DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

SUBJECT: Tuberculosis Project 20 April 1951

1. Reference is made to letter your headquarters, 13 March 1951, same subject, which contained a request for clarification of certain questions included in the BCG immunization questionnaire.

2. Inasmuch as the data submitted will be processed statistically, uniformity of interpretation has been maintained through referral of the clarification requests to the questionnaire authors. Clarifications pertaining to numbered questions in the questionnaire are shown below:

"a. Question No. 2 - Prefectural figures only are required. Inquiries should be made regarding the source of figures obtained by the prefecture.

"b. Question No. 4, sub-paragraph 3 - The "inoculations" in this paragraph refer to immunizations requiring only a single inoculation. Sub-paragraph 4 should read "lists or registers".

"c. Question No. 6 - Circle either "some" or "all", whichever applies, and cross out the word which does not apply.

"d. Question No. 8 - Refers to total number of individual record cards in the entire prefecture, which would be a total of all those maintained whether in health centers in city, town or village health offices, or elsewhere.

"e. Question No. 9 - Same as above.

"f. Question No. 20 - "Ordinary" or regular tuberculin tests and BCG inoculations are performed by heads of cities, town and villages under authority of the Tuberculosis Control law and the Preventive Vaccination Law. "Extra-ordinary" tests and inoculations are performed by order of the governor of prefecture under authority of the Preventive Vaccination Law. Usually "ordinary" inoculations are paid for by the individual unless unable to pay, and "extra-ordinary" inoculations are paid for by the prefecture, subsidized by the national government. "Other" inoculations performed by schools, factories and special groups may be paid for in various ways. The answers of the prefectural health department officials are desired in order to determine their understanding of these matters.

"g. Question No. 23 - The copy of the questionnaire forwarded by check note to Civil Affairs Section reads "1950".

"h. Question No. 31 -"Priorities" apply to such groups as infants, pre-school children, school children, young adults, or to geographic areas of high tuberculosis incidence"concentration or spread of the work during various seasons" pertains to the proposed plans as they apply to dividing the tests and inoculations either uniformly throughout the year or, for example, performing a certain per cent of the total annual work in the spring, permitting the program to lapse during summer months and performing other percentages in the fall and/or in the winter.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Subject: Tuberculosis Project

20 April 1951

"i. Question No. 32 - "Regular" tuberculin tests and BCG inoculations are those given under the provisions of Articles 5 and 14 of the Preventive Vaccination Law: "Extra-ordinary" tests and inoculations are those given under provisions of Article 6 of the Preventive Vaccination Law: "Others" are those performed in the prefecture either by prefectural health agencies including health centers or reported to them from cities, towns and village or other agencies, which were not given under the provisions of the Preventive Vaccination Law."

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

By Miss M. Kaneko, Nurse, Welfare Ministry
Tokyo

Functions of Prefectural Nursing Section Division

IMMUNIZATION QUESTIONNAIRE WITH SPECIAL EMPHASIS ON TUBERCULIN TESTING AND BCG INOCULATIONS

_____ PREFECTURE

1. Have you received the following? (Check appropriate column)

Yes	No	
		Preventive Vaccination Law #68 of 1948.
		Ministry of Welfare Notification #95 of 1948.
		Ministry of Welfare Notification #96 of 1948.
		Ministry of Welfare Notification #97 of 1948.
		Yohatsu #38, 12 January 1949.
		Yohatsu #39, 12 January 1949.
		Yohatsu #341 of 11 April 1949.
		Ministry of Welfare Notification #255 of 16 November 1949.
		Ei-hatsu #434 of 23 May 1950.
		Ei-yo #114 of 25 November 1950.
		To-hatsu #13 of 11 January 1951.

List any other directive which you are at present following regarding your immunization program.

2. What are the totals of the following groups in the prefecture as of 1 January 1951? Give basis for numbers used; are these census (C) figures or estimates (E)?

Totals	C	E	
			Total population.
			Approximate number under 1 year of age (1950 births less deaths under 1 year).
			Approximate number entering primary school.
			Approximate number completing primary school.
			Approximate number 3 years to 60 years inclusive.
			Approximate number 6 months to 30 years inclusive.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

3. What is the estimated number of individuals to be immunized in the prefecture during 1951 for each of the following in order to comply with the Preventive Vaccination Law #68 of 1948?

_____ Smallpox

_____ Diphtheria

_____ Typhoid-paratyphoid

_____ Pertussis

_____ Tuberculosis

_____ Tuberculin test

_____ BCG inoculation (Does this include those with doubtful tuberculin test: Yes ( ) No ( )

4. In what form are records of inoculations first made at the inoculation stations where performed:

( ) Separate certificates or receipts for each person for each inoculation.

