ALLIES' REPLY IS GIVEN TO HUNGARY

Some Americans Send Message on Ireland to Mr. Lloyd George

Eighty-Eight Members of House of Representatives Take Unprecedented Course of Cabling Protest Against Detention of Sinn Feiners.

London, May 5.—The cablegram sent to Mr. Lloyd George yesterday, signed by eighty-eight members of the United States House of Representatives, protesting against the imprisonment without arraignment or trial of persons arrested for political offences in Ireland, has not yet been presented to the Prime Minister because of his illness, which will preclude him from transacting state business for a day or two longer.

Other officials at No. 10 Downing Street said to-day that they were unwilling to suggest what, if any, action the Prime Minister might take with regard to the message.

League Asks If Soviet Will Welcome a Mission

London, May 5.—Sir Eric Drummond, General Secretary of the League of Nations, has sent another dispatch to M. Tchitcherin, the Bolshevik Minister of Foreign Affairs, asking for a reply to a request made March 17 as to whether the Soviet Government in Russia would afford facilities for an investigation in Russia by a commission of the League of Nations.

Ottawa, May 5.—Departure of the Labor Mission to Russia has been delayed pending the making of satisfactory arrangements between the International Labor Office and the Soviet Government. Canadian labor will be represented on the Mission by Arthur Martel, vice-president of the Trades and Labor Congress.

The purpose of the Mission will be to make a first hand survey of the condition of the workers under the Soviet regime.

WHEAT MAY GO TO THREE DOLLARS

That Figure Predicted For 1920 Crop by Some Ottawa Members

Ottawa, May 5.—It is freely predicted in authoritative quarters here that the price of 1920 wheat crop will be high, some members believing that it will go to three dollars a bushel, provided there are no internal troubles in any of the larger countries of the world.

Continuance of the Canadian Wheat Board is still looked for, in view of the fact that the European Governments have practically decided to stand together on purchases.

Forty Cents. Winnipeg, May 5.—James Stewart, chairman of the Canadian Wheat Board, announced this morning that the value of participation certificates will be not less than forty cents per bushel.

Statement. The official statement of the Board reads as follows: "The Canadian Wheat Board feels that some idea should be given as to the probable value of the participation certificates issued by the Board."

On Certificates. "Notwithstanding this, the Board estimates that it should be able to pay at least forty cents per bushel against the wheat represented by the participation certificates."

At the conclusion of the present season, complete returns of the year's operations will be made known, and a final report as to the full value of the participation certificates will be issued."

Questions in House. Ottawa, May 5.—(Canadian Press)—Whether or not Canada will sell her 1920 crop through the Wheat Board will be discussed on the floor of the House on Thursday if a question by Major G. W. Andrews of Winnipeg Centre, is taken up. Mr. Andrews wants to know whether the Government intends to continue the Board when its present term expires some time within the next few months. He is also anxious to know, having received several communications from constituents, whether it is deemed advisable in all cases where it is deemed advisable an Indian shall take the full rights of citizenship.

Educational provisions of the bill, which means that every child between the ages of seven and fifteen years will be obliged to attend school. Provision is made that no Protestant child shall be assigned to a Roman Catholic school and vice versa.

Among the guests were Sir George Perley, the Canadian High Commissioner here, and Sir Lomer Gouin, Premier of Quebec.

London, May 5.—(Canadian Associated Press)—Sir Robert Horne, President of the Board of Trade, speaking at a dinner of the London Chamber of Commerce, said that the nation could go forward with the greatest confidence. Unemployment, he said, was lower to-day than at any period during the war, although about 800,000 more people were now engaged in industry. About eighty-five per cent. of the returned soldiers had now been absorbed in industry.

Among the guests were Sir George Perley, the Canadian High Commissioner here, and Sir Lomer Gouin, Premier of Quebec.

London, May 5.—(Associated Press)—Russian Bolshevik soldiers are reported to be looting houses and stores in Kiev, preparing to abandon the city. The Polish military authorities plan to occupy Kiev late this week, it is believed. The American Red Cross has chartered a special train to take supplies there.

Oil. London, May 5.—Great quantities of oil fell into the hands of the Russian Bolshevik forces when they captured Baku, the important petroleum centre on the western coast of the Caspian Sea, April 28, according to Solshevik official statement under Tuesday's date received to-day from Moscow.

KAYASHI TO BE JAPAN'S AMBASSADOR TO GREAT BRITAIN

Honolulu, May 5.—The Japanese Government has unofficially decided upon the appointment of Baron Gonsuke Hayashi, administrator of the province of Kwantung, South Manchuria, as Ambassador to Great Britain, to succeed Viscount Suteki Chinda, according to a Tokyo cable to The Nippon Jiji Japanese newspaper here.

Brig-Gen. Dyer Returns to Britain From India

Toronto, May 5.—A special dispatch from London to The Toronto Mail and Empire says: "It was my dirty duty." "Thus Brigadier-General R. E. H. Dyer, ex-commander of British troops in India, on Tuesday explained his order to a small squad of troops to fire into a crowd of 5,000 Indian civilians at Amritsar in April, 1919.

"Dyer's men killed 500 and wounded 1,500 inside of less than a quarter of an hour.

"First praised for his action by his chief, and then, when after nearly a year's complete suppression of the affair the world learned of it, reprimanded, investigated and ordered to resign, General Dyer arrived in London on Tuesday to find himself what he considers being made the scapegoat.

"I am a soldier," he said. "It took me thirty seconds to decide that the shooting was necessary to save British rule in the Punjab (the province to which Amritsar is.)

"It has taken the Government a year to decide that I did wrong, to preserve India for the British Empire and to protect Englishmen and English women who lived under my protection. Now I am told to go. Every Englishman I have met in India approved of my act, horrible as it was.

"What would have happened if I had not ordered my men to shoot? My little force would have been swept away like chaff before the wind. Thousands of natives were marching on the city. At the time no one in authority condemned me. On the contrary, I was given another command of another operation afterward, as a result of which I was commanding the troops in India.

"Lord Hurley's commission afterward condemned me," he added bitterly. "I should have been court-martialed, but there never was any suggestion of that."

"General Dyer has a thickset face, which is burned brick red from thirty-five years' service in India."

LUMBER MILLS IN THREE STATES IDLE

20,000 Men Are on Strike in Minnesota, Wisconsin and Michigan

Fort Frances, Ont., May 5.—Six hundred timber workers are out on strike in International Falls, but Fort Frances mills are not affected by the walkout. All the mills in Minnesota, Wisconsin and Michigan have closed operations.

A low estimate gives 20,000 timber workers as idle. The union demand is an eight-hour day, with full pay for ten hours, and to all appearances there is no likelihood of a settlement for some time. Conditions in and around the camps are orderly and quiet.

WIRE MESSAGERS WANT MORE PAY

Chicago, May 5.—Still another strike was threatened to-day when the Telegraph Messengers' Delivery Union presented to the Western Union and Postal Telegraph Companies a demand for an eight-hour day, and \$23 a week for day work and \$25 for night work.

FRANCE RECOGNIZES BRAZIL OWNS SHIPS OF GERMANY SEIZED

Rio Janeiro, May 5.—The French Ambassador has transmitted to the Brazilian Foreign Office a note from his Government declaring France recognizes Brazil's right to ownership of the former German ships seized in Brazilian waters.

Indian Enfranchisement to be Directed by Boards

Ottawa, May 5.—(Canadian Press)—An amicable ending to the controversy on compulsory enfranchisement of Indians has practically been reached, according to authoritative information to-day.

The committee which has been working for several weeks on the proposed amendment to the Indian Act will meet again Friday and it is believed that this will be the final session before reporting back to the House.

The proposal is to form a board composed of two members of the Indian Department, and one Indian appointed by the council of the band affected, and allow this board to pass on all cases where it is deemed advisable an Indian shall take the full rights of citizenship.

Among the guests were Sir George Perley, the Canadian High Commissioner here, and Sir Lomer Gouin, Premier of Quebec.

CARRANZA USES AEROPLANES AGAINST REBEL-HOLD TOWNS

Washington, May 5.—Apparently unable to get under way any offensive military expedition against the revolutionists, President Carranza has begun using aeroplanes to harass rebel-held towns in the neighborhood of the Mexican capital, according to advices to revolutionary agents here. Cuernavaca, capital Morelos, and Cuautla, in the same state, are two of the points that have been smartly bombarded.

WATSON IS READY TO PLEAD GUILTY

Los Angeles, May 5.—Walter Andrew Watson was returned to his prison ward in the county hospital here to-day after his trip to El Centro, during which he aided officers to locate the body of Nina Lee Delaney and then testified at an inquest at El Centro that he had killed the woman.

Watson was weak from exertion and excitement and had to be almost carried from the trial to the ambulance. It was announced that an indictment charging murder would be made probably to-day, and he may be taken to court to plead guilty as soon as the necessary steps can be taken.

According to Watson's previous statements, he will plead guilty in the hope that he may escape capital punishment.

REPLOGLE STEEL STOCK INQUIRY

New York, May 5.—The New York Stock Exchange through its committee on business conduct, to-day ordered an investigation into the dealings in Replogle Steel, one of the most active stocks now dealt with on the Exchange. It is thought that the extraordinary activity of the stock has caused apprehension of a possible corner such as was said to exist in Stutz when trading in that stock was suspended. Replogle is reported to be controlled in part by the same interests which dominate the Stutz Motors Company.

THREE SENTENCES OF DEATH IMPOSED

Most Sensational Assizes Quebec Has Known Come to End

Quebec, May 5.—Telephore Gagnon, found guilty of manslaughter in the case of Aurora Gagnon, his daughter, who died after brutal beatings from her father and ill-treatment from her stepmother, who is under sentence of death for the crime, was sentenced to life imprisonment this morning.

Romeo Remillard found guilty of killing Lieut. Lucien Morrisseau, also received a life imprisonment sentence. Remillard's father, charged with murder along with his son, will be tried at the next session of the Quebec assizes.

The cases of the four men under arrest on a charge of robbing the Ocean Limited train of \$10,000 was postponed until the next assizes. With the sentence of Gagnon and Remillard to-day, the most sensational criminal assizes Quebec has known came to a close. Six murder sentences of death and two of life imprisonment were imposed.

Sir Robert Horne Says Nation Can Go Forward With Confidence

London, May 5.—(Canadian Associated Press)—Sir Robert Horne, President of the Board of Trade, speaking at a dinner of the London Chamber of Commerce, said that the nation could go forward with the greatest confidence. Unemployment, he said, was lower to-day than at any period during the war, although about 800,000 more people were now engaged in industry. About eighty-five per cent. of the returned soldiers had now been absorbed in industry.

Among the guests were Sir George Perley, the Canadian High Commissioner here, and Sir Lomer Gouin, Premier of Quebec.

JAPANESE BANKERS ASSIST-BROKERS

New York, May 5.—Japanese bankers have reached an agreement with Tokyo and Osaka brokers whereby loans will be advanced to the latter to cover margins on stock exchanges, according to advices received by reliable Japanese firms here to-day.

It is stated that approximately \$25,000,000 will be loaned to the Tokyo exchange and about \$12,500,000 to the Osaka exchange. These markets were expected to resume business to-day, it was said.

RURAL PRODUCTION INCREASED IN YEAR

Total Value of Agricultural Products For 1919 Reaches \$64,000,000

Output Surpasses of 1918 by More Than Fourteen Million Dollars

Although final returns are not yet available it is anticipated by the Provincial Department of Agriculture, according to a statement made by the Hon. E. D. Barrow this morning, that agricultural production for the Province of British Columbia for the year 1919 will approximate at least \$64,000,000 in value, or an increase of more than fourteen million dollars over the preceding year.

In the year 1917 production in this Province did not exceed \$38,000,000 in value, while in the year 1909 the production figures stood at \$5,000,000. Progress began to be made in 1910 when the figure leapt from \$5,000,000 to \$14,398,999, although in the following twelve months a similar increase was noted, the figure for 1917 reaching a total of \$21,641,923. By 1912 production had increased to \$26,222,033 and in 1916—the second year of the war—the figures given in official records are \$32,132,915. In 1917, \$37,681,000 represented the total value of the output, while in 1918 the value had increased to \$49,851,425.

Imports. Coincidental with the production values for the years 1909 to 1919 inclusive it is interesting to examine the value of imports for the same period. Roughly speaking imports have doubled themselves in value while production has increased in value approximately five-fold.

In the year 1909 the value of imports did not exceed \$11,110,237. In 1919 their value increased to \$15,182,000. In 1911, \$14,699,854; in 1912, \$15,252,022; in 1913, \$20,070,757; in 1914, \$25,199,125; in 1915, \$16,434,970; in 1916, \$17,199,662; in 1917, \$19,768,206; in 1918, \$21,905,446, and in 1919, \$22,734,150.

From an analysis of the foregoing statistics it will be seen that production in this Province is gradually increasing to the point when the law of supply and demand will reduce the necessity for so great a volume of importation.

CHANGE IN TAXATION PLANS IN ONTARIO

Bill Fathered by Premier Permits Exemption of Property Improvements

Toronto, May 5.—Premier Drury's bill which permits municipalities to exempt property improvements from assessment, received second reading in the Legislature yesterday afternoon. There was considerable discussion on the measure, which was referred to the Municipal Committee for further consideration.

Premier Drury explained that the exemption which could be granted under the bill the first year was twenty-five per cent. This could be increased, if desired, to fifty per cent. the following year, and so on until exemption was complete.

The scheme could not be put into force until ten per cent. of the electors of a municipality should petition for it. Premier Drury intimated that the bill might be changed to require that the petitioners be ratepayers.

U. S. DESTROYERS SENT TO KEY WEST TO BE NEAR MEXICO

Washington, May 5.—Secretary Daniels to-day ordered a division of destroyers, now at New York with the Atlantic fleet to sail immediately for Key West, where they will be held for possible duty in Mexican waters.

TO OCCUPY KIEV LATE THIS WEEK

Polish Army Leaders Reported to Have Arranged Their Plans

Warsaw, May 4.—Via London, May 5.—(Associated Press)—Russian Bolshevik soldiers are reported to be looting houses and stores in Kiev, preparing to abandon the city. The Polish military authorities plan to occupy Kiev late this week, it is believed. The American Red Cross has chartered a special train to take supplies there.

Oil. London, May 5.—Great quantities of oil fell into the hands of the Russian Bolshevik forces when they captured Baku, the important petroleum centre on the western coast of the Caspian Sea, April 28, according to Solshevik official statement under Tuesday's date received to-day from Moscow.

"Work in the wells continues at full speed," the statement continues.

TURKISH BANDIT WHO KILLED TWO AMERICANS CAUGHT

Constantinople, May 4.—Via London, May 5.—(Associated Press)—A bandit chieftain named Ibrahim has been arrested at Aleppo, Syria, charged with the murder of James Perry and Frank Johnson, two American Y.M.C.A. men, near Aintab February 4.

WANT STEADY WORK RATHER THAN BONUS

Federation of Returned Soldiers Urging Parliament to Encourage Shipbuilding

Montreal, May 5.—That they want steady work rather than a cash bonus is the idea of the Canadian Federation of Returned Soldiers and Sailors, and plans toward this end are being worked out. A meeting is to be held here Thursday, when delegates will be selected to form part of a general deputation to wait on the Dominion Government and the Leader of the Opposition Monday next. The idea is to ask Parliament as a whole, both the Government and Opposition, to encourage shipbuilding in Canada and to insure steady employment to veterans now employed in the various shipyards throughout Canada.

