meat for the Army

Subject: Petition on registration of staple food distributer

From: Kofu rice & cereals detailers' association.

As of 11th September, in accordance with MAF's directive, the elimination of Food Distribution Kodan and switching-over to private operation were executed.

It is quite clear that the principal purposes are

1). Recovery of independence of private enterprize and fair competition

2). Increment of convinience and profit for consumers

, and the spirit of Memorandum from SCAP was emphasising this point and ~~was~~ much interest was paid to the enforcement. Consumers also have been expecting the faithful promotion of this switching-over.

However the result discouraged the general public extremely. That revealed only a dealing which has paid no attention to those purposes and considered only the profit of Kodan, and which ~~is~~ is the non-democratic method that is based upon the intention to monopolize the market, trampling on the general public's will.

We can prove it by following instances; —

(1). Despite that the former Kodan's ~~could~~ employees could obtain a considerable amount of retire allowance from the people through government by means of the unity of labor union, in order to hold and extend the position, they are trying to monopolize the registration as prior qualified persons in the switching-over, and disturb the advance of other persons with the position and organization and priviledge backed by Kodan. They are making the switching over only in name just as remaking ~~the~~ a sign board.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(2) /n increasing ration point, they are taking one-sided method, without following to the spirit of the new directive, without paying any attention to the will of Prefecture, City, nothing to say about consumers, They are dividing distribution districts, putting the ~~seds~~ residence of Kodan's employees in the center, and dividing consumers according to the districts, neglecting the convinience and profit of consumers ~~entirely~~ entirely.

Thus, they are making preparation for the coming general registration and free economy, and utilizing consumers and power of Kodan for assuring their profit.

3) Concrete method for monopolizing market planned by Kodan's Labor Union.

① It goes without saying that Kodan's employees have priority in assuring registration of consumers that is necessary for being retailers, and the position is assured for them by pressure and strong request towards consumers backed by Kodan.

② When wholesalers are obtained by cooperatives organized with retailers that were monopolized as mentioned before, it becomes quite impossible for other persons to ~~make~~ get into this business. After all the enterprise is monopolized including wholesaler and retailer in the one district. (in the unit of prefecture or city).

If the above mentioned methods are taken and executed, ~~were~~ it is quite impossible to expect improved service to consumer, nothing to say about fair competition. We are worrying that we shall have to cry for another year on their unkindness and oppresion.

Therefore we, who lost the job of nice retailer ~~which~~ as sacrifice for performing the war which we inherited from our father and ancestors, submitted petitions on following matters to Japanese Government now and then representing the will of consumers. However the government (National ~~for~~ life bureau of Economic Stabilization Board, Food Board of MAF) is declaring that the measure of switching over to private operation was taken laying the main point in

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

counter-policy for un-employment, and there is no hope that our request is considered.
Hereby we make petition with letter to the Chief of ESS, SCAP through C/C, Yamanashi District, in order to accomplish our purpose.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Petition

Subject :- Registration of Staple Food distributor
From :- Kofu Rice & cereals retailers' association

As of 11 Sept '50, in accordance with M.A.F.E directive the elimination of Food Distribution Kodan and switching over to private operation were executed, and the principal purposes were :—

1. Rehabilitation of independence of private enterprize and fair competition
2. Increment of convinience and profit for consumer

And it has been understood that this idea is the one involved in Memorandum from SCAP, and much expectation was paid for this switching-over, however the ~~effect~~ come-out ~~of~~ discouraged the general public very much.
This switching-over seems to be only for the profit of Kodan, with sole occupation of market.
This is proved by following matters.

1. In spite of considerable discharge allowance of the former Kodan's employee, they have the priority in registration of ~~to~~ retailer and are disturbing the registration of other people with the priveledge and powerful back of Kodan.

2. Regarding the increment of ration points, ~~and~~ without paying any attention to the desire of City, Prefecture and consumer, they decided the distribution district around the residence of ~~the~~ Kodans employees, and are ~~for~~ making preparation for the coming general registration and free operation.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1. To abolish the descrimination treatment to the former rice retailer quickly, and get Japanese Government to approve the increase of staple food & selling store if the Governer concern recognize its necessity.

If the increase of selling store will be approved only for former employee of Kodan, it is very hard to say real free registeration, the consumers will be under control by strong power and the registeration based on the free will of peoples will be impossible in the matter of fact.

2 The registration on 1st Jan. of next year should be expected to be fair to the utmost

We want you to get Japanese Government to take some special measure for the budget quickly and to make arrangement in order to able to enforce put into practice the bright, cheerful and fair registeration without simplify the procedure of enforcement by the reason of the lack of budget in city, town, and village and without fall into convenient way for Kodan

3 Taking consideration of the transition of the present economic situation and the great influence on Nation's economy and in view of principle of the expectation of sound development of civil enterprise, you should expect the complete dissolution of Kodan and we hope you to strictly prohit the exclussive possession of enterprise by the cooperative which established by the employee of the Kodan who have the plan of monopolization of the market.