( ) Separate certificates or receipts for each person for each complete immunization.

( ) Lists or registers of persons actually receiving inoculations or a complete immunization.

( ) Lists of registers of persons supposed to receive inoculations with entries made for those actually inoculated.

( ) Individual record cards on which all immunizations may be entered (Form described in Yohatsu #39 of 12 January 1949)

5. Are records temporary? Yes ( ) No ( ) If temporary, how soon after inoculation are they transcribed:

At what location:

On to what forms:

6. Are the individual immunization record cards (Yohatsu #39 of 12 Jan 49) in use throughout the prefecture for recording all immunizations? Yes ( ) No ( ) If not, are they used in:

( ) Model health center district.

( ) In some or all "urban" health center districts.

( ) In some or all "rural" health center districts.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

7. At what locations (as to type) are the individual immunization record cards filed:

( ) Health centers in cities.

( ) Health centers in rural areas.

( ) City, town and village offices.

( ) Schools.

( ) Other. (Name, if any)

8. What is the total number of individual record cards in the prefecture placed in use with names and other individual identifying data entered: _____.

9. What immunizations and how many complete immunizations of each type given in the prefecture during 1950 have been entered on the individual immunization record cards?

Immunization	How many completed	How many entered on imm. record cards
Smallpox.....		
Diphtheria.....		
Pertussis.....		
Typhoid-paratyphoid.....		
Tuberculin tests.....		
BCG inoculations.....		
Others.....		

10. Have all previous records of immunizations been transcribed to the individual immunization record cards? Yes ( ) No ( ) If not, how long will it take to complete the transcription?

11. Are tuberculin tests and BCG inoculations commonly performed in the

Health centers - Yes ( ) No ( )

Town and village offices- Yes ( ) No ( )

Other public buildings - Yes ( ) No ( )

Outdoors in summer - Yes ( ) No ( )

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

12. Is a record made by entry on a register or card of each BCG inoculation at the time it is given? Yes ( ) No ( )

13. By what office(s) are personnel performing immunizations employed?

By what office(s) are they given detailed instructions?

14. What persons perform or record each of the following procedures at the inoculation stations? If more than one class of person is involved, please indicate:

	Doctor	Nurse	Clerk
Tuberculin inoculation			
Recording of tuberculin inoculation			
Reading of tuberculin reaction			
Recording of reading of tuberculin reaction			
BCG inoculation			
Recording of BCG inoculation			

15. Are records kept by local health offices (town, village, school, etc.) of the number of plus-minus or doubtful readings of tuberculin reactions? Yes ( ) No ( )

Are reports made to health centers of the number of doubtful tuberculin reactions? Yes ( ) No ( )

Do the health centers report these to the prefecture? Yes ( ) No ( )

Are repeat tests with stronger tuberculin performed on the "doubtful" group? Yes ( ) No ( )

Are they given BCG inoculations if doubtful? Yes ( ) No ( )

Are they exempted if doubtful? Yes ( ) No ( )

Were the "doubtful" reactions to tuberculin included:
with positives ( ) with negatives ( )

16. Did each city, town and village report regularly each month during 1950 to the health center, the total number of tuberculin tests and BCG inoculations performed even if this number was zero? Yes ( ) No ( )

17. Were special forms used for reporting tuberculin tests and BCG inoculations? Yes ( ) No ( )

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

17. (Cont'd)

Yes	No	
		Did they throughout the year (1950) include the data required by Yohatsu #341 of 11 April 1949?
		Did the prefecture continue to collect the data required by Yohatsu #341 during 1950 after the publication of Eihatsu #434?
		Did reports from cities, towns and villages to health centers and from health center to the prefecture include data other than (1) total numbers of tuberculin tests read, (2) number positive and (3) number of BCG inoculations performed? If so what other data?
		Was this form the same throughout all health center districts of the prefecture?
		Blank reports forms were printed by:
		the towns and villages?
		the health center?
		the prefecture?

18. From what local records were the monthly reports of tuberculin tests and BCG inoculations prepared:

( ) From separate certificates or receipts?

( ) From lists or registers?

( ) From the individual record cards?

( ) From other records?

19. Does the Prefecture Health Department receive monthly reports of tuberculin tests and BCG inoculations from each health center? Yes ( ) No ( ) If so, do these reports indicate:

( ) Totals for the entire health center district or,

( ) List of tuberculin tests and BCG inoculations for each city, town and village in the health center district.

