HOUSE CLEANING IN NEW YORK

REPUBLICANS WILL REORGANIZE PARTY

Old Leaders to Be Dropped—Roosevelt Begins Plans for Campaign

(Times Leased Wire.) Saratoga, N. Y., Sept. 28.—The Roosevelt bandwagon is crowded. Politicians who are still in Saratoga are clamoring aboard to-day. The ticket selected by the state convention last night follows: For governor, Henry L. Stimson, of New York; lieutenant-governor, Edward S. Shoeneck; secretary of state, S. Koenig (re-nominated); state comptroller, Jas. Thompson; state treasurer, Thomas Fennell; state engineer, Frank M. Williams (re-nominated); attorney-general, Edward R. Romley (re-nominated); assistant justice of the Court of Appeals, Irving G. Vann (re-nominated). Although the delegates who are still here are exhausted by the labor of the convention and the strain and excitement of the past two days, Col. Roosevelt, with his untiring energy, already has begun plans for the campaign. A complete re-organization of the party in the state is predicted. The old leaders will be dropped from places of responsibility and the party management put into new hands. The politicians are confident of victory at the coming election. Gaynor's announced withdrawal from the race for the Democratic nomination for the governorship is one factor that is expected to help. Roosevelt's own personality, however, is the chief cause of the confidence. Roosevelt's followers believe the colonel was wise in his flight. From a political standpoint, if the Republicans win in November, he will get the credit for the victory. It is predicted, if they lose the defeat will be blamed on a "Democratic year." It is asserted to-day by those close to the Roosevelt leaders, that Herbert Parsons is the colonel's choice and will be chosen state chairman to succeed Timothy L. Woodruff.

DENTAL CASE NOW IN COURT

RICHARDS VS. VERRINDER AND DENTAL SOCIETY

Very Interesting Action Being Tried by Mr. Justice Gregory and Special Jury.

A case which bids fair to become a cause celebre throughout the province and possibly throughout the Dominion is now in progress in the Supreme Court, Mr. Justice Gregory presiding. This is the long-pending action of Richards vs. Verrinder and the Dental College of British Columbia. The plaintiff, a dentist practicing in the State of Washington, and a native of Victoria, being a son of Sheriff Richards, charges Dr. R. Ford Verrinder, examiner for the British Columbia Dental College, with conspiracy to keep him from practicing in this province and asks for damages. H. D. Helmecken, K. C., appears on behalf of the Dental College; E. V. Bodwell, K. C., and Robie Reed, K. C., New Westminster, for defendants other than the Dental College, and W. J. Taylor, K. C., represents plaintiff. Mr. Taylor is being assisted by H. D. Twigg, of Eberts & Taylor. That the case is attracting a large share of public interest was shown by the presence of a number of spectators when the case was called this morning. A considerable time was occupied in empanelling a jury satisfactory to counsel on both sides, and a number called were challenged and rejected. Finally the following jury was empanelled: B. W. Wilson (foreman), G. N. Gowen, Frederick Galley, Phillip Austin, J. H. Fletcher, A. E. Kent, J. H. Fletcher, E. C. Hayward, J. H. Dawson. Mr. Taylor, addressing the jury, outlined the circumstances leading up to the present action. The plaintiff, a native of Victoria, where he was also educated, some few years ago went to Philadelphia, where at the Dental College in that city he passed with the highest marks. In his absence the (Continued from page 2.)

THE MAN WHO DOES THINGS.

MR. BOWSER—Well, you are the most unreasonable bunch I ever saw. You are growling about me carrying off the Normal School, the Law Courts, the Reformatory, the University, and everything that was not nailed down or "anchored." You snivel and say your constituents will not stand for it. What do you want, anyhow? Haven't I been sending my surplus of mainland criminals over to your bally island to serve out their terms? Never heard of such blank ingratitude. Don't you understand that the word of a Bowser is as good as his bond—that I had given a pledge and was determined to "deliver the goods"? Besides, there was my brother Frank and his Point Grey interests. Some of you know something about that. What?

POLICE WILL SHOOT TO KILL

BERLIN AUTHORITIES TO TAKE DRASTIC ACTION

Determined to Suppress Riots—Hundreds of Persons Injured in Street Fighting

(Times Leased Wire.) Berlin, Sept. 28.—The newspapers of Berlin, particularly those of the Mosbitt section, the scene of strikes and riots, to-day called upon the authorities to use the "blood and iron" treatment for the purpose of preventing further outbreaks. Regarding Acting Police Commissioner Jagow's order to suppress the disturbance without mercy, one newspaper says: "The sabre has been proved inadequate, let us have the bullet." It is believed that this paper takes its cue from the commissioner, who is quoted as saying that the police would shoot to kill if rioting is started to-night. The rioting last night was the worst in many years, and it is feared that the disorders may surpass the Socialist disturbances of Southern Germany, in which many persons were killed. The police estimated to-day that 700 persons were injured. Many of the wounded are in hospitals here in a precarious condition. The injured include police, strikers and sympathizers. Four American newspaper correspondents received slight cuts and severe bruises from sabres in the hands of the mounted police. In the evening every saloon in the locality was closed by order of the authorities. In spite of the strictness with which the cordons were maintained, the strikers and their friends held meetings at the street corners which in several instances caused bloodshed. The police charged furiously and beat down the workmen on every side. In this way they rode through the Emdener strasse and the Turn strasse, which were blocked with excited crowds. A coal wagon driven by strike breakers, under police protection, was attacked and the police repelled with volleys from their revolvers. When several thousands were marching in procession, carrying a red flag, the police dashed at full gallop among the paraders, cutting down and galloping over them. The police were greeted everywhere with shouts of "bloodhounds." This only served to incense them, and they charged repeatedly. The damage to property already reaches \$250,000 in the three successive nights of rioting. It is predicted that the threats of the police will have little effect on idle thousands, although the authorities have increased the forces in the stations in the disturbed districts. Strike leaders conferred to-day to devise means of preventing further conflict.

