DARWIN TULIPS

The Queen of All Tulips. Too much cannot be said in favor of the Darwins for outdoor culture. The remarkable brilliant coloring and splendid substance of the globular or cup-shaped flowers, their large size, with long, strong stems of 20 to 30 inches, also robust growth, make them unsurpassed for **My Nosepartially in bloom by Mothers' Day** (second Sunday in May). They remain quite perfect a long time after being cut. They can be forced easily for March blossoming. The popularity of the Darwins is simply phenomenal. You should plant liberally of them. For greatest satisfaction we recommend planting named varieties only. The yellow, apricot, bronze and copper shades are secured in the Breeders, listed on page 4.

PRICES: Unless otherwise stated, all prices are **POSTPAID**. Six of a kind of **BULBS** at the **Dozen Rate**; 25 of a kind at the **100 Rate**. Less than one-half dozen of a kind of **BULBS** sold at rate of one-tenth of the Dozen Price.

Breeder Tulips, Darwin Class

You will enjoy their bounteous bloom and splendor next Spring

This class of late-blooming Tulips are among the very popular outdoor bloomers, coming in with the Darwins. They are of a peculiar type, and they are exceptionally strong and sturdy. In growth and shape, they are much like Darwins. There are no plain bright or lively colors in them, such as secured in the Darwins, but there are some extraordinary bronze, coffee-brown velvet and golden yellow-edged blooms among them. This type supplies the yellow, apricot, bronze and copper shades missing in the Darwins, also other distinct shades. The colors of bronze, brown, buff, and dark shades prevail. The flowers are extra large and sturdy, on long stems.

PRICES: Unless otherwise stated, all prices are POSTPAID. Six of a kind of BULBS at the Dozen Rate; 25 of a kind at the 100 Rate. Less than one-half dozen of a kind of BULBS sold at rate of one-tenth of the Dozen Price.

Novelty Tulips of Special Merit

PRICES: Unless otherwise stated, all prices are POSTPAID. Six of a kind of BULBS at the Dozen Rate; 25 of a kind at the 100 Rate.

***Dido.** A cottage-flower type of most beautiful coloring. Long, deep cup. The inside is bright salmon-orange, with yellow base, bordered green. Is a very unusual Tulip, having the shades of the Talisman rose. 31 in. Each 20c; \$1.80 per dozen.

Sirene (Lily-Flowered). A very beautiful flower. Rich rose-pink with pale pink at the margins of segments; white base. Fine forcer. Great exhibition flower of exquisite beauty. Per doz 75c; per 100 \$5.60.

Sundew (A New Darwin). Color of Bartigon, with very decided fringed edge never known before, being the only. Stiff stem, fiery crimson, deep cup, blue inside base. Wonderfully novel Tulip. 10 to 12 years ago this Tulip sold for \$100.00 a bulb. Now 15c each; \$1.50 per dozen.

St. James—
a Breeder Tulip

Rembrandt Tulips

These Tulips are "broken" or striped Darwins. They have wonderful decorative possibilities. Blooming period and culture same as Darwins. The colors are flamed and feathered, and, as a rule, are brilliant.

MIXED. Doz. 80c; per 100 \$6.00.

Parrot or Dragon Tulips

These Tulips have fringed and crinkled petals curiously splashed with colors and lacinated almost like feathers. They get their name from the supposed resemblance of the bud to a Parrot's head. Height, 14 to 15 inches. May-flowering. Their wonderful variation of colors makes this variety very interesting and ornamental to the garden. Blooms keep well after being cut.

MIXED. Doz. 75c; per 100 \$5.50.

Cultural directions included with all orders. Success is practically assured.

Double and Single Early Tulips

Double Varieties. The blooms are Peony-like, and last longer than the singles.

Narcissus or Daffodils

It requires some forethought to enjoy the pleasures they supply for the bulbs MUST be planted in the Fall in order to glorify your gardens next Spring. Once planted they will last for years without exhausting themselves.

There are no hardy bulbous plants which have more points of merit than the Narcissus. Perfectly hardy, growing and doing well in almost any and every position, sun or shade, moist or dry. All conditions seem to suit them, although they have a preference for a good, deep soil and a semi-shaded position, and every vacant corner in the garden, amongst the grass, under the trees, etc., could not be used to better advantage than by filling with Narcissus. They live three to five years. They are equally desirable for pot culture or for winter-flowering. Cultural leaflet on request.

