

FATAL AUTO ACCIDENT

ONE DEAD, FOUR INJURED WHEN CAR UPSSETS ON SAN FERNANDO ROAD

Returning home last night, at midnight, from a visit to friends in Los Angeles, Ralph Palmanteer of San Francisco was killed by the overturning of the auto in which he and his friends were traveling. Mrs. Palmanteer was very badly injured. Mr. Ross Lawrence of Los Angeles, who is sales manager for the Stutz agency in that city, was driving the auto when it turned turtle. He was badly injured, sustaining a basal fracture of the skull. Mrs. Lawrence was badly bruised and shaken. Mrs. Lawrence's mother and brother, who were also with the party, were also bruised and badly shaken.

Mr. Ralph Palmanteer and Mrs. Palmanteer were in Glendale on a visit to Mr. Palmanteer's brother-in-law, Mr. C. O. Pulliam, of the Pulliam Undertaking company. He was married to Mr. Pulliam's sister. The Palmanteers went into Los Angeles Thursday to take dinner with their friends, the Ross Lawrences, and after having spent the evening with them were being conveyed home by Mr. Lawrence, who took his own party along for the ride.

Mr. Lawrence is an experienced driver, but was not acquainted with the road, and when the machine arrived at the double turn at Elliott avenue, he made the first turn all right but being unaware of the second turn ran at a pretty fair speed into the curb on the right-hand side of the turn. This threw the auto to the opposite side of the road. One of the hind wheels was smashed; the car skidded, ran into some holes on the side of the road, jerking the steering wheel out of the driver's hands. The auto then turned completely over.

The occupants of another auto that was coming behind witnessed the accident and came to the rescue. Tropic Mission hospital was notified, assistance procured and the injured were conveyed to the hospital. There it was ascertained that Mr. Palmanteer's life was extinct. The impact of the overturning auto had smashed in the ribs above the heart and probably killed him instantaneously. The body sustained other minor injuries. Mr. Lawrence, besides the basal fracture of the skull, has a broken arm and a broken collar bone. The other patients are not so seriously injured and while still in the hospital they will recover. Serious doubts are entertained as to the recovery of Mr. Ross Lawrence.

Mr. Palmanteer's mother, who is in Santa Barbara, has been telegraphed for and will arrive here tonight.

HIGH SCHOOL TRACK MEET

Glendale High School track team will meet Whittier High School track team at the Glendale High School track Saturday. The local team is in excellent shape and should be able to win from the Whittier boys. It is likely that Whittier will excel in the weights and the high jump; but Glendale ought to have the advantage in the sprints and distances. For Glendale Lukens and Sherager will handle the weights; Renshaw the hurdles; Seay, Glazier, Beech and Eckles, the sprints and relay. Glendale has one of the fastest relay teams of any of the schools in this vicinity. The Inter-class track meet will be held next week.

BASKETBALL DOUBLE-HEADER

Glendale Athletics will play the last basketball double-header tonight at the gymnasium, corner of First and Glendale avenue. There should be a good attendance to witness Glendale in its fourth victory from University of Southern California team. At the same time the University declares that it is determined to wrest this fourth game from the hands of Glendale no matter what they may think. The Glendale lineup for the lightweights is: Coole and Latter, guards; Pratt, center; McDonald and Simon, forwards. The heavyweight lineup is: Bidwell and Littell, forwards; Taylor, center; Farner and Stone, guards. This finishes the series for the lightweights. The heavy team will play Normal at Los Angeles next Tuesday. Come out and see a lively and interesting game tonight.

ELK PATROL AS HOSTS

Society has been enjoying a busy week with a promise of many gay events with the approach of Saint Patrick's day. Among the past delightful affairs was the Elk Patrol dance given in the ballroom of the club, last evening. Artistically decorated with our National colors and the Elk's purple and white, about 50 couples danced the hours away to the splendid music dispensed by the Hawcroft orchestra. Delicious cakes and punch were served throughout the evening.

