NO GERMAN DELEGATE AT SAN REMO

In Land Beyond Rock of Adamant Material Existence Has Double

Great Psychic Address by Sir Oliver Lodge to Victoria Audience; Believes Dead Do Communicate With the Living.

POINTS FROM SCIENTIST'S ADDRESS:

"We live in a world of reality which is not thus conveyed, but which has to be inferred by the mind." "We live in a universe much greater than we know." "Our knowledge of existence is miserably inadequate." "It is a strange thing that the law and order revealed in the atom is the same law and order as governs the solar system. Furthermore, the same law and order is found in the most distant universe, showing that the whole universe is subject to one dominant mind."

Of recent years the question of whether there is a life after death has attracted the attention of scientists and psychologists the world over and evidence of the interest displayed in the subject was shown at the Royal Victoria Theatre last night when a crowded house listened with the keenest interest to Sir Oliver Lodge, the world-famed scientist, in his lecture on "The Evidence of Survival."

Introduced by the Hon. John Oliver as "a gentleman of world-wide reputation and the foremost scientist of the age," the distinguished savant appealed to his audience with his charming personality and his air of simple conviction, and even if he failed to convince the ultra-sceptical, his evident earnestness and sincerity of belief left an ineffaceable impression of a master mind.

CHICAGO DOCTORS' PRESCRIPTIONS FOR LIQUOR LIMITED

Chicago, April 22.—Chicago physicians will be limited to 100 whiskey prescriptions every three months, beginning May 15, Capt. Hubert Howard, Prohibition Commissioner, announced to-day. The allotment now is three times that number.

SEPTEMBER 28 AS LIQUOR VOTE DATE

Prohibitionists Will Ask British Columbia Referendum Be Held Then

Vancouver, April 22.—That September 28 be set as the date for the referendum on the liquor question will be the request made to the Government by the People's Prohibition Party. This was the decision of the executive of that body, which met last night.

Organization was discussed fully and the chairmen of the various committees were empowered to proceed with the work of organization and preparation for the referendum.

Greenwood Now Working For Harmony in Ireland

London, April 22.—England's new Irish policy may be something broader than the existing Home Rule scheme and not unlike Dominion home rule, says The Daily Sketch. Sir Hamar Greenwood, recently named Chief Secretary for Ireland, and General Sir Cecil F. N. MacCreedy, the newly-appointed military commander there, are said to favor moderation and are making attempts to determine just what the Sinn Fein wants.

A favorable atmosphere is being created and the Government, the newspaper says, will "go farther to reach a settlement than is generally believed." Newspaper reports have recently speculated on the nature of the policy initiated by the Government and it seems the first steps in carrying out present plans will be taken as soon as Sir Hamar is re-elected a member of

NEW FOUNDLANDERS TOOK 34,000 SEALS AS SEASON'S CATCH

St. John's, Nfld., April 22.—Thirty-four thousand seals, valued at \$175,000, were the total catch during the season which has just closed. This is the smallest number of seals taken in the history of the industry.

NO SIGNAL FROM MARS CAUGHT BY EXPERTS IN STATES

Gamer Ranch, Cedar Creek, Neb., April 22.—Dr. Frederick L. Milliner and Harvey Gamer, electrical experts, failed in their efforts early to-day to catch a signal from Mars. The attempt will be renewed to-night.

Saanich Sewerage Plan Will Cost \$750,000 and Drain Large Acreage

A sewerage system which will drain an acreage of nearly 900 acres and will entail a by-law for the sum of about \$750,000, will be submitted to the Saanich Council this evening by Engineer Milne.

Since Mr. Milne took up his appointment in December, his staff has been almost exclusively engaged on the plans for waterworks extension and the sewerage scheme. The water extension for Gordon Head has already been indicated, entailing an immediate expenditure of about \$140,000. Action, however, upon the report has been held over by the Saanich Council until the reports on sewerage was ready. They will be taken up together at a special meeting.

The sewerage report will indicate to the Council the disability under which the engineer has been placed by the fact that previous plans existed, and far more by the fact that the intake of the City Northwest sewer at the boundary is fixed, so that drainage considerations had to be directed to bring sewerage to that point.

The area Mr. Milne proposes to drain is 100 acres more than the area figured on by Mr. Johnston when engineer of the municipality, but the mistake he considers entirely rests with Saanich owing to the fact that full data was not placed before the city engineering department at the time when the scheme was originated.

The estimate of \$750,000 was made in 1916, now Mr. Milne's figures show a slight excess. He contemplates the use of vitrified pipe and steel pipe, in order to secure a permanent undertaking. Some tunnelling under railways in the districts will be necessary, entailing a considerable expense.

(Concluded on page 4.)

SIMPKIN FACES MURDER CHARGE

Indictment Against Former Calgary Who Shot New York Physician

New York, April 22.—An indictment against a degree murderer was returned by the grand jury here to-day against Thomas W. Simpkin, formerly of Calgary, Alberta, a printer who shot and killed Dr. James Wright Markoe, a noted surgeon, during last Sunday's service in St. George's Church.

A bench warrant was immediately issued for Simpkin, and he will immediately be transferred from the prison where he is being held to The Tombs. It is expected that he will be arraigned to-morrow.

HAMILTON PARTY TO COME TO VICTORIA

150 Manufacturers and Sales Managers Plan Trade-Boosting Trip

Hamilton, Ont., April 22.—Local manufacturers have laid plans for the biggest made-in-Hamilton advertising project ever launched here. It is proposed to organize a party of 150 manufacturers and sales managers for a trade-boosting trip to Victoria, B. C. The party will travel on a special train which also will include three exhibit cars. Westbound the party will make its first stop at Port Arthur and Fort William. Returning, the made-in-Hamilton train will come by way of Edmonton and Saskatoon.

CZECHO-SLOVAKS TO HAND OVER HOELZ TO THE GERMANS

Berne, April 22.—The Czecho-Slovak authorities stand ready to deliver to Germany possession of Max Hoelz, Saxon Communist bandit who terrorized the Plauen district and who was arrested in Czecho-Slovak territory last week, according to dispatches from Prague.

Discoveries of valuables Hoelz had concealed on his person, the dispatch stated, had caused the Czecho-Slovak authorities to treat Hoelz as a common highwayman.

PARIS WILL BE TIED UP MAY 1

Transportation Systems Will Be Idle During Labor Demonstration

Citizens Speculating As to What Activities Will Be Possible

Paris, April 22.—Just what will work and what service the public will get on May 1, when the labor leaders purpose to have everything except the clock stopped, is still the main topic of discussion in all circles in Paris. The teachers have been instructed by the Government to report duty in all the schools at the customary hour. On the other hand the Vinconces racetrack authorities have decided to abandon the proposed race meeting for that day and a number of other sporting events also have been called off. At present it seems certain that all means of transportation will cease on May Day.

LOOK FOR RELEASE OF R. C. RUSSELL

Winnipeg Labor Men Expect Release of Convicted Striker, Says Midgley

Vancouver, April 22.—A report that R. B. Russell, one of the strike leaders found guilty of unlawful assembly at Winnipeg and now serving a two-years sentence at Stony Mountain penitentiary, is about to be released by the Dominion authorities, has been brought back to this city yesterday by V. B. Midgley, who attended the executive meeting of the One Big Union at Winnipeg.

"We were informed," said Mr. Midgley, "that papers for Russell's release had already been signed, and that he was offered his freedom if he would consent to leave Canada, or to the alternative would agree to cease work in the labor movement and report at intervals to the police authorities. The truth of the statement was unable to verify, but our information was that Russell had declined both offers, preferring to serve his sentence rather than forego his principles. Opinion in labor circles in Winnipeg is that Russell's release may come at any minute."

VANCOUVER BANK CLEARINGS

Vancouver, April 22.—The past week's bank clearings here were \$17,358,995.

AIR BOARD NOW IS REORGANIZED

Hon. Hugh Guthrie Chairman; General Gwatkin and Others Members

Ottawa, April 22.—The Journal this morning announced the re-organization of the Canadian Air Board. Hon. Hugh Guthrie becomes chairman instead of Hon. A. L. Sifton, and the members are Major-General Gwatkin, Colonel O. M. Biggar, Dr. Deville (Surveyor-General) and Commander Honey.

J. A. Wilson, Assistant Deputy Minister of Naval Affairs, is made permanent secretary and will have full charge of the administration of the Board.

To England. Toronto, April 22.—(Canadian Press)—The pay office of the Royal Air Force will cease to exist in Canada on April 30, and will be reopened in England as soon as the records arrive there. The address for all correspondence for the pay officer after that date will be: by-law, The Pay Officer (Canada), Care Central Pay Office, Royal Air Force, Woking, England.

VERNON ADOPTS NEW TAX SCHEME

Vernon, B. C., April 22.—The principal features of the plan which the City Council will follow this year in connection with the collection of tax arrears are the introduction of a new five-year consolidation by-law, the extension of the period to ten years for returned soldiers and the holding of a tax sale in September. It is expected by this means to induce many who were unable to take advantage of the consolidation by-law of last year to accept this plan for spreading the payment of their arrears over a five-year period along with their current taxes. The decision reached was the result of a conference between the Finance Committee and the City Solicitor.

SEVERAL POLES KILLED BY SOVIET PETROGRAD TROOPS

Helsingfors, April 22.—An attack by Soviet troops upon members of the Polish colony in Petrograd who were holding a demonstration in protest against the arrest of the Polish bishop in Petrograd Easter Sunday is reported here. Several Poles were killed or wounded and others were arrested, it is declared.

ST. JULIEN BATTLE IS COMMEMORATED

Ottawa M. P.'s Stand in Silence Two Minutes; Observance in Toronto

Ottawa, April 22.—In commemoration of the Canadian troops, gallant exploiters at St. Julien in 1915, the members of the House of Commons stood for two minutes in silence when the House opened this afternoon.

At Toronto. Toronto, April 22.—(Canadian Press)—Toronto observed St. Julien Day in true patriotic style. Precisely at 11 o'clock all public bodies and commercial establishments suspended business and other operations for a period of two minutes.

Manager R. J. Fleming had arranged for a cessation of all street car service on the Toronto Railway system, and a similar condition prevailed on the civic lines. Incidents of the St. Julien battle were related to all pupils attending the public schools.

ADVISING FARMERS TO PLANT WHEAT

U. S. Department of Agriculture Area Not Reduced

Washington, April 22.—Reports from the Spring wheat regions of the United States of a plan for reduced acreage this year have caused the Department of Agriculture to issue a statement urging farmers to revise their planting plans. Weather conditions and a shortage of farm labor have affected the planting but statistics presented by the Department advise increased production because of the poor condition of the winter crop and continued world demand for wheat. The normal requirements for consumption and export are about 800,000,000 bushels. Of this amount only 482,617,000 bushels are indicated from the winter wheat area this year.

Great Demand. The world demand, it is pointed out, will be as great as usual and none can be expected from Australia because of a poor wheat year, and the disorganized transportation conditions make it improbable that the movement of the 55,000,000 bushels Russia has announced she will have ready for export, will be moved. It is pointed out that the estimated 482,617,000 bushels of winter wheat may be even less because of winter-killed fields and indications that the Hessian fly will be unusually active throughout large areas. The grasshopper menace, the statement also says, is serious in a large part of the great plains belt.

WESTMINSTER CLEARINGS

New Westminster, April 22.—The bank clearings here during the past week were \$787,247.

Troops to Stop Strike Disturbances in Butte

Spokane, April 22.—A detachment of the 21st Infantry left Fort George Wright, near here, early to-day for Butte, Montana, following receipt of orders from Western Department headquarters.

San Francisco, April 22.—Announcement that he had complied with the request of Governor Stewart of Montana that troops be sent to Butte as the result of mine strike disturbances there was made here to-day by Lieut.-General Hunter Liggett, commanding the Western Department of the army. The size of the detachment was left to Major-General John F. Morrison, commanding Camp Lewis, he said.

Man Killed. Butte, Mont., April 22.—Hugh B. Haran, nineteen years old, living at 507 West Copper Street, was shot and killed at the office of The Daily Bulletin early this morning, by Joe Papp, who later was arrested by Lieut. Dwyer and Chief of Detectives Larkin, of the city police force. Haran and Papp were guards who, with other armed men, crowded the newspaper office in expectation of an

Allied Leaders Do Not Invite German Agent to San Remo

Lloyd George and Nitti Suggested Berlin Be Asked to Send Representative But Millerand Convinced Them That Would Be a Mistake.

Paris, April 22.—(Havas)—The San Remo correspondent of The Matin says he has been informed that the propositions of Premiers Nitti and Lloyd George on the question of dealing with Germany culminated in a suggestion that Germany be invited to take part in the conference here to-morrow. However, adds the correspondent, Premier Millerand ultimately convinced the Italian and British Premiers that they were wrong and it was decided to confine discussion of the German problems to the Supreme Council.

The German note requesting a revision of the military clauses of the peace treaty, so that Germany could maintain an army of 200,000 men until general reduction of armaments had been brought about by the League of Nations, has been received by the president of the San Remo conference, the correspondent reports. In British circles it is believed, he states, that the discussion of this note will necessitate a prolongation of the conference.

Supreme Council Deals With the Dardanelles

San Remo, April 22.—(Associated Press)—An official statement issued by the Supreme Council at the close of the morning session says:

"The Supreme Council assembled at 11 o'clock this morning and heard the opinion of military and naval experts on questions regarding the administration of the Dardanelles Straits. The Council approved the insertion of clauses relating to this matter in the Turkish peace treaty.

CAILLAUX FOUND GUILTY IN FRANCE

Had Commerce With Enemy; Charge of High Treason Was Eliminated

Paris, April 22.—Joseph Caillaux, former Premier of France, this evening was found guilty of having had commerce with the enemy by the High Court of the Senate. The vote was 150 to 91.

Conviction on this count might entail imprisonment in a fortress for not more than five years and not less than one year, or banishment. On an earlier vote the Senate eliminated the charges of high treason and intelligence with the enemy. The vote stood 213 to 28. This eliminated the possibility of the death penalty being inflicted.

Coalitionists Are Returned in Two Edinburgh Seats

London, April 22.—(Canadian Press)—Coalition Unionist candidates were to-day declared elected in the North and South Edinburgh seats, the North by-elections took place recently.

British Columbia Indians Speak of Salmon Before Ottawa Committee

Ottawa, April 22.—(Canadian Press)—The high cost of living formed a basis for a vehement argument by the British Columbia Indians to-day before the committee on the proposed amendments to the Indian Act.

"Our Heavenly Father gave us food long before the white man came, by placing salmon in our rivers. Now the white man millionaires, who can afford better food and want to make a little more money, come and take our food away from us," said George Matheson, of Sardis, B. C.

Some Arrested. Indians had been arrested for taking their winter's food supply from the rivers running through their own reserve.

SUGAR CONFERENCE AT WASHINGTON

Washington, April 22.—Sugar refiners were asked to-day by the Department of Justice to come here Monday for a conference to discuss "the general situation affecting sugar supplies and prices."

NICKEL COINS IN CANADA URGED BY A MANITOBA M. P.

Ottawa, April 22.—(Canadian Press)—Use of nickel for the manufacture of small coinage is the idea which J. A. Campbell, The Pas, will suggest to the House on Friday. He urges that the matter be taken up as soon as possible.

SUMMER FETE IS PLANNED BY CHAPTER

Cowichan Chapter of I.O.D.E. Will Hold Even in June at Somenos Residence

Duncan, April 22.—Arrangements have been made and committees appointed to have charge of the various departments at a Summer fete to be held under the auspices of the Cowichan Chapter, I.O.D.E. A sale of work, a play and games will be among the attractions. The fete is to take place towards the end of June at Mrs. G. A. Tisdall's home in Somenos.

The various stalls will represent the different parts of the Empire. Great pains are being taken to make the event a great success.

At the last meeting of the Cowichan Chapter, I.O.D.E., Mrs. Tisdall was appointed delegate to attend the annual general meeting of the Provincial Chapter to be held in Vancouver next week. Twenty-five dollars annually was the amount guaranteed to the District Nurses' fund. More will be given if the society can afford it. Three new members were proposed.

Red Cross.
A reorganization meeting of the North Cowichan Red Cross Branch is to be held on Thursday, April 29, preparatory to undertaking work in connection with the Cowichan Health Centre.

Teachers.
At a meeting of the Cowichan Valley Teachers' Association, the salary schedule was discussed and the whole question was left in abeyance until the provincial executive makes the standard schedule for the Province. Delegates were appointed to attend the war memorial meeting to be held April 30. There was an attendance of twelve members, with the president, A. B. Thorp in the chair.

Cleared \$100.
The girls' branch of the Women's Auxiliary of St. John's Church, Duncan, held a very successful sale of plants, cooked food and needlework and gave a short concert. Over \$100 was cleared for the girls' fund.

WOMEN CONFESSORS SUBJECT OF DEBATE

London, April 22.—Whether the church should provide women confessors is a question with which the Lambeth Conference, a gathering of the clergy of the Church of England, to be held in July, is threatened.

At a meeting of the National Union for Equal Citizenship, Miss Edith Picton-Turberville said letters had been received from girls pleading for women confessors in high Anglican churches.

The Rev. Henry Ross, vicar of a large London parish, in a recent interview said women would not confess to women.

"There is the psychological objection," he said, "that one woman would not trust another to keep a secret."

PRAIRIE PROVINCES AND THEIR RESOURCES

Ottawa, April 22.—It is the intention of the Government to transfer to Alberta, Saskatchewan and Manitoba their natural resources as soon as terms fair and equitable to all the other Provinces of the Dominion can be arranged. This information was given to J. A. Campbell of Nelson, in the House of Commons yesterday. Mr. Campbell was told that it had been the policy of the Government to make the transfer ever since its formation. Parliamentary action was necessary to effect this transfer.

