## SIR WILFRID ON ORIENTAL QUESTION

Prime Minister, in Clear-Cut and Earnest Words, Outlines His Views—Canada's Rights, Duties and Imperial Responsibilities

(Special to the Times.)

Vancouver, Aug. 17.—"Two considerations influenced the government's course in dealing with the problems of Asiatic immigration. They are my views, and upon them I place myself in the judgment of the people of British Columbia and of all Canada.

"My first ideal and conception is that of Empire. Looking to the fact that the interest of England is worth while, it should be our paramount consideration as Canadians and British subjects to preserve friendly relations between Great Britain and Asia.

"My second thought is of economic conditions. If we admit indiscriminate, unchecked immigration from the Orient, the good relations which ought to exist cannot be maintained. Therefore immigration must be controlled, checked and kept within reasonable bounds.

"Our conclusions are the same, our ends identical. But we differ in methods. You have looked at the question from the viewpoint of a labor man. I have looked at the question from the viewpoint of the whole British Empire. While you have sought to obtain restrictive and hostile legislation by harsh act of parliament, I have sought to obtain the same result by diplomatic and friendly negotiations and mutual agreement. Before you denounce me, may I ask you frankly and fairly which is the more conducive to the peace and dignity of the empire? Canada has rights to affirm and duties to assume. It is my ambition that Canada, while securing her rights, shall prove a worthy daughter of the Mother Land."

In clear-cut, earnest words Sir Wilfrid Laurier last night devoted his attention to a remarkable analysis of the vexed question of Asiatic immigration and his ideas in dealing with it.

The great horse show arena was magnificently decorated with mottoes and bunting, was thronged from pit to gallery by a mammoth audience, and the vast sea of faces presented a picture of the whole tour.

The entrance of Sir Wilfrid was greeted by hurricane of applause, which continued for some moments. Overhead streamed the words: "Laurier and Greater Canada." Unquestionably it was the largest gathering numerically of the trip, estimated at 12,000.

J. H. Senkler, of the Liberal Association, occupied the chair and expressed Vancouver's welcome, after which Hon. Wm. Templeman, in a brief address, punctuated by cheering, paid a tribute to the life and service of Sir Wilfrid Laurier. "Our greatest immediate problem is transportation," he declared. "We want British Columbia to be opened up in order that her vast natural resources may be adequately developed."

F. F. Pardee, in a happy speech, declared the great west was being visited by the wise men of the east, who had come to give account of their stewardship and to learn lessons for future service. The speaker urged a united Canadianism. "Canada," he declared, "must be Canada as a whole, and cannot be Canada in part."

In opening Sir Wilfrid, who was presented with a bouquet, expressed appreciation of his welcome. He came not as a party man, but as a fellow citizen. The object of his visit was to obtain information as to the needs and

the requirements of the prairie and mountain provinces. "I have realized that the question of all questions in British Columbia is that of Oriental labor. As my purpose in this tour is to meet and reason with the people for the common welfare of our common country, I propose to confer with you for some little time on the question of Asiatic immigration, to discuss frankly with you the policy of my government and the views I hold on this subject. It had been said that the east did not appreciate the situation. The question concerns not British Columbia alone," said the prime minister. "It concerns the whole of Canada; nay, it affects England and the whole of the British Empire. So let us discuss and shape our policy as Canadians for the common good of Canada, Old England and our Empire."

Having defined the two ideals that governed the consideration of the problem, Sir Wilfrid expressed concurrence in the view that immigration from the Orient must be controlled. For countless generations the nations of Asia had been ground down under despotism in a condition of penury and subjection as to food, garments and lodging. Frugality had become sordidness, and the Oriental was able to work for a fraction of the wage necessary to maintain a white man in respectability. To admit the Asiatic indiscriminately under such circumstances would be to create an economic disturbance, fraught with evil consequences.

The Premier reviewed the history of the problem. Under the government of Sir John Macdonald a head tax of \$100 was put on the Chinese. The present government was asked to increase the tax to \$500 and put the same amount on the Japanese. With the first proposition he had agreed. There were no Canadian or Imperial relations, diplomatic, commercial or otherwise, to be affected. With Japan it was different. Close friendly relations existed with the government of Queen Victoria.

"I have compunction in inflicting indignity on a friendly power," was the Premier's observation. He accordingly held a conference with the Japanese consul, explaining that his nation was a friendly power, but he must recognize the different status of civilization prevailing in the two countries. The Premier appealed to the consul not to force Canada to repel his people, and suggested that the Japanese government control the matter itself. The result was an engagement to limit Japanese immigration to Canada to 400 per year, which operated from 1901 to 1907. Then the government of Japan turned a new leaf, adopting many British in the British commercial treaty with Japan. In 1907 there was a sudden influx of Japanese immigration. It was charged that the treaty had overridden the agreement. Hon. R. Lemieux was dispatched to Tokyo and was able to secure the re-enactment of immigration restrictions. This undertaking has been scrupulously observed to the present time. "I say on my reputation as a public man, that this understanding has been fully and honorably maintained by Japan."

But another problem presented in new Asiatic immigration, this time from the British country of India. The Hindus are subjects of the King, yet the same economic reasons militated against them.

"These men," said Sir Wilfrid, "could not be turned back ignominiously by a man who prides himself on being a

Born at St. Lin, Quebec, Nov. 20, 1841; entered Quebec Legislature in 1871; member of the House of Commons since 1874 (for Quebec East since 1877); Minister of Inland Revenue in the Mackenzie cabinet in 1877-8; leader of the Liberals in Canada since 1887; sworn in as President of the Privy Council of Canada, July 11, 1896; knighted on the occasion of Queen Victoria's diamond jubilee; sworn of the Imperial Privy Council, July 6, 1897.

Expectant Multitude Ready to Extend Royal Welcome to Canada's Foremost Son—Arrangement for His Reception and Entertainment

Ere this issue of the Times reaches the majority of its readers Victoria will have welcomed within its gates Canada's foremost son and the most distinguished of over-seas statesmen, the Rt. Hon. Sir Wilfrid Laurier, prime minister of the Dominion, who has just completed the greater portion of a remarkable tour from the federal capital to the shores of the Pacific.

With ideal weather conditions prevailing and every preparation made for the reception and entertainment of the eminent guest, there is every indication that the programme as drawn will be carried out with conspicuous success and constitute, moreover, one of the most notable demonstrations of the kind in the history of western Canada.

Sir Wilfrid and party left Vancouver this afternoon at 1 o'clock on the palatial C. P. R. ferry Princess Charlotte, which had been held over from her regular sailing hour to meet the convenience of the prime minister, who was very busy up to the hour of his departure. Capt. Troup, manager of the C. P. R. coast steamships, very thoughtfully engaged the services of a fine orchestra, and during the voyage across the Gulf this afternoon the party of visitors are being regaled with sweet music.

As the Times goes to press an immense crowd is gathering in the vicinity of the landing stage at the C. P. R. docks, awaiting Sir Wilfrid's arrival, and the whole business section of the city has assumed a gala appearance, bunting being displayed very generally.

Mayor Morley and the members of the aldermanic board, the members of the executive of the Liberal Association and leading citizens generally are awaiting the arrival of the Charlotte at 5 o'clock. When the prime minister steps ashore Mayor Morley will read the civic address and extend to Sir Wilfrid and his parliamentary colleagues the freedom of the city of Victoria. This interesting ceremony over, the distinguished guests will proceed to the Empress hotel, the prime minister occupying a seat in the automobile of His Honor Lieut.-Governor Paterson.

After partaking of dinner at the Empress this evening Sir Wilfrid and those accompanying him will hold an informal conference with the members of the executive of the Liberal Association, prior to the departure of the party for the parliament buildings, where the public reception under the auspices of the provincial government will be held. In this connection the following order of procedure at the reception this evening is published for general information:

To-night's Reception.  
"Doors will be opened 7:30 to those intending to take part in the reception, a general invitation having been given. To prevent overcrowding, persons who wish to attend as spectators only will not be admitted before 10:30. The ladies' cloak-room will be in the executive chamber, second floor, west wing; the gentlemen's in the main office, mines department, first floor, west wing. Members of the legislative assembly will use their own cloak room. For other official guests, gentlemen will use the legislative reading-room, and ladies the maple committee room. The cedar committee room has been set apart for Sir Wilfrid's party. Accommodation for members of the press has been prepared in the provincial secretary's department, second floor.

"Refreshments will be served in the marquee which has been erected behind the buildings, access to which is had down the steps behind the chamber.

"Upon the arrival of Sir Wilfrid, guests will enter the chamber by the east door, proceeding to the vicinity of the speaker's throne, where presentations will be made, passing out through the west door.

"The centre of the chamber has been arranged for the convenience of guests, as well as the rotunda, picture gallery, galleries, etc.

"It is requested that guests avoid overcrowding in the chamber, in order that presentations may not be interfered with."

Before and during the progress of the reception within the parliament pile, the band of the Fifth Regiment will perform the following select promenade concert programme on the grounds fronting Belleville street:

Overture—"Morning, Noon and Night"  
Serenade—"La Paloma"  
Selection—"Lucia di Lammermoor"  
Piccilo solo—"The Deep Blue Sea"  
Soloist, Musician Beyt.  
Selection—"Stubborn Cinderella"  
Valse de Concert—"Casino Tansie"  
Overture—"William Tell"  
Grand selection—"Tannhauser"  
Wagner, "O Canada"  
Bourgeois—"Vive La Conscience"  
C. P. R.—"The Maple Leaf"  
It is interesting to note that the new national hymn, "O Canada," will on this occasion be played both on the arrival and departure of the prime minister.

Within the legislative hall during the reception a fine orchestra, under the leadership of L. A. Turner, will disclose a programme of music as follows:  
March—"Victorious Banner"  
Von Blon, "O Canada"  
Verdi, "Folk Song and Dance—Hungarian"  
Roberts, "H. Bacio"  
Arditti Gavotte—"La Inguene"  
Arditti Selection—"Maritana"  
Verdi Quartette—"Rigoletto"  
Bergner, "Response"  
Sousa, "Fairness of the Fair"  
"God Save the King."  
Visiting Pressmen.

The large party of newspapermen who are accompanying the prime minister on his tour will be entertained in a special apartment this evening at the legislative buildings, set apart for the purpose by instructions of the government. (Concluded on page 18.)

### PARIS TO LONDON AIRSHIP FLIGHT

### ANOTHER AVIATOR CROSSES ENGLISH CHANNEL

### Moissant Forced to Descend Near Deal Owing to Cold in the Upper Air

(Times-Local Wire.)

London, Aug. 17.—John Moissant, flying from Paris to London, landed at 12:30 this afternoon at Tillmanstone, near Deal, after having crossed the English Channel. Moissant was so numb with the cold when his airship landed that he was unable to leave the machine and had to be assisted from the saddle. He said that he was forced to descend because of the frightful cold in the upper air.

Moissant left Calais at 7 o'clock this morning, but was compelled to descend on French soil to await the passing of a gale. Hubert Latham started from Paris with Moissant. Latham abandoned the race owing to the pleadings of his mother, who became alarmed because of an accident to Latham's machine just before the start. She telegraphed Latham that a continuation of his flight would kill her.

