SECOND SESSION—THIRD LEGISLATURE.

TUESDAY, 29TH SEPTEMBER, 1896.

THREE O'CLOCK P.M.

This being the First day of the Second Session of the Third Legislative Assembly of the North-West Territories, for the Despatch of Business, pursuant to a Proclamation of His Honour CHARLES HERBERT MACKINTOSH, Lieutenant-Governor of the said Territories, dated the 29th day of August, 1896, and the House having met, His Honour entered the House and having taken his seat upon the Throne opened the Session with the following speech:—

Gentlemen of the Legislative Assembly :

It is gratifying to open the Second Session of the Third Legislative Assembly, under circumstances auspicious alike to the Canadian North-West and the Dominion in general. Peace, contentment and prosperity characterize all sections of the country, bearing testimony to the patriotism of the people and the advancement of the material interests of the commonwealth.

Reports concerning crops and cattle received from various agricultural centres up the 26th instant, are of a satisfactory nature. The wheat crop in the Calgary district is above

the average, but, owing to the failure of crops in past years, the wheat acreage is from 40 to 50 per cent. less than usual. The root crop is reported noticeably fine, with a large surplus for shipment, and the cattle and dairying industries very favourable. In the Lethbridge district, the crops sustained damage, consequent upon a heavy snow storm. About 1,700 cattle and 142 horses have already been shipped from Lethbridge since June, and about 3,000 head remain to be sent forward. This will show a small decrease from 1895, in consequence of the herds being short. About 457 yearling steers are being brought from Ontario to mature on western grasses, and about 300 from Manitoba. In the Alameda district, grain crops are reported very satisfactory; wheat averaging about 20 bushels to the acre, and oats from 40 to 50. The root crop is the best for many years, and is considered the best paying the district has ever had; 10 carloads of cattle were shipped from Alameda. In the Duck Lake district, grain and root crops are excellent, both as to quantity and quality, there having been no damage by frost. Cattle are in excellent condition. The Moosomin district will yield from 750,000 to 800,000 bushels of wheat, averaging about 18 bushels to the acre. It is anticipated that 30,000 dollars' worth of cattle will be shipped from Moosomin station this year, and farmers are generally satisfied with the season's operations. The Whitewood district will yield about 20 bushels of wheat to the acre, a portion of the crop being slightly frosted. The value of cattle to be shipped is estimated at from \$30,000 to \$40,000. In Prince Albert district, wheat will yield an average crop of superior quality. By the end of this month, it is expected that 50 carloads of cattle will have been shipped east. The Innisfail district is fairly progressive, the principal interests being beef, butter and cheese. Beeves reported fairly numerous and in excellent order. Upwards of 2,000 head of cattle will be shipped this season,—the largest ever exported. Want of working capital, cost of haulage, and insufficient number of cows have retarded the dairy industries. There have been slight frosts, but the grain crop on the whole is reported good. In St. Albert district, wheat is reported first class, oats and barley fair, vegetables over the average. In the district of Fort Saskatchewan, wheat, oat and barley crops are larger than usual, and demand for cattle greater

than the supply. The opening by the Territorial authorities of a highway east from Fort Saskatchewan for 24 miles, has proved a boon to settlers, while the Statute Labour districts are doing good work. Added to this, a new process roller mill has greatly benefitted the surrounding country. In the Wolseley district, wheat on summer fallow and breaking is reported good; on stubble light; oats and barley generally good; the vegetable crop never better; little damage by frost. The number of cattle shipped, it is expected, will increase this year. In the Fort Qu'Appelle district, the wheat crop throughout is reported to be, without exception, the most favourable in its history. The yield is from 20 to 30 bushels, and on summer fallow about 40 bushels per acre; practically, no damage by frost. Other crops are apparently quite satisfactory. A foot disease is reported as having kept some of the cattle in poor condition. In the Qu'Appelle district, the wheat crop acreage is about 20 per cent. larger than last year, and the average yield for the whole district will be about 20 bushels per acre of wheat, 30 of oats, and 30 of barley; the yield of wheat will be about 17,000 bushels, grading very high. A slight frost occurring on the night of the 9th did some injury to the wheat, but ninety per cent. having been cut, was out of danger. Stock and dairy cattle are in good condition. About 1,000 head of cattle have been shipped from Qu'Appelle Station this year. The creamery at Qu'Appelle Station has been in successful operation this season, and manufactured about 30,000 lbs. of butter, which found ready sale in British Columbia markets. In the Saltecoats district, as in Yorkton, the wheat crops are reported excellent, though somewhat short as compared with last year; in cattle a manifest improvement is reported. In the district of Banff, the cattle, horse and sheep industries have proved satisfactory, the hay crop abundant, and the coal output at Anthracite and Canmore steadily increasing. The Crescent Creamery has given an impetus to Separating Stations, whence the cream is sent to Calgary. Reports from Edmonton are very encouraging throughout the district, both as to wheat, cattle and vegetable crops. From Macleod district, the ranching interests are reported extremely prosperous, and in the Moose Jaw and Maple Creek districts, cattle raising shows a noticeable increase. With reference to horse ranching, the general con-