For this purpose the Select Committee on Private Bills in as many minutes this morning. There was nothing contentious in any of the bills and no other business on hand.

MANITOBA GETTING READY FOR ELECTION

Registration Next Week; Vote on Importation of Liquor Later

Winnipeg, May 5.—Registration for the coming Manitoba provincial general election, it is officially announced, will begin in Winnipeg at 143 polling divisions on May 10, and extend over the next two days. But it is not registration for this election alone. Some time in the late Summer or early Fall, the people of Manitoba will be given an opportunity of saying whether they want a "bone dry" Province or not. Those who register will have the opportunity of expressing their views by the ballot. Those who do not will not have this right.

CHARGES AGAINST RUSSELLITES DROPPED

New York, May 5.—Joseph F. Rutherford, head of the "Russellite" faith, and eight of his church officers were freed to-day in the Federal court in Brooklyn when indictments against eight of them charging violation of the Espionage Act and an indictment charging perjury against the ninth, were dismissed on motion of Federal District Attorney Ross.

PURCHASING BOARD SCHEME UPHELD

Vancouver and Other Boards of Trade Approve Dominion Government Bill

Ottawa, May 5.—Communications from business interests throughout the country have been received by the Government favoring the bill to establish a permanent board for the purchase of Government and other supplies. Resolutions in approval have been received, among others, from the Boards of Trade of Vancouver, Calgary, Moose Jaw, Medicine Hat, Saskatoon and Winnipeg, the Associated Boards of Trade of British Columbia and the Canadian Manufacturers' Association.

The point generally taken in the question is that the establishment of such a board would mean greater economy in the purchase of supplies, and give every man engaged in the business a fair chance to compete.

Ballantyne Denies Naval Policy Has Been Adopted

Ottawa, May 5.—(Canadian Press)—An absolute denial of a story credited to The Halifax Echo which said the Government proposed carrying out the naval programme recommended by Admiral Lord Jellicoe was made this morning by Hon. C. C. Ballantyne, Minister of Marine and Naval Affairs.

"The story is absolutely false and a pure fabrication from beginning to end," said the Minister. "I have neither privately nor publicly made such statements as are attributed to me in the article, and the whole thing must be the creation of some newspaperman's brain. I made my statement with regard to the Canadian naval situation on the floor of the House of Commons and I have made no subsequent statements."

The Minister explained that he had not read the item in question when it was handed to him yesterday in the House of Commons and he stated that he had no comment to make on it. He had merely glanced at the opening lines.

Borders of Hungary as Set by Entente Powers Must Remain

Hungarians Also Are Informed By Conference of Ambassadors That There Will Be No Plebiscite in Territories Treaty Takes From Hungary.

Paris, May 5.—The reply of the Conference of Ambassadors to the Hungarian objections to the terms of the proposed peace treaty was delivered to-day to the secretary of the Hungarian delegation at Versailles.

It is learned that the reply denies the demand for a plebiscite in the territories which the projected treaty detaches from Hungary.

The Ambassadors also refuse to make changes in the new boundaries of Hungary as established in the treaty.

All the Dominions May Want Diplomatic Agents

Montreal, May 5.—A London cable to The Montreal Star says: "If Canada is permitted to establish an individual diplomatic representative in Washington, three other great British Dominions may be expected to ask for the same privilege. This is the personal opinion of several members of the Foreign Office staff, voiced to-day. The Dominions referred to are New Zealand, South Africa and Australia.

"These officials take the view that the Dominions should be accorded the fullest freedom in conducting their international tariff, customs, boundaries and immigration affairs. The only matters which should be strictly reserved for the British Ambassador are those pertaining to the foreign policy of the Empire as a whole, they believe."

SENATE DIVORCE COMMITTEE DOES SOME FAST WORK

Ottawa, May 5.—Seventeen divorce bills passed the Select Committee on Private Bills in as many minutes this morning. There was nothing contentious in any of the bills and no other business on hand.

BUDGET SPEECH IN OTTAWA NEXT WEEK

Ottawa, May 5.—Efforts are being made to have the budget brought down next week. The exact date, however, has not yet been determined.

WORSER IN GERMANY THAN IN STATES

Living Costs in U. S. Have Increased, But Soared in Germany

Washington, May 5.—The family food budget in the United States in February last was exactly twice the sum expended for the same class of food in February, 1913, according to the Department of Labor.

During approximately the same period in Great Britain the increase was 180 per cent., while in Italy it was 187 per cent. Germany outranked all countries enumerated with an increase of 224 per cent. Increases in prices of clothing in Germany exceeds 1,000 per cent. A man's suit which before the war cost \$20, now sells for \$238.

MORE MONEY FOR OTTAWA MEMBERS

M. P.'s Reported to Have Practically Agreed on Increased Indemnity

Ottawa, May 5.—(Canadian Press)—Indications in parliamentary circles are now that the increased indemnity for members has been practically agreed to. The only drawback is that a majority of members favoring accepting the increase only if the pensions of disabled soldiers are increased. And with the result, about twenty per cent. in the increase in pensions, the members feel that they will be entitled to raise their own stipends. There is some talk of eliminating perquisites such as trunks, automobiles, pens, knives, etc., but at present there has been no official suggestion to compel members to pay for the stenographers or to eliminate the franking privilege.

GENERAL PERSHING RETURNS TO STATES

New York, May 5.—A dispatch from Panama says that General Pershing, after an all-day hunt in which two alligators were lassoed and captured alive, boarded the transport Northern Pacific and sailed for New York by way of Porto Rico last night.

MAYOR OF ST. PAUL

St. Paul, Minn., May 5.—Mayor L. C. Hodgson was re-elected by more than 2,400 votes over his opponent, William Mahoney, Labor candidate, in yesterday's city election here, according to almost complete unofficial returns early to-day.

STOCK BREEDERS FORM ASSOCIATION

Men Handling Pure-bred Stock in Cowichan Unite For Progress

Duncan, May 5.—An organization meeting was held at the Agricultural Hall, Duncan, on Saturday afternoon last, and the Cowichan Pure Bred Stock Breeders' Association was formed. F. Bishop was elected president, with the following vice-presidents: G. H. Hadwen, E. W. Falson, W. A. Willett, M. L. Fraser, of Chemainus; W. Waldon, W. Bazett and W. M. Fleming, district representative, as secretary.

The twenty gentlemen who were present each subscribed \$10 to start the association. It was decided to advertise the local pure bred stock in every way, and especially to give publicity to the Government Record Performance Tests, where the record is very high.

A Dance.
The first popular Saturday evening dance in the Agricultural Hall was a pleasant affair last week. Over 200 dancers were there, and the Robinson's orchestra of three pieces—piano, violin and drum—kept splendid time, and was of sufficient volume to fill the hall. Supper was in the capable hands of the Cowichan Women's Institute.

A Death.
The death occurred on Saturday last in the Jubilee Hospital, Victoria, of Mr. Scott, of Duncan, who had been a patient at that institution since last Autumn. Mr. Scott leaves a widow and three small children, who reside in Duncan. The greatest sympathy is felt throughout the community for the widow and her little family.

GERMAN BARON KILLED.

Berlin, May 4.—Via London, May 5.—The body of Baron von Westermolt-Yeensburg, whose castle was sacked early in April, has been found in the neighborhood of the family estate. He had been shot through the head, and murder is suspected.

The Baron was shortly to give testimony against the Reds, who, it is reported, placed a price of 20,000 marks on his head. Lately he had been the recipient of many threatening letters.

WHEN TO GATHER ROOTS AND HERBS.

For medicinal purposes, roots and herbs should be gathered when their medicinal properties are at their best. For instance, roots of annual plants should be dug just before their flowering season, and roots of biennial or perennial plants after the tops have dried. All these things are taken into consideration in gathering the roots and herbs, many tons of which are used annually in preparing that most successful of all remedies for woman's ills, Lydia E. Pinkham's Vegetable Compound.

SAY ONE BIG UNION CAN DO NOTHING

Winnipeg Labor Council Men and Question of Imprisonment of Strikers

Winnipeg, May 5.—Sharp retorts to what were described as the slanderous attacks made by Joe Knight, representing the One Big Union, on the Trades Congress of Canada, and the international unions generally, featured a meeting of the Winnipeg Trades and Labor Council last night.

It was pointed out by W. Varley that the Trades Congress, far from doing nothing, was working on the question of the issues raised by the arrest and prosecution of the Winnipeg strike leaders. A policy convention, to which 114 international organizations had been asked to send delegates, had been convened and this convention was to be in session as soon as possible after the Industrial Conference at Ottawa. The actual situation was that whatever the internationalists might accomplish in connection with the general issues raised, the One Big Union was capable of doing nothing, and the sooner that was recognized by the men of the internationalists who had gone over to the One Big Union the better it would be for the convicted men and the cause of labor generally.

STATED VIEWS ON BIG STEEL MERGER

Commons Members Discussed Industrial Development

Ottawa, May 5.—The British Empire Steel Corporation merger, with a capitalization of \$500,000,000, was in turn attacked and defended in the House yesterday afternoon when R. L. Richardson presented a resolution that the whole matter, saying the Government should look into the matter fully. The chief objections came on the ground of fear of over-capitalization.

Finally Sir George Foster stated that the Government was looking very carefully into the application for incorporation. However essential it might be to protect natural resources, capital must be brought in for their development. "Before we raise a cry against capital coming into this country," said Sir George, "we must be sure that we are on reasonable grounds."

A Charge.
Mr. Richardson cited a letter from "a prominent financial man in Toronto" which charged that the merger was an attempt by London and New York manipulators closely connected with the United States Steel Corporation to put a gigantic stock-watering enterprise.

Mr. Richardson said the Board of Commerce was an impotent body which must be made virile to be of any value in protecting the people. "Errol, Toronto, T. Vien, Lotbiniere, and Col. J. A. Currie, Simcoe North, supported the merger."

Against Over-capitalization.
E. W. Nesbit, Oxford, was not afraid of big interests or big corporations because they could always turn out goods better and more cheaply than the smaller ones. He generally opposed, however, over-capitalization. He did not object if the stock went as high as \$500,000,000 if there was value behind every dollar of it.

Referring to the United States Steel Corporation, he had dealt with that concern for years and had always found it most honorable in its dealings. It made and sold goods more cheaply than any other firm of its kind.

In closing, Mr. Nesbit advised the Government to investigate the merger carefully to see there was no water mixed with the stock. The public must be protected, and if there was anything wrong the Government should interfere. On the other hand there were great possibilities in the merger. It might result in a reduction of the cost of steel, and an enable Great Britain to compete more successfully with the United States in the markets of the world.

By Act.
W. F. Maclean, South York, said the only way incorporation should be granted was through Act of Parliament. Then the members would have an opportunity for discussing it.

Investigation.
Hon. W. L. Mackenzie King reminded the House that under the Combines Investigation Act of 1910, not only the Government, but the people themselves could demand an investigation into the purpose and methods of such a merger.

D. D. McKenzie advised keeping a tight rein on the corporation.

Some Laughter.
Questioned by Mr. Archambault, Chambly-Verchere, he said that the merger would not control coal mines any more than was done by the present companies. Mr. Archambault: "Will it reduce the price of coal?" Mr. Vien: "I think so!" (Opposition laughter.)

Making Inquiry.
Sir George Foster suggested that any discussion on free trade or protection should be reserved until the budget was brought down next week. The British Empire Steel Corporation was applying for incorporation. It could only get it by coming to Parliament or through the facilities provided under the Companies Act. The application was before the Government. Sir George continued, the Government was looking very carefully into the grounds on which the application was based and would make a very thorough inquiry. However essential it might be to protect the natural resources, capital was needed in the country for their developments and "we must try to be reasonable in trying to join the two together so far as we possibly can. Before we raise a cry against capital coming into this country we must be sure we are on reasonable ground."

LIFT OFF CORNS!

Freezone is magic! Corns lift off with fingers without pain

Hurt! No, not one bit! Just drop a little Freezone on that touchy corn. Instantly it stops aching, then you lift that bothersome corn right off. Yes, magic! Costs only a few cents. Try Freezone! Your druggist sells a tiny bottle, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the mysterious discovery of a Cincinnati genius.

"IT PROVED A REAL BLESSING TO ME"

That Is What Vancouver Woman Says After Tanlac Restored Her Health

"I think it is just wonderful the way Tanlac has overcome my indigestion and other troubles, and restored me to where I am now a well and happy woman," said Mrs. A. Violet, of 1223 Cotton Drive, Vancouver, B. C., when seen at her home by the special Tanlac representative.

"For three years I had to be on a special diet most of the time because of indigestion. I couldn't eat anything with fat or spices in it, and although I had a fair appetite I didn't dare to eat very much because of what I knew I should have to suffer afterwards. Even though I was so careful what I ate my food would seem to lie on my stomach like a lump of lead, and would ferment and pump and cause my heart to palpitate and almost cut off my breath. I used to get up in the mornings with a bad taste in my mouth that I couldn't get rid of, and frequently had such dizzy spells that I couldn't do my work, and was afraid to go down town for fear I might collapse. Then, too, I used to have pains in the back right over the kidneys so that some days I was hardly able to move and to try and stoop over was torture."

"But my weakness and indigestion didn't last long after I started taking Tanlac, for I have only taken three bottles of it so far, and already I have regained my lost strength, and can now do my housework with ease. My appetite is fine, and I can eat and enjoy anything I fancy, and never suffer a bit with indigestion, gas or palpitation afterwards. I no longer wake up with that sad taste in my mouth as I used to do, and have been entirely relieved of pains in the back, dizziness and headaches. I am sleeping better now than I ever did in my life, and get up in the morning feeling just fine. I have gained several pounds in weight, and am stronger and better in every way. Tanlac has proved a real blessing to me, and I make this statement in the hope that it may help others back to health too."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

BOLSHEVIKI CHANGE PROPAGANDA PLANS

The Hague, May 4.—Via London, May 5.—According to Moscow wireless dispatches received in Holland, Amsterdam as a Bolsheviki world clearing house is to be no more. At a conference held in Moscow, attended by Norwegian and Swedish Bolsheviki, it was decided to strip Amsterdam of power because the Communists there differed with the principles of the Moscow Bolsheviki. The former functions of the Amsterdam Reds have been transferred to a West European secretary under Karl Radek.

BRITAIN MAY OWN NUMBER OF RAILWAYS

London, May 5.—The Government is considering an appeal made by the Ministry of Transport by which the State would purchase a majority of the smaller railway companies in the country and lease them to the large companies, according to The Evening Standard.

The newspaper adds that the railroads would be administered in four groups and that large economies in administration and cost of running would be effected. There are now 125 district railway companies, a majority of which are very small concerns.

Economy and Patriotism in Your Clothes Buying

NO LONGER do the styles "just from Paris" or "exclusive American styles" have the strong appeal that they had in the past. Canadian women in general, and Victoria women in particular, are convinced that Canadian made ready-to-wear is equal to, and in most instances, better than the imported kind.

Mallek specializes in Canadian made garments and, by careful buying, is enabled to cater to the clothing needs of the women of Victoria, at prices much below the ordinary, with qualities and styles of the highest order.

You are invited to investigate these statements for yourself. It will pay you to do so.

