PREFACE.

L302
V8 H3

In offering the Virginia Teachers' Directory to the public, the *Author* feels called upon to explain the mission of the book and the cause leading to its publication.

Each year there are numerous calls from all parts of the country for the names and addresses of the teachers of Virginia, and almost as many calls as are made, are unanswered, not because the recipients of these letters are unwilling to respond, but because it is the next thing to impossible to comply with all such requests.

These requests are invariably addressed to the Superintendent of Public Instruction, the City or County Superintendent. If these gentlemen were to answer all such requests, they would have but little time to devote to official duty. When these letters remain unanswered, the writers become irate and censure the Superintendent, never stopping to think that his missive was only one of the many similar letters received by the school officers.

Hence in order to relieve the Superintendents and at the same time supply this felt need, the Virginia Teachers' Directory goes forth on its mission.

The Author is very grateful to the Superintendent of Public Instruction, City and County Superintendents for their aid in compiling the Directory.

Reliance, Va., Feb. 1, 1900.