SUSPECTED RUSSIAN SPIES ARE ARRESTED

Had Maps of New Fortress on Finnish Frontier in Their Possession

(Times Leased Wire.) Stockholm, Sept. 28.—Two men, said to be Russian spies, are under arrest after being caught prowling about the new fortress of Huden, on the Finnish frontier. Their arrest has aroused widespread excitement throughout Sweden and Norway. The presence of the two men at that particular place is interpreted to mean that Russia is planning to occupy a strip of seaboard on the peninsula in order to carry out her announced intention of keeping a perennially ice-free seaboard on the North Atlantic. Officialdom affects to regard the situation slightly, but elaborate plans to guard and to prosecute the prisoners have been made. The two supposed spies, when arrested, said they were mechanics, but their dress and manner do not indicate that they are. They are said to have had maps and details of the fortifications in their possession when arrested. They gave their names as Meidekin and Wasinin.

MINISTER'S SUICIDE

Chicago, Sept. 28.—Distraught because his wife was compelled to enter a sanitarium, Rev. Arthur Little, an Episcopal minister, to-day committed suicide. He left the following note: "Something has broken in my brain—I told the doctor about it, but he did not believe me. But it is true. The wireless clothes line has broken. God have mercy? Oh, my poor wife—be good to her."

WOMAN COLLAPSES IN WITNESS BOX

Faints While Giving Evidence in Murder Trial and is Assisted From Room

(Special to the Times.) Harris, Sept. 28.—After some time in the witness box as witness against Thos. McNulty, who is being tried on a capital charge, Mary Dolan, the young woman convicted of murder of her illegitimate child, collapsed, and an adjournment was taken. The girl's mother rushed to her assistance, and she too collapsed and had to be assisted out. After several hours' rest, Mary Dolan again entered the box, but again collapsed almost immediately, and lay for some time in a comatose condition. Her testimony was mostly a repetition of that given yesterday. Describing her experience in the hay loft above the stable at the Grand Central hotel she stated that she remained there day and night, and that McNulty excused himself for not staying with her on the ground that the stable was too cold for him.

PREPARATION OF VOTERS' LIST

CITY CLERK'S ANNUAL WORD TO HOUSEHOLDERS

Need for All Voters Other Than Property Owners to Register Each Year

W. J. Dowler, city clerk, has just issued his annual reminder in regard to the qualification of those residents of the city, not property owners, who desire to exercise their franchise at the next municipal elections. Notwithstanding the fact that each year householders and license-holders are warned that they must re-register, only a comparatively small number of those entitled do so—the others to grumble when they find they are not on the list. It thus seems necessary to emphasize very strongly the fact that householders and license-holders must re-register every year if they wish to vote at the municipal elections. Many imagining that the system of recording names on the civic voters' lists is the same as that followed in the preparation of the provincial lists, which are used for federal elections also. This is not the case. Once a voter's name is on the provincial list it remains there until removed owing to death or for statutory cause. In civic elections, however, it is only registered property-owners who may disregard the admonition to register their names each year. Property-owners need not bother about their vote, as the assessor places the names on the register from the tax roll. In the case of householders and license-holders, however, they must each year record their names anew. The city clerk's formal notification to this end reads as follows: "The attention of persons desiring to qualify as householders or holders of trade licenses to vote at the municipal election to be held on the second Thursday of January, 1911, is drawn to section 6 of the Municipal Elections act, which provides that he or she shall, during the month of October in each year, make and cause to be delivered to the clerk of the municipality, a statutory declaration made and subscribed before a supreme or county court judge, stipendiary or police magistrate, commissioner for taking affidavits in the supreme court, justice of the peace, or notary public, in form provided. "The definition 'householder' shall extend to and include any person of the full age of 21 years who occupies a dwelling, tenement, hotel or boarding-house, who has been a resident in the municipality from the first day of January of the current year, and who shall, unless exempted as militiamen or over sixty, have paid, directly to the municipality all rates, taxes or assessments, which are not chargeable on land amounting to not less than two dollars, due to the municipality for the current year, other than water rates or taxes, or license fees for dogs. "No declaration shall be accepted by the clerk of a city municipality, unless

KILLED IN AUTO ACCIDENT

San Francisco, Cal., Sept. 28.—The recovery of J. C. Knox, who was injured, along with three companions, when City Architect James L. Fisher was killed in an automobile accident on the Great Highway in Golden Gate park early to-day, is considered doubtful. L. F. Stradling, who was thought to be the most seriously hurt of the injured men, is reported to have a fighting chance for life.