Latham started to fly back to Paris, and on the way his biplane struck a tree and was badly damaged. The aviator, however, escaped injury.

Moissant reached Tillmanstone at 11:27 a. m. He flew from Calais to Tillmanstone in 65 minutes. During the Channel flight a tug steamed at top speed from Calais to Dover to offer assistance in case of accident.

Moissant is a Spaniard. He made the Channel flight in a Bleriot monoplane, and carried a mechanic, Albert.

Moissant expects to fly from Tillmanstone to London, a distance of 90 miles to-morrow. He left Issey at 5 o'clock yesterday evening and reached Amiens at 7:30. Leaving Amiens at 8:30 this morning he reached Calais at 8 o'clock.

### A. E. Bennycastle, Declared Elected in Russell After Recount, Gives Up Seat

(Special to the Times.)

Winnipeg, Aug. 17.—A. F. Bennycastle, who was declared elected for Russell in the provincial election after a recount, made a statement last night when he resigned his seat. Bennycastle's opponent was first declared

elected by thirteen, but a recount gave the seat to Bennycastle owing to a number of ballots having extraneous pencil marks. The Liberals claimed these ballots were spoiled while in possession of the returning officer after the election, they being admittedly poorly guarded, but this was denied. In mentioning his resignation, Bennycastle expressly denied any knowledge of the affair or that he connived in any irregularity that might have occurred, but in view of the fact that there might be some doubt he decided to resign.

### GENERAL OTTER TO BE INSPECTOR-GENERAL

### Will Succeed Sir Percy Lake on Arrival of General Mackenzie From England

(Special to the Times.)

Ottawa, Aug. 17.—The announcement that Gen. Mackenzie, who is being sent out to Canada by the war office, is to become chief of the general staff, confirms the impression that the position of inspector general now held by Sir Percy Lake will go to General Otter. Official confirmation of General Mackenzie's appointment has not yet been received at the department of militia, but his name was among those submitted to the Canadian authorities and approved by them.

### HARVESTERS AT WORK IN WEST

### CANADIAN NORTHERN REPORTS ON CROPS

### Yield Will Be Much Better Than Expected Earlier in the Season

(Special to the Times.)

Winnipeg, Aug. 17.—Canada Northern Railway crop report for the past week announces the harvest in full swing all along their lines and that crops are very much better than expected. Crops in northern Manitoba and Saskatchewan are declared to be especially good and in southern Manitoba lighter.

Other reports from Saskatchewan indicate the crop between Regina and Saskatoon will be lighter than last year's bumper crop, but by no means a failure, the appearance having steadily improved since early July and many fields that did not promise to be worth cutting will give fair yield. The southern part of this district has by far the better crop, this being partly due to earlier settlement of Long Lake, Lumsden and Regina districts with consequent greater area fallowed and better cultivated land.

### More Men Needed.

Winnipeg, Aug. 17.—The scarcity of harvest laborers is by no means at an end. Besides those who recently arrived from the east some four hundred men from Winnipeg have been placed and sent out at a special one cent a mile rate and immigration offices could immediately place another thousand men.

### WILL COPY CANADIAN LAWS

(Special to the Times.)

Ottawa, Aug. 17.—The Labor party of Arizona has applied to the department here and secured copies of the labor laws of Canada, as a guide in the formation of the constitution of the new state.

OBITUARY RECORD

The remains of the late George C. Anderson will be interred in Ross Bay cemetery to-morrow afternoon. The funeral is to take place from the Hanna chapel at 1.45 o'clock. Rev. Mr. Wenning will officiate.

Yesterday at the Aged Women's Home the death occurred of Mrs. Gardiner, at the age of 80 years. She had been ailing for some time, and her demise was not wholly unexpected. Deceased had been in this city for several years, having come here from California. The funeral will take place at 11 o'clock to-morrow morning from the Hanna parlors. Interment will be made in Ross Bay cemetery.

At an early hour this morning the death occurred at the residence of Mrs. Walker, Esquimalt road, of Mrs. Ellen McLeod, the beloved wife of Alexander McLeod, Prince Rupert. Deceased came to this city in the early part of the spring for medical treatment. She was born in Gananoque, Ont., and was 29 years of age. There is left to mourn her loss, besides a husband and one daughter, a mother and sister in Montreal, and a brother in Utica, N. Y. The funeral arrangements have not yet been made.

FORT WILLIAM TUNNEL COST OVER \$30 PER FOOT

Sub-Committee on Sooke Lake Water Proposition Gets Information of Value

The Times has learned on excellent authority that the statement credited to members of the sub-committee of the civic water board appointed to collect data on the Sooke lake proposition, to the effect that the cost of the tunnel for the system at Fort William was only \$20 per foot, is quite erroneous. The gentleman who furnished the sub-committee with the report of J. Hancock, engineer in charge of the work of driving the tunnel at Fort William, says that it shows the cost was over \$30 per foot, and this on a work only a little over a mile in length. The experience of engineers is that the greater the length of the tunnel the greater the cost per foot. The meeting of the joint committee of citizens and city council which was to have been held last night will not be held until Tuesday of next week. The sub-committee appointed to report on the figure at which the Esquimalt Waterworks Company would sell out its undertakings to the city has compiled additional data on the company's holdings, and this further information will be considered at the next meeting.

In the meantime those members of the committee who are adherents of the Sooke lake proposition are of the opinion that since the members of the committee have had an opportunity of personally inspecting the Esquimalt Waterworks Company's plant they should also make a trip to Sooke lake and ascertain the possibilities of that lake.

BRITISH M. P. IS VISITOR TO VICTORIA

Mr. Colfax, Member for South-west Manchester, Making a Tour of the Dominion

Mr. Colfax, member for Southwest Manchester in the British House of Commons, is among the visitors to Victoria. He is accompanied by Mrs. Colfax and registered at the Empress hotel. While the trip to Canada was made mainly for purposes of pleasure and recreation, Mr. Colfax, who is an ardent Imperialist as well as a staunch Unionist, is seizing the opportunity to inform himself as to the larger political issues in Canada, especially those which have a bearing upon the future of the Empire.

Chatting with a Times man this morning, Mr. Colfax expressed the opinion that at the next general elections in the Old Country, which cannot be long delayed, the Unionists stand an excellent chance of winning. Mr. Colfax is greatly impressed with the immensity of Canada's resources after his journey westward from Montreal, and is optimistic as to the future of the country. The trip west was made quickly, short stops being made at Montreal and Lacrosse, but returning Mr. and Mrs. Colfax will make the trip in leisurely fashion.

Mr. and Mrs. Colfax will this evening attend the public reception to Sir Wilfrid Laurier. On their return east they hope to be able to find opportunity to visit Newfoundland.

Elaborate Programme of Entertainment Prepared for "En Route Militaire"

(Special to the Times.) London, Aug. 17.—The programme for the entertainment of the Queen's Own Rifles of Toronto during their four days' stay in London is so full that their ingenuity will be taxed to complete it, includes a banquet each day, visits to theatres and music halls, circular drives through the city and other festivities.

Gen. Otter With Riflemen. Quebec, Aug. 17.—Brigadier General Otter, formerly commander of the Queen's Own of Toronto, arrived here yesterday and joined his own regiment in camp at St. Joseph de Levin, accompanying in the afternoon on a five mile cross country tramp in full marching order.

AVIATOR SUFFERS MANY HARDSHIPS

Wind and Rain Retarded Progress of Airship Across the English Channel

Dover, England, Aug. 17.—Molsant, the Spanish aeroplane pilot who crossed the English channel to-day in an attempted flight from Paris to London, and who was forced to descend near here, will not try to complete the trip until to-morrow. It was the sixth flight he has made and the first time he has ever been in England. Molsant said the trip was one of many hardships.

"I didn't know the route from Paris to Calais, nor did I know the route from Dover to London," said Molsant this afternoon. "I was relying altogether on my compass. The mechanician who accompanied me on the flight never was in an airship until to-day. He weighs 182 pounds. "After leaving Calais we encountered gusty winds and a cool rain which interfered greatly with the flight. Near the English coast conditions were so bad that we were forced to descend. I was so numb from the cold that I could hardly manipulate the controls and it made my descent, though a necessity, particularly hazardous."

MISSIONARIES IN JAPAN ARE SAFE

Canadian Workers in Mission Fields Escape Danger During Recent Floods

Toronto, Aug. 17.—Reassurance has come from Japan regarding the safety of Canadian missionaries working in the district visited by the floods. The Methodist mission board who has the largest corps of workers in the Japanese field, has received a cable supplementing one sent the other day notifying the board of the floods, and stating that the Canadians are all safe. It appears that the safety of the missionaries and their families was due to the fact that this is the holiday season and they had all removed from the affected district to a summer resort called Karuzawa.

The casualties in Tokio were given out to-day, after official investigation, as 112 dead and missing. Three thousand and five hundred and fifty-three houses were washed away, in addition to thousands which were under water during the flood but resisted the destruction. Thousands of persons are still homeless and dependent on public relief.

COL. GORDON RETIRES.

(Special to the Times.) Ottawa, Aug. 17.—A militia gazette to-day contains the announcement of the retirement of Col. W. D. Gordon commanding at Quebec. The notice reads: "Quebec command, Col. W. D. Gordon, officer commanding, is retired August 31st, 1910." At the militia department to-day it was stated no successor to Col. Gordon had been appointed. No reasons were given for Col. Gordon's retirement.

THE GRENADIERS BAND.

(Special to the Times.) London, Aug. 17.—Bandmaster Williams of the Grenadiers, says that the full strength of the band is 64, but only 40 are going to Canada. "Only good music will be rendered, he says. "No more numbers than are absolutely necessary of what are commonly called popular airs will be included in the programme. At the same time the character of the music that I shall give them will not be too austere."

UNREST AMONG RAILWAYMEN.

(Special to the Times.) London, Ont., Aug. 17.—There is a feeling of great unrest among Grand Trunk strikers over the official statement that a number of men here will not be taken back. In some quarters there is a feeling that the strike should be called again.

WIRELESS STATIONS CLOSED.

Cordova, Alaska, Aug. 17.—The United Wireless stations here and at Katala are closed to-day. Lack of business is given as the cause. Residents of Katala are distressed, as it leaves their city cut off from communication with the outside world. They declare they will petition the government for wireless or cable connections. Coal and oil owners claim great losses will result without communication. The United Wireless claims to have invested \$15,000 in the two plants and asked a guarantee of \$275 a month, which failed to materialize.

JAPAN PREPARES TO ANNEX KOREA

Resident-General Opens Negotiations With Korean Court—Garrisons Strengthened

(Times Leased Wire.) Seoul, Korea, Aug. 17.—The Japanese resident general to-day opened negotiations with the Korean court that are expected to end in the formal annexation of the Korean peninsula to Japan. In view of the approaching absorption of Korea, Japan has strengthened every garrison and is prepared to put down disorder or rebellion with a strong hand. Prior to formal announcement of the annexation, which many believe will be withheld for some time, although the virtual loss of Korean integrity will take place soon, Japan has arranged for the acquisition of police powers. Japanese officers have been placed in charge of the palace police and hundreds of Japanese secret agents are scattered throughout the Hermit kingdom.