20. By what authority and with what funds were the "ordinary" or regular, the "extra-ordinary" and "other" tuberculin tests and BCG inoculations performed:

Type	Authority	Funds
Ordinary		
Extra-ordinary		
Other		

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

21. Do these three categories as reported to the Prefectural Health Department and by them to the Ministry of Welfare include all tuberculin tests and BCG inoculations performed in the prefecture? Yes ( ) No ( )
If not, what other agencies performed tuberculin tests and BCG inoculations and to what prefectural and/or national agency were they reported.

22. Did the Prefectural Health Department send monthly reports of tuberculin tests and of BCG inoculations to the Ministry of Welfare? Yes ( ) No ( )
If so, were these sent each month ( ) or in December only ( )?

23. Was the annual report of tuberculin tests and BCG inoculations by age for 1950 prepared in the same offices (city, towns or village) as the monthly reports? Yes ( ) No ( )

24. Were the original reports by age for the year prepared directly from:

( ) Separate certificate or receipt?

( ) List or registers?

( ) Individual record cards?

25. Were these reports for individual towns and villages compiled in health centers into single reports giving totals for each age group for the entire health center district? Yes ( ) No ( )

26. Did the Prefectural Health Department receive the 1950 annual reports of tuberculin tests and BCG inoculations from each health center of the prefecture? Yes ( ) No ( )

27. Were these reports ( ) totals for the entire health center district?

( ) separate reports of each town and village?

28. Did the 1950 annual report of the prefecture include all tuberculin tests and BCG inoculations by year of age up to 30 and by age groups over 30 years performed in the prefecture? Yes ( ) No ( ) If not, what other tuberculin tests and BCG inoculations were performed; where are the records and to whom were the reports, if any, sent?

29. What records and reports pertaining to the financial aspects of tuberculin testing and BCG inoculation are made at:

City, town and village level:

Health center level:

Prefecture level:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

30. Obtain samples of all record forms and report forms used or in use which differ from those required by the directives listed in question 1 of this questionnaire.

31. What are the tuberculin testing and BCG inoculation plans for 1951 as to number of individuals and age groups to be tested and inoculated during certain months or periods of months:

Priorities to be established either by age groupings or geographical area:

Concentration or spread of the work during various seasons of the year:

32. From the most dependable data available in the prefecture, consolidated report according to the attached form is desired, giving numbers of tuberculin tests examined, number of positive reactors, number of BCG inoculations, number of free inoculations for regular, extra-ordinary and other inoculation programs by month from October 1949 to December 1950 inclusive.

Regular: Schools - at Spring and Fall seasons
Factories
Offices
Working in various government offices
Regulars done out of season

Others: Left-overs
Newborn

33. Have public health and school officials coordinated sufficient to develop an adequate execution of the BCG program? Yes ( ) No ( )

CHECK SHEET FOR HOSPITAL NURSING SERVICE

Date _____

Name of Hospital _____
Address _____
Type _____ Total Number of Beds _____
Services _____
Name of Director _____ Name of Chief Nurse _____
Number of Doctors _____ Number of Internes _____
Number of Technicians _____ Unskilled workers _____
Number of Nurses _____ Graduate _____ Student _____
Is there a school of nursing? _____ Is it approved? _____
ClassA or B school _____ Average number of patients _____
Average monthly number of outpatients treated _____
Are patients segregated by age, sex and disease _____
Is there a central kitchen? _____ Is it used? _____
Do patients cook on the wards? _____
Are families living with patients? _____
Are visitors allowed on contagious wards? _____
Is bed and bedding supplied by the hospital? _____
Are there laundry facilities? _____ Do nurses wash patients clothes? _____
Are patients records complete and accurate enough to protect the nurse? _____
Are doctors treatment orders written or verbal? _____
Are operating rooms satisfactory? _____ Nurses Technique? _____
Is there a central supply room? _____
Are the buildings and rooms clean? _____ Do nurses scrub? _____
Are isolation facilities adequate? _____ Isolation technique? _____
Is there a diagnostic laboratory? _____ Number Technicians? _____

****

Are there any classes, conferences, clinics for in-service education of nurses? _____
What are the nurses hours? _____
Are nurses assignment and time sheets posted? _____
Who makes nurses assignments and time schedules? _____
Are uniforms furnished for nurses? _____ Appearance? _____
Are quarters furnished for nurses? _____
Are quarters clean? _____ Light? _____ Airy? _____
How many nurses live in one room? _____
Do they pay for the room? _____ How much? _____
Is food furnished for the nurses? _____ Adequate? _____
What is nurses salary? Chief Nurse _____ Staff Nurses _____
Are nurses active in Nurses Association? _____
How often do nurses have physical examinations? _____ X-Ray? _____