HATCHERIES ARE ABOUT COMPLETE

TOTAL CAPACITY OF OVER TWENTY MILLION

Cowichan Lake to Be Restocked—Commercial Propagation for West Coast

Three new fish hatcheries have been just about completed by the Dominion Government on Vancouver Island and will be in operation this autumn. These are situated at Cowichan lake, Anderson lake, and Kennedy lake. Each will have a capacity of something like eight million fry and will be of great value to the fisheries on Vancouver Island. E. G. Taylor, Dominion Government fisheries inspector, who arrived in town yesterday, speaking of the new hatcheries said: "The Cowichan Lake hatchery, which is just about complete, is situated near the Riverside hotel, Cowichan lake, just at the outlet. It will have a capacity of nearly eight million eggs and will be in operation within a week or so. The fish which will be propagated at this point will be all of the sporting variety. We shall make a specialty of trout, steel heads, cohoes and tyeo, or spring salmon. This will not only improve the river and lake from an angler's point of view, but will also improve the trolling in Cowichan bay and adjacent waters. "The Anderson Lake hatchery will be situated near Uchukliest harbor on Alberni canal. It will have the same capacity as the Cowichan Lake hatchery and will handle only commercial fish. The water at this place is unusually cold and especially well suited to the purpose. "The third hatchery is placed at Kennedy lake, on Clayoquot sound, and will also be utilized for propagating the commercial varieties of salmon. It has the same capacity as the others and will be of great value to the fisheries of the west coast. "Sportmen who are in the habit of frequenting Cowichan river or lake will be particularly pleased to know that their favorite haunt cannot now be fished out. This river and lake are bound to become great tourist resorts in the near future, and everyone will benefit as a result of the foresight of the Dominion Government.

Montreal, Sept. 28.—The Canadian Pacific Railway Company has announced the appointment of Charles Murphy as general superintendent of transportation of eastern lines, with headquarters at Montreal.

VEGETABLES SCARCE IN PRAIRIE CAPITAL

Potato Famine is Already in Sight—High Prices Rule on Market

Winnipeg, Sept. 28.—A potato famine is already in sight in Winnipeg and there is a general shortage of other vegetables. Market gardeners have not had such poor returns in fifteen years. Potatoes are now quoted at 90 cents per bushel and the price is not likely to be any lower retail. This is the season when provident householders fill up their cellars with roots for winter, but little inducement is offered them this fall as 75 cents per bushel for ten bushel lots is the utmost concession farmers will make. Heavy importations from the east will be necessary. The extraordinary weather conditions of this year still obtain. Three nights ago ten degrees of frost were registered, while last evening the thermometer was over 10 after a very sultry day.

ANOTHER AVIATOR LOSES HIS LIFE

FALLS HUNDRED FEET FROM AEROPLANE

Los Angeles Man Sustains Injuries When Airship Collapses During Flight

(Times Leased Wire.) Mulhausen, Germany, Sept. 28.—Aviator Frohman, who was injured yesterday near here when he fell from his aeroplane at a height of 100 feet, died early to-day. Frohman did not gain consciousness. Los Angeles Man Injured. Santa Ana, Cal., Sept. 28.—Charles Hillman, a Los Angeles aviator, is suffering to-day from injuries he received when the Curtiss biplane he was driving crumpled and fell to the earth from a height of 100 feet. The shattering descent of the plane probably saved Hillman's life. He was severely bruised and rendered unconscious, but the physicians who examined him state that no bones were broken. The biplane was constructed here by Glen Martin, a Santa Ana aviator, along the lines of the Curtiss model. Recently it became balky and Hillman was called from Los Angeles to overhaul it. Hillman announced to-day that he would make another flight as soon as he recovers from his injuries.

OLIVE CANNERY BURNED

Los Angeles, Cal., Sept. 28.—The plant of the American Olive Company, one of the largest olive canneries in the world, was burned to the ground by a fire of unknown origin shortly after midnight. The loss is estimated at \$450,000. The plant had been closed during the summer and was being made ready for the coming packing season. Only a small force of men was at work in the building. More than 100,000 gallons of olive oil, valued at \$2 per gallon, was stored in immense vats in the factory. This, together with machinery worth \$100,000, was destroyed.

HON. W. S. FIELDING ADVISED TO REST

Minister of Finance, However, Expects to Look After Work of His Department

(Special to the Times.) Ottawa, Sept. 29.—Hon. W. S. Fielding reached the Capital to-day from Montreal where he yesterday consulted a specialist with reference to an attack of facial paralysis which developed at Chester, Nova Scotia, some days ago. His medical adviser told him the trouble was not of a serious character, being the result of exposure to cold while on a steamer a week ago. The facial nerves only are affected and though rest is advised the minister expects to look after the heavy work of his department as usual preparatory to the opening of parliament.