We hereby made an petition by the letter with the signatures of our staffs of union.

10 Nov 50.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

3. The concrete idea seen in project of Kodan in order to occupy the market solely.

1). It is not necessary to mention that the Kodan's employee has the priority in obtaining registration of consumer which is necessary to be retailer, and at the same time they can get the position with pressure and strong request towards consumer, being supported by Kodan.

2) When wholesalers are obtained by cooprative which is organized by retailers, which became retailers through above-mentioned method, it will be quite impossible for other people to take part of the distributing business

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Sho No 24

PREFECTURAL GOVERNMENT
of
YAMANASHI

11 February 1950

SUBJECT: Monthly Report on Staple Food Distribution for the month of Jan.

THRU: Kanto Liaison & Coordination Office

TO: Chief
Kanto Civil Affairs Region
APO 500
ATTN: Distribution and Enforcement Division,
Economics Section

In compliance with Memo. 3191. Hqs. Kanto Civil Affairs Region, subject: "Recurring Reports," dated 5 January 1950, Monthly Report on Staple Food Distribution for the month of January 1950 is submitted herewith.

Katsuyasu Yoshie

KATSUYASU YOSHIE
Governor

1 Incl:
Monthly Report on Staple
Food Distribution, dtd
10 Feb 1950.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

YAMANASHI PREFECTURE

Prepared by Food Section

Recurring Report:
KCAR 319.1 Feb. 10, 1950.

Section VI.

No. 5 Monthly Report on Staple Food Distribution.
(Unit shown by unpolished rice "kg".)

I. Amount of central gov't allocation.

(1) Amounts allocated:

a. ~~Amounts allocated for January~~: pref. Govt distrib plan.

For consumers' use	3,540,000
For producers' use	1,200,000
For other uses	405,600 — ??? what are?
Total	5,145,000

b. Amounts purchased by Gov't.

Rice	3,051,895
Barley & Wheat	223,454
Wheat flour	764,030
Sweet potato	300,010
Potato	3
Breads	150,944
Soy bean	12,355
Other beans	1,860
Cereals	1,050
Total	4,505,602

Remarks:

The reason why there is the difference of 640 Tons between above-mentioned 2 total amounts, is that the Gov't authorities purchased some staple food for year-end use in last November.

As for the sweet potatoes, having distributed 300 Tons during November and December, we deducted that much from the amount allocated for January.

(2) Amounts distributed:

a. Amounts distributed:

Rice	2,025,108
Barley & Wheat	726,925

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Wheat flour	645,244
Breads	23,250
Soy bean	6,964
Other beans	455
Cereals	1,109
Kaoliang	1,497
Total	3,430,552

b. Average amounts distributed per capita:

Consumers' households	344 grs. of rice equiv.?
Producers' households	485 grs.

c. Number of days distributed:

Cleaned rice	18 days

(Besides these, cleaned glutinous rice was especially distributed for 3 days.)

Cleaned barley	7 days
Wheat flour	4 days
Dried vermicelli	2 days

(3) Balances on hand in Prefecture.

Rice	2,964,41
Barley & Wheat	890,134
Wheat flour	1,132,741
Breads	216,457
Sweet potato	10
Potato	3
Soy bean	7,061
Other beans	10,167
Cereals	53,980
Corns	54,796
Kaoliang	654,079
Total	5,983,838

(4) Amounts of imported food allocated.

1,000,000 units of what?

(5) Amounts of imported food distributed.

Rice	254,425
Barley & Wheat	167,853
Wheat flour	58,898
Breads	3,078
Kaoliang	1,497
Total	485,751

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(6) Amounts of imported food on hand.

Rice	539,472
Barley & Wheat	166,228
Wheat flour	349,666
Breads	195,867
Corns	54,796
Kaoliang	654,079
Total	1,960,108

(7) Amounts of staple food released to processors for what distribution plan.

The imported wheat of 1,000 Tons was released to processors for the plan of turning it into the general distribution of February, 1950.

(8) Amounts of staple food distributed as extra rations to workers.

212,142 Kgs.

It was distributed in the ratio of 60% of cleaned rice and 40% of others.

TO : Chief, Kanto Civil Affairs Region

FROM : Kanto Liaison & Coordination Office

SUBJECT : ~~Report Concerning Natural Resourses~~, Industry Enforcement and Distribution

Submitted herewith is the subject report received from the Yamanashi Prefectural Government.

KANTO
Liaison & Coordination Office

N. Imaji for
I. Kawasaki Director

Incl: as stated above

(S. Saiga, officer in charge)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

DUPLICATE

1. Agriculture

a. Growing condition.