Mrs. Vivian R. Webb requests us to correct the statement that she is teacher of singing, piano and violin. She teaches piano only, though she occasionally has a little song or violin number on her pupils' programs by way of variety and in order to give pupils an opportunity to learn accompanying.

C. E. KIMLIN, NEW MANAGER, BELIEVES IN PATRONIZING HOME INDUSTRY

Within the past two months the Glendale sanitarium has acquired a new manager. This is C. E. Kimlin, who had been in the real estate business in Glendale for some time. "It may seem strange," said Mr. Kimlin to a representative of the Glendale News, "that I should have changed from the real estate business to that of manager of a sanitarium. However, it is easily explained. For twelve years I was connected with the Battle Creek Sanitarium, which is the parent institution on which this Glendale sanitarium and many others have been patterned.

"It is absolutely necessary that the manager of such an institution as this should have served his apprenticeship in some similar institution. There is absolutely little likelihood that an outsider would succeed in the management of an institution of this nature. Things were in pretty good shape here when I took over the management about two months ago. There is, however, a great deal to do in the way of rearrangement and systematization. I feel greatly encouraged with the prospects before the institution. The work of reorganization is going on steadily and already some important reforms have been effected.

"Just at present every room in the institution is occupied. We have people from Eastern states, who are spending the winter here. We have also visitors from Los Angeles who prefer the foothill climate in winter to that of the city. We have even Glendale residents who have found it more convenient to come to the Sanitarium for treatment than to live in their own homes and have medical attendance there without proper facilities.

"This condition of fully occupied accommodation will prevail until the end of April. At that time we may expect to find a falling off. By the opening of May people will be going to the seaside. Even then we will have plenty to do and any little 'lightening of our labor will give us opportunity to accomplish other work in connection with the institution.

"There are fifty nurses in connection with the Sanitarium. They are usually fully occupied. When they are not occupied in the Sanitarium itself they are taking care of outside patients. The calls for this work are constant. Ten male nurses and forty female makes up the nursing staff. There are forty-eight other help of all kinds in connection with the Sanitarium.

Usually we have more than 60 residents in the Sanitarium. Of course these are not all people in need of medical attendance. Many come here simply for the climate and the rational diet the Sanitarium supplies. We believe in patronizing home industry as much as possible. For instance we buy a great deal of local milk. Last month we paid one dairy in Glendale \$150 for milk. In similar fashion as far as possible we purchase in Glendale.

One excellent feature of the institution is the X-ray apparatus, which has been brought to a point of perfection that makes it extremely valuable in all manner of medical and surgical cases. This is a large subject and will require treatment by itself. In every way this institution is up-to-date and we hope to increase its efficiency."

ATTEMPT TO GRAB WATER POWER

Gifford Pinchot whose fight for the conservation of the natural resources of the country has been instrumental in rousing the government to take steps to preserve oil lands and coal lands to the public domain, is at present making a strenuous fight against what appears to be a determined attempt to get vast public water power under monopolistic control. The Shields bill now before the Senate of the United States, gives to certain power interests without compensation the use of water power on navigable streams. The amount of water power these streams supply is larger by far than all the power of every kind now in use in the United States.

One of the most reprehensible features of this bill is that it pretends to but does not enable the people to take back their own property at the end of fifty years, for in order to do so under the bill, the government would have to pay the unearned increment and to take over whole lighting systems of cities and whole manufacturing plants. Private corporations are authorized to seize any land, private or public, they choose to condemn.

Both President Taft and President Roosevelt vetoed bills which proposed to give away powers without due compensation. The Shields bill is another measure which is attempting to grab the public resources without compensation. The attempt has aroused some opposition among those who have given the bill study; but many members of Congress are unaware of the real intent of the bill and in their ignorance may vote for it.