ALLEGED COUNTERFEITERS CAUGHT AT TACOMA

Three Men Under Arrest—Complete Plant Found in Private Residence (Times Leased Wire.) Tacoma, Wash., Sept. 29.—C. R. Backman, Charles M. Deck and Bert Grimm, all said to be ex-convicts, are under arrest here to-day charged with counterfeiting. The men were arrested with a boy for whom the trunk officer was in search. The men had a complete counterfeiting plant in a private residence.

RAIDS ON OFFICES OF CURB BROKERS

Number of Arrests in New York—Alleged Conspiracy to Defraud

New York, Sept. 29.—The brokerage firm of B. H. Sheffels company, one of the largest curb brokerage houses in the country, was raided by the police this afternoon. Sheffels and a half dozen of his clerks were arrested. All the prisoners were charged with violation of the bucketshop laws. The curb market learned early to-day that there would be "something doing" and excitement began which culminated in the falling of prices of the securities dealt in by the Sheffels company. Rawhide Coalition stock sold for nine cents; Jumbo Extension fell to 53; Ely Central to 35.

AUSTRALIAN TRAGEDY

Russian Youth, Murdered—Companion Is Taken Into Custody

Melbourne, Sept. 29.—A story of tragedy and mystery is being unfolded in the newspapers here at present. Two Russian youths, one of them reported to be very wealthy, arrived at the beginning of this month, in Sydney. The wealthy one, previous to going on a shooting trip into the back country, with his companion, cashed a large draft. Both then disappeared and nothing was heard of them until the body of the wealthy youth was found in circumstances which could only have one meaning—murder.

MAY BE DISMISSED

San Francisco, Cal., Sept. 29.—Nine remaining indictments against Theodore V. Halsey, indicted in connection with the alleged bribery of the Schmitz supervisors to vote against the Home Telephone franchise, will be dismissed to-day, it is believed as the result of the verdict of acquittal on the first charge which was returned late last night. Officials of the district attorney's office will confer to-day as to the advisability of proceeding further against Halsey before announcing their decision.

SPANISH CABINET TROUBLES

Madrid, Sept. 29.—The Catholic newspapers here are filled with stories of cabinet dissensions, and it is freely predicted that the manifestations to be held next Sunday will force Premier Canalejas to retire on the eve of the assembling of the cortes on October 3. They say further that Count Romanones, president of the chamber of deputies, will succeed Premier Canalejas.

U. S. TROOPS FOR CHINA

Report That Soldiers Stationed at Manila Will Be Dispatched

(Times Leased Wire.) Washington, D. C., Sept. 29.—Washington is excited to-day over the news that United States troops at Manila were preparing to embark for China. There is no known reason why China should ask for protection from the United States, and if it did, why the order for the sending of the troops should come from Manila. Nevertheless, the news is the chief topic of conversation here. Officials in a position to know profess ignorance of the order.

HORSES SOLD

(Special to the Times.) Toronto, Sept. 29.—The annual sale of the Valley Farm stable took place this morning and good prices were realized. The thirty head brought \$5,385, an average price of \$179. PORTLAND STREET CARS COLLIDE

Smash-Up Result of Mistaken Orders—Four Persons Injured

(Times Leased Wire.) Portland, Ore., Sept. 29.—Four persons are confined to their homes to-day suffering from injuries sustained shortly before midnight when a Bellwood street car crashed into a Waverly-Richmond car at east Eleventh and Harrison streets. One woman, whose name could not be ascertained, was hurled through a window with a baby which she carried. She was hurried away by street car employees, it is said. The smash resulted from mistaken orders. Both cars were so badly wrecked that they cannot be repaired. Those most seriously injured were Miss Ruth Stearns, M. J. Hull and wife, and Ray McMire. A dozen others were cut by flying glass.

ON BOVINE TUBERCULOSIS

DR. RUTHERFORD SPEAKS AT STOCKMEN'S MEETING

British Columbia is Far Ahead of Other Provinces in Preventive Measures

Dr. J. G. Rutherford, Dominion veterinary director-general, and live stock commissioner, last evening at a very instructive and interesting address to stockmen on the subject of preventive measures for diseases which afflict cattle, particularly tuberculosis. There was a good attendance. Mayor Morley presided, and on the platform with Dr. Rutherford were W. E. Scott, deputy minister of agriculture, and Dr. C. J. Fagan, secretary of the provincial board of health.

Dr. Rutherford, in opening, explained the work of the recent international commission on bovine tuberculosis, of which body he had the honor of being chairman. The report of this commission would be of very little use as far as British Columbia was concerned, because the provincial department of agriculture already had in force many of the recommendations which would be the outcome of the investigations of the commission.

The speaker said that in bovine tuberculosis there were two great divisions. The first was the control and eradication of tuberculosis among cattle. That would mean also the stamping out of the disease among hogs. The tubercular disease among hogs was almost invariably of bovine origin. From what had been ascertained the disease appeared of easy transmission to any other animal. In fact, it had been ascertained in some authoritative quarters that bovine tuberculosis was the mother disease of every other kind of tuberculosis. This, however, was a subject which at present was incapable of proof. The eradication of the disease in animals was the veterinary problem.

