Province, Afghanistan. He is suspected of smuggling landmines into Afghanistan via Pakistan. Detainee's assurances that he supports the new Afghanistan government and admires Americans are contradicted by his firing on US Special Forces (USSF) and Afghani Military Forces when they approached his compound. It is assessed detainee poses a MEDIUM risk, as he may pose a threat to the US, its interests and allies.

4. (S//NF) Detainee Background Summary: Unless otherwise noted, the following paragraphs are based solely on the detainee's statements.

a. (S) Prior History: Detainee was born in the Aburdah village, Tarin Kowt District, in the Oruzgan province of Afghanistan. He continued to live there with his mother and father, wife, son, four younger brothers and sister. Aburdah, a town of about 70-90 houses/families, is approximately two hours (walking) west of Tarin Kowt. Detainee has been to Khandahar, AF, once. Detainee is a Muslim and attended the local mosque, but has no formal Islamic education. At the time he resided in Aburdah, there was no school in the area, though there is now. Detainee's wife of four to five years, Zarwoti, gave birth to the couple's first son approximately one month prior to his capture.

b. (S) Capture Information: Detainee's wife woke detainee in the middle of the night and told him she heard gunshots. He also heard a lot of gunfire, and saw bullets coming from the house of his neighbor, Haji Gul Mohammed. He thought the attackers might be thieves. He went outside, stood in the middle of his courtyard, surrounded by high walls. Detainee claimed he could not see outside the compound. Then he saw red lights and heard helicopters. He realized that the attackers were Americans, and he needed to get his family out of the house. Detainee ran inside and told his family to get outside the compound because the Americans were going to bomb the house. Detainee told his family he would stay there, so he could identify his opium and his guns when the Americans came to search the house. Detainee's family left the compound, and a bomb was dropped, injuring detainee. Detainee's father, brother and wife came back into the compound and dragged him inside the house. US Forces came to the village the day after the firefight and took detainee into custody.

c. (S) Transferred to JTF GTMO: 22 March 2003

d. (S//NF) Reasons for Transfer to JTF GTMO: To provide information on the following: Detainee's file does not indicate why he was sent to JTF GTMO.

5. (S//NF) Detainee Threat:

a. (S) Assessment: It is assessed the detainee poses a MEDIUM risk, as he may pose a threat to the US, its interests and allies.

b. (S//NF) Reasons for Continued Detention:

- (S) Detainee was reported to support Anti-Coalition Militia (ACM) activity. He and five other unidentified individuals engaged in a firefight with US Special Forces (USSF) and Afghan Military Forces (AMF) at the detainee's compound. The ensuing firefight resulted in detainee sustaining serious injury while two others in the compound were killed. Reporting indicates that the men in the compound initiated the firefight.
 - (S) Detainee's compound was under investigation after an unidentified source went to Kandahar Airfield firebase and reported that one of his neighbors had brought four landmines from Pakistan and was keeping them in the detainee's compound.
 - (S) When USSF/AMF forces (to include Oruzgan Province governor Jan Mohammed) approached the compound, they found the doors locked and barricaded. Shortly after their arrival, the USSF/AMF forces came under small arms fire from various points within the compound.
 - (S) USSF/AMF took immediate action, returned fire and after determining the enemy's position, called in close air support (CAS). As a result, two enemy personnel were killed-in-action and the detainee was wounded-in-action. The report specifically states that the "detainee was part of the firefight. He was prepositioned and hid out of sight. He fired with the intent to kill or harm."
 - (S) AMF investigated the incident and reported that during the event there were 5-6 men in the compound. Two were killed and two were wounded and carried away.
- (S) Detainee admitted, after many denials, he actually fired at USSF and Afghan Military Forces during the firefight. He initially claimed he was not carrying a weapon during the firefight.
 - (S) During interviews at Bagram Airfield, AF, detainee stated that his wife woke him up because she heard something. He went outside, stood in his courtyard for 10-15 minutes and heard no gunfire. He then heard a short whistle right before the bomb hit. He did not mention carrying a weapon during this interview.
 - (S) In a 10 April 2003 interview, detainee stated he did not bring a weapon into the courtyard. Later, during the same interview, he admitted that he brought an AK-47 into the courtyard. He initially stated that he "fired three shots into the air", but when the interviewer claimed he did not believe that, detainee admitted to "firing bullets in the same direction that Haji Gul Mohammed shot his bullets." (Analyst note: Detainee and his fellow fighters may have been in a prepared state of readiness

for the approach of the USSF/AMF. The doors to the compound were locked and barricaded. All reporting states the men inside the compound initiated fire against the USSF/AMF.)

c. . (S//NF) Detainee's Conduct: Detainee is assessed as a LOW threat from a detention perspective. Detainee's overall behavior is compliant and non-hostile/aggressive in nature. Detainee is not a self-harm threat, but has been noted in the past to threaten his own health if depressed, which stemmed from a lack of other Pashto speaking detainees. Detainee currently has four Reports of Disciplinary Infractions, two being failure to follow guard instruction, one damage to property/failure to return property, and one unauthorized communications, the last report occurred on 02/01/04. The detainee is currently in Zulu block, in Camp 4, is at a Low Risk, and has been at Reward Level one for four hundred and eighty-two days, which indicates a very compliant, stable, and non-hostile/aggressive behavior pattern. Detainee's history of compliancy indicates his happiness when with other Afghans.

6. (S//NF) Detainee Intelligence Value Assessment:

a. (S) Assessment: JTF GTMO determined this detainee is of LOW intelligence value.

- (S) Detainee should be able to provide information regarding the smuggling of explosives from Pakistan into Afghanistan. He was an opium farmer and probably used the same smuggling routes he used for transporting opium to smuggle weapons and explosives. He should be able to provide information on other personnel who support ACM operations in the Oruzgan Province.

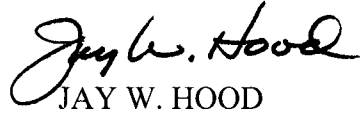

b. (S//NF) Areas of Potential Exploitation:

- ACM activity and personnel in the Oruzgan Province
- Smuggling routes for bringing in weapons and explosives from Pakistan to Afghanistan
- Opium smuggling routes that are probably being utilized by ACM supporters between Pakistan and Afghanistan
- Personnel directing ACM operations within Oruzgan Province

7. (S) EC Status: Detainee's enemy combatant status was reassessed on 13 November 2004, and he remains an enemy combatant.