Another measure, the Ferris bill, gives such unlimited powers to corporations that they might seize the Grand Canyon if they chose and shut the people out. Eternal vigilance is necessary to keep the profane hands of the concession grabber out of the public resources. It has been shown that under the National forest system where conservation is enforced the most rapid development of water power has taken place. On the other hand 120 public service corporations own and are holding undeveloped and out of use an amount of water power equal to four-fifths of all there is developed and in use by all the public service corporations in the whole United States.

There is no doubt that the subject of water power conservation is of crucial importance in these days when no one knows when this country may be called to fight for its national existence. Natural resources lie at the foundation of all preparedness, whether for peace or war. No plan for national defense can be effective unless it provides for adequate public control of all the raw materials out of which the defensive strength of a nation is made.

Cotton, rubber, gasoline—these and many other natural products, are essential to the defense of a nation. Water power is even more essential, for without electricity generated by water power, the nation could not manufacture nitrates; and nitrates are the basis of gunpowder. There are no deposits of nitrates in the United States as in Chile. If the water power once passes out of national control the country will be at the mercy of the corporations in the essential matter of national defense.

This is a purely national affair. It concerns the life of the nation. The people should watch jealously any attempt to hand over the water power of the land to the interests.

WHAT THE WAR WILL COST ENGLAND

If the war in Europe is to be settled in the end by the nation that has the longest purse as has been prophesied from the beginning of the outbreak the British are flattering themselves that they have the financial resources that will outlast those of the Central Allies. It is well known that Hungary is already bankrupt and that Austria is on the verge of financial collapse. Germany is stronger and will probably last a considerable time yet. Britain, however, has resources far beyond those of the other European nations. Had it not been for those resources the war might have been over as far as the other European nations are concerned.

Britain has financed Italy; has aided Russia; has financed Serbia and Montenegro, and is standing jointly with Russia and France in upholding the Allies' credit. She is manufacturing ammunition and supplying all manner of munitions for her Allies even building destroyers and submarines for them. Her vast credit system is practically unimpaired and now when the German mark, the French franc and the Russian rouble have sunk well-nigh one-half of their exchange value the British pound is very close to its normal value and could reach normal value at any time were it not that the financial authorities of that country are desirous of retaining British gold in the country.

Speaking on the subject of the war debt the other day, Lord Inchcape, a prominent British financier and statesman, said that even if Britain should end the war with a debt of \$25,000,000,000 the burden could easily be sustained. That sum, enormous as it may seem, would mean an annual charge of only \$1,500,000,000, reckoning interest at 5 per cent, with a 1 per cent sinking fund. To this he stated there must be added \$500,000,000 for pensions annually.

Before the war the country's annual expenditure was \$1,000,000,000. Interest and sinking fund on a basis of estimated \$5,000,000,000 would be \$1,500,000,000 annually; estimated pensions, \$5,000,000,000 annually and fixed charges on pre-war basis, \$1,000,000,000. That would give a total of \$3,000,000,000 annually.

Present British taxation is bringing in \$2,000,000,000 annually. The new burden would mean that another \$1,000,000,000 annually would have to be provided every year. This can be done, it is stated, either by additional taxation or by a reduction in extravagant expenditures both private and public. It is also believed that \$25,000,000,000 will be the maximum of the war debt.

While the war burden is excessive and oppressive and should never have been incurred, it is not any more in comparison with the wealth of the British nation than was the debt incurred during the Napoleonic wars by Britain. The wealth of the country has increased enormously in the hundred years that have elapsed since that time and the nation is doubtless able to get out from under the burden in time.

At the same time it is lamentable to think of what might have

Personals

After several days spent in the A. M. Beamon home, Mrs. Charles H. DuBois returned to Los Angeles yesterday morning.

Vernon Snively of 2470 Echo Park avenue was a dinner and overnight guest on Thursday of Chas. Wells, 1504 West Broadway.

Rev. and Mrs. C. R. Norton of 373 W. Third street have been enjoying a visit from an old friend, Mrs. Susie Reich of Des Moines, Iowa, for a few days.