Wheat & Barley: Because of the unseasonable weather in November, the sowing of wheat & barley as second crop in paddy fields around Kofu Basin was delayed. Consequently, the germination and early growth of the plant there is delayed. But the growing condition is generally satisfactory in other districts.

Rape seed: The planting was finished in this month and the growing condition is satisfactory at present. The damages from diseases and worms are not found.

Radish, greens, carrot and burdock are now being harvested.

2. Delivery and pre-planting allocation.

(1) On Dec. 13, the Prefectural Agricultural Adjustment Committee-meeting was held and the basic policy for the correction of delivery of rice, cereals and sweet potato produced in 1949 was discussed and consulted and on the next day the corrected quantity of above crops for each gun and city was decided by the Committee.

(2) The above Committee-meeting is being held at present to decide the corrected quantity for each town and village.

4. Fertilizer

a. Autumn fertilizer (for 1949) receiving and distributing condition as of Dec. 10 (Unit:ton)

	A	B	C	D		
Fertilizer	Quantity allocated for Prefecture	Quantity received up to date	Quantity wholesaled by corporation	Quantity distributed to farmer	B/A	D/B
Nitrogenous	9,966	11,303	11,303	9,966	100.0%	29.5%
Phosphoric	7,2[illegible]5	7,300	7,273	7,2[illegible]5	101.1%	34.8%
Potassium	1,368	1,374	1,353	1,314	100.1%	9.9%

Received
K.L.C.O.
25. 1. -3
TIME

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Remarks: The reception and distribution of autumn fertilizer for this year has proceeded satisfactorily and fertilizer for wheat & barley and other autumn and winter crops are secured.

b) Spring fertilizer (for 1950) allocating, receiving and distributing condition as of Dec. 10 (Unit:ton)

	A	B	C	D		
Fertilizer	Quantity allocated for prefecture	Quantity received up to date	Quantity wholesaled by corporation	Quantity distributed to farmer	B/A	D/A
Nitrogenous	3,024	3,024	1,503	1,893	100%	29.5%
Phosphoric	833	842	406	290	101.1	34.8
Potassium	486	486	86	48	100.0	9.9

Remarks: Making close connection with each city, town and village authorities, we are now planning to complete above distribution by the end of December.

c) Concerning the distribuestion allocation and distribution mechanism of spring fertilizer for 1950, conference of chiefs and officials concerned was held at the Ministry of Agriculture and Forestry on Nov. 28, 29 & 30.

d) If we compare the quantity of spring fertilizer allocated for 1950 (Jan. - Jul.), with that of the preceding year, it will be as follows:

Fertilizer	1950	1949	Increase.
Nitrogenous	10,904 ton	9.196 ton	119%
Phosphoric	6,575	5,258	125
Potassium	1,724	677	225

e) Additional allocation of spring fertilizer is expected to be made when the agricultural plan for 1950 is decided, and as for this, we are intending to carry out the distribution allocation by the end of December taking into consideration the results of the research conducted upon the quantity of fertilizers needed.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

5. Fisheries.

(1) Fisheries Cooperative Association.
None applicable for the period.

(2) As one of the enterprises of stocking river with fish, 100,000 eggs of Himemasu (a kind of fresh-water trout) were set free in Saiko Lake on Dec. 16.

II. Delivery of Staple Food.

As to the delivery of rice, cereals and sweet potato, it was much expected that those crops at early-production districts would be delivered in this month. But because of the unseasonable weather and delay of harvest, the quantity of crops delivered is less than expected.
That is, the quantity of rice and cereals delivered as of Dec. 20 is 19,985 Koku which is 16.2% of the corrected delivery quota allocated, 123,000 Koku, and this result is quite below that of the same time last year showing 34.7% then.

The quantity of sweet potato delivered as of Dec. 20 is 3,570,908 Kan showing 85.4% of the corrected delivery quota allocated 4,179,000 Kan and this result is also below that of the same time last year, 120.8%.

III. Food Distribution.

Staple food distributing condition as of Dec. 20 is 7.8 days in advance on an average through the prefecture and the ration management is carried on satisfactorily except some districts where the ration distribution is delayed.

The reason for the delayed rationing is that consumers at large can't afford to pay for their ration and so they can't buy them on the appointed day and that some buy only those ration food they like. According to the instructions from the competent ministry, we are now enforcing special, additional ration of glutinous rice for 3 times of ration as ration in advance up to coming Jan. 10.
Rice and cereals produced in the prefecture and rice imported from Niigata Pref. shall be distributed as staple food in future.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1. Agriculture

Restoration of Farmland, Damaged in 1947.

Since last year, deligent guidance and encouragement have been taken upon the restoration of farmland damaged by the Kazarine Typhoon.

