in silverware are being shown this season. Graceful shapes, fluted and bright finished—they are indeed beautiful to look upon. The Tea Set here shown, is one idea, showing each piece edged with a "Rococo" border. The effect is particularly handsome. Each piece is carefully made, heavily plated and perfectly finished. The waiter will easily hold five pieces, making, with the tea set, a beautiful and useful wedding or anniversary present. They are the best that are made in plate and will wear. Coffee Sets, Bake Dishes, Candelabra, etc., can be furnished to match.

### FOR THE FIRST TIME.

All Saloons and Public Gambling at El Paso Shut Down Yesterday.  
El Paso, Tex., May 5.—For the first time in many years public gambling has been entirely suspended in this city, and the front doors of all saloons were closed all day Sunday. The mayor's proclamation providing for gambling restrictions and Sunday closing of saloons and games has become effective, and it may be said that El Paso has observed the day, probably for the first time in her history.

### CHINESE GIRL CARRIED OFF BY HIGHBINDERS

**Tea Merchant Bought Her in China and Was to Have Married Her To-Night.**  
(Associated Press.)  
New York, May 5.—Woo Lung Fong, a beautiful Chinese girl, who was brought to New York three weeks ago to become the wife of Ling Foy, a wealthy Ninth street tea merchant, has been kidnapped by Highbinders, and intense excitement prevails in Chinatown. The wedding ceremony was to have been performed at the Joss house in Mott street at midnight to-night, and extensive preparations had been made for the event. The merchant has not yet been told of the disappearance of his fiancée, and the news will be kept from him until the last moment in the hope that the girl may be found. Ling Foy is said to be one of the wealthiest Chinamen in America.

Near Hongkong he had seen a beautiful girl whom he determined to have for a wife. An agent was sent to China, where the girl was purchased from her father for \$800. She reached New York three weeks ago in the care of the emigrant agent, and was placed in the hands of a resident of Mott street, who was instructed to allow no person to see her. Shortly after the news of the approaching marriage was spread through Chinatown, Ling Foy was approached by a committee of the Highbinders and asked to contribute \$1,000 for a general merry-making among his people. The merchant flatly refused. That night the girl was carried away in a carriage and the woman in whose care she was placed also disappeared.

### SUSPEND BUSINESS

Three New York Brokerage Houses Unable to Open To-Day.  
(Associated Press.)  
New York, May 5.—The developments of the latter half of last week in Wall street in connection with the stock of the Dominion Securities Company, the Hutcheon & Lockwood Company and the Mackenzie-Meadows, resulted to-day in the announcement in rapid succession of the suspension of three stock exchange brokerages houses. The first firm to declare its inability to meet obligations was Offenberg & Moore. Henry Bros. and Lockwood Hard & Co. followed in rapidity.

Offenberg & Moore were known principally as traders, in what was known as "Webb-Meyer" securities, and the announcement was made Saturday that they had experienced some difficulty in securing loans to enable them to carry stocks for the interests they represented. On Saturday afternoon a statement was made on behalf of the firm to the effect that temporary arrangements had been made, and that it was hoped funds might be obtained to-day to pay off the obligations and continue business. To-day's situation shows, however, that these hopes were not realized. The offices of Offenberg & Moore were not opened for business at all to-day. Mr. Gordon, of Henry Bros., whose suspension followed, was a director of the Dominion Securities Co.

### MYSTERIOUS MURDER.

Political Leader Shot By Two Unknown Men.  
(Associated Press.)  
New York, May 5.—Frank Dionzo, a political leader among the naturalized citizens in the Williamsburg section of Brooklyn, has been shot and instantly killed by two unknown men. The police believe that he was a victim of the Mafia. The shooting occurred in Briggs avenue. Two shots were fired and two men were seen running from the body of the fallen Italian. The motive for the murder is as mysterious as the identity of the assassin.

### ARE NOT ANXIOUS.

(Special to the Times.)  
Nanaimo, May 5.—Officers of the Pacific Fish & Cold Storage Company contradict the report concerning the loss of the Thurston. A. R. Johnston, president of the company, has just received a message from Capt. Johnston, who is in Victoria, stating that the story lacks foundation, and that the captain of the Nell told him there were no grounds for such. Capt. Johnston lays it down as the story that was circulated at Skidegate while he was there and while the Thurston was in sight. No fears are entertained by the company.

### REFUSED TO GO TO BED.

(Associated Press.)  
New York, May 5.—Capt. Hiram Pugh, who has just died at Bridgton, N. J., had not slept in a bed since he returned from the civil war. When he was taken ill, some weeks ago, his doctor ordered him to bed, but he resisted all efforts to make him obey the order, and died "with his boots on."

### AN ASSAY OFFICE NEEDED AT DAWSON

**TRADE IN GOLD DUST IS NOT SATISFACTORY**

The Whole Question Is Now Being Considered by the Dominion Government.  
(Special to the Times.)  
Ottawa, May 5.—Thomas Earle, in the House last night, said: "It has been the opinion of the trade and of merchants generally, both on the coast and in Dawson, that the establishment of an assay office at Dawson would be more beneficial to them than an assay office at Vancouver. It appears that they are obliged in trade to take gold at a valuation something in excess of what it is really worth, and there is great difficulty in establishing the value of it because it cannot be ascertained in Dawson. It has been, and is, the occasion of a very considerable loss of traders there. They are at present taking gold dust at the value of \$16 per ounce, and they find that when sent to the coast it does not realize more than \$15 an ounce, and they have been memorializing the department to the effect that the establishment of an assay office at Dawson would enable them to handle the gold at its actual value. The banks could purchase it or traders might remit gold bars instead of remitting dust, and they would be able to ascertain the actual value of the spot. I noticed in the press only a short time ago that the traders at Dawson have recommended very strongly that an assay office should be established there, and established at as early a date as possible."