sensus of Western opinion is, that the Imperial Government should be urged to establish a remount or Military Horse Depot at Calgary. Reports from West Calgary, including the Rosebud district, state the crops to be considerably above the average of the last few years, crediting irrigation with the improvement. Fat cattle are in great demand at remunerative figures. From the Battleford district, there will be an increase in cattle export as compared with last year; prices have been good, and purchasing competition keen, farmers and ranchers receiving full values for their stock. In both North and South Regina, the wheat crop, while not phenomenally large, grades very satisfactorily, while cattle herds are in prime condition. Altogether the agricultural and stock-raising interests throughout the North-West, are eminently satisfactory, and although the cereal crops are not as large as in some years, other branches of farming industry have permanently improved.

Discussion of the subject of diversified farming, has, within two or three years, proved exceedingly advantageous, and in every district throughout the Territories agricultural communities seem anxious to enlarge the scope of operations; one factor necessary to ensure continuous progress will doubtless soon be supplied—namely, the creation and maintenance of a home or local market, as well as connection with foreign business centres.

The fact that thirty Cheese and Dairy Associations have been registered, increased energy being observable in the direction of producing commodities for which there is an immediate local demand, must be a source of satisfaction to those desirous of promoting the welfare of the Territories.

The announcement recently made by the Minister of Agriculture, that the Government is alive to the importance of encouraging the cattle trade of the Dominion, and may consider the advisability of encouraging it by promoting cold storage depots throughout the Dominion, should afford gratification to those who appreciate the importance of such a policy, wisely administered.

Visits made to the North-West by Professor Robertson, Dominion Agriculturist and Dairy Commissioner, have given an impetus to the more complicated branches of scien-

tific farming. As a result of his efforts, a large number of creameries have been established in Manitoba, and more recently in the Territories, noticeably at Moose Jaw, Indian Head, Prince Albert and Regina. That at Moose Jaw, has afforded an opportunity of thoroughly testing and ascertaining results, having been in operation from the middle of May until the latter part of November, 1895, and since then. The total quantity of butter made between the months specified, from milk and cream supplied by sixty customers, was in the vicinity of 70,000 lbs., and the value at Moose Jaw railway station was \$19.31 per 100 lbs.—most of it being shipped to Manchester, England. The rate of transport from Moose Jaw to Montreal is \$1.28 per 100 lbs., with a rebate of 12½c. per 100 if, and when, the butter is shipped from Montreal. It must be remembered, however, that a creamery can only be managed successfully by men who have had a technical training, sufficient for the requirements of the business.

✓ A general enactment, dealing with the question of Irrigation, passed the Dominion Parliament in 1894, and has proved extremely beneficial to various portions of Alberta and parts of Western Assiniboia. Up to last year, 1895, the irrigating capacity of the ditches was 28,000 acres. Up to the present time, the increase of area under irrigation, and results from the application of water to growing crops, have been most satisfactory. The number of ditches and canals constructed and in operation are 115, representing a length of 230 miles, and an irrigable acreage of 79,300. Added to this, there are 47 ditches and canals surveyed and irrigation authorised, representing a length of 263 miles, and an irrigable area of 334,250 acres. The estimated cost of ditches and canals constructed and in operation was \$110,000, and the estimated cost of ditches and canals surveyed and construction authorised is \$840,000, which includes the St. Mary's and Bow River Canals. The irrigation development in the arid portion of the Territories, is divided as follows ✓ among the different districts:—

	Ditches and canals constructed.	Surveyed and construc- tion authorised.
Calgary District.....	59	21
High River District.....	7	3
Macleod District	8	4
Pincher Creek District ...	11	2
Lethbridge District.....	9	10
Maple Creek District ...	15	7
Battleford District	6	..