The progress of works done in Dec. is as follows.

Farmland restored 2 cho (Total 228.5 cho since Apr. 1948) (Field and paddy field).

Public installations restored.

2800 ken at 3 places.
(Total since Apr. 1948 is 41,682 ken, 282 places)

The progress of works completed as of the end of Dec. shows, farmland 57% and public installation 55% , for all the restoration plan.

Restoration of farmland damaged in 1948.

Earnest guidance and encouragement are now being taken upon the restoration of farmland damaged by the Rybee & Iyon Typhoon.

The progress of works done in Dec. is as follows:

Farmland restored 4 cho (Total 79 cho since Apr. 1948) (Field & paddy field).

Public installations restored 1,600 ken at 2 places.

(Total since Apr. 1948 is 11,175 ken, 11 places).

The progrees of works completed as of the end of Dec. shows farmland 52% and public installations 45, for all the restoration plan.

Land improvement and farmland adjustment work

The above work for group-manage land less than 300 cho is now being enforced at Sumiyoshi and 3 other districts, and

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

up to the end of Dec. 82% was finished for all plan, 82 cho in acreage.

The above work for group benefit-receiving district, more than 3,000 cho in acreage, is now being enforced continually at Tomi-mura and other 6 villages and 4 districts and 160 cho was improved and adjusted in Dec. Total of the work finished up to date is 3,400 cho which is 87% for all plan.

Chief of Farmland Section of Farmland Dep't.

1. On Dec.1, the Prefecture Farmland Commission meeting was held and approved the farmland purchase plan of Enzan-cho, Higashiyamanashi-gun and 148 other towns and villages. The acreage concerned was 37.7 cho of paddyfield, 120 cho of field, total amounting to 157.7 cho and the number of landlords concerned was 1,508.

The Commission also approved the farmland sales plan of Enzan-cho, Higashiyamanashi-gun and 140 other towns and villages. The acreage concerned was 38 cho of paddy field, 131 cho of field, total amounting to 169 cho and the number of tenant farmers concerned was 1,790.

2. Petition submitted to Prefectural Farmland Commission

Petitions pending during Nov.	17 cases.
Petitions received during Dec.	1 "
Total	18 cases.

The above petitions have been handled as follows:

Petitions withdrawn	1 cases
" rejected	1 "
" accepted	1 "
" partially accepted	0 "
" already disposed of	2 "
" not yet disposed of	15 "

3. Condition of control on transfer of farmland.

a) Transfer of ownership.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Month	Cases of permission	Paddy field	Farm	Total	Cases not given permission
Dec.	13	17.76	7.44	25.20	0

1. Agriculture

b. Farmland Development.

None applicable for the period.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1. Agriculture.

b) Activities and proceeding condition concerning Agricultural Cooperative Association (hereinafter referred to as A.C.A.)

1) On Nov. 28 (from 7:15 a.m.) through the microphone of Kofu Radio Station, "Looking back the 2 years after the promulgation of A.C.A. Law" was broadcasted in a form of friendly-talk meeting by the chief of Ken A.C.A. Section, director of Sakai-mura A.C.A. and officer in charge of Yahata-mura A.C.A.

2) On Nov. 30, the graduation ceremony of the 1st A.C.A. Officers Short Course was held.

3) On Dec. 2, Director of Farmland Dep't Masuda broadcasted from Kofu Radio Station in commemoration of A.C.A. Law.

4) On Dec. 5, mass-meeting of A.C.A. directors in the prefecture was held and Mr. Uchikoshi, director of A.C.A. Dep't of Ministry of Agriculture and Forestry made a commemoration speech.

5) For 3 days starting from Dec. 7, conference of A.C.A. Section-Chiefs of all To, Do, Fu and Prefectures was held at Tokyo under the auspices of Ministry of Agriculture and Forestry. Chief and 3 other officials of Ken A.C.A. Section attended there, and urgent problems were instructed and consulted.

6) By order of Ministry of Agriculture & Forestry, chief and official in charge of Ken A.C.A. Section went to the Ministry to consult and discuss the business concerning account settlement of Prefectural A.C.A.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1. Agriculture.

b. Sericulture.

1. Supply and Demand Condition of Seedlings of Mulberry Tree.

The quantity of mulberry seedlings produced in the prefecture this year is about 3820,000. Out of the figure, 2420,000 were produced by mulberry seedlings producers and 1400,000 by sericulturists themselves.

Out of the figure produced by the mulberry seedlings producers, 670,000 were sold to sericulturists (of which, 380,000 sold in the producing gun and 290,000 in other gun) and the rest 175,000 are to be sold to sericulturists next year.

Encouragemeht on important industries.

a. Condition of silk-reeling industry.