### REPORTED TO COLLECTOR.

(Special to the Times.)  
Vancouver, May 5.—Capt. Gpvt. of the steamer New England, this morning made an official report to Collector Bowell, as receiver of wrecks, of his finding of the Concordia derelict up the coast. The vessel was midway between the north end of Vancouver Island, and Calvert Island, northwest of Queen Charlotte Sound, out of sight of all land except point Calvert, 25 miles distant. Capt. Gpvt secured a set of charts and other papers, but nothing to lead to the identity of the crew. From the boat's position he might have drifted up the west coast of Vancouver Island, or out of Fitchburg Sound. The boat will be brought down at once and turned over to Mr. Bodwell.

### Court's Finding.

Ottawa, May 5.—The Exchequer court finding in the claim of Messrs. Mackenzie & Mann against the Dominion government has been given out. The finding awards to Mackenzie & Mann for losses sustained in connection with the agreement to build the Stikine river & Teslin railway in the Yukon district the sum of \$227,678, along with \$237,825. This award was referred to the Exchequer court by authority of an order-in-council dated November 30th, 1901, setting forth that the Minister of Justice had recommended the payment of certain claims along with the costs. The court examined the claims and brought in the above finding.

### Clergyman's Protest.

Rev. Mr. Bland, of the Eastern Methodist church, protested in his sermon last evening against the rule of the church which prevented members from dancing. Rev. A. A. ### THE HEALTH OF HOLLAND'S QUEEN

**CONDITION TO-DAY WAS REPORTED GRAVE**

Her Majesty Was Prematurely Confined at Castle Loo—An Improvement This Afternoon.  
(Associated Press.)  
The Hague, May 5.—It was announced from Castle Loo at midnight last night that Queen Wilhelmina had been prematurely confined on Sunday evening. Professor Rosenstein, Dr. Bosingh and the other doctors were in attendance. The Queen suffered intense agony. At 11 o'clock on Sunday evening the condition of Her Majesty was described as critical and small hope for her recovery was entertained.

### Waiting for News.

The Hague, May 5.—The more reassuring tone of this morning's official bulletin did little to allay the apprehensions of the public regarding the condition of the Queen. The streets are dotted with despondent groups of people anxiously discussing the exceedingly scanty information permitted to leak out. The offices of the official newspapers were besieged with enquiries and surrounded by people awaiting bulletins.

### Afternoon Bulletin.

The Hague, May 5.—A bulletin posted at Castle Loo at 2 p.m. to-day announced that the condition of Queen Wilhelmina was satisfactory up to the present.  
A Critical Time.  
The Hague, May 5.—It transpires that the first disquieting symptoms in the Queen's condition manifested themselves during Saturday evening. An urgent summons was dispatched for an accouchement, who remained at Her Majesty's bedside all night long and summoned Dr. Rossignol and Prof. Kowarski, the gynecologist of Utrecht University, who arrived at Castle Loo yesterday afternoon. The symptoms of convulsions became more and more pronounced, and the condition of the Queen was considered extremely grave. The Queen-mother and the Prince Consort did not dare to leave the bedside. Towards night fall the patient became worse and suffered intense pain. The most critical time was reached between 10 and 11 p.m., and there was no relaxation to the intense suspense of all present in the sick room until the doctors, at about midnight, were able to announce that the engagement was over.

### PELTED WITH SUGAR.

(Associated Press.)  
Vienna, May 5.—The congress of the German people's party, held here yesterday evening, was broken up by the followers of Herr Schoenerer, Pan-German, who, immediately after Herr Wolf, the Pan-German leader, commented on the speech made by Herr Wolf, with lumps of sugar and paper balls. A few light scenes between the different factions, and the police with difficulty cleared the hall.

### FREE FIGHT AT A CONGRESS OF THE GERMAN PEOPLE'S PARTY.

(Associated Press.)  
Anadarko, Okla., May 5.—A report was received here to-day of a water spout at Foss, a town on the Cheyenne railway, in which it is said twelve persons were drowned. The Washington river is said to have risen ten feet. Anadarko people being on the bottom fronting the river, are hurrying to higher ground.

HOW CONFESSIONS WERE OBTAINED

THE WATER CURE IN PHILIPPINE ISLANDS

Returned Volunteer Tells Unlucky States Senate Committee of Torture of a Dozen Prisoners.

Washington, May 3.—L. E. Hallock, of Boston, Mass., formerly a sergeant and then a private in company I, Twenty-seventh volunteer infantry, testified today before the Senate committee on the Philippines concerning the practices of the "water cure" in the Philippines.

Mr. Hallock told of the infliction of the cure upon a dozen natives at the town of Leon, province of Panay. He said they were captured and forced in order to secure information of the murder of Private Osborne, of company F, who had been not only killed, but roasted and otherwise tortured, before death ensued.

Capt. Glenn, in charge of a scouting party, first secured a confession of the participants in this crime from one native, who implicated twelve others. These were taken to Leon, the witness said, where his company was stationed under command of Capt. Gregg, and there on the 21st and again on the 22nd, of August, 1900, the "cure" was administered.

Senator Lodge brought out the details of the murder of Private Osborne. The witness said that in June, 1900, Osborne, with two other men of the company, was sent to Holo for mail, and on their return on June 20th, they were ambushed by 100 natives and Osborne's companions were captured.

Mr. Hallock also stated that he had been present when a village of 3,000 or 4,000 had been burned and that the occupants of the houses had not time to carry out the furniture.

Sentinel Grant, of Kingston, Ont., is again critically ill, complications having set in. The Governor-General on Friday attended the Arbor Day ceremonies at the Normal school, Ottawa, planting a "Coronation" oak.

FIGHT WITH STRIKERS.

They Tried to Prevent Girls Entering Works and Were Charged by Police.

Passaic, N.J., May 3.—Strikers at the Passaic print works made a riotous demonstration at the plant today. The trouble started when the rioters attempted to prevent the girls employed in the works from entering the place. There were 150 girls working at the plant and the men had hoped that they could induce them to join the strike movement. The girls, however, refused to go out. When they began to arrive at the works this morning they found the strikers lined up in front of the gates and they were refused admittance. A watchman, who came to the girls' assistance, was roughly handled.

UNITED IRISH LEAGUE.

John Redmond Says Results of Western Tour Are Very Encouraging.