Mrs. C. R. Norton of 373 W. Third street is in Los Angeles this week, the guest of her daughter, Mrs. Alma Hillyard, of 23rd and Thompson, and also of her sons, who reside in that city.

Thursday evening Mr. and Mrs. A. M. Beamon of 245 S. Maryland avenue had as dinner guests, Mr. and Mrs. R. Graham of Alhambra, the latter being District Deputy Grand Matron of the Eastern Star; and Mrs. Mary Ogden Ryan.

TROPICO

Owing to ill health, Mrs. Wayland Brown of Gardena avenue has been obliged to give up her classes in dramatic art, much to the regret of her many interested pupils and a large circle of friends who are very enthusiastic about the wonderful results obtained by this clever and versatile instructor. In the future the Egan school of dramatic art of Los Angeles will assume charge of Mrs. Brown's classes, and tomorrow evening, Saturday, Feb. 26, will give a splendid program at Masonic hall. This program, which will be free, will begin at 8 p. m. and the public is invited.

1. Primary department in music—Charles Burr, Genevieve Burr.
2. Double number—Spinning Yarn; Grandma's Knitting Song—Say Bierly.
3. Japanese Dance—Six girls.
4. Tarantelle (Donee)—Rubert Tower.
5. Bluebird Solo—Mia Morgan.
6. In the Boat (Max Franke); Dances of the Marianettes (Crosby Adams); Arpeggio Walz (Crawford)—Wilhemina Lusby.
7. Comic Polka—James Bush and Elizabeth Kavane.
8. At the Wedding (Rheinhold)—Rosemary Harasta.
9. Spanish Dance—Mia Morgan.
10. Sextette, "Lucia" (left hand) (Leschetitzky)—Fay Daniels.
11. Autumn—Mary Cleveland.
12. Songs Without Words (Lindling)—Miss Elizabeth Witwer.
13. Dance Moments Musicale—Three girls.
14. Valse de Concert, two pianos (Von Wilm)—Miss Elizabeth Witwer, Miss Fay Daniels.

The Choral society is holding weekly rehearsals, preparing "Ben Hur," which will be given about the 22nd of March. Fifty of Tropico's prominent and well-known singers, under the able direction of Mr. Charles Stuart, will be heard in this splendid oratorio.

Mrs. E. V. Davis of Los Angeles gave a most interesting and appreciative talk at the Tropico Parent-Teacher association meeting at the Cerritos street school, Thursday afternoon. A parliamentary drill preceded the meeting. Dainty refreshments closed the program. A large number of patrons who were present manifested a lively interest in the splendid program.

Miss Mae Cornwell, principal of the Acacia street school, while at the Tropico city hall drilling a number of her pupils in folk songs, had the misfortune to lose a handsome Eastern Star pin. Miss Cornwell will be pleased to have the pin returned to her.

GLENDALE FOOTHILLS

Many of the residents of the Glendale foothills attended the funeral of Charles Anderson, which took place in Los Angeles, under the charge of the Independent Order of Oddfellows. The interment was in the Oddfellows' cemetery. Charles Anderson was the brother of B. T. Anderson of 1600 Dryden street. He was 28 years of age. Nearly four years ago he was stricken with locomotor ataxia and since that time he has patiently borne the burden laid on him.

Mr. James Connors of 1662 Kenneth Road is having much success with his dairy. This popular institution consists of thirty Jersey and Brown Swiss cows. The milk is of excellent quality and contains a high percentage of cream. The dairy is equipped with all modern appliances and is kept under strict surveillance, tests being made of the milk at regular intervals. This scrupulous care has created for the Connors' dairy product an unflinching market both in Glendale and around the foothills.

Mr. R. H. Whitten, of the Whitten Poultry ranch, 1500 Kenneth road, is at present on a visit to his northern ranch near Portersville. The ranch is at Terra Bella. Mr. Whitten will probably return by Sunday. His chicken ranch here demands constant attention. There are six incubators with 500 eggs each. One of these incubators hatches out each week and the day-old chicks are mostly sold and shipped at once.