1. Equipments.

Licenced No. of multi-end reeling machines	:	1,602
No. of the same in operation	:	1,307
Licenced No. of reeling machines (for sitting work)	:	781
No. of the same in operation	:	646

2. No. of workmen

Male : 478 Female : 2,690 Total : 3,168

3. Material cocoons consumed : 70,706 Kan (Net weight of good cocoons)

Material cocoons preserved : 341,019 Kan (Net weight of good cocoons)

4. Raw silk produced : 11,166 Kan (6% increased compared with last month)

Remark:

The reason why the quantity of silk produced in this month decreased is that the workmen were absent from shop because of busy-farming season lastingly since last month.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

I. Agriculture.

b. Live-stock.

1. As to purchasing of breeding pigs.

In order to improve and increase the production of pigs, this pref. purchased 5 excellent breeding pigs from Koza-gun, Kanagawa pref., which have been lent to the Higashiyamanashi Live-stock Agricultural Cooperative Asso. and 2 associations.

2. As to Live-stock Increase production 5-year program.

In order to promote the above conference strictly according to the Live-stock Increase 5-year program decided before, we called chiefs of each gun office, the Prefectural Economic Sect.-chief and officials in charge on Dec. 10 to the Ken Gov't Office where instructions were given to them regarding accomplishment of the program and discussion was made on the subject.

3. As to inspection upon cattle TB.

The above inspection is to be carried out for 14 days starting on Dec. 25 in Nakakoma and Minamikoma-gun and its result will be reported to you after completion of inspection.

4. As to inspection upon breeding hen and chicken's white diarrhoea.

The above inspection is being carried out and its result will be reported to you after its completion.

5. As to inspection upon cattle schistosomiasis.

As schistosomiasis bacteriological examination has been carried out since Dec. 12 for cattles in districts where the disease is prevailing, its result will be reported later.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Besides, inspection is now being enforced upon cow Toricomonus and Brucellosis.

6. As to holding of the fodder consultative committee-meeting.

The said committee meeting was held on Dec. 20 and there they discussed about the smooth distribution of fodder.

7. As to purchasing of stallion.

As it is profitable from the view-point of agricultural plan of this pref. to purchase prolific stallion, officials in charge have been despatched to the producing district of Nagano Pref.

They are now negotiating with the dealers concerned to purchase a stallion.

If it is purchased, it will be raised in the Prefectural Live-stock Breeding Farm.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

VI. Mining.

Probably because of this month being year-end season and in consequence each mine being busy in its operation, we have not yet received complete reports concerning mining production.

General condition of mining activities found up to now:

Kind of mineral	Output	Compared with that of former	Name of mine
Coal	None reported	-	-
Atan	"	-	-
Iron sulphide	"	-	-
Goal & silver	"	-	-
Zinc	"	-	-
Gypsum	30 tons	(-) 20 tons	Shigekura
Manganese	82 tons	(+) 13 tons	Ochiai

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

VII. Incentive goods.

Distribution condition of incentive goods is as under mentioned for this month.

1. Receiving condition:

Classification	Goods	Quantity	Date
Incentive goods for delivery of rice and sweet potato produced in 1949	Handkerchief	12,693 pieces	Nov. 18
	Towel	13,400 "	Nov. 18
Incentive goods for delivery of vegetables from April to September 1949.	Cotton fabrics	400 tan	Nov. 14
"	Working gloves	1,000 pairs	"
"	Knit coat	500 sheets	"
"	Towel	5,000 pieces	Nov. 25
Incentive goods for delivery of charcoal from April to Sept.	Cotton fabrics	418 tan	Nov. 8
"	Working gloves	5,086 pairs	Nov. 28

2. Distribution condition:

a. Half of incentive clothing for delivery of charcoal have already been shipped and the remaining half also are to be shipped based upon appropriate allocation instruction from Forestry Section.

b. Out of incentive clothing for delivery of wheat & barley and potato produced in 1949, the quantity of cotton fabrics inferior in dyeing is now under investigation.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

VIII. Incentive goods

1. Distribution condition of incentive goods for production of lumber:

Period	Number of commodity	Quantity received	Quantity distributed	Quantity not yet distributed	Remarks
December	Supplementarily distributed rice	42,342,570 kgs.	42,342,570 kgs	0	For Nov. & Dec.

2. Distribution condition of incentive goods for production of firewood and charcoal:

Period	Name of commodity	Quantity distributed	Quantity distributed	Quantity not yet distributed
December	Rice distributed supplementarily	16,780 kgs	16,780 kgs	0

Remarks : Incentive goods for November.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

VIII. Pine bark beetle damages

a. Progress made in preparation and general execution of the Program by Ken Forestry Dep't and Local Forest Agencies.