Mr. J. S. Dennis, of the Survey and Irrigation Department, reports that practically in all the districts, the effort to grow crops or to obtain hay under ordinary conditions, after much experience, owing to insufficient rainfall, has been abandoned, and it is recognised that only by the aid of this process can a sure and certain grain, fodder or root crop be obtained. After four years, including the very unfavourable season of 1895, it was found that irrigation areas now compared favourably with crops raised anywhere in the Dominion. ✓

The progress of educational institutions in the Territories must be considered very satisfactory. On the 29th August, 1895, there had been proclaimed 384 Public Schools, 36 Roman Catholic Public Schools, 10 Roman Catholic Separate Schools, and 2 Protestant Separate Schools, in all 432 School Districts. During the 13 months that have since elapsed, 50 Public Schools, 2 Roman Catholic Public Schools and 1 Protestant Separate School have been erected, making a total of 485 schools, and the estimated number of pupils in attendance was 10,710.

As the School debenture debt represents taxes voluntarily incurred, the following statement may be of interest. Since August, 1895, debentures have been issued and registered to the amount of \$40,225. In addition, sanction has been given to 12 School Districts to issue debentures amounting to \$4,150. The total amount of School debentures issued since 3rd June, 1886, is \$233,500. The maturity of these debentures has practically very recently begun. Up to August 31st, 1896, \$9,245 have been written off, \$3,250 falling due this month, and each succeeding month will see a larger number of School debentures arriving at maturity. The amount absorbed by the payment of

annual coupons, represents about $7\frac{1}{2}$ per cent. of the indebtedness, maturing during various periods up to A.D. 1916.

The total number of insane patients from the Territories confined in the Selkirk and Brandon asylums, Manitoba, at the present month is 74. Warrants were issued in 1894 for 33; in 1895 for 21; and in 1896 for 32. The present arrangement between the Dominion and Manitoba Governments, for the maintenance of the insane of the Territories, will expire in January, 1898.

The attention of the Assembly is again called to the necessity for providing for the deaf mutes of the North-West Territories. Two years ago, an amount was placed in the Dominion estimates for such service, and an effort made to come to an agreement with the Manitoba Government. A misunderstanding having arisen with reference to the length of time of the proposed contract, delays have occurred, and it is to be hoped that some remedy may soon be supplied, as indifference to the interests of these deaf mutes is far from creditable. There are fully 30 of these unfortunates in the Territories.

On former occasions, the attention of this Assembly was called to the existing system of expenditure of funds for roads and bridges in each electoral district, and suggestions made as to the necessity for reforms in this particular. Grave irregularities have since arisen in various cases, and it is no doubt time for action to be taken in the premises.

Prairie fires, though still extensive, have not, apparently, been so serious in results as during 1895, although the luxuriant growth of hay and grass may yet prove disastrous in many districts. The Mounted Police Force has rendered very great services in reducing such damages to a minimum, and the report received from Commissioner Herchmer, which will be found amongst the returns, furnishes interesting information with reference to the prairie fires and the localities in which they have taken place. A machine for extinguishing these fires is now being tested, and promises to be an improvement upon methods hitherto adopted.

By a Dominion proclamation, October 28th, 1895, the unorganised and unnamed Territories were divided into provisional districts for postal and other purposes, and four

such districts were established: (1) Ungava, bounded on the north by Hudson Strait; (2) the district of Franklin, beginning at Cape Best, with a southerly boundary through Robeson's Channel, Kennedy Channel, Smith's Sound, Baffin Bay and Davis Strait; (3) the district of Yukon, to include the region marked off by the northern boundary of British Columbia, the eastern boundary of Alaska, the Arctic Ocean, and a line drawn from the westerly mouth of the Mackenzie River due south, parallel to the Mackenzie River, to a range of mountains, striking them at their intersection with the 136th meridian; thence south along the range to the Liard River at the British Columbia boundary; (4) the district of Mackenzie, including the territories south of the Arctic Ocean and north of British Columbia and Athabasca, as extended to the 110th meridian, along which, to the southern line of Franklin, constitutes the eastern boundary. To the district of Athabasca is added the region north of Saskatchewan to the 100th meridian; thence north, along the 100th meridian, to the southern boundary of Mackenzie. The district of Mackenzie has an area approximately of 538,000 square miles; the district of Yukon an approximate area of 225,000 square miles; and the district of Athabasca, as extended, an area of 265,000 square miles.

This Assembly will no doubt be pleased to learn that there is every probability of what is known as the Crow's Nest Railway route becoming an active factor in North-West progress, within the near future. A recent visit to portions of the country through which it will pass, has convinced me that Edmonton and Southern Alberta will, when this road is built, find ready markets in British Columbia for many of the ranche and farm products now too often sold at a sacrifice. Another enterprise, which, it is hoped, will soon take practical form, is the extension of the Manitoba and North-Western Railroad to Prince Albert.