LOSES HIS LIFE IN BEAR RIVER

J. J. Tierney Drowned Near Stewart When Responding to Calls for Help

(Times Leased Wire.) Vancouver, B. C., Aug. 17.—In an effort to rescue an unknown man whose calls for help aroused him from a midnight slumber, J. J. Tierney, well known in Vancouver and Victoria, lost his life on the night of August 16th, by drowning in the Bear river, near Stewart, B. C.

News to this effect reached this city late last evening in a message to his brother, William Tierney, 921 Thurlow street, who will leave for Stewart tonight to bring the body home. As near as can be learned Mr. Tierney and a companion resided in a cabin near the stream, and on being aroused, rushed to the banks, Mr. Tierney going to the rescue in a rough canoe made from the log of a tree, with nothing to guide him but the cries for help.

Rev. L. C. Wood, incumbent of Singalton, who is now the oldest vicar in England, presided recently at the opening of the Blackpool agricultural show. He is in his ninety-second year.

# EVIDENCE ALLEGED TO HAVE BEEN DESTROYED

Attorneys and Employees of Packing Company Cited for Contempt of Court

Chicago, Aug. 17.—United States Judge K. M. Landis yesterday resumed his examination of the attorneys and employees of the Armour Packing Company cited for contempt of court on the allegation of the federal grand jury which is investigating the beef trust, that evidence requested by the jury was being withheld.  
Attorney Urion, it was charged by the jurors, directed certain officers of

the company not to produce note books containing the notes of correspondence which the grand jury wanted.  
Urion and a number of his associates and employees of the Armour company were cited. The grand jurors are comparing the evidence given before the court with that given before the jury, and it is said a number of discrepancies have been found. It is openly predicted that indictments will follow.  
The Armour stenographers were ordered before the grand jury on August 3rd. August 5th the jury asked for the notes of the correspondence. The jurors were told that the books had been destroyed. It is alleged they were destroyed after the first summons was issued.

# WELCOME GIVEN TO CONFERENCE

PREMIER, CITY AND MINISTERS UNITE

High Tributes Paid to Great Man of the Methodist Church—Mission Work

A warm welcome to Victoria was formally extended to the delegates to the Eighth General Conference of the Methodist church yesterday afternoon—as it had already been extended in hundreds of homes and all the city churches—by the premier of British Columbia, the mayor and council of the city and the ministers of Victoria. The venerable chairman of the conference acknowledged the welcome on behalf of his brethren, and his expressions were amplified by others who spoke.

The session opened with the submission of a number of resolutions and the consideration of the matters of routine. The Ministerial Association was represented by Rev. W. Leslie Clay, Rev. H. A. Carson, Rev. T. W. Gladstone, Rev. D. C. McKee, Rev. Joseph McCoy, Rev. Dr. Reid and Rev. Dr. Campbell.

The conference decided to appoint a special committee of seventeen ministers and an equal number of laymen to consider the question of the appointment of two general superintendents, one for the west, as follows:  
B. C. Conference—Rev. Dr. J. H. White, G. R. Gordon.  
Alberta—Rev. C. H. Heustis, W. S. Galbraith.  
Saskatchewan—Rev. W. W. Abbott, George W. Brown.  
Manitoba—Rev. Principal Sparling, J. A. M. Atkins, K.C. (convener).  
London—Rev. Thomas Manning, Rev. Walter Rigby, C. E. Naylor, J. C. Hay.  
Hamilton—Rev. D. W. Snider, Rev. J. S. Ross, W. J. Waugh, James Gibson.  
Toronto—Rev. W. K. Hagar, Rev. J. J. Ferguson, Mr. Justice MacLaren, H. L. Lovering.

Bay of Quinte—Rev. Chancellor Burwash, Rev. W. H. Emsley, P. E. O'Flynn, Wm. Ross.  
Montreal—Rev. W. R. Young, D.D., Rev. E. B. Ryckman, D.D., G. F. Johnston, W. H. Lambly.  
New Brunswick—Rev. Howard Sprague, D.D., Dr. James S. Inch.  
Nova Scotia—Rev. W. H. Heartz, D. D., Dr. A. Chester.  
Newfoundland—Rev. T. B. Darby, Hon. H. J. B. Woods.

Addresses of Welcome.  
Rev. W. Leslie Clay said the honor had fallen to him because the president of the association (Rev. A. E. Roberts) was one of the members of General Conference and the indefatigable secretary of the committee of arrangements. Shakespeare to the contrary, notwithstanding, just as in military affairs so in the management of a ministerial association a Roberts was needed.

"He's little but it's wise;  
"He's a terror for his size,  
"And he'll never advertise;  
"Our Bobs." (Applause.)

It was a great pleasure, Mr. Clay said, to welcome such a splendid body of men to the city, joining with the provincial and civic authorities. All united in giving the civic latchkey to the delegates. As comrades in arms the ministers of Victoria welcomed their brethren with a sympathetic understanding of difficulties and a sympathetic satisfaction in achievements. Speaking of the various Sunday services Mr. Clay paid a high tribute to the eloquence and worth of Rev. Dr. S. P. Rose, Toronto, and made witty references, apropos of Dr. Rose wearing a gown, to certain passages which took place over the vexed matter of gowns when Dr. Rose was pastor of Dominion Methodist church, Ottawa.

Dr. Carman heartily reciprocated, on behalf of the conference, the Christian greetings of the Victoria ministers. The city delegation consisted of

Mayor Morley, Aldermen McKeown and Bishop and City Solicitor McDiarmid, the mayor being spokesman.  
The mayor in a brief speech referred to the pleasure experienced by the citizens on account of the conference being held in Victoria. He was under the impression that the conference would deal with the important question of Church Union. He hoped that whatever the settlement would be it would be such that unborn generations would refer to it with gratitude. Personally it gave him hearty pleasure to extend the freedom of the city to the delegates. He hoped that Victoria would create such an impression on them that they would eventually return and make their homes here.

Dr. Carman said he saw vast changes for the better since her last and hoped Victoria would share in the great prosperity of the Dominion.  
Premier McBride received a very hearty welcome as he was conducted to the platform by Rev. T. E. Holling, and again as the general superintendent presented him to conference.

The premier said that he had never answered a summons so gladly as that which had been conveyed through Mr. Holling to attend the conference. The people of this province had possibly the greatest compliment that the conference had been able to make its way to their capital city. The last time he had stood on that platform was on the occasion of the jubilee of that great pioneer and missionary, still greater man, Dr. Ebenezer Robson. (Applause.) It was a matter of regret that the venerable missionary was unable to be with the conference in body, but he was surely there in spirit. British Columbia never had a nobler citizen, Canada never had a better man, than Ebenezer Robson.

Mr. McBride spoke of his observations in his many trips through the province, when he had found no more vigorous people, no more energetic portion of the population, than the Methodist citizens of British Columbia. They were good, clean, decent and straightforward citizens. Touching tributes were paid by the premier to his friends, the late Dr. John Potts and the late Alex. Sutherland, in the demise of whom, he said, not alone the Methodist church, but the whole Dominion had sustained an almost irreparable loss.

Speaking briefly of the great province in which the conference was assembled, Mr. McBride said there was not an order which might be given in an imperial way which could not be met by British Columbia. It had everything to which humanity could possibly come for humanity but we Canadians would specialize in the British. (Hear, hear.) On behalf of himself and his colleagues, Mr. McBride made kindly reference to Rev. Dr. Chown, secretary for social and moral reform, with whom the various governments of the Dominion come closely into touch. Mr. McBride said Dr. Chown was always found an affable, earnest, energetic and manly man.  
Dr. Carman assured the premier that the conference esteemed highly the

visit of the premier of this noble province. The Methodist church stood with their fellows for clean and honorable citizenship, a noble government under his Majesty the King. In the hearts of all the delegates from the east was a thrill as they reached this far western portion of the Dominion and realized what a great heritage Canadians had. Concluding, the chairman said: "We are, with you, one—one for liberty, one for humanity, one for British rule, one for the Dominion, one for this Empire over all the world. We thank you, we thank you sincerely, Mr. Premier, for this visit to our conference."

A deputation from the Women's Missionary society followed, consisting of Meadames Jackson, Betta, Watson, Siple and Adams. Mrs. Jackson made an eloquent address, outlining the work of the society.  
A resolution was unanimously adopted, expressing pleasure in receiving the deputation, and its observance with admiration of the ceaseless advance of the society in numbers, income and influence. This was moved by Rev. Dr. Manning, Toronto, seconded by Rev. Dr. Antiff, Acton, Ont.

At the request of the Lord's Day Alliance the time for receiving a deputation, was postponed from to-day until Wednesday next.  
At 5 o'clock conference adjourned to attend the corner-stone laying at the Y. M. C. A. building, and as the members left the church their passage was recorded on the film of a moving picture machine.

### FRATERNAL INSURANCE.

Detroit, Mich., Aug. 16.—That insurance through fraternal orders in the United States amounts to \$10,000,000,000 and that growing demands by state insurance officials for regulation of fraternal insurance have the endorsement of representatives of both the National Fraternal Congress and Associated Fraternities of America was revealed yesterday in the annual report of President Thomas H. Cannon of the National Fraternal Congress which began its session here.  
The ultimate amalgamation of the Associated Fraternities of America with the National Fraternal Congress was indicated as possible.

OUR GUESTS: Victoria extends her heartiest welcome to Canada's most distinguished man, who will reach here this afternoon.

OUR GUESTS (continued): Four decades of active public life, forty years of toil in the service of his country, have not impaired in the least those pre-eminent qualities which have made Sir Wilfrid Laurier an outstanding figure in the world.

OUR GUESTS (continued): The polished, inspiring oration, have resisted the ravages of time and the stress of political conflict and are as conspicuous to-day as they ever have been in his long and honored career.

OUR GUESTS (continued): In our distinguished guest we welcome the man who fashioned the British Empire and moved Canada, with one stride, into the vanguard of Britain's dominions.

OUR GUESTS (continued): We recall the splendid, fertile policy which opened the Northwest, added millions to our population and balanced in an era of unparelleled prosperity.

OUR GUESTS (continued): We admire the foresight which is giving us the Grand Trunk Pacific Railway, every mile a national transcontinental system.

OUR GUESTS (continued): because it is entirely on Canadian soil, and we are soon to see the offspring of an even greater conception—the Canadian Navy.

OUR GUESTS (continued): In these achievements we can trace the evolution of our country from relative insignificance into prominence and power, attracting the attention of the whole world.

OUR GUESTS (continued): The guiding hand throughout has been a steady one, unshaken by panic or momentary caprice.

OUR GUESTS (continued): Sir Wilfrid's course has been to build for permanence. He realized early that the foundation of this country was laid for a future pregnant with limitless possibilities.