Name of local agencies	Plan of execution			Actual execution		
	Area (cho)	No. of trees	Volume (koku)	Area (cho)	No. of trees	Volume (koku)
Kofu	1	500	200	1	410	260
Nirazaki	1	500	40	1	500	40
Otsuki	10	7,000	1,000	10	7,998	999
Yoshida	5	8,000	3,000	7	8,750	3,230
Sakae	2	200	20	2	150	22
Kajikazawa	1	100	20	1	100	20
Enzan	1	150	50	-	160	40
Total	21	1,645	4,330	22	18,068	4,611

b. The infected area (in cho) upon trees have been out and the bark pealed and burned ..... 6 chobu

c. Salvage in terms of volume (in koku) of timber out ..... 2,260 koku

d. Salvage in terms of volume (in koku) of timber removed ..... 2,260 koku

e. Estimate of the area (in cho) of infected forest ..... 213 chobu

Estimate of volume of damaged timber (koku) ..... 48,381 koku

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

VIII. Afforestation problem.

1. Afforestation program during 1949 fiscal year and table on its progress.

Classification	All area planned	All area completed	Progress percentage	Area planned for autumn afforestation	Area completed for autumn afforestation	Progress percentage
Prefectural	609 chobu	736 chobu	121 %	73 chobu	73 chobu	100 %
General private	2,025 "	3,353 "	161 %	684 "	500 "	73 %
Special	185 "	190 "	102 %	-	-	-

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

IX. Transportation.

In addition to transportation certificates made by registered shippers themselves, 2 copies of special transportation certificates were drawn up through our authorization.

There is no specific matter to be described.

X. Electric power.

1. In conformity with the Cabinet decision (dated October 31) to secure electric power for use in general families, we have prohibited factories strictly from using electric power between 4:30 p.m. and 7:30 p.m. every day and in consequence we were able to do without stopping supply of electric power to general families till December 23.

2. New electricity rate system enforced dated December 13 has affected economically to a great degree general citizens in this prefecture most of whom are using electric power with the electricity rate fixed amount system, in which electricity rate has been raised by 50% in compliance with the new system mentioned above.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

XI. Construction

1. Measures taken for advancement of efficiency.

None applicable.

2. Change of tendency of this month in comparison with that month and its reason.

A. Comparison concerning housing.

	Term	November	December
b,	Number of houses planned to be built:	320	300
c.	Number of houses given permission for construction :	366	290
d.	Number of houses completed. :	209	200
e.	Number of houses under construction :	404	300

B. Comparison concerning allocation of materials for general houses.

Materials	Quantity	
	November	December
Glass-plate	67,858	66,917 Sq. ft.
Lumber	60,310	105,210 koku.
Cement	59,550	91,300 kgs.
Coal-tar	434	1,350 kgs.
Zinced iron-plate	10,579	21,343 kgs.
Thin board	157	- kgs.
General rolled steel materials	33	25 kgs.
Creosote	343	2,216 kgs.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

XI. Public works.

1. About restoring works of damages.

Progress of restoring works of damages is as follows.

88.5% of damages in 1947.
30% of damages in 1948.

Officials of Construction Ministry came to this Prefecture on November 20 and inspected the places damaged in 1949 for 4 days from 20 to 23 November and besides they inspected the documents concerning the damages.

As the result, on December 4, 606,026,000 yen was authorized to be subsidized out of the National Treasury for restoring works of 702 places damaged.

Restoring works of damaged places in need of emergency restoration out of the above mentioned places have been started with 30,000,000yen and besides other works are to be started with 60,000,000 yen in the near future.

2. Progress of repairing works of roads and bridges.

The repairing condition during this month is as shown in the following tables.

A. General table of report on progress of repairing works of roads and bridges.

Road and Highway (National and Prefectural).

a. Number of miles repaired during this month:
223.7124 miles

b. Number of miles impassable to vehicular traffic:
23.60 miles

c. Number of people employed in routine highway:
83 people

Bridges.

a. Number passable to vehicular traffic, but urgently in need of repair: 36 bridges.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

b. Number impassable to vehicular traffic: None.

c. Number impassable to automobile traffic:
1 bridges

d. Number repaired : 6 bridges.

3. Concerning a fire accident which broke out at the place concerned in the land readjustment program for restoration of war-damages and the street program.

Under the supervision of Public Works Department of Ken Government, Kofu Municipal authorities are carrying out readjustment of the land of 15 hectares in front of Kofu Railway Station as one of the land readjustment program for restoration of the war damages and the street program, where there are Yamanashi Transportation Company buildings and about 257 shops (located at the so-called triangled place) to be removed, which are the obstacle of preventing the programs from practice.
In such condition, a fire happened to break out in the triangled place in front of the Station on December and 4 houses were burnt down completely and besides 2 houses and 4 buildings were partially burnt down. So, we are helping Kofu Municipal authorities to expedite the removal taking advantage of this chance. But, we, taking it into consideration that the fire-victims concerned are commercial dealers, have authorized to build their houses at the burnt place only on the following conditions.