THOSE NEW PIERS.

The Dominion Government must be aware that the new ocean docks constructed at this place at a cost of nearly three million dollars are not being used. It may be assumed that with the provision of adequate cargo-handling appliances at those piers, steamship companies whose vessels call here would make use of them, thus disturbing the melancholy silence which broods over them.

Several years ago when the Hon. J. D. Reid, then Minister of Railways, and D. B. Hanna, President of the Canadian National Railways, were here, a deputation from the Victoria Board of Trade urged upon them the establishment of a free port area, and they appeared to be favorably disposed to the proposal. But Ottawa and the East, we fear, will require much educating in the actual meaning and advantages of a free port before it will agree to such a scheme. Protectionists are sure to regard it as the thin edge of the wedge of free trade, although, of course, it is an altogether different thing.

Hamburg, a free port in a protectionist Germany, is a case in point. If our ocean docks and vicinity were a free port area they would be simply a repository and distribution depot for goods brought here by ships to be re-exported to Canadian Pacific and American Pacific points, becoming subject to the tariff conditions of the two countries upon their admission for consumption. This would be one means of making the harbor improvements serve the purpose for which they were intended, and a factor in the yield of some kind of a return on a national expenditure in that neighborhood—on breakwater and piers—of some \$5,000,000.

There are other means to this end. Among them is the establishment of direct communication with the railway terminals on the former reserve, so that the piers may become a real nexus between the ocean and rail services, both of which are now, figuratively, more or less in the air. It is too late to discuss the question of whether the piers were erected in the right place or not. In all probability they were not; but they are there and must be utilized.

Whatever obligation of new enterprise is created by the ocean docks, however, does not rest entirely upon the Dominion Government. It is shared by the people of Victoria in a very substantial measure. The best way to bring shipping to a place is not by erecting docks. It is by creating business for ships, and in this particular case it is by promoting the development of Vancouver Island, by encouraging settlement and the exploitation of the island's abundant and varied resources.

Ships come here to bring or get freight and passengers; they will not come merely for the sensation of docking at elaborate piers or to enable their officers and crews to revel in the beauty of our scenery or to enjoy our climate. If Vancouver Island were properly developed and Victoria became its chief shipping port our new ocean piers soon would be found wholly inadequate to the growing demand for port facilities. The key to all our economic problems lies in the splendid potentialities of this island.

EVADING THE TREATY.

Die Freiheit—the Independent Socialist organ published in Berlin—quotes General von Zecht, the chief of staff, in its assertion that the 286 guns discovered by the Entente Control Commission at Stettin recently were moved by a secret arrangement reached with the full knowledge and approval of the Minister of Defence. Under the provisions of the Treaty of Versailles, of course, Germany was allowed to retain only 186 guns and, as Die Freiheit very properly observes, incidents such as this are bound to inspire the Entente with the deepest distrust. Nor should the detection of this one collection of guns decrease the vigilance of the Commission, for it may be taken for granted that the militarist faction has exhibited no scruple in its interpretation of the terms of the Treaty. It is highly probable that many similar war stores are to be found in various parts of the country and inspection should be prosecuted until the Control Commission is satisfied that the demands of the victors have been met.

THE EXPORT LUMBER TRADE.

Local lumbermen challenge the statement of Mr. Norman Johnston, Canadian Trade Commissioner at Bristol, that British Columbia mills were indisposed to alter their standards to conform to the demands of the European market, and claim they always have been ready to quote Old Country buyers according to their own specifications. Lack of bottoms, they declare, is the chief obstacle to a more active development of the lumber trade between Great Britain and this Province. This suggests that it might be found profitable to inaugurate a "drive" upon the British Government for the necessary vessels through the medium of the Agent-General, who has been not only an ardent advocate in behalf of British Columbia's lumber in general but also a champion of the cut-to-fit house scheme. Europe is urgently in need of British Colum-

bia's forest products in one form or another; and if the mills of this Province are prepared to cater for it and increase their collective capacity beyond that at present now meeting a temporary rush at high prices on this side of the Atlantic, we are of the opinion that the resultant benefits would mean much to industrial British Columbia as a whole.

FLATTERING COMMENT.

Appreciation of the manner in which the Public Accounts of the Province were presented to the Legislature at its recent session is not confined to the financial journals of the country. A number of the large dailies of the middle western and eastern Provinces have joined in a chorus of commendation.

The Financial Post comments upon the fact that the document under review is the first annual statement of Public Accounts of any Canadian Government—whether federal or provincial—to be issued with revenue and expenditures of each Department of the Government segregated under one heading including corresponding tables showing actual and estimated revenue and expenditures in each item side by side. The Toronto Globe acknowledges the excellent example set to other Governments, while Canadian Finance refers to the fact that Manitoba's two-year start in its efforts to improve Governmental accounts has had to give place to British Columbia's lead. The Canadian Municipal Journal describes the financial document as a model in efficiency and compilation and worth following not only by other Provinces, but by the municipalities of the country.

It is satisfactory to have our financial operations so clearly set forth. Clarity in such statements will create a favorable impression upon outside investors interested in the financial policy of our Government as a guide to their own investments.

NOTE AND COMMENT

Section 5 of the Industrial Disputes Act says: "Wherever any dispute exists between an employer and any of his employees, and the parties thereto are unable to adjust it, either of the parties to the dispute may make application to the Minister for the appointment of a Board of Conciliation and Investigation, to which board the dispute may be referred under the provisions of the Act." The interpretation clause of the Act defines "employer" as any "person, company or corporation employing ten or more persons and owning or operating any mining property, agency of transportation or communication, or public service utility, including railways, steamships, telegraph and telephone lines, gas, electric light, water and power works." These provisions are worth mentioning in view of the extent to which they are dodged in certain quarters including even Ottawa. If they mean what they say anybody or any corporation operating a public utility is subject to the Act.

Why exclude the street sweepers from the city's offer of a ten per cent. increase to its employees? Has the street sweeper discovered some magic which renders his meagre income immune to the assaults of the formidable legions enrolled under the black flag of General High-Cost-of-Living? Surely not, for in that case he would not need to work for the municipal corporation or any other corporation. Why, then, is he left out?

Senator Roderick Clive Pringle, who died in Ottawa on Sunday, was widely known and highly respected in British Columbia where he once resided and to which he was a frequent visitor. His striking personality and genial manners will be especially remembered by former residents of the Kootenay country where he spent considerable time before residing in Ottawa. He was a big man in every way.

OTHER NEWSPAPERS' VIEWS

FINANCIAL MADNESS

(The New York Sun and Herald)
Lord Rothermere warns his countrymen that Great Britain, like the rest of Europe, is afflicted with financial dementia. So is this country.

It is financial madness for the United States Government to be spending money—spending it seventeen months after the war—at the rate of more than seven billions of dollars a year. It is financial madness for the United States Government to be piling up a deficit at the rate of between three and four billions of dollars a year. It is financial madness for the United States Government, when it is pouring three-quarters of a billion of dollars into railroad losses, nearly half a billion of dollars into Shipping Board expenditures, and two-thirds of a billion of dollars into interest on the public debt, to propose to pile on top of such prodigious outlays and deficits billions more of indiscriminate bonus distributions and other drains of the national treasure.

It is financial madness for the American people, when they are facing interminable taxes of stupendous volume, when men will not work and capital will not flow, to be borrowing billions of dollars to put into new construction, reconstruction, extensions and improvements at prohibitive costs of interest, prohibitive costs of materials, prohibitive costs of labor.

It is financial madness for the American people, when they are facing like taxes, facing inordinate living costs, facing a desperate struggle to make both ends meet, to be spending money like men delirious on all sorts of non-essentials, pleasure indulgence and follies.

When the only way to decrease prices of commodities is to increase production and the only way to have money enough to do the nation's legitimate work is to stop prodigal waste, it is financial madness and it is economic madness for hundreds of thousands of workers to be necessarily off their jobs on strike but for all the public to go on spending none the less wildly.

The United States Government must check its mad spending and pay up its billions of I. O. U.'s. The American people must cut off every penny of waste that can be trimmed from their careless, reckless spendings and get down to hard work. If the United States Government and the American people both together don't slap on the brakes, then, with all the riches Nature has bestowed upon this country, with all the opulence there is for its sons to gain by energy, industry and thrift, we shall go careening through financial squander and economic profligacy into disaster as terrific and lasting as fell upon Europe through war's carnage and destruction.

STATE RAILROAD STRIKE BROKEN

Failure, Say Officials in France; Strike Leaders Remain Optimistic

Paris, May 5.—Despite official claims that the general railroad strike in France was virtually broken, labor leaders to-day maintained an optimistic attitude, claiming the outlook was favorable for ultimate success of the movement. The mine and dock strike situation appeared unchanged.

Opinion Last Night.

Paris, May 5.—Announcement that the strike of railway workers throughout France was virtually over was made in official quarters here last night. Since Saturday traffic has been seriously embarrassed, but volunteers have taken the material aid, and yesterday a large number of strikers returned to their posts.

Miners in the Anzin Basin have voted to go on strike May 7, but the situation in Northern France seems to be improving. Reports received yesterday showed about thirty-five per cent. of the miners at work, and labor leaders indicated a complete tie-up of the industry was impossible because of the failure of the railroad men to call out all men engaged in the transportation services.

At Ports.

At the principal French ports, the strike of navy and dock workers is almost complete. Cranesmen and volunteers remain at their posts to unload perishable goods from vessels. Many fashionable women have offered their services to the Government and some have been on duty as chauffeurs, ticket takers at the subway stations and at other posts deserted by union workmen.

NOMINATIONS FOR ROTARY CLUB OFFICES

Nominations for office in the Rotary Club, as published in this week's Rotary Bulletin, following the withdrawal of a number of nominees, are as follows:

President, C. Denham; first vice-president, C. H. French, J. H. Beatty, A. C. Flumerfelt, E. J. Down, P. B. Scurrall, James Adam; second vice-president, Alex. Peden, J. C. Pender, W. S. Terry, A. T. Purser, H. P. Johnson, C. H. French, E. C. Hayward; treasurer, C. B. Beaville, L. H. Rines, Stewart Williams, P. B. Schmeek, sergeant-at-arms, G. L. Warren, P. B. Schmeek, W. A. McAdam, R. R. Webb; three directors, C. Bushby, R. Hothorington, J. H. Talling, Lester Patrick, W. S. Terry, R. A. Playfair, A. C. Flumerfelt, E. C. Hayward, Gordon Jameson, J. H. Fletcher, C. B. Jones, T. P. McConnell, Herbert Kent, V. C. Martin, Steve Jones, T. O'Brien, R. W. Mayhew.

FOR MISSION WORK

Methodist Women of B. C. Raised \$15,885 Last Year; Interesting Topics on Annual Agenda.

Much money was raised by tribune hostesses of the Methodist Women's Missionary Society last year in British Columbia according to the report presented by the treasurer at to-day's session of the annual meeting. Auxiliaries throughout the province raised \$11,951.77, and Bands and Circles raised \$3,933.60 for mission work. The remainder of the morning session was taken up with routine business incidental to the opening of the annual conference.

This evening Mrs. Hoekin, of West China, will give an address descriptive of her work, and Miss E. Alcorn will give an illustrated talk on Japan. At Thursday morning's session various subjects will be discussed, including "Department of the Stranger" led by Miss K. Nixon, "The Rest Fund," Mrs. F. C. McDonald; Problems of the W. M. S. in Union Churches, Mrs. C. A. Wickens; Delegates, expenses, Mrs. Derynshire, and the Methodist Training School, Mrs. A. N. Miller.

TWO DISTRICTS FOR MOSQUITO CAMPAIGN

Provincial Department of Agriculture Is Also After Gophers

Under the provisions of the Mosquito Control Act the Provincial Department of Agriculture has recently completed the organization of two mosquito and gopher control districts. These two first districts to be organized under the machinery provided by the Act are in the Slokan River valley near its junction with the Kootenay River, and the headquarters of each are at Applede and Shoreacres respectively.

As soon as the boundaries are duly announced by proclamation the additional organization work will pass to the Public Works Department, whose engineers will inspect the districts and make their recommendations in respect of ditching and draining necessary to give effect to the policy to be inaugurated.

An understanding already has been reached by the two districts involved to the effect that the maximum special rate of two mills on the assessed value of all real property within the area concerned, the proceeds of such special rates, of course, will be applied towards meeting the expense incurred by the Public Works Department.

While no definite policy in connection with the actual control work has as yet been decided upon at the moment, it is anticipated that as far as gopher control is concerned the campaign will be largely along lines of purchasing poison for co-operative action.

WARREN CEASES TO BE PRESIDENT OF KETTLE VALLEY RY.

Vancouver, May 5.—Confirmation of the rumor that he is retiring from the presidency of the Kettle Valley Railway is given by J. J. Warren, who is also managing director of the Consolidated Mining & Smelting Company. He is now visiting the coast, accompanied by Dr. Capp, of Toronto, who is making his first tour of the Province.

In an interview Mr. Warren stated that he would assume the less onerous position of chairman of the board of the Kettle Valley Railway, which would now be formally incorporated with the Canadian Pacific system.

MAY MINGLE.

New York, May 5.—A Panama dispatch says that Major-General Charles E. W. Kennedy, commander of the Panama Canal Department, yesterday raised the restrictions prohibiting American officers and men mingling with Panamanian officials of the Republic.

The Ministry of Health has just approved of houses made of steel frames and metal sheets encased in concrete. In building, the roof can be put on before the walls are up, thus protecting the workmen from rain.

In Oregon, U. S. A., hay is loaded and packed into freight cars by means of an air blast. The hay is drawn up to a deck beside the car by a crane, and a powerful air-blower hurls it into the car, pressing it down and packing it.

LETTERS

Letters addressed to the Editor and intended for publication must be short, and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

THE INSTRUMENT HE USED.

To the Editor:—We notice in yesterday's issue of your valuable paper an advertisement which distinctly states that the great master Leopold Godowsky uses a certain piano exclusively. That the public may not be under any misapprehension regarding the piano used at this memorial meeting of the Royal Victoria Theatre, we wish to make a plain statement a fact. Godowsky owns and invariably uses a Knabe Piano whenever available at all recitals. Owing to railway strikes the Knabe Concert Grand did not arrive in time. To keep faith with the public and knowing that a small Knabe would not be large enough to do justice to this master pianist, we were able, through the courtesy of Mr. Herbert Kent of the Kent Piano Co., of Vancouver, to obtain at all last moment a Steinway Concert Grand, the only concert grand available in British Columbia. So that our advertising is quite truthful and consistent with the facts.

**VETERANS DEMAND
 McLEAN'S REMOVAL**

Say His Statement Is "Snobbish and False in Spirit"

Removal of Brigadier-General H. H. McLean from the Committee on Pensions and Re-establishment is demanded in a strongly worded resolution passed by the Great War Veterans' Association at its meeting last night.

The resolution, moved by Comrade A. H. G. Jones, seconded by Comrade Dick, was as follows:

"That this meeting of the Victoria branch of the G.W.V.A. have noticed with indignation the reported statement of Brigadier-General H. H. McLean, at a meeting of the committee on pensions and re-establishment. The meeting repudiates the statement as untrue, in fact, snobbish and false in spirit. This meeting, speaking for itself and for the rank and file of the late C. E. F., and for the decent and many officers of the C. E. F., and the widows and orphans of the common soldier, demand the removal of Brigadier-General H. H. McLean from the committee as a man unfit to represent, stand for, or associate with the veterans of the late war."