New York, May 3.—Wm. Redmond, M.P., and W. Joseph Devlin, delegates to America from the United Irish League, have returned to this city after a two months' tour through the West. They have organized branches of the league and addressed large meetings in the principal cities on nearly every night of their trip.

Chicago, Ill., May 3.—Friends of Miss Josephine Holman, formerly of Indianapolis, who was engaged to Wm. Marconi, have received the announcement of her coming marriage to Eugene Boross, of Buda Pest, Hungary, says an Indianapolis dispatch to the Tribune.

London, May 3.—The finance bill, as issued today in its final shape, provides for a duty of three pence per hundredweight from April 15th on wheat, barley, rye, oats, buckwheat, peas, beans, broad beans, lentils, undressed rice and other cereals; and for a duty of five pence on flour, meal, starch, arrowroot, tapioca, potato flour, sago, malt, pearly barley and cleaned rice. Drawbacks equal to the duty are allowed from May 15th on the respective quantities of the above goods which have undergone the process of manufacture or preparation in the United Kingdom.

Kingston, Ont., May 3.—Principal Grant, of Queen's, is again critically ill, complications having set in.

SILENCE!

The instinct of modesty natural to every woman offers a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indicative.

Having used Dr. Pierce's Favorite Prescription and Golden Medical Discovery during the past year, writes Mrs. Mattie Long, of Hondo Valley, Berry Co., Pa.: "I had been recommended these medicines for all female weaknesses. I have used several bottles of 'Favorite Prescription' and have received a great blessing. I was so nervous and discouraged that I hardly knew what to do. Your kind advice for home treatment helped me wonderfully. Thanks to Dr. Pierce." Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

CREW PICKED UP A DROWNING SEALER

LUCKY ARRIVAL OF THE PRINCESS MAY

Steamer Found Adrift in Northern British Columbia Waters—Red Rock's Reinsurance Again Advances.

Northern navigation on the waterways leading to Dawson and Athabasca is expected to begin on the 15th inst. Just now, when it is impossible to operate the stages on the route, there is practically no travel. The steamer Princess May, which arrived from the North on Sunday evening, after calling, as customary, at Vancouver, had only seven passengers, and of these nearly all landed at the Terminal City. As the steamer came into the harbor last evening her crew picked up a drowning sealer, who, being the worse of liquor, was hanging on to the bottom of his boat with all ten feet. The sealer, who was found adrift at the time the Princess May came along, was very little. He was barely able to hold his head above water and call for help. It is stated that he had a knife with him when he left the shore, but what happened to her the man was unable to explain, not being in possession of his faculties when he was picked up.

Among other items of news which the steamer brings from the North is a paragraph appearing in a Juneau paper reporting that Mr. Hart, one of the passengers on the ill-fated steamer Islander. The steamer's passage has led to a claim for \$37,000 damages for property which was lost through the disaster.

Several funerals took place on Saturday and Sunday.

On Saturday afternoon the remains of the late Mrs. Helga Segurina Johnson were laid at rest at Ross Bay cemetery. The funeral took place from the family residence, No. 89, North Charlton street, at 2:30 p. m., and from the St. John's church at 3 o'clock. Rev. P. Jenns conducted appropriate religious services at the church and grave. There was a large attendance of sympathizing friends, and many beautiful floral designs were presented.

The remains of the late Samuel Dale Harris was laid at rest on Saturday afternoon, the funeral taking place from the family residence, 157 Fort street, Victoria, at 2 p. m., and later at St. Saviour's church. Rev. W. D. Barber conducted services at the church and grave. Many friends showed their respect and esteem for the deceased by being present at the last rites were solemnized at the graveyard. The pall bearers were as follows: Messrs. W. McDowell, P. Everett, J. Gibbon, G. Barracough, H. E. Edwards and N. Cunningham.

The remains of the late Charles B. Roper were laid at rest yesterday. The funeral took place at 2 p. m. from the residence, No. 20 James street, the house was crowded with friends, who showed their sympathy with the widow and the members of the bereaved family by beautiful floral offerings. Appropriate hymns were rendered by members of the James Bay Methodist church choir, and the religious services were conducted at the residence and grave by Rev. B. H. Baldwin. The following acted as pallbearers: D. Spencer, Sr., D. Ballentyne, A. Duncan, J. Meston, C. McMunn and Capt. McCulloch.

The Governor-General on Friday attended the Arbor Day ceremonies at the Normal school, Ottawa, planting a "Coronation" oak.

Ralph Smith, M. P., is at Kingston, Ont., to arbitrate the difficulty between the striking machinists and the Locomotive Works Company.

A bin of the Canadian Northern elevator at Port Arthur gave way the other evening, and a quantity of wheat was dumped in the harbor.

Dr. Ludely, the hotel representative in Europe, arrived at this morning on Saturday and proceeded to Utah for a conference with Mr. Krueger.

E. J. McMillan, a graduate of the Ontario Agricultural College, Guelph, has been appointed superintendent of Farmington institutes for Prince Edward Island.

THE STORY OF THE INDIAN MUTINY

SYNOPSIS OF PAPERS READ BY DR. POTTS

On the Outbreak and Final Collapse—The Stirring Times in India.

On Friday evening Dr. George J. Potts read his second paper on "The Outbreak and Final Collapse of the Indian Mutiny in 1857" before the Victoria Association in the Pioneer hall, Broad street.

The first paper gave a short statement of the general unrest prevailing in India from Calcutta to Delhi, the northwest provinces and Oude, among the Sepoy troops, Hindoo and Mohammedans, who complained that the cartridges supplied for use for the new Enfield rifle were greased with pig or cow fat.

On the 20th August the headquarters of the army were removed to the palace of Delhi. As the Union Jack of England ran up the flagstaff on the palace so lately occupied by the man crowned by the rebels Emperor of India, the seat and headquarters of the revolt which had deluged the land with blood, and caused the rule of England to totter, a royal salute was fired by the British guns.

salute was fired by the British guns, and tremendous cheers arose from the troops in all parts of the city. The raising of that flag, the booming of the guns, were the signal of the death blow of the Indian mutiny. Over 100,000 rebels were still in arms, but the heart of the insurrection was gone.