1. Houses to be built there shall be allowed to exist there by the deadline of removal.

2. Any compensation shall not be paid for houses and other installations.

3. Only houses of necessary minimum in area shall be built.

Furthermore, we are making necessary preparations to complete the program as planned.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

4. Concerning damage prevention problems for Shimada-mura, Kitatsuru-gun.

At Shimada-mura, Kitatsuru-gun, 42 houses were flooded owing to Kazalin Typhoon in autumn of 1947 and this damage is due to Sagami Dam (under management of Kanagawa Prefectural Government) and accordingly Kanagawa Prefectural Government gave compensation for this damage to victims concerned.

Afterwards, in order to construct permanent equipments for prevention of damages of such kind at the expense of Kanagawa Prefectural Government, Governor and officials concerned of Yamanashi Prefectural Government conferred with Governor and officials concerned of Kanagawa Prefectural Government on December 13, but no formal decision was made on the same day and so the 2nd conference is to be held shortly.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

XVII. Industry limited on management.

1. Clothing:

Governmental control of transactions of wool, rayon and other clothings was partially abolished effective dated November 5.

2. Soap:

Although shipment, transfer and distribution of soup and other laundry chemicals without appropriate certificates were prohibited in conformity with appropriate ordinance, they were made permissive only through appropriate instruction of minister in charge, effective in this month.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

XVI. Blackmarket Activities.

1. Staple food.

The Governmental collection result of rice produced in 1949, shows 16.2% to the delivery allocation quota as of Dec. 15. Thus, the collection condition is as inactive as ever before despite of the fact that the authorities concerned have made efforts in this respect for the purpose of accomplishing 80% of rice collection within the year. Accordingly the Prefectural Police Headquarters of NHP have instructed all the police station under its jurisdiction to enforce strictly the control on staple food in order to prevent it from flowing into illegal channels.

Farmers' selling staple food to food-hunters from monetary tightness in farmers' communities and confirmed brokers who have had an eye on it, are active more and more with the year-end and the New Year in sight. In recent days, bad blackmarketeers in mass are illegally, carrying a large quantity of staple food to Tokyo, Yokohama and Shizuoka districts, escaping skilfully from the police control; especially along the Chuo and Minobu railroad lines they are still rampant.

The majority of food seized by the police is cleaned rice. The prefectural Crime Prevention Statistic Sect. carried out the staple food control 7 times by Dec. 20 from Nov. 21; the no. of violators arrested and sent to the Attorney Office is 94. Of them, 82 violators are females. Recently, violation cases of soy beans to be sold to bean-curds and fermented-beans processing dealers and millet to sweet cake processing dealers are remarkably increasing. Besides these, cakes and breads made from staple food are openly displayed for sale in the shop-window all over the pref. Hence, on Dec. 17 we have instructed all the stations of this pref. to control completely sweets shops and cake processing dealers, for the purpose of exterminating those violators.

As some kinds of sake are being secretly distilled at various districts with the New Year in sight, we have arrested 16 violation cases, making a sudden attack on secretly-distilling-settlements in such villages as Minamoto, Tamahata, Ryuo (Nakakoma-gun) Oizumi (Kitakoma-gun) on Dec. 15, and those violation cases have been sent, as violation of the Sake Tax Law and the Food Control Law, to the Procurators' Office.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The Prefectural Headquarters of NRP have instructed all the polices of this pref. to enforce controls in train and at temporary checking points and platform control, for the purpose of preventing staple food from flowing into illegal channels.

2. Perishable food stuffs.

Owing to efforts made by receiving agencies concerned, perishable food stuffs are satisfactorily arriving in this pref. Their sales are bad, but there is no violation case.

3. Firewood and charcoal.

The demand for charcoals at general house-holds is increasing day by day because of the enforcement of the newly established charcoal control regulations and the coming of severe winter, however the supply condition of charcoal in recent days is inactive, & in addition to it, fuels kept by consumers seem to be short owing to the electricity consuming adjustment and the limiting the use of heaters. Because of the abolition of firewood control, the production of fuels was in good condition by Oct. this year, but the production of charcoal this year is inactive more than that of the normal year, affected by the delay of the payment by the Government for the delivered foods tuffs and the lowness of the official price. In addition to this, producers seem to sell charcoals directly to big consumers at the retail price, because of unsatisfactory transportation. Consequently, registered charcoal-retailors have not held even a single bay of charcoal on hand since the latter decade of Nov. The reason is that as charcoal-producers insist on the retail price, if those registered charcoal-retailers receive charcoals at that price they are compelled to sell them at the blackmarket price and they rather prefer to handle a small quantity of charcoal, because if they operate their shop in large scale, they will have to pay a high tax. Owing to the positive control by the police, 16 violation cases (33 persons involved) were arrested lately, but all of these violations was sales by producers of charcoal without certificates.