The coal oil tests at Athabasca Landing have not been as satisfactory as was anticipated, although beyond doubt petroleum exists in various parts of the district. In an interview held with Mr. W. A. Fraser, who has charge at Athabasca Landing, he expressed a desire to still further prosecute the work where there is less shale to be encountered, and no doubt other borings will be authorised.

It has been deemed advisable to submit to the Justices of the Supreme Court of the Territories the lists for a new Magisterial Commission, and to invite suggestions from them upon those to be re-appointed. A magisterial hand book has been carefully prepared, a copy of which will be found among the returns submitted to this Assembly.

The Assembly will, no doubt, be called upon to consider the advisability of consolidating the Territorial Ordinances. They have already become voluminous, and require careful classification.

Statute Labour and Fire Districts under the Ordinance, have increased from 16 in 1894, to 54 in 1896.

A vacancy in the Assembly having been caused by the resignation of the sitting member on the 23rd of May last, a writ was issued and an election held on the 4th of August last.

The Saltecats Cottage Hospital was opened by me, on Wednesday, the 23rd of September instant. This institution will undoubtedly prove of great service in alleviating the suffering of the afflicted, and reflects the highest credit upon those who promoted its establishment and contributed towards the fund for its erection.

For your convenience, I have authorised the following documents to be placed upon the table of this House:—

(1) Copy of correspondence in connection with reservation of the School Ordinance.

(2) Copy of returns from Commissioner Herchmer as to prairie fires.

(3) Copy of Magistrates' Manual proposed for use of new Commission.

(5) Copy of lunatic returns for the years 1894, 1895, 1896.

(6) Copy of last census *re* population of the North-West Territories.

To His Honour, *Charles Herbert Mackintosh*, Lieutenant-Governor of the *North-West Territories*.

May it Please Your Honour :

We, Her Majesty's dutiful and loyal subjects, the Legislative Assembly of the *North-West Territories*, humbly thank Your Honour for Your gracious Speech at the opening of the Second Session of the Third Legislative Assembly.

We are gratified to learn of the satisfactory condition of the Agricultural and Stock Raising interests throughout the *Territories*, and look with hopefulness to good results from the consideration of diversified farming, the establishment of Cheese and Dairy Associations, the promised action on the part of the Agricultural Department with regard to the promotion of cold storage depots and the valuable services rendered to the *Territories* by the Dominion Dairy Commissioner.

We agree with Your Honour as to the extremely beneficial effect of the Federal Irrigation Legislation in various parts of *Alberta* and *Assiniboia*.

We share Your Honour's satisfaction at the substantial increase in the number and efficiency of our Schools.

We heartily concur with Your Honour in Your Honour's statement that there has been an unfortunate indifference to the interests of the deaf mutes of the *Territories*, but we beg most respectfully to suggest that this indifference was on

the part of the Federal authorities, and we trust that an early extension of the powers and income of the Assembly by Parliament will enable us to deal with this important matter locally.

We agree with Your Honour that the present system of Road and Bridge expenditure calls for serious consideration on the part of the Assembly and we shall be pleased to discuss any suggestions which may be made on this subject by those who are responsible for the expenditure.

We regret that the fears expressed in Your Honour's Address with reference to the damage threatened by Prairie Fires have been more than realized by the occurrence of many disastrous Fires in many parts of the *Territories*, and we gladly recognize the very efficient services rendered by the North-West Mounted Police in reducing as far as possible the damage caused by the destructive fires which sweep over different sections of the country periodically.

We are glad to learn that a long standing reproach is about to be removed by the cancellation of the Commissions of the Peace for the *Territories*.

We beg to thank Your Honour for the useful statistical information on so many important and interesting subjects mentioned in Your Honour's Speech, and for the various documents laid on the Table for our information.

We join with Your Honour in renewed expressions of attachment and loyalty to Her Majesty Queen Victoria on the occasion of her exceeding the longest reign known in our history.

And in conclusion we can assure Your Honour of our earnest attention to all matters brought under our notice.

The Memorial was then read a first time as follows :

MEMORIAL

TO HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

The Legislative Assembly begs leave to present to Your Excellency a statement of their constitutional and financial position, and to suggest such amendments in the *North-West Territories Act* and other Acts affecting the Territories and such increase in their grant or subsidy, as will enable them to fulfil the duties they are called upon to perform for

the proper government of the North-West Territories in local matters.

They beg to remind you that at various times petitions and memorials on these and kindred subjects have been sent down to Your Excellency, or to one or more of your advisers.

