File: 386

APO 929
24 July 1947

SUBJECT: Request for Information .

TO : Commanding Officer
Kyushu Military Government Region,
Hq & Hq Det., APO 929

1. Reference is made to the enclosed report, Headquarters 34 Infantry, dated 10 July 1947, subject: "Report on Possession of Occupation Forces Material", and enclosures thereto.

2. During the period covered by the inclosures to the above reference, the Omura area was occupied by the Third Battalion of the Tenth Marines. Located within the Battalion area, was the 21st Naval Air Depot, now a plant named for reparations, and the Japanese naval air station. Upon occupation by the Battalion, many ware houses of these two plants were filled with various tools, machines, food, material and other items. It is understood, that many of these items were removed from distant points and stored in these warehouses during the early part of the occupation. The Japanese report that it was impossible to determine the former owner, but that it was taken as "seized" property. Therefore, it is now practically impossible to determine if the items noted in the inclosures are a part of a reparations plant.

3. The Japanese also report that much of the work initiated by the marines in Omura, was accomplished by the use of the materials etc. found in the warehouses. That for payment, the laborers were carried on the payrolls as Occupation Force labor. The Omura Kogyo, was seemingly, one of the several contractors working for the marines, and using this method for payment.

4. This headquarters requests information as to the legality of this action taken by Marine Officers, and what

1. Information furnished in basic communication and inclosures thereto indicates that procurement methods employed by the Tenth Marine Division were not in accordance with authorized procurement procedures, and are explained by the disorganized conditions prevailing in Kyushu in the latter part of 1945. Paragraph 2, basic communication, further indicates that it is practically impossible to determine if the items how held by the Omura Kogyo were taken from an enemy installation or reparations plant.

2. All marine and the majority of military government personnel who had personal knowledge of the arrangements made with the Omura Kogyo have long since been redeployed to the United States. The Omura Kogyo lost money on the manufacturing arrangement made with tactical troops, and the left-over material which the company now holds will only partially compensate them for their loss. In view of these facts, this headquarters recommends that the investigation of this case be dropped and that the remaining materials now on hand at the Omura Kogyo be reported to the Economic

TO: Commanding Officer, Kyushu Military Government Region, Hq & Hq Det, APO 929

1. In compliance with 1st indorsement, an investigation was initiated by this headquarters and the following information and recommendations are forwarded.

a. Items that were loaned to the Kumamoto Local Monopoly Bureau are at present in use at both factories: The Oe and Kami-Kumamoto Factories, Kumamoto City.

b. There are three (3) tobacco cutting machines and five (5) cigarette making machines that are in operation at the Oe Factory. An additional five (5) are to be installed soon which will make a total of ten (10) cigarette making machines. The Kami-Kumamoto Factory has fifty-six (56) tobacco cutting machines, of which forty-six (46) are in operation.

c. In order to repair parts to maintain machinery mentioned in the preceding paragraph in good operational condition, items in question are indispensable.

2. It is recommended that approval for temporary use be granted the Kumamoto Local Monopoly Bureau for the following reasons:

a. Machine tools have been in use since 25 July 1946.

b. Most of the items are expendable.

c. Subject items have been dispersed therefore no movement is required.

SUBJECT: Application for Temporary Use of Reparations Machines

THRU : Nagasaki Liaison Office

TO : Omura Joint Stock Company, Omura

1. Reference is made to:

a. Enclosed application, your company, dated 12 May 1947, subject: "Application for Temporary Use of Reparations Machines".

b. Authorization for continued production with reparations equipment, this headquarters, dated 24 July 1946, subject; as above.

2. Application for temporary use of reparations machines listed in reference a is DENIED. Due to the certainty that these machines will be taken for reparations at an early date, it is not considered advisable that they be removed for temporary use in production of civilian goods. In addition, your monthly reports indicates the Omura Joint Stock Company is now operating at full capacity with the machines now in your possession, and that the articles produced are not classified as "extremely critical items".

3. Attention is invited to paragraph 4 of reference b. This paragraph is quoted for your information: "You are advised that this permit is for temporary use only and at any time you may receive orders from this headquarters to prepare the equipment for removal from your plant. It is therefore recommended that you make immediate arrangement to procure other equipment to replace that which you are now permitted to use".

Subject: Application for temporary use of reparation machines.