Among the enterprising citizens of

the Glendale foothill district is Mr. J. Walter Elliott of 1005 N. Central avenue. Mr. Elliott is retired from business. He was at one time secretary-treasurer of the American Poultry Association. At that time he was at Shelbyville, Ind. Since coming to Glendale he has confined his attention to the breeding of Rhode Island Reds, the single-combed variety. Of these he has three pens. His premier rooster is a fine prize bird for which he paid \$75. This bird, "Paris" by name, won first prize in its class at the 1915 Los Angeles Poultry show. He has also a young cockerel of his own raising that has been parent of some fine birds. The strain is well known and well advertised. For his young birds Mr. Elliott gets from \$10 to \$15. He applies business methods to his poultry and finds therein great pleasure and considerable profit.

There has been a movement on foot among the residents of the Glendale Foothills district to have Brand boulevard improvements continued out to the terminus of the street railway. There is no doubt that the improvement would be an excellent thing for that section of the district. North Glendale has been growing and extending rapidly. The people who live there are an enlightened and well-to-do class and according to some of their leaders would hail with delight the improvement of the section mentioned. "There is no doubt," said Mr. J. Kranz, of the Overland Auto company, who lives at 1317 N. Brand, "that the extension of the Brand boulevard improvements to the end of the line would be a good thing for all property owners in the district. The matter has been discussed already by the leading property holders and it is to be hoped there will be some result of the discussion."

Among the new residents in this locality are Mr. and Mrs. George F. Colson, formerly of Pomona. Mr. and Mrs. Colson are residing temporarily at 1629 Ruth street. On their departure from their former place of residence, the Pomona Progress says: Mr. and Mrs. George F. Colson, who for twenty-four years have made their home in Pomona, are today removing to Glendale, where Mr. Colson has bright business prospects. Mrs. Colson, a member of both the Ebell and Pomona Woman's club, as well as in local church circles, will be keenly missed by her associates. With the exception of the two years passed in Claremont with their daughter, Mrs. Richard McGregor, who then was Miss Elizabeth Colson, they have passed the entire twenty-four years in this city, for the past year and a half living at 460 West Holt avenue.

MRS. GAYLORD WANTS TO BE CLERK

EDITOR GLENDALE NEWS:
 We ask the privilege of space in your paper to again inform the citizens of Glendale, as was announced through the press of Jan. 20, that I am still a candidate for City Clerk. Believing that woman's ballot and woman's work are equal to man's in efficiency, and as a progressive resident and booster of Glendale, entering into all uplifting work for the betterment of our city for the past years, we will, if the voters elect me, fill the office faithfully. Possibly women have not known or were not posted of their opponents for citizenship, there are those holding office who were our strongest opponents, therefore we depend upon true, loyal hearted men and women to place in office a woman well known for righteousness, and who depends upon Glendale for material things of life, we are here to stay, often having boosted for Glendale as the only spot for me on the map.

avenue to reside in our valley again. Everyone is glad to see them back again.

The La Canada Valley Improvement association held its regular meeting Saturday evening, Feb. 19, at 8 o'clock. The music committee had no report. A motion was made and seconded to fix the road between the Homewood and Michigan avenue, by the church. Mr. Cooper gave a synopsis of Mr. Randall's speech and made a motion for the association to endorse Mr. Randall's speech. The motion was laid on the table. After the business was transacted, a delightful program was given. Miss Elsa Anderson gave two delightful selections. Mr. T. W. Selleck gave an exceedingly interesting talk on Mexico. Mr. Selleck has traveled extensively in Mexico and was able to give an instructive address. After the meeting a social time was enjoyed with ice cream and cake.