The Emperor with his household, two sons and nephew, who were the real culprits, had fled. Capt. Hodgson, of the celebrated Hodgson's Horse, learned the fact from some peasants, and without delay prepared to make an effort to capture them. He came upon the building called the Durah-Nizam-oo-deen, and after a short parley with the Begum, consented to spare the Emperor's life on his submission with all his followers and escort.

An equally rapid success had attended the assault upon the breach in the water bastion by the second column. Nor were the third far behind in the assault through the Cashmere gate. But here a deed had first to be done which should live in the memories of Englishmen as long as we exist as a nation.

As yet Cawnpore and Lucknow were in possession of the rebels. When the news of Delhi reached the British, the British flag over the royal palace, General Havelock and his force were fighting their way up to Lucknow. On the 18th of September he crossed the Ganges. Soon the Allahabad fell into our hands, and on the 22nd defeated the enemy outside Lucknow.

On the 27th a continuous firing was heard in the direction of Cawnpore. Eagerly for the safety of that important post, the commander determined to push forward his convey at once. On the morning of the 28th they started. Gen. Wyndham, who was in command at Cawnpore, imprudently left his defenses to meet the Governor's contingent of rebels, and after suffering several defeats, with the loss of all his tents and baggage, just managed to retreat to his defenses at Cawnpore with his little army dispersed and almost demoralized.

In the meantime the women and children brought from Lucknow were processed to Allahabad under an escort of 500 men of the 34th Regiment, and were at once sent off from the British camp. The commander-in-chief was therefore free to direct his attention to the work before him. Against Nana Sahib's large

force of nearly 75,000 trained mutineers, Sir Colin Campbell could only bring 7,500. On the 5th of December a demonstration was made against the city from the bazaar. The enemy were not able to stand the British onslaught, and the thunder of Peel's guns, and fled precipitately, pursued by the British for 14 miles along the Calpee road.

The task before Sir Colin Campbell and his small army was a difficult one. From all the various points from which the British had driven them—from Delhi, Fuzkygur, Rohilkand, Ferozkand, Cawnpore, Etawah, Aljgur, Goruckpore and the Doab and other places—they retreated to Lucknow, and there, now collected 60,000 rebel Sepoys, and 50,000 irregular troops, besides the armed rabble of the city of 300,000 souls.

On the 3rd of March Sir James Outram occupied the Del Koosha, and fighting went on from day to day, until the final capture of the city, which occurred on the 14th March.

The coroner's jury at Extonston reached a verdict on Saturday with respect to the loss of life at the time of the fire last night. Their finding was that deceased came to their deaths by suffocation caused by fire in No. 2 mine.

On Thursday afternoon fire was discovered in the roof of Houston's sash and door factory. Through the energetic action of the townpeople what threatened to be a serious fire was controlled and extinguished without further damage than sustained by the roof, which is very slight.

It is widely known that since Nicholas I. on a map of Russia, ruled a straight line from St. Petersburg to Moscow, and ordered the Nicolaiev railroad built along that line, American locomotives have run over all the Russian and Siberian railroads on Pennsylvania rails, too, laid on Oregon ties; it is less well known that there are not so many of these locomotives as there might have been.

Space must be sacrificed, else much would be lost, describing the awful work of both combatants, the forcing and capture of Imambahar, splendid palace of the King of Oude, the Kaiserburgh and a number of strongly fortified palaces, forts and entrenchments.

It sounds just like the stories that were told of the early days on Williams and Litching creeks, and the like of which it was supposed by many would never be repeated in Cariboo. But it is being repeated and that on an old channel on Litching creek, just above Stanley.

Everyone will be pleased to know (except perhaps the legislators who don't want to give Cariboo a railway) that Cariboo has given another proof of its hidden wealth, and quite a few will have pleasure in knowing that Sam Montgomery is the principal owner in the claim. Some years ago, we don't know how many, Sam located this ground and worked it all alone until he made the strike last fall. The shaft is said to be over 100 feet, and every bit of dirt he shovelled and hoisted to the top entirely without assistance. Faith in the undertaking kept him at it in spite of the fact that he is 87 years old.

It is a highly serious question about the transportation of machinery and supplies when they cost from 35 to 6 cents a pound from Ashcroft, to say nothing of the sometimes beyond endurance delays.

tions were given Mr. Cuthbert in regard to the manner in which he should present his mission. Probably he was given a free hand and left to shape his course according to circumstances. Events seem to have justified this decision. The Chambers of Commerce of Seattle and Tacoma have held meetings and have approved the programme out of the west. They are coming north and west and are likely to settle down in one place and stay there until their vacation term expires (unless they arrive in Victoria first). If the transportation service is what it should be they will take in the whole circuit. In the meantime it is satisfactory to feel that it will not be long before we shall begin to realize that we did well in forming a tourist association and that the pessimists in regard to this movement may soon be convinced that the association was not formed in vain.

THE SONGEES RESERVE.

Why is it that the Songees reserve question has not been settled, the Indians removed to a new place of abode for their own benefit and for the benefit of some of those in whose midst they at present abide, as well as for the material and physical welfare and outward appearance of the city of Victoria? It is hard to say. Perhaps the government of British Columbia could give some explanation if it were interrogated upon the point. Perhaps it has too much on its hands in the negotiations for the despoilation of the province to pay any attention to such trivial matters as the moral tone and physical well-being of no inconsiderable number of people. What we do know is that the Dominion government has agreed to the transfer of the Indians to a more suitable place, merely stipulating that its wards shall be set up and equipped for the battle of life in a manner in no way inferior to the situation in their present home. The province must supply the new reserve, the old one to revert to the provincial government, which may dispose of it as it sees fit, the only stipulation being that a portion of the reserve shall be sold and the proceeds applied to the rehabilitation of the Indians in their new quarters. These terms should surely be satisfactory to the province. If they are not we are sure the people of Victoria would like to know why they are not, because we are all vitally interested in the removal of a great obstacle to the symmetrical development of the city, apart altogether from the moral aspect of the question. Before the House adjourns we hope one of the members for Victoria will take the trouble to ask the ministers what is the cause of the apparent hitch in the negotiations. It is not likely a straightforward answer will be given, but it would be interesting to find out what the government will put forward for its dilatoriness. We Victorians have been hammering away on the subject for years. Deputations and commissions have been sent and investigated and reported year after year. It took a long time to reach a conclusion. Now when a basis of settlement has been arrived at, it looks as if it will be ten years before it is acted upon. Is the government ashamed of the disposition it proposes to make of a portion of the reserve?