4. Other commodities.

A. Rubber goods.

The new distribution regulations concerning rubber goods have come into force, however it is believed that there are a large number of violaters of the regulation in this pref. because this pref. has no producing factory, and it is difficult to get rubber goods.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Therefore strict control on them, is being carried out by the police authorities and recently 4 violation cases (15 persons involved) were arrested. They include large scale sales at blackmarket price of tires, tubes of bicycle and rubber soled socks, etc. As it seems that a large quantity of rubber goods have been brought to this pref. by brokers from Tokyo and Yokohama districts, a positive and strict control on them is being enforced.

B. Distribution of soap.

In those days when 1st distribution of soap in accordance with the soap distribution regulation was carried out, various soaps were being sold at the blackmarket price, but since then, its distribution has been smoothly carried out and is being returnning to the normal condition.

5 violation cases (5 persons involved) arrested in recent days, including blackmarketeering by non-registered retailers of 5 to 10 pes of soaps.

C. Other commodities.

Nothing particular to be mentioned.

5. Illegal transportation of designated commodities.

Nothing particular to be mentioned.

6. Results of control of blackmarket activities during the period of 21 Nov. to 20 Dec.

1. Number of violations arrested 808 cases (870 persons involved)

Number of violations sent to public procurators'office 784 cases (833 persons involved)

Number of violations indicted 370 cases (380 persons involved)

Principal illicit goods include staple food, cereals, processed marine products, charcoal, fertilizer, rubber goods and clothings.

2. Illegal transportations of precious metals.

None appricable during this period.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

YAMANASHI PREFECTURE

Prepared by
Chief of Food Section,
Economic Dep't.

Recurring Report:
KCAR 319.1, 5 Jan. 50.

Section 6.

No.5 Monthly Report on Staple Food Distribution.
(Production is shown by unrefined quantity "kg.")

I. Amounts of Central gov't allocation.

(1) Amounts allocated:

(a) Amounts allocated for December:

For consumers' use	3,665,000
For producers' use	650,000
For other uses	385,800
Total	4,700,800

(b) Amounts allocated to be delivered in advance for January:

For consumers' use	865,000
For producers' use	155,000
Total	1,020,000
Grand Total	5,720,800

(2) Amounts purchased by Gov't.

Rice	4,175,931
Barley & Wheat	2,035,007
Sweet potatoes	244,422
Potatoes	1,012
Sweet potatoes & Potatoes processed	13,843
Beans	5,314
Cereals	721
Total	6,476,250

Remarks:

The reason why this amount does not correspond to that mentioned in (1), is that the gov't authorities purchased 1,325,000 Kgs. for year-end use, which had been brought over from November, while they have left purchasing 569,550 Kgs. allocated for December.

4

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

II Amounts distributed.

(1) Amounts distributed:

Rice	3,808,875
Barley & Wheat	917,455
Wheat flour	529,304
Breads	60,397
Corns	1,512
Kaoliangs	2,217
Soy bean	11,043
Other beans	2,505
Cereals	4,598
Sweet potatoes	290,413
Potatoes	1,025
Sweet potatoes & Potatoes processed	312
Total	5,629,656

(2) Average amount distributed per capita:

Consumers' households	441 g.s
Quasi-consumers' households	264 "
Producers' households	376 "

(3) Number of days distributed:

Cleaned rice	17 days
Imported barley & wheat flour etc.	9 "
Sweet potatoes	5 "

III Balances on hand in prefecture.

Rice	1,937,623
Barley & Wheat	2,303,854
Wheat flour	192,468
Corns	54,796
Kaoliangs	655,576
Cereals	54,039
Beans	10,430
Total	5,208,786

IV Amounts of imported food allocated.

None.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

V Amounts of imported food distributed.

Rice	1,914
Barley & Wheat	452,324
Wheat flour	236,681
Corns	1,569
Kaoliangs	2,533
Total	695,021

VI Amounts of imported food on hand.

Barley & Wheat	333,996
Wheat flour	192,468
Corns	54,796
Kaoliangs	655,576
Total	1,236,836

VII Amounts of staple food released to processors for what distribution plan:

The imported wheat of 1,000,000 Kgs. and the home-produced barley of 1,637,100 Kgs. were released to processors for the plan of turning them into the general distribution of February, 1950.

VIII Amount of staple food distributed as extra rations to workers:

137,658 Kgs.

The sorts of distributed food were the polished rice in 55% and the other food in 45%, as they were generally distributed.