OUR GUESTS (continued): His conception of a nation's structure has been one that endures for all time. He has had his ideal to be the acme of the greatest good for the greatest number, the promotion of happiness and prosperity without regard for racial and social distinctions, and the verdict of posterity will be that

success has largely rewarded his efforts to that end.

It is impossible to traverse such a career as his within the contracted limits of a newspaper article. One industrious biographer years ago published two interesting volumes on his life and work, and since then a great deal has been added to his record.

The party system of government has its defects. It involves political warfare and controversy not devoid of bitterness, but true worth makes its mark upon the public mind, whether it be on the right or left of the speaker, and it is gratifying to observe that many of Sir Wilfrid's strongest admirers are gentlemen who do not wear his political colors.

We welcome, also, the Minister of Railways and Canals, and our other distinguished guests. We trust that their visit to British Columbia will be pleasant and profitable and that it will enable them to obtain a commanding insight into the possibilities and problems of this far western country.

THE PISTOL HABIT.

The attempt upon the life of Mayor Gaynor of New York, preceded by the fate of Lincoln, Garfield and McKinley, has culminated in an agitation for the legal suppression of the pistol in the United States.

The programme issued by the Provincial Government in connection with the reception to the Premier of Canada this evening is no flattery to describe as a gem of the printers' art.

Two classes will be held on Saturday afternoon under the auspices of the Victoria Yacht Club. Starting at 3 o'clock the yachts, which will be classed A and B and handicapped according to measurement, will get away on a six-mile course to Albert Head and home via Brothie Ledge.

What promises to be a very successful regatta is scheduled to take place on Saturday afternoon under the auspices of the Victoria Yacht Club.

The yachts will all sail scratch in their class, the handicaps being worked out after the race according to their measurements as taken at the last regatta.

The most difficult and the most delicate matter with which any Canadian statesman has yet been called upon to deal is that of the Asiatic problem.

It is distinctly and peculiarly a western question. Yet it must be handled as an Imperial question, also, as Sir Wilfrid Laurier pointed out to a Vancouver audience last night.

Winnipeg, Aug. 17.—The joint grievance committee of the Brotherhood of Railway Trainmen and of Railway Conductors of the Canadian Northern railway arrived on Monday to confer with the company regarding drafting of a new schedule, necessitated, they claim, by increased cost of living, and they will also ask for improvements in working conditions.

Winnipeg, Aug. 17.—Nine sisters of the convent of St. Anne have left for life appointments on the Pacific slope where work of Roman Catholic educational missions has so enlarged that more help is required.

London, Aug. 17.—Canadian agriculturists witnessed the six days' experiments in connection with agricultural motor traction in Herefordshire. These tests have attracted world wide attention in farming circles.

er, secretary Canadian Forestry Association, Ottawa, Ont.

St. John Telegraph: The letters and the dispatches show Sir Wilfrid at his best. He is an old man now, with many years of success behind him and the fair promise of other years of success to come.

Indications are not wanting that there will be some highly interesting debates in the high ecclesiastical parliament now sitting in Victoria before the business of the session is concluded.

Hang your banners upon the walls. This is no common occasion. We do not know that ever before in the history of this or any other country have the people so unanimously united in extending a welcome to a political leader.

San Francisco, Cal., Aug. 17.—Today's returns show that Hiram Johnson, progressive Republican, Lincoln Roosevelt leader, and an avowed insurgent, and his insurgent colleagues have swept practically everything before them in the first direct primary ever held in California.

It is estimated that Johnson received 70,000 votes throughout the state, to Charles F. Curry's 42,000. Alden Anderson, open champion of the "machine," polled something like 25,000 votes.

The clearing away of the smoke after the battle, discloses Johnson opposed by Theo A. Bell, who was nominated without opposition yesterday by the Democrats.

California probably will return three Republican insurgents to congress and possibly one insurgent Democrat, William Kent, insurgent Republican. It is given a close victory over Duncan McKinlay, a stand patter, in the second congressional district.

In San Francisco, Julius Kahn, renominated, stand patter, was renominated without opposition. At the same time the Democrats nominated Walter MacArthur, an insurgent, who will oppose Kahn in November, with fair prospects of defeating Kahn in a district entirely in San Francisco.

Oyster Bay, N. Y., Aug. 17.—Colonel Theodore Roosevelt to-day read with great interest accounts of the insurgent victory in California. Though apparently deeply interested when informed by the United Press of the victory of Hiram Johnson, insurgent candidate for the nomination for governor, he declined to comment upon the situation.

Chicago, Aug. 17.—While many railroad officials indignantly are pleading poverty as an excuse for advancing freight rates, the volume of traffic throughout the country, as indicated by the demand for freight cars, is increasing so rapidly that the American Railway Association has issued a warning urging the roads to do everything in their power to prevent a car scarcity this fall.

The warning is being circulated through the medium of the fortnightly bulletin of the committee on relations between railways of the association, sent out by Arthur Hale, chairman. This shows a decrease of 25,000 in the number of surplus freight cars in the United States since the previous report, reducing the total to 165,564, the lowest point reached since March and nearly 100,000 below the figure for a year ago.

BARRISTER'S CAR IS BONE OF CONTENTION

W. J. Taylor's Auto Subject of Court Orders and Much Legal Discussion

Automobiles, especially after a few years of service, are apt to give trouble to their owners—and others. W. J. Taylor, K. C., has a Franklin machine which furnishes a case in point, it having occupied the attention of the courts for a couple of weeks past.

Last week an application was made on behalf of Mr. Taylor for a writ of replevin to secure the return of his machine from the Victoria Garage Company, which was holding, and claiming a lien on it, on the ground that its owner had not paid for certain repairs which its age and labors had made necessary.

The sheriff, on an order of the court, delivered the machine and this morning Frank Higgins applied in chambers for an order discharging the replevin and adding the firm of MacCallum & Tracksell to the defendants. Mr. Higgins said that he represented MacCallum & Tracksell, who had purchased the Victoria Garage Company and who had, with Mr. Taylor's sanction, executed repairs to the machine.

H. D. Twigg, for Mr. Taylor, claimed that his client had done all his business with the Victoria Garage Company and that, when the sheriff replevined the car, the garage bore a ten-foot sign with the name of that concern upon it.

Mr. Justice Clement, after hearing extracts from conflicting affidavits and opinions from the opposing counsel, unravelled the legal tangle to the satisfaction of both parties. He ruled that the application to be added as defendants could not be granted and that the question of whether that firm was entitled to a lien on the car must be tried in the county court. That part of the application asking for the discharge of the replevin is stood over sine die and the costs reserved.

INSURGENT VICTORY IN CALIFORNIA PRIMARY

Progressive Republican and Col-leagues Sweep Practically Everything Before Them

### GREETINGS COME FROM OVER SEAS

### FRATERNAL MESSAGES TO GENERAL CONFERENCE

Rev. Henry Haigh Speaks for Eng-  
lish Methodists and Rev. W. A.  
Bracken for Irish

Metropolitan Methodist church was  
crowded last night to hear two of the  
leading old country Methodist pas-  
tors, who have come out to Canada to  
bear the greetings of the Methodist  
churches of England and Ireland.

The service opened with the singing  
of the hymn, "Behold—How Sure a  
Hope," after which Rev. Dr. W. W.  
Sparling, Winnipeg, led in prayer for  
the Church.

Rev. T. Albert Moore, secretary of the  
Conference, read the letter of the  
British Wesleyan Methodist Conference  
delegating Rev. Henry Haigh, New-  
castle-on-Tyne, as their fraternal re-  
presentative.

Rev. Mr. Haigh was given a hearty  
welcome and said in part:—  
"I count myself highly honored to be  
here as the representative of the Brit-  
ish Methodist Conference at this Gen-  
eral Conference of the Methodist  
Church of Canada, to be the repre-  
sentative of that august body in this  
august assemblage.

"There is very much that is the same  
between us Methodists of the Old Land  
and you of this great new country." We  
stand for the same things. We both  
stand for religion. We are all pledged  
to believe that the unseen world is  
greater than the seen, that the spiri-  
tual is greater than the material. You  
seek to preach it and we seek to preach  
it; you seek to live it and we seek to  
live it.

"And then we all stand in common,  
not only for religion in the general  
sense of the term, but also for Christi-  
anity. There is a difference in religions,  
and that a very great difference, and  
the great question is, 'What is the dif-  
ference between the religions?'"

"I have lived and labored in India  
for 27 years and had an intimate op-  
portunity for the study of their re-  
ligion. Religion in India is a great  
thing. Long before the time of Ephi-  
sus, Rome and Greece, the religion of  
India, Hinduism, was thriving. Ephi-  
sus, Rome and Greece have gone, but  
Hinduism still goes on. Now what is  
the difference? That man must seek  
God is believed all over India, and in  
India man is seeking God with zeal  
and constancy.

"But consider Christianity. What  
does it teach? Christianity says, 'God  
seeks man'—and it is that which makes  
salvation possible, and it is that which  
gives us the right to go into the whole  
world and spread the Gospel of Christ.

"We not only stand for the Christian  
religion, but we stand for Methodism.  
Methodism is the religion of vigorous  
personal experience. This it has been,  
and as long as it continues to be so it  
will live, and when it ceases to be so  
it will die. It is an experience which  
will enter into the experience of each  
of our lives.

"Thus it is that we have great things  
in common. But there are also many  
things which we do not hold in com-  
mon. We belong to the Old Land, a  
land that is tied up with many con-  
ventions which are the accumulation of  
years and centuries, but you are free.

You are in a sense our son, but a son  
that has grown and achieved power,  
and there have been given to you  
special characteristics, strong, robust  
and vigorous characteristics, and it is  
in these special characteristics of  
yours that we rejoice.

"We have a general interest in all  
that you do. But are we not enriching  
you at our own expense? Why, I have  
given two of my own boys—not my  
sons, to be sure—to work in this coun-  
try. Do you wonder, then, that we  
watch your course with such solicitude  
and interest. Your joys are our joys  
and your sorrows are our sorrows."

Mr. Haigh went on to speak of social  
and religious conditions in England to-  
day. Speaking of the new theology, he  
termed it pan-theism undeclared and  
half-baked. Of the growing passion  
for pleasure he said:—

"Pleasure is becoming a craze. It is  
becoming a serious menace to our  
country. It is affecting the discipline  
in our homes, and parents are abdicat-  
ing their natural God-given authority  
when they allow their sons and daugh-

ters to do as they like. When the dis-  
cipline of the home becomes loose  
then the nation is bound to dissipate.

"Too much attention is being paid at  
the present time to sports and games.  
As many as sixty thousand people  
have been known to attend a football  
match on an afternoon, and pay their  
expenses for admission, but when Sun-  
day comes the same men will put on  
the collection plate a meagre penny.  
This is destroying the intellectual  
habit of the nation. Too much time is  
passed in playing and no time is left  
to read the heavier literature, and this  
results in the dissipation of man's en-  
ergy. Books with which man has to  
wrestle are those which strengthen his  
mind."