ATTRACTING TOURISTS.

The agent of the Victoria Tourist Association, has succeeded in arousing a great deal of interest in the subject of the attraction of travellers to the Pacific Northwest. The newspapers of the Southwest of Portland have all printed articles pointing out the advantages likely to accrue from advertising in every possible manner the attractions of the Northwest, especially in the summer season, and referring in laudatory terms to the work being done by Mr. Cuthbert, the agent appointed by our Association to make known the beauties of Victoria and the immediate provinces to those in search of health, pleasure, sport, or of a place in which to dream away life's short span. We do not know what laudatory

Colombia are receiving the attention of the Ministers at Ottawa, when the Chinese question, the tax on lead, subsidies to railways and steamship lines, etc., are under consideration, here is our agent extraordinary engaged in the task of extorting outrageous terms from the ministers on behalf of Mackenzie & Mann. There can be no explanation of the phenomenon except the original one—that Mr. Green-shields was paid that \$2,000 to work up a railway scheme that would elect Colonel Prior. He did it, and at the same time he secured very handsome terms for the men he represents, Messrs. Mackenzie & Mann. Mr. Green-shields has done some very effective work for his clients, but he never struck a real snag, as the boys say, until he was besought by the government of British Columbia to name his own terms for the continuation of the Canadian Northern to Butte Inlet. We are to be called upon to pay a very high price for the election of Col. Prior and the continuation in power for a few months of the Dunsmuir government. But the Colonel was right when he said he and Green-shields had been "pulling the leg" of the people of Victoria.

ILLNESS OF WILHELMINA.

Wilhelmina, Queen of Holland, lies at the point of death. A few months ago she was a bride, full of life and vigor and looking forward hopefully and joyfully to a future which promised greater happiness than falls to the lot of the ordinary mortal. She was enthroned in the hearts of her people, a queen indeed who reigned by a higher right than the mere accident of birth. To-day the heart of the royal Dutch nation is bowed in grief and from that heart a prayer ascends to a higher throne than the blow which threatens Holland may be averted. The world, even the republican, democratic part of it on this continent, which admires virtue, goodness and truth wherever they manifest themselves, will join in the petition which ascends from that small Dutch nation of noble men and women.

The question of the succession, should her illness terminate fatally, would be a serious one to determine. Her death would end the direct line of the House of Orange, of which she is the last representative. Holland was reconstructed as a kingdom under William I. by the congress of Vienna in 1815. Previous to that the country had been a republic under French supremacy; and for years subsequently it included what is now the Kingdom of Belgium, the union having been dissolved by the Belgian revolution of 1830, and the latter country established in its individuality by the treaty of London, of 1839. In the event of the death of Queen Wilhelmina, her successor would be designated by a joint meeting of both the houses of parliament. The next immediate relative of the Queen is Prince William Ernest of Saxe-Weimar, whose mother was the daughter of William II. of Holland and sister of Queen Wilhelmina's father.

Mr. Racey, the clever cartoonist of the Montreal Star, has been doing his utmost to convince the people of England of the absurdity of the political scene of them still hold in regard to the climatic and other conditions in Canada. A series of cartoons printed in the Star descriptive of the movements of a young Englishman from the time he made up his mind to come west till he became a good Canadian and settled down for life in the finest country the sun ever rose upon has been printed in pamphlet form for general circulation. The work should be as amusing to Canadians as it must be useful in driving away the foolish idea that Canada is a land of snow and ice, of Indians and bears, and wild men and beasts generally. Mr. Racey is the leading cartoonist of Canada, and "The Englishman in Canada" is probably the best of his works.

The members of the provincial legislature are gradually lining up in position. They will soon all be either sheep or goats, with not a black nondescript in the lot. It is said the caucus of the auxiliary government force has now been reduced to three little nigger boys. By and by there will be but two, and then the original fragment. There is nothing so powerful in politics as an attractive personality.

SOME POLITICAL QUESTIONS.

(Third Letter.) To the Editor:—I have been asked to say something on the question raised in your issue of Saturday, in the article entitled "Alive or Dead," and also dealt with by the Colonist on Sunday in an article entitled "A Mare's Nest." In reply, I advise or even direct anything is done by parliament, so long as it is done by parliament, or ratified by parliament, or even condoned by parliament, no one else has a word to say about it. No authority is cited for this sweeping allegation, nor is any attempt made to show that the legislature of British Columbia is "a parliament" in the same sense that the parliament of the United Kingdom is. There appears to be doubt if the language employed by the Colonist would not be too sweeping, even if applied to the Imperial parliament. I have had no time to look up precedents, but one occurred to me on reading the Colonist's article, and I have verified my memory on the point. Previous to the accession of Charles II. parliament met, and as there was no King, the meeting was held not in pursuance of the King's writ. This parliament continued in session seven months after the Restoration and passed many acts, among them one declaring itself to be "a good parliament," but as Blackstone says: "There was great doubt whether this meeting acted as the best parliament, and if so, consequently the best parliament, which was regularly summoned, passed an act ratifying all that the previous parliament had done. Thus it is clear that in the minds of the jurists of that day, it might be possible to go behind the rolls of parliament and inquire into the manner in which it was summoned. In the year 1879 the parliament of Canada passed an act regarding the inspection of petroleum, and after the third reading the discovery was made that there was a serious clerical error in the measure, and thereupon another short act was passed amending the erroneous act, and both were assented to on the same day. This was clearly done to meet the requirements of section 55 of the British North America Act, the substance of which you gave in your editorial on Saturday. Here we have two instances in which parliaments have construed their own powers, and both of them show that there was, at least, grave doubt as to the validity of the act, and that it is not a copy of it before me. My only point is that the finality of a statute as passed by the Lieutenant-Governor may be open to question, and if so, it may be that the legislature ceased to exist on April 22nd. I say this under reserve, for I do not wish this letter to be understood as anything more than a presentation of some of the considerations bearing upon the subject. There may be others that have not yet suggested themselves to me.