The second great division of the question was the prevention of the transmission of the bovine disease to human beings, through meat or milk. It was quite possible for a community to solve this latter problem, without touching the question of eradicating the disease among the animals which supplied the community. The government of British Columbia had taken up the matter along this line, and in his opinion too much attention could not be paid to this branch. The disease was transmitted by the feeding of calves and pigs on the product of tubercular cows. From 25 to 50 per cent of the calves raised on milk from infected cows developed tuberculosis. The percentage of hogs that became infected was possibly as high as 60 per cent. It was supposed that out of every hundred human beings that died fourteen succumbed to tuberculosis, and that out of the balance 50 per cent were tubercular. On this account, whether or not tuberculosis in human beings could be traced to bovine origin, too much care could not be exercised in eradicating the disease among cattle.

It was often found that calves became affected through drinking the milk of cows apparently unaffected. The reason of this was that many cows were affected with open tuberculosis. It was not uncommon to find instances of abscesses in the lungs. The community which permitted the sale of milk from cows not absolutely known to be unaffected was very far from being on the right road.

The system of inspection which prevailed in British Columbia was different to that in any other province. In other provinces it was the practice of governments to allow municipalities to pass laws for the control of dairies, so that the question of an inspectorate was optional in each community. Here the inspection carried out was governmental, and he believed that this was by far the better system. In Ontario there was not a single community which insisted on the tubercular test. In Quebec, the city of Quebec and a few other communities had taken the matter up. The way the matter had been dealt with in British Columbia was going to have a very salutary effect on the rest of the Dominion.

In the campaign against bovine tuberculosis the danger through the consumption of butter and cheese had been to a large extent ignored, on account of the large interests involved and the fact that the casting of suspicion on these commodities would create an uproar in communities. Experiments, however, had been made in America which had shown that butter from the milk of tubercular cows could not be looked upon without suspicion. In the report of the international commission, Dr. Rutherford stated a recommendation would be made that all milk and its products should be pasteurized when there was considered any danger of it having come from infected cows.

Dr. Rutherford was accorded a hearty vote of thanks proposed by Dr. Fagan and seconded by Dr. S. F. Toimie.

SMOKERS' STRIKE NEARLY OVER.

Frenchmen Cannot Live Without Tobacco and Minister Wins Fight.

Paris, Sept. 29.—The smokers' strike is petering out. When the minister of finance raised tobacco prices three months ago he expected an additional monthly profit of \$300,000. The first month showed a deficit of that amount. The second month showed a deficit of \$180,000.

By the third month the smokers had used up all the stores they had laid in before the advance in prices. Others got tired of smoking the cheaper brands of cigars and cigarettes, and an attempt to substitute the pipe for cigars came to nothing.

Those who had diminished or abandoned smoking weakened in their resolution and the month of August shows an increase of \$200,000.

U. S. Forestry Department Seeks to Encourage Growing of Timber

Portland, Ore., Sept. 29.—J. B. Knapp, assistant forecaster in the Portland office of the forest service, will leave this week for Northwestern Washington, where he will conduct a study of forest products on the Olympic peninsula. It is the beginning of a study that will extend throughout the Northwest, the purpose being to save the forests from waste.

It is the purpose of this study to show definitely the amount of timber standing on that portion of the state of Washington, which is commonly known as the Olympic peninsula; also to determine the rate at which this timber is being removed, and to obtain data regarding the extent of the local manufacture of timber and finished wooden products.

"It is our purpose to determine the amount of timber tributary to each manufacturing community on the area under investigation and take steps to accommodate future demands for timber on the Olympian national forest when the supply of privately owned timber is exhausted," said Knapp. "Also to encourage the use of logged-off lands for the growing of such future timber crops where such lands are more valuable for the growing of timber than for agricultural purposes."

With the coming of the rainy season in Oregon the forest service will seed between 5,000 and 6,000 acres of burned-over lands at a cost of approximately \$29,000, 700 acres being situated at the Bull Run watershed as an auxiliary to the Portland water supply.

PROVINCIAL LIQUOR REGULATION ACT

Is in Force in Vancouver Despite Special Charter Held by That City

Vancouver, Sept. 29.—The Provincial Liquor Regulation Act is in force in the city of Vancouver, and its provisions hold good in this city, despite the special charter under which Vancouver operates, as well as throughout the province. This is the substance of a decision handed down yesterday by Judge McInnes.

The case on which the decision is grounded is that of the Atlantic Hotel. Some time ago the proprietors of this hotel, Messrs. Watson and Marchesi, were charged with selling liquor on Sunday during prohibited hours and convicted in the police court. Appeal was taken from the police court conviction, and last Monday the matter came up before Judge McInnes, who reserved judgment.

The prosecution was started as a test case under the Provincial Liquor Regulation Act. The question at issue was whether the act applied to the city of Vancouver, or whether the city, having a special charter giving it power to deal with that matter, had the sole right to regulate the hours for selling liquor within its jurisdiction.