****

CHECK SHEET FOR HEALTH CENTER INSPECTION

Date Aug 15, 1950

Name of Health Center Suganami Location Tokyo

PERSONNEL:
Number of Doctors - Full time _____ Part time _____
Number of Nurses - P. H. _____ Clinical _____ Midwives _____
Number Medical Social Workers _____ Nutritionists _____
Number Technicians - X-ray _____ Laboratory _____
Number Clerks _____ Number janitors or unskilled workers _____

BUILDINGS AND EQUIPMENT:
Type building _____ Condition _____
Heat _____ Water _____ Lights _____ Latrines _____
Is building space utilized to best advantage? _____
Number clinics rooms _____ Is equipment adequate? _____
Condition and maintenance of equipment _____
Are Supplies adequate? _____
Is X-ray equipment adequate? _____ Maintenance _____
Are Laboratory facilities adequate? _____
Are Biologicals refrigerated? _____ Type refrigerator and condition _____
Number bicycles in H.C. _____ Number waiting rooms _____

HEALTH CENTER PROGRAM:
What efforts are made to acquaint community with H.C. resources? _____
Are any other community organizations interested in H.C. program? _____
Is there an organized program for Public Health Education? _____
Movies _____ Lectures _____ Posters _____ Newspapers _____
Are good relations maintained between H.C. and private physicians? _____
Are laboratory facilities available and used by private physicians? _____
Are bulletin boards in H.C. attractive and timely? _____

NURSING SERVICE:
Do Nurses have uniforms? _____ Type _____ Furnished by _____
Number Nursing bags _____ Type _____
Are nursing bags equipped adequately? _____ Clean? _____
Have nurses been instructed in bag technique? _____
Do all nurses divide time between clinics and home visiting? _____
Do nurses work as laboratory and X-ray technicians? _____ Clerks? _____
How much time per month is devoted to in-service training of nurses? _____
Who plans in-service training programs for nurses? _____
How many nurses have taken refresher courses: National Institute 4 months _____
Other PHN courses _____ Clinical _____ Midwives _____ Other _____
Are nurses included in H.C. staff meetings? _____ Frequency of meetings? _____
Do Staff nurses have regularly scheduled conferences with chief nurse? _____
Does library contain new nursing books and journals? _____
What proportion of nurses times is spent in:
Clinics _____ Home visiting _____ Clerical work _____
Average number of home visits per nurse per month? _____
Are nurses assigned to specific areas for home visiting? _____
How are cases selected for home visiting? _____

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

NURSING SERVICE (continued)
Is emphasis placed on teaching content of home visits?
How often does Ch. Nurse or supervisor accompany nurses on home visits?
Do H.C. nurses visit schools that do not have have school nurses?
How many schools in the area do not have school nurses?
Are village nurses cooperating in H.C. program? School nurses?
Do village nurses attend in-service training courses in H.C.?
Are H.C. nursing records adequate?

CLINICS:
Are waiting rooms adequate and cheerful? Educational material?
Do conference rooms provideenough privacy?
Do nurses have pre-clinic and post-clinic conferences with patients?
Are referrals made to Social worker, nutritionist and other agencies?
Are clinic schedules publicized in local newspapers, bulletins boards, etc.?

IMMUNIZATION QUESTIONNAIRE WITH SPECIAL EMPHASIS ON TUBERCULIN TESTING AND BCG VACCINATIONS

PREFECTURE

1. Have you received the following? (Check appropriate column)

Yes	No	
		Preventive Vaccination Law #68 of 1948.
		Ministry of Welfare Notification #95 of 1948.
		Ministry of Welfare Notification #96 of 1948.
		Ministry of Welfare Notification #97 of 1948.
		Tohatsu #38, 12 January 1949.
		Tohatsu #39, 12 January 1949.
		Tohatsu #341 of 11 April 1949.
		Ministry of Welfare Notification #855 of 16 November 1949.
		Ki-hatsu #434 of 25 May 1950.
		Ki-yo #114 of 25 November 1950.
		To-hatsu #13 of 11 January 1951.

List any other directive which you are at present following regarding your immunization program.

2. What are the totals of the following groups in the prefecture as of 1 January 1951? Give basis for numbers used; are these census (C) figures or estimates (E)?

Totals	C	E	
			Total population.
			Approximate number under 1 year of age (1950 births less deaths under 1 year).
			Approximate number entering primary school.
			Approximate number completing primary school.
			Approximate number 5 years to 60 years inclusive.
			Approximate number 6 months to 30 years inclusive.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

3. What is the estimated number of individuals to be immunized in the prefecture during 1951 for each of the following in order to comply with the Preventive Vaccination Law #68 of 1948?