The ladies of the Congregational church gave a George Washington social Tuesday, Feb. 22. A large number of people were there. Mr. E. H. Brooks was George Washington and Mrs. Jessie Knight, Martha Washington. One of the numbers that was full of amusement was the drawing of your profile and then blacking it and pinning it on a screen for others to guess. Mrs. E. Y. Metcalf was awarded the prize. One of the numbers, which took some studying, was the names of the presidents of the United States, written so the letters were all mixed up. A great number guessed these correct. George Washington gave a very formal address. The social time adjourned with refreshments of coffee and small cakes.

J. M. Huntington and wife spent Sunday at the home of Mrs. Huntington's parents in Pasadena.

Mr. and Mrs. Wittam were Pasadena visitors Tuesday.

The Metcalf Grocery is having a delivery body built to a new Ford roadster at J. M. Huntington's blacksmith shop.

LITTLELANDS

Church of the Ascension

There is perhaps no single thing more truly indicative of prosperity in a community than new buildings. On North Pine street, the Church of the Ascension, Littlelands, has been begun during the past week. On February 19 seven men gave a day's work voluntarily, and dinner was served for them by interested women of the colony at the nearby home of Mr. and Mrs. Johnson. Most of the work done thus far on the foundation has been donated. The 20x30 basement of native rock will be surrounded by the main building of frame construction of the same dimensions. At the northeast corner will be placed a vestibule, 7x9, and on the north side the vestry, 10x12, will be located. The chancel, with 8x10 dimensions, will be at the west end of the building. The church faces east, and will seat about 100. This is the first church building to be constructed in Littlelands. Friends have kindly helped by donations of time, money and labor, and the early completion of the building depends somewhat on the generosity of those interested. This is a splendid improvement for Littlelands.

Mrs. Keiser came from Los Angeles last Monday and is the guest of Miss Rodeheaver for the week.

Mr. and Mrs. Mehard spent Washington's birthday at Long Beach, the guests of friends.

Mr. and Mrs. Westell have gone to Los Angeles, to be away indefinitely. Mr. Westell is very ill and obliged to go to the sanitarium for treatment and Mrs. Westell is in the city, to be near her husband. We hope Mr. Westell will make a speedy recovery and that the family may return in the near future to Littlelands, where they have established a pleasant home on Stephen's Way.

A collection of vegetables and flower seeds has been received by Mr. Ashby for free distribution, from Congressman Randall. Anyone may obtain packages by applying to the post office store.

Mr. George H. Maxwell of the Reclamation association attended the

convention of the International Waterways association at San Francisco this week. More than 300 registered delegates, representing every county in California, were present at the Palace hotel on Monday. Mr. Maxwell made one of the important speeches of the occasion. He will probably not be present at the Homecroft meeting this week because of other pressing duties. He was absent last week and may be away for several meetings.

Mrs. N. M. Dewey, a former resident of Littlelands, paid a visit to the colony last Saturday. At present Mrs. Dewey is making her home with her daughter, Mrs. Hakelier, of Ramona Acres, but she still retains the ownership of a valuable acre on Monte Vista boulevard, along which the state highway will be built. Mrs. Dewey is a new subscriber to the Tri-City Progress.

Miss Hannah L. McKee arrived home Tuesday afternoon from a pleasant visit of several days with Mrs. Green and daughter and Mrs. Mehard in Los Angeles.

New Stage Line

A garage and waiting room will be in course of construction in a short time for the new stage line to be operated between Littlelands and the terminus of the electric railway at La Crescenta. The waiting room and office will occupy the corner of the lot, at Sunset and El Centro, which belongs to the Littlelands store, and the garage will be built west of the office on the same lot. It is reported that the new stages will be in running order between the 1st and 10th of March, and that the railway company expects to boost the valley and will issue literature portraying the scenic beauties and the advantages to be derived from residence in Littlelands and its environs.