MANITOBA WORKERS TO GET MORE PAY

Fair Wage Board Raises Rates for Men of Building Trades

Winnipeg, April 22.—The Fair Wage Board of Manitoba last night completed its revision of the wages of the workers employed in the building industry. The schedule, which applies to government work, and will be adopted by the city of Winnipeg, the Winnipeg School Board and a number of private concerns, represents an increase over last year's schedule of from twenty to twenty-five per cent. The wages for the following trades were fixed at last night's sitting:

Terrazzo workers, 85 cents per layer, 44-hour week; helpers, 65 cents per hour, fifty-hour week.
Plasterers, \$1.12½ an hour, forty-four-hour week.
Operating engineers, three drum machines, \$1.25 an hour (three drums) fifty-hour week; double drum machines, \$1.12½ an hour, fifty-hour week; single drum machines, \$1 an hour, fifty-hour week.

Firemen, 60 cents an hour, fifty-hour week.
Electrical workers, journeymen and inside wiremen, 92½ cents an hour, forty-four-hour week.

Bridge and structural steel and iron workers, \$1.25 an hour, forty-four-hour week.

Asbestos workers, journeymen, 90 cents an hour; first class improvers, 80 cents; second class, 75 cents, forty-four-hour week.

Asphalters, finishers, 75 cents; men mixing and handling material, 60 cents, forty-four-hour week.

Carpenters, 95 cents an hour, forty-four-hour week.

At Calgary.
Calgary, April 22.—One labor agreement here, that of the Typographical Union, will expire before June 1. This union is making a request for an increase. At present there are no strikes in sight.

Three agreements will expire June 1 and four July 1. Plasterers' laborers on June 1 will ask 75 cents an hour and sheet metal workers will ask \$1, as will electrical workers.

At Regina.
Regina, April 22.—Labor conditions in general here are much more reassuring than a year ago, when a general strike in the building trades was on. This year all the building trades unions have signed agreements at an advance over last year, with the exception of the carpenters, whose agreement will not expire till May 1. They are asking for a union shop and a dollar an hour and the contractors object to the union shop principle. It is considered unlikely there will be any strike. The farm labor situation is regarded as satisfactory.

Mountain Mills.
Nelson, B.C., April 22.—A marked shortage of skilled labor is reported by the lumber mills of the mountains, while common labor is none too plentiful. With sufficient water in the streams now, the period of heavy operation in mining is opening, which will make new demands on the labor supply. The One Big Union is a factor in the district's coal mining, metalliferous mining, and lumbering, but outside of this organization's undoubted power, to cause trouble, the sky is clear, except for the tie-up of railway construction near Princeton.

HUNGARIAN BARONESS COMMITS SUICIDE

Geneva, April 21.—Via London, April 22.—Another tragedy among the aristocratic refugees in Switzerland is reported from Romanshorn. The young Hungarian Baroness Karlenky, after paying her bill at a hotel, took a boat on Lake Constance, accompanied by her two-year-old child. Afterwards both were found drowned in the lake.

A letter which the Baroness had left at the hotel said that Bela Kun, the former Hungarian dictator, had killed her husband in Budapest and confiscated his property.

LABOR RECORD OF 1919 IN BRITAIN

London, April 22.—Rt. Hon. Thomas J. McNamara, Minister of Labor, told the House of Commons yesterday that the strikes and lockouts reported to the Minister of Labor during 1919 aggregated 1,413.

The total number of persons directly or indirectly affected, said the Minister, was 2,580,000.

The aggregate duration of the disputes was 34,430,000 working days, figuring on the basis of individual loss of time.

GERMANY AND AEROPLANES.

Paris, April 22.—The conference of Ambassadors yesterday heard the report of General Mestermann, head of the Allied Commission of Air Control in Germany, on Germany's observance of the air clauses of the Treaty of Versailles.

The conference approved the proposal of the Economic Council for a conference in Paris with the view of restoring the postal, telegraph and telephone services to their pre-war conditions.

T. W. LAWSON FINED.

Boston, April 22.—Thos. W. Lawson and L. C. Van Riper were fined \$1,000 each in municipal court yesterday for violation of the state's law concerning the advertisement of mining stocks. Lawson and Van Riper, together with several curb brokers, were arrested recently in a campaign against illegal advertising of stocks.

COL. BIGGAR RETAINED.

Ottawa, April 22.—Col. Biggar, K. C., has accepted an annual retainer of \$10,000 to act as counsel for the Government. This amount will cover all fees and costs. Hon. C. J. Doherty gave this information to P. C. Casgrain in the House of Commons yesterday afternoon.

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved by "Fruit-a-tives"

Little Bras D'Or, C. B.
"I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-tives.' In a week, the Constipation was corrected and so soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous."

MAJORITY OF OVER FORTY FOR CABINET IN OTTAWA HOUSE

Ottawa, April 22.—The House divided yesterday afternoon on an amendment moved by C. E. Pedlow (South Renfrew) that Mr. Rowell's bill to amend the Food and Drug Act be not read a third time, but that it be referred back to the House in committee for further consideration. The amendment was lost 100 to 57, a majority of 43 for the Government.

The division came after Mr. Rowell had asked the House to vote down the amendment on the grounds that the bill had passed all stages and had been given fullest consideration.

When Adolph Stein, Kamouraska, cast his vote for the amendment, his first vote in the House, he was applauded by the Opposition benches.

Applause from all sides greeted the vote of Sir Sam Hughes, who voted with the Government. It was his first ballot of the session.

The members of the National Progressive Party voted with the Government.

The House proceeded with the third reading of the bill.

BRITISH LABORITES TO VISIT RUSSIA

London, April 22.—The delegation of British Laborites which will go to Russia to investigate the general situation will be composed of three representatives of the Trades Union Congress and four representatives of the Labor Party. The delegation will leave London next Saturday.

The Foreign Office, after receiving San Remo advice that the Allied Council approved of the mission, informed the Laborites that they would be granted passports for Estonia, word having been previously conveyed from Moscow that the party would be acceptable to the Soviet Russian Government.

BRITAIN TO SELL SOME WARSHIPS

London, April 22.—Rt. Hon. Walter Hume Long, First Lord of the Admiralty, replying to a question in the House of Commons yesterday, said the Government contemplated selling some warships to foreign countries. Pending the outcome of negotiations, however, he added, particulars could not be divulged.

VICTORY BONDS.

Ottawa, April 22.—(Canadian Press)—The Minister of Finance told J. H. Sinclair in the House of Commons yesterday afternoon that transactions in Victory Loan bonds are carried out through the Victory Loan special committee at prices fixed from time to time, having regard to demand and supply and existing financial conditions. The main purpose of control by the committee was to insure a sound and steady distribution of bonds.

The export of capital from Canada for the purchase of securities abroad was being discouraged by Canadian banks, stock and bond dealers, etc., on account of adverse exchange rates.

BELGIUM WANTS LOAN.

Brussels, April 22.—The Belgian Government has decided to send a special financial mission to the United States to endeavor to obtain the intervention of Herbert Hoover in favor of a new Belgian loan. It was decided to appoint the mission after the refusal of a new loan by the American syndicate with which Belgium contracted for a mine and one-half per cent. loan under the obligation that she would contract no other loan in the United States without the intervention of this syndicate.

STOMACH AND LIVER TROUBLE

Once the liver fails to filter the poisonous bile from the blood, there is a clogging up and poisoning of the whole system which causes many troubles to arise. Therefore, upon the liver, more than any other organ of the body, depends the general health.

Carelessness and neglect, and oftentimes wilful disregard of nature's laws will put the system out of sorts. The bowels become constipated, the liver inactive and the stomach upset. To bring the system back to its normal state, you should take Milburn's Laxa-Liver Pills. They live up to the liver, get the bowels back to their proper condition and tone up the stomach.

Mrs. G. L. Cackett, Enchant, Alta., writes:—"I have used Milburn's Laxa-Liver Pills and have found them good for both stomach and liver troubles. I have told others about your valuable medicine and they have used them with good results."

"They are also good for headache." Milburn's Laxa-Liver Pills are 25c. a vital at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THIN, NERVOUS PEOPLE NEED BITRO-PHOSPHATE

Guaranteed to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Weak, thin people—men or women—are nearly always nervous wrecks; thus conclusively proving that thinness, weakness, debility and neurasthenia are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear.

Eminent specialists state that the best nerve food is an organic phosphate known among druggists as Bitro-Phosphate, a five-grain tablet of which should be taken with each meal. Being a genuine nerve builder and not a stimulant or habit-forming drug, Bitro-Phosphate can be safely taken by the weakest and most delicate sufferer, and

the results following its use are often simply astonishing.

Weak, tired people regain strength and vigor; thinness and anguished give way to plumpness and curves; sleep returns to the sleepless; confidence and cheerfulness replace debility and gloom; dull eyes become bright, and pale, sunken cheeks regain the pink glow of health. Bitro-Phosphate, the use of which is inexpensive, also wonderfully promotes the assimilation of food, so much so that many people report marked gains of weight in a few weeks.

CAUTION—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

COSTING CANADIANS \$10,000,000; THE NEW PARLIAMENT BUILDINGS

That the new Parliament Buildings in Ottawa would cost about \$10,000,000 was a statement made in the Commons by Hon. J. D. Reid, Acting Minister of Public Works, when asking the House to pass a further appropriation of \$2,000,000 on account. He said that estimates had continued to soar in such a way after the original estimates were made that the final cost would be almost double the first estimate.

DECLARE PENSIONS ARE INADEQUATE

Two Veterans Place Tubercular Patients' Views Before Ottawa Committee

Ottawa, April 22.—(Canadian Press)—Representations of tubercular soldiers were placed before the Committee on Pensions yesterday by J. R. Pyper, St. Agathe des Monts, Que., and L. C. Simmonds, of Fort Chapelle, who urged that the present scale of pensions is inadequate to provide for tubercular men and their dependents. They also requested changes in regulations governing pay and allowances to patients in sanitariums; free issue of clothing to pensioners taking soldiers' civil re-education training; extension of training period; reservation of civil service positions for tubercular men fit to hold them; death, sick and accident insurance to all disabled men; free medical treatment to dependents of tubercular patients while such patients are in sanitariums or while in receipt of total disability pension and several other amendments to the Act.

THREE RESIGN FROM VANCOUVER G.W.V.A.

Whittaker and Two Others of Merville Group Leave Executive

Vancouver, April 22.—Captain C. W. Whittaker, past president; A. F. Walker, vice-president, and W. H. Kirchner, promoter of the Merville settlement and co-operative schemes, have resigned from the executive of the Vancouver branch of the G. W. V. A. The resignations were tendered at a meeting of the executive, and no explanation is given. Captain Whittaker is still president of the provincial command, whose annual convention will take place in about six weeks.

WINNIPEG RAILWAY AND ITS EMPLOYEES

Winnipeg, April 22.—While the Winnipeg Street Railway Company regards the wage proposals of the Street Railwaymen's Union as too extreme for consideration, it has opened negotiations with the union on modified proposals. The company is also quite willing to let the matter go before a board of conciliation under the terms of the agreement of the Joint Council of Industry created under the Manitoba Industrial Disputes Act.

Has Tried Them Has Faith in Them

ERNEST SMITH TALKS OF DODD'S KIDNEY PILLS.

Quebec Man, Grateful for the Benefit He Has Received, Pays Tribute to Dodd's Kidney Pills.

Grand Palais, West Que., April 21.—(Special.)—Mr. Ernest Smith, a highly respected resident here, is one of the many who have abiding faith in Dodd's Kidney Pills as a remedy for sick kidneys.

"I suffered from my kidneys," Mr. Smith says, "and I read that Dodd's Kidney Pills were good, so I tried them. They have helped me so much that I will continue to use them when my kidneys trouble me."

The kidneys require constant attention if good health is to be maintained and serious disease warded off. The kidneys perform a most important work in the human system. They strain all the impurities, all the seeds of disease, out of the blood. When they are weak and unable to do their work the system clogs and sickness is the inevitable result.

Ask your neighbors if Dodd's Kidney Pills are not the best remedy for weak, disordered or diseased kidneys.

CHINA URGED TO SIMPLIFY SYSTEM OF HANDWRITING

Shanghai, April 22.—Chinese of future generations will write in phonetic script and use a typewriter with only thirty-nine characters instead of plying a brush to draw 10,000 or more hieroglyphics if mission workers succeed in an effort they are making to revolutionize handwriting in use in China for more than 4,000 years. The work of the missionaries is at last beginning to receive official sanction, and they entertain hopes that eventually the Chinese brush, ink block and ink tablet will have to go to give place to more modern methods of communicating ideas. Their purpose is not only to simplify China's handwriting system, but to give the country a common tongue to replace the present-day babel which renders even the native who is away from his own home district almost as helpless as a foreigner. The system of phonetic script now urged upon the Chinese was worked out in England in 1903 by Wang Chao. Besides its thirty-nine characters it contains ten numerals. There are no capitals. The Rev. E. G. Tewksbury, of Shanghai, secretary of the China Sunday School Union and a member of the phonetic promotion committee, who has devoted thirty years to teaching in China, has put the new script into use on American typewriters with complete success. For this purpose typewriters with blank faces are obtained from the factories and the characters are cut from these faces here by Chinese engravers. That the Peking Government attaches importance to the effort being made is seen in the following excerpt from a recent mandate issued by the Ministry of Education: "We recognize that because of the difference between our classical and spoken language education in the schools makes slow progress and the keen edge of the spirit of union, both between individuals and in society at large, has thereby been blunted. Moreover, if we do not take prompt steps to make the written and spoken language the same quickly any plans for developing our civilization will surely fail." The best education in the world is that got by struggling to make a living.

REFERENDUM ON LIQUOR IN ONTARIO

Toronto, April 22.—Support of H. McCreary's liquor referendum motion was forthcoming from both sides of the Ontario Legislature when the resolution was debated yesterday afternoon. The only opposition to the measure voiced during the afternoon came from C. G. Halcrow, Labor member for East Hamilton. Three Liberal members pledged themselves to vote for the resolution, as did a number of Government supporters. TO GET HIGHER PAY. Berlin, April 21.—Via London, April 22.—Demands of the railroad postal employees for higher wages will be granted, it is officially announced. 5,000 OUT OF WORK. Not men, but corn that were put out of business last week by Putnam's Corn Extractor. No corn can live if treated by Putnam's. It is safe, painless and sure. Use only Putnam's, 25¢ at all dealers.

"Oh, My! How the Doctor Did Alarm Me When He Said it Was Your Heart"

"WHAT did he say?" "Well, he says that the great majority of people who had the 'flu' have suffered afterwards from weak heart action. "I never had heart trouble." "No, but the way the doctor explains it is that the nervous system is so weakened by the 'flu' that there is not enough nerve force left to drive the machinery of the body." "That is about the way I feel, for I have no appetite, and do not feel able to stir." "No, and you do not seem to digest the little food you do eat. So you cannot expect to gain strength. Why not try some of Dr. Chase's Nerve Food?" "Oh, I do not see how that would help me." "Now, John, I think that is exactly what you need. It always helped me when I got run down in health, and I hear so many saying the same thing that I think you should give it a trial. You know yourself that you are not gaining any these days." "How would that help my heart?" "Because it enriches the blood and increases the nerve force. Anything that strengthens the nerves will naturally strengthen the action of the heart, for the heart, like the stomach and other organs, is dependent on the nervous system for operating power." "Well, you talk as though you knew. I guess your training as a nurse is coming in useful." "Will you try the Nerve Food, then?" "Yes, I will give it a good trial, for I want to get around, and not sit here like an invalid." "I am so glad, for I feel sure it will soon get you feeling all right again." You can obtain Dr. Chase's Nerve Food from all dealers, or Edmansons, Bates & Co., Ltd., Toronto. On every box of the genuine you will find the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

SMITH & CHAMPION THE BETTER VALUE STORE NEAR CITY HALL 1420 DOUGLAS ST.

NO UPRISING IN POMERANIA

London, April 22.—The investigations instituted by the German Minister of Defence, said a wireless message from Berlin last evening, showed there was no danger of a revolution threatening in Pomerania. Recent dispatches reported that the danger of a new uprising against the Ebert Government in Germany had passed, although strict precautionary measures were still being taken. The centre of the trouble was Pomerania, where a grave situation was reported, with rumors of an impending revolt. PRAIRIE SEEDING. Regina, April 22.—Seeding began on several farms in the Regina district yesterday, where rain fell. The snow has all gone, but much land is too soft to permit of farm work. From many points in South and West Saskatchewan, reports have come of seeding operations, but in no part of the Province can it yet be said that seeding is general.

MINERS' UNION IS CALLED ON TO PAY \$300,000 TO COMPANY

Fort Smith, Ark., April 22.—A verdict for \$100,000 actual damages against District No. 26, United Mine Workers of America, and union locals in three Arkansas counties, was returned yesterday afternoon in Federal court here. Under the Sherman Act, the judgment against the defendants will be tripled, to aggregate \$300,000, court officials explained. The mining company operated a mine under an "open shop" policy. A strike was called and in the suit growing out of the strike the company charged conspiracy to destroy its property and business.

HON. A. G. MACKAY ILL IN EDMONTON

Edmonton, April 22.—Hon. A. G. Mackay, Minister of Municipal Affairs and Health, of Alberta, is in a hospital here suffering from a severe attack of bronchitis. Pneumonia is feared. GEDDES AT WORK. Washington, April 22.—Sir Auckland Geddes, the new British Ambassador, was received yesterday by Secretary Colby at the State Department and was accorded the privilege of taking up Embassy matters with the Department in advance of the presentation of his credentials to President Wilson.

PILES Do not suffer another day with itching, bleeding or protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly as you use it. Price 25¢, or Edmansons, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 3¢ stamp to pay postage.