_____ Smallpox

_____ Diphtheria

_____ Typhoid-paratyphoid

_____ Pertussis

_____ Tuberculosis

_____ Tuberculin test

_____ BCG inoculation (Does this include those with doubtful tuberculin test: Yes ( ) No ( )

4. In what form are records of inoculations first made at the inoculation stations where performed:

( ) Separate certificates or receipts for each person for each inoculation.

( ) Separate certificates or receipts for each person for each complete immunization.

( ) Lists or registers of persons actually receiving inoculations or a complete immunization.

( ) Lists of registers of persons supposed to receive inoculations with entries made for those actually inoculated.

( ) Individual record cards on which all immunizations may be entered (Form described in Yohatsu #39 of 12 January 1949)

5. Are records temporary? Yes ( ) No ( ) If temporary, how soon after inoculation are they transcribed:

At what location:

On to what forms:

6. Are the individual immunization record cards (Yohatsu #39 of 12 Jan 49) in use throughout the prefecture for recording all immunizations? Yes ( ) No ( ) If not, are they used in:

( ) Model health center district.

( ) In some or all "urban" health center districts.

( ) In some or all "rural" health center districts.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

7. At what locations (as to type) are the individual immunization record cards filed:

( ) Health centers in cities.

( ) Health centers in rural areas.

( ) City, town and village offices.

( ) Schools.

( ) Other. (Name, if any)

8. What is the total number of individual record cards in the prefecture placed in use with names and other individual identifying data entered: _____.

9. What immunizations and how many complete immunizations of each type given in the prefecture during 1950 have been entered on the individual immunization record cards?

Immunization	How many completed	How many entered on imm. record cards
Smallpox.....		
Diphtheria.....		
Pertussis.....		
Typhoid-paratyphoid.....		
Tuberculin tests.....		
BCG inoculations.....		
Others.....		

10. Have all previous records of immunizations been transcribed to the individual immunization record cards? Yes ( ) No ( ) If not, how long will it take to complete the transcription?

11. Are tuberculin tests and BCG inoculations commonly performed in the

Health centers - Yes ( ) No ( )

Town and village offices- Yes ( ) No ( )

Other public buildings - Yes ( ) No ( )

Outdoors in summer - Yes ( ) No ( )

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

12. Is a record made by entry on a register or card of each BCG inoculation at the time it is given? Yes ( ) No ( )

13. By what office(s) are personnel performing immunizations employed?

By what office(s) are they given detailed instructions?

14. What persons perform or record each of the following procedures at the inoculation stations? If more than one class of person is involved, please indicate:

	Doctor	Nurse	Clerk
Tuberculin inoculation			
Recording of tuberculin inoculation			
Reading of tuberculin reaction			
Recording of reading of tuberculin reaction			
BCG inoculation			
Recording of BCG inoculation			

15. Are records kept by local health offices (town, village, school, etc.) of the number of plus-minus or doubtful readings of tuberculin reactions? Yes ( ) No ( )

Are reports made to health centers of the number of doubtful tuberculin reactions? Yes ( ) No ( )

Do the health centers report these to the prefecture? Yes ( ) No ( )

Are repeat tests with stronger tuberculin performed on the "doubtful" group? Yes ( ) No ( )

Are they given BCG inoculations if doubtful? Yes ( ) No ( )

Are they exempted if doubtful? Yes ( ) No ( )

Were the "doubtful" reactions to tuberculin included:
with positives ( ) with negatives ( )

16. Did each city, town and village report regularly each month during 1950 to the health center, the total number of tuberculin tests and BCG inoculations performed even if this number was zero? Yes ( ) No ( )

17. Were special forms used for reporting tuberculin tests and BCG inoculations? Yes ( ) No ( )

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

17. (Cont'd)

Yes	No	
		Did they throughout the year (1950) include the data required by Yohatsu #341 of 11 April 1949?
		Did the prefecture continue to collect the data required by Yohatsu #341 during 1950 after the publication of Eihatsu #434?
		Did reports from cities, towns and villages to health centers and from health center to the prefecture include data other than (1) total numbers of tuberculin tests read, (2) number positive and (3) number of BCG inoculations performed? If so what other data?
		Was this form the same throughout all health center districts of the prefecture?
		Blank reports forms were printed by:
		the towns and villages?
		the health center?
		the prefecture?

18. From what local records were the monthly reports of tuberculin tests and BCG inoculations prepared:

( ) From separate certificates or receipts?

