DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Baby food and dairy products (Livestock Section)

A. Matters relating to the planning of prefectural economic control enforcement program.

1. Year-end special distribution of cereal flour Alpha type.

This rationing of cereal flour to babies is part of the year-end special distribution program, and aims to make the public understand well the quality of the flour, and promote the health of babies.

(1) Every branch of prefectural government will dispose of the allotted quota for cereal flour within a period to be set in accordance with its respective local situation. Cereal flour rationing is for the second time in this year.

(2) Cereal flour will be rationed specifically to babies of 3 - 12 months. But during this distribution period any family having a child under six of age will be able to apply for it.

(3) As for procedures for rationing, the same steps will be taken as heretofore. Without preparing any specific book for this rationing, ration points will be able to handle it, subject to review by respective municipal offices, by making necessary entries in an ordinary distribution book and recipients' ration cards.

(4) Ration points will be not only registered dealers of baby food but also stores handling baby sugar, and general foodstuff stores for the benefit of general consumers.

2. Special rationing of dairy products.

In compliance with the instructions of the Central Government, condensed and powdered milk will be rationed specifically to babies under six during the period of December and the coming January, in the amount of four tins per capita. General purchase tickets or family necessities ration cards will be used for purchase of the rations.

3. License standard.

We are of opinion that the existing restaurant Business Law is appropriate for the license standard.
But, the peoples seem to have little understanding of this law, considering the actual conditions in July and August.

In fact, more than 60 % of customers come to restaurants witout having meal-coupons,

Therefore, managers of restaurant business are absorbed in gathering meal-coupons through their relative and acquaintances to cover the shortage of coupon.