Sir;

We hereby be granted your permission for the temporary use of the reparation equipments listed as follows.

1. Name address and owner of the plant.
Omura Industry Joint Stock Co. #187 Innobaba, Omura City.

2. Commodities manufactured:
Tea kettles, Bucket, Kettle, Spoon,
Pencil case, Numberplate for automobiles, lunch box;
Thrashing machine, Grass remover,
Unetateki, Touchiireki (Farming tools)

3. Monthly production
¥ 200,000.00 (mean value during these 6 monthes)

(2)

4. Number persons employed: 180

5. Name of reparation plant having custody of machine: The 21st Naval Aircraft Arsenal, Amura

7. Would the machine have to be moved from it's present location?
If so to what location:

(a) Present location: Mizubakari District, Kōrigawa District. and #189 Innobaba, Omura City. Omura Industry Joint Stock Co.

(b) Location after removal: #189 Innobaba, Omura City
Omura Industry Joint Stock Co.

8. What effort have been made to secure like equipment from non-
ropgation sources and results thereof:
We have tried our best to buy like equipment from civilian companies but under the recent economical circumstances, it is very hard to buy machineries, because our capital was not only frozen by the order of Japanese Government, but also the civilian companies don't want to sell machineries.

8. What efforts have beenmade to secure like equipment from non-reparation sources and results thereof:

We are now using three compressors and moreover have three compressors in bad repair.

In order to secure the larger production quota of coal in 1947, we need by all means 10 compressors, so 7 compressors are deficient in amount.

Though we took various measures to order toward the Industrial and Commercial Board, Coal-Mining Association and factories, we couldn't find any means except depending upon the former machines belonged to Japanese Navy.

Therefore, as the result of dispatches and investigations of various areas, we make application of your permission concerning the temporary use of preparation machines belonged to the former 21st Navy Aircraft Production Board, and we respectfully entreat you this application is to be granted by your kind treatment for us.

I certify that the information contained herein is true to the best of my knowledge and belief.

Items included in the application have not been inventoried under instructions received by this headquarters.

3. This headquarters recommends approval of this application with the exception of the items deleted by this headquarters, as noted in paragraph 2 above. Following are reasons for recommendation:

a. Machines have not been inventoried as reparations machines.

b. Items listed in the application are critical in this area and are considered essential to Japanese economy. It may be noted that forty eight (48) of the items are for wood working. In view of the critical shortage of lumber and finished lumber products, it is especially desired that those machines and equipment be put into operation. NAGASAKI PREFECTURAL GOVERNMENT

May 15th, 1947.

TO : Commanding Officer, Nagasaki Military Government Team.

FROM : Governor, Nagasaki Prefecture.

SUBJECT: Request for release of former military machines.

Among those articles formerly belonged to ex Omura 21st Naval Air Depot, a designated reparation plant, and which articles are not listed as reparation machineries, there are many items that can be utilized for peacetime industries.

If, fortunately, these items be released to the Home Ministry (this prefecture) by your special favour, it will naturally contribute a great deal to the restoration of peacetime industries; especially the following items are very useful, therefore, it will be much appreciated if these articles be turned over to us by your special favour. As they will be distributed to the civilian productive quarters to have them utilized, we wish to request you that these items be released to the Home Ministry.

April 18th, 1947.

TO : Commanding Officer, Nagasaki Military Government Team.

FROM: Governor, Nagasaki Prefecture.

SUBJECT: Request for release of ex military supplies.

Mr. Tokutaro Enishi of Omura City is in possession of the ex military articles as mentioned in the attached lists. These articles are the remainders of those which were given him for work served by him, necessitated by order of the Occupation Forces, when the troops entered the city of Omura.

As it is regarded not proper that these articles, remained from their use, are left as they are in his own hand alone, we wish to request that the said articles will be formally turned over from your authorities to the Home Ministry (this prefecture), for distribution to civilian use in general.

We wish to add that, in connection with this case, we have been directed by Capt. Goldesbey of your military government to submit formal applications to you.

Note:

1.	Items:	As per attached lists.
2.	Location:	Omura City.
3.	Former owner:	Ex Omura 21st Naval Air Depot.
4.	Former object:	Used by Ex Omura 21st Naval Air Depot.
5.	Future object:	Will be used among civilians through the Home Ministry (this prefecture).