USUALLY ONE DOSE ENDS INDIGESTION

Heartburn, Gas, Dyspepsia and Headache Vanish and Your Stomach Will Feel Fine

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which sours your entire meal—interferes with digestion and causes so many sufferers of Dyspepsia, Sick Headache, Biliousness, Constipation, Griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any Pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that Fermentation and Sour Stomach is causing the misery of indigestion.

No matter if you call your trouble Catarrh of the Stomach, Nervousness or Gastritis, or by any other name—always remember that a certain cure is waiting at any drug store the moment you decide to begin its use.

Pape's Diapepsin will regulate any out-of-order Stomach within five minutes, and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

West Point Classmen Refuse to Reply to Questions Regarding Longan Incident.

West Point, N. Y., Sept. 29.—Football practice is at an end, and the game between West Point and Vermont, scheduled for Saturday, has been cancelled as the result of the "Longan incident." Speculation is rife as to what action the cadets will pursue on

Saturday when Captain Longan is again officer of the day.

The examination of cadets by the investigating board under General Barry, superintendent of the academy, was continued yesterday with no better results than previous examinations have furnished. Thirty cadets were examined. All were asked why Captain Longan was humiliated, but the board was unable to learn the reason, and it was also unable to learn who were the ring leaders.

CIVIL SERVICE EXAMINATIONS

COMMISSIONERS FRAME REGULATIONS

Competitions to Be Held During July Each Year—P. de N. Walker Registrar

A report from the civil service commissioners, submitting a series of regulations for examinations, was laid before the executive council yesterday by the provincial secretary, who was authorized to give effect to them. The executive also appointed P. de N. Walker, chief clerk in the provincial secretary's department, to act as registrar under the Civil Service Act. The commissioners report is as follows:

The undersigned have the honor to recommend the adoption of the following regulations governing the examination of candidates for appointments to the civil service of this province, under the act entitled "An Act with Respect to the Civil Service of British Columbia":

1. The general competitive examination for junior clerkships and for positions of stenographers shall be held during the first week in July in each year, and shall be presided over by the examiners appointed to examine candidates for teachers' licenses. Forms on which applications for these examinations shall be made will be provided by the civil service commissioners, and may be had on application to the registrar of the public service. Examinations shall be held in the following places: Armstrong, Chilliwack, Cumberland, Enderby, Golden, Grand Forks, Kamloops, Kaslo, Kelowna, Ladysmith, Nanaimo, Nelson, New Westminster, Peachland, Revelstoke, Rossland, Salmon Arm, Vancouver, Vernon and Victoria, and also in any other localities in which hereafter a high school may be established.

2. No person shall be admitted to such examination unless he is a natural-born or naturalized British subject of the full age of sixteen years, and not more than twenty-one years, and presents certificates as to health, character and habits.

3. The general competitive examination for junior clerkships shall include the following subjects:

(a) Writing—To be determined from the paper on copying manuscripts.
(b) Spelling—Writing from dictation and the correcting of mis-spelled words from a printed paper.

(c) Composition (including grammar and precise writing)—A test of ability, (a) to write letters on given subjects, or to embody in letters certain given information in a grammatical and intelligible form; (b) to give the essential features of letters, reports or other documents of a non-technical nature, in clear, concise and grammatical form.

(d) Copying manuscripts (including writing)—To make a neat and accurate copy of a manuscript which has been altered and amended in various particulars. This paper will be taken as a test of writing also.

(e) Arithmetic—The elementary rules, fractions (vulgar and decimal), interest and discount, and simple problems involving these.

(f) Geography—With special reference to Canada, and a general reference to North America, Western Europe and the British Empire.
(g) History—A general outline of the history of England and Canada from the discovery of America.

4. The competitive examination for typewriters and stenographers shall include in addition to writing, spelling, composition and copying manuscripts, prescribed for junior clerks, the following subjects:
(a) Typewriting—Plain copy and simple tabulation. Special importance attached to accuracy and neatness of work. A speed of at least thirty words a minute will be expected.
(b) Stenography—Special importance attached to accuracy. A speed of at least sixty words per minute will be expected. Tests will be given at the rates of sixty, eighty and one hundred words per minute.

(5) To successfully pass these examinations candidates must make not less than 24 per cent. in each subject, and not less than 50 per cent. in all subjects.

6. All competitive examinations for entrance to the civil service will be advertised in the British Columbia Gazette at least four weeks before the examinations are to take place. Such advertisements shall state the subjects to be covered by the examinations and the places at which the examinations may be held.

7. Every successful candidate before receiving a permanent appointment to the civil service must furnish the civil service commissioners with a certificate of good health which shall be filled out on standard forms to be furnished by the commissioners.

8. Fitting candidates for examinations must file their applications not later than the 1st of June. Under no circumstances will applications received after this date be accepted. An acknowledgment of the receipt of an application will be sent to all candidates, and anyone filing an application who does not receive an acknowledgment within a reasonable time should at once write to the registrar, civil service commission, Victoria, B. C.

9. As soon as practicable after the examination the papers of the candidates will be marked, and their standing ascertained and communicated to them by the registrar. Prior to that time no inquiries addressed to the commissioners will be answered.

