BUSINESS For Those Who Go After It

Orders, as a rule, are not dealt out on silver platters, but financial reports indicate money and the desire-to-buy are on hand in reasonably ample supply. In fact, the less congested areas are looked upon as splendid sources for orders.

Let us then arm ourselves with stock of good quality, ask a fair-profit price for it, and be so busy getting more business as not to notice our sales steadily growing. Lets' go!

To Your Interest and Ours

This list cancels all previous quotations, and the terms and conditions shown will carry for Fall, 1930, in all offers to the trade.

The prices printed in this list are based upon present market conditions, and are for immediate acceptance, subject to change without notice and stock being unsold. All goods are offered f. o. b. West Grove, Penna.; **packing extra** at cost or **free for cash with order**. **250 of a kind are offered at the 1,000 rate and 25 of a kind at the 100 rate.**

Orders are booked with the understanding that they shall become void should injury befall the stock from flood, error in count, drought, fire, or other causes beyond our control.

Shipments travel at purchaser's risk and in the absence of definite instructions from the buyer, stock will be forwarded according to our best judgment without assuming responsibility.

Claims, if any, must be made immediately on receipt of goods.

Terms cash, except to those with established credit, who may have the benefit of 60 days net from date of invoice.

Every effort is made to keep varieties true to name and, on proper proof, any not true will be replaced promptly; but the success of the grower is not guaranteed. In event of untrue stock, our liability must be limited to invoice value at time of shipment.

Copy of Pennsylvania State Certificate of Inspection on all orders.

Correspondence from prospective buyers is invited, but all communications should be written on printed business stationery so that trade prices can be granted to only those individuals or firms actually entitled to receive them.

The plant names used in this list conform, for the most part, with "Standardized Plant Names," adopted by The American Joint Committee on Horticultural Nomenclature.

Member American Association of Nurserymen, Eastern Nurserymen's Association, Pennsylvania Nurserymen's Association, etc.

LINING-OUT EVERGREENS

The much-heard-of 2¼ in. pot-grown plants

SAMPLE!! *Taxus media hicksi*—2¼ in. pots.

YOU'LL ROOT FOR THEIR ROOTS!

Tucked snugly into beds of Jersey sand on benches of concrete and slate, these husky little Evergreens began their careers last Fall and from then until late Spring established an endurance record for rooting.

"Re-fueled" in early Summer with fresh, fertilized soil and placed in 2¼-in. pots, they were off again to new glory, but in September, charged with energy, they "came down" to the frames for the Winter rest-period. Here they are to remain until Spring—all of their growing-power sealed for you.

That is the story of these widely-known result-producers. First, reliably rooted; then, reasonably rested. Only from such stock can you secure rows without a miss and positive satisfaction.

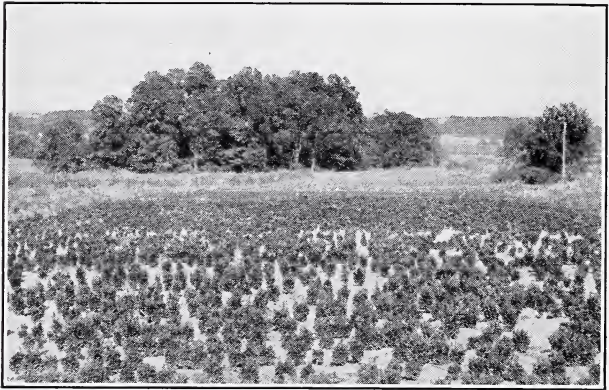

Be "sho" to "double-check", and order "double quick"!

| 12 to 15 in. (2-year)..... | 3.00 | 25.00 | |
- thunbergi minor.** *Box Barberry*
Completely hardy. Dwarf, dense grower. The small leaves are a beautiful emerald-green in spring, soft green in summer, and rich red in autumn. A neat little shrub excellent as a low hedge or border for rose-beds and a splendid foundation planting.
- | | | |
|------------------------|--------|---------|
| | 10 | 100 |
| 9 to 12 in. bushy..... | \$2.50 | \$20.00 |
- **wilsonae.** *Wilson Barberry*
Bailey says of *Berberis Wilsonae*, named for Dr. E. H. Wilson, the noted plant explorer, now Keeper of Arnold Arboretum of Harvard University: "Very distinct, handsome shrub, with small foliage assuming a brilliant fall coloring. Last year's branches are reddish brown. It has proved hardy at the Arnold Arboretum (in Massachusetts) in somewhat sheltered positions." Much used for specimens.