J. A. M. Atkins, K. C., Winnipeg,  
said the Conference had listened to a  
most thoughtful, inspiring and elo-  
quent address. Something had caused  
his soul to swell. It was the spirit of  
British Methodism speaking to Cana-  
dian Methodism. It was British heart  
and blood speaking to British heart and  
blood in Canada. Not alone would the  
Conference desire Mr. Haigh to go  
home, feeling their gratitude, but with  
the message that the spirit of Canadian  
Methodism, of the Canadian Methodist  
Church, was that of the British Metho-  
dist Church; that all stood with bowed  
head and confident spirit under the  
flag of great glory and serene accom-  
plishments; that the people of Canada  
did not want separation from the Brit-  
ish Empire; that they did not wish to  
occupy the position of a minor nation  
or under the suzerainty or protection  
of any nation; that Canada was full of  
hope and trust in its future and the  
Methodists of Canada of determination  
to do their duty.

Rev. W. H. Enaley, Napanee, Ont.,  
had a good word for sport and main-  
tained that it was the spirit of the  
football field which had made Britain  
what it was.

Dr. Carman bade Mr. Haigh, on his  
return home, say that Canada was  
British whether Britain ever became  
Canadian or not.

Mr. Speaker Crawford, M. P. P., To-  
ronto, born on the same Methodist  
circuit in Ireland, introduced Rev. W.  
Armstrong Bracken, fraternal delegate  
of the Irish Wesleyan church.

Mr. Bracken delivered an eloquent  
address. He believed that the reception  
which had been accorded him was as a  
representative Irishman and as a  
Methodist. He was the representative  
of a country in transition. But then  
the world was in transition. Even the  
dead seas of humanity in the east  
were being stirred to their depths. Was  
it any wonder that Ireland, with so  
much electric thrill in its system,  
should be stirred also?

The old days of landlord tyranny  
had gone for ever. The days when men  
looked at each other over a fence  
which was impassable had also passed  
away. But while there were changes  
of this character there were things in  
Ireland which did not change. It was  
a country whose present was inextric-  
ably connected with its past. In Dub-  
lin generation had succeeded genera-  
tion and each succeeding one had the  
distinction of speaking the purest Eng-  
lish in any city in the world.

Between the two sections of the peo-  
ple there was a barrier. On some ques-  
tions they were "Thou shalt not  
divided. Catholic disabilities had been removed.  
There was no exclusion for Catholics  
for attaining to any position in the  
land, save one. The tenant proprietor  
of yesterday, to-day held his farm in  
fee simple. Ireland now had a great  
national university open to all creeds  
and sects. There was a growing spirit  
of tolerance abroad in the land. In  
Dublin with its 200,000 Catholics and  
50,000 Protestants, it was now possible  
to preach the gospel in open streets.  
This would have been impossible some  
years ago. Good results had been ac-

complished by the missions established  
by the Methodists in Dublin and Bel-  
fast, and no church had done as much  
for secondary education.

The tide of emigration was setting  
from the shores of Ireland. During  
the past thirty years the population of  
the country had been reduced one  
half. When the hand of emigration  
came it took the hopeful and ener-  
getic youth, and left the homes of the  
country desolate. All the churches  
had felt the results of this emigra-  
tion. Each year 35,000 people were  
leaving the Irish shores. Among these  
from 700 to 800 were Methodists. Every  
year of the existence of the Methodist  
church in Ireland it was losing a large  
sized congregation, yet in spite of this  
it was growing.

The message he had for the Cana-  
dian Methodists was that while his  
church was administering to only a  
remnant of the church on this side was  
dealing with a vast incoming multi-  
tude, and he could not do better than  
bestow on them the benediction.

The thanks of the conference were  
tendered to Mr. Bracken on motion of  
Rev. Dr. S. P. Zane, Toronto, seconded  
by N. W. Rowell, K. C., Toronto.  
Both gentlemen bore testimony to the  
debt which Methodism all over the  
world owed to Ireland.

In response to a request from an Old  
Country Methodist the general super-  
intendent called upon those who had  
come from the Old Lands to stand and  
show their appreciation of the greet-  
ings sent over, and all over the church  
men and women rose.

"Fine trip 'around the Sound' by  
steamers of P. C. S. S. Co. Cheap rates,  
including berth and meals. Phone 4."

"The afternoon school will reopen at  
St. John's church next Sunday at 2.30  
o'clock. There will be a short service  
with an address followed by a re-  
arrangement of classes. The parents of  
the children will be made welcome.

### ISLAND CHAMPIONSHIPS SATURDAY AFTERNOON

Swimmers to Contest at Gorge in Annual Competitions—Many Entries Received

Judging from the arrangements made by the committee for the Vancouver Island swimming championships, which are to be held at the Gorge on Saturday afternoon, this meet will be one of the most successful ever held exclusively for the swimmers of this island. A good afternoon's sport is promised all those who attend, as numerous entries have been received for each event on the programme.

At a recent meeting of the committee the following officials were decided on to look after the competitions: Judges, Capt. McIntosh, Beaumont Boggs, and P. B. Farnell; starter, Ed. Sears; announcer, J. P. Sweeney; timer, J. Gawley; clerk of course, A. J. Brace; course officer, J. Isler; judge of life saving, Beaumont Boggs and A. J. Brace.

Entry forms have been sent to the different clubs on this island and it is expected that many outsiders will be contestants in the meet. Locally, the athletes will be out in large numbers, the Y. M. C. A. having a large team selected as well as the J. B. A. A. and Fifth Regiment.

The programme is as follows and offers a wide range for all swimmers: Senior—100 yards; 400 yards; life saving; relay of 50 yards, four men a team; emergency exhibition, 100 yards. Ladies—100 yards; diving competition, and a water polo match between the Fifth Regiment and Y. M. C. A. teams.

Among the most interesting races on the programme will be the relay race. A handsome silver cup will be presented to the winning team and this has helped to draw several quartettes. The Y. M. C. A. will have two fours in this event and the Fifth Regiment and J. B. A. A. will be represented by one each.

The water polo match between the Fifth Regiment and the Y. M. C. A. will, undoubtedly, prove to be a spirited affair. Both quartettes are training hard at the Gorge during the evenings and the exhibition will be one of the features of the afternoon. A silver cup will be awarded the winners of this competition.

For all the championship events silver medals will be given for the first and second places. The committee, consisting of Ian St. Clair, J. P. Sweeney and R. Pomfret reports that the money for the purchasing of the prizes has practically been all secured. Roy Pomfret, representing the Royal Life Saving Society, of London, Eng., on Saturday last passed Louis Beckwith in the first examination for an instructor's certificate. Beckwith made 85 per cent and secured his bronze medallion. On the same day he put Warren Long through for the honorary instructor's certificate. His points aggregated 83, which is a fine total. A week from the coming Saturday seven members of the Y. M. C. A. will try the examination for the award of merit.

### BIGGEST YACHTING BLOOMER IN YEARS

Monday was the date announced for the start of the long distance power boat race from Ketchikan, Alaska, to Vancouver, but there "ain't no race," as the small boy puts it.

The limit, owned by Marriott & Fellows, of Vancouver, and commanded by Alf Le Page, is the only contestant at Ketchikan.

All the other dozen or so prospective contestants failed to turn up at the scratch and a pitiful scream for help came out of the northern wilds yesterday in the shape of a heartrending wire from F. M. Foulser, secretary of the Pacific Power Boat Association, who has been looking after the arrangements for the race.

### TWO MORE GAMES IN THE LACROSSE LEAGUE

The Victoria Lacrosse Club met last night and decided that the claim of the North Ward Club for the Claxton Cup should not be allowed at this stage of the series.

North Ward and Cloverdale teams have played two drawn games, and these were last night ordered to be played again. If Cloverdale can win both it will hold the cup. If North Ward wins one, Cloverdale will be defeated for the cup. The dates for these matches are not fixed.

The North Ward and Victoria West juniors meet to-night at the Royal Athletic park. If the Wards win they will get the junior cup. If Victoria West wins the two clubs will be equal and a play off will be necessary. The Wests team will be: Goal, Medrich; point, Corkle; cover point, Johnson; left defence, Prevost; and defence, Tait; 3rd defence, Williams; centre, Brown; 2nd home, Stewart; 2nd home, Semple; first home, Stevens; outside home, Thomas; inside home, Dinsmore; spareman, Bolton.

### CRICKET AT WORK POINT TO-MORROW

To-morrow afternoon Esquimalt and the Garrison play cricket at the Work Point barracks. The Esquimalt team will be: R. H. Pooley, W. Baker, T. Thomas, W. Needham, J. Ball, E. Baig-nall, C. Woodley, A. Poits, C. Tuck, C. Challan, T. Targett, W. E. Riley, J. Samson.

The team to represent the Victoria Club against the Garrison on Saturday is as follows: L. S. V. York, J. W. D. York, A. Martin, J. H. Gillespie, R. M. Hebben, C. Coates, J. C. Barnacle, F. Halliher, T. B. Tye, A. T. Laurey, H. G. Pierce.

### CREWS FOR J. B. A. A. FLUMERFELT CUP RACE

The J. B. A. A. oarsmen's regatta is to be held on the Gorge water September 3rd. The principal event is for the Flumerfelt cup, to be contested by the club fours. The sculling contest for the Mallendine cup, junior singles, canoe races and other water sports, will be completed in the crews for the Flumerfelt cup races are as follows:

J. C. Newmarsh (s), P. McCarter (3), Vic Lawson (2), Jim McArthur (bow), W. Lang (s), J. Sweeney (3), Leo Sweeney (2), E. Todd (bow), F. Sweeney (s), F. Willie (3), E. New York, Aug. 17.—The sudden action of the authorities in preventing the Kaufman-Lang fight last night is regarded here as another body blow to the fight game in America. Acting Mayor Mitchell holds that the contest was not to be a boxing exhibition, but a prize fight, and he said he could not understand why \$15,000 worth of tickets had been sold if the affair was merely a sparring exhibition before an athletic club. It is expected that Mayor Gaynor will take the same stand when he returns to his duties.

### SIR WILFRID ON ORIENTAL QUESTION

(Continued from page 1)

British subject. True, the color of the skin was not the same, but they were British subjects, many of them wearing British uniforms and fighting Britain's battles. I sent my colleague, Mr. King, to Calcutta. His mission was confidential, but since that time not another man has come from India. Now, frankly, which is the better method? Was not my vision as good as the vision of those who attacked me?"

Britain had great interests on the Pacific. The Premier had noted with profound pleasure that the sentiment of Vancouver was intensely in favor of Canadian citizenship and British connection. Sir Wilfrid related the history of century after century of Oriental inclusiveness. Fifty years ago Japan emerged from the lethargy in many of the arts of peace, and certainly in the art of war. Old Mother England was the first to realize the new condition. The Anglo-Japanese alliance, to the glory of Lord Lansdowne, secured the frontier of India

against Russian aggression. The masses of the people in the Orient were awakening to the dignity of man. California attempted to humble the Chinese and Chinese residents and the president of the United States had to go down on his knees to beg local authorities to change their tactics. Britain adopted a different method. The policy of Rome in the old world was the policy of Britain in the new. Under Morley and Minto Britain coped with the new conditions in India in the British way. They were severe with the demagogue and agitator, but recognized the new spirit by calling upon the natives to take part in the government.

