MEMORANDUM FOR: The Board of Trade (Boeki Cho), Ministry of Commerce and Industry, Tokyo

SUBJECT: Shell Imports from Ryukyus

1. Pursuant to paragraph 6 of Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 334 (3 Apr 46) ESS/IE, (SCAPIN 854), dated 3 April 1946, subject: Board of Trade (Boeki Cho), Boeki Cho is directed to take delivery or cause delivery to be taken in its name and for its account of approximately forty-one (41) metric tons of Shell from on board the SS Hyogo Maru which arrived at Kobe 3 August 1947.

2. Quantitative receipts in quintuplicate (five copies) showing the total quantity of shell manifested and received from the above vessel will be signed and sealed by the officially designated agency of Boeki Cho in the proper space provided in the receipt. A survey report of quality will be prepared in quintuplicate (5 copies) by a competent authority appointed by Boeki Cho.

3. The above-mentioned receipts will be submitted to the Commanding Officer, local Military Government unit, at port of discharge.

4. Boeki Cho will allocate or transfer by sale to such agency, agencies or individuals as may be designated by the appropriate Bureau of the Ministry of Commerce and Industry the shell imported under these instructions.

5. The shell imported under these instructions is for the manufacture of buttons for export only. Boeki Cho will report to General Headquarters, Supreme Commander for the Allied Powers at suitable intervals the allocation and consumption of this shell, indicating the quantities and types of buttons manufactured.

6. At the time of allocation of this shell, Application to Prepare for Export will be submitted covering the buttons it is proposed to manufacture.

7. These instructions shall be in effect with respect to all shell imports until further notice.

MEMORANDUM FOR: The Board of Trade (Boeki Cho)
Ministry of Commerce and Industry, Tokyo

SUBJECT: Provisional Release of Raw Cotton for Export Yarn Production in Third Quarter 1947

1. Pursuant to paragraph 6 of Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 334 (3 Apr 46) ESS/IE, (SCAPIN 854), dated 3 April 1946, subject: Board of Trade (Boeki Cho), the Board of Trade is directed to arrange for the release of 119,665 bales of raw cotton and for the manufacture of cotton yarns based on the distribution of raw cotton to each spinning company shown in Table No. 1 attached. This table represents an allocation of raw cotton approved by the Textile Bureau of the Ministry of Commerce and Industry.

2. The 1947 3rd Quarter Provisional Schedule for the manufacture of CCC Group I Cotton during July, August, and September 1947, has been prepared by the Textile Bureau of the Ministry of Commerce and Industry and submitted through the Board of Trade to Supreme Commander for the Allied Powers, as required by paragraph 2-3(1) of Raw Cotton Regulations, issued by the Economic and Scientific Section (15 June 46), ESS/IE, (BT-2), dated 15 June 1946. The raw cotton covered by this schedule is described as 119,665 bales of American cotton imported as designated in Table No. 1 attached and delivered to the Board of Trade by the United States Commercial Company.

3. Each spinning company designated in Table No. 1 should be instructed to proceed with the processing of this raw cotton into yarn, without delay, under the general supervision of the Board of Trade. The counts and quantities of cotton yarn described in the production plan will be produced, insofar as mechanically practicable. Prior to making any changes in or additions to the spinning program, the proposed amendment must be submitted by the Board of Trade for the approval of the Economic and Scientific Section, Supreme Commander for the Allied Powers.

4. The production plan and application for provisional release submitted by the Textile Bureau through Boeki Cho specificies only the quantity of raw cotton to be allocated each spinning company per vessel and no particulars are submitted regarding grade and staple. The Textile Bureau of the Ministry of Commerce and Industry is required to submit full particulars as to grades and staples at the earliest possible date.

BASIC: Memorandum for the Board of Trade (BT-47-616).

5. The counts and quantities of cotton yarn required for export as yarn and for manufacture into textiles will be produced in accordance with revised mixing plans approved by Economic and Scientific Section, Textile Division. For the purpose of permitting the greatest flexibility of operation within the scope of approved schedules, spinning mills may be authorized to mix or blend the imported cotton allocated on the attached table with the imported cotton approved for export manufacture allocated on previous schedules. CCC Group I cotton approved for use in the manufacture of textiles for export may not be mixed with any other raw cotton or with cotton waste that is not owned by the Board of Trade nor may it be combined with any other fiber or yarn in the manufacture of products to be used in Japan. The Textile Bureau will prepare a schedule for the further manufacture or other disposition of the cotton yarn produced under this provisional release.

MEMORANDUM FOR: The Board of Trade (Boeki Cho), Ministry of Commerce and Industry, Tokyo.

SUBJECT: Theft and Pilferage of Cargo During Transit to and from Port Areas.

1. According to information received numerous instances of theft and pilferage of goods in transit on the government railways has recently been reported to the Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers.

2. In many instances the stolen and pilfered articles are of domestic origin, which may or may not be intended for export, also cargoes imported under the Foreign Trade Program may likewise be affected; accordingly the Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers, looks with concern on the continued report of losses.

3. The Board of Trade will prepare a report enumerating a list of losses from sources above mentioned, advising full particulars including date, time, place, quantity and description of the articles stolen or pilfered, and any other pertinent data. Further, the Board of Trade will advise what measures are being taken to safeguard cargo while in transit and in warehouses; also what steps are being taken to prevent these depredations.

MEMORANDUM FOR: The Board of Trade (Boeki Cho)
Ministry of Commerce and Industry, Tokyo

SUBJECT: Bleaching of Additional Cotton Fabrics to Fulfill Ceylon Contract No. 1023 (Sched. I)

1. Pursuant to paragraph 6 of Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 334 (3 Apr 46) ESS/IE (SCAPIN 854) dated 3 April 1946, subject: Board of Trade (Boeki Cho), the Board of Trade is directed to deliver approximately 109,200 linear yards of the gray cotton fabrics described below to the Nittobo Finishing Plant located at Itami for bleaching to fulfill contract requirements pertaining to sale of cotton fabrics to Ceylon.

Quality No.	Linear Yards
2021	22,000
2022	50,000
2125 (formerly 2026)	37,200
Total	109,200

2. Reference is made to Memorandum (BT-47-396) dated 3 June 1947 directing the export of 360,000 linear yards of the above fabrics to Ceylon. However, it was subsequently learned that this quantity was not available for export and that shortages approximating the figures contained in paragraph 1 resulted. It is therefore required that the Board of Trade arrange for the bleaching of the additional quantities indicated.

3. The Itami Plant of Nittobo is to be instructed to proceed with the bleaching of these fabrics as soon as possible after delivery of the gray goods has been made in order that the earliest possible export of these fabrics to Ceylon may be effected.

4. As soon as these fabrics are bleached and packed, prompt shipment will be made to the port area and an arrival notice submitted to the Foreign Trade Division.