The Hacking Cough Strains the Lungs

The terrible, hacking, lung-wracking cough that sticks to you in spite of everything you have done to get rid of it is a great source of danger to your health, and the longer it is allowed to stick the more serious the menace becomes. You can easily get rid of the cough or cold at its inception by using Dr. Wood's Norway Pine Syrup, a remedy that has been universally used throughout Canada for the past 30 years. Mrs. Samuel Matthews, Portage, P. E. I., writes: "Last winter I caught a heavy cold, and was laid up for some time. I had such a hacking cough I could not sleep at night, and did not think I could ever get over it. One day a friend dropped in to see me, and was surprised to see how bad my cough was. She advised me to use Dr. Wood's Norway Pine Syrup, so the next day I sent for a bottle and soon got relief, and by the time I had taken two bottles, my cough was all gone. I doubt there is anything to equal it." Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; 3 pine trees the trade mark; price 25¢, and 50¢. Manufactured only by The T. Miltburn Co., Limited, Toronto, Ont.

TRADE RELATIONS WITH SOVIET RUSSIA

Washington, April 22.—Negotiations between the State Department and the British Foreign Office concerning the proposed re-opening of trade relations with Soviet Russia are progressing cordially, according to Sir Auckland Geddes, the new British Ambassador here. The question of recognition of the present Government of Russia is entirely apart from these conferences, it was said. It is the purpose of the United States and Britain to arrive at an agreement as to means of expanding the trade already being carried on with Russia through Scandinavian countries, and by way of Finland and Latvia. While the plan to be adopted has not assumed shape, it is regarded as probable that the old license system will be abandoned or so liberalized as to leave but little restraint on the channels of trade.

WAR TROPHIES ARE MADE HARMLESS

Ottawa, April 22.—(Canadian Press)—The Government has a guarantee that all active munitions returned from overseas are properly examined and guaranteed to be harmless before being used for exhibition purposes. This information was given to James Arthurs, of Parry Sound, in the House of Commons yesterday afternoon. Mr. Arthurs asked whether a claim had been made for compensation for the death of Mr. Alves, who was killed at the Parry Sound Fall Fair by the explosion of a trench mortar bomb supposed to be harmless. He was told that such a claim had been made and that the question of making provision for the family of Mr. Alves was under consideration.

HUDSON'S BAY CO. PAGEANT IN CALGARY

Calgary, April 22.—Arrangements were outlined yesterday by a big citizens' committee for the historical pageant on May 13 here in commemoration of the 250th anniversary of the Hudson's Bay Company. About thirty floats, all of an historical character, will be in the pageant, together with many other features. Rich and elaborate costumes are being prepared by the company for the 17th and 18th century floats.

SCIENTISTS WILL MEET IN SEATTLE

Important Body Will Include Visit to Saanich Observatory.

An important party of scientists will visit the Saanich Observatory in the middle of June.

It will be composed of delegates to the fourth annual Pacific Coast division convention of the American Association for the Advancement of Science which will meet at the University of Washington, Seattle, June 17-18-19. Scientists from California, Oregon, Washington, Idaho, Nevada, Montana and British Columbia will attend. C. E. Magnusson, dean of the College of Engineering, is in charge of the committee on arrangements at the university. Last year Pasadena entertained the delegates, over 250 attending. As many or more are expected there this year.

Morning sessions the first two days, Thursday and Friday, June 17 and 18, will be devoted to meetings of the affiliated societies, the Western Society of Naturalists, Pacific Fisheries Society, American Physical Society, Astronomical Society of the Pacific, Coast branch of the Paleontological Society, American Phytopathological Society, San Francisco section of the American Mathematical Society, Seismological Society, American Chemical Society, Cooper Ornithological Club, Ecological Society of America, Society of American Foresters and Research Society.

Delegates from California, Stanford, Oregon, Idaho, Montana, Washington and Southern California universities, California Institute of Technology, Scripps Institute, Oregon Agricultural College, Reed College and Washington State College have been asked to attend the research conferences, which are under the direction of the national research council.

The afternoon and evening meetings will be open to the public, with sessions in Meany and Bagley halls. Headquarters will be established in Home Economics hall.

Preliminary announcement blanks will be off the press this week. Thursday's programme as announced by Dean Magnusson, includes registration, programmes of affiliated societies, a symposium on fisheries, Seattle automobile drives, and welcoming addresses by President Henry Suzzallo and John C. Merriam, dean of the National Research Council. A Sigma Xi-Phi Beta Kappa lecture on Friday evening replaces the welcoming addresses in the second days' programme.

MENTAL SUGGESTION IS BUSINESS ASSET

Scientific Salesmanship Calls For Deft Influence of Buyer's Mind

To a representative gathering of the Real Estate Exchange assembled at a luncheon at the Dominion Hotel yesterday afternoon Dr. T. W. Butler delivered an inspiring address on the power of suggestion in salesmanship, and the workings of the human mind, as learned through a study of psychology. The mind was made up of the conscious or physical, and the subconscious or "soul" of the being, he stated. It was to the conscious mind that the power of suggestion was apt to implant ideas that grew. The average man was quite an easy subject to the fascinating powers of suggestion applied skillfully by a second party. Value of this fact could be made in salesmanship and the whole art of salesmanship was that of deftly offering ideas that would cause the "prospect" to think along the lines required of him. "Mind is the measure of a man," he reminded his hearers, and every act shows the mental status of the being. It was incumbent upon the human being to improve his mind to that point where it would have absolute control over all his actions. Dr. Butler's address was attentively received by the Real Estate men present.

Adler-i-ka Again!

"Adler-i-ka has entirely CURED my constipation. I took ONLY one-half bottle and have not taken any since." (Signed) A. S. Eaton.
Adler-i-ka flushes BOTH upper and lower bowel so completely it often CURES constipation. Relieves ANY CASE gas on stomach or sour stomach. Removes a surprising amount of foul, decaying matter from the alimentary canal (which poisoned stomach for months). Prevents appendicitis. The INSTANT pleasant action of Adler-i-ka astonishes both doctors and patients. It is a mixture of buckthorn, cascara, glycerine and nine other simple ingredients. Hall & Co., Druggists, 702 Yates St. Sold in Esquimalt at Lang's Drug Store.

St. Luke's Silver Tea.—The silver tea held yesterday afternoon by the St. Luke's Women's Auxiliary at the home of Mrs. Wenman, Gordon Head, was a very successful affair. Many residents from the Cordova Bay, Gordon Head and Mount Tolmie districts attended and thoroughly enjoyed the afternoon. The tea arrangements were in the hands of Mrs. Bates, Mrs. Richmond, Miss C. Tolmie, Miss Nichol, Miss Mason and Miss Staveley. The ladies of the church plan to hold a similar tea every month at the home of one of the parishioners. Next month Mrs. C. E. Jones will be the hostess.

Concert at Oaklands Church.—Last evening the members of the Berean Bible Class of the Belmont Methodist Church assisted by several well-known artists gave a very interesting entertainment at the Oaklands Methodist Church. Rev. Robert Wilkin-

C. P. R. and B. C. Electric Watch Inspectors.

Yesterday at noon at St. Mark's Church, Boleskine Road, the rector, Rev. J. W. Flinton, solemnized the marriage of Miss Sybil Bridges, daughter of Mr. and Mrs. Walter Bridges, of Cloverdale Avenue, and James Henry Fielder, of Wilson Street, Victoria West. The bride, who was given away by her father, wore a charming gown of sand georgette crepe with picture hat of blue tulle and she carried a bouquet of pink and white carnations. She was attended by her sister, Mrs. G. V. Jarvis, as matron of honor, who wore blue crepe de chine with a white hat, her bouquet being a spray of pale pink carnations. Mr. Reginald Fielder, brother of the groom, acted as best man. Mrs. F. H. Brake presided at the organ and the service was fully choral. Following the ceremony a luncheon was served at the home of the bride's parents, where the bride and groom received the felicitations of their friends. They were the recipients of many beautiful gifts testifying to their popularity in a big circle of friends. They left on the 2:30 boat for Vancouver, where the honeymoon is being spent, the bride traveling in a smart tulle costume of fawn broadcloth with smart hat en suite. On their return to Victoria Mr. and Mrs. Fielder will reside on Alder Street.

At St. James' Church, yesterday morning the marriage was quietly solemnized by the Rev. H. T. Archbold, of Miss Freda Harmonie Proch, for some time past a member of the Civil Service Commission, and David Williams, one of the Grand Trunk S.S. Prince George. Only a few intimate friends of the young couple witnessed the ceremony. The bride who was given away by Mrs. E. M. Evans, wore a smart navy traveling suit with chic hat to match and carried a bouquet of bridal roses. She was attended by little Miss Geraldine Kenning, an flower girl, and Mr. F. J. Fawcett supported the groom. Following the ceremony a dainty dejeuner was served at the home of Mrs. E. M. Evans, 117 Superior Street, and Mr. and Mrs. Bone left on the 2:30 boat for the Mainland, en route to England, where they will spend their honeymoon, returning in a few months to make their home in Victoria.

Considerable interest is being taken in the bridge-tea to be given at the home of Mrs. Ross Sutherland, Foul Bay Road, to-morrow afternoon, from three to six o'clock. The proceeds will be devoted to the funds of the Victorian Order of Nurses, and non-players who are interested in the Order's work are cordially invited to attend at the tea-hour at 4:30. Players are requested to bring their own playing and score cards. The game will commence at 3 o'clock.

Mrs. Christopher Cator arrived from Vancouver yesterday afternoon, on a visit to her daughters, the Misses Innes and Brownie Bodwell, Rockland Avenue. She will remain in Victoria until after the wedding of Miss Brownie Bodwell to Captain Cudemore, which is to take place at Christ Church Cathedral on Monday next, April 26.

Mrs. Jas. D. Davidson, Queen Ann Hill, Seattle, who has been the guest of Mrs. P. A. Babington, "Alwyn", McClure Street, has returned home after a most enjoyable visit.

Mrs. Macdonald Fahey has arranged to appear in recital at Wesley Church, Vancouver, on May 7, when she will be assisted by the Vancouver Men's Musical Club.

Miss Pitts, of Rockland Avenue, is visiting in Vancouver for a few days, the guest of Mr. and Mrs. J. R. Waghorn.

Mr. and Mrs. Edgar A. Lion, and Miss Josephine Lion, of San Francisco, are guests at the Empress Hotel.

Lieut.-Col. and Mrs. Renard have returned to the city and have taken apartments at The Angela.

Mr. and Mrs. G. H. Douglas and daughters, of Hamilton, Ontario, are staying at the Empress Hotel.

Mr. and Mrs. John Sharples, of Calgary, are registered at the Empress Hotel.

J. M. Robinson, of Naramata, is registered at the Empress Hotel.

A. B. Connell, of Prince Rupert, is a guest at the Empress Hotel.

J. W. Weart, M. P. P., was in the city yesterday.

WOMEN CO-OPERATE WITH CITY TO CARE FOR POOR AND SICK

FRIENDLY HELP UNDER HEALTH DEPARTMENT

Plans whereby the Victorian Order of Nurses, the Anti-Tuberculosis Society, the Friendly Help Association, and the Women's Christian Temperance Union, will be merged with the City Health Department in order that all overlapping in their work may be prevented, was decided upon by the City Council last night. Some scheme which would co-ordinate the efforts of the public organizations, which are working to relieve poverty and distress, has been under consideration by the civic authorities for some time. The plan agreed upon last night, as formulated by a special committee consisting of Alderman Sangster and Alderman Johns, is as follows:

Merging of Bodies.

- (1) The Local Branch of the Victorian Order of Nurses to carry on its work as it is at present doing, also to undertake the nursing of city indigents under the direction of with knowledge of the Medical Health Officer; all such indigent cases with their histories and other notes to be registered in a book or file to be kept at the Health Office.
- (2) The Anti-Tuberculosis Society to be merged into the Local Branch of the Victorian Order of Nurses that is, the nursing of tuberculous patients and the hygienic education of same to be carried on by the nurses of the Victorian Order instead of having a special nurse for this purpose.
- (3) The City to grant adequate subsidy of money for the proper and efficient carrying out of the nursing of indigents and tuberculous patients along these lines.
- (4) The Friendly Help Association to be regularly affiliated with the City Health Department (at present there is co-operation, but this co-operation should be on a regular basis). All cases of indigency requiring food or clothing or other help to be recorded with particulars in a book or file to be kept at the Health Office.
- (5) The Board of Health or City Council to be fully represented in the management of the Local Branch of the Victorian Order of Nurses, the Friendly Help Association and the W.C.T.U. Home, and all matters of finance as well as all other matters connected with such social services to be open for inspection by the City Board of Health.

Indiscriminate Charity.

"This scheme," declared Alderman Sangster, "would do away with a good deal of indiscriminate begging. Many people are going to the Friendly Help and to the Health Office also for assistance."

"Indiscriminate charity is wasteful at times," asserted Alderman Cameron. "It's a question whether it is better to make on the charitable organizations of the city."

"Many people try to get help from me when they are actually getting assistance from the Friendly Help," the Mayor stated. "I never give them any but send all applications to the Friendly Help."

value to the world in the cure and prevention of disease, particularly infectious diseases.

"Japan has already made an enviable record for herself as a pioneer in bacteriological and serum discoveries through such men as Dr. Noguchi and Dr. Kitasato, whose names are immortalized by their work in typhus and diphtheria. The laboratories in the University, supplied with all necessary appliances, added to the experience already gained, will create a center that will eventually be a glory to Japan.

"Japan is fortunate in having a medical expert like Dr. Sato, famous in his own country and an acknowledged worldwide authority. He admitted me to his clinic, where his skillful handling of the patients, although his lecture was in a language I could not translate, enabled me to follow him as he described, diagnosed and prescribed treatment. He lectured to a class of a hundred students and was listened to by none more earnestly than myself.

Patience Secret of Success

"It is the indefatigable patience and persistence of the Japanese physician to delve to the depths of human pathology and drag out the secrets of prevention and cure of disease. I was disappointed in not seeing a woman among the students. American women are admitted to practically all our colleges on equal terms with men, and the custom has proven itself practical. I am extremely sorry that it does not exist in this country.

"The Department of Children's Diseases was most interesting, and I was especially impressed by the methods used in studying the evils of malnutrition of infants, especially the X-ray pictures of the digestive processes in the little stomachs. In the X-ray room was a woman whom I was told was the photographer and a physician, but not a graduate from the University.

"The various rooms and wards maintained the high reputation of Japan for sanitation. There was no crowding, only a few beds were in each room, and there was plenty of ventilation, which is such a helpful and necessary adjunct to hospital work. At each little bed in the children's ward was sitting the mother of the sick child, with the exception of two little tots, who, Dr. Sato said, had no parents.

"The hospital of the College has 549 free beds and 144 beds for paying patients. I could not help but pay a tribute to the national brotherhood of Japan which gives preponderance to the free beds.

"Psychiatry is rather a new study in medical circles and I was impressed by the fact that Japan seems still in the lead in having not only professors in psychiatry but also a ward where students receive practical knowledge of these conditions."

JAPAN'S PROGRESS IN MEDICAL SCIENCE

Oregon Woman Physician Praises Tokyo Imperial University

Discussing the work of the Medical Department of the Tokyo Imperial University, which she visited recently, Dr. Mae H. Cardwell spoke with enthusiasm of the laboratory, declaring that the research work of which the University was the inspiration had been of inestimable value to the world, particularly in the case of infectious diseases.

Dr. Cardwell recently went to Japan on a trip combining pleasure and investigation of the pathological work of Japan's medical men. Particularly interested in public health work and child welfare, Dr. Cardwell has held many appointments connecting her with municipal and national hygiene interests in the United States, says the Japan Advertiser. For several years she was a member of the Board of Health at Portland, Ore.; for four years she served as member of the Oregon State Child Welfare Commission, and until last January, she was the physician to the Oregon Juvenile Court. She was appointed by the U. S. Government as a member of the Child Hygiene Division of the United States Children's Bureau.

Pioneers in Research Work

Speaking of the medical work of the Tokyo Imperial University to a Japan Advertiser representative, Dr. Cardwell remarked:

"I made a visit to the Medical Department of the Tokyo Imperial University, my chief interest being to get a 'close-up' view of their laboratories and research departments. Those of us in America who are interested in pathology read with great interest of the discoveries reported from the medical laboratories of Japan, because this work has been of immense

Financial Plan, Dropped Like Bombshell Among Aldermen, Cuts Tax Rate

Rate Will Be 26 Mills; Debenture Transaction, Kept Secret, Passed Suddenly; Aldermen Claim "Evil Day" Merely Being Postponed; Next Year's Prospects Very Dark.

By slashing the annual estimates to the extent of \$140,000 and putting through a totally unexpected debenture transfer, involving \$117,000, the City Council last night was able to reduce the city tax rate from 26.85 mills to 26 mills.

The rate will be made up as follows: General purposes, 6.60 mills, as against 8.50 mills last year; debt, 10.80 as against 10.75; schools, 8.60 as against 7.60.

Payments Will Be Due July 31.

Announcement by Alderman Sargent, chairman of the Finance Committee, that the reduction in the rate would be possible literally staggered the majority of the aldermen. It had been generally believed that, in view of the enormous increased costs and the failure to get new sources of revenue, that a big rise in the rate would be necessitated. But certain aldermen and City Comptroller Raymur had a financial plan which, by "putting off the evil day"—as Alderman Fullerton described it—would prevent the expected increase.

However, this was kept "dark," first, because the city has been urging the Provincial Government to increase revenue sources and has been pointing its very stringent financial position; and secondly, labor representatives on the Council charge, because they did not wish the possibility of a lower rate to become plain until a ten per cent. increase had been added to civic salaries instead of fifteen per cent., as asked by the employees themselves.

Accordingly, the tax rate by-law came up for discussion, most of the aldermen were amazed when Alderman Todd announced that a twenty-six mill rate would be sufficient to meet current expenses. No one offered any objection and the by-law fixing this rate was passed without comment.