Ottawa, May 5.—(Canadian Press)—The following statement on what took place at Monday's meeting of the Special Committee on Pensions and Re-Establishment, was made at yesterday's session of the Committee:

Brigadier-General McLean: "I did not say that most private soldiers married the servant girls. The official stenographer's report of what I said is as follows:

"Most of the private soldiers who married servant girls were in that class who were earning their living before."

"I was trying to point out that as many of the young women who had married soldiers either before or after enlisting and were childless, were used to working, they should be encouraged to continue working, and that their pensions should be less than for the widow with children. My sympathy goes out first to disabled soldiers, orphans, widows with families to support and widowed mothers who have lost their only support."

"WHAT'S THE USE?"

Grand Jury Says Its Recommendations Are Never Heeded; Sends Short Report

Nobody ever pays any attention to the recommendations of grand juries, so what is the use of wasting time going around making them?

This was the attitude adopted yesterday afternoon by the grand jury headed by E. S. Heisterman at the opening of the Spring assizes.

The jury returned true bills against Quong Hing Jong for a Chinese murder in Chinatown; Jennie Carson for forgery; Ah Louis Moke for rape, and against Udo to attempt the murder of an officer of his ship in Esquimalt.

After the A. R. Hatch and Ralph Hatch boat conversion case which came over from the last assizes, the trials will come on in this order: Udell, Carson, Ah Louis Moke and Quong Hing Jong.

The grand jury report said: "It is the opinion of this grand jury, in view of our belief that the reports of the grand juries of previous years, as to institutions visited, have simply been filed without further action; and in view of the necessity for economy, it is undesirable for this jury to waste its time or the useless expenditure of the Government's money."

BICYCLE WEEK.

The increased interest in bicycling is shown by the fact that the prize money in the six-day bicycle race in Madison Square Garden last March totalled \$50,000, of which \$10,000 was offered for special sprints during the "grind." A number of the riders were fined for infraction of the racing rules during the event, and this money has been set aside by the bicycle governing body of the United States to help pay the expenses of American amateurs to the Olympian games at Antwerp.

Just as soon as the big race was concluded, the winning team secured further revenue by signing a dull tract for a theatrical engagement of four weeks.

**GLASS OF SALTS IF
 YOUR KIDNEYS HURT**

Eat less meat if you feel Back-achy or have Bladder trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you will feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is had you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a forkful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

ECONOMY WEEK

Featuring Merchandise That Will Help You to Economize

An Important Sale of Tweed and Serge Suits At \$35.00 Each

Homespun and Tweed Suits—all silk and satin lined. Serge Suits, in newest styles made from navy coating.

You will readily appreciate the splendid saving you will make in the purchase of one of these suits.

Suits made in the latest approved styles for Spring and Summer wear, representing the models that are most favored this year.

There are values here that will surprise you, assist you greatly in your economizing and satisfy you in the highest degree.

A BEDTIME STORY
UNCLE WIGGILY AND JIMMIE'S JITNEY.
By HOWARD R. GARIS.
Copyright, 1920, by The McClure Newspaper Syndicate

Out in the yard, behind the Wiblowable duck house, Uncle Wiggily Longears saw Jimmie, the boy duck, working away at a soap box, some wheels, pieces of tin, bits of string and other things.
"What are you making, Jimmie?" asked Uncle Wiggily.
"I am making a jitney," answered

IN WOMAN'S DOMAIN

BISHOP BREWING VISITS CHURCH

Bishop Brewing, who at present is visiting Victoria, attended the sale of work held in the Reformed Episcopal Church last night and addressed a number of the church workers. He referred to the work of the Reformed Episcopal Church in England and also to the movement to unite the Reformed Episcopal and the Free Churches of England. He brought very good reports of the church in the East, stating that none were receiving any financial assistance but were able to stand alone.

Rev. A. de B. Owen, rector of the Reformed Episcopal Church here, replied to the Bishop's address, and expressed the hope that the Bishop would convey to the Eastern Church the greetings of the Victorian institution.
The sale was most successful, a large number of dainty articles, made by the ladies of the congregation, being disposed of.

Girls' Corner Club—A large attendance is expected at the Corner Club rooms, Odd Fellows' Hall, on Thursday evening, when the girls will entertain their mothers. A dainty supper will be served at 6.15, followed by a programme of songs and recitations which the girls, with the kind assistance of Mrs. E. Johnson, have been preparing for some time. Bishop Brewing, of Toronto, will also be a visitor and will give a short address.

way home, the bunny gentleman felt a very bad rheumatism pain.
"Oh, my! Ough! Oh dear!" cried Uncle Wiggily.
"Oh my! Ough! Oh dear!" cried Uncle Wiggily.
Uncle Wiggily as he had to sit down on "Oh, Uncle Wiggily! What's the matter?" quacked Jimmie, as he came along and saw his bunny uncle sitting on a log.
"Is my rheumatism," said the rabbit. "I can't walk or hop."
"Ha! Then I am just in time to give you a ride in my jitney!" said Jimmie.
"But will it—will it be safe?" asked Uncle Wiggily.
"Why, sure!" quacked Jimmie.
The rabbit uncle was slowly and painfully getting up to take a seat in the soap box jitney when, all of a sudden, there was a loud growl and out from behind a lollipop bush jumped the bad old fuzzy fox.

"Before you take any mouse, Mr. Fox, would you not like a ride in my jitney?"
"Well, maybe I might," gargled the fox, as he got in. "But mind you, don't you dare run away while Jimmie is giving me a ride!" he said to Uncle Wiggily.
The fox got in Jimmie's jitney and the duck boy started to run with it, pulling it like an express wagon. Around and around in a circle near the log on which Uncle Wiggily sat, Jimmie pulled the fox in the jitney. Faster and faster Jimmie ran until, all of a once, a wheel broke and came off.
"Stop! Stop!" howled the fox, holding fast with his paws. But Jimmie did not stop. He went faster. Then the bottom came out of the jitney, and let the fox down on the ground with such a hard bumpy bump that his teeth bit his tongue.
"O, do you call this a nice jitney ride?" mumbled the fox to Jimmie.
"Well, I couldn't help it," said the duck boy trying not to laugh. "If you wait until I fix my jitney—"

"Wait! I guess not!" howled the fox. "I've got to go to see a doctor!" and away he ran through the woods his bitten tongue hurting him so much that he couldn't eat any mouse for a week.
Jimmie and busted my jitney on purpose to scare the fox," said Jimmie to Uncle Wiggily. "But now I can't ride you home."
"You don't need to," spoke the bunny gentleman. "I laughed so hard when I saw the funny way the fox fell through the bottom that my rheumatism is all better. I can walk now."
And if the white wash brush doesn't want to play with the ink bottle when it ought to be painting the back fence, I'll tell you next about Uncle Wiggily and Sammie's skates.

Horlick's the Original Malted Milk—Avoid Imitations & Substitutes
MRS. ROBERTSON HAS RETIRED FROM OFFICE
The Board of the Victorian Order of Nurses at its monthly meeting at the headquarters, Rockland Avenue, yesterday afternoon, received with sincere regret the resignation of the president, Mrs. Harold B. Robertson, who retires from office after several years of constant and faithful service. The meeting recorded its deep appreciation for her work.

There were present, besides Vice-President Mrs. Goulding Wilson, who presided, Mesdames Rose Sutherland, H. H. Rowley, Brett, Cook, Phipps, Price, Hartley, Hardie, Rhodes, Lawson, Miss Kennedy and Miss Mary Lawson.
Monthly reports, submitted by Miss McNair, showed that forty-nine new cases had received attention and a total of 375 visits were paid during April by the three nurses

Scout Stocking

Many Victorians will be interested in the marriage of Miss Agnes Stewart, only daughter of Mr. and Mrs. Robert Stewart, of 1152 Fernside Street, to Mr. Harold Mercer, youngest son of Mr. and Mrs. Thomas Mercer of this city, which was solemnized by the Rev. Dr. Cairns, Tuesday evening at 8 o'clock in the presence of immediate relatives and friends only. The house was tastefully decorated with flowers and the ceremony being performed under a huge wedding bell. The bride, who was given away by her father, was a charming picture in a simple gown of ivory satin and richly embroidered veil, which was arranged in coronet style, and carried a shower bouquet of bridal roses and eucalyptus. The bridesmaids were in a frock of palest primrose silk and daintily embroidered, was flower girl. Attending the bride was Mrs. G. Swain, of New Westminster, a cousin of the bride, prettily gowned in pink tricot and georgette, carrying a bouquet of pink carnations. Mr. Leonard Wilson was best man. Immediately following the ceremony a buffet supper was served by the girl friends of the bride. The bridegroom's gift to the bride was a handsome black fox fur; to the matron of honor a pearl pendant, and a gold brooch to the flower girl. The bride's gift to the bridegroom being a pearl and olive scarf pin. Out of town guests included Mrs. John Stewart and Mrs. G. Swain, of New Westminster; Mrs. M. H. McLean, of Ottawa, and Mrs. Oates and Miss Macle, of Everett, Wash. Mr. and Mrs. Mercer left by the midnight boat for Vancouver en route to Harrison Hot Springs, where the honeymoon will be spent, the bride going away in a becoming suit of Wedgwood blue and hat en suite. Mr. and Mrs. Mercer, who were the recipients of many handsome presents, will reside in Vancouver.

At the First Presbyterian Manse yesterday afternoon at 3.30 the Rev. J. G. Inkster solemnized the marriage of Alexander Logie, son of Mr. and Mrs. Wm. Logie, of Morayville, Scotland, and late of the 67th Battalion, C.E.F., to Lydia Inkster, daughter of Mr. and Mrs. David Inkster, of Orkney, Scotland, and niece of the Rev. J. G. Inkster. The ceremony was performed in the presence of immediate relatives only. The bride, who wore her traveling suit of mole gabardine with becoming hat of rose color, and furs, the gift of the bridegroom, was attended by Miss Elizabeth Grant, niece of the bridegroom. John Taylor acted as groomsmen. After the ceremony a dainty wedding breakfast was served. Mr. and Mrs. Logie left on the afternoon boat for Seattle and on their return will make their home at 1739 Haultain Street.

The following from the Vancouver Daily Province of yesterday's date will be of interest to local friends of Nurse Frampton: "The people of Powell River met on April 21 to honor Nurse Frampton, who has been nurse in St. Luke's hospital there for the past four years but who has, owing to a severe illness, been compelled to discontinue her work and is now taking a prolonged rest at her home in Victoria. During the evening a good program of songs was carried out and a beautifully illuminated address was presented expressing the esteem in which the recipient was held by her friends and acquaintances, to whom she has rendered such unselfish service. A large purse has been subscribed as a memorial to the service rendered by her to the people of Powell River."

The wedding of Miss Hilda Southwell, eldest daughter of Mr. and Mrs. Geo. H. Southwell recently of Victoria, and Lieut. Gordon Douglas Stewart, N.S.R., only son of the late Mr. and Mrs. E. Bunt of Victoria, took place at Christ Church, Vancouver, on Monday afternoon. The ceremony was performed by the Rev. W. H. Vance. The bride was given away by her father and attended by her sister, Miss Nora Southwell, and Miss Roxie Bunt. Geo. L. Southwell supported the groom. Mr. and Mrs. Bunt left for Portland where the honeymoon will be spent, and upon their return will take up their residence in Vancouver.

Mrs. Emmeline Pankhurst and Mrs. J. D. Gordon were the guests of honor at an informal tea given at the Empress Hotel yesterday afternoon by the executive of the Women's Canadian Club. Those present included Mrs. Jenkins, Mrs. J. J. Gallihier, Mrs. Hyndman, Mrs. Humphreys, Mrs. J. H. Fletcher, Mrs. Taylor, Mrs. C. C. Spofford, Mrs. A. Thomson, Mrs. Adams-Bell, Mrs. Coates, Mrs. H. Lasenby, Mrs. Conyers and the Misses Page and Cato, who arrived from England on Thursday last.

Major F. B. Edwards and Lieut. C. W. Gordon are struck off the strength of the C. E. F. according to military orders, on completion of their duties at the Chinese Repatriation Camp, William Head.

The Florence Nightingale Chapter of the I.O.O.F.E. Monday voted the sum of \$25 to the Widows and Orphans' Fund, and a similar sum to be used for needy purchases.
Chas. Friend and family, of St. Paul, Minn., are making the Dominion Hotel their headquarters

whilst enjoying the tourist attractions of the island.
Mrs. J. P. Smith, accompanied by her two daughters, left for Seattle this afternoon, to bid farewell to her eldest daughter, Miss Doris P. Smith, who will leave Thursday for California for her health.

A. J. Hodgkins and family, of Winnipeg, are among yesterday's arrivals from the prairies at the Dominion Hotel.
Capt. V. C. Best, of Galliano Island, is spending a few days in Victoria and is at the Dominion.

Mr. and Mrs. W. E. Short, of Montreal, registered at the Empress Hotel yesterday.

Mr. and Mrs. John F. Pryn, of Hanford, Cal., are registered at the Empress Hotel.

Mr. and Mrs. J. H. Carter, of Everett, arrived at the Empress Hotel yesterday.

Mr. and Mrs. C. R. Reid, of Sudbury, Ont., are guests at the Empress Hotel.

J. A. Seyman, of Adelaide, Australia, is stopping at the Dominion Hotel.

Thurston Fairhurst, of Vancouver, is staying at the Empress Hotel.

S. R. Waller, of Fochow, China, is a guest at the Empress Hotel.

TO USE EAST WING.
New Westminster, May 5.—The maternity section at the Royal Columbian Hospital, in a few days, will be transferred to what is known as the east wing. During the latter stages of the war and up to a few months ago, this wing was known and used as a military hospital for the treatment of wounded and sick members of the Canadian Expeditionary Forces. The maternity building, once it is vacated, will be overhauled and renovated and set apart as a home for the graduate nurses, members of the staff, the present nurses' home being used exclusively by nurses in training.
On Saturday last a very pretty silver tea was held at Elginville, Crofton, the home of Mr. and Mrs. Dyke, when their many friends assembled to congratulate them on the advent of their silver wedding. Among those present were the Misses Dyke, Mrs. E. Waller and son, of Victoria, Mr. and Mrs. Dyke were the recipients of many handsome presents.

HATCH CASE IS PROCEEDING IN COURT

The defence of A. R. Hatch and his son Ralph, on trial at the assizes before Mr. Justice Macdonald and jury, charged with theft of a rowboat, was opened at noon to-day by R. C. Lowe. The Hatch case was up before the court last Fall, but the jury then was unable to agree and another trial was ordered.

Mr. Lowe charged that an alleged confession of certain incidents signed by young Hatch was forced from him by the police without warning or cautioning him. It was charged that the police awoke young Hatch at one o'clock in the morning, told him that his father was in jail "and that is where you are going to be put." He was then rushed to police headquarters, where a "confession" was written out after a number of police and detectives fired leading questions at him. He was then told to sign the "confession."

Ralph Hatch went on the stand and swore that Constable Prior, of

Oak Bay, told him that "he would like to see things straightened out as he did not like to see his father get into trouble."

A. R. Hatch, the father, swore that he bought the boat for \$15 from a fisherman whom he had never seen before or never seen since and whose name he does not know.