Narcissus, Daffodil or Jonquil? Which is Which?

Answer—All are Narcissi; that is the family name. Some of the Narcissi family are nicknamed Daffodils, and some are nicknamed Jonquils. Call all of them Narcissus, big or little, yellow or white, single or double, and you are correct. In our descriptions we use the following terms: Perianth—the outer petals of the flower. Trumpet—the long cup or trumpet-shaped center. Crown or Cup—the short or flat center.

PRICES: Unless otherwise stated, all prices are POSTPAID. Six of a kind of BULBS at the Dozen Rate; 25 of a kind at the 100 Rate.

For Home and Office Decoration

Paper-White Narcissus

Bulbs especially suitable for growing in water and fibre. Cultural leaflet on request.

Paper-White Grandiflora. This is the popular star-shaped flower, white petals with yellow center, that is so fragrant and attractive in all flower stores. You can't fail in growing them perfectly in your own window, in soil, water, or our **Prepared Fibre**, see below. Grows quickly anywhere indoors. The greatest advantage is its readiness to grow in wet sand, or water, similar to Chinese Lilies. Almost sure to bloom. Ready in September.

We suggest purchasing a quantity, then start a few early. After three weeks start some more; keep this up for several months. The dry bulbs will keep three months. For very best blooms start in November.

Good Size Bulbs. Large-flowering. Each 5c; 50c per doz.; \$3.90 per 100.
Extra Large Bulbs. 2 for 15c; dozen 70c; \$5.00 per 100.

Yellow Blossom

Soleil d'Or (Yellow Paper-White). Clusters of flowers exact in size and formation as the Paper-White, except that the color is a deep golden-yellow, with orange center. Grown exactly the same and as easy as the Paper-Whites. Each 15c; doz. \$1.50; \$10.50 per 100; all postpaid.

Gift Boxes

A nice, clean enamel white box, with verse appropriate for gift purposes in green, containing four select Paper-White Grandiflora Forcing Narcissus. All complete for 35c; postpaid anywhere.

Why not order for your friends? Send along your cards. We will insert them and mail direct for you.

Paper-White Grandiflora Narcissus

Chinese Sacred Lilies

Chinese Lilies are usually grown in bowls or dishes of water. Put an inch or two of sand and gravel in the dish in which they are to be grown, set the bulbs on this and put enough gravel or shells around them to keep them from falling over; fill the dish with water and set in a dark closet for a few days until the roots start freely, then bring them to the light and keep in an ordinary living room. A dozen bulbs started this way at intervals will give a succession of bloom throughout the winter.

While these are called "Chinese," the bulbs are all American-grown and quite sure to please. Ready in August.

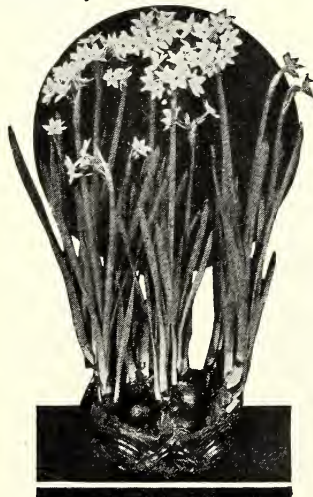

Each 10c; 12 for \$1.00; 100 for \$7.50; all postpaid.

Prepared Plant Fibre

Hyacinths, Paper-White Narcissus, Chinese Sacred Lilies, and Lily of the Valley can be forced splendidly with our Specially Prepared Plant Fibre, using it in china vases or bowls without drainage. It is non-odorous and clean to handle.

In Special Cartons at 10c each; by mail 15c. Large Cartons, holding about 3 quarts 25c; by mail 35c.

INSTRUCTIONS FOR POTTING.—The bulbs are potted the same as in soil with the tops just showing above the surface, care being taken not to press the fibre too tightly. Once potted, the only care necessary is to keep the fibre moist, but not too wet. Keep in a dark, cool, airy cellar or room until bulbs have made a good root growth, when they may be brought into the light, and if then kept in a moderately warm room, they will produce excellent results.

