — 48 tsubo for an isolated sick -
building site, 102 tsubo for a ordinary sick-
building site.

Total of building areas of two buildings — 39 tsubo,
items — 11 tsubo for an isolated sick -
building and 28 tsubo for an ordinary
sick-building.

the accompanying protocol.

S. Yamamoto

III. - Those which have not reported yet, though coming under (I) Paragraph.

The Tomiyama-mura National Health Insurance Association, Kata-gun.

The Taisho-machi National Health Insurance Association, Kata-gun.

Those which stop their business.

Yatsuka-mura, Kata-gun (the village public management).

The Amatsubo-mura National Health Insurance Association, Nagaoka-gun.

The Saki-no-hama-machi National Health Insurance Association, Aki-gun.

The Higashi-toyonaga-mura Agricultural Cooperative Association, Nagaoka-gun.

The Okawanji-mura Agricultural Cooperative Association, Kata-gun.

We urge every one of responsible men of them to send a report to us, and we will send it to you then.

Date of translation: Sept. 27 1949 Translated by: Yamamoto

To: Chief of Public Health Section of Kochi C.A.J.
From: Chief of Insurance Section of Kochi-ken Welfare Section

Date: Sept. 12, 1949.

Subject: Re Investigation into Clinics under
the National Health Insurance Association's
management.

Sir:

We beg to report you about the above-mentioned
matter which was ordered by you on August 17,
1949 as follows:

Notes

I. Those which have a clinic under the National
Health Insurance Association's management, and
which are carrying all business

- (1). Higashigawa-mura, Aki-gun (the village
public management).
- (2). Saka-mura, Kami-gun (the village public
management).
- (3). Birafu-machi - Kami-gun (the town public
management).
- (4). Egwasaki-mura, Kato-gun (the village public
management).
- (5). The Yuiada-machi National Health Association,
Nagaoka-gun. ^{Insurance}
- (6). The Kamimokae-machi National Health Association,
Takaoka-gun. ^{Insurance}

- (7). The Hanemura National Health Insurance Association, Aki-gun.
- (8). The Hanemura Agricultural Cooperative Association, Aki-gun.
- (9). The Kamsomura Agricultural Cooperative Association, Takasaka-gun.
- (10). The Higashimata-mura Agricultural Cooperative Association, Takasaka-gun.
- (11). The Trukinada-mura Agricultural Cooperative Association, Hata-gun.

We beg to report you the above-mentioned ones as stated in an accompanying protocol.

II. Those which have not come to start their business, though established already, and those which have not been completely established.

- a. Nanokawa-mura, Agawa-gun (the village public management).
- b. Sazamachi, Hata-gun (the town public management).
- c. Ōkata-machi, Hata-gun (the town public management).
- d. Shimoda-machi, Hata-gun (the town public management).
- e. The Ōkawa-mura National Health Insurance Association.
- f. The Ōgiri-mura Agricultural Cooperative Association.

We beg to report the above ones as stated in

Separate paper

1. The chronological records of the individuals are as the annexed papers.
2. Rumour of the Prefecture citizens and the appearance of official duties.

A. Minoru Seiyo

Has a clear head, earnest in works, has good rumours between the people in the section and between the citizens, is eager to work long in this Prefecture, a lucid character, bold and careful.

B. Kinzo Morikami

Faithful in duties, has a thorough knowledge of office work, the rumours of members in the section and of the citizens are favourable, has also a nature of smooth external negotiations.

C. Kanae Ueda

Has been working for many years so is versed in business, is faithful and earnest, but seems to have a rustic nature. No bad reputations of citizens or of the members of the section.

D. Sumio Oyama

Has been working only for a short time, but has an innocent nature and is faithful to his work. Has favourable rumours between the members of the section and of the citizens.

E. Hyobu Machida

Is good natured, very earnest in his work, but being very old, is said that he lacks in positivity.

F. Kaname Toyota

Is somewhat short tempered, but relations between his companions are peaceful, and there are no bad reputations. Is serving as a full time officer of cattle tubercle prevention of this Prefecture from April 1939. As the officer related with the matters of cattle has been called to military service, now he has charge, of all the matters related to the cattle in addition to his full time work so is very much versed in the knowledge of the cattle business of this Prefecture. Keeps his superiors orders and attitude of his service is ordinary.