They are glad to say that the Parliament of Canada has been willing partly to accede from time to time to some of their just requests, so that at present they exercise control over certain funds put at the disposal of the Lieutenant-Governor of the Territories, and have larger powers of legislation; but they find that they are not in a position to use the limited powers they do possess to the best advantage, and that their legislation on subjects coming strictly within the duties of a Territorial Assembly has not the necessary quality of security or completeness. As, besides the right of disallowance which Your Excellency in Council possesses over their legislation as well as over that of provinces, the legislation of the Assembly is also "subject to any Act of the Parliament of Canada at any time in force in the Territories." Parliament, consequently, often passes Acts diminishing the legislative powers of the Assembly over parts of subjects ostensibly reserved for their control, and at other times over-riding Ordinances passed by them and approved of by Your Excellency in Council. It is unnecessary to point out how such concurrent powers will lead to insecurity and conflict.

The Assembly is of opinion that to remedy this undesirable state of affairs it is not necessary to have recourse to the granting of a full provincial status. They believe that till the time arrives, which may be at a not distant day, when the Territories should be taken into Confederation (as one or more provinces) the passing of a few amendments to the North-West Territories Act will allow them, subject to disallowance of their Ordinances, "to exclusively make laws in relation to matters" already within their legislative jurisdiction.

They believe that such amendments should be supplemented by a few further changes. While they do not ask for some rights inherent to provinces, notably the rights to raise money on the public credit, the chartering of railways,

and the administration of justice with relation to criminal matters, they can see no good reason why other privileges of a territorial or provincial nature should be withheld from their administration. They may point out that during the last five years they have exercised most of the rights of provincial assemblies, and, in their opinion, have proven themselves equal to the task.

They further are of opinion that the time has come that their executive government should be put on a firmer basis by substituting for the Executive Committee an Executive Council.

The North-West Territories Act makes provision for a Committee of the Assembly "to advise the Lieutenant-Governor in relation to the expenditure of Territorial funds, and of such portion of any moneys appropriated by Parliament for the Territories, as the Lieutenant-Governor is authorized to expend by and with the advice of the Legislative Assembly, or of any Committee thereof." But it does not provide for any responsible body whose business it should be to advise the Lieutenant-Governor in Executive matters.

It is evident that the Assembly having the power to vote money for distinct services should have the right to control the proper carrying out of its intentions.

As in the present more developed state of the country, which has as much or more need for an intelligent and permanent administration and supervision of its resources and requirements as any other part of Canada, it is impossible for the Assembly to act as an executive council; they have been obliged to make provision in their several ordinances to entrust the duty of administering their laws to the Lieutenant-Governor, acting by and with the advice and consent of the committee, created by federal law for the purpose of advising with relation to expenditure only. They cannot, however, be sure that in taking the only possible steps within their power to meet the necessity, they have not exceeded their powers. Besides, the present machinery does not admit of development, as for instance in the direction of division into departments with responsible heads. The Executive Committee also has not the right to advise the Lieutenant-Governor in matters not contained in

the Ordinances, notably the appointment of Justices of the Peace, and the convening and dissolving of an Assembly, &c., &c. And in general, the Assembly is of opinion that for purposes of government a permanent committee of the House has no advantages over an Executive Council. The first is a creation without precedent to guide it, and lacks the well defined constitutional status which political development during a long course of time in Great Britain and her colonies has given to Executive Councils.

In view of the foregoing, the Legislative Assembly would, therefore, respectfully recommend the following amendments to be submitted to the Parliament of Canada at its next sitting :

1. Amend the section of the N. W. T. Act of 1891 (54-55 Vict.) which is substituted for sec. 13 of the N. W. T. Act, Chapter 50 R.S.C., so as to read :

“The Legislative Assembly shall exclusively have power “to make Ordinances for the government of the organised “Territories in relation to the classes of subjects next here- “inafter mentioned, that is to say.”

Note—While Parliament cannot divest itself of its paramount right of legislation in the Territories, it is desirable that it should not, as it often has done, unintentionally, perhaps, by legislation partly or wholly affecting the Territories, conflict with existing Ordinances, unless such is their distinct intention.

2. Add a clause to the N. W. T. Act giving power to the Assembly, notwithstanding anything in this Act, or any other Act of the Parliament of Canada, to repeal the “Territories Real Property Act,” so far as it applies to the organised Territories, and also to re-enact the said Act, or any part of it, or substitute other provisions in lieu thereof.

Note—Though it is within the competence of the Assembly to legislate with regard to property and civil rights and they necessarily pass Ordinances affecting real property, as among others, relating to Mechanics’ Liens, Expropriation of Lands, Tax Sales, and other official sales, the question must frequently arise in how far such Ordinances are in

harmony with the Territories Real Property Act or can be enforced with due reference thereto.