Lily of the Valley

Mariposa Tulips

(Calochortus)

This is the true Mariposa Lily (some times called Butterfly Tulips). The State Flower of Utah, and much admired in the Western states. Prevailing color is white to lilac, petals white or pale lilac, with a reddish spot at top, a brown-yellow center, and brown base. To this group is properly applied the Spanish name, mariposa (butterfly), for their brilliant-colored flowers, with eye-like spots on each petal and sepal, and other delicate markings with dots, lines and hairs which are strongly suggestive of the wings of a brilliantly-colored butterfly. Is perfectly hardy and almost sure to thrive. **6 bulbs for 35c; 12 for 60c; 100 for \$4.50; postpaid.**

Phlox Sublata

A distinct type, being very dwarf and especially suitable for borders. Assorted colors. Each 25c; 12 for \$2.50.

Iris, Hardy (Germanica)

A flower that is at home in any garden, shady or sunshine. Is easily cared for and gives big returns in beautiful flowers, some of which are quite equal to Orchids. If soil is soggy or apt to be watered heavily, then plant on slightly raised hills or ridges.

They are strictly hardy and sure to please. Try some of the new varieties. Our list gives a wide range of colors. All are postpaid. Cultural leaflet on request.

THE FOLLOWING VARIETIES ARE EACH 10c; DOZEN FOR \$1.00:

Flavescens. Cream-color; popular in every garden.

Florentina Alba. The popular pure white variety.

Florentina Purple. Similar to Alba, except in color.

Queen of May. Lavender-pink; the nearest to pink in Iris.

THE FOLLOWING VARIETIES ARE EACH 15c; DOZEN FOR \$1.35:

Aurea. A beautiful clear chrome-yellow.

Her Majesty. Rose-pink standards, falls veined darker.

Isoline. This French variety has become very popular on account of its immense blooms, which give a rose color effect. The standards are a lovely rose-pink while the falls are an old-rose with a golden throat.

Iris King. Standards coppery-yellow; falls crimson, bordered yellow; large, striking flower.

Sans Souci. Standards are golden-color. Falls are mahogany-red. Late bloomer. Very effective.

THE FOLLOWING VARIETIES ARE EACH 15c; DOZEN FOR \$1.35:

La Neige. Pure glistening waxy-white. Truly exquisite.

Oriflamme. Standards lavender-blue; falls rich violet-purple. Immense size and very sweet-scented. Edges waved and crimped. You should include this.

Lohengrin. Large silvery-mauve. Very large flower.

Pallida Dalmatica. Standards lavender, falls of deeper lavender. Flowers extra large and very fine.

THE FOLLOWING VARIETIES ARE EACH 20c; PER DOZEN \$2.00:
Eldorado. Standards yellow-bronze and heliotrope; falls a bright violet-purple. Very beautiful and effective.

Lent A. Williamson. Standards erect lavender-violet, blended with yellow toward base; falls rich royal-purple; beard yellow. Tall and large. Considered by many the finest variety ever raised in America.

Monsieur. Rich satiny-violet and purple-crimson.

Sherwin Wright. Perfect, clear, deep golden-yellow.

White Knight. Absolutely snow-white. Sweet-scented.

THE FOLLOWING VARIETIES ARE EACH 35c:

Ambassadeur. Standards a fascinating smoky purple color, falls velvety purple-maroon, beards yellow. A magnificent and regal flower of real substance. One of the very best of all Irises.

Black Prince. Standards are intense purple-lilac, falls rich velvety-black. A remarkably novel combination of colors. Very scarce and rare.

Mother of Pearl. Light lavender-blue, glossy; falls are slightly deeper than standards, and the whole with a faint creamy undertone. Flowers are perfect and exceptionally beautiful. Tall grower, profuse bloomer; a real gem among Irises.

Granulated PEAT MOSS

IMPORTED—WE HAVE THE GENUINE

For the information of those who may not be acquainted with the composition of Granulated Peat Moss, and to make certain that all have the same general conception of its nature, which suggests many possible uses, we devote a brief space to a general explanation.

Granulated Peat Moss from Holland and Germany is a brown, soft, and spongy matter, formed years ago by the decay of mosses and other vegetable matter. Through drainage this has been left high and dry and today is much used by horticulturists and nurserymen for various purposes. It is clean and easy to handle. No odor whatsoever.