The trial is proceeding this afternoon.

OBITUARY RECORD

The funeral of the late Freda Florence, the six-year-old daughter of Mr. and Mrs. Frederick Daniels, took place from the residence, 1046 Clare Street, yesterday morning, at 10.30, where service was conducted by the Rev. G. H. Andrews. There were numerous friends present, and the little casket was covered with floral tributes. The remains were laid to rest in Ross Bay Cemetery.

The remains of the late Isabella Glendinning Robb, who passed away at the Royal Jubilee Hospital on May 3, were forwarded this afternoon by the Sands Funeral Co. to Vancouver, where interment will take place in the family plot in Mountain View Cemetery.

SUGAR DEMAND GROWS AS FRUIT SEASON NEARS

Wholesalers Struggle For Supplies as Housewives Stock Up

Although the demand for sugar in Victoria is tremendous, the price here and on the Coast is lower than anywhere in Canada, local wholesalers learned to-day when they made efforts to bring in sugar from Eastern Canada.

The would-be importers learned that the lowest price they can get for Eastern sugar landed here is 26 cents a pound. The wholesale price here for the Vancouver sugar is still 18 cents a pound. The retail price in Victoria stores is 22 cents a pound to-day.

Everyone is now trying to buy sugar, wholesalers explained as to their reason for trying to get extra supplies now. Housekeepers are beginning to stock it up for the fruit season. With the cheapest sugar in the country here, the women believe that sugar will not go any lower and that it will pay them to put down their own fruit and preserves this season rather than buy manufactured stuff using high-priced Eastern sugar.

Practically every wholesale house in Victoria is now carrying a carload of sugar at the end of this week. The price will likely be advanced again proportionate to the advance in Eastern prices.

PILOTAGE OFFICIALLY TO END ON THURSDAY

Acting - Superintendent Received Copy of Government Order-in-Council

Captain Charles Eddie, acting superintendent of pilots, British Columbia district, has received a copy of the Dominion Order-in-Council dealing with the abolishment of compulsory pilotage on this coast.

The Order-in-Council reads as follows: His Excellency the Administrator in Council.

Whereas by Order-in-Council, dated 10th September, 1919 (P. C. 1876), amended by Order-in-Council, dated 20th December, 1919 (P. C. 2525), a pilotage district was established called the "Pilotage District of British Columbia," within the limits of which the payment of pilotage dues was made compulsory, and for which district the Minister of Marine and Fisheries was appointed the Pilotage Authority;

And whereas the Minister of Marine and Fisheries reports that the Superintendent General of Pilotage has recommended that under the circumstances obtaining at present in said district, it would be in the interest of navigation and of the public generally that the said pilotage district be abolished and that the Deputy Minister of Marine and Fisheries concurs in this recommendation;

Therefore His Excellency the Administrator in Council, on the recommendation of the Minister of Marine and Fisheries, is pleased to order, and it is hereby ordered as follows:

The said Order-in-Council of 10th September, 1919 (P. C. 1876), and 20th December, 1919 (P. C. 2525), are hereby repealed and cancelled to all ends and purposes from and after the 6th day of May, 1920, and the said Pilotage District of British Columbia is, from and after the said 6th day of May, 1920, hereby dissolved and abolished, and the authority of the Minister of Marine and Fisheries as the Pilotage Authority for the said district is, from and after the said time hereby suspended and annulled.

(Sgd.) RODOLPHE BOUDREAU,
Clerk of the Privy Council.

FOUL BROOD BEES ACT IN OPERATION

With the advent of the Spring season, the Provincial Department of Agriculture has re-appointed a number of bee inspectors to conduct operations under the provisions of the Foul Brood Bee Act. The following is the personnel of the new inspectors: W. J. Sheppard, Chief Inspector for British Columbia, Nelson, who will take charge of the Kootenay district; P. Dundas Todd, Victoria, whose territory will include Vancouver Island and the Gulf Islands, W. N. Turnbull, A. W. Finlay and V. Keir will confine their attentions to the Lower Mainland, including both sides of the Fraser River Valley. No appointment has yet been made for the Okanagan district.

It is understood that the Department has intimated to a large number of British Columbia beekeepers, who failed to register and pay the necessary fee last year, that vigorous action will be taken by the inspectors this year against those who fail to comply with the provisions of the statute.

TO HOLD PRACTICE SHOOT

The recently formed Canadian Scottish Rifle Association will hold a gallery practice to-night at 7 o'clock on the miniature range at the Armory. On Saturday afternoon the association will hold a shoot on the Clover Point range.

R. V. Harvey Chapter, I. O. D. E.—The regular meeting of the Scottish Rite Association will hold a gallery practice to-night at 7 o'clock on the miniature range at the Armory. On Saturday afternoon the association will hold a shoot on the Clover Point range.

R. V. Harvey Chapter, I. O. D. E.—The regular meeting of the Scottish Rite Association will hold a gallery practice to-night at 7 o'clock on the miniature range at the Armory. On Saturday afternoon the association will hold a shoot on the Clover Point range.

Irritable Nerves Restored and Health Regained In a Simple Way

The man or woman who is run-down, not feeling up to the mark, perhaps irritable, nervous or sleepless can well afford to learn about the wonderful results the newly discovered blood-food is giving to folks that use it.

There is wonderful power in this new blood-food, and every weak, pallid person can be quickly nourished back to health that uses it as directed. After each meal, with a sip or two of water, you simply take two little chocolate-coated tablets, sold in all drug stores under the name of "FERROZONE."

The effect is noticeable at once. You feel happier, brighter, more contented. That old-time feeling of weariness departs—you forget your "nerves" and no longer get irritable or cross over trifling annoyances.

There is a reason for this change and that reason consists of the fact that Ferrozone contains blood-making materials you can get in no other way.

Ferrozone makes the blood tingle and sing with new vitality. This ensures lots of nourishment and strength being supplied to every part of the body.

No wonder the eyes brighten and the cheeks radiate color and happiness: With abundance of strength, a keen appetite, good digestion and plenty of sound sleep—all the result of Ferrozone—you quickly feel as if life held new charms and pleasures.

FRAMING TIMBERS ARRIVING AT YARD

Cholberg Mill Will Keep Ahead of Requirements During Construction

Framing timbers are now being delivered at the Cholberg yard from the Port Alberni mills for the first of the wooden barquentines being constructed here by the Victoria Ship-owners, Ltd.

It is planned to commence framing on the ship early next week, the object of the shipyard organization being to have a big stock of framing timbers sawn before construction starts in real earnest.

In order to keep up a steady supply of frames the mill at the Cholberg yard will be kept driving at high pressure, and at all stages of the contract will keep ahead of requirements.

Since the keel-laying ceremony of last Saturday men have been at work preparing the big stick for stem and stern-post of the initial vessel. The nearby ways are being cleared and otherwise made ready for the keels of the next two ships. These keels will be laid as soon as the big sticks are available. Construction will be proceeded with simultaneously on three ships, according to the plans of the organization. Men are being signed up through the medium of the Provincial Labor Bureau, and are being put to work, as required. Between 500 and 600 men will be employed when the contract is more advanced.

FIRST VICTORIA TOMATOES OUT

The wholesale market was excited to-day when the first Victoria-grown tomatoes of the season arrived. They are beautiful firm stuff and thoroughly ripened.

Heavy deliveries of local tomatoes will start next week. The demand for them is very keen. In former years the demand for the early tomatoes was limited to one or two high-class hotels and restaurants. There was no market at all for them in the retail stores.

To-day, however, stores are bidding for deliveries as consumers are keen for them although the price is high. The price for all the local tomatoes that came on the market to-day was \$12 a crate.

Green stuff fell to-day on the wholesale market following the end of the railroad strike in the United States which released quantities of green stuff that have been held up by lack of transportation. Big shipments of California lettuce and cabbage have been brought in.

Rhubarb prices remain firm this season. Dealers attribute it to the keen demand there is for this commodity. In turn they attribute this demand to the high price and scarcity of apples for cooking. A few years ago rhubarb at this time of the year would sell for 2 cents a pound. Last year it was 5 cents. To-day it is 7 cents.

BLOOD DISEASE

There is one great natural remedy that stands the Wassermann test—and stands alone—known locally 40 years for this and other troubles. It is

NIPISAN

A powerful medicinal spring water that produces almost miraculous results. No mercury, Salvarsan or injections. Order by "Container" (six bottles). Lasts 2 weeks. Costs only few cents day. If drug list will not supply you, we will write you for valuable folder sent free in plain sealed envelope. California Medicinal Springs Co., Atlas Bldg., San Francisco.

For sale by D. E. Campbell, drug-gist, Victoria.

DRINKS ACID AND SHOOTS HIMSELF

Dead Body of R. C. Ferguson Found in Windsor Hotel Room

R. C. Ferguson is believed to have committed suicide some time during last night by drinking poison and shooting himself. His dead body was found in a room in the Windsor Hotel at half past twelve to-day.

At a late hour this afternoon city police were still investigating the circumstances of the case, but had been unable to find out anything that would lead them to suspect the man's motive in taking his life. The body was quite cold when found, and it is thought the deed must have been done late last night or early this morning.

Nothing is known of Ferguson at

AFTER SHAVING

Heal the Skin and Prevent Infection with "ABSORBINE JR."

The most healing, most soothing, most effective skin lotion you can use after shaving is one you can make up at home by adding one ounce of "ABSORBINE JR." to a quart of water or witch hazel.

To rub this lotion over the face after shaving is a luxury indeed. It takes away all soreness, prevents chapping and irritation—keeps the skin—and prevents infection.

A solution of "ABSORBINE JR." in water makes an excellent mouth wash; it thoroughly cleans the mouth, destroys germs, and prevents decay; fine for the teeth and gums.

\$1.25 a bottle—at most druggists or sent postpaid by W. F. Young, Inc., Lyman Building, Montreal.

the present time, but the police are endeavoring to locate his friends or family.

An inquest will be held on the body within the next few days.

We do not keep shoes, we sell them. The reason is this, they are all

FAIRS ARRANGED IN FIVE CIRCUITS

Island Exhibitions Will Occupy Whole of September

According to a statement made by the Hon. E. D. Barrow, Minister of Agriculture, this morning, financial reasons have precluded the possibility of holding a convention of the British Columbia Fall Fairs Association and in consequence arrangements for the various annual events and their respective dates have had to be made by means of correspondence with the Provincial Department of Agriculture. Having concluded arrangements in respect of the three big coast fairs the smaller events are grouped around them in five circuits. Forty-three events already have been listed with the Department as per the following schedule of dates, some of which, however, are tentative:

Circuit 1—Lasquet Island, September 9; Parksville, September 9; Saanichton, September 13-15; Ganges Harbor, September 15; Alberni, September 16; Duncan, September 18-19; Victoria, September 20-25; Cobble Hill, September 25; Courtenay, September 28-29; Ladysmith, September 28-29.

Circuit 2—Burquitlam, September 1; North Vancouver, September 3-4; Chilliwack, September 7-8-9-10; Agassiz, September 8; Matsqui, September 9-10; Vancouver, September 11-15; Surrey, September 21; Maple Ridge, September 21-22; Langley (Milner), September 22; Richmond, September 22-23; Mission, September 22-23; Coquitlam, September 23; Aldergrove, September 24; New Westminster, September 27-October 2; Abbotsford, October 5; Ladner, October 8-9.

Circuit 3—Kelowna, September 8-9; Kamloops, September 8-10; Armstrong, September 21-23; Salmon Arm, September 22-23; Summerland, October 13-14.

Circuit 4—Cranbrook, September 1-2; Golden, September 10; Natal, September 8; Atholmer, September 15-16; Nakusp, September 22-23; Needles, September 23-24; New Denver, September 28-29; Nelson, September 28-30; Slocan City, October 5.

Circuit 5—Prince George, between September 15 and 18; Bulkley Valley, September 21; Prince Rupert, September 22-24.

SLOW DEATH

Aches, pains, nervousness, difficulty in urinating, often mean serious disorders. The world's standard remedy for kidney, liver, bladder and uric acid troubles—

GOLD MEDAL HARLEM OIL CAPSULES

bring quick relief and often ward off deadly diseases. Known as the national remedy of Holland for more than 200 years. At all druggists, 50c. a box. Look for the name Gold Medal on every box and accept no imitation.

"GARDEN COURT"

As fine as the mist and laden with the sweet fragrance of many flowers—a true description of the wonderful

Garden Court Talcum

a toilet requisite of merit which should be on every lady's toilet table—the highest quality French talc daintily perfumed with Garden Court Bouquet. It is really a revelation in talc powders.

Come in to either of our stores and try it for yourself—note the silky smoothness, the captivating refined odor. It is entirely different from other talcums.

MANY MORE VACANT LOTS CONSCRIPTED

Hundreds of Citizens Are Raising Vegetables This Year

Victoria's vacant lot campaign continues to boom. Up to noon to-day 550 vacant lots had been conscripted for cultivation—more than twice as many as last year, when 221 were conscripted. This, of course, by no means indicates the number of lots under cultivation throughout the city.

So far 450 applications for ploughing have been received. This number is less than last year, but it is pointed out here also season many people, whose land was broken for the first time in 1919, are using a spade instead of incurring the expense of ploughing again.

The amount of seed sold this year, too, is ample evidence of the increase in production this year. Seven tons of potato seed have been sold to the city to vacant lot cultivators, besides large quantities of other seed. Unfortunately it is impossible for the Production Committee to secure further potato seed, but some seed remains to be sold.

The committee also is selling, through the Market Superintendent, the new fertilizer "Ligatite" which lot cultivators say is most satisfactory.

LIVESTOCK FIGURES INTERESTING FEATURE

Report of Department of Agriculture Will Deal With All Classes

Live-stock statistics form an interesting section of the 1919 report of the Provincial Department of Agriculture which will shortly be issued to the general public. The table will be shown with comparative figures for the years 1911, 1918 and 1919.

While there are large increases obvious between the greater span of years, there are also substantial gains noted in 1919 over the year previous. For instance, under the heading of horses of all grades the 1918 figures stood at 44,321, whereas the total for last year reached 43,717. Mules in 1918 numbered 194, and the number had increased in 1919 to 580. Cattle of all varieties in 1918 reached a total of 246,130, and last year the quantity had progressed to 246,238—a small but gratifying increase.

There is also a marked advance in the number of pigs and poultry, while the number of sheep has declined somewhat. Under this more composite head the figure of 1,091,806 for 1918 had given place to a total of 1,181,021 last year.

JUDGMENT DOWN IN YEAR'S LONGEST CASE

Mr. Justice Murphy to-day gave judgment in the Garrard-Lund timber case, which was heard in the Supreme Court a couple of weeks ago, and which by taking up eleven days set up the record for this year's longest court case.

In his judgment Mr. Justice Murphy dismisses the action brought by the Garrard interests, and upholds the counter-claim.

The action concerned some timber limits near the Alberni Canal, which up to now had been the subject of a long and costly litigation. The Garrard interests were the defendant.

Judge's Decision.

"I find that there is not on these limits timber that can be economically and profitably logged at the present time by means of donkey engines, within contemplation of the contract," says Mr. Justice Murphy. "It is true that provided logging engines, camp and equipment were on the limits or in close proximity thereto, some, though I think no large amount of timber could be so taken off, but not if all these things had to be taken there."