Then, and not until then, was the plan made clear. By that time the whole thing had been decided upon and, while some aldermen claimed that the debenture transfer was simply postponing the time of payment, they raised only feeble opposition. It was generally agreed, however, that the financial situation next year would be far from satisfactory and that, unless the Provincial Government gave the municipalities increased revenue sources, the tax rate would soar to an unprecedented level. It was hoped that, by the time the city has to make good its postponed payments conditions will have improved and the taxation field broadened.

Favored 26 Mill Rate.

Observing the general amazement which his announcement had caused, Alderman Sargent observed, "There may be some surprise at this matter and that we have been able to cut down to a twenty-six mill rate. You will recall that last year's Council practically the same body as the present one, was on record as favoring no rate higher than twenty-five mills. But we thought at that time that we would get substantial relief from the Provincial Government. We have been disappointed to explain our situation by the members of the Finance Committee and appeared before a Commission of which he was chairman. He listened to the statements of the municipalities here and on the mainland. About March 1, however, members of the Finance Committee interviewed the members of the Legislature for the city and we were told that we could get much help. We saw, therefore, that if we were going to have anything like a twenty-five mill rate we would have to help ourselves.

Economy.

"Now there were two ways of doing this—first by economy and second by production on our account. We have followed the line of economy strictly. We could easily have had our annual expenditures higher and most people would have applauded. We have followed the course of wisdom and cut everything as low as possible. To pay for the expenditures specified in our estimates as they stand at the present rate of 27.94 mills would be required, and had we made no last-minute reductions it would have been thirty-one mills.

"However," Alderman Sargent pointed out, "the Council has reduced their estimates \$38,762 and the City Council has reduced its estimates by \$103,702—a total reduction of \$142,464. As I said, if we had to pay for all expenditures out of current revenues, seven after this reduction—the rate would have to be 27.94 mills.

Sell Debentures.

"However," City Comptroller Raymur pointed out to me that in 1913, in order to meet our very stringent financial position, a considerable amount of local improvement work had been done and the money borrowed from general revenue. The adjustment has never been made until the present year. The position now is that \$117,000 from local improvement account has come into general revenue. That money was in such a condition that you would have to sell debentures to get it back. These debentures were for a period of fifty years, and if sold now would have to be sacrificed, as on account of unstable work conditions people are unwilling to take long risks. Therefore, in our Private Bill, we got power to float a ten-year loan. When it expires the original debentures will be ten years nearer maturity. By that time, too, world conditions will be stable.

"This transaction enables us to reduce our levy from 27.94 mills to 26 mills. I claim that 26 mills is the outside we can carry. This city, we must remember, is a residential city and cannot afford to pay the same rate as a commercial city."

Spend Three-Quarters.

Alderman Sargent went on to state that, to cover this year's expenditures and reduce the rate to 26 mills, it would be necessary to sell one-third-quarter of the \$117,000 loan. "The other quarter of that sum," he stated, "will be to the credit of next year's revenue. However, we must

realize that that will be inadequate to keep the tax rate down next year. We must get relief from the Government.

"The Government has publicly announced," Alderman Sargent asserted, "that it intends to spend the country taxes collected in the city. We have mortgaged ourselves to the extent of \$8,000,000 for our streets, and I say that of any revenue collected from them by the motor tax we should get a big share.

"The rate, I must emphasize, cannot be reduced in this way again next year, so that we must have new sources of revenue."

Public Works Act.

"I would like to point out," Alderman Sargent, Chairman of the Streets Committee remarked, "that we have loaned off \$60,000 for public works."

"Yes, the public work of the city," agreed Alderman Todd, "have been pared to the bone. Many people scattered all over the city are not getting absolute necessities in the way of roads and sidewalks, and so forth."

Not Convinced.

Alderman Todd admitted that he had not been aware before of the debenture transaction by which it was proposed to cut down the tax rate. Not having had an opportunity to consider the matter before the whole thing was decided upon he was not prepared to say whether he favored the plan or not. "I am not yet convinced that it's the best thing to do," he said. "I am delighted to find, as a taxpayer of course, that the tax rate is to be reduced. It may tend to give people a false idea about our financial position. It might be better to use this money to make good the shortage in our sinking funds."

"It is quite plain that next year, in response to the demands that undoubtedly will be made by them, we shall have to spend a larger sum on public works and we shall not have the benefit at that time of three-quarters of \$117,000. There will also be at that time taxation to pay for the Johnson Street Bridge—besides added demands from the School Board which requires new schools to do away with congestion. These extra demands, I estimate roughly, will run into about \$250,000. It certainly is not a very pleasing outlook for next year.

"The burden of taxation is increasing by leaps and bounds. The sources of revenue are not increasing to nearly the same extent."

Putting Off Evil Day.

"The fatal day is still facing us in spite of all this warsting," warned Alderman Fullerton. "Some radical steps will have to be taken some time. It is imperative that the Provincial Government do something for us."

"There will be plenty of time to meet these matters when they come due," advised City Comptroller Raymur.

Alderman Fullerton intimated that he was not convinced that it was wise to reduce the tax rate by "putting off the evil day" when the situation would have to be met. He pointed out that the tax rates in other cities in the northwest were far higher than that of Victoria.

Vancouver Tax Rate.

Vancouver, April 21.—The city's tax rate this year will be 31.2-3 mills, with half of the value of improvements exempted. Ratepayers who pay their taxes on time will secure a 10 per cent. discount, the net levy being 28.50 mills. Last year's gross rate was 26.2-3 mills, and the net rate 24 mills.

A film of the fiercest pattern was on the bill of fare at the local cinema. The beautiful fair-haired heroine had been duly bound and cast into a cage with a savage gorilla by the beetle-browed villain. The villain, by the way, in search of revenge.

"Oh, what shall I do? What shall I do?" cried the heroine, as she espied the untamed monster springing towards her. There was a hush among the audience and silence in the orchestra. "Was indeed a fateful moment. Then came the inevitable hint from the audience, breaking the magic spell:

"Pitch him a nut, miss!"

Latest Denim Styles Being Rushed For Neat Dressers

SAFE AND EFFICIENT HOME TREATMENT

Many Weak and Ailing People Who Have Been Helped Strongly Recommend Dr. Williams' Pink Pills.

There is only one way to build up a run down system if the blood is pale and thin. Many diseases are caused by thin blood. Other diseases such as influenza and rheumatism cause the blood to become thin and the wasting effect of these disorders cannot be combated successfully until the blood is restored to its normal condition.

Pallor, nervousness, indigestion, sleeplessness, headaches, as dizzy spells, shortness of breath, palpitation of the heart, these are a few of the symptoms of an anaemic bloodless condition. Some of them are naturally associated with thin blood, but the quickest way to overcome them is to make the blood rich and red.

Dr. Williams' Pink Pills do one thing and do it well. They build up the blood increasing the number of red corpuscles. As this is done the blood becomes a richer red and is able to carry more oxygen, the great supporter of human life. As the blood improves in quality the tissues of the body are better nourished and the functions of the body are better performed. The glands of the stomach are stimulated and the best sign of improvement is usually a better appetite and better digestion.

Dr. Williams' Pink Pills have been used for years as a bloodmaking tonic and system builder with such good results that in every community there are many people who are recommending this remedy to their friends and to others who are afflicted.

Here is the statement of one person among thousands who have used Dr. Williams' Pink Pills to their own great advantage. Mrs. A. Veniot, Hemford, N. S., says: "For about two years I was a great sufferer from indigestion, which seemed to carry with it a complication of other troubles. Every meal I took brought with it misery, as it was followed by pain, and sometimes nausea, and vomiting. At other times gas would form in the stomach to such an extent that my heart would palpitate at an alarming rate. These conditions brought on extreme nervousness and irritability, and I found my general health so much affected, that the least exertion would tire me and I slept but poorly. I had been doctoring for several months, with no result beyond slight temporary relief, when I was advised by a friend to try Dr. Williams' Pink Pills. I decided to follow this advice and got a half a dozen boxes. Good results soon began to show from this treatment, and the further continued use of the pills have made me a well woman. I can cheerfully recommend Dr. Williams' Pink Pills to similar sufferers."

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing, and they do it well. They are an invaluable remedy in diseases arising from bad or deficient blood, as rheumatism, neuralgia; after effects of the grip and fevers. The pills are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate system.

You can get these pills through any dealer in medicines or by mail for 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

styles in overalls have not come through yet.

A Johnson Street merchant, who is probably the largest dealer in the city, announced to-day that the latest styles in overalls will be along before many days. These are of a neat Norfolk design with fancy pockets and a smart waist line. They will be priced as low as \$25.

Buyers of overalls to-day and yesterday expressed themselves as dissatisfied with the variety of quality and styles offered by the stores. Most of the purchasers demand something fancy, but the salesmen have to disappoint them by informing them that the fancy ones have not arrived yet.

Varieties Favored.

One prominent Victorian who has \$50,000 invested in Victory Bonds, bought a \$2 pair of overalls from a Johnson Street merchant early yesterday morning. He took them home and had a look at himself in a mirror. An hour later he was back at the store, where he bought a second pair for \$2.50. He declared that the first pair was not stylish enough.

Natty dressers, dealers explain, are showing a decided preference for the blue and black overalls, although some young men who spend a lot of their time in the society of women demand the rough khaki color. Most returned soldiers, they say, buy only the khaki colored garments.

Factories Rushed. A local clothing factory has turned a battery of its sewing machines to the exclusive production of overalls. The latest pattern, styles and trimmings are being rushed from the East.

The thirty-one clerks and managers of the C. P. R. headquarters on Belleville Street bought overalls at wholesale rates and declare they will wear nothing else.

Officials in the offices of the Court House had a meeting to-day and decided that overalls would be their fashion from now on. The only problem that faces them is whether court clerks will permit of them wearing overalls under their gowns when they appear before the judges. The opinion of the judges is to be obtained at once.

Interest: City Council. F. B. Rattenbury, it was announced to-day, will meet Mayor Porter and the aldermen Friday afternoon to go into the whole question of endeavor to have the mayor and aldermen lead the fashions.

The price of overalls for artisans and those who have to have their work done is not out of sight, now that all the Beau Brummels of the city are taking to them, dealers declare.

Plans to make this the biggest tourist year ever witnessed by the Northwest will be discussed at a meeting of the Northwest Tourist Association in Seattle to-night and to-morrow. Four Victoria members of the Association, Alderman A. E. Todd, J. L. Beckwith, President of the Board of Trade, Joshua Kingham, and James H. Fletcher, left for the Sound City to-day to attend the conference.

The Association's whole plan of campaign for the Summer and Fall will be mapped out by the Association. At to-night's meeting the members will give particular attention to the best methods of extending the present tourist season and so avoiding to the greatest degree possible, the lulls which occur at different periods of the year.

Association members state that, according to all information on the subject available, a larger number of tourists than ever before will visit Oregon, Washington and British Columbia this Summer and Fall. In fact 1920, they declare, will be a record year.

That the entertainment afforded the C. P. R. passenger agents who visited Victoria, will pay handsome dividends is proved by prominent advertisements regarding the beauties and attractions of Victoria inserted by the C. P. R. in such papers as the Los Angeles Times recently. Alderman Todd states that, since the visit of the agents, he has received a number of letters from them highly praising the city and expressing the keenest appreciation of the hospitality tendered them.

SCHOLARS WEAR OVERALLS.

Saskatoon, April 22.—All the boys in the Princess Public School here appeared in overalls this afternoon.

DENY THEY WERE MANOEUVRING TO KEEP DOWN WAGES

Messrs Sargent and Sangster Say Plan passed Last Night Had This in View

Emphatic denial that they had kept "dark" the possibility of a cut in the tax rate with the idea of keeping down civic salaries was voiced to-day by Alderman Sargent, Chairman of the Finance Committee and Alderman Sangster, Chairman of the Streets Committee. They did not, however, deny that members of the Finance Committee had remained silent on the matter when the city was asking the Provincial Government for increased sources of revenue, but they claimed that such action was laudable, and in the best interests of the city.

"We decided long ago that we would give a ten per cent. salary increase," Alderman Sangster protested. "We certainly were not keeping anything dark with the hope that the labor representatives on the Council as is charged, would not press for a bigger increase. To say that we were in any case, surely no one can complain about action that brings down the tax rate—such reduction being most necessary. There is no doubt that with a twenty-six mill rate, we shall collect a far larger amount of revenue than we would with a thirty-one mill rate, which would cause people to let their property lapse into the hands of the city."

"Everything was decided in the Finance Committee long ago," declared Alderman Sargent. "There is absolutely no truth in the charge that we kept things 'dark' in order that the labor representatives would not continue to urge a higher salary increase."

Both aldermen maintained that the majority of the civic employees were satisfied with the ten per cent. increase, as they realized that if more were granted the services of some members of the staff would have to be dispensed with.

"They knew that they must take a ten per cent. raise or that we should have to dismiss some, that's all," said Alderman Sangster.

"It's only a few agitators that are raising this talk about arbitration," declared Alderman Sargent. "Some people would kick in heaven." The aldermen admitted, however, that a ten per cent. increase really was not adequate to meet the high cost of living, but they reiterated that any higher rise would necessitate dismissals.

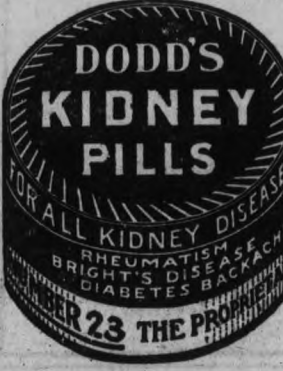

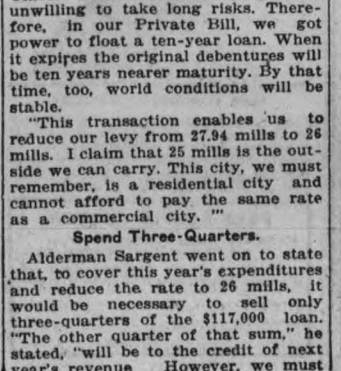

Swollen Joints —backache, rheumatic and sciatic pains, constant headaches, constipation, stone in the bladder, mucus deposits—kidney trouble in all its phases can be efficiently relieved and operations avoided by the timely use of

DODD'S KIDNEY PILLS

THREE IN OVERALLS
Not Much of an Inroad Made at the Parliament Building So Far; Civil Service Association May Act.

Three members of the Provincial Civil Service so far have shot holes in convention by the adoption of overalls as their outer apparel. Mr. Leeming's lead has been followed by Mr. Richards of the Department of the King's Printer, while the office

boy in the same branch was not to be outdone by his elders. Whether or not the movement will gain sufficient impetus to cause the enrolment of the black-coated brigade to any extent remains to be seen. In any case the employees at the Parliament Buildings would create a stir among local denim merchants should the Civil Service Association issue its mandate to "don alls." The Association will discuss the subject to-night.

Headaches From Slight Colds

WANTS DAYLIGHT SAVING.

To the Editor.—The Spring is here, the daylight is being wasted, and nothing seems to be going to be done about daylight saving in British Columbia, although I am told the Eastern Provinces are already enjoying it. Are the selfish objections of the farmers, who have all night been daylight savers, but do not wish anybody else to be going to prevent those who have to work in offices, shops and factories all through the Summer days from having that much-needed extra hour to enjoy themselves in the fresh air?

We were told that the Provincial Government was going to decide this question. Why did they shelve it altogether? Cannot the association who passed resolutions in favor of daylight saving bring pressure to bear on those who appear to be unable to come to a decision, so that we may at least have it in Victoria?

R. UNWIN,
2175 Beaver Street, Victoria, B. C., April 20, 1920.

OVERALLS.

To the Editor.—May I use a small amount of your valuable paper to protest against the activities of those friends of the profiteer who are recently making great efforts to increase the already burdensome price of clothing. When, Sir, will this price-raising cease?

The latest excuse for assisting these vendors of clothing to make even greater profits than they have done in the last few years, is to create an abnormal demand for a supply of overalls. One need not be a university professor to be acquainted with the fact that an increased demand for a commodity always raises the price. One effective way to keep down high prices is to lessen the demand; and here, Sir, we have in this city people who are advocating the almost universal use of overalls. Do they think they are conferring a boon on the poor householder who already finds it difficult enough to make ends meet? What is the result of this demand for overalls by people who are going to use them for adornment rather than utility? The result is this: that the poor down-trodden laborer and the hard-working artisan who really needs overalls is now forced to pay nearly three times as much as he had to pay before these commission agents in disguise started out on their propaganda.

I am also pleased to state that my wife is steadily improving in health and that I expect her to be discharged from the Jubilee Hospital in the course of a day or two.

NEURITIS

For sale at reliable drug-gists for \$1.00 a box.

SOLE AGENTS: 1111 Stearns, Victoria, D. S. Campbell, Port Couillard, W. J. Tucker, Port Moody, Graham Kalish.

Our old clothing last much longer. A fairly conservative estimate of the cost of clothing per individual would be about \$10 a month. If the inhabitants of Victoria would, each and every one of them, make their present clothing last one month longer this would mean an annual saving in expenditure on clothing of at least \$600,000 a year.

Save your clothes, save your money, keep prices down. The laborer is worthy of his overalls.

L. A. GROGAN.

WELSH, PLEASE NOTE!

To the Editor.—Would you kindly allow me space in your valuable paper to apologize to the Welsh residents of Victoria and vicinity for what may appear to them to be my neglect, in not having called a meeting of the Cymrodoriol Society before this.

The fact is that owing to my wife's severe illness for the last five weeks I have been unable to attend to but very little outside of our home affairs; but if the Welsh people will look up the advertisement column of "Coming Events" of this issue, they will find that an early date for the meeting has been fixed, and I hope to meet them one and all at such meeting.

I am also pleased to state that my wife is steadily improving in health and that I expect her to be discharged from the Jubilee Hospital in the course of a day or two.