CHARLES H. LUGHRIN, Victoria, May 5th.

A FOUNTAIN.

To the Editor:—Allow me to draw the attention of Mr. Ald. Graham to a disused drinking fountain in the fair way of Douglas street, a few yards north of the great Victoria fountain from which the district is named. This ruinous structure is neither useful nor ornamental, it is a positive danger to traffic and a disgrace to this great tourist resort. The old iron might be sold and the proceeds applied to the urgent repairs of neighboring sidewalks. NORTH WARDEN. —Everything for the house at Wellers', a large selection of goods for all classes, at prices usually less than elsewhere. Our large buying accounts for this.

THE MOST ADVANTAGEOUS

Time to begin a commercial course, if you have in view the purpose of obtaining employment, is now. Our experience teaches us that in the spring and fall we place the greatest number of students, because at that time the business of our cities, and in fact the whole province, creates a larger demand. Remember, the volume of commerce is not stationary, but is increasing from year to year; so if you want speedy employment you should begin your course now, as we will be able to place you into a business office as soon as you are through. This is a guarantee which we may safely make; we are not speculating on a possibility or on a hope, but we are relying on the experience of past years. It only rests with you to advance yourself in the world, we are in a position to give you a start. One point more, the demand for young men is always larger than the supply, in fact we need young men very much, as we have four positions now which we are unable to fill, and if you are a young man who has a fairly good education, you cannot help but get ahead, if you know how to do what has to be done in a business office in a businesslike way. Please consider that the young men of to-day must, in the natural course of human events, be the business men of ten years hence. The business world is like a tree, it has to take its increase from where it is planted, and the business of the province needs fresh young minds in order to grow. HOLYWOOD ARRIVES. Delayed by Bad Weather—Transferred Supplies to Heatherfield—Thirty Days' Gale. Beautiful weather until reaching the Horn, and tempestuous weather from there on in the report of Captain Lundius, of the British barque Hollywood, which arrived from Liverpool on Saturday night. Off the Horn a gale was experienced, which lasted thirty days and buffeted her about in a lively manner. A few sails were carried away, and some other minor damage was done, but otherwise the vessel rode out the gale in a splendid manner. Nothing but unfavorable winds were encountered thereafter, and for this reason the Hollywood made a rather slow passage. She was 175 days on the trip. When 31 days out from Liverpool, in 11 S and 33 W, the British barque Heatherfield was then 100 days from port, and had run short of provisions. The Hollywood was applied to for supplies, and being obtained both vessels proceeded on their long voyages. The Hollywood has a large general cargo for Esquimaux, Victoria and Vancouver. She will land between four and five hundred tons of supplies for the navy at Esquimaux. She also has for the naval village the roofing intended for the new coal shed now in course of erection. The vessel comes consigned to R. P. Bisset & Co. Another arrival on Saturday night was the German barque Antigone, Capt. Hookman, 27 days from Santa Rosalia. The vessel is bound to Chinalmas for lumber.

STAND IN ABEYANCE. Government Promise to Take no Action Respecting Foreshore Rights This Session.

A large deputation of canners waited on the government again to-day in respect to what action the latter proposed taking in regard to the granting of foreshore rights. The interview took place at noon. All members of the executive were present, and the result of the conference proved very satisfactory to the canners. Speaking of the interview H. Bell-Irving said this afternoon that canners had no desire to make granting of foreshore rights of the matter. All that they sought was that the government would do what was best for the industry as a whole. They found the members of the executive well prepared to do this, and knew the opposi-

tion were with them. They were promised that no fishery bill would be dealt with this session, and were given to understand that the applications already in for foreshore rights would, for the time being, not be granted. This is as the canners desired. From the start they sought that action in the premises would be deferred by the government, pending the settlement of the fishery question between the province and the Dominion. The deputations having received such satisfactory assurances no enquiries were made as to the motives of the government in opening in the first place the foreshore rights to application. The names of those on the delegation are as follows: H. Bell-Irving, T. I. Wilson, J. R. Macpherson, A. Ewon, T. Alexander, R. Welsh, N. H. Bain, W. B. English, R. Macpherson, R. J. Kerr, T. R. Smith, T. A. Kirk, Mr. Deville, S. A. Spencer, W. H. Wadhams and R. C. McDonald. —The death occurred at the family residence, Clarke street, of Mrs. George Woollett on Saturday last. Deceased was 83 years of age and a native of Lambeth, England. The funeral will take place to-morrow from the residence at 2 p.m. and later from the St. Barnabas church. Rev. E. G. Miller will conduct the religious services.

BODY OF MISSING MARINE IS FOUND

DISCOVERED IN ROCK FISSURE YESTERDAY

He Disappeared on 10th of Last Month - Was His Death Due to Accident?

About 10 o'clock yesterday morning the decomposed body of Arthur Charles Robertson, lance sergeant of marines of H. M. S. Phaeton, was found wedged in a fissure in the rocks of Kanaka Ranch.

The body was first seen by the little daughter of Rev. C. Essor Sharpe, who brought it to the attention of a stoker of the torpedo boat destroyer Virago.

The provincial police were notified and Sergeant Murray and Constable Cox went down to take charge of the body.

Robertson had been missing from his ship since the 10th of last month. He was last seen early in the morning leaving the Canteen grounds, where he had slept the night of the 9th.

His death may have been due to accident although it is doubtful if such could have occurred at Esquimaux without the attention of someone around being attracted to it.

Robertson had an excellent reputation on board the ship. He was quite gentlemanly, and was generally well-liked.

Robertson had a marked penchant for gaming, and was often seen in the dives whose doors, thanks to his instructions of the commissioners of police, are now wide open.

It is said that he had been in one of the dives during his last leave, and may have been sorely tempted to stake what he had on him in the hope of bettering his financial fortunes.

According to some of his mates he had made several substantial winnings, and these undoubtedly encouraged him to persist in the practice which may have been responsible for his death.