"The contract in my opinion clearly assumed that there would be sufficient timber that could be economically and profitably logged by means of donkey engines as would justify the work being undertaken for said timber only."

"If this view is correct, then this contract was entered into by mutual mistake. There is no question of bad faith, Garrard believed, and still believes, timber to be available in these limits. The defendant's action is a result of their enquiries and partly as a result of what Garrard told them believed likewise when they executed the contract. There is in fact a large quantity of timber in these limits, but by reason primarily of the nature of the ground, and secondly of the quality, and, in general, the scattered character of such timber, it does not, I think, fulfill the requirements of the contract."

Have You Made Your Mother's Dreams Come True? Are You the Strong, Successful Iron Man She Expected You To Be?

or are Worry, Work and Ill-Health Sapping the Iron From Your Blood and Robbing You of the Prizes that Come With Health and Success? Physician Explains Why So Many Men of To-day Need the Help of NUXATED IRON TO BUILD RED BLOOD That Gives Courage and Power To Go In and Win.

Every mother has dreams for her son. And whether it be the mother of the prize-fighter or the statesman, she is equally proud when HE wins. She thinks of HER struggle from the very start to the tiny babe into rugged boyhood—then to build up his health, brawn and brain to fight the battles of young manhood. She did HER best to teach him what health and strength meant in the race for success, and the boy who was able to hold fast to her teachings is But there are thousands who love for their mother is just as deep—thousands who wear the white carnation on Mother's Day—thousands who never fail to write home—YET they would hesitate to answer the question, "Have You Made Your Mother's Dreams Come True?"—simply because in the mad rush for the Success which they knew would make them famous, they have slipped up on one point. They have neglected her oft-repeated words: "Look to Your Health First, My Boy." It is this neglect of mental energies to the limit without the physical strength to back them up, they have allowed worry, work and ill-health to sap the iron from their blood and leave them weak, nervous and run-down. These men are as anxious to get ahead as anyone else but they do not realize that iron is absolutely essential to the greatest strength of physical and mental power. But in the wear and tear of modern day life when their forces are constantly drawn upon, they are without the sustaining strength produced by the nourishing foods and outdoor sports of boyhood days that kept up the supply of iron in their blood. Unless they supply this iron deficiency now, they cannot hope to have the rich, red blood that makes men get ahead. Yet, to take the wrong form of iron may prove worse than useless and therefore physicians below explain why they prescribe only organic iron—Nuxated Iron—for red blood, strength and endurance.

"It is the men of blood and iron who will forge ahead the business and political life of the country today," says Dr. T. Alphonsus Wallace, a physician of many years' experience and formerly of the British Naval Medical Service. "Without iron there can be no strong, red-blooded men, and unless this strength-giving iron is supplied in some form that is easily absorbed and assimilated. For this purpose I always recommend organic iron—Nuxated Iron—which by enriching the blood and creating new blood cells, strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed energy into the whole system. No matter what other tonics or iron remedies you have used without success—if you are not strong or well, you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained. Nuxated Iron will increase the strength, power and endurance of delicate, nervous, run-down people in two weeks' time in many instances.

Manufacturers' Note: Nuxated Iron, which is preserved and recommended by chemists and which is now being used by over three million people annually, is not a secret remedy but one which is well known to druggists everywhere. Unlike the other iron tonics it is easily assimilated and does not irritate the stomach. Then blacken the tip of the tongue. The manufacturer's guarantee is that every purchaser will find Nuxated Iron to be a most reliable and safe remedy. It is discussed in this size by C. H. Bowes & Co. and all other druggists.

JUDGMENT DOWN IN YEAR'S LONGEST CASE

Mr. Justice Murphy to-day gave judgment in the Garrard-Lund timber case, which was heard in the Supreme Court a couple of weeks ago, and which by taking up eleven days set up the record for this year's longest court case.

In his judgment Mr. Justice Murphy dismisses the action brought by the Garrard interests, and upholds the counter-claim.

The action concerned some timber limits near the Alberni Canal, which up to now had been the subject of a long and costly litigation. The Garrard interests were the defendant.

Judge's Decision.

"I find that there is not on these limits timber that can be economically and profitably logged at the present time by means of donkey engines, within contemplation of the contract," says Mr. Justice Murphy. "It is true that provided logging engines, camp and equipment were on the limits or in close proximity thereto, some, though I think no large amount of timber could be so taken off, but not if all these things had to be taken there."

"The contract in my opinion clearly assumed that there would be sufficient timber that could be economically and profitably logged by means of donkey engines as would justify the work being undertaken for said timber only."

"If this view is correct, then this contract was entered into by mutual mistake. There is no question of bad faith, Garrard believed, and still believes, timber to be available in these limits. The defendant's action is a result of their enquiries and partly as a result of what Garrard told them believed likewise when they executed the contract. There is in fact a large quantity of timber in these limits, but by reason primarily of the nature of the ground, and secondly of the quality, and, in general, the scattered character of such timber, it does not, I think, fulfill the requirements of the contract."

COMRADES OF THE GREAT WAR ASSOCIATION

Cor. Douglas and Courtney Sts.

Front Line Association

Meetings held twice monthly at 8 p. m. First and third Friday of each month.

Rotary Luncheon.—The weekly luncheon of the Rotary Club will be held at St. John's School room on Thursday. In charge of Doctor Raynor and the Boys' Work Committee there will be a short programme, followed by an organ recital by G. Jennings Burnett.

Comrades of Great War.—The semi-monthly meeting of the Association will be held on Friday, May 7, at 8 o'clock. As important business will be discussed a full attendance of members is requested. The executive will meet at 7:15 o'clock.

NEWS IN BRIEF

Fined—William Dodd was fined \$5 in the Police Court this morning for leaving an automobile standing in front of a hydrant.

Judgment Again Delayed—Judgment in the case of Beverly R. King, charged with embezzlement, was reserved again by Magistrate Jay, sitting in the Police Court this morning.

Wires His Congratulations—Mayor Robert J. Porter recently wired to the Governor of the Hudson's Bay Company his congratulations on that concern's 250th anniversary. He received an acknowledgment to-day.

Directory of Poultry Breeders—The British Columbia Poultry Association has just issued a directory of poultry breeders, with a view to assist the industry by encouraging the sale of provincial stock to the public. Almost every breed of poultry is listed.

Fire Causes Damage—Considerable damage was caused by fire which broke out in the attic of a residence at 1023 St. Patrick Street at five minutes past ten last night. The blaze was caused by an overheated pipe from a hot air furnace. When the fire department arrived on the scene it subdued the blaze in a short time.

To Lecture Here—Henry A. Ironside, of Oakland, California, well-known as an author, teacher and evangelist, is visiting Victoria and is expected to give a series of addresses in the Red Cross rooms, corner Hillside Avenue and Douglas Street, commencing on Sunday next, 4:15 p.m. His friends will be glad to know that he is rapidly recovering from the effects of injuries received when in Seattle.

Will Visit Victoria—The Rev. A. E. Smith, of Brandon, who was here a short time ago, will pay another visit to the coast next week. On his last visit he made preliminary arrangements for the establishment of a "People's Church" here and at other places between here and Brandon. His object this time is to complete the formation of these organizations. He will speak at the Crystal Theatre on Wednesday, Thursday and Friday, May 12, 13 and 14, and on Sunday, May 16.

Real Estate Active—Returns from the Land Registry Department for the month of April show that real estate transactions here are on the increase. During the month 733 applications were received and 797 disbursements. While this does not quite measure up to the returns for March, the latter included four more days than did April. Since the beginning of the year the applications to the Department have run as follows: January, 653; February, 716; March, 882; April, 733.

NANAIMO TO HEAR THREE SPEAKERS

At Nanaimo on Friday evening next a public meeting will be held under the auspices of the Nanaimo Liberal Association for the purpose of hearing the Hon. William Sloan, Minister of Mines; the Hon. E. W. de B. Parris, Attorney-General and Minister of Labor, and Mrs. Ralph Smith, discourse upon the political topics of the day.

Both Ministers will confine their remarks very largely to a review of the activities of the Legislature during the session which came to an end recently, and generally give the people of the coast city an account of their stewardship. Mrs. Smith will talk on the various phases of domestic legislation and reflect upon the progress British Columbia has made in that particular connection.

SYNOD CONSIDERS BENEFIT FUNDS

Pensioning of Aged Ministers Freely Discussed by Presbyterian Gathering

Consideration of the administration and methods of assessment of the Aged and Infirm Ministers' Fund occupied much of the time of the Presbyterian Synod, in session here this morning. An overture emanating from the Victoria Presbytery, after much discussion, in which Rev. Dr. Smith, of Westminster Hall; Rev. J. McCoy, of Victoria; Rev. H. Harbison, of the Similkameen, and Rev. Dr. Maclean, of Victoria West, participated, was rejected by the Synod on the grounds that it was not sufficiently specific in nature. A committee, headed by Rev. Dr. Maclean, and representative of the various presbyteries in the Province, was then appointed to formulate some definite plan in connection with the administration and raising of this fund, the committee's report to be submitted to the Synod with view to its being forwarded to the General Assembly.

Synod's Jurisdiction.
An interesting report on Statistics and Finance was given by C. H. Daly. There are 108 ministers in active service in the Synod province, representing an increase of eight over last year. A new note on some definite experience and tried men in mission fields was adopted last year, and is meeting with success. The jurisdiction of the Synod covers 11,827 families, an increase of 1,058 over last year, while baptismal rites were administered to 307 infants and 53 adults. The present membership on the roll is 16,065, while 948 persons were received into the fellowship of the church during the past year. The amount contributed by congregations for the support of their ministers and missionaries was \$121,135, an increase of \$10,000 over the previous twelve months.

Reporting for the Committee on Religious Education, J. H. Miller paid a tribute to the work of the teachers of the Sunday Schools. Nine new schools had been established during the year, with 115 new teachers and an increase in the number of students of 731, bringing the total membership in the Sunday Schools of the Province to 22,000.

The Synod adjourned at noon for lunch, which was served by the ladies of the local Presbyterian churches.

Lists Church's Faults.
The Rev. J. F. Miller, of Penticon, retiring Moderator, in his charge at the opening of the twenty-ninth Synod last night, enumerated these faults in the conduct of the Presbyterian Church which need attention:
1. Many of the church buildings are offensive as to architectural beauty, are of an unseemly character and undignified for the high purposes to which they are dedicated.
2. Ministers of the Presbyterian Church should be more loyal to one another than they are sometimes found to be to-day. Their special service should beget a special fellowship.
3. A large number of people cannot be attending church as Presbyterian Church accommodation is far from sufficient for the Presbyterian population of the country if all Presbyterians went to church.
4. Ministers should be more faithful to their people in their conversation, and in their reference to the higher things of life.
5. The Sabbath is being lamentably desecrated these days in so many ways. The church must be fearless in maintaining the great institutions of the Christian religion, especially in the matter of Sabbath observance.
6. Much of the popular literature of to-day, prose and poetry, is profane.
7. The Moderator should be given more opportunity for larger service by his honorable position. Presbyterians, however loyal and informed of the work of the church, need constant instruction.

The Rev. J. H. Cameron, of Coquitlam, nominated by Dr. Logan, clerk of the Synod, and seconded by Dr. H. N. MacLean, was elected the new Moderator.

The Rev. A. F. Munro, of Duncan, was also nominated but he withdrew.

WHAT THE CLUBS ARE DOING

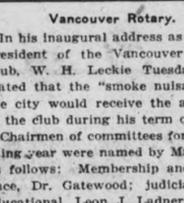

Vancouver Rotary.
In his inaugural address as the new president of the Vancouver Rotary Club, W. H. Leckie Tuesday intimated that the "smoke nuisance" in the city would receive the attention of the club during his term of office. Chairman of committees for the ensuing year were named by Mr. Leckie as follows: Membership and grievance, Dr. Gatewood; judicial and educational, Leon J. Ladner; public affairs, Robert McKee; fellowship and attendance, J. D. Kearns; finance, Edward Lipsitt; boys work, Hugh McLaren; ways and means and publicity, Daryl H. Kent; T. J. Byrnes, vice; sub-chairmen, W. E. Webster, C. F. Redington, J. Lightbody.

Mrs. W. M. Ross, on behalf of the Victorian Order of Nurses, made an appeal to the club for support to the campaign to be conducted by that organization.

W. H. Leckie, president, and J. W. Gehrike, secretary, were appointed delegates to the international rotary conference at Atlantic City this year.

Stockbroking Classification.
J. G. Kellam, Burdick Bros. Ltd., having left the City for Vancouver, the classification "Stockbroking" is vacant! Mr. Kellam's resignation was accepted by the directors with much regret.

During last year the gold output of the Klondyke was some four hundred thousand pounds. Since this field was first worked about forty million pounds of the precious metal have been secured, and it is believed that there is still an equal amount waiting to be worked out.

TO ADOPT MERVILLE SCHEME AT CRESTON

Mr. Barrow and Col. Davies Will Re-organize Second Soldier Area

For the purpose of conducting a general reorganization of conditions at the Creston soldier settlement, the Hon. E. D. Barrow, Minister of Agriculture, and Colonel R. D. Davies, Superintendent of the British Columbia Land Settlement Board, left the city on this afternoon's boat for the Mainland and do not expect to be back in Victoria for about ten days.

It is the intention of the Minister to follow plans in respect of the Creston area similar to those which have been adopted recently at Merville. In other words the general payroll system now in vogue in connection with clearing operations will give place to the individual contract policy as far as conditions will permit and provide the added incentive to each settler who, henceforward, will clear his own land.

Mr. Barrow points out, however, that the situation at Creston is somewhat different to that obtaining at Merville for the simple reason that the former area is essentially a fruit growing proposal with very much smaller allotments. Nevertheless, he is confident that a satisfactory workable arrangement will be easily possible after consultation with the settlers themselves.

While in the neighborhood, Mr. Barrow and Colonel Davies will visit the Board's settlement area at Fernie, which comprises nearly twelve hundred acres. At the present time no work is being carried on there and it is for the purpose of gauging its possibilities that a careful inspection will be made and an announcement of policy is expected to follow at an early date.

PREMIER RECEIVES REPLY TO MESSAGE

Financial Times Is Ready to Publish Statement From Mr. Oliver

Publication of a copy of Premier Oliver's reply to the comment on the Dolly Varden case, contained in a recent issue of The Financial Times, has brought forth a wire from the Journal in question which reads as follows:
"Should you desire we would be pleased to publish a statement from you dealing with the Dolly Varden matter. We are simply interested in giving current information on this matter as on everything else."
The article to which Mr. Oliver objected accused the Legislature of overriding every principle of British justice and fair play, while the Premier replied that British Columbia was in a better position—with all the facts in its possession—to take any course it considered necessary than was The Financial Times to pass censure from ex-parte information.

GEORGE CARTER WILL SPEAK AT LUNCHEON OF BOARD OF TRADE

Arrangements have been made for a Board of Trade luncheon, at the Dominion Hotel, at 12:15 noon, on Friday.

The Council desires that there shall be a full attendance at this luncheon, and to make the function both interesting and profitable have arranged with George Carter to deliver an address upon Oriental trade possibilities.

Mr. Carter recently returned from an extensive tour of the Orient, and is well qualified to give some idea of the possibilities of local business following the establishment here of the Free Port Area, which this Board

Baseball Season Opened With Great Ceremony To-day

Much Enthusiasm Shown At the Opening Games

Harry Morton or "Lefty" Lawson Will Start For Victoria in Game Against Tacoma; Yakima Playing in Spokane and Seattle in Vancouver.