President of the Cymrodoriol Society, 1904 Davie St., Victoria, B. C. April 20, 1920.

FRESH AIR FUND.

To the Editor.—It is with deep and grateful recognition of how much the Fresh Air Fund owes to friends and sympathizers in distant portions of the Empire that I venture to appeal to your readers once again to help me with it.

Looking backward over the twenty-eight years since the Fresh Air Fund was started I cannot but rejoice at the progress which the organization

has made during that period. I wish I could add that the years which have passed had demonstrated equally the rapid and successful improvement in the lot of the slum child, but reality is so one can pretend for a moment that this is the case. It is a curious irony that during the war perhaps in some instances—decidedly only in small minority—the condition of the slum child was a little better than it had ever been, but I gather from the reports received from our agents and helpers that the present state of the children of the very poor in every large town is as bad as in pre-war days.

In 1918 we provided 1,376 motherless children of soldiers and sailors, and children whose fathers had been killed at the front, with a fortnight's holiday. Last season 1,587 similar little ones benefited, and this year we hope, at the request and with the assistance of the Ministry of Pensions, to give a much larger number of children who come under this category a fortnight's holiday, in addition to our ordinary work.

It will readily be seen that this year the Fresh Air Fund requires more funds than ever, because in addition to the soldiers' orphans whom we intend to include in our programme, the holidays will cost more. Even then the price asked for happiness is absurdly small. One pound provides a fortnight's holiday by the sea or in the country for the most needy and the little ones. Experience gives one child a day's outing in the country. Thirteen pounds defrays the cost of a complete party of 200 little ones for the day with the necessary adult attendants. Donors of this sum can have the party known by whatever name they choose. There could be no better tribute to the memory of a dear one who has made the supreme sacrifice than to bring a day of happiness into the drab lives of poor children.

May I particularly impress upon your readers the fact that the whole of the money subscribed is spent upon the children. All the expenses of the management are borne by the promoters, who are Messrs. G. Arthur Pearson, Ltd., the publishing firm, which I founded thirty years ago, and the Shaftesbury Society.

In the past twenty-eight years the Fresh Air Fund has sent 4,040,547 children to the country for a day's outing, and 53,340 to the sea or country for a fortnight's holiday.

It is easy to record in mere statistics the work accomplished, but who can record or value the results achieved in terms of life, health and happiness? These things cannot be estimated, but they can be imagined.

Subscriptions, however small, will be thankfully received and acknowledged by Mr. Ernest Kessel, Hon. Secretary, P. A. F., 226 St. Portland Street, London, W. 1, England.

ART UR PEARSON.

THE UNIVERSITY QUESTION.

To the Editor.—You are to be congratulated that your able advocacy of the students' university course for Victoria has been so successful as to reach its fruition. There did not seem any valid reason why similar privileges that had already been granted by the McGill University of Montreal should be withheld by our own less pretentious University of British Columbia, unless it was that the Board of Governors or Faculty wished to "hog" all educational advantages for the ambitious city of Vancouver.

It is worth while, however, whilst fully admitting the value of the second year of university work for Victoria and district students, to consider the question of the cost of the same. In cold cash the President of the University suggested the extravagant sum of \$90,000 for the first year. This amount was afterwards whittled down to \$20,000, and later report suggests a more modest sum. It would not be uncharitable to suppose that the big McGill University intended to annihilate the project by making a preposterous proposal, and it would further appear that not only the bona fides of such proposal should be in relation to the economic fitness of the proposer as head of a great educational institution.

I write chiefly to suggest, as the principle is settled and the privilege granted, that the Victoria School Board should place the details of the extension work as to cost before the citizens. There have been disquieting rumors abroad that the institution of the second year course will cost \$10,000 per annum, which is a sufficient sum, added to the present cost of education, to give one pause. Apparently all that is really needed is to detach one of the present High School teachers from his duties in the High School and with a principal or other staff member to assume an equal share of teaching work, carry on the university two-years course until the necessity of a third or more teachers appears. The details of the extension work as to cost are improbable that the students will number fifty, two-thirds of whom are already provided for in the High School, so that \$5,000 additional for the first completed year ending June next should be ample for both equipment and salary.

I understand that the university authorities demand a separate institution, under a distinct head, and disconnected from the High School, as to management, otherwise the sum of \$5,000 might be still further discounted.

With taxes steadily increasing, real estate values falling, costs of maintenance and operation increasing on every hand, it is both just and reasonable that neither frills nor frigidities nor sentiment should interfere with educational enlargement and rigid economic management.

W. MARCHANT.

Auction Sale OF Touring Cars

TOMORROW, Friday, at 2 p.m., at 646 Fisgard St. (HEMINGWAY'S). Every car in good shape and ready for the road. The following makes are included.

FINAL DANCE

Native Sons Completed Their Season With Fine Whirl at Alexandra Club Last Night.

Concluding their season of social entertainments the Native Sons of British Columbia, Post No. 1, held a brilliant dance at the Alexandra Club last night. Over 300 dancers attended, and they voted the dance the most successful of the many similar entertainments which have been staged by the Native Sons during the past winter.

Dancing commenced at 9 o'clock and continued until 2 o'clock this morning. Henton's orchestra provided a very excellent programme of popular dance music. Under the supervision of Percy Payne a splendid supper was served in the cafe.

The committee which arranged the dance and to whom much credit for the success of evening must be given, was composed of the following: R. Hayward, chief factor; P. R. Brown, Jr., vice factor; Walter Miles, secretary-treasurer; H. R. Brown, R. S. Yates, K. Greig, E. J. Hopkins, E. C. McIntyre, P. McQuade, S. Redgrave, A. A. Blythe and P. R. Brown, Jr.

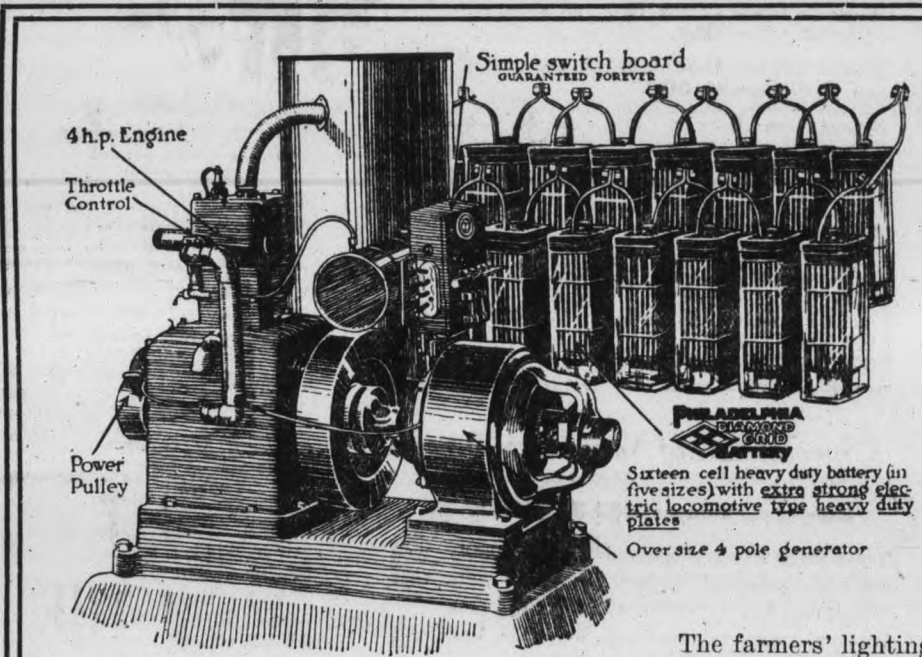

SAM'S POSE FAILS

Court Climbing Photographer Found Guilty of Harboring Collection of Lost Cameras.

The ability Ah Sing showed yesterday of being able to manipulate cameras and climb around the furniture of the court room to get the effective lighting and slant to photograph the immobile features of Ah Sam, did not save Sing from being found guilty by Judge Lampman of keeping a camera which a passenger on the E. & N. Railway had left in a car. This Sing had picked up in his capacity of chief car cleaner during the last fifteen years. Other articles were alleged to be stolen.

Sing was remanded for sentence to next Friday, so that his counsel, W. C. Moresby, may test the right of the court to try Sing at all. John Findlay, of Duncan, identified one of the cameras as the one he had lost on the train. Another has now been identified by a girl stenographer at the Parliament Buildings.

Built By the Farmer-For the Farmer!

For nine years the manufacturers of SWANLITE have been in close touch with the farmer.

The farmers' lighting problems have been Swanlite's problems.

Along with the farmers, they have worked patiently, developing an electric lighting and power plant that would meet the farmers' needs. They have taken farmers' suggestions—made experiments ON THE FARM, studied every little detail of the farmers' work and the farmers' needs.

As the result SWANLITE, the "Three-Way Plant," is to-day's one big, outstanding light and power plant for the farm, because it is

"Built from the farm, in—not from the laboratory, out."

So, when you invest your money in a Swanlite Light and Power Plant you are buying a plant that you can absolutely depend on—day and night—a plant that will do what you want it to do, and when you want it done. And all this at the lowest cost to you.

Note the Swanlite Engine.

Twice as large as ordinary lighting plant engines—fifty per cent. more power—and COSTS NO MORE THAN ORDINARY LIGHT PLANTS.

Twice as many bearings. Vibration and noise are common faults of home lighting plants. Swanlite, with twice the number of bearings, has this fault in mind. More bearings means smoother running, with NO VIBRATION—NO NOISE—runs like a smooth, well-oiled sewing machine.

By all means, don't fail to look up the SWANLITE to-day. Have us show you many other features not found in ordinary electric light plants.

And, with all its smooth, quiet, frictionless running SWANLITE is a big, powerful plant, 4 horse power belt capacity—1½ h.p. generator capacity, and lighting capacity away beyond anything you will need, except, maybe, in extreme emergency.

VOTE MONEY FOR SUPERVISION OF CITY PLAYGROUNDS

But Some Aldermen Feel Children "Pampered Almost to Death"

Victoria's playgrounds will be supervised again this year. After long argument the City Council decided last night to grant \$500 to be spent on supervision during the two months when the public schools are closed. This sum is not nearly as large as was urged by the Victoria and District Recreation Commission, representative of twenty-five public organizations, the commission having asked that five supervisors be employed this year instead of three as last year.

Alderman Andros stated that supervision last year had been satisfactory as far as the girls and small boys had been concerned. The rebellious spirit of the larger boys, he stated, however, had caused them to spurn supervision of their games. "If we can afford it," he said, "it's a good thing—there's no doubt about that."

that some supervision is badly needed." Alderman Johns felt that money used to supervise playgrounds would be well spent. "Our homes," he informed the Council, "are properly supervised, but others are less fortunate and, when the children are not properly looked after at home they should be cared for in the playgrounds."

"Well, then let us supervise the homes," suggested the Mayor, who originated the suggestion to erect a home for delinquent parents, instead of for delinquent children.

Learn Fifth, He Says. "Well, many of the children who go to the parks now," declared Alderman Johns, "learn lots of fifth. Things must be improved."

Alderman Sargent was favorable to the expenditure of \$500 on supervision for a period of two months. "The children should be allowed some freedom during their holidays," declared Alderman Dinsdale. "Let them go where they like, only the smaller boys should be taken care of. A policeman is needed at Central Park, though. There are a lot of rough boys there. A strict policeman is needed."

"We should take a more generous view of these matters," urged Alderman Patrick, who always has been the leading champion of play-ground supervision. "We should look after the children—future citizens of the city. Their training now will decide what kind of citizens they will be later." The Alderman moved, therefore, that \$1,000 be used for supervision this Summer.

"This Recreation Commission claims to have twenty-five organi-

zations behind it," observed Alderman Cameron. "If each member put up a dollar it would pay for the whole business."

"That's the same old argument put up in regard to the municipal golf links," replied Alderman Patrick. "We must remember that these people are paying their share like everybody else in taxes."

Should Be Kept in School. Alderman Sargent felt that supervision was necessary only during the Summer vacation. At all other times during the year, in his opinion, the children should be kept in school and should be far too busy to indulge in outdoor sports. The city was paying enough for schools to expect that the children would be kept in them except for two months in the Summer.

"We always got along before without this supervision," remarked Alderman Cameron. "Why do we need it now? Why don't the parents of these two-year-olds get out and do the supervision for which they are so anxious? I venture to say that not one member of this Council was supervised."

"That's very apparent," said the Mayor. "The people these days are pampered almost to death," asserted Alderman Cameron. Alderman Patrick's proposal that \$1,000 be spent on supervision was favored by the mover himself and Alderman Dewar, Fullerton and Johns, and was lost.

All members of the Council, save Alderman Cameron and Alderman Sangster, then voted for the plan to spend \$500.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" is the thumb-print of genuine Aspirin. It positively identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package. A tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-acetic Ester of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

IN LAND BEYOND ROCK OF ADAMAN MATERIAL EXISTENCE HAS DOUBLE

(Continued from page 1.)

large may be miserably inadequate. Although we have had revealed to us certain things in which we have been instructed by leaders of the race there are many things still hidden from our mental eye. If we could see many of the things of reality we should be overwhelmed as in gazing at the sun.

"No one looking at a solid body would realize that it is composed of atoms, disconnected, detached, infinitesimal. We are constituted of atoms of matter about which there is now a good deal known. They are infinitely small and numerous. How small we do not know. I mention these things to show statements to make. We accept these statements and hardly realize what we are accepting," continued the speaker.

As evidence of the extraordinary facts given to the world by orthodox science, Sir Oliver explained the minuteness of the atom by declaring that in a tumbler of water there were more atoms than there were tumblers of water in the Pacific Ocean. Yet in spite of this incredible minuteness, the scientists had been able to make out the constitution of the atom. They had resolved it into electricity and found that each atom had a positive charge at centre, with negative charges radiating from it in a similar way to the structure of the solar system. The law and order in each atom was the same as in the solar system and in the most distant universe, thus showing that the universe was subject to one dominant mind.

The Dominance of Mind.

"Mind is dominant. We know it. The human mind dominates and produces works of art. They are created in mind and incarnated in matter. The physical side of these things is insignificant. A poem is but a few black marks on a piece of paper. Beethoven's Symphony is merely a few vibrations of the air. The real poem and the real music is in the mind of the spectator and the hearer. I venture to say the same of Divine creation as of the human creation—to perceive it we must have a mind dimly, infinitely kin. Then do not assume that what the senses tell us is ultimate reality. We go far beyond that, and what we realize is that nothing goes out of existence that is real," asserted Sir Oliver.

Matter Indestructible.

"Matter is never destroyed. It merely changes its form. It can be visible as a cloud, but invisible when it becomes aqueous vapor. It has then gone out of our ken, but not out of existence. There is nothing to appeal to the sense at all, and of which we do not know? Is there anything in the physical world which has no appeal to the eye or the ear? Yes, the ether of space. Ether is responsible for cohesion. It welds the atoms together. Without it solids would disintegrate. Every body and every object consists of ether and matter. All kinetic energy is in matter; all static or potential energy is in ether."

What is ether? It conveys light and is the largest object of which we have knowledge. It fills all the interstices; it is responsible for electricity, magnetism, light, cohesion, and we now know that it is responsible for gravitation. Sir Isaac Newton suspected that it was responsible for gravitation when he saw the apple fall to the earth, but he did not know how it was responsible. Nor do we. He explained gravitation in terms of one force, but he could not explain that force.

Recent discoveries by the scientist Einstein, continued Sir Oliver, had made it clear that gravity was an ethereal phenomenon because its relationship with light had been discovered, a discovery made during the war—a rather remarkable discovery in view of the fact that physics during the war had been used only in connection with things "which had been better left alone."

The Denial of Ignorance.

"Einstein connected ether with gravity. His discovery has increased our knowledge of ether. It makes no appeal to the senses yet it is a matter of reality. I never hold with a comprehensive negation of the things we do not understand. It is unsafe for humans to deny anything which is beyond the reach of our senses."

"That great fact has everything to do with survival," was Sir Oliver's introduction to his statement that there is a life after death. "I am going to be dogmatic for the sake of brevity. Just as everything is composed of matter and ether so with our bodies. We have a matter body and a body. Both are dominated by the mind. My material body can be moved by me at my will. As a small makes its shell, so do we make our bodies, unconsciously. When I talk

Survival of Ethereal Body.

"The animated principle which used the material body goes on in the ether body and what we call the spiritual body continues. If this is the case—and I believe it is—that spiritual body would make no appeal to the senses, but it would have gone out of existence, although out of our ken."

Mind dominated both the material and the ether body. In order to prove its existence the mind in the ether body must be able to communicate with us, maintained the lecturer. The "hereafter" aspect of existence could not be substantiated by scientific inquiry, but if it were possible to enter into correspondence with those who had gone through the experience of death, then it might be possible to find these people and plan their lives.

"How can those who have passed beyond the veil communicate with us if they have only bodies of ether? Can they affect our senses? Can they communicate with us other than the senses?" To his own question the scientist said:

"Yes. That is how I came out of scepticism into a long period of waiting good the facts by a long series of experiments, of which the interpretations may differ, but the facts themselves are substantiated," asserted Sir Oliver.

Mind Can Survive Matter.

"Mind can operate on mind apart from the physical senses. There is such a thing as thought transference or telepathy, a fact which most people regard as possible to enter into correspondence with those who had gone through the experience of death, then it might be possible to find these people and plan their lives."

"The remainder of the address was taken up with the reading of messages, from those who had passed from the material to the ethereal state, and the citing of other evidence to prove the force of his contentions. The communications included messages from his son Raymond, and from his wife-long friend Myers, who after working with Sir Oliver in the experiments relating to communication with those who had gone beyond the veil, had himself passed over and had since sent messages to Sir Oliver confirmatory of their joint work."

Man Akin to Divine.

