## WHOLESALE NURSERYMAN

Greensboro - North Carolina

MEMBER OF

THIS LIST CANCELS ALL PREVIOUS OFFERS AND PRICES

## Notice to Customers

I would say to those unacquainted with me that I was born and grew up in nursery work on my father's nursery and have been engaged in the nursery business all my life. After spending eight years in northern nurseries, I returned south and devoted my time and small capital to growing boxwood and evergreens, today I have millions of evergreens growing in one of the largest evergreen producing plants in the south.

Located in the Piedmont section of the State we have severe cold weather, but there is very seldom a week from October to May in which we can not dig and ship. You get your stock from me when you want it and when you must have it for results. I do not pack my stock in a cold storage or put it in a greenhouse to ship out during the winter months and early spring.

I dig your order right out of the ground where it is growing, puddle the roots at once, also puddle again before packing, wrap the roots in damp moss and over this wrap wax paper.

My packing is done in a cool damp cellar and I absolutely guarantee my stock to reach you in perfectly healthy condition.

I personally look after digging and packing each and every order. When you buy of me you get real service and good stock treated in the proper way.

A trial will convince you.

## Reference

As to my responsibility, I refer to any bank or business house in Greensboro, N. C., the commercial agencies and the leading nurserymen of the U. S.

that your business must be operated absolutely on the square in every way. If you are a member, you need not be rated in Dunn's or Bradstreet's, you need not send references—your credit is good with me.

## Terms and Conditions of Sales

It will be mutually understood and agreed between the purchaser and ourselves that unless there exists some special contract agreement to contrary, that the terms and conditions named in this list govern all wholesale orders and business with us.

We accept all orders upon condition that they shall be void should any injury befall the stock from digging, frost, hail, storm, fire, insect pests, infections, quarantine regulations or other causes beyond our control. We assume no liability if unable to fill any order or portion of order for any of these causes or supply becoming exhausted on account of orders previously booked, or error in counts and estimates.

Greensboro, N. C.

Shipping Season October, Continuing Until May

Terms: 30 Days Net From Date of Invoice

CREDITS will be extended only to those who have done satisfactory business in the past, or those having established financial ratings, or who can furnish satisfactory bank and financial references or security.

STRANGERS will be required to comply with the above, or send cash with order.

DISCOUNT of 5 per cent will be allowed on all orders where full amount of purchase price accompanies orders.

OUR LIABILITY AND GUARANTEE. We exercise the greatest care to keep our trees true to name, and hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, or refund the amount paid; but it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price paid for trees. If goods are not accepted upon these conditions, they must be returned and money will be refunded.

TELEGRAPHIC ORDERS are usually filled the same day received. CODE—Use Nurseryman's Telegraphic Code, published by the American Association of Nurserymen.

"One of the most beautiful of all known lilies. The exquisite blending of tints and colors forming a charming contrast with the rich, deep green foliage. Highly recommended for general culture, both for pot and the open ground. Strong growing and permanent as far north as Boston."—(Bailey.)

"L. Regale came to us from China. With its large flowers, white overlaid with pink and with a yellow throat, it is one of the most stately of all. Treated like L. Speciosum rubrum or L. Auratum, it appears to be as hardy as either and a most welcome addition to what we already have. It can be grown and flowered in pots."—(Fritz Bahr.)