Lance Sergeant Robertson was only 24 years of age and a native of London, England. He joined the service three years ago, and was first stationed in barracks at Plymouth.

Eighteen months ago he joined the Phaeton, and about this time he was transferred to the ship on which he was killed.

Robertson was a very narrow, thin man, and was generally well-liked. He was very reticent in regard to his connections and rarely spoke of them.

It is understood he has a sister residing in London. The fissure in which the body was found is very narrow, a foot or so in width, and Robertson may have accidentally fallen in it and drowned.

It is inexplicable that he would be in that neighborhood when he was due on board the ship at 7 o'clock. It was thought when his disappearance was first discovered that he had gone to the Sound or Mainland, but no clue to his whereabouts was disclosed until yesterday when his body was found.

A very interesting lecture on "The Federation of Trusts" was delivered on Saturday night by E. D. Burns, secretary of the Provincial Socialist Society.

The speaker showed himself to be thoroughly familiar with his subject and dealt with it in a broad-minded, earnest manner, which carried conviction with it.

Following the lecture was a discussion and after a vote of thanks to the lecturer the meeting adjourned.

Harvey Combe, collector of votes for Victoria city, held court of revision this morning. Several objections to names already on the list were put in, but the majority of them were withdrawn.

ANNIVERSARY OF THE CENTENNIAL CHURCH. Rev. W. J. Sepprell Preached Morning and Evening Reports Read in Afternoon.

The anniversary of the Centennial Methodist church and children's day of the same church were both commemorated yesterday by special services throughout the day.

The church was beautifully adorned for the occasion with flowers and evergreens arranged by the ladies of the church in an artistic and pleasing manner.

The morning and evening services were preached by Rev. W. J. Sepprell, principal of the Columbia College, New Westminster.

In the morning the preacher spoke particularly to the children, taking for his subject, "Consider the Lilies." His language was so simple that its meaning could be understood by the smallest child in the congregation.

The church was thronged in the afternoon both with children and their parents and friends. The platform, although its accommodation was large, could not seat all the children.

The reports of the different officers of the school, as appended, were also read. In the evening the church was again crowded to hear Rev. Mr. Sepprell.

CITY'S CHAMPION FOOTBALL PLAYERS

A FULL ACCOUNT OF THEIR ACHIEVEMENTS

Have Held Championship For Number of Consecutive Seasons—Personnel of Victoria Club.

Now that football is over for the season it is quite in order to say a few words in regard to the various teams that have so ably upheld the name of Victoria in Association football.

This was the first appearance of the Columbus in the senior league, and although they did not win the championship they were always to be looked on as a very hard team to defeat.

The Victoria, the winners of the championship of British Columbia, on the other hand, have been in the big league for the past four seasons, and have come out on top of many a hard fought game.

The Victoria, augmented from the Y. M. C. A. team, played in connection with that institution till it closed its doors. The first time they played senior was in the season of 1898-1899.

Besides winning the provincial league the Victoria met and defeated the Kamloops team in 1901, further establishing their right to championship honors.

J. Walter Lorimer, the captain of the team, is a native born Victorian, and commenced his football career in 1884.

as for the way he has kept the team together. Besides playing Association football he takes a great interest in all athletic sports.

U. A. Goward is vice-captain of the team, and hails from Tenby, Wales. He is 23 years of age, stands 5 feet 8 1/2 in., and weighs 141 lbs.

Now that football is over for the season it is quite in order to say a few words in regard to the various teams that have so ably upheld the name of Victoria in Association football.

Alex. Johnson is another who is a native of Anserly, in the county of Kent. While his partner at full back is one of the smallest men on the team, he is the largest, stands 6 feet, and weighs 228 pounds.

Sam. W. Lorimer is the youngest player on the team, being only 19 years of age. Nevertheless he fits into the hardest positions on the field, center forward.

F. Jones is the goalkeeper of the team, and is a very good man for his position. His remarkable stops in some of the games this season brought him to the front as a custodian of whom any team would be proud to have.

W. H. Kingston was born in New Westminster 23 years ago, but he has lived in Victoria the greater part of his life. He stands 5 feet 9 1/2 inches, and weighs 167 pounds.

A. Rutherford is another player that hails from the land where the heather grows. He was born in Newhaven, near Edinburgh, and is 28 years of age.

sequently he has been playing with Victoria. Since the close of the season Mr. Simpson has moved to Wellington, and the Victoria will lose his services for next season.

R. Livingston is the lightest man on the team, weighing about 130 pounds, and standing 5 feet 4 inches in height. He is another that hails from Scotland, having been born in Paisley 28 years ago.

H. C. Lawson is secretary of the club, and although not a player manifests keen interest in all matters pertaining to the game.

SERIES OF FIRES. Man and Woman Killed in New York. Firemen Buried by Falling Wall. (Associated Press.) New York, May 5.—Fire was discovered today in a three-story building, and there was a frantic rush for the stairs and fire-escapes. A man and a woman were killed, and one woman was fatally burned. Many other persons were injured.

WILL BE SENT BACK. Number of Chinamen Detained at San Francisco Are to Be Deported. (Associated Press.) Washington, May 5.—The Chief Justice of the United States Supreme court today rendered opinions in the test cases affecting the return of Chinamen throughout the United States to other countries, sustaining the action of the government authorities in having them detained at San Francisco. There are said to be 40 or 50 Chinamen who have been thus detained in San Francisco for the past four or five months, and who have been very restless of the restraint. The result of this decision will be the deportation to China of the Chinese detained.

GOOD HEALTH IS IMPOSSIBLE with out regular action of the bowels. Laxative Liver Pills regulate the bowels, cure constipation, dyspepsia, biliousness and sick headaches. One hundred tons of this are used by Londoners yearly.

Elevator Burned. Buffalo, N. Y., May 5.—The Wells elevator, situated on Buffalo street at the foot of Indian street, was totally destroyed by fire at midnight. A large quantity of grain had been placed in the elevator during the past week, and the loss on the building and its contents is estimated about \$22,000. At 3.30 this morning the front wall of the elevator fell, burying two firemen, Leont, John Howland and fireman John Jemel. The latter's injuries are said to be fatal. Howland was able to walk to the hospital.