3. Repeal section 17 of the N.W.T. Act of 1894 and insert instead :

“ There shall be a Council to aid and advise in the Government of the Territories, to be styled ‘ The Executive Council of the Territories,’ and such Council shall be composed of such persons and under such designations as the Lieutenant-Governor shall from time to time think fit.”

4. Repeal sub-clause (c) of sub-section (7) of said section 13 *re* “ Insurance Companies.”

Note—There is no reason why the Assembly should not have power to incorporate insurance companies with Territorial objects, notably, hail insurance companies, stock insurance companies, etc.

5. Insert a clause in the N.W.T. Act giving to the Lieutenant-Governor in Council the power to appoint Sheriffs, Clerks of the Court, Deputy Sheriffs, and Deputy Clerks of the Court, anything contained in the Act notwithstanding.

Note—The N. W. T. Act states that the Assembly may define by Ordinance the powers, duties and obligations of Sheriffs and Clerks, and their respective Deputies (subsection 4 of section 8 of 1891) and may determine the places where such Sheriffs and Clerks shall appoint Deputies. The Assembly also prescribes the fees which are allowed these officers in civil matters which constitute nearly all their emoluments. Notwithstanding the fact that the Assembly makes provision for both the duties and the payment of these officers their appointment remains in the hands of the Federal Government.

6. Insert, subject to conditions hereinafter explained, the following sub-section :

“ The establishment, maintenance and management of hospitals, asylums, charities and eleemosynary institutions in and for the Territories;” and

Repeal Sections 103, 104 and 105 of chapter 50 R. S. C., in so far as they are inconsistent with the powers asked for.

Note—Lunatics from the Territories are sent under an agreement expiring in 1898, between the Federal authorities and the Province of Manitoba, to the asylums of the province. At present there are in such asylums 74 persons, costing one dollar per day.

The Assembly is of opinion that they could perform such service as well and more cheaply. On account of the extra distances travelled by transport to Manitoba the expenses are increased. The Assembly, however, would only desire to undertake the care of the lunatics if the federal authorities would provide the necessary buildings, and make such increase in the grant or subsidy as would pay for the maintenance of patients and staff.

As regards hospitals the Assembly do already provide as far as their insufficient means allow, for the assistance of hospitals built and kept by private charity.

7. Repeal section 21 of the N.W.T. Act of 1894 and introduce an Act respecting "Roads and Road Allowances in the North-West Territories," with similar provisions to those contained in chapter 49 R.S.C., respecting Roads and Road Allowances in Manitoba.

Note—This would do away with the uncertainties and difficulties now connected with the laying out and improving roads and acquiring roads by expropriation, and it would give to the Assembly the right to delegate such power to municipalities.

8. Add a clause giving to the Assembly the power to repeal, alter, vary or re-enact the provisions for appointment of Justices of the Peace and their qualifications.

Note—Only an Executive belonging to and being in touch with the Assembly has the facilities for judging the necessity of appointments to the commission of the Peace and the eligibility of the persons to be appointed. Section 7 of the N.W.T. Act of 1894 provides a property qualification for Justices of the Peace consisting in the ownership in fee simple of land of a certain value. In new settle-

ments where few or no patents for homesteads have been issued it is impossible to find suitable persons who can be appointed.

9. Repeal Section 16 of the N.W.T. Act of 1888 and enact a clause giving the Assembly complete control as regard to appointment, duties and salary of the Clerk of the Assembly.

FINANCES.

Regarding the financial position of the Territories the Assembly must reiterate in part their memorial of January, 1892:

“That the necessities of local government in the North-West Territories demand that instead of the annual vote by the Parliament of Canada of an indefinite sum for expenses of government, a fixed amount in the nature of a subsidy should be granted to the Territories,” and “owing to the rapid increase of the population in the North-West the amount of subsidy should be fixed for a term of not more than four years.”

The revenues of the Assembly are obtained from local sources and the grant from the Parliament of Canada. As regards the local revenues they are and always will be very slight as they are made up of amounts received for granting licences for such occupations as the Assembly is allowed to regulate by legislation. These revenues amounted in 1895 to about 30,000 dollars. All the assets which the Provinces (except Manitoba, which has been compensated for the lack of them), possess, are retained by the Parliament of Canada, who own and administer, with power to sell, or grant to railway companies, their public lands, their hay lands, their timber and their minerals. The Assembly, however, is expected to provide for educating the young, caring for the sick and destitute, rendering the country habitable by improving roads, bridging rivers, protecting against prairie fires, increasing the water supply, etc.