"Through Myers' work the proof has become, to me, conclusive that we can talk with those who have died. I do not expect anyone to accept this from me. All I ask is that you keep an open mind to the possibility of all manner of things which at first sight do not seem possible, and do not appeal to our ordinary senses. Something suggests that a germ of an existence greater than we know exists on the earth—there are larval indications of something higher, as in the caterpillar certain protuberances are larval indications of the wings of a future butterfly existence. We have faculties which can only be explained by the reality that we are not only akin to the animals but to the Divine. The responses of man to a call for help which involves sacrifice—as in the case of those young men who gave their lives in the war—suggests that in each of us there is a germ of an existence greater than we know, something akin to the Divine who made the greatest sacrifice of all. There are grades of existence. Those who have gone through the process of death—for it is only a process, inevitable, and not to be afraid of—have conveyed to us their happiness, their emancipation. I venture to say that however high we go after death, we shall still be able to come down and help those we love. Some of us may be fit for the beatific vision but most of us, if we get there at all, will get there through a process of transition through various grades. Many on the other side are in a state of misery for a time, suffering the most biting remorse for the wrongs they have left here," and Sir Oliver cited the case of a future officer who had communicated from the other side, asking for the remedying of a wrong which Lady Oliver was enabled to correct as a result of his spirit messages to her.

Power of Mother-Love.

Declaring that a medium was not absolutely necessary for communication with the departed, Sir Oliver cited cases to show that an intense mother-love was sometimes strong enough to break through the veil without the receptive faculties of the medium. But a peace of mind, a conscience at rest, quietude and repose were essential factors before communication could be established.

In conclusion Sir Oliver referred to a question that had been put to him, as to whether those on the other side had any power of prediction. In relation to his knowledge of things, every man possessed the power of prediction. By his special knowledge the astronomer could predict eclipses and meteorologists could predict the weather (although it did not always come off). How could the action of a free agent be predicted? If we had the power of prediction in our actions we would be but as machines. That would be error. We had, and we knew we had, the power of choice. Man was free. The question was, how much. Free to act capriciously, without meaning, without character. That would be lunatic, because lunatics behaved thus. The sound and sane man had character; hence a wide knowledge of the person and of his character might make it possible to predict for that person. In that sense only foreknowledge was possible. But foreknowledge was not predestination. There was no such thing as predestination except for machinery.

Wind Shield Wings

Have you ever ridden in a car equipped with wind shield wings? If you have, you must appreciate the worth of this very sensible idea.

We have a big supply of these wind shield wings—sizes and types to fit every make of car. Prices, fitted to auto,

\$22.00, \$25.00, \$27.50.

Thomas Plimley

IF YOU GET IT AT PLIMLEY'S ITS ALRIGHT

Broughton Street Phone 697

TO YOU TO-NIGHT, IT IS MY MIND SPEAKING TO YOURS THROUGH A PHYSICAL MECHANISM. BUT WHAT ABOUT THE ETHER BODY? THE ACTION OF THE MIND UPON OTHER HAS BEEN SUSPECTED. OF OUR MATERIAL AND ETHERAL BODIES, THE FIRST IS TEMPORARY, WHILE THE SECOND IS PERMANENT. THE PROPERTIES OF ETHER ARE PERFECT. IT DISSIPATES NO ENERGY AND NEVER GROWS OLD OR WORN OUT. WHEN THE MATERIAL BODY GROWS OLD AND IS LEFT BEHIND, THE ETHER BODY GOES ON IN A CONTINUOUS EXISTENCE WITHOUT A BREAK," SAID THE SPEAKER WITH CONFIDENCE.

THE TOBACCO with a heart

MACDONALD'S PRINCE OF WALES CHEWING TOBACCO

BIG MOTOR TRUCKS DAMAGED IN CRASH

Two Wood Carrying Trucks in Collision; Street Railway Traffic Delayed

Two large motor-trucks laden with mill-wood were in violent collision at the corner of Gorge Road and Government Street this morning at 7:25 o'clock. One of the cars capsized on to the car tracks and for two hours the Cloverdale street cars had to be diverted from Government to Douglas Street. Both motors were seriously damaged and had to be towed to repair shops. Neither of the drivers suffered any injuries.

A new truck, owned by W. A. Cameron & Brother, and driven by the former, was proceeding along Gorge Road towards this city and another truck, owned by the Chemainus Wood Company and driven by J. C. Lowe, was heading north on Government Street, when the accident occurred. The Chemainus Company's truck struck the rear end of the Cameron truck and pushed it twenty-two feet across the roadway, where it capsize on the car tracks. It was feared that the driver might have become pinned in the cab, but a few seconds later Cameron climbed out. He escaped without a scratch.

Tire Exploded.

When the collision occurred the bumper broke and the crank handle pierced one of the huge pneumatic tires, which exploded. The report was like the firing of a big gun.

By means of a block and tackle the Cameron truck was righted after two hours' work and towed to a garage for repairs. The Cloverdale cars were unable to use the truck while the salvage operations were in progress.

STREET RAILWAY FARES.

Street railway fares are still increasing, according to a compilation made by Aera, the official publication of the American Electric Railway Association. Although 196 of the 273 cities of the country having a population of more than 25,000 now have fares higher than 5 cents, the tendency is toward still higher fares to enable the companies to operate profitably. The figures show that of the 273 cities, 196 have fares higher than 5 cents, 118 fares higher than 6 cents, 64 fares higher than 7 cents, and 34 higher than 8 cents. The situation at present is as follows:

Basic fare of ten cents is charged in twenty-three cities.

Basic fare of 8 cents is charged in fourteen cities.

Basic fare of 7 cents is charged in fifty-eight cities.

Basic fare of 6 cents is charged in seventy-one cities.

Basic fare of 5 cents is charged in eighty-one cities.

CUTICURA HEALS ITCHING ECZEMA

On Little Boy's Face. In Blisters. Lost Sleep.

"My little boy had eczema on his face, and it caused itching and loss of sleep. He began with red blotches, and his face got red, almost like raw beef, and then it broke out in blisters. The blisters broke and caused his face to become sore."

"Then I used Cuticura Soap and Ointment. In a short time all traces of the eczema were gone." (Signed) Mrs. Z. Alexander, Box 35, Trout Creek, Mont., January 21, 1919.

Make Cuticura Soap, Ointment and Talcum your daily toilet preparations. Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Dept. of Hygiene, Limited, St. Paul St., Montreal. Cuticura Soap shaves without razor.

VOTE MONEY TO STAGE BAND CONCERTS

"A city without a band is hardly a city at all," Alderman Andros, Chairman of the Parks Committee, informed the City Council last night while battling to get an appropriation to be used for staging band concerts in the parks this Summer.

Finally, after some argument, the Council decided to lay aside the sum of \$1,000 for this purpose. Aldermen Cameron and Sangster voted against the proposal.

MONTREAL DRUGGIST COMES OUT WITH THE FACTS ABOUT TANLAC

"We Never Had a Medicine in the Store That Gave Such Satisfaction," He Declares

SAW OTHERS RESTORED THEN TOOK IT HIMSELF

Quickly Overcame His Own Troubles After Everything Else Had Failed to Bring Relief

"After my personal experience with the medicine, I do not hesitate to say that Tanlac is the finest tonic and system purifier that was ever handed over a druggist's counter," was the very remarkable statement made by Alphonse LeCavaller, druggist at Dr. LeDuc's drug store, 1653 St. Catherine Street East, Montreal, recently.

"I had had acute indigestion for the last three years and could find nothing to relieve me. After every meal I used to feel as though I had swallowed some hard substance. The gas would form so as to nearly suffocate me and cause my heart to palpitate. I had no appetite whatever and my food seemed to have no flavor. The distress caused by indigestion was especially bad at night and hindered me from sleeping. I was fidgety and nervous, and when at last I did drop off to sleep I would have the most frightful nightmare, and wake up with a start to find myself in a bath of perspiration. My complexion was very sallow, and I got so weak that I felt as though I must give up altogether and go to bed. In fact I was in a complete state of nervous prostration and exhaustion.

"We never had a medicine in the store that sold like Tanlac, or that gave such general satisfaction. So many people who bought it told me that they had been benefited by it that I decided to try it myself. The result exceeded all my expectations, for Tanlac did more for me than any other medicine I ever tried. I now have a splendid appetite and my digestion is perfect. I have the most refreshing sleep at night, undisturbed by nightmare. My complexion is fine and healthy. I have gained several pounds in weight and feel as well and strong as can be. After this I shall take special pleasure in recommending Tanlac, for I now know from personal experience what it will do."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and at Lang's Drug Store, Esquimalt Road.

Stuffy Head Cleared Of Catarrh Germs By "Catarrhazone"

To catarrh victims we have just one word of advice—cure it now. The remedy is "Catarrhazone." That it will cure permanently you cannot doubt. Catarrhazone has cured thousands; it will cure you, too.

It acts in two ways: First, it destroys the germ—that checks the progress of the disease. Its second action is to heal the sore places the germs caused. Nice to think of breathing little drops of healing to every part of the lungs, bronchial tubes and nasal passages. It is such absolute thoroughness that makes Catarrhazone so effective in grippe, catarrh, and colds. Then by its sedative influence upon the mucous surface it clears away the cough and throat tenderness very quickly. We owe something to a science that has given us Catarrhazone—that wonderful remedy which so surely enables us to permanently cure disease of the breathing apparatus. We all know that stomach dosing is useless, and this departure in the mode of treatment is an advance in medical science that everybody can appreciate and value. Complete outfit of Catarrhazone, which is guaranteed to cure any case of catarrh, asthma, bronchial or throat troubles, lasts three months, price \$1.00; smaller size, 50c; trial size, 25c; sold everywhere.

NEW OFFICERS FOR LOCAL AMATEUR BODY

Over 800 Amateur Cards Have Been Issued During Season

George I. Warren was elected president in place of A. C. Hill, who retired, and A. Hinson, 1116 Collinson Street, was elected secretary-treasurer, and C. Hopper, vice-president at the annual meeting of the local board of the Amateur Athletic Union of Canada at the annual meeting held last night at the Knights of Columbus Hut. Dan O'Sullivan, A. Manson and Harry Boyd were chosen for the registration committee.

JOHNSON IN THE RING STEPS LIVELY PACE

San Diego, April 22.—Exhibiting the same style of boxing which characterized his work when he was the world's heavyweight champion, Jack Johnson boxed a four-round exhibition with Ray Neal, of San Diego, at Tijuana yesterday. The former champion showed a heavy waistline, but displayed agility in footwork. At one stage he dropped his hands and invited Neal to punch him in the stomach. The blow apparently had no effect on the negro.

DRAW FOR HOCKEY OPPONENTS TO-DAY

Antwerp, April 22.—Drawings for opponents in the hockey matches, the first competition in the Olympic games of 1920 will be made here this morning, and the teams will meet in the initial games to-morrow night. Seven teams each representing a separate nation are entered, with the Canadian and United States sevens favorites for places in the final round.

MARATHON WINNER WILL RUN AT OLYMPIC GAMES

Boston, April 22.—Peter Trivoulidas, native of Greece, who won the American Marathon road race here Monday, will run at the Olympic games at Antwerp next Summer. Should he not have completed American citizenship requirements he will be sent to carry the colors of Greece.

POULTRYMEN—TAKE NOTICE

A lecture will be given at the Victoria Poultry Association meeting THURSDAY, APRIL 22, on INCUBATING AND BROODING YOUNG CHICKS, by Professor Terry, in the A. O. F. Hall, Broad Street, 8 p. m. All poultrymen are invited.
D. NICOL, Secretary.

SPORTING NEWS

ELKS WILL RETURN TO THE DIAMOND GAME

The Elks will probably have a team in the city baseball league this season. The matter was discussed at an informal meeting of the baseball players and fans, and indications pointed to a welcome return of the Elks to the diamond game. A meeting will be held on Friday night at the Elks Club, Campbell Building, at 8 o'clock, at which all members interested in baseball are asked to attend. Officers will be appointed and final arrangements made to make application at the league meeting on Monday.

SEATTLE GOLFERS ARRIVE FOR GAME

The Main Body Will Be in Victoria on Saturday Morning

Eager for a round on the Oak Bay links before the first half of the Big-game Wilson Cup game is played some of the thirty Seattle golfers, who will represent the Sound City are already in Victoria. Others will arrive to-morrow, and the party will be completed by the Saturday arrivals. Play will start Saturday morning.

As previously mentioned 36 holes will be played on the Victoria club's links and 36 holes will be played later in the season at Seattle. Total points on the two series decides possession of the trophy now held by the Seattle Club.

Although it is always a popular fixture with both the Canadian and United States golfers never before has such a big delegation from the Sound city paid a visit. The Victoria club has to put a player in the field for every competitor the Seattle men chose to field.

The Victoria selection is as follows: Col. A. W. Macdonald, J. A. Rithel, Wilson, A. T. Goward, J. E. Wilson, D. A. Martin, H. G. Wilson, C. A. Boyd, J. F. Matterson, E. D. Todd, on John Hart, P. Criddle, W. P. B. Pemberton, H. M. Redpath, J. E. Wilson, J. S. Hargrave, P. E. Lammiman, T. W. Morris, T. Wise, N. W. P. Rant, A. M. Shaw, Carew Martin, A. Coles, A. P. Luxton, J. A. Hope, A. P. Boulton, John G. Barrett, J. W. Corning, J. A. Ambery and R. W. Gibson.

JIMMY WILDE FINDS ANOTHER EASY VICTIM

Outclassed Battling Murray So Easily That Fight Was Stopped

Camden, N. J., April 22.—Jimmy Wilde, British flyweight champion, so far outclassed Battling Murray, Philadelphia, in their eight-round bout here last night that Commissioner John Smith, of the New Jersey Boxing Commission, stopped the contest in the last round.

Murray had been knocked down three times in the eighth round from short left hooks to the jaw.

He was up without taking the count, but was in such a battered condition that a clear knockout defeat appeared certain when Commissioner Smith interfered thirty seconds before the end of the bout.

Murray's face was covered with blood as a result of a nasty gash over the left eye, caused by a collision with Wilde's head. His nose was also bleeding freely.

Wilde Went Down.

Murray had the honors in the early rounds. He knocked Wilde down with a left hook to the jaw less than a minute after the fight started. Wilde outboxed Murray at long range in the opening round while Murray was trying to slug.

Wilde began showing his true form in the third round when he speeded up his attack with the result that the round was even. He improved in the fourth and fifth, and with the beginning of the sixth cut loose in championship style. Murray made a rally in the seventh, but it did not last long.

Both fighters were below the required weight of 116 pounds. Wilde received \$7,000 for his share of the purse.

SCOTTISH LEAGUE GAMES

London, April 22.—(By Canadian Press)—The results of Scottish League games played yesterday are: Queens Park, 2; Abion, 1; Murray, 0; Kilmaronock, 0; Aberdeen, 3; Dundee, 2; Morton, 0; Hibernians, 1; Rangers, 1.

In the Welsh Association Cup final, Cardiff defeated Wrexham by 2 to 1.

FULTON ENDS FIGHT IN THE SIXTH ROUND

Colored Fighter Sinks Under Blows of Title Aspirant

Portland, Ore., April 22.—Fred Fulton, Minnesota heavyweight boxer, received the decision here last night in the sixth round of his scheduled ten-round bout against Jack Thompson, the Tulsa, Okla., negro, when the latter went down twice, partly from blows and partly from exhaustion.

Joe Gorman, Portland featherweight, knocked out Frank Pete, of Seattle, in the third round.

Johnny Noye, St. Paul lightweight, fought a six-round draw with Muff Gronson, of Portland.

CARPENTIER MAKES HIS UNITED STATES DEBUT NEXT MONTH

New York, April 22.—George Carpentier, champion European heavyweight boxer, will make his first appearance in ring togs in America May 2, when he will box four exhibition rounds here with one of his sparring partners. It was announced to-day. The exhibition will be held in the 71st Regiment Armory for the benefit of a war veterans' building in this city.

WINNIPEG IS AFTER CHAMPIONSHIP GOLF

Will Send Team to Canadian Association Tournament This Summer

Winnipeg, April 22.—With the hope that Winnipeg will be accorded the 1921 championship meet, the Manitoba Golf Association will send a team of 12 or 15 players to the Canadian Golf Association tournament this Summer. This was decided at the annual meeting of the Manitoba body here to-day when officers were elected and preparations made for a very active season. The amateur championships will take place on September 4, 5 and 6, and it is likely that an open championship, when invitations will be issued to some of the best players in America, also will be held.

DEMPSEY IS SIGNED TO FIGHT IN JULY

Chicago, April 22.—Jack Dempsey yesterday signed for his first fight since he won the world's heavyweight championship from Jess Willard at Toledo last July. Manager Jack Kearns came to terms with Floyd Fitzsimmons, Benton Harbor, Michigan, promoter, for a match at the Michigan resort on July 5. Dempsey's opponent will be chosen within ten days. Fitzsimmons already has opened negotiations with Fred Fulton, Billy Miske and Bill Brennan.

Oakland, Cal., April 22.—Jimmy Duffy won a decision over Joe Miller in a four-round bout here last night. Jimmy Darcy defeated Frankie Denny.

Salt Lake, Utah, April 22.—Lee Morrissy, Idaho Falls, Idaho, lightweight, fought a fast six-round draw last night with Tommy O'Brien of Los Angeles. In a scheduled four-round contest Kid Ross, Lusk, Wyo., featherweight, was knocked out in the second round by Willie Wise of Salt Lake.

ASK THAT TAX ON COURSES BE DEFERRED

Impossible For Racing in Ontario Under Conditions, Race Track Men Say

Toronto, April 22.—The Ontario Provincial Government was to-day urged by an influential and representative body of race track men to defer the imposition of the proposed \$10,000 a day provincial tax on provincial race tracks until the Federal Government's decision with regard to the tax on pari-mutuel machines is arrived at.