"This is the glory of England," declared Sir Wilfrid, "and worthy of emulation by her daughters in all their dealings."

"The days are past," concluded the Premier, "when it is polite to treat other races with contempt and harshness. Let us follow Britain's example and treat all men with fairness and equity. If for economic reasons distinction must be drawn, let it not be done by harsh mandates, but by mutual agreement."

Sir Wilfrid referred to the "awakening of the white world to the desirability of Oriental trade. England and Germany and the United States were vying in their efforts to capture it. Canada was behind England and had

the advantage of being the nearest neighbor.

"Men are men," said Sir Wilfrid, "and the Orient will prefer to deal with those who treat her with respect rather than with those who treat her with contempt." He saw no reason why Canada should not cultivate an exchange of bread for tea.

"When I come again to Vancouver soon, for it must be soon or not at all, I hope, nay, I am sure, I shall find the harbor second to none on the continent, with fleets of steamers plying between China, Japan, India and this great port. To attain the best ends, material as well as moral, let us act as true Canadians, true British subjects, and so behave that the flag of Old England shall mean to the Orient what it means to us—Freedom, Justice and Emancipation."

Sir Wilfrid on closing was greeted with an ovation.

### TAFT'S SCHEME TO REORGANIZE CABINET

Secretary Ballinger Refuses to Resign Unless Asked Directly by President

Beverly, Mass., Aug. 17.—The scheme of President Taft to reorganize the Republican party is steering a stormy course. Speaker Cannon has utterly refused to be eliminated. Information from sources considered reliable says that Ballinger has refused to resign, unless he is asked directly by the president to surrender his portfolio. Aldrich is still standing on his announced determination to retire from the senate, but it is understood he expects to retain his hold of party affairs and will not voluntarily lay down his leadership with his toga.

Senator Crane, who is alleged to have advised the changes and is believed to be the chief political adviser of the president, conferred with Taft yesterday. He is being urged to make some move that will make Secretary Ballinger retire, as per announced programme, shortly after the report of the congressional investigating committee is made public. Politicians are still predicting that Ballinger will leave the cabinet, but they have generally admitted that he will not do so voluntarily.

It is reported that Secretary Ballinger, when approached by Crane regarding his retirement, could not quite see why he should give up his position as a matter of party expediency. Taft, he declared, considered him an honest and trustworthy official, and he could see no reason for retiring unless Taft gave the word.

It is understood that pressure is being brought to bear on Taft to give the hint that would be necessary to bring about the retirement of the secretary of the interior.

While this phase of the situation is being brought to Taft's attention, it is said emissaries of the "old guard" are being sent to Beverly to ask the president as pointedly as strict political etiquette will permit just why Senator Crane is so anxious to placate the insurgents and progressives, and why the president himself seems to be in sympathy with the scheme.

### PRESIDENT OF CHILE DEAD.

Bremen, Aug. 17.—Senor Pedro Montt, president of the republic of Chile, lies dead in his hotel here, having been stricken by heart failure, superinduced by the shock of witnessing the shooting of Mayor Gaynor at Hoboken.

Senor Montt was elected to the Chilean presidency in 1906 for a five-year term. His policies have been popular in his country, where he has always stood high as a member of the bar since his admission to it in 1888.

Evil is a nightmare; the instant you begin to strive with it, to bestir yourself, it has already ended.—Richter.

**OZONE FOR A LIBRARY.**

Chicago's public library, for several years subjected to much adverse criticism because of its inadequate ventilation system, and the attendant ill, has been provided with what is said to be the first ozone apparatus used wholly for the purpose of supplying fresh air for a large building.

The electric ozone generator is said to be the largest ever built for such a purpose. It is six feet high, eleven inches in thickness, and one foot wide, and consumes six amperes of electric current an hour. It is inserted in an opening of an air duct between a fan and a spray of water used for washing the air, which, passing through it, becomes charged with ozone.—Popular Mechanics.

**IMPRESSIVE CEREMONY AT Y. M. C. A. BUILDING**

**Representative Gathering Hears Warm Tributes to the Work and the Workers**

Fully representative and unmistakable the corner-stone of the new Y. M. C. A. building was laid by Hon. Richard McBride, premier of the province.

Though less than an hour was occupied by the function the programme of devotional exercises and brief speeches was carried out as arranged and with the singing of the National Anthem at the close of the ceremony it was evident that the significance of the occasion was well impressed upon the hundreds of spectators present.

Tributes to the zeal of the workers who have made possible the \$100,000 structure which is to house the local branch, to the Y. M. C. A. movement itself, and to the generosity of the Victoria public, were greeted with applause which showed, in an unmistakable manner, the widespread interest which is taken in the invaluable work of the association.

President R. B. McMicking occupied the chair, and in opening the proceedings, said that he was pleased to officiate at a function which celebrated the giving of the first properly equipped young men's institution to the city of Victoria. It was an institution which

what the character of the men who conducted them made them. He went on to deal first with the economic side of the Y. M. C. A. work, saying that it would be right to suppose that there were 8,000 young men between the ages of 16 and 25 among Victoria's 40,000 inhabitants and that their total average annual income would average \$8,000 which represented the interest, at five per cent., on \$160,000. The Y. M. C. A. building stood as the only institution in the city to take care of the earners and to safeguard their earnings. The association was not a charity—it could not impress that fact too strongly on its hearers. It did not attract to it men who sought gratuitous benefits, but it gave a chance to the young man with self-respect to improve himself along many lines.

The greatest need of the city was not more buildings but more men of the right kind and the new Y. M. C. A. home would turn out more and more of them each year. It would minister to the needs of men seeking advancement in business. A night school was planned which would give all who desired an opportunity, the last they would have, to put finishing touches to their education. He ventured to predict that in three years that night school would be attended by more young men than any other educational institution in the province. That was one of the opportunities of the association—to fit them for their work in life and to assist them to better things.

Another opportunity, said the

**SEEKING MORE LIGHT ON INDIAN AFFAIRS**

U. S. Congressional Committee Decides to Investigate Sensational Charges

Sulphur, Okla., Aug. 17.—The congressional investigating committee will begin a new phase of the probe into Indian affairs in the next few days of the hearing. It is understood that other firms than McMurrays are interested in Indian contracts. One law firm is said to hold contracts worth \$20,000,000. It is reported that the committee has evidence of this, and the facts will be submitted to the committee.

Still more startling evidence, tending to show that Indian children have been virtually robbed of their holdings by attorneys and others handling their affairs, will be considered by the committee, it is said. The scope of the investigation has been enlarged since the committee reached Oklahoma, and it is expected that practically every phase of the deals involving the Indian lands will be probed.

Chief Johnson, of the Chickasaws, was a witness before the congressional committee. He testified that McMurray, Mansfield & Cornish were employed while he was an active chief. The rolls were purged of persons not entitled to allotments, he testified. Two thousand, at least, he said, were excluded. Johnson testified that McMurray received \$750,000 from the Chickasaws, and at the same time received \$5,000 annual salary from the Choctaws. He said he did not consider the money wasted. He did not know how much McMurray was paid altogether. Johnson admitted that McMurray had contributed a fund to pay for a train to bring voters hundreds of miles during Johnson's campaign for re-election in 1904.

HON. RICHARD MCBRIDE,

Who Yesterday Afternoon Laid the Corner-stone of the New Y. M. C. A. Building, and This Evening Welcomes Sir Wilfrid Laurier to British Columbia on Behalf of the Citizens of the Province.

In a large measure, would fit the youth of the city for their duties as citizens of the great Dominion of Canada and their loved city of Victoria, and would make them prepared for the destiny which awaited them. He extended thanks to the citizens who attended and to Premier McBride, who had readily accepted the responsibility of laying the corner-stone of "Faith of Our Fathers," led by J. G. Brown and accompanied by Mrs. A. J. Brace at the pianoforte, Rt. Rev. Bishop Perrin delivered the invocation. Rev. Dr. Campbell then read the Scripture lesson from 1 Peter, 2: 1-10 Epistles, 2: 13-22.

In bringing greetings from the General Conference of the Methodist Church the general superintendent, Rev. Dr. Carman, said that he rejoiced with the citizens of the Dominion, and particularly the people of Victoria, that he could say: "The general conference of the Methodist Church of Canada is in hearty sympathy with you in this great and glorious work you have undertaken. The work of the Y. M. C. A. is work for the fathers and mothers of young men as much as it is for the young men themselves. It is work for the home and aid for the pastors in their efforts."

The speaker asked if such work, which had for its object the bringing up of virile young men, was worthy of all the support the public could give it. Vice, he said, was taking the country's life because it destroyed its youth, while irreligion was taking strength from the country's manhood.

He felt it was an honor to be associated with this laying of the corner-stone for a house which was to be a credit to the whole Dominion and which would play a great part in making the youth of Victoria manly and Godly. He would reiterate that the Methodist Conference heartily sympathized with the work of the Y. M. C. A., and stood ready to cheer it on.

Speaking of "The Opportunity of the Y. M. C. A." C. C. Michener, general chairman of the building committee, said that the young men of a city are of more importance than its public buildings and its business. Public institutions and business could be only

speaker, was to guide young men coming to the city to good surroundings and to provide helpful influences for its members. In this the new building would stand out as the nearest environment to that of the home which could surround a young man. The gymnasium and swimming pool would provide opportunities for the physical exercise so necessary to the youth of the city. But the greatest opportunity of all was that of making not only the brains and the bodies of young men healthy and strong but to make their minds pure and vigorous. He had no apologies to offer when he said that the Y. M. C. A. was essentially a Christian organization. Through all of its branches and departments, runs the spirit of Christ and Victoria's new home for the association will always stand, as evidence of the fact that the people of this city do not forget God.

Premier McBride spoke briefly in praise of the association workers who had made the association building a reality. He referred to the formation of the local branch in 1884, when Mr. McMicking, who he was pleased to see in the chair, took an active part in launching the organization. From what he had learned of its history in Victoria he believed that the Y. M. C. A., although it had never been housed in a pretentious building, had not allowed its work for the well-being of young men to lapse. He paid a high tribute to the zealous workers who had secured the funds for the building and in referring to Mr. Michener, said that he was greatly interested in that gentleman's remarks because he had so plainly shown his devotion to the association's cause.

In concluding the premier, addressing the Y. M. C. A. workers in particular said, "You are rearing a structure that will go down into history as a monument to the whole-heartedness and public spirit of some of Victoria's noblest and best people."

J. L. Skene then handed a silver trowel bearing the inscription, "The laying of the corner-stone of the Y. M. C. A. by Hon. Richard McBride, August 16th, 1910," to the premier, who said:

"Upon the Foundation Rock, Jesus Christ, and to the glory of God, we lay

the National Anthem was sung by all present and cheers given for Premier McBride and Secretary Brace.