Owing to the vast area of the Territories and the widely scattered nature of the settlement, all the business of the local government is rendered more expensive proportionately to population than in any province. As regards roads this is apparent, but with respect to schools it will be found

equally true. By considering that under the most favourable circumstances less than half the area in each township is available for homesteading, and that as a rule only a small amount is taken up, it will not create surprise to see that in 1895 it took 341 schools with 401 teachers to educate 11,972 enrolled pupils, with a daily average attendance of 6,600, and that out of these schools 223 were only open during the summer months with a daily average attendance of 11.

The most cursory review of the increase of population and the very small increase during the same period of the grant from Parliament for the government of the Territories (which stands in the same position as the subsidies allowed to the provinces), will afford a convincing proof of the utter inadequacy of their resources.

In 1891 the population was 66,799, the number of schools in operation was 224 (for that year no separate amount was put at the disposal of the Assembly).

In 1892 the number of schools in operation was 237, and the parliamentary grant for government was \$208,700 (\$193,200 and \$15,500).

In 1895 the number of schools was 341, being an increase in four years of over 52 per cent.

In 1896 the population is 104,221 (10 per cent. per year added to census of 1894, being the ratio of increase between 1891 and 1894) and the grant from parliament is \$242,819 (not including \$25,000, supplementary vote to recoup the Assembly for relief expenditure undertaken for and on account of the Dominion Government), being an increase in five years in population of 56 per cent. and in annual grant during last four years of 16 per cent.

As the conditions of Government in the Territories are somewhat analagous to those in the Province of Manitoba, a comparison between the amount voted to the Territories, and the amount, calculated on the same items, on which the subsidy to Manitoba is based, would be fair and just. Such an amount would be determined on the following considerations :

1. That the population of the Territories, according to the census of 1891, was 66,799; according to the census taken by the North-West Mounted Police in 1894 it was

86,851, and that, according to that ratio of increase, viz., thirty per cent., it will be, in 1897, 112,906. That if treated on the same basis as Manitoba, according to sub-section (b) of section 5 of chapter 46 R.S.C., the per capita grant would be calculated on an approximate estimate of the population two and a half years from 1897, which, at the known rate of increase (of ten per cent. every year) would be 141,132.

2. That on capita grant, therefore, the amount would be at 80 cents a head on 141,132 the sum of \$112,905.

3. That on debt account on a presumably actual population in 1897 of 112,906, the amount would be five per cent. on \$32.44 per head, making the sum of \$183,133.

4. That a grant for the support of the Government and Legislature in Manitoba of \$50,000 is allowed, and that such a grant for the Territories should at least be as liberal, making the sum of \$50,000.

5. That as Manitoba has been held to be entitled to an indemnity for the want of public lands of \$100,000, and as the Territories have a stronger claim for compensation inasmuch as besides the land grants to railways in and for the Territories, a great part of their public lands have been given to railway companies in aid of construction, not for the benefit of the Territories, but

(a) For the general benefit of Canada, and for the special benefit of the Eastern Provinces and British Columbia.

(b) For railways constructed for and in Manitoba for which no sufficient land grant could be found within that province; and

Inasmuch as a very much larger total amount of land is retained in the Territories for the benefit of the whole Dominion of Canada than the amount of land retained in the much smaller province of Manitoba; and

As the province of Manitoba has been given all lands designated as swamp lands,

They feel they are entitled to a comparatively larger amount than was allowed to Manitoba, the exact figure of which they, however, are not prepared to estimate until such time as they enter confederation.

If treated as regards a subsidy on a similar system as Manitoba, the Assembly recognize that it would be just to

deduct from such calculated amount such sums as would defray the expenses which they, as a Territorial Government, are not called upon to pay, notably the expense of the administration of the criminal law;

On the other hand, they find that it has been the practice of Parliament to charge votes for Lieutenant-Governor's Office, the Clerk of the Legislative Assembly, Legal Adviser, Registrars of Land Titles Offices, up to the Territories without giving them the control over such moneys. They believe that they could perform the services for which such votes were given as well and better, and that such service and votes should be put under their control. They also find that votes for services in unorganized territory (as for instance \$5,000 for schools in such unorganized territory) appear among votes for the North-West Territories increasing thereby the apparent liberality of Parliament towards them.

The Legislative Assembly believes that with the foregoing requests for legislation and for subsidy they have given good and sufficient grounds for your Excellency's advisers to recommend to the Parliament of Canada to deal in a liberal spirit with their just complaints.