( ) From lists or registers?

( ) From the individual record cards?

( ) From other records?

19. Does the Prefecture Health Department receive monthly reports of tuberculin tests and BCG inoculations from each health center? Yes ( ) No ( ) If so, do these reports indicate:

( ) Totals for the entire health center district or,

( ) List of tuberculin tests and BCG inoculations for each city, town and village in the health center district.

20. By what authority and with what funds were the "ordinary" or regular, the "extra-ordinary" and "other" tuberculin tests and BCG inoculations performed:

Type	Authority	Funds
Ordinary		
Extra-ordinary		
Other		

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

21. Do these three categories as reported to the Prefectural Health Department and by them to the Ministry of Welfare include all tuberculin tests and BCG inoculations performed in the prefecture? Yes ( ) No ( )
If not, what other agencies performed tuberculin tests and BCG inoculations and to what prefectural and/or national agency were they reported.

22. Did the Prefectural Health Department send monthly reports of tuberculin tests and of BCG inoculations to the Ministry of Welfare? Yes ( ) No ( )
If so, were these sent each month ( ) or in December only ( )?

23. Was the annual report of tuberculin tests and BCG inoculations by age for 1950 prepared in the same offices (city, towns or village) as the monthly reports? Yes ( ) No ( )

24. Were the original reports by age for the year prepared directly from:

( ) Separate certificate or receipt?

( ) List or registers?

( ) Individual record cards?

25. Were these reports for individual towns and villages compiled in health centers into single reports giving totals for each age group for the entire health center district? Yes ( ) No ( )

26. Did the Prefectural Health Department receive the 1950 annual reports of tuberculin tests and BCG inoculations from each health center of the prefecture? Yes ( ) No ( )

27. Were these reports ( ) totals for the entire health center district?

( ) separate reports of each town and village?

28. Did the 1950 annual report of the prefecture include all tuberculin tests and BCG inoculations by year of age up to 30 and by age groups over 30 years performed in the prefecture? Yes ( ) No ( ) If not, what other tuberculin tests and BCG inoculations were performed; where are the records and to whom were the reports, if any, sent?

29. What records and reports pertaining to the financial aspects of tuberculin testing and BCG inoculation are made at:

City, town and village level:

Health center level:

Prefecture level:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

30. Obtain samples of all record forms and report forms used or in use which differ from those required by the directives listed in question 1 of this questionnaire.

31. What are the tuberculin testing and BCG inoculation plans for 1951 as to number of individuals and age groups to be tested and inoculated during certain months or periods of months:

Priorities to be established either by age groupings or geographical area:

Concentration or spread of the work during various seasons of the year:

32. From the most dependable data available in the prefecture, consolidated report according to the attached form is desired, giving numbers of tuberculin tests examined, number of positive reactors, number of BCG inoculations, number of free inoculations for regular, extra-ordinary and other inoculation programs by month from October 1949 to December 1950 inclusive.

Regular: Schools - at Spring and Fall seasons
Factories
Offices
Working in various government offices
Regulars done out of season

Others: Left-overs
Newborn

33. Have public health and school officials coordinated sufficient to develop an adequate execution of the BCG program? Yes ( ) No ( )

1. MEDICAL INSTRUCTIONS.

Japanese "B" Encephalitis vaccination is compulsory for military personnel and Department of the Army Civilians. Dependents of the above individuals may receive this immunization on a voluntary basis only.

In order to simplify the administration of this immunization the following instructions are published for information of all concerned:

a. Dependents living in the Grant Heights and Washington Heights housing areas and in U. S. Houses nearby these areas may receive their immunization at the place, date, and time, as announced by the respective dispensaries.

b. Dependents living in the Metropolitan Tokyo area, including Pershing Heights, may receive their immunizations at the Tokyo General Dispensary (4th street and "Y" avenue) on Monday and Friday, from 0830 to 1600 beginning 15 June 1951 and continuing to 15 September 1951.

c. Individuals leaving this theater prior to 1 July 1951 will not receive these immunizations. No Japanese "B" Encephalitis immunization will be initiated after 15 September 1951.

d. Individuals with past or present history of sensitivity (allergic reaction) to eggs, chicken or by-products will not be given Japanese "B" Encephalitis vaccine.

AG 720.3 (28 May 51)HC

2. AUTHORIZED TO CALL LIST.

Attention is invited to paragraph 6c, Staff Memorandum Number 31 (SCAP & FEC), 1950, which provides that "Each staff section of General Headquarters will designate in writing to the Headquarters Commandant two persons who are authorized to request official motor transportation. Changes in this personnel will be reported promptly."