The basis of the appeal, as outlined by the race track men is that the Federal authorities will impose a tax on the profits which may be derived from the gambling devices installed at the tracks. If the Provincial tax, as proposed, was also added, it was said, it would be impossible for racing in Ontario to continue, either with or without betting.

CON JONES AT OTTAWA FIFTY ASPIRANTS FOR CANADIAN RING CROWN

Ottawa, April 22.—Con Jones, the Pacific Coast sport magnate, was in Ottawa yesterday on his way to the coast. Mr. Jones was in England for several weeks with the object of bringing a professional football team to this country. He was unsuccessful in his endeavor. When he returns to the coast, it is understood that he will organize a lacrosse league.

Ottawa, April 22.—There are nearly fifty entries in the Dominion amateur boxing championships which are to be held here Friday and Saturday night. The list includes Sydney Clements and G. Whitticher, of Calgary. The drawing will take place to-night.

at the Theatre

DOMINION

Contrast has much to do with the exquisite dramatic quality of Cecil B. De Mille's latest Paramount-Artcraft picture, "Male and Female," which is the attraction at the Dominion Theatre this week. Sir James M. Barrie's famous play, "The Admirable Crichton," forms the basis of the story, which relates the thrilling experience of a super-intelligent English butler, Crichton. A mere menial in England, Crichton becomes the man of the hour when his master's yachting party is wrecked on a desert island. He rules the fortunes of the group and wins the heart of his master's beautiful daughter, only to refuse her for a little serving maid. The sumptuousness of the English country home, where the story opens, contrasted with the primitive tropical isle; the magnificent "Lady Mary" and the humble servant, Tweeny, who finally wins Crichton's heart; Crichton, the butler, and Crichton, the monarch,

are excellently brought out by the supreme art of Cecil B. De Mille. It is a lavish, realistic production throughout and will gain new honors for the director extraordinary.

ROYAL VICTORIA

Much has been written about the barriers which keep the aspiring "climber" out of the really first class society in America and much that has been written has been believed. As a matter of fact ability is what makes the society leader, and the leader in turn dictates as to whom are the real members of society. The real leaders now are from families who were obscure a generation or so ago, and the descendants of some of the greatest families of a generation ago are farther outside of society than those who have just decided they want to join the "400."

Here's a Tip.
A most logical and simple way of getting onto the highest rungs of the

social ladder is shown in the first production by Norma Talmadge with her own company for distribution by the First National Exhibitors Circuit entitled "A Daughter of Two Worlds," which will be shown at the Royal Victoria for the last time to-night. Miss Talmadge takes the part of Jennie Malone, the only daughter of one of the most notorious gangsters in New York. The plan devised by her father and a former confidence man, to give her a chance, is simple and logical. There is nothing strange or fantastic in her progress to a point where she is the guest of one of the most exclusive society families and engaged to marry the only son of the house.

In this enviable position Jennie Malone throws it all away in order to see justice done to a youth who has followed the natural progression of a child of the underworld. He has been convicted of murder and while it is within her power to save him, it means giving up her place in society and once more becoming nothing but the daughter of a thugster.

Her decision and the results of it makes the final part of the picture as gripping as in the first part, which tells of her climb up the social ladder, and is interesting. The picture has been hailed by New York critics as being "the best Miss Talmadge has

ever done, and this is saying a great deal, for Miss Talmadge has set a high mark in previous productions.

VARIETY

Maurice Tourneur's latest Paramount-Artcraft production, "The White Heather," scores at the Variety Theatre this week. The story is adapted from the famous Drury Lane melodrama of the same name. The background of this melodrama is divided between the Scotch highlands, the London financial district, the slums and the sea. The narrative chiefly concerns the efforts of an unscrupulous nobleman to repudiate his marriage to a pretty commoner, the only record of the wedding being in the submerged wreck of a yacht. The tale ends in a struggle between the hero and the villain at the bottom of the sea in which both are struggling to obtain the certificate, which is locked in a water-tight chest in the wreckage of the boat. The latest invention of the Williamson Brothers was used by Mr. Tourneur in taking the subsea scenes, and some startling effects were obtained. Photographically, the picture is superb. Many of the exterior scenes brought forth applause from the audience, and the spectators will find genuine thrills in the fight between the villain and the hero on the bottom of the sea. This feature of the production is in itself well worth seeing.

COLUMBIA

The story of "His Wife's Friend," the new Thomas H. Ince production, is narrated by Dorothy Dalton, who is "heavy" in the cast to meet his death by plunging over a high cliff on the rock-bound British coast. In filming the picture, the director, Joseph De Grasse, could not locate such a place in the vicinity of New York City. So he gave the cast a short rest and started on a still hunt. Discouraged by his lack of success on the sandy Jersey shore, he suddenly remembered an old song he used to sing in his school days about "The Stern and Rockbound Coast" where the Pilgrims landed. So he hied himself to New England and at Marblehead, Mass., found an ideal spot on which to "kill" his villain. "His Wife's Friend" is a thrilling picture with a mystery theme and includes in the cast, besides Miss Dalton, Henry Mortimer, Warren Cook, Richard Neal and Paul Caseneuve. It is a Paramount-Artcraft picture and is shown at the Columbia Theatre this week.

ROMANO

Alice Dane taught school in a poverty-stricken fishing village. Being young and beautiful and of gentle birth, she longed for wealth and all the luxuries and pleasures that went with it. So when Sir John Turnbull proposed marriage she accepted and became "A Woman of Pleasure" at last. This is the title of the highly dramatic picture showing at the Romano Theatre to-day. It is Blanche Sweet's newest offering and her first production for Jesse D. Hampton for distribution by Pantages. Shortly after the loveless marriage the action of the story shifts to British South Africa, where Sir John has vast mining interests. There a great and powerful love develops between Lady Turnbull and her husband's mine superintendent. The Zulus have been stealing Sir John's gold and an uprising follows, during which Alice is captured and held as hostage. Her lover comes to the rescue and a just fate, in the guise of the vengeful Zulu chief, removes the obstacle that stands between the happiness of these two.

PANTAGES

There is nothing funnier than J. C. Mack's impersonation of the eccentric old woman in "Mother's Boy," one of the big attractions of the current bill of Pantages vaudeville. In make-up and mannerism, Mack's portrayal is decidedly artistic. He is assisted by a young man who, besides impersonating the silly "boy" in question in a way that superbly matches the Mack role in comedy, sings and dances a few sides.

lights into the offering. The rest of the company is a young woman who is a big assistance in putting over the laughs, and there are a multitude of them in the act. The headline feature this week is a music and dancing spectacle with elaborate stage settings, dazzling costumes and one of the largest casts in vaudeville. The act runs forty-five minutes on the bill and is a big number in every sense of the word.

AT PRINCESS THEATRE

Mr. Hutchison will appear in "General Post," the military comedy which he produced at the Haymarket Theatre, London, where it ran for fourteen consecutive months. The social changes in England, caused by the war, which produced a new standard of social values and gave the obscure man of real merit his opportunity to show what he could do, forms the background for "General Post." Mr. Hutchison will have the leading role as he did in the British production and many of the important artists of the company appearing in "The Luck of the Navy" will present the principal roles of the comedy. Harold E. Terry is its author. The fact that it is produced under the personal direction of Mr. Hutchison himself should leave no doubt as to the quality of the performance.

Miss Dorothy Gish has begun work on her twelfth Paramount-Artcraft production, as yet unnamed. Among the players who will be seen are James Rennie, late leading man with Miss Ruth Chatterton in "Moon-

light and Honeysuckle;" Dorothy Walters, at present appearing in "Irene" in New York; Thomas Black, Harold Wallace, now appearing in "The Acquittal," and Harold Vizard, prominent in the cast of Victor Herbert's "My Golden Girl," now being shown at the Casino, New York.

Council Still Waiting For the Provincial Government to Help

Unless the Provincial Government decides to assist the project materially the prospects of Esquimalt Road being paved this year are not very bright, judging by the remarks of aldermen at the City Council meeting last night. The Council, feeling that temporary repairs to the thoroughfare in the past had been "money thrown away," decided to lop off from its annual estimates \$15,000 originally set aside for this work.

"Repairs to Esquimalt Road," declared Alderman Sargent, "have just been money thrown away each year. Any work done should be of a permanent nature. Moreover, the city should not pave that street out of current revenue. The Government owns the property along the whole length of one side. We should take the matter up at once with the Government, and see what it will give toward the cost of paving the road."

"We are hoping that the Government will put up its share," said Alderman Sangster, Chairman of the Streets Committee. "It would be hardly advisable, I think, to get the property owners along the street to contribute toward the cost on the local improvement plan. They are heavily burdened as it is."

LAW STUDENTS TO PLEAD

Will Stage Trial of Jack Smith Before Judge Lampman in County Court.

Embryo lawyers, for practice before they take up any serious work, are to have a mock trial, but the judge and setting are to be real. The judge will be Judge Lampman of the County Court and the trial will be held in his court room on May 5. All citations must be accurate.

H. Davis and Gordon Cameron are to act for Jack Smith, who is suing the driver of a motor car for crashing his leg when he rushed out to save the child from being run over by the motor. Gordon M. Campbell and Herman Eberts will defend Jack Smith.

H. Davis has been elected president of the Law Students' Society, Gordon Cameron vice-president, and Gordon H. Campbell, secretary.

Steamship Employees Make Fresh Demands

Seamen, Firemen, Quartermasters, Stewards and Deckhands of British Columbia Coastwise Services Negotiating For an Advance in Wages.

With the coming of Spring and the near approach of the busy transportation season the employees of the British Columbia coast steamship companies are beginning to get restless again and are making the customary application for an increase in the monthly stipend.

The presentation of demands for increased remuneration in consideration of services rendered is becoming an annual festival and is described on the waterfront as the "Spring fever." The seamen, firemen, stewards and deck swabbers employed by the C. P. R. are now making application for further increases and certain concessions in the matter of working conditions and a committee representing the firemen on the company's coastwise boats yesterday conferred with Chief Engineer McGowan, and a committee representing the seamen and quartermasters are to-day interviewing Captain C. D. Neroutos, marine superintendent.

Settlement Likely.

There is no talk of a strike and it is hoped that the matter of wages for the coming season will be settled amicably. The present schedule of wages, including of board and berth, which is free, and overtime, is as follows: Deckhands, \$75 per month; quartermasters, \$85 per month; fire-

men, oil, \$80, and coal, \$90 per month, and stewards, \$55 per month. All coastwise steamship companies are affected by the new wage demands.

GOOD SEASON, SAY ALASKA PACKERS

Seattle, April 22.—"Alaska salmon packers expect a good season and are preparing for a big pack," said E. G. McKinnon, general passenger agent of the Admiral Line, who arrived on the steamer Admiral Watson, completing a round trip to Southeastern and Southwestern Alaska, on which he journeyed 4,300 miles. Prospects indicate heavy travel to the North this year, he added.

PRESIDENT ARRIVES.

The steamship President, of the Admiral Line, reached port about 4 o'clock this afternoon from San Francisco.

Better Belting with Efficiency "Built In"

Efficiency is a result—in our belting it is the culmination of thousands of experiments and tests over a belt-building period of fifty years.

The outstanding factor in creating transmission efficiency in our Dominion Friction Surface Belting is our special friction rubber compound with which the entire belt is saturated. This special friction compound gives our belts a pulley-gripping quality that prevents practically all wastage of power through slippage.

Dominion Friction Surface Belting

will transmit all the power that any belt can be made to transmit.

Every ounce of material that goes into Dominion Friction Surface Belting is carefully tested by our experts to make sure that it is up to our high standard.

Each individual operation is checked as the belt proceeds from one machine to the other, and a sample of the finished belt is tested both chemically and physically to prove that it will efficiently serve the purpose for which it was made. This "Built-in Efficiency" is backed by the service of our belting engineers, who are ready to demonstrate its value without charge or obligation.

Phone or wire our nearest service branch.

HOT WATER BOTTLE BRINGS GRIEF TO HONEYMOON COUPLE

Port Angeles, April 22.—A missing hot water bottle caused grief in the family of Economis here yesterday when they returned from a honeymoon trip to Victoria.

When the couple went over to Victoria on the steamer Sol Duc a Canadian customs officer searched their grips. On the top of one was a new hot water bottle. The American Inspector, Luke Falres, of Port Angeles, noticed it. When they returned this noon, Falres inspected their grips and found no hot water bottle. A search of the Economis developed he had filled the bottle with whisky, made a bling out of a towel and fastened it to his back. This much accounted for, Falres turned his attention to Mrs. Economis, who was all twisted out of shape. She had four quart bottles tucked away under her dress.

They are being held awaiting arrival of Court Commissioner Stewart.

TYNDAREUS EASILY PASSED MONTEAGLE

Blue Funnel Liner Left After C. P. O. S. Ship and Boat Her to Port

Easily outstripping the passenger liner Montague on the trans-Pacific voyage, although she left Yokohama nineteen hours after the departure of the C. P. O. S. liner, the British steamship Tyndareus, Captain G. L. Stout, of the Blue Funnel Line, reached this port shortly after daybreak this morning from the Far East.

The liner Montague, according to the latest reports, will make Victoria tomorrow morning. Heavily-laden with Oriental merchandise, the Tyndareus crossed from Yokohama in two days and a half days, and her performance was commended by Captain Stout with the remark that it was "an average passage."

"We left Japan nineteen hours after the Montague and passed her at the meridian," said the skipper of the Blue Funneler, "and it looks as if we have beaten her to port by about the same margin." He expressed the opinion that the Montague must be burning poor coal.

Bright sunshine marked the entire passage of the Tyndareus. "We picked up a wireless from the American steamship West Hill, which was in heavy weather," commented Captain Stout, "but we got the sea and missed the storm."

Six in Cabin. In her cabin accommodation the Tyndareus carried six passengers, and in her steerage quarters she had seventy Chinese. Dr. Fische, of the Chinese consular office, and Mr. and Mrs. Kay, came ashore here, and Mr. and Mrs. Miller and Mr. O'Neill went to Seattle. Sixty-three Chinese were landed here and four Orientals were routed to the United States.

The Tyndareus brought over 11,000 tons both weight and measurement, principally overland cargo. One hundred and twenty tons of freight was consigned to this port.

The Blue Funnel liner reached the dock at 8:50 o'clock this morning, and left about 11 o'clock for Seattle. The arrival of the steamer Sol Duc, carrying Captain Ruger, the Blue Funnel pilot, and the Tyndareus here longer than usual.

SKIPPER OF NIELS NELSON GOES HOME

Capt. D. G. Dietrichson, Who Brought Disabled Ship Here in 1916, Leaves Coast

Captain D. G. Dietrichson, first master of the steamship Niels Nielson, first vessel built by the Skinner & Eddy Corporation, of Seattle, has left for his home at Tunsberg, Norway, after spending three years on this coast. The Niels Nielson was stripped her propeller while bound for Seattle for the Orient in 1916 and was rescued by the tug Golliah as she was drifting towards destruction on the Vancouver Island coast. The rescue was one of the most remarkable in the history of North Pacific shipping and Captain T. Nielson and the officers of the tug Golliah, in recognition of their daring, were rewarded with a purse of gold from the underwriters.

Fun being picked up by the Niels Nielson, the vessel was repaired and the repair contract was promptly completed by Yarrows, Ltd., a special offer being made to permit repairs without having to haul the heavily-laden ship out of the water.

The Niels Nielson was the first of several 8,000-ton ships built by the Skinner & Eddy Corporation for B. Stolt-Nielson, of Haugesund, Norway. The vessel is now operating in the Atlantic trade and was last reported at Norfolk Va. March 1. Captain Dietrichson and his family will cross the Atlantic from New York aboard the Norwegian steamship Bergensford.

RODGERS GETS SHIPS.

Seattle, April 22.—Contracts for five steel oil tankers, each of 8,500 deadweight tons, were awarded to the David Rodgers Shipbuilding and Drydock Company of Seattle by the Anglo-Saxon Petroleum Company of England, according to an announcement by Mr. Rodgers. While the price was not made public, it is said to approximate \$10,000,000. C. Zolner, signed the contracts as representative of the Anglo-Saxon Company. The modern type and construction, it was stated.

Turbine Liner For Holt Trans-Pacific Service

S. S. Achilles, 10,000-Tonner, Under Construction in United Kingdom, Will Augment Blue Funnel Fleet Now Plying Out of This Port.

S.S. Achilles, turbine-driven steamship of 10,000 tons gross and now completing construction in British yards is to be commissioned for the trans-Pacific service of the Blue Funnel Line, according to word reaching here to-day by the steamship Tyndareus.

The new Achilles will be the most modern type of Holt carrier and with the exception of her turbine machinery will be modeled along the same lines as the Tyndareus. The original Achilles was destroyed during the European war.

It was intimated on the Tyndareus that the Achilles will be sent out to the Pacific to augment the present fleet, which means that the company does not consider the immediate withdrawal of any of the vessels now comprising the fleet on this ocean.

More Ships Likely. There are rumors afloat that the Blue Funnel Line may operate six liners on the Hongkong-British Columbia-Puget Sound route as soon as the tonnage is available.

It is expected that the Achilles will be ready for commission this year and the new vessel will immediately be placed in the trans-Pacific trade.

CAPTAIN G. L. STOUT LEAVING TYNDAREUS

Is Being Relieved This Voyage and Will Return to the United Kingdom

Capt. G. L. Stout, one of the veterans of the Blue Funnel trans-Pacific service, is leaving the liner Tyndareus this voyage and will return to England by the overland route.

Excepting the voyages made to other parts of the world during the war, Capt. Stout has been on the Pacific route for many years, and is one of the most popular officers in the service. Skippers and officers of the Blue Funnel Line on the trans-Pacific route have an agreement with their employers to be relieved after a certain period of service. Even Blue Funnel skippers have a craving to see their homes and families occasionally and as the trans-Pacific route for the company is confined between Hongkong and this coast, it is necessary that relief be sent out at intervals to permit the officers to ply out of a United Kingdom port.