Among the invited guests who occupied seats on the platform were: Hon. Richard McBride, the board of directors of the association, including the following: President, R. B. SINKING OF DOCK REMAINS MYSTERY

Board of Investigation at Manila Finds No Valves Open—News From China and Japan

The steamer Maba Maru which arrived from the Orient to-day, brought word that an investigation had been held into the sinking of the big dock Dewey at Manila, but with no satisfactory results. No valves were found to be open and so far as the board of investigation could discover there was no opportunity for leakage of water through any defective valve. The matter of her sinking in Subig Bay therefore remains a mystery. The dock will be ready for use again very soon, but hereafter it has been resolved to employ nothing but American labor aboard her. Her electrical apparatus is practically a total loss, and her machinery will have to be thoroughly overhauled before she will be again ready for work. Word was also brought of the wiping out of the pirate band which held Colowan successfully for several days against the joint blockade of the Portuguese and Chinese forces. Forty of the pirates were summarily executed by Admiral Li without so much as a trial. The native Chinese papers which have been in sympathy with the pirates throughout denounce Admiral Li for his action, and state that he is worthy of death at the hands of his countrymen. One curious result of the bombardment was to make Lieutenant Pinto Basto, one of the Portuguese officers, quite deaf. This was caused by the excessive noise of the firing. In Formosa there have been reverses. The head hunters who are still bravely holding out against the Japanese forces, having in a raid killed two Japanese officers. Major General Kojima has asked for more troops in order to expand his lines and fill the gaps caused by sickness of the Japanese. The aggressiveness of the Japanese commercially is shown by the fact that some commercial men from Nippon have purchased the Hongkong flour mills which were erected a year or two ago at a cost of a million dollars and are removing them to Kobe. The Hongkong mills were operated at a loss and eventually failed and were offered for sale.

WIRELESS REQUEST FOR FOGHORN BLASTS. Captain of Senator Failing to Get Warning at Tatoosh, Asks for Signals. Capt. Colin J. Hannah, master of the steamship Senator, has discovered what he regards as a new and valuable field for the use of wireless service in forcing fog horns to sound when fogs are on. He improved the first opportunity for a trial while proceeding inward past Cape Flattery at a late hour Sunday night with the Senator, and pronounces the idea of a communication with aids to navigation as a departure from old-time methods that he insists should not be overlooked. Contending against a heavy fog bank that had enshrouded the Senator for several hundred miles of the ending of the steamship's run from Nome, Capt. Hannah reckoned his position as close to Cape Flattery. His figures seemed somewhat disconcerting inasmuch as no signal from the big gasoline fog horn on Tatoosh failed and could be heard. So sure, however, was he of the navigation that the wireless service of the ship was requisitioned to give a certainty. After an exchange of communications had been made between the naval station at Tatoosh and the ship a request from the Senator for fog signals soon had the bliant notes of the big siren spreading out over the entrance to the Straits of Fuca. The aid thus given permitted the steamer to proceed onward toward Puget Sound without a lessened speed. The third voyage of the year between Seattle and Nome that ended Monday was marked throughout by splendid sailing conditions and the good fortune that has attended the Senator during the season. In addition to the value of \$28,000, 300 passengers, and a valuable shipment of furs were landed at the Pacific Coast Steamship Company's wharf without an unfavorable incident. The run down was delayed several hours on account of trouble with the forced draught equipment of the boiler-room. The difficulty was insignificant, and on account of several spurts of speed previously made the vessel was able to nearly maintain her schedule. Among the arrivals by the Senator were a number from the Iditarod district. Tanana valley and other interior sections. It is declared by all that conditions for mining have been unusually favorable during the summer, and that the Seward Peninsula output of gold for the year will maintain big records of previous seasons.

### The Evening Chit-Chat

BY RUTH CAMERON

"You seem to be feeling better this afternoon than you were yesterday," I commented, when the lady who had dragged herself listlessly to the door in answer to my ring the day before, came down the hall with a quick, elastic step, and greeted me with an unforced smile.  
"Yes, I do feel much better this afternoon, although I've worked just as hard as I did yesterday. I really believe it's because, when I got my work done today, I just made myself change my dress and fix up, and yesterday I thought I was too tired to," she explained.  
I think the lady hit the nail right on the head.  
Make yourself smile and you will feel happier, despite yourself, they say.  
Make yourself look better and you will feel better, despite yourself, is equally true.  
It is a fact not to be denied that the woman who goes in search of employment of any kind stylishly and becomingly gowned, is twice as apt to be successful, other things being equal, as the woman who is unattractively garbed. And I think the reason for her attractive appearance makes upon her prospective employer.  
I think the impression that it has made on the woman herself is a greater reason. The self-confidence and better address that her consciousness of her attractive appearance inspire in her have more to do with her success than the pleasure or admiration they may inspire in him.  
Hot weather is a foe to exertion of any kind, but even here I think the close relationship between attractive appearance and attractive feelings holds good.  
"You don't believe it?"  
"Tell me, truly, when you really felt the better—the hot day when you dooped around all day and in a limp, ugly rag of a gown, because it was the thinnest thing you owned, or the day you dressed up in the afternoon in a slightly less sumpily but decidedly more attractive gown?"  
A doctor friend of mine was treating a nervous prostration patient who was wearing mourning. She was a pale, thin woman, and looked thoroughly unattractive and dowdy in her black gowns.  
"If I could only get that woman to leave off black and buy herself half a dozen pretty frocks, and fix herself up to look attractive, I'd have her half cured," he said.  
To be as attractive a part of the landscape as she can, is certainly part of woman's duty to those about her.  
And considering the difference it makes in her feelings, I should say it was also a part of her duty to herself.

### LONGEST DRY PERIOD.

New Westminster, Aug. 15.—According to the local weather recorder, T. H. Wilson, Saturday's rain broke the longest dry spell in New Westminster for twenty-one years, and possibly longer. From Tuesday, June 21st, to August 13th, a period of fifty-three days, there had been no rain here. Dr. Wilson could find no month since 1889 in which there had been no rain, and it is likely that he had the time that he could have gone back many years before that and found the same condition. As the recent drought was of two months' duration it may be a record for the province as well as New Westminster. The rain that fell on Saturday only measured a fifth of an inch, but it was sufficient for all purposes. The excessive dryness of the earlier part of the spring saved the coast from suffering any damage to the crops from the prolonged dry spell, and even had the rain not come Saturday the grain and fruit would have been all right.

# NEW YORK STOCKS

(Times Leased Wire.)

New York, Aug. 17.—The trading list regained strength to-day after an early slump on the stock market to-day. Speculation was irregular and the list fluctuated continually. Great Northern Ore-certificates, American Agricultural Chemical, Rock Island, Pacific Mail and Delaware & Hudson rose on Republic Steel 1/2 and St. Louis Southwestern preferred 5 points. Federal Mining pd. jumped 7/8 and Pacific Telephone 3/4. The market closed strong. Bonds were irregular.

# FOREST FIRES IN OREGON.

Medford, Ore., Aug. 17.—More than 50 men are fighting the forest fires in the mountains a few miles south of this city. Property loss is estimated at not less than \$10,000, the largest portion of which will fall upon the Ashland Manufacturing Company, as the fires are in the timber of this company. The fire started Saturday morning from a neglected camp fire and spread rapidly. Two small lumber mills were consumed and one or two homesteaders saved their property only by the most difficult labor.

**TODD-BUTCHART WEDDING TO-DAY**  
**ONE OF THE PRETTIEST CEREMONIES OF YEAR**

Full Choral Service in the Cathedral—Fashionable Attendance—The Guests

One of the prettiest and most fashionable weddings of the season was solemnized at 2:30 this afternoon in Christ Church Cathedral, the contracting parties being Mr. William Charles Todd, son of Mr. and Mrs. Charles Todd, "Blahie," St. Charles street, Victoria, and Miss Mary Chaitwin Butchart, daughter of Mr. and Mrs. Butchart, Todd's Inlet.

The church, which had been arranged for the occasion under the capable supervision of Mrs. Tilton, presented a very beautiful appearance. The altar was decorated with white lilies, roses and maidenhair ferns. Four arches down the centre aisle were twined with pale pink rambler roses, with two little bamboo gates, also covered with rambler roses. The rest of the church was gay with pale pink and mauve sweet peas, maidenhair ferns, and quantities of gypsophila and smilax.

Promptly at the time appointed the bridal party entered the church and was met at the door by the choir boys, who preceded the bride up the aisle. The wedding service was fully choral and most beautifully sung.

The bride, who was given away by her father, looked lovely in an exquisite Paris gown of white liberty satin, with overdress of mousseline de soie, embroidered in lover's knots and trimmed with silver roses. With this she wore a veil of real lace, loaned by Mrs. Alexander Gillespie, and carried a shower bouquet of cream roses and maidenhair ferns.

The bridesmaids were Miss Jennie Butchart and Miss Violet Pooley, both of whom wore very dainty and becoming dresses of cream lace over pink, with overdresses of pale blue, large picture hats trimmed with pink and blue flowers, and carried pale pink roses.

Dr. John L. Todd supported the groom, and Messrs. Camble, Ernest Todd, Ross, Gillespie, Foote and Marshall acted as ushers. The Bishop of Columbia, assisted by Messrs. Potts, performed the ceremony, which was a most impressive one.

While the bridal party were signing the register Mrs. Harry Pooley sang very sweetly and sweetly, "The Little Prayer."

A great many smart guests were noticed.

The bride's mother wore a lovely Balmoral blue with overdress of mousseline de soie, embroidered in blue and silver, and a silver toque with white agrettes.

Mrs. C. F. Todd appeared to advantage in a green liberty satin, with overdress of reseda green chiffon with gold trimmings; and hat of green net covered with pink roses and white tulips.

Mrs. Hebbden, who wore a most becoming white corded silk with a deep Dresden border on skirt, and large white hat with pink willow plume.

Mrs. Alexander Gillespie, looked extremely well in a pale pink liberty satin with handsome gold trimming, and tuscany straw hat with yellow willow plume.

After the ceremony a reception was held at "Blahie," St. Charles street, which had been converted into a veritable floral bower by the friends of the bride. Sweet peas, larkspur, and gypsophila were used, and the bridal couple received the congratulations of their friends under wedding bells of sweet peas.

Refreshments were served in a large marquee on the lawn, the roof of which was hung with smilax. The bride's table was appropriately decorated with cream roses, maidenhair fern and white ribbon.

The bride's going away costume is of pale blue ladies' cloth; the coat made with cape effect and pleated skirt. With this she will wear a large black hat. The honeymoon will be spent in the country, and on their return the young couple will take up their residence in their beautiful new home, "Wilmar," St. Charles street.

The invited guests were: Mrs. and the Messrs. Angus, Major and Mrs. Audaine, Mr. and Mrs. Miss Arbuthnot, Mr. John Arbuthnot, Mr. and Mrs. Amberg, Mr. and Mrs. Wm. Atkins, Rev. Stanley Ard, Mr. John Arbuckle.