GOT AWAY WITH MONEY. (Associated Press.) Cleveland, Ohio, May 5.—Three masked and armed men blew the safe at the Lake Shore depot, at the foot of Watson street, early today, and secured about \$500. The robbers had a violent struggle with the night watchman, and after overpowering him he was bound and gagged. Then the men took for their flight everything he had before proceeding with the driving of the safe. The safe was badly wrecked. There is no clue to the robbers.

LEGAL INTELLIGENCE. Criminal Assize—Cancelled Sitting of Supreme Court to-morrow. Mr. Justice Irving presided in Chambers this morning and disposed of the following matters: Mitchell vs. Doner et al; H. Barnard, et al vs. defendants, appeal for the appointment of an administrator pendente lite, and for receiver of real estate of deceased, R. H. Pooley, for plaintiff, consented to the order going. The action is as to the validity of a will. The official administrator was appointed receiver and administrator pendente lite.

Many Houses Destroyed. Hula Post, May 5.—Two hundred houses at Hula Post, the famous health resort, have been destroyed by fire. Several persons were injured. Hula Post has a population of about 5,500, and is a very ancient town, with a handsome city hall, which was built in the fifteenth century.

WRECKED BY NATURAL GAS. (Associated Press.) Marion, Ind., May 5.—A building on South Branson street, occupied by drug store, a grocery, two saloons and a restaurant, was demolished by natural gas just before noon today. At least a score of persons were injured.

LAUNCH OF VENTURE. Miss Leggett Will Preside Over the Christening Ceremony This Afternoon. An interesting ceremony is to take place in the upper harbor this afternoon, when the new steamer "Venture," built by the Victoria Machinery Company for the Shaw & Co. for use in the Northern transportation business, will be given the water. She is a fine able craft, and in point of construction for the work to which she will be assigned will have few equals. Her hull has been built and completed, and the receive machinery, in remarkably short time, and will be a credit to the ways which it leaves. Everything was in readiness for the launching of the steamer this morning, but a suitable tide had to be waited for. The event was therefore deferred until this afternoon. As the ship leaves the ways she will be christened the "Venture" by Miss Leggett.

IN THE LEGISLATURE. Government Not Ready to Answer Questions Submitted by Opposition Members. The House opened at 2.30. Rev. Mr. Balderson reading prayers. The House proceeded to the orders of the day beginning with questions. Four questions were asked, and the government was ready to answer none of them, the leader of the opposition protesting against the discourtesy it was showing opposition members.

FRESH WRECKAGE FOUND. New Discoveries Made Off the Queen Charlotte Islands—The Nell Returns. Sparks, deck beams and other wreckage belonging to some sailing vessel was washed ashore on a small island some sixty miles from Skidegate. The report of the new discovery was brought to Skidegate by Indians, and until investigated further it is impossible to state whether or not the steamer is identifiable. Part of it is said to correspond with the timbers in the schooner "Nell" Thurston, the little vessel which fitted out at Nanaimo on a halibut fishing expedition some six weeks ago, and fears for the continuation of the search will in consequence be greatly intensified. Since Captain Johnson, who came south on the last down-trip of the steamer "Nell," quit the schooner, nothing has been heard of her, and fears that something has happened to her are not unreasonable for some time. There is a possibility, however, that the wreckage now found consists of the hull of the lumber laden ship from which a name board was found some short time ago, and which was recently placed on the re-insurance list. Wreckage from the "Nell" will be remembered, however, as being on the coast of the Queen Charlotte Islands, and when that now found has been examined some new ray of light may be shed upon some of the many disasters which occurred during the severe storms of the past winter.

HE NEEDS A SHAVE. A Frenchman Who Has More Hair on His Face Than Any Other Man Alive. Jean Coulon needs a shave more badly than any other living man. If his strength lay in the length of his hair, this Frenchman would be a very Hercules. His beard measures 10 feet 10 1/2 inches in length, while his mustache is over a yard and a half long. Of course he has taken his time to cultivate these amazing adornments, and you may rather from the fact that he is seventy-six years of age. He is very proud of them, and this is perhaps one reason among many why he does not permit the vulgar to gaze on his grand beard every day of the week. The inhabitants of Montreal, in the Department of Allier, where Coulon resides, who very proud of him, and by way of acknowledging their appreciation the man with unlimited beard exhibits his luxuriant growth to all and sundry who care to come and see him any Sunday. Indeed, it may be said that for him the Sabbath is scarcely a day of rest, for when not on view he is carefully dressing his amazing appendage and mustache. During the week he rolls his beard in a sort of bag so that he may be able to go about his occupation the more conveniently. Those of the present generation who are inclined to envy him need not despair of emulating his achievement, for they must remember that Coulon's beard has

THOUSANDS AT FUNERAL. The Late Mayor of Chicago's Chinatown Buried With Great Pomp. (Associated Press.) Chicago, May 5.—With the utmost pomp and magnificence, Sam Moy, the late mayor of Chinatown, has been borne through the streets of Chicago and his body laid to rest in Ross Hill cemetery. One hundred thousand Chinese did honor to Sam's memory, either through friendship or curiosity, and probably no citizen of Chicago ever went to his grave with such a conglomeration of color setting, wild music, discordant noises and fantastic funeral rites. Deputations from New York, San Francisco, Portland, Ore., Boston, and other Chinese headquarters in the United States vied with one another in doing honor to the dead chief.

CRAZY WITH LIQUOR. A Mob of Italians Made Things Lively at Corlies, Wis. (Associated Press.) Racine Wis., May 5.—A mob of 50 Italians, crazy with liquor, has ruled the town of Corlies, seven miles west of here, terrorizing the people and driving all citizens from the streets. Two women were wounded slightly by revolver bullets and two men were cut by knives in the hands of the invaders. Help was asked from this city, and Sheriff Baumann, with a posse of deputies, drove to Corlies, where order was restored after a short but exciting contest in the streets. Two of the Italians are under arrest, and the others have fled to escape the wrath of those they attacked.