Capt. Stout had his kit all packed when he arrived here, and he intimated to his friends at the wharf that he will waste no time in making connections with an overland express once he is in a position to turn his charge over to a new commander.

Holiday Is Due. In November, 1918, Capt. Stout left Liverpool on a five-weeks' voyage to Baltimore. His aboard had suggested that he take a holiday as it was coming to him, but he declined as he wanted to enjoy his furlough in the summer time. When his ship got out to sea a wireless message was received ordering him to proceed to New York to load for the Far East. That was sixteen months ago, but the captain is now getting his well-earned vacation.

It is not yet known who will succeed Capt. Stout to the command of the Tyndareus. He has been informed by the Liverpool office that a relief skipper is on his way out to the coast. On the completion of the last inward voyage of the Blue Funnel liner Proteus, Capt. Jimmy Reed left that vessel to go home, and was replaced by Capt. Mansel.

Capt. W. Inkster, of the liner Ixion, is due to return to England on the completion of his next voyage.

It was stated on the Tyndareus that William Black, well-known in this trade, will shortly return to the trans-Pacific route.

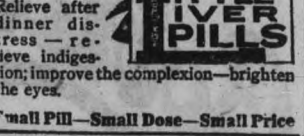

VESSLS' MOVEMENTS

- New York, April 21.—Arrived: Str. Pochontas, from Antwerp.
- Genoa, April 21.—Arrived: Str. Italia, from New York.
- Antwerp, April 21.—Arrived: Str. War Pilot, from St. John, N. B.

CARTER'S LITTLE LIVER PILLS rarely fail. Fully vegetable—act surely but gently on the liver.

Relieve after dinner distress—relieve indigestion; improve the complexion—brighten the eyes.

Small Pill—Small Dose—Small Price

EDUCATION MINISTER SWORN THIS MORNING

Dr. MacLean Now Officially Presides Over Education Department

Under the Constitution Act as amended at the recent session of the Legislature the Province of British Columbia now possesses a Minister of Education, and the Hon. J. D. MacLean took the oath of office in the presence of His Honor the Lieutenant-Governor this morning. The portfolio of Provincial Secretary and that of Minister of Education, therefore, will be held by Dr. MacLean officially from now on.

The conclusion of this formality does not in any way affect the Cabinet as at present constituted. It simply means that Dr. MacLean will hold the two portfolios. Nor does the official recognition of the Department of Education's presiding Minister involve any increase in his stipendiary emolument.

Hitherto it will be recalled the Department of Education has been more in the nature of a side line in so far as its official status in the public service was concerned, its activities having been prescribed under the act of the Provincial Secretary's Department. The amendment to the Constitution Act, however, was introduced to and passed by the Legislature to cure the obvious anomaly.

From time to time Ministers have been added to the Cabinet of the various Governments of the Province and have taken the designation of Minister of Education. The first Minister to accept the role was Colonel James Baker, who was appointed Minister of Education and Immigration on May 28, 1892. Never since British Columbia's entrance to confederation, however, has the portfolio been provided for in the Constitution until the recent amendment which now admits Dr. MacLean.

TRACES OF DISASTER WERE FOUND AFLOAT

Disabled S.S. William O'Brien Supposed to Have Foundered Off New York

Boston, April 22.—The coastguard vessel Acushnet, which has been searching for the disabled steamer William O'Brien reported today by wireless that she had found the sea covered with fuel oil and a name board of the steamer drifting about 500 miles east of New York. An empty lifeboat from the William O'Brien was picked up Tuesday.

The steamer left New York for Rotterdam with coal April 15. The cutter will remain in the vicinity looking for possible survivors in small boats.

PATRICIA'S SCHEDULE. Early next month the C. P. R. steamship Patricia will resume the double-daily service between Vancouver and Nanaimo. The schedule will be announced in the near future.

SPRING BUILDING BOOM UNDER WAY

Demand For Stores and Houses Finds Supply Inadequate

Victoria's Spring building boom which has been swelling up for the last week or two got away to a flying start to-day, when W. H. Dougan called for tenders for the erection of a two-story shop and office building on the East side of Douglas Street between Pandora Avenue and Johnson Street.

The building will cover a frontage of 60 feet, and will replace two wooden structures now occupied by a candy store and a second-hand furniture emporium. Contractors are now busy figuring out the cost of the building, as Mr. Dougan wants to get it under way as soon as possible. He believes it will prove a highly remunerative investment because of the importance that the part of Douglas Street is assuming.

Across the road Mayor Porter has just completed his new building. The two store spaces were rented immediately.

Everything Taken. Workmen started yesterday tearing out the main floor of the Oddfellows' Block at Johnson and Douglas Streets. A departmental drug store, taking the space of three ordinary stores is to occupy the place.

With the new Dougan building there will not be a vacant lot or a wooden structure left on either side of Douglas Street from Fort north to the City Hall. Every property is occupied and lately there has been quite a rush to get Douglas Street business accommodation.

Workers started yesterday remodeling the two-story Moody Block at Yates and Broad Streets. The whole of the ground floor runnng along both streets is to be converted into a privately operated public fresh produce market that will be open every day of the week.

Shaping Up for Record. If the Dougan building permit goes through by next week, this month will have the record of carrying about the biggest load of building permits since the early days of the war. Owners of property who have been holding off because of the high price of building material and labor are now beginning to enter the market, as they are becoming convinced that there is nothing to be gained by holding off longer.

The demand for houses and other buildings is becoming so keen and so rapid that there are big profits to be made in building at this time.

Big Increase Already. Building permits so far this year are 200 to 800 per cent. over the figures for the first three months of last year. The figures are:

January	1919	1920
February	\$18,725	\$35,725
March	10,100	78,582
April	22,700	67,794

New construction undertaken during the last week including a \$4,000 Oriental bath in the basement of the Sayward Building for Eribly's, a \$2,000 concrete and cement sun-room as an addition to the J. A. Rithet residence at Rockland Avenue and Moss Street, a \$3,500 dwelling for A. L. S. Emsley at 971 Bank Street, house costing \$2,500 for Mrs. Keappet at 3005 Scott Street, a brick store at 916 Pandora Avenue, for the B. C. Investment Agency, a concrete office for the Producers' Rock and Gravel Co., on Store Street, a \$1,500 residence addition for Moss Street, at 2128 Belmont Avenue, and concrete improvements amounting to \$1,850 for Mrs. I. Turner at 131 Olive Street.

REPLACING TAG DAYS. Proprietors of Criterion Cabaret to Help Out Charitable and Patriotic Bodies.

In order to provide a source of revenue for many of the local patriotic, charitable and ex-service organizations which have sadly felt the loss of their "tag-days," Louis Clazen and William Watson, proprietors of the Criterion Cabaret, are throwing open the doors of their establishment. This pair of enterprising young men are prepared to make the disposal of any worthy organization the cabaret on either Monday, Tuesday or Wednesday evening of each week.

The scheme which they have worked out will be of great assistance to these organizations in recouping their finances. The proprietors will assign nights as required by these bodies, and allow them to sell 180 tickets, the capacity of the cabaret, at 50 cents each. The proceeds amounting to \$90, will be presented to the society.

Already a number of organizations are making plans to take advantage of this philanthropic offer. On Wednesday evening the Ladies' Auxiliary of the Army and Navy Veterans will arrange an entertainment.

A JAR THAT JARRED. Biffkins looked glum. He shuddered every now and then, and covered his eyes with his hands, as though hurt.

"What's up with you?" asked some one. "My wife got a terrible jar at a sale yesterday," said Biffkins and his lip trembled. "How'd that happen?" asked his friend, very concerned. "She was told," said Biffkins, "that it was the latest thing in vogue."

TENDER GUMS A WARNING

Beware of gum tenderness that warns of Pyorrhea. Four out of five people over forty have Pyorrhea—many under forty also. Loosening teeth indicate Pyorrhea. Bleeding gums, too. Remember—these are named, bleeding gums act as so many doorways for disease germs to enter the system—inflicting the joints or tonsils—causing other ailments.

FORHAN'S FOR THE GUMS

Forhan's positively prevents Pyorrhea, if used in time and used consistently. As it hardens the gums the teeth become firm. Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean.

**HUNDRED FLOATS IN
EMPIRE DAY PAGEANT**

Long Parade of Motor Cars
Decorated With Broom;
Committees Struck

According to an announcement made by C. H. French, Manager of the Hudson's Bay Company, at a special meeting of the general committee which is arranging the Empire Day pageant yesterday, there will be about 100 floats in the parade, and it is expected that line of private motor cars decorated with broom, will stretch for over a mile. The representatives heartily concurred in Mr. French's optimistic statement that this would be without doubt the greatest pageant ever held in the history of Victoria.

Mr. French outlined the programme which had been arranged. The parade will commence at 11 o'clock, and continue until 1 o'clock. Between 3 and 4 o'clock in the afternoon the grand Indian gala will be held at the Gorge. Arrangements are being made to bring between 300 and 600 Indians from Washington and points up the Island as far as Nanaimo. Following the sports a band concert will be held in the B. C. Electric park. At 6 o'clock a banquet will be held at the Empress Hotel, at which Sir Robert Kindersley will be the guest of honor. Between 8 and 9 o'clock there will be a brilliant display of fireworks from scows in the harbor, and at 10 o'clock a grand ball will be held in the Empress Hotel.

Governor's Programme.

Mr. French stated that Sir Robert Kindersley would arrive here May 20, accompanied by a party of about twenty-five. He will be received at Government House. On Friday Sir Robert will be the guest of the Canadian Club at a luncheon at the Empress Hotel. In the afternoon the party will take in the Triangle tour, and dine at the Brentwood Hotel. On Saturday it is expected that the motor races will be held, at which the party will be guests. On Sunday Sir Robert will be the guest of Mr. and Mrs. R. P. Butchart, and will be shown over the gardens, and have dinner there.

The various committees which will assist Mr. French in arranging the pageant, were struck. They are as follows:

School Children—To arrange for their participation: Major Riddell, Harry Charlesworth, J. M. Campbell, H. Cunningham, Miss Williams.

Floats—To solicit and hurry up completion, also to act as censors: Mrs. Churchill, Mrs. Curtis Sampson, C. T. Cross, H. Beckwith and F. McGregor.

Parade—To arrange order and see that the vehicles line up promptly: Geo. Warren, Bob Webb and J. Burgess.

Indian Sports—To arrange programme and for Indian attendance and entertainment: W. H. Davies, W. E. Ditchburn, Chief Cooper and Chief William Robert.

Fireworks—To arrange and decide programme: Geo. McGregor and J. O. Cameron.

Bands—To arrange for as many as possible: A. J. Purser, F. Killum and Frank J. Sehl.

Decorations of city streets and store windows: Gordon Jameson, Dr. Kelly, Emmet E. Ewers and Eves.

Reception—To arrange tea, reception and triangle tour: Mayor Porter, J. L. Beckwith, John Cochrane, J. Carl Pendray and Mrs. Jenkins.

Automobiles—Provide transport to Government House, 4 p. m., Thursday, to automobile races, Saturday, Butchart's Sunday; cars for old-timers, governor and Lieutenant-Governor in parade: Capt. Troup, G. D. Christie, Tom Plimley, H. A. Davie, Ed. Tomlin and J. Hunter.

Ball—To handle tickets, orchestra, introductions and supper: Herbert Kent, Wallace Terry, J. H. Beatty and Gordon Smith.

Banquet—To arrange tickets, usher, programme, orchestra: Jack Scott, J. Kingham, M. Graham and E. J. Down.

Characters—To engage characters, Indian horses, fancy horses: C. B. Jones, McCleave, Chief Cooper and Alderman Sangster.

Foot Parade—Navy League, Boy Scouts, etc.: H. T. Ravenhill, H. J. Young and C. F. Dawson.

Old-timers—To select and make all arrangements for cars: J. Forsyth and Edgar Pawcett.

Private Cars—Decorations, urge public to participate and offer prize: J. G. Thomson, Percy Abell, P. B. Scourrah, Percy Brown, Jr., and Alderman Andros.

Judges for Private Car Decorations—Frank Higgins, Mrs. Curtis Sampson and Alderman Patrick.

**Chiclets Win-New Friends
by New Fruit Flavor**

THE tremendous sales of Chiclets throughout the length and breadth of Canada have brought a demand for Chiclet daintiness in a new flavor--Fruit Flavor.

To the thousands who prefer Chiclets to any other form of chewing gum and Fruit to any other flavor, we are happy to announce the production of dainty, candy-coated Chiclets with Adams delicious fruit flavor.

We are sure that this new product will meet with quite as enthusiastic a reception and will be as "Really Delightful" as its aristocratic companion, the peppermint Chiclet.

The new fruit flavor Chiclet will be sold in a pink packet, identical except in color with the original Chiclet packet.

—an Adams product, particularly prepared
The Original Candy-Coated Gum

Canadian Chewing Gum Co., Limited, Toronto, Winnipeg, Vancouver.

MUTT AND JEFF

JEFF, THERE'S JOE SPINNING IN THE PARK. CHASE OVER AND GET HIM AND WE'LL HAVE A THREE-HANDED GAME OF POKER.

SURE!

I'LL SIT ON THIS SIDE OF THE TABLE! IT'S MY LUCKY OLD SEAT!

WHY, WHERE'S JOE?

I EXTENDED A VERY CORDIAL INVITATION TO HIM BUT HE WOULDN'T COME. HE DOESN'T WANT TO PLAY POKER FOR SEVERAL REASONS.

WHAT ARE HIS REASONS FOR REFUSING TO JOIN US IN A QUIET GAME?

M-M! LET ME SEE! OH YES! HIS FIRST REASON WAS THAT HE HAD NO MONEY—AND

NEVER MIND THE OTHER!

TEE HEE!

UTILIZE TIMES WANT ADS

FAIL AGAIN TO GET HIGHER INCREASES

Labor Members of Council Defeated in Last Attempt to Help Employees

Labor representatives failed again last night to persuade the City Council to increase the ten per cent. raise which it has decided to give all civic employees receiving less than \$150 a month.

Pros and Cons.

Alderman Fullerton warned the Council against the possibility of an investigation into civic salaries like that held in 1918. "It took more money to pay for that investigation," he said, "than the sum involved in the increases asked at that time. I understand that by a new amendment to the Industrial Disputes Investigation Act it is possible for the Minister of Labor to allow a board of arbitration to investigate wages without the consent of a corporate body."

"That doesn't apply to municipalities," objected Alderman Sangster. "I am informed, on the contrary that it does," replied Alderman Fullerton. "We don't want any more trouble."

"Why look for it then?" demanded Alderman Andros.

"Well, the employees say they will ask for a board of conciliation," replied Alderman Fullerton.

"I don't think you'll see a man go out," declared Alderman Sargeant. "They would be foolish if they did."

"We said that before, with results about which you all know," Alderman Fullerton observed.

"Things are different now," observed Alderman Dinsdale.

Alderman Sangster recalled that he had moved the original motion, during a secret session, that a ten per cent. increase be allowed. He was prepared to move it again, if necessary.

When the motion granting the ten per cent. increase was put, Alderman Dewar (Labor) alone opposed it.

Kept "Dark."

The alderman who fought for an increase stated afterwards that it would be useless for them to bring the question up again when the estimates were finally passed upon, as they realized that they were hopelessly outnumbered.

When these aldermen found later on in the evening that the tax rate was not going to be raised, in spite of all statements to the contrary, they were not a little indignant that they had not been informed of the true state of affairs when the question of civic salaries was under consideration. They declared that aldermen who have charge of the financial business of the city had kept "dark" and had let it be known that a raise was likely, in order that the move for higher salaries would not be pressed. They had waited, these aldermen charged, until the salary question had been disposed of to explain how, by postponing the "evil day," the rate could be cut this year.

CUT APPROPRIATION FOR TRAILS IN CITY

The annual appropriation for the laying of trails in the city was reduced from \$47,000 to \$40,000 by the City Council last night.

Those trails are badly needed," Mayor Porter protested.

"Yes, far worse needed than a technical school," agreed Alderman Sangster, who has been fighting the School Board's annual estimates.

"Yes, there's something in that," agreed His Worship, but the majority favored a reduction.

VANCOUVER CRITIC ON GREEN STOCKINGS

Amusing Play to Be Given Here in Aid of Jubilee Hospital

The following tribute from "Lucian," the gifted contributor of the "Week End Column" in The Vancouver Province, is of interest as a testimony to the high standard of the work of the Players' Club of the University of B. C., which is to appear in the amusing comedy of English life, "Green Stockings" on April 29 at the Royal Victoria Theatre.

"The brilliant and unfamiliar talents in taking the liberty of congratulating the University, the Players' Club, and the performers on their presentation of 'Green Stockings.' The brilliant acting of the two ladies who had the most conspicuous parts, has been recognized in the press, and the critics are unanimous in commending all the performers whose share was less spectacular. Agreeing with all this I would like to say a word of recognition of the work of the whole club. The clever performers need no praise from me for their cleverness, and this was not the gift of the University. But something is due the University for encouraging these incidental literary efforts, and to Prof. Wood and the students for their uncommonly good preparation. This play must have been exceedingly well studied and carefully rehearsed. To one in the audience it did not appear that any performer forgot anything, or any slip in the machinery caused confusion or embarrassment.

"These amateurs seemed to me to play their parts with the certainty and self-possession of professionals. They appeared to be word perfect, and if a paper was dropped it fell at the right time and place, and all the coincidences perfectly coincided. Those who had minor parts played them with conscientious care and with the suggestions of reserve power that left the impression that they would not fail under greater demands. Let it be admitted that the performers were not Margaret Anglin; yet they need not have been ashamed to have that actress watch their performance."