Batteries in to-day's games are as follows:

Victoria: Morton or Lawson, and Cunningham; Tacoma: Talley or Killen, and Stevens.

Yakima: Hill or Valencia, and Cadman; Spokane: Russell and Fisher.

Vancouver: Rapp and Patterson; Seattle: Cunningham and Boesle.

They're away.

This afternoon the six teams which will battle for the pennant in the Pacific International Baseball League were turned loose on the long grind. From now until the middle of September the ball fans in the Northwest will be kept fidgeting as to the outcome of one of the keenest races ever known in the history of baseball in this part of the country. No team is due for a long easy gallop to the top rung and any manager who may secretly anticipate such a cinch for his proteges is due for a very heavy bump.

The six teams which will fight throughout the summer for the bunting are well-balanced, and while some may get an early lead through having had a better Spring training, they will be caught with a strangle hold by the other teams before the season has gone far.

Victoria is playing the opening game in Tacoma, Seattle is making things merry in Vancouver, and Yakima is the guest of honor at Spokane. Huge crowds are attending each game.

The officials of the league look for the greatest baseball season in history. Through the renewed interest taken by business men it is assured

ITALIANS HAVE WAY TO LIVEN UP SOCCER

Roma, May 5.—A football match between teams representing the cities of Lucca and Viareggio played at Viareggio yesterday, degenerated into a fight and then into a riot. A former army captain, who acted as umpire, tried to intervene to settle the difficulty when it first arose, but failed. Carliners then made efforts to re-establish order. The crowd attacked and disarmed them, and they were obliged to flee to their barracks.

The mob looted a gunsmith's shop, occupied the railway station and barricaded the road leading into the city to prevent the arrival of reinforcements. Two thousand soldiers were ordered to Viareggio to repel the disorders.

half over, stalled and finally quit and the league blew up.

Organize New League.

When the baseball fever made itself felt early this Spring a number of prominent enthusiasts in the Northwest gathered together and decided to organize a new league. It was decided to limit it to six clubs, and as both British Columbia and Washington were represented and each had its front door washed by the Pacific the name of the Pacific International League was hit upon.

The six cities granted franchises were: Victoria, Vancouver, Seattle, Tacoma, Yakima and Spokane.

J. H. Burnett, the millionaire jeweler of Tacoma, is the president and treasurer of the new league. He is a great fan and has placed the league on a sound financial basis. Each team has deposited \$1,000 with the treasury, and this is the first time in history that the league has opened up with any shakels in its coffers. Each team has been forced to show bona fide backing so that there will be no chance of a premature ending if some team happens to find the going hard.

Six Good Teams.

Every effort has been made to put six teams in the league which are evenly balanced. Bill Leard will pilot the Victoria team; Tealey Raymond has been entrusted with Yakima's chances; Bobbie Vaughan controls the Tacoma team; Cliff Blank is out for a championship with the Spokane team; Bob Brown, the veteran ball manager, again leads Vancouver, and Dave Hilliard is the captain of the Seattle team. All the teams have been going well in the training season and there promises to be a lively tilt for the pennant.

General Holiday.

Tacoma, May 5.—A monster parade this afternoon preceded the "Play Ball" which opened the Pacific International League season here. Most business houses have been closed for the initial contest between the Tacoma Tigers and the Victoria Bees. Governor Louis F. Hart attempted to hit a ball pitched by Mayor C. M. Riddell.

Big Times in Vancouver.

Vancouver, May 5.—Vancouver's 1920 baseball season opens officially this afternoon. This morning there was a monster parade, headed by an escort of mounted police, both Royal Canadian and city. Arrangements were made for a large number of convalescent soldiers to take part in the parade and to attend the game as guests of the Vancouver baseball club. Mayor Gale will pitch the first ball.

Rapp and Patterson will be the battery to face Seattle when the curtain goes up. The former has been indisposed lately, but reports at a late hour stated he was feeling fit to face the honorable enemy. A record-breaking crowd is expected.

Spokane, May 5.—Spokane officials, centering on their field, have made elaborate preparations. Four bands and several airplane stunts will brighten up the programme, and Catcher Fisher, of the Spokane team, will attempt to catch a ball dropped from an airplane.

Umpires Held and McCoy have been assigned to Tacoma, McQuarry to Vancouver, and Shafer to Spokane.

COBB WINS GAME WITH HOT SINGLE

Detroit Wins Its Second Game; Giants Stop Their Losing Streak

Detroit, May 5.—Detroit won its second game of the season by defeating Cleveland yesterday, 2 to 1. Both of Detroit's runs came in the ninth when Cobb singled, scoring Bush and Veach. Score: R. H. E. Cleveland 6 10 1 Detroit 2 3 4 Batteries — Myers and O'Neill; Daus and Stange.

Athletics Take One.

Washington, May 5.—Timely hitting enabled Philadelphia to take the odd game of the series from Washington yesterday, 6 to 4. Perry was batted hard but received steady support. Score: R. H. E. Philadelphia 6 10 1 Washington 4 9 0 Batteries — Perry and Perkins; Zachary and Ghartry.

St. Louis Hit Hard.

St. Louis, Mo., May 5.—St. Louis hammered three Chicago pitchers hard yesterday and won 12 to 4. Kerr and Heath were knocked off the mound. Wellman pitched only the first inning and with the exception of last season and with the exception of two innings, was steady. Score: R. H. E. Chicago 4 8 2 St. Louis 12 18 0 Batteries—Kerr, Heath, Lowdermilk and Schalk; Wellman and Billings.

Yanks Beat Red Sox.

New York, May 5.—The New York Americans made it three out of five in the last game of the series, 6 to 1. Hoyt, who defeated New York in the opening game, was knocked from the box in five innings. Score: R. H. E. Boston 5 1 0 New York 6 10 3 Batteries—Hoyt, Kerr and Walters; Devine; Quinn and Ruel.

National League.

Philadelphia, May 5.—New York broke its losing streak yesterday with a 5-to-4 victory over Philadelphia. After five scoreless innings, both Toney and Causey were driven from the box. New York's hits proved more timely. Le Barre's batting and his great catch, which saved three runs, featured. Score: R. H. E. New York 5 12 0 Philadelphia 4 14 1 Batteries—Toney, Douglas, Benton and E. Smith; Snyder; Causey, Weinert and Wheat; Withrow.

Reds Away Again.

Cincinnati, May 5.—The champions broke their losing streak yesterday with a 5-to-4 victory over Cleveland in the first place in the National League race. The batting of Neale and the fielding of Rath and Hoff were featured. Score: R. H. E. Chicago 4 9 1 Cincinnati 5 9 0 Batteries—Carter, Martin, Bailey and O'Farrell, Daley; Ring, Laque, Ruetter and Wingo.

American Association.

At St. Paul. Milwaukee 2, St. Paul 3. At Toledo. Indianapolis 6, Toledo 0. At Columbus. Louisville 1, Columbus 6. At Minneapolis. Kansas City 6, Minneapolis 8.

International League.

Toronto 6, Syracuse 7. Akron 8, Baltimore 6. Rochester 2, Reading 11. Buffalo at Jersey City postponed, rain.

COWICHAN CRICKETERS ARE AGAIN ORGANIZED

Duncan, May 5.—Cowichan cricket has revived. The first game since 1914, with the exception of a match for the Red Cross funds in 1915, was played at the Recreation Grounds on Saturday afternoon last. Fifteen players turned out and the captain, E. B. Hayward, and vice-captain, R. E. Barclay, picked out their teams, and in the game that followed, the vice-captain's team won.

While the teams do not compare with those of 1914 they expect to have some good cricket. It is unfortunate for Cowichan and Nanaimo that the Victoria City League has an even eight teams, leaving no team a bye. These outside clubs cannot pick up a game with them.

The secretary, F. Hoey, and the president, L. W. Huntington, are trying to arrange a schedule with outside clubs.

AFTER OLYMPIC GAMES

Niagara Falls, Ont., May 5.—Various organizations, including the chamber of commerce, will launch a campaign to have the next Olympia staged at Niagara Falls.

Kangaroo farming is an important industry in Australia. The hides are valuable, and the tendons extremely fine—indeed, they are the best material known to surgeons for sewing up wounds, and especially for holding broken bones together.

English Cricketers Look For Very Bright Season

Worcestershire Is Back Among First-Class Counties; Yorkshire Has Strong List of Players; Kent Still Remains Attractive; Oxford and Surrey Find Many Supporters.

London, May 5.—With the season of 1919 exceeding even the most optimistic hopes as regards the popularity of cricket, there is no reason to suppose that there will be any falling off in this respect in the season which has just opened. Last year, in spite of four blank seasons, first-class cricket was found to have a great hold on the public as ever, and with normal conditions once more restored, the struggle for the county championship, which began on Saturday, is bound to be of absorbing interest to the followers of the game.

The readmission of Worcestershire to the competition brings the total of first-class counties to sixteen, as it was before the war, the counties being Derbyshire, Essex, Gloucestershire, Hampshire, Kent, Lancashire, Leicestershire, Middlesex, Northamptonshire, Nottinghamshire, Somerset, Surrey, Sussex, Warwickshire, Worcestershire, and Yorkshire. Worcester was dropped to a minor class when the three famous Forster Brothers left to serve in France.

The system of two-day matches has been abandoned, and three-day matches are to be reverted to. The scheme of scoring will be practically the same as in 1914, except that the team leading on the first innings in an unfinished game will receive only two points instead of three, the one point formerly given to the opponents having been abolished. Thus the scheme in short resolves itself into the following system: five points for a win outright, and two points for a lead on the first innings in a drawn game, the scoring to be reckoned on the percentage of points obtained to points obtainable.

Improving Teams.

All the counties, with one or two exceptions, will have practically the same players to select from as in 1919, with a sprinkling of new talent from the public schools, who turned out a few cricketers quite above the average last year. With several of the leading lights of last year's schools up at the universities this year, the variety match should be particularly interesting. Oxford will have the services of D. R. Jardine, W. H. Edwards, F. H. C. Bolton, and G. S. Butler, Marlborough, and G. T. S. Stevens, University College School, Middlesex, and Gentlemen of England, to mention a few, and the following will, no doubt, assist the Light Blues: C. H. Gibson, Eton and Sussex; N. E. Parridge, Malvern, and A. P. F. Chapman, Uppingham.

Yorkshire's champion county, says the Christian Science Monitor will lose the services of that famous all-rounder, George Hirst—at any rate for the greater part of the season, as he has taken on the important post of coach at Eton, and will therefore be available during the vacations only. Yorkshire, however, need have no quails, as they will be by winning 5 to 4, and went back from, with a particularly fine first-wicket pair in P. Holmes and H. Sutcliffe. The latter, in fact, should in time become a second Hobbie, his batting last season being truly wonderful for a newcomer making his bow to the public. Wilfrid Rhodes, although classed among the veterans, has plenty of cricket in him yet, and then there are also D. Denton and H. Kilner to fall back upon in case of need. In A. Dolphin Yorkshire have one of the best wicket-keepers in England, and as for bowling they have a left-hand medium-paced bowler, who could almost be called fast. His delivery is so easy and effortless that he should become one of England's leading professional bowlers after he has gained a little more experience.

Kent Will Be Strong.

Kent will have a much longer programme to get through this season, and, whatever the results of their efforts, they are sure to prove a great attraction to the public. There is something so bright and sporting about their play. F. E. Woolley, in himself, is very attractive to watch, either when batting or bowling, and there are usually several "interesting amateurs" in the side, such as E. W. Dillon, S. H. and A. P. Day, L. P. Hedges and G. E. C. Wood, and the captain, L. H. W. Troughton, is a very pretty bat when he gets going.

Don't make a mistake about forms of clean amusement. Billiards is a game highly beneficial. Of course it should be played in proper surroundings. You will find pleasant relaxation and congenial surroundings at this place at all times. No loafers or roughnecks. Open to gentlemen only.

SPORTING NEWS

LOOKING THINGS OVER

Famous Command Ring Out in Northwest To-day.
 "Play ba-a-a-ll."
 This terse command from three men wearing masks and breast protectors, as welcome to the fan as was the "cease fire" order by the troops on Armistice morning, rang out clearly in the Northwest to-day and set in motion the brand new Pacific International Baseball League. Over in Spokane the Yakima squad under Trolley Raymond dug up the dirt, across the Gulf in Vancouver the Seattle players cut loose, and down the Sound at Tacoma the pride of Victoria is making an effort to humble the haughty Tigers. Ball fans have been waiting for this day of days with a great deal of patience for some time and are now out peddling the old time excuses of "my wife's sick" or "I've got an urgent business call," in order to get away for a couple of hours and sit on a hard seat, eat peanuts and shout themselves hoarse trying to impart advice to the various young athletes who do their best outside the netting. Victoria must wait for two weeks before the opener is held here, but there will be plenty of ball during the season. That it will be a good season is an assured fact, as the league has lots of money in the treasury and all the clubs have the necessary backing to stick out the season irrespective of their position in the race.

Americans Worrying Over Olympic Games.
 The splendid triumph of the Oxford-Cambridge relay team at Philadelphia on Saturday over the fleetest runners America could muster, has turned trackdom in the United States topsy-turvy. A few weeks ago the Americans had coldly calculated a clean sweep of the Olympic Games at Antwerp. It would be a repetition of the victory at Stockholm in 1912. But this great spirit of optimism has now been displaced by a great cloud of worry and anxiety. Like a mule kick Uncle Sam was upset by the commanding victory of the Canadians over the United States in ice hockey. Before this bruise had healed along came the shattering blow from the cinder path. Naturally the Americans felt keenly this last sting of defeat, but it would not have saturated so deeply had it not been that the Britishers established a new world's record for the distance, and might have done slightly better if they had been pressed. The fact that a team wins a race is significant, but when it wins in new time it is then that a condition of alarm is established. Despite her great sacrifices in France and other theatres of war Britain is gradually nursing along a number of new track men and athletes in other branches of sport, and will be ready for keen competition when the Olympic Games are run. In the meantime the press of the United States is calling upon the universities and clubs to take greater care in the training of their athletes unless they wish to meet a Waterloo in Belgium.

TO PLAY HERE FOR B. C. TENNIS TITLES

B. C. Championships Are Set For July 26; Tournaments to Be Played in Northwest

British Columbia lawn tennis championships will be played in Victoria on July 26, according to the official programme just issued by the United States Lawn Tennis Association. This interesting series will be preceded on July 19 by the B. C. Mainland championships which will be played in Vancouver, and by the Seattle championships, which are down for June 28. Following the Victoria games will come the Pacific Northwest championships at Tacoma on August 2, followed a week later by the Washington State championships to be played in Seattle.

Tennis in the Northwest is due for a very big season. Last year the standard of the games showed a great improvement over previous years and the officials of the clubs in the Northwest are quite confident that this will be the greatest season tennis has ever known. There will be a great mingling of tennis players from both sides of the line, and each of the tournaments held in this district will take on an international aspect.

New York, May 5.—Close to 200 sanctioned tennis tournaments are listed in the annual schedule of the United States Lawn Tennis Association issued here to-day. Every section of the country is represented in the distribution of dates, and indications point to one of the most successful seasons for the sport in the history of the organization.

Pick Davis Team.