GENERAL UTILITY USES: Virgin Soil Humus.—It should be added to garden soil which usually consists of clay, loam, or sand—unsuitable in themselves, yet with this treatment, become excellent for productive results. **Lawns**—Late in autumn should have a covering of same; this will almost disappear by spring. **Shrubbery**—Mix with soil when planting or use as a mulch. **Mulching**—Will furnish excellent protection against freezing, turning it under next spring. Fine for Rose Beds, Flower Garden, Seed Beds, Window Boxes, etc.

Order Early

Soon as you receive this catalog make your selections and send in your order on the regular "Order Sheet." You are then assured of getting your bulbs delivered as soon as the supply arrives. The time of being ready is scattered along through August, September and October. We take care to fill each part of your order fast as stock is ready.

We pay postage unless stated otherwise.

Freesias, Callas, Oxalis and Paper Whites are ready in August and early September.

Hyacinths, Tulips, Daffodils and Crocus usually reach us in late September.

Peonies, Phlox and other Hardy Perennials are in suitable dormant condition to ship in October, while Hardy Lilies are later, in November and December.

Plant according to our chart shown in Cultural Direction Leaflet. You will then make no mistake. Study it carefully.

There is no more useful garden material than what is known as Dutch Bulbs—Hyacinths, Tulips, Narcissus, Crocus, etc. They give, for a small outlay of time and money, an abundance of flowers in the house from December until April, and in the garden from almost before the snow is off the ground in the spring until late May.

There is no need for you to send East for Fall Bulbs. We import ours direct from reliable growers. The varieties listed in this catalog are the best to be obtained. We deliver to your door by messenger or mail.

Table of Quantities

FOR OUTDOOR PLANTING IN BEDS

The following table will be found useful in determining the number of Bulbs or Plants required to fill a circular bed up to 8 feet in diameter.

A square bed will take about the same number of plants. For an oval bed, add length and breadth and divide by 2. For example, an oval 7 ft. long by 5 ft. wide will require same number of bulbs or plants as a circular bed 6 feet in diameter.

ESTIMATED NUMBER OF BULBS REQUIRED FOR ROUND BED

Rows, six inches apart	Bulbs, four inches apart in row.	Center, one bulb.	No. of Bulbs to Row
1st	1 foot	3 feet	9
2nd	2 feet	6 feet	18
3rd	3 feet	9 feet	27
4th	4 feet	12 feet	36
5th	5 feet	15 feet	45
6th	6 feet	18 feet	54
7th	7 feet	21 feet	63
8th	8 feet	24 feet	72

Beautiful Peonies

ALL POSTPAID—The Peony ranks among the most popular flowers. The blooms come out very early and are seldom attacked by disease. Our roots are extra large. The most popular perennial for our home flower garden, being perfectly hardy, one planting will do for a lifetime with suitable cultivation.

Does well in most any location; however, responds readily to good, rich, deep soil in an open, sunny position.

Be careful to not plant too deep; the best is for crown to be about 2 inches below the surface.

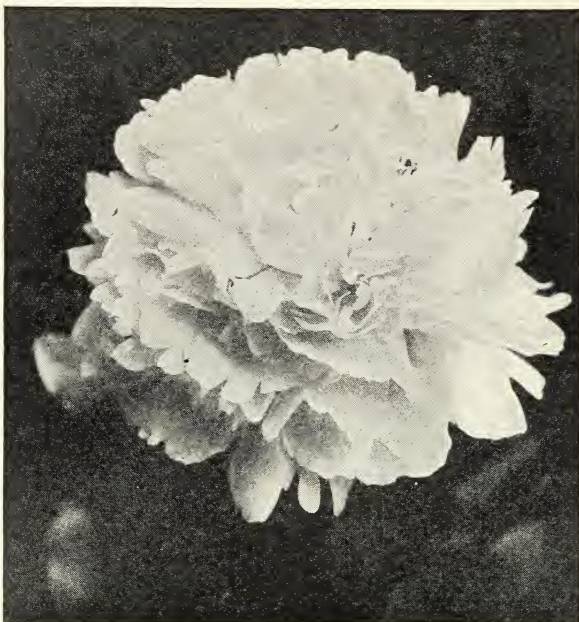

Don't worry about the black ants that often gather on the buds. They are seeking the honey which exudes from the bud, and do no harm. If the stalk wilts, remove it to check the fungus from spreading.