The Memorial having been read a second time, was agreed to.

On motion of Mr. *Ross*, seconded by Mr. *Haultain*,

Resolved, That an Humble Address be presented to His Honour the Lieutenant-Governor praying that he will cause a copy of the forgoing Memorial to be transmitted to the Secretary of State for Canada for submission to His Excellency the Governor-General in Council.

And then the House adjourned at eleven o'clock p.m.

MONDAY, 26TH OCTOBER, 1896.

2.30 o'clock p.m.

Journals read and approved.

Mr. *Magrath*, from the Standing Committee on the Library, presented the following Report :

Your Committee has had placed before it the Report of the Librarian for the year ending 30th August, 1896, here-to attached, containing the following information as to the addition to the Library during the year, viz :

1. Pamphlets donated covering various subjects principally of a statistical nature.....	17
2. Extra copies of some of the above Pamphlets	8
3. Statutes, Sessional Papers, etc.....	24
4. Books purchased.....	11

In order to apprise the House as to the class of books purchased, your Committee submit the list of the above mentioned 11 volumes, viz:

History of <i>British Columbia</i> , by <i>A. Begg</i>	1	Vol.
“ <i>Canada</i> , by <i>A. Archer</i>	1	“
<i>Canada</i> under the Administration of <i>Lord Lorne</i>	1	“
<i>England and Canada</i> , by <i>Sandford Fleming</i>	1	“
<i>Moore's Poetical Works</i>	3	“
<i>Mountain and Prairie</i> , by <i>Rev. D. M. Gordon</i>	1	“
<i>Prairie Pot-pourri</i>	1	“
<i>The Witch</i> , translated by <i>W. Gompertz</i>	1	“
<i>History of Vedic India</i>	1	“

The Librarian suggests the binding of the many pamphlets which have accumulated in the Library, principally regarding *North-West* subjects, with a view to insure their preservation.

Your Committee think that it might be well to defer binding until the selection becomes more complete, and the fullest information obtained on the various subjects under classified heads. In the meantime, however, files which your Committee understand are now specially made for pamphlet use, might be adopted.

Your Committee have been informed that several volumes of the Debates of the Dominion Parliament are wanting, especially those of the earlier years of Confederation. Your Committee cannot too strongly urge that immediate steps be taken to have the Library supplied with a full set of Federal Hansard.

The Librarian suggests the purchase of certain Reference works and appends a list of Books that have been enquired for by patrons of the Library.

Your Committee would recommend that the limited means appropriated for the purposes of the Library be only employed in securing books and magazines on Political, Historical and Economical subjects.

Your Committee suggests that in future no books be lent without applicants being endorsed by a Member of this House, who will be called upon to make good the loan in case of books not returned.

That the construction of Railways in these Territories having been heretofore carried on without due regard to vested interests of existing Towns, the Assembly trusts that in considering this important subject the Federal Government will be pleased to see that the Town Sites of *Lethbridge* and *Macleod* be not overlooked, provided the construction of the Railway in question through these Towns in no way interferes with the general purposes which make its construction a necessity.

And the said Message was read by Mr. Speaker (all the Members of the House standing and being uncovered) and is as follows :

C. H. MACKINTOSH.

Gentlemen of the Legislative Assembly:

I deem proper that an error in the Journals of the First Session of the Third Legislative Assembly of the *North-West Territories* should be corrected.

On Page 114, referring to An Ordinance respecting Masters and Servants and An Ordinance to amend and consolidate as amended the Ordinances respecting Schools, the Journals, in each case, record: "His Honour the Lieutenant-Governor doth withhold his assent to this Bill."

By referring to the official correspondence in connection with the Ordinance respecting Schools, it will be found that my Despatch to the Secretary of State at *Ottawa*, dated 24th October, 1895, contains the following: "The passing of this Bill by the Assembly took place on the last day of the Session and almost immediately before the prorogation of the Legislature, and as I consequently had no opportunity of examining its provisions, I reserved my assent there-to."

Furthermore, at a later date, I pointed out to the authorities at *Ottawa* my reasons for reserving assent to the Ordinance, the ground being that, under Section 4, 54-55 Vic., Cap. 22, An Act to amend the Acts respecting the *North-West Territories*, the power of the Lieutenant-

Governor of the *North-West Territories* was limited to approval or reservation, the right to withhold assent being beyond his jurisdiction. The Report of the Committee of the Honourable the Privy Council, approved by His Excellency the Governor-General on the 11th March, 1896, contained the following: The Minister of Justice agrees with the Lieutenant-Governor in the view that he could not constitutionally withhold assent."