In many instances, due to failure to report changes, names of personnel who have deported from General Headquarters are still being carried on the "Authorized to Call" list. All sections will submit names of authorized persons to call for official transportation in order that this list may be brought up to date.

GHQ GOLF TEAM. A 1951 GHQ golf team is being organized and all interested personnel are urged to try out for qualification by turning in two attested score cards to the desk at Koganai Golf course prior to midnight 5 June 1951. The team will be all new, and members of the 1950 team will hold no priority. The team will consist of the six best scores with the next four as alternates. Any person in GHQ may challenge the number 10 man for his position. For additional details contact Mr. Takano at 26-5767 or 33-5649.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

APPOINTMENT TO THE UNITED STATES MILITARY ACADEMY.

The 1951-1952 program for selection to personnel for appointment to the United States Military Academy has been announced.

The following, if otherwise qualified may apply for appointment to the United States Military Academy:

a. Enlisted men on active duty in the Army and Air Force and former enlisted men of the Army and Air Force who are now on active duty as temporary commissioned officers or warrant officers.

b. Enlisted men who are presently in an active training status (Active Reserve) in any of the Reserve components, or enlisted men who immediately prior to having been ordered to active duty with the Army or Air Force were in an active training status (Active Reserve).

c. Former enlisted men of any of the Reserve Components who are now in an active duty status as temporary commissioned officers or warrant officers, or as aviation cadets.

Applicants must be United States citizens, physically qualified, and meet all of the following qualifications:

a. Must have reached his 17th but not his 22d birthday as of 1 July 1952.

b. As of 1 July 1952 must have completed one years service, Active or Active Reserve, and must be in Active or Active Reserve enlisted status on that date.

c. Be unmarried and must never have been married.

d. Be a high school graduate or its equivelent. Education should include at least three years high school mathematics (including algebra and plane geometry), one year of American History, and three years of English.

e. Applicants must be of good moral character and possess the capacity for leadership required of an officer of the Army.

Each applicant will be required to take a designating examination on 2 July 1951 which requires approximately 3½ hours and consists of aptitude tests in "Algebra", "Vocabulary and Reading", and "Ability to Recognize Three-Dimensional Figures from Flat Drawings". Applicants will be informed where and when to report for the examination which will be held at various headquarters throughout the Far East Command.

Successful candidates will be returned to the United States for attendance at the United States Military Academy Preparatory School for special training in preparation for the March 1952 West Point entrance examination, at which time they will further compete for admission to the Military Academy in July 1952.

Interested personnel should submit application (DD Form 207) prior to 1 June 1952 in accordance with Department of the Army Circular 35 dated 9 May 1951. Enlisted personnel will submit applications through unit commanders to the Commanding General, Headquarters and Service Command, General Headquarters, Far East Command. Officers and Warrant Officers will submit applications to the Commander-in-Chief, Far East Command, Attention AG-PA.

CAMP TOKYO LAUNDRY AND DRY CLEANING PLANT. The Camp Tokyo Laundry and Dry Cleaning Plant, Washington Heights and Grant Heights Pick-Up Stations will be closed for monthly inventory on Wednesday 30 May 1951.

GHQ OFFICERS' CLUB. Program for Monday, 28 May 1951, includes luncheon from 1200 to 1500. Dinner will be served from 1800 to 2200. Dancing to Sosh's Orchestra from 2000 to 2300. The lounge at the GHQ Officers' Club at Nudge Hall, will be open from 1200 to 2300. The swimming pool will be open from 1100 to 1900. The lounges at Annex Number 2, Peers Club, Annex Number 3, Honcho Apartments, Annex Number 4, Nampei Roof, Annex Number 5, War College, and Annex Number 6, Sankaido Club, will be open from 1700 to 2300.

SECTION I GENERAL

Effective 1 March, publication of the Public Health and Welfare Section Bulletin will be on a monthly basis. The next issue will contin a summary of activities and reports for the month of March 1951.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

SECTION II PREVENTIVE MEDICINE

Smallpox

Following a year in which only five scattered smallpox cases were reported in Japan, an outbreak involving approximately 10 persons occurred, starting 7 February in a Military Laundry in Kobe. The first crop of cases had onsets varying from the 7th to the 13th. Four other suspect cases with onsets up to the 24th of February are under observation. The route of infection has not as yet been clearly determined. All efforts to find a possible preceding case have failed. An intensive immunization campaign is being conducted in Kobe and vicinity and has been in a large part completed.