# KATALLA OIL WELLS VISITED

PARTY OF STOCKHOLDERS WERE WELL PLEASED

Every Indication That Amalgamated Development Co.'s Holdings Are of Immense Value

The Amalgamated Development Company of Vancouver, recently purchased the fifty-six claims of the Pacific Coal & Oil Company, generally described as the English company, at Katalla, Redwood, Chilcat and Nickiwak, Alaska, and final papers for the transfer of the property are now filed. Many other claims are also beneath the wing of the company. It is conceded by the people of Katalla that the company was peculiarly fortunate in securing the English company's holdings upon the terms they did. Thousands and thousands of dollars had been spent by the English company in developing their claims, drilling wells, building excellent roads, tramways, and substantial camps and accumulating a great outfit of stores and machinery, and with this development work already done, the Amalgamated Development Company are not only likely to make the first commercial shipments of oil from Alaska to the markets of the world, but they are also likely to remain a controlling factor in the field. They have not only got a great range of territory, but so far as surface indications go they have most favored locations in Katalla, Redwood, Chilcat and Nickiwak. They are going in to reap the reward of the pioneer work already accomplished, and by energetic administration, by drilling more holes and developing claims as yet untouched, except for assessment work; they hope to make Katalla and the adjacent country one of the noted centres of the oil world. The five wells already sunk and bubbling with oil are not deep wells as wells go, the deepest being 1,400 feet.

A party of stockholders of the Amalgamated Development Company recently spent six days in looking over the ground, the tour being made under the supervision of O. L. Willoughby, the superintendent.

The first day the party made their way to the Katalla No. 1 claim, where there are three wells for which the claim is made that they are ready to produce. They looked at well No. 1, 255 feet deep, well No. 2, 1,400 feet deep, and well No. 3, 1,000 feet deep, where oil bubbled and frothed as if in invitation for a pump to be installed so that its latent power might be loosed to set the wheels of industry in motion. These wells will have to be pumped. They do overflow at times; there was every evidence of the lavish waste upon the floor beneath the gaunt derricks. The place reeked with the smell of petroleum, the floor was stained and smothered with it. As a matter of fact, the surface of the oil in well No. 3, which was about twelve feet beneath the top of the casing when the first visit was made, had raised five feet higher when the next call was made five days later.

Convincing was this sight, and still more impressive was the sight of the remarkable seepages of oil over the slope upon which the wells are drilled. The ground was soaked and stained with it, and one cheerfully agreed with

the notices exhibited at several points, "Danger! No Smoking! This means You!" Trenches dug had filled, and others flowed with the oil that blackened and caked the sides of the ditches and destroyed the vegetation as it trickled down the slope. In one place there was a long narrow ditch that had the appearance of being a languid little tributary of the creek running through the grounds. Shallow pools, natural seepages, stained their surroundings. Where the tramway branched to No. 3 well, one had the option of hopping from sleeper to sleeper or sinking over the footwall in the oozing oil. It was a strange experience to all the members of the party. The smell of it was in the nostrils, the stain it left upon the clothes, but their thoughts took a buoyant trend as they considered the potentialities for oil production here, and their own share in the ownership of it.

The tramway was followed down to the head of the Katalla slough, a few hundred yards away from the wells, making the transportation of supplies and machinery an easy task in this Alaskan country, where the difficulties of transportation have pronounced the doom of many promising properties. In this regard again the English company have done spade work. Katalla, Redwood and Chilcat wells are each comparatively easy of access because of the sloughs that run through the grass flats and the roads that have been built down to them.

The Katalla wells are about four miles from Katalla, and in the afternoon the party returned to the town and set out in the big launch Corsair for the English company's headquarters, now belonging to the Amalgamated Development Company, at Chilcat. What they had already seen led them to expect a camp with some degree of solid comfort, but they were far from expecting the array of buildings standing within the shadows of the cliffs, log structures capable of defying the rigors of an Alaskan winter, fronted by a stoutly built wharf from which a short, strong pier jutted. Passing into the long rambling store, one saw that a side line of the company, still continued, was trading with the Indians and settlers at Chilcat.

Then, in addition to the bunk-houses, the cook-houses and the old officers' snug rooming-house and office there were the smith's shop, the carpenter's shop and the storehouse of cable and machinery appertaining to the development of the oil industry. This emphasizes the impression that no expense had been spared by the English company in preparing to exploit the oil resources of the country.

The next day the programme was the inspection of Chilcat well and Buris creek claim No. 5. The creek is named after the expert employed by the English company, and he regarded this as one of the most favored locations for a well. The members of the party saw seepages which confirmed the opinion in their minds. Chilcat well was passed a short distance from headquarters on the verge of the grass flat. Again did the surroundings bear testimony to the periodic overflow of the well, the oil in which differs from Katalla wells in that it is not inflammable and contains a very large percentage of lubricants. Striking the wagon road, the Vancouver investors passed the site of the new mill camp, now sadly in need of repairs, followed the trail and then forded the creek many times in the five or six miles journey to near the source, in the hollow of the hills. Near where a derrick site has been built, the head had only to crunch in the bed of the creek or the edge of it when the oil would seep away and discolor the water. If a hole was scooped with the hands, or a stick, it filled. It was extraordinary to find the presence of the

### DETECTIVE FOUND MURDERED IN SYDNEY

#### Was Engaged on His Own Account, in Search for Italian Murderer

Sydney, N. S. W., Aug. 17.—Griffen, ostensibly a detective from Quincy, Mass., who came to this section of the country to follow up Restell, the Quincy double murderer, was found with his throat cut nearly from ear to ear in an alley here yesterday. He had been dead for some hours. At midnight on Monday he had been engaged in conversation with Chief McEachren, his talk being of an article taken from a Quincy paper. Griffen has been in this vicinity for two weeks, but had little communication with the local police. He had told many people with whom he had been in conversation that he was a Quincy detective engaged upon the Restell case. When found the man lay on his face about the middle of the alleyway. He was discovered by workmen, who had to pass through the alleyway.

Reported to Police. Quincy, Mass., Aug. 17.—"Griffen found dead this morning" was the text of a message received yesterday by Chief Police Burrell, of Quincy, from Chief McEachren, of Sydney, N. S. W., who is believed to belong to Lynn, conducted on his own account a search for Restell, the Italian stone worker who killed two persons and wounded three others in this city nearly three weeks ago.

### VICTORIA IS AWAITING HER HONORED GUEST

(Continued from page 1)

ernment. C. H. Gibbons, president of the legislative press gallery, has the arrangements for the entertainment of the visiting members of the fourth estate in hand, and the local newspapermen are assisting him in this pleasant task.

The correspondents who are accompanying Sir Wilfrid on his tour are: T. M. Fraser, Halifax Chronicle; Uric Barthe, La Vie, Quebec; R. J. Chevasu, La Canada; F. A. Carman, Star, and J. C. Walsh, Herald, all of Montreal; H. W. Anderson, Globe; H. B. Guest, News; T. W. King, Mail and Empire; B. B. Cooke, Star; J. Robertson, Telegram, and Willmot, World, all of Toronto; R. H. Patching, New York Herald, representative at Ottawa, and Ross, of the Winnipeg Free Press.

Everything possible is being done to make their visit a pleasant one, and every facility is being afforded for the expeditious dispatch of their work. To-morrow morning they will be taken on an automobile tour of the city and up the Mill Bay road.

To-morrow's Programme. To-morrow morning the Prime Minister and party will be the guests of the executive of the Liberal Association in a tour of the city and environs by automobile. A return will be made to the Empress hotel at 11:30, to afford Sir Wilfrid an opportunity of hearing the representations of a number of deputations.

Sir Wilfrid will lunch with His Honor Lieut.-Governor Paterson at the Government House, where he and other members of his party will remain until the conclusion of the garden party. The Prime Minister will dine at the Empress to-morrow evening and take a short rest before proceeding to the exhibition buildings to address a mass meeting in the horse show building.

Every arrangement has been made looking to the success of the mass meeting. The building has been very beautifully decorated, the main tables being placed immediately in front of the platform from which the speeches will be made. The address from the Victoria Liberal Association will be read by Lieut.-Col. Currie, commanding the Fifth Regiment. F. A. Pauline will occupy the chair, and on the platform, besides the Prime Minister, will be Hon. G. P. Graham, Hon. William Templeman, F. F. Pardee, Ralph Smith, M. P.; Senator Bostock, Senator Riley, H. C. Brewster, M. P. P.; John Jardine, M. P. P. Seated just around the platform will be members of all the Liberal associations on Vancouver Island, the following districts being represented: Victoria, Saanich, the Islands, Duncan, Alberni, Clayoquot, Esquimalt and Parksville.

A fine programme of music will be rendered during the intervals of the speeches and prior to the opening of the proceedings by the band of the Fifth Regiment. When Sir Wilfrid enters the pavilion, Herbert Kent will lead in rendering the "Mistle Toad," all present joining in the singing of the chorus.

Sir Wilfrid and party will depart on the trip to Prince Rupert at 11:30 p. m. by the splendid new G. T. P. steamship Prince George.

Electrical Display. This evening's electrical display at the parliament buildings is expected to prove the most striking and successful attempt of the kind on record in the history of western Canada. The job of wiring the building and planning the illumination of the handsome pile was entrusted to Hawkins & Hayward, and tests have shown that their efforts have been rewarded with conspicuous success. Over four thousand incandescent lights are used in the scheme.

The floral decorations in the interior of the buildings are said to be on a scale of incomparable magnitude. Suitable light refreshments will be served in a large marquee, which has been erected at the rear of the main buildings.

The oil company which has made good—The Amalgamated Development Co.

### LE BLANC WINNER OF CROSS-COUNTRY FLIGHT

Secures Prizes Amounting to \$48,000 Offered for Race of 494 Miles

(Times Leased Wire.) Paris, Aug. 17.—Gracefully soaring around the spire of the Eiffel tower, then sweeping easily to the Issy parade ground, Alfred Le Blanc to-day won the 494-mile cross country airship race.

The flight from Amiens to Issy, a distance of 79 miles, was made in one hour and forty-two minutes. Le Blanc was officially declared the winner of Le Matin's \$20,000 prize and the other prizes, which bring the total up to nearly \$48,000.

Auburn arrived second, having covered the last 70 miles in two hours flat. Corrected figures show that Le Blanc flew successfully from Issy to Troyes, Nancy, Metz, Douai, Amiens and back to Issy—a distance, with necessary detours, of 494 miles—in the time of 11 hours and 52 minutes. Auburn, who took second place, flew approximately the same distance in 13 hours and 27 minutes.

### DECISION IN FISHERIES CASE EXPECTED SOON

The Hague Tribunal Will Probably Give Judgment Early Next Month

(Special to the Times.) The Hague, Aug. 17.—It is expected that the decision in the Newfoundland fisheries arbitration will be announced on or about September 10th. Sir Edward Morris, premier of Newfoundland, in an interview stated he had been struck by the earnestness with which the members of the tribunal had considered the question.

"Our stay at The Hague," added he, "has shown us how necessary in the interests of peace such a tribunal is. Its value will be largely increased if it could be made permanent."

#### FESTIVAL OF EMPIRE

(Special to the Times.) London, Aug. 17.—The postponed festival of empire is being enlarged along novel lines. It will be an empire in miniature, with replicas of sovereign houses of parliament. There will also be a model of the all red route with ingenious scenic effects. Baron Desborough, the well known sporting enthusiast and traveller, is arranging an Imperial sports meeting.