Peonies seldom bloom the first season; however, if planted in fall they usually bloom the following season. Ground should be spaded deep and well enriched, as suggested in our free leaflet.

Our list contains varieties all distinct, suitable for Colorado culture.

We do not see how we could improve our list for real worthy varieties. No use buying newly named varieties at advanced prices.

A special cultural leaflet free with orders if asked for. Roots ready in October.

Bleeding Heart

Hardy Garden Lilies PLANT LIBERALLY!

Stately and beautiful, almost beyond comparison, yet they will grow and thrive in almost any situation and call for no special attention, their magnificence increasing year after year. Full planting directions with each order.

Orders for Lilies should be placed early, thus soon as bulbs arrive from grower the orders are rushed out promptly.

Please note that Lily Bulbs from Japan do not reach this country until late November or in December. This includes Auratum, Album, Rubrum and Henryi.

When anticipating Japanese Lily Bulbs you should protect a spot in the garden, then when planted, cover with manure or litter.

Each of these varieties should be planted in fall or by December for best results. All postpaid.

Auratum (Golden Banded Lily of Japan), golden-banded, white, with red spots and stripes; very beautiful. Usually received from Japan in November and December. Cover 9 to 12 inches; height 3 to 4 feet. Blooms July, August. Each 40c; per doz. \$4.20.

Bulbiferum (Bulb-bearing Lily), the prevailing shade is yellow-orange; the tips of each petal being slightly flushed flame-red. Cover 3 times thickness of bulb. Blooms June, July. Each 40c; per doz. \$4.20.

Candidum (Madonna Lily—"The Annunciation Lily"), it is the best known and most beloved. Snow white, very fragrant and free bloomer. Thrives in all soils and exposures. Usually arrive in September. You should order in advance, to be ready for planting in early fall. Very fine to plant with Delphinium. Plant bulbs in September, covering 2 inches above the bulb. Height 3 to 4 feet. Large bulbs, 24 ctm., each 30c; per doz. \$3.00. Medium size bulbs, 22 ctm., each 25c; per doz. \$2.50.

Croceum (Orange Lily), thrives in ordinary garden soil and is most suitable for Town Gardens. A robust grower with beautiful orange colored upright blossoms. Cover 3 times thickness of bulb. Height 3 feet. Blooms July. Each 50c; per doz. \$5.00.

Elegans, grows very dwarf, about 1 foot, producing bright red blossoms in early July. Especially suitable for border. Each 35c; per doz. \$3.60.

Hansoni, blooming in early July. A deep orange-yellow spotted brown reflexed. Slightly drooping. 3 to 4 feet high. Requires semi-shade. Each 50c; per doz. \$5.00.

Henryi (Orange Speciosum Lily), of vigorous growth and will thrive in any soil. If planted in partial shade the right orange coloring of the flowers will be highly accentuated. Cover 10 inches. Height 3 to 4 feet, although well established plants will go higher. Blooms July, August. Very prolific bloomer. Each 60c; per doz. \$5.50.

Krameri, the funnel-shaped blossoms are 4 to 6 inches long, of a beautiful clear pink color, shaded blush. 2 feet tall. Very unique. Each 50c; per doz. \$5.00.

Speciosum (Lance-Leaved Lily), ready in November. The supply is limited. From Japan. Cover S. album 8 inches; S. rubrum 9 to 12 inches. Height 3 to 4 feet, and 4 to 5 feet, respectively. Both bloom August and September.

Album, a pure white, with green stripe. Each 40c; per doz. \$4.20.

Fragrant Hyacinths

Our exceptionally choice Hyacinths have always given satisfaction. Our own special growers, who give their personal attention to this particular class of bulbs, assure us that there are none better.

Hyacinths are usually ready by September 20.

When planted outdoors, Hyacinths will bloom in May; when indoors, eight to ten weeks.

Quick root growth on Hyacinths can be induced by slightly scratching bottom rim of bulb before planting.

PRICES: Unless otherwise stated, all prices are POSTPAID. 6 of a kind of BULBS at the Dozen Rate; 25 of a kind at the 100 Rate.