10. Within one month after the publication of the results of a civil service examination, any candidate who considers that his answer papers have not been correctly valued may make application to the commissioners to have his papers re-read. Such application must be accompanied with a fee of \$5.00. In cases where the appeal is granted, the fee will be returned.

SUE FOR WAGES.

Edmonton, Sept. 28.—Giving judgment for wages to six Grand Trunk Pacific laborers, Magistrate Myers declared the treatment of its employees that come under his notice disgraceful. "I myself have known men to have to wait for three weeks before they could leave town when they had another situation ready for them at some other place," said the magistrate. "During this time they had to pay their board and wait around for their money, besides the loss of that time. While this may not be very much to a wealthy company like the Grand Trunk Pacific, it is a very large item to the poor workingman who has to work from day to day in order to live."

Addressing the Grand Trunk Pacific counsel, Mr. Collinson, the magistrate advised him to bring the state of affairs forcibly before the management and endeavor to keep such a name as the Grand Trunk Pacific out of common police court trials.

It appears the Grand Trunk Pacific has no pay office here and authority must be secured from Winnipeg before pay cheques can be honored. Since last spring over one hundred of these cases have been settled in the police court.

A \$20,000 Dessert

It cost us over \$20,000 to build the single special equipment for making Mooney's Sugar Wafers. When you taste them you will agree with us that the money was well spent.

For years we have made the finest biscuits and candies in all Canada—our Perfection Cream Sodas, and Chocolate Chips alone prove this. Now we offer you what we believe is our greatest creation—Mooney's Sugar Wafers.

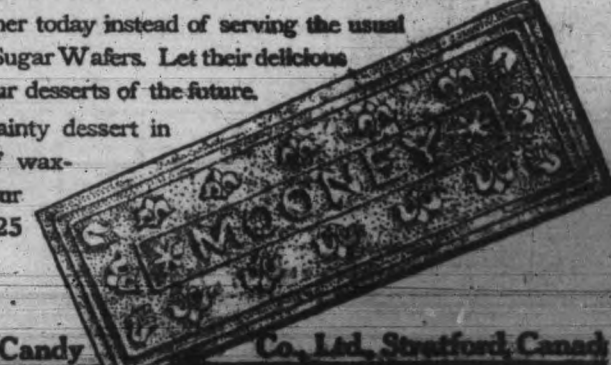

Mooney's Sugar Wafers
The Dessert Your Guests Will Like

Mooney's Sugar Wafers are made with double layers of crisp, spicy biscuit crusts. Each layer is a delight—between is a rich delicious cream, a combination of sweets that can't be duplicated.

This luscious cream is made in many flavors—from real fruits.

At luncheon or dinner today instead of serving the usual dessert try Mooney's Sugar Wafers. Let their delicious taste today decide your desserts of the future.

You can get this dainty dessert in dust and damp proof wax-paper-lined tins at your grocer's 10 and 25 cent tins.

BRIBERY IN ILLINOIS

Committee Continues Investigation Into Election of U. S. Senator

Chicago, Sept. 28.—The cross-examination of State Representative White occupied the major part of yesterday's session of the senatorial committee investigating the election of William Lorimer to the United States senate. White denied that he had tried to blackmail Lorimer, saying that he wrote to the senator regarding an alleged offer of \$1,000 for his vote for Lorimer in order to get Lorimer to commit himself in the matter. Senator Paynter asked White if he would have accepted \$750,000 if Senator Lorimer had offered to buy his story of the alleged legislative bribery, and the existence of a "jackpot" to purchase votes for Lorimer. White replied that he did not know, but that if he had accepted the money he would have sold the story to some one else. Attorney Alfred Austrian, for the Chicago Tribune, asked White if he had ever conversed with Governor Deneen, Roger Sullivan, or any other politician, regarding his story published by the Tribune. White said that he had not. Austrian attempted to show that White had offered the story to New York newspapers and magazines before the Tribune accepted it. Austrian also attempted to refute the charge that a conspiracy was afoot to discredit Lorimer. The committee barred the testimony.

CIVIC NOTICE.

Re Municipal Election, 1911.

The attention of persons desiring to qualify as "Householders," or "Holders of Trade Licenses," to vote at the Municipal Election to be held on the 2nd Thursday of January, 1911, is drawn to Section 5 of the "Municipal Elections Act," which provides that "in the case of the holder of a trade license, or in the case of a householder, he, or she, shall, during the month of October in each year, make, and cause to be delivered to the Clerk of the Municipality, a Statutory Declaration made and subscribed before a Supreme or County Court Judge, Stipendiary or Police Magistrate, Commissioner for taking Affidavits in Peace, or Notary Public, in form, and to the effect of Form 1 in the Schedule to the said Act in the case of the holder of a Trade License, and of Form 2 in said Schedule in the case of a householder." "HOUSEHOLDERS" shall extend to and include any person of the full age of twenty-one years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the Municipality from the first day of January of the current year, and who shall, unless exempted by the provisions of the proviso at the end of sub-section (117) of Section 50 of Chapter 22 of the Statutes of 1906, being the "Municipal Elections Act" as amended (which exempts certified efficient militiamen and persons over the age of 60 years from paying road tax), have paid directly to the Municipality all rates, taxes or assessments, which are not chargeable on land, which rates, taxes or assessments so paid shall amount to not less than two dollars, due to the Municipality for the current year, other than water rates or taxes, or license fees for dogs.