In addition to the Kobe incident one case of smallpox has been reported in a child from Nagoya. In this case the diagnosis is extremely questionable. The onset was 11 February. Preventive measures have been taken and there have been no secondary cases.

On 22 February word was received that an epidemic of suspected smallpox involving 12 people, of which seven are infants, had been going on since 28 January in Kamesaki-mura, Murakata-gun, Fukuoka-ken. There was no doctor in this village and the cases came to the attention of the health authorities by accident. Further investigation is being conducted.

SECTION III NURSING AFFAIRS

National Nurses Examination

Attached as Incls. 1 is a copy of Ministry of Welfare Notification No. 24, dated 23 Feb 1951, concerning the 1951 schedule for application for the national examination for class A nurses.

SECTION IV VETERINARY AFFAIRS

Rabies Control Program

A nation-wide survey of enforcement measures taken by prefectural officials since the inception of the Rabies Control Law No. 247, 26 August 1950 up to 31 December 1950 revealed the fact that 855,830 dogs had been registered, and 847,503 dogs immunized. In addition 786 dog catchers had been employed and 339 dog pounds put into operation. While the results so far are considered commendable, the program is aimed at having the estimated total of two million dogs registered and immunized immediately. A total of 800 dog pounds, one for each health center district, with the permanent employment of at least 1,600 dog catchers is proposed. An effort is also being made to obtain transportation for the dog catchers in the form of foot driven or motor driven tricycles with cage carriers attached.

Although the Kanto region has been the seat of rabies infection, three cases were recently reported in Hyogo prefecture. These are the first cases reported in this prefecture and only the second time that rabies has been confirmed, outside of the Kanto region, since the beginning of the occupation.

Rinderpest Chick Embryo Vaccine Research

Work on the adaptation of bovine rinderpest virus to the chick embryo is progressing faborably under the direction of Dr. Kanematsu Fukusho, Chief of the Kyushu Branch of the National Experimental Station for Animal Hygiene. The virus is now in the 130th C.A. membrance passage, and seperately in the 53rd yolk sac passage. The C.A. membrane-passaged virus seems to be gradually attenuated, in consequence of longer period of time between inoculation and death, and lessened clinical symptoms in test calves. The test calf inoculated with the 119th passage virus recovered after showing typical sumptoms.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The present yolk sac strain was passaged into a bovine at the 88 C.A. membrane passage, then the bovine's lymphnode virus passaged back once more into the C.A. membrance and then into the yolk sac. Up to the present 53rd yolk sac generation, the virus has faded out in yolk sac passage three times, but has been brought back each time by one alternate passage in the bovine. Japanese calves inoculated with the virus at the 30th and 35th passages died of pneumonia complications, but those inoculated at the 40th, 45th passages all survived. Holstein calves inoculated with every fifth passage between 30th and 50th passage have all recovered. The virus is still considered too virulent for use as a field vaccine, but the virulence seems already to be lower than that of lapinized virus. The work is being continued, and it is believed that it should result in the production of a practical vaccine after 25 - 50 more yolk sac passages.

Weekly Rabies Report

The Veterinary Affairs Section, Ministry of Welfare submitted the following report on rabies cases occurring during the period 28 January - 17 February 1951.

Prefecture	No. of Cases (28 Jan-3 Feb)	No. of Cases (4 - 10 Feb)	No. of Cases (11 - 17 Feb)
Tokyo	1	4	0
Kanagawa	3	3	1
Chiba	0	0	0
Saitama	0	0	0
Ibaragi	5	3	1
Gumma	1	2	2
Tochigi	0	2	0
Shizuoka	1	0	0
Hyogo	0	1	1
Total	11	15	5

Japanese statistics for period of 1 January - 17 February 1951 disclose a total of 48 cases of rabies in dogs, 137 humans have reported being bitten by dogs with 5 deaths.

Weekly Animal Disease Report

The Animal Hygiene Section, Ministry of Agriculture and Forestry, submitted the following outbreaks of animal diseases for the period 10 - 23 February 1951.

Prefecture	Diseases	No. of Cases (10 - 16 Feb)	No. of Cases (17 - 23 Feb)
Chiba	Swine erysipelas	1	
Hiroshima	Swine cholera		31
Kanagawa	Swine cholera	2	1
Mie	Anthrax	1	

Cumulative Total - 1 January to date of report.

Anthrax	3
Swine cholera	103
Swine erysipelas	9
Swine plague	4

Monthly Meat Inspection Report

Prefectural veterinary meat inspectors conducted ante and post-mortem inspections on the following number of livestock during the month of December 1950.

	Number Slaughtered
Cattle	49,294
Calves	3,053
Horses	13,589