Mrs. R. F. Kearney, recently of San Francisco, was the guest of Dr. and Mrs. Kearney for several days the first of the week. During her visit a hike over the new trail west of Mrs. Morgan's ranch to the highest point and the lovely views of the valley between here and the Tejuanga mountains and beyond Sunland through the San Fernando valley were most thoroughly enjoyed. This is a trip well worth the time and effort of anyone who is a lover of nature.

Mr. Alex Mayer is at present making his home with his sister, Miss Mayer, of Pine street. He comes from Imperial valley and is here to take a special course of study in the High School at Glendale.

Federation Social

Wednesday evening occurred one of the pleasant social affairs of the Christian Federation. A cordial invitation had been extended to all members and friends of the Federation, to which a goodly number responded. Friendly chat, music and other social diversions occupied the evening. Refreshments were served by the ladies.

Mr. and Mrs. J. E. Carr and young son, Charles Ashby, accompanied by Mr. and Mrs. Charles M. Thayer, spent Washington's birthday in Los Angeles.

Mr. and Mrs. W. E. Miles of Los Angeles spent the week end with "Daddy and Mother" Miles at their pleasant home on Stephen's Way.

John Stephen McGroarty, California's distinguished author and poet, will be a contributor to the folder to be issued by the electric railway company in connection with its new stage line and which will set forth the beauties of the entire valley between Montrose and Roscoe. The company shows its judgment and perception in thus securing the services of Mr. McGroarty for this purpose.

Big Brother Entertainment

The Washington's birthday entertainment provided by the Elks of Glendale for the school children of the foothill towns will take place on Saturday instead of Tuesday as previously intended, because of school being in session that day. Mr. C. N. Clark has charge of the arrangement for transportation of the school children of Littlelands to Glendale. After the children reach Glendale there will be no further expense to any. The entertainment consists of moving pictures, refreshments, etc. The children should be on hand before nine o'clock Saturday morning, corner of Clubhouse grounds.

Homecroft Club

The meeting Friday evening was in the nature of a round table. Mr. Maxwell was absent and the different members of the club discussed the planting of deciduous trees. Mr. Wieman advised planting closer than obtains ordinarily on larger tracts and also advised cutting back closely. Mr. Green counseled picking the fruit of young lemon trees when beginning to set, perhaps the first week in June. Now is the time to plant potatoes, beans, salisfy, onions, lettuce, etc.

Mr. Miles spoke of the influence of gypsum on the soil. He said it caused the soil to let loose of the properties necessary to the nourishment of the plant, and advised putting it on the soil, then spading it under and then in a few days irrigating well. From reports of the residents all over the colony it seems we shall have plenty of fruit this year. Mrs. Miles was appointed to suggest a menu at the next meeting to con-

SILVER DISHES

The hostess who is interested in the latest fashions for the table, should know that silver platters and vegetable dishes have partly superseded those of china. Though the original cost is more, the durability is greater. The dainty course dishes vary the table enough so that one does not tire of the silver. Of course, the entire silver service may be used if one prefers to do away with the china altogether. Then the plates should be those of white Milton china, covered with silver, with the rim turned over the edge; or plates with silver filagree borders and a monogram in the center, but these are harder to keep clean and do not wear as well. Silver deposit bowls, fancy dishes, and tumblers with the silver deposit rims, are also silver service, those in rock crystal and in Bohemian glass being especially beautiful.

A QUESTION TOO MANY

DAUGHTER of the House—"Is it right what mother says: that you're a self-made man?"

Visitor—"Yes, my dear. But what makes you ask?"

Daughter of the House—"I was only wondering what made you give yourself such a funny face."

Accident on Boulevard

Saturday evening about 7:30, Miss Hettie Kingsbury was going east on the boulevard, in a racer, when she collided with a motorcycle. The owner of the motorcycle was in the road, fixing some parts of it. The motorcycle had no lights, therefore Miss Kingsbury was not responsible. Miss Kingsbury was not hurt, but badly frightened. The owner of the motorcycle was injured, but not seriously.