Section 7 of the said Act further provides that "No declaration shall be accepted by the Clerk of a City Municipality, unless it is delivered within 48 hours after it is made."

Section 13 further provides that "No person who is not a British subject shall have his name placed upon any Municipal List of Voters."

Forms of Declaration may be obtained, and the necessary Declarations made, at the Office of the City Assessor, 2nd floor, City Hall, Douglas Street, Wellington J. Dowler, C. M. C. City Clerk's Office, Victoria, B. C., September 29th, 1910.

INVESTIGATION OF NEW DISEASE

NO CURE FOUND FOR INFANTILE PARALYSIS

Virus Too Small to See With Microscope—Effect on Monkeys Similar to Man

Throughout Canada and the United States recently there have been a large number of cases of paralysis which have been designated infantile paralysis because of the peculiar susceptibility of children. The epidemic has made its appearance in Victoria, as well as in practically all the other cities of the continent, and the result has been that the doctors have been working overtime to discover its cause and cure. So far they have found out that it is produced by inoculation with a virus, and that this inoculation is probably made through the mucous membrane within the nose and also transmitted to others from the same source. The name given to this disease is poliomyelitis. The virus which carries the disease is so small that no one has yet been able to say with certainty that he has seen it. It passes with ease through the finest filter, is not injured by cold, but is unable to withstand heat. As it is difficult to become inoculated through the usual food passages, however, this is not of very great importance. It is only when the work of the digestive organs is arrested by means of opium that the subject becomes affected through that source.

There seems to have been an impression abroad that the majority of cases prove fatal. This is not true, for Dr. Simon Flexner, of New York, who has been making a study of the disease, says that the mortality is not more than ten per cent of those actually attacked, probably less. The disease is prevalent during the summer months, whereas spinal meningitis, which it much resembles, is prevalent in winter or early spring. Dr. Flexner has made many experiments with monkeys with a view to contracting or preventing the disease, but though he has had considerable success he is not yet in a position to recommend any for general use, but is continuing his investigations. It has been found that the lower order of animals are not susceptible to the disease, and that monkeys are not as much so as man, but that when inoculated the monkeys nearly always succumb.

It has further been shown that, as with a number of other virulent diseases, those who have once been attacked are afterwards proven to be nearly immune. If, therefore, a serum can be secured which will give a mild attack only, it may be possible to make people partially immune in the same way as with a number of other diseases.

It was to be expected that some individuals would be more susceptible to inoculation than others, and that a few would be wholly immune. In summarizing an article on the subject in the American Medical Association, Dr. Flexner says: "It may confidently be stated that the experimental study of poliomyelitis has yielded a large number of important facts relating to the spontaneous diseases in man. These facts include the discovery of the nature of the virus, of many of its properties, of certain important clinical and pathological peculiarities of the disease, of the means of immunity, of a mode of virus infection, while they have served to establish a basis on which to develop measures of prevention, and on which to build hopes for the working out of a specific method of treatment."

TRUNK ROAD. Nelson, Sept. 28.—That the last link in the Kootenay Landing to the Alberta border line portion of the trunk road which the provincial government is building from Alberta to the coast will be completed next month, was the statement made by J. E. Griffiths, first assistant provincial government engineer. The only part of the road at present uncompleted is a stretch of about four miles near the summit of the Crow's Nest, where, as Mr. Griffiths observed, will be open for traffic by the end of next month, if not before. Asked regarding the bridge over the Columbia river near Trail, Mr. Griffiths stated that he had already given J. M. Bulger, superintendent of the C. P. R. shipyard here, instructions to build the spans to be used in the construction of the bridge. He mentioned that the tower system of drawbridge, similar to that of the far-famed Tower bridge over the Thames at London, would be used instead of the more common movable pier system. This will enable all kinds of steamers and barges to navigate the river above and below the bridge. The total length will be about 900 feet.

NANAIMO S. P. C. A. Nanaimo, Sept. 28.—A meeting of the Nanaimo Branch of the Society for the Prevention of Cruelty to Animals was held in the city hall, on Monday. A number of donations were received and acknowledged from and through the influence of J. Penzance, general secretary of the S. P. C. A. Vancouver, to whom warm thanks are due. A plan of work was outlined by the committee for the near future. Features of the work were discussed by members and friends present, amongst whom were Rev. Mr. Robertson and Rev. Silva White. Much warm appreciation of the hearty sympathy in the work was met with throughout the city generally by the visiting officer, and confidence is cherished of the usefulness and benefit of the organization. The local president, E. Shakespeare, J. P., took an active part in the meeting.

MINE MANAGER RESIGNS. Merritt, Sept. 28.—James Gray, who has been superintendent of the mines of the Nicola Valley Coal & Coke Company at Middleboro, has resigned and is succeeded by Charles Graham, late of Princeton, formerly of Nanaimo. Under Mr. Gray's direction the mines have experienced substantial development, and are now employing 350 men and producing 700 tons of coal daily.
