

OCT 11 2011

David Cole  
[REDACTED]

Dear Mr. Cole,

This letter serves as the final response to your August 24, 2011, Freedom of Information Act (FOIA) request #11-218, to the National Institute of Standards and Technology (NIST) for a copy of the following:

“Please provide either the 1) entire root directory [Video List] or 2) root directory [News organization assets list], showing all the pertinent information, such as name, source, date, size, format, etc. Another way to describe these would be the .mdb files

AND

Please provide either the 1) entire root directory, [Cumulus asset List] or 2) root directory [List of the Released News video assets], showing all the pertinent information [attributes], such as name, source, date, size, format, etc.”

NIST has completed the actual search for responsive records and is releasing on the enclosed disk three (3) files in their entirety that are responsive to your request. Also, included in these files is additional similar information that you may find helpful.

The first file (Video\_List\_Oct2009.mdb), on the disk is a copy of the entire MS Access database that was used to record ALL the original video tapes collected by NIST (not just the tapes used to create Cumulus clips), and any copies of those tapes created by NIST.

The second and third files on the disk comprise a copy of the text-format data export of ALL the data collected in the Cumulus asset inventory software.

- CumulusRecordsExportVideoClips082611.cre
- CumulusRecordsExportPhotos0826.11.cre

These files can also be described as the attributes assigned to each of the assets (each photo or video), for example; filename, source, size, etc. These two files can be imported into any spreadsheet or database software, such as MS Excel or MS Access.

It was previously determined that you are in the “all other requesters” category, for which chargeable services include search and duplication of responsive documents excluding the cost of the first 2 hours of search and the first 100 pages of duplication. The search time and

duplication costs are under the chargeable threshold and thus the information is being provided at no cost.

Sincerely,

A handwritten signature in cursive script, appearing to read "Catherine S. Fletcher". The signature is written in black ink and is positioned above the printed name.

Catherine S. Fletcher  
Freedom of Information Act Officer

SEP 02 2011

David Cole  
[REDACTED]

Dear Mr. Cole:

This acknowledges receipt of your August 24, 2011, Freedom of Information Act (FOIA) request to the National Institute of Standards and Technology (NIST) in which you requested copies of the following:

“Please provide either the 1) entire root directory [Video List] or 2) root directory [News organization assets list], showing all the pertinent information, such as name, source, date, size, format, etc. Another way to describe these would be the .mdb files

AND

Please provide either the 1) entire root directory, [Cumulus asset List] or 2) root directory [List of the Released News video assets], showing all the pertinent information [attributes], such as name, source, date, size, format, etc.”

The information provided in your August 24, 2011 email asks for records beyond the scope of information requested under your previously closed FOIA Request, #11-109. Therefore, I am assigning the August 24<sup>th</sup> request FOIA Log #11-218. Please reference this number in future correspondence.

Darla Yonder, Management Analyst of my office is the contact point for processing your request. If you have any questions regarding your pending FOIA request, she may be reached by email [foia@nist.gov](mailto:foia@nist.gov) or by phone (301) 975-4064.

Sincerely,

Catherine S. Fletcher  
Freedom of Information Act Officer

APR 13 2011

David Cole  

Dear Mr. Cole,

This letter serves as the final response to your Freedom of Information Act (FOIA) request #11-109 to the National Institute of Standards and Technology (NIST) for:

1. " Please provide the root directories showing the file names, sizes, dates and type. These would be the incoming files' identifying data for FOX, ABC, CNN, NBC, ABC, BBC and their local affiliates, such as WNBC, WCBS, WABC and not the files themselves.
2. Please provide the root directories showing the file names, sizes, dates and type for the released CUMULUS, which would be the CUMULUS files' identifying data, for FOX, ABC, CNN, ABC, BBC and their local affiliates, such as WNBC, WCBS, WABC, and not the files themselves."

On April 1, 2011, you provided clarification of your request via a telephone conversation with me, asking for a copy of "the World Trade Center (WTC) Investigation Video Tapes Inventory, for a list of the incoming videos received from FOX, ABC, CNN, NBC, CBS, BBC and their local affiliates, such as WNBC, WCBS, WABC, and not the files themselves."

NIST is releasing one (1) document consisting of two (2) pages). The search time and duplication costs are under the chargeable threshold and thus the documents are being provided at no cost.

Sincerely,

Catherine S. Fletcher  
Freedom of Information Act Officer