FALL, 1930

●(DEUTZIA) macrothyrsa.

Lemoine describes this variety as perhaps the most floriferous of his Deutzias; the tall shrub being covered on the whole length of its branches with a profusion of pure white flowers in panicles of an unusual size.

	10	100
2 to 3 ft.	\$6.00	\$50.00

Pride of Rochester.

Large-flowered Deutzia

Very vigorous grower. Large, double white flowers.

	10	100

Double Pink Deutzia

Strong grower, double flowers tinted rosy white.

	10	100
3 to 4 ft.	\$2.50	\$20.00

EUONYMUS japonicus.

Evergreen Burningbush

A most ornamental evergreen shrub that is a moderate, shapely, upright grower.

	10	100	1,000
2¼-in. pots.	\$1.00	\$7.00	\$60.00
10 to 12 in. B. & B.	4.00	35.00	
1 to 1½ ft. B. & B.	5.50	50.00

15 to 18 in.	3.00	25.00	

●radicans acutus.

Sharpleaf Wintercreeper

Similar to the type, but more pointed leaves, lighter in color. A rapid grower and evidently the best Euonymus yet for steep banks as it is a very prostrate grower, showing no inclination to climb, roots at every place it touches soil and would be excellent to hold banks. Turns bronzed in cold weather.

	10	100	1,000
2¼-in. pots.	\$1.50	\$10.00	\$80.00
9 to 12 in.	2.00	15.00

15 to 18 in.	3.00	25.00	

●radicans minimus (kewensis).

Baby Wintercreeper

For rockeries this pretty variety is a delightful subject. Its small oval foliage is of a very dark green with lighter veins, and the splendid trailing habit of the plant makes it desirable also for carpeting the ground.

	10	100	1000
2¼-in. pots.	\$1.50	\$10.00	\$80.00

radicans variegata.

Variiegated-leaf Wintercreeper

12 to 15 in.	2.50	20.00	
15 to 18 in.	3.00	25.00	

radicans vegetus.

Big-leaf Wintercreeper

A most beautiful vine, bearing bright red berries well into the winter.

	10	100	1000
3-in. pots.	\$1.50	\$12.00	\$100.00
9 to 12 in.	3.00	25.00	

●FORSYTHIA intermedia spectabilis.

Showy Border Forsythia

Acknowledged the finest Forsythia; much more profuse-flowering than the original type, and several shades richer in its glorious deep yellow. Plants vigorous and compact.

	10	100	1000
2¼-in. pots.	\$1.50	\$10.00	\$80.00
1½ to 2 ft.	2.25	18.00

"SELLING" PHLOX

Phlox, Mrs. Jenkins, tall early white.

These Perennial Phloxes, which produce huge heads of gorgeous bloom, are in demand wherever masses of color and fragrance are wanted. They are of easy culture and provide the home-planter with good value as they should be divided every three years. Their most effective use, perhaps, is to form backgrounds for other perennials.

The varieties quoted here are of the most popular and the stock has been handled with special care to assure trueness to name. All of it is home-grown.

Finest of many seasons; freshly dug one-year field plants; ready October 1.

\$8.00 per 100; \$75.00 per 1,000. 250 of kind at 1,000 rate.

Beacon. Tall, brilliant cherry-red.

Champs Elysee. Rosy purple; very effective.

Europa. White with crimson eye.

Miss Lingard. Large white flowers with lilac eye.

Mrs. Jenkins. Considered best pure white.

Prof. Schliemann. Lavender or lilac-rose.

Rijnstroom. Beautiful rose pink.

Thor. A most beautiful and lively shade of deep salmon-pink suffused and overlaid with a scarlet glow.

W. C. Egan. Lilac, with bright solferino eye.

Wherever "green rugs" are needed outdoors, sell

SPANISH BEAUTY

(*Mme. Gregoire Staechelin*)

A "WANTED" ROSE

Rose "fans" are quick to spot a "good thing", and demand for it grows with mushroom rapidity. So signal has been the success of this winner of two important medals (details front cover) that production has had to "hump" itself to keep up. Nevertheless, those firms interested in handling a rapid seller can be supplied reasonable requirements quite promptly.

STAECHELIN is an oak hardy Climbing Rose of unequalled charm, the "child" of FRAU KARL DRUSCHKI and CHATEAU DE CLOS VOUGEOT. It was discovered at Barcelona, Spain, and introduced in 1928 by The Conard-Pyle Company.

Unique in form, coloring and fragrance, its unusually large cup-like blooms are opalescent pink inside with the outside petals heavily brushed claret-carmine.

The plant is extremely vigorous, growing easily 12 feet or more, each year climbing higher. Being a true climber, the variety can be used for fences, pergolas, pillars or equal purposes.

Be sure to lay in plenty of this most useful and effective perfectly hardy climbing Rose!

No. 1 dormant 2-year field plants on Multiflora for delivery after November 1: \$75 per hundred.

HYBRID TEAS

The sweetly-perfumed Spanish Novelty—*MARI DOT*

Command new trade - extra profit
CHOOSE THESE CHOICE ★NOVELTIES

JOYOUS CAVALIER **\$100 per 100**

"Made" for bright group plantings, this "joyous" new crimson-red Hybrid Tea does not blue and blooms continuously. Its delicately-fragrant, semi-double flowers, generally solitary, stand erect on long stems and so are first-rate for cutting. The plant is vigorous, bushy and rather tall-growing; in fact, almost shrub-like.

LI BURES **\$100 per 100**

A vari-colored "pictorial" Spanish Novelty, this Pernetiana produces a maroon bud, which becomes lightened with orange and yellow as the flower expands. As a moving panorama, these tints blend into new ones until toward the end when the outer petals assume a velvety purple-crimson, while the center becomes old-rose suffused with yellow. Distinctly fragrant. Plant vigorous, upright, and bushy, with strong, holly-like, disease-resistant foliage. Introduced in U. S. by The Conard-Pyle Company.

MARI DOT (*See cut at top*) **\$100 per 100**

This much-talked-of new Spanish bedder is unique in color. The pointed bud is deep apricot, darkened with orange. It opens slowly to a double, regularly imbricated bloom of uniform apricot without shading, showing golden stamens on maroon filaments in center. The perfume is delightful, with a sweetness all its own. The Pennsylvania Horticultural Society awarded the Robert C. Wright Rose Medal to Mari Dot June 12, 1929. Introduced in U. S. by The Conard-Pyle Company.

MORE ORDERS THROUGH HUGONIS!

"Golden Shrub—Rose of China"

Now as staple as *Spirea Vanhouttei*, Hugonis will serve more effectively the same purposes.

It always has been of front rank as a yellow-flowering shrub, and its habit of blooming very early makes it outstanding in the shrubby border. Because of its charming flowers, its compactly arranged growth and small sharp thorns, Hugonis is indispensable wherever a flower-bearing hedge and impenetrable barrier are desired.

No longer a novelty, yet new to many people, Hugonis, it has been proved time and again, will pay a real profit to any nurseryman whether he be handling a general line, doing landscape work, employing agents or selling by mail.

If you, yourself, want to get every order you possibly can this Fall, as every live business man does, sell Hugonis! By so doing you will reap an immediate benefit, and *you may open the way for larger sales of other stock.*

Your requirements can be supplied in full if you order promptly.