Among the early season tournaments of importance is the Church Cup match to be played at Forest Hills, N. Y., May 21 and 22. Unusual interest is attached to this inter-city contest between New York, Boston and Philadelphia, because of the bearing it will have on the selection of the team to represent the United States abroad. As the team will sail early in June to enter the English championship and play Davis Cup ties in July, this will be the last important event before its members are chosen, and the Davis Cup Committee will doubtless be guided in their selections by the showing made there.

The women's national championship has been changed from June to September and will be played at Philadelphia during the week beginning September 13. A new national event for women has been created in a separate tournament for the clay court titles, which previously have been played with the men's events. This year the women's titles will be contested at the Detroit Tennis Club the week of June 21, while the men's events take place July 10 at Chicago. The men's championship of the United States is scheduled to begin August 30 at Forest Hills, N. Y.

All the sectional doubles tournaments are listed except the Intermountain event, covering Colorado and Utah, which has not been arranged. These precede the national doubles championship at Longwood on August 16. The New York event has been awarded to the Crescent Athletic Club. A new event—an inter-city doubles match, has been awarded to Cleveland for July 21.

SHADE HAS EDGE IN RIP-ROARING TUSSLE

Launched Fast Rally in Last Round of Bout With Gillum at Seattle

Seattle, May 5.—Billy Shade, making his debut in the middleweight ranks, was awarded a very close decision over Harry Gillum last night in the arena main event. The sensational Californian came out of his corner in the final round and launched a rally which won for him the last three minute period, but whether he deserved a decision over his opponent is a much mooted question among the close followers of the ring sport.

The bout was a rip-roaring tussle from the outset, and so many punches were landed and so evenly was the battle waged that it took a pretty keen eye to detect any shade. But the judges picked the southerner as the winner, and the verdict met with the general approval of the big crowd.

McCarthy Injured.

One of the mysterious injuries, which often happen a few hours before a bout, kept Charley McCarthy from meeting Allie Mack in the second go. As it was Jimmy Clark, of Vancouver, B. C., gave the hard-hitting New York boy quite an interesting twelve minutes, losing the decision after four fairly fast rounds. Mack showed that he carries a kick when he shook the Canadian from stem to stern with his right cross delivered a half dozen times with good effect. Clark's puzzling style bothered Mack.

Harry Mansell, British featherweight, evened up a score on Danny Edwards, of Oakland, when he boxed the colored Californian to a whirlwind draw in a special event bout.

In the preliminaries Joe Mau, middleweight, mauled his way to a close decision over Bull Mitchell, and Charley Jordan lost a decision to Louis Leonard.

NANAIMO PUTS TEAM IN SUMMER LEAGUE

Nanaimo, B. C., 5.—With the view of providing a team which shall be a credit to the city in the Inter-City Summer Football League series, the games in which will be played on Saturday afternoons, a meeting was held here last night at which the Nanaimo Football Club was formed. As its name would imply, the newly-formed

club embraces every other football organization in the city, so that a thoroughly representative team may be secured.

The officers are: Hon. president, G. W. Bowen; president, John Hunt; vice-presidents, D. Brown, R. Adams; secretary, F. Hart; treasurer, J. English; manager, T. Clarke.

GOVERNMENT WON ON SURPRISE VOTE

Majority of Twelve in Commons on Franchise Bill Detail

Ottawa, May 5.—An amendment to the Franchise Bill adopted in the Commons last night provides for the use of standard time in elections. Another amendment provides for the

use of Provincial polling places unless, in the discretion of the returning officer, it is extremely inconvenient to adopt such a course.

Just after midnight a surprise vote was taken on the question of designating those who may vote at advanced polls. The Opposition, which sought the designation on motion of F. F. Pardoe, was defeated by 25 to 23 by the five National Progressives present going with the Government.

Disputes Act.

The bill to amend the Industrial Disputes Act, which came from the Senate, where it was introduced by the Minister of Labor, was again before the Commons.

Angus McDonald, Labor-United Farmer member for Temiskaming, submitted an amendment to require, for application for a board of conciliation, approval by a majority of the men affected rather than by a majority of the union. Mr. McDonald was emphatic that he belonged to no "Red" organization, as had been reported of him. He was a member of an international trade union. What the workers wanted was "plain English" on the statute books.

Mr. McDonald's amendment had the support of the Leader of the Op-

DOMINION

Doris May Musical Parody

A professional musician at nine years of age and a movie star at seventeen is the record of pretty Doris May, who is being co-starred with Douglas Maclean by Thomas H. Ince in the new picture, "What's Your Husband Doing?" at the Dominion theatre this week. Miss May started the study of music when she was four years old and accompanied the famous violinist, Kubelik, on the piano when he made his tour of the country.

Harold Lloyd is the chap who made the shell-rimmed glasses popular. Scorning the grotesque in comedy make-up, Lloyd has used large spectacles as his trade-mark of a comedian. "Capt. Kidd's Kids" is the name of the newest Harold Lloyd comedy, and it's a humdinger! The "kids" of the title are a bevy of the prettiest girls you ever saw off of

VARIETY

Can you imagine a man being a perfect lover—a man whose charms are so wonderful that no woman will lavish with affection and riches just to get one smile from him—can you imagine that kind of man? If you can't go to the Variety Theatre to-day, and before the first reel of "The Perfect Lover," Eugene O'Brien's first Selznick Picture, is over, you will not have to imagine. You will know and understand why women went out of their way to gain the favor of Brian Lazar, formerly a poor artist, whose work was later sponsored by Mrs. Byfield, the wife of one of the wealthiest men in New York. He supplies them with the love their husbands are too busy to give them. But he gains no happiness or good from this method of living. A wondrous story, beautifully told and exquisitely acted, that will thrill and charm you is the gripping tale of Brian Lazar. Eugene O'Brien is certainly "the perfect lover," and he will thrill you with his love and as he did in the days of yore. Be sure and see "The Perfect Lover."

COLUMBIA

Norma Talmadge has troubles of her own in "She Loves and Lies," an adaptation of Willie Collins's famous novel which is at the Columbia Theatre this week. Not only is she called upon to assume the roles of a young actress, a frequenter of Greenwich Village, New York's famous Bohemian quarter, and an old lady of fifty-two, but she must play the latter part so well that she can land a husband of about half her age—and she gets away with it. "She Loves and Lies" is one of those plays that interests at the start, grows in suspense and ends with a climax that contains a surprise. Miss Talmadge has the best opportunity of her career for comedy work, and shows that she is talented in this line as well as emotional roles. Conway Tearle, her handsome leading man, also has a role well suited to his talents and is an admirable foil to the fun of the star, and the rest of the cast is excellent. Altogether "She Loves and Lies" is a delightful comedy with an unusual plot, a vehicle that adds much to the reputation of the star.

PANTAGES

A remarkably fine example of Japanese art is contained in the "Japanese Revue" which is an attraction on the bill at the Pantages to-day and continuing all week. The scenery is made of satin and silk, and is hand-embroidered from special designs by the best artists of the Flowery Kingdom. It gives the public an idea of the scenery actually used in the largest theatres of Japan. In the scene of the revue, a classic dancer, and Miss Ethel Rogers in a series of artistic poses, called "Visions of Japan." The feature act of this week's bill is the presentation of "The Luck of a Totem," a melodrama of love and adventure introduced by Harry Girard and company. He is supported in the leading roles by Miss Cain Brown, a talented actress of the light opera.

VINOL IS MOST SUCCESSFUL OF ALL TONICS

To Restore Thin, Run-down Women and Children to Strong Vigorous Health

Physicians Recommend It and Druggists Guarantee It

Ask your doctor if he can suggest a better tonic than the following VINOL formula:

"Cod Liver and Beef Peptones, Iron and Manganese Citrate, Calcium and Sodium Hypophosphites, Nux Vomica and Wild Cherry."

VINOL contains the very elements needed to enrich the blood, create a healthy appetite, aid digestion, quicken the circulation and restore strength, health and vigor to every part of the body.

For run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people, delicate children, and to build up health after sickness, there is nothing equal to VINOL.

Try it on your druggist's guarantee.

ions of Japan." The feature act of this week's bill is the presentation of "The Luck of a Totem," a melodrama of love and adventure introduced by Harry Girard and company. He is supported in the leading roles by Miss Cain Brown, a talented actress of the light opera.

MINSTRELS PLAYED TO SATISFIED HOUSE

Famous Georgia Minstrels Won Popular Favor at Princess Theatre

The famous Georgia Minstrels played to a big house last night at the Princess Theatre. All the old plantation songs were rendered in the inimitable style of the blackface performer, and the jokes sprung by the end men were thoroughly appreciated by a receptive audience. From the moment the intercomer gave the signal the fun commenced, and the sustained efforts of the comedians kept the house convulsed. The star funster proved to be Ed Tolver, and he made a great hit with his song, "When Rag Time Rosie Rags," while his "Darktown Argument" with Maudie Campbell literally rocked the house.

aggregation of one hundred well trained animals—snow-white and spotted ponies of all sizes, large thoroughbred Kentucky horses, dogs of all sorts and kinds including diving, leaping and performing dogs, riding monkeys—a collection of animals trained to perfection by noted trainers. The various acts which were featured last season have been enlarged and improved and new acts added one being a High School manager of act in which four big thoroughbred horses appear as worthy riders, an act which has never been equaled in any show of the kind. The pedestal, drill and various ensemble acts are improved, and there are some wonderful numbers, including tight-rope walking by a skilled pony.

The circus numbers are attractive. These include thrilling flying aerial trapeze numbers, in which skilled artists perform hair-raising feats in mid-air. There are some excellent acrobatic numbers, tightrope walking, and a host of other good turns. The array of clowns is also worthy of mention. The show throughout is of a high order, well equipped, clean, wholesome and amusing—a treat for young and old.

FOR GALLI-CURCI.

Interest in the coming to British Columbia of Mme. Galli-Curci the goddess of song, stretches far afield of Vancouver where she will make her appearance on the evening of May 21 at the big Arena, but in Victoria already there have been many mail orders for accommodation. To accommodate Victoria people, the Kent-Bell bureau, under whose direction the great diva will appear, have arranged to conduct a seat sale at the Kent piano rooms, Government Street, concurrent with the seat sale on the mainland. Victoria people will therefore be assured of their accommodation and not have to take last minute chances on reaching Vancouver. Mail orders are being received now and will be filled in the order of their arrival.

Suffered With Boils Last 5 Years

Boils are simply a breaking out of bad blood, and anyone who has suffered from them, knows how sick and miserable they make you feel. Just when you think you are cured of one, another seems ready to take its place and prolong your misery. All the poulticing and lancing you can do will not get rid of them.

While the skin appears to be the cause of the irritation the real disease is rooted in the blood, and to get rid of these painful pests it is necessary to get right at the seat of the trouble.

When the blood is purified, cleansed and vitalized, by Burdock Blood Bitters, the boils will quickly disappear, your misery is at an end, and health and strength come back again.

Mr. Robt. Johnson, Barkway, Ont., writes:—"I have suffered very much, during the last five years from boils, having as many as five at once. I tried different remedies without any relief. I was advised to try Burdock Blood Bitters, which I did, and after taking just one bottle I have had no more boils."

B. B. B. has been on the market for over forty years and is manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

MAKES GRANT FOR DEVELOPMENT WORK

Nanaimo Council Will Assist Publicity; Nominations For Mayoralty

Nanaimo—Nominations for candidates to succeed to the offices held by the late Mayor McKenzie in the mayoralty chair and on the Board of School Trustees will be received on Tuesday, May 11, between 12 noon and 2 p. m., with E. G. Peto as returning officer. Election if necessary on Friday, May 24.

Alderman Hodgson resigned from the City Council, his resignation on request being accepted at once. Nominations for the vacancy thus made in the North Ward representation will be received also on May 11.

A grant of \$150 for publicity purposes was made to the Victoria and Island Development Association.

BULLER'S SHOW TO COMMENCE TO-MORROW

To-morrow afternoon at 4 o'clock Robert W. Buller's Dog and Pony Show, Victoria's own circus will open the first of four public performances to be given on the stadium grounds. Douglas Street shows will be given afternoon and evening to-morrow and Friday—the hour of the afternoon shows being set at 4 o'clock in order to permit school children attending Buller's Trained Animal Shows need no introduction to amusement lover's or Victoria. The show had a successful engagement here last season, and comes on in a second season's tour larger and better than ever. For this season a band composed of returned soldiers has been engaged, all well trained musicians who went overseas with various C. E. F. battalion bands.

"VITAL" TABLETS

The Great French Tonic Builds Up a Run-Down System. Men and Women of Canada May Now Be Strong and Healthy. Your Druggist Has It and Guarantees Every Box.

VITAL is the latest invention. A new lease of life is guaranteed to every man and woman who takes VITAL. The complexion is made clear; every blemish will be removed; the blood made pure, the nerves made strong, and every organ will be placed in a healthy condition. Rheumatism will be entirely driven out of the system; the tired feeling removed; new ambition and energy will be yours. You will be able to compete with the world. Get a box of the wonderful tonic to-day. VITAL will remove that pain in the back and give you a healthy appetite. Price 50c per box.

Cuticura Talcum is Fragrant and Very Healthful

Soap, Ointment, Talcum, 25c each. Sold everywhere. San. Depot: Spokane, Wash., R. Post 85, Victoria.

Clean -- Sparkling -- Inviting

A GOOD meal, daintily served, is most fully appreciated when eaten in a room that sparkles with sunshine and cleanliness. Your dining-room will always have this much-to-be-desired appearance if you use O-Cedar Polish, as directed, on the wood-work, floors and furniture. A few drops of O-Cedar on a wet cloth will

form a soft lather which removes any dust and grime the furniture may have collected. Over this clean surface simply rub a dry cloth. The "polish" that results from this treatment is bright and lustrous—it will cheerfully reflect the rays of sunlight that enter the room by day, and mirror the soft radiance of shaded lights after sunset.

O-Cedar Polish 25c to \$3.00 sizes. O-Cedar Polish Mop, without handle, \$1.50—the handle, 54 inches long, is 25c extra. Both Polish and Mop at your Hardware or Grocery Shop.

CHANNELL CHEMICAL COMPANY, LIMITED, TORONTO

O-Cedar Polish

The Hudson's Bay Company NOW CELEBRATING ITS 250th Anniversary

OUTPOSTS OF CIVILIZATION

BY

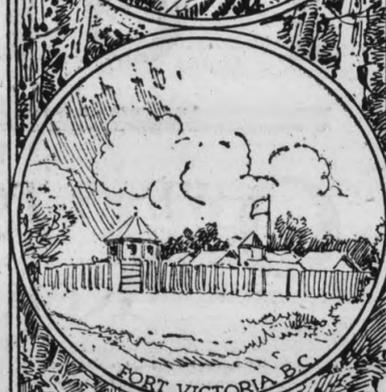

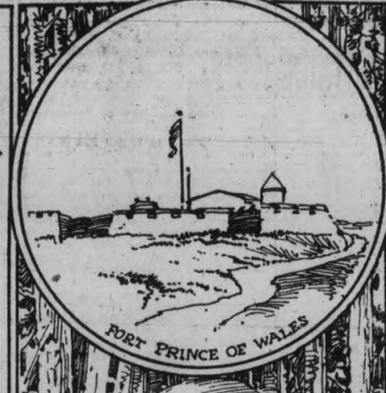

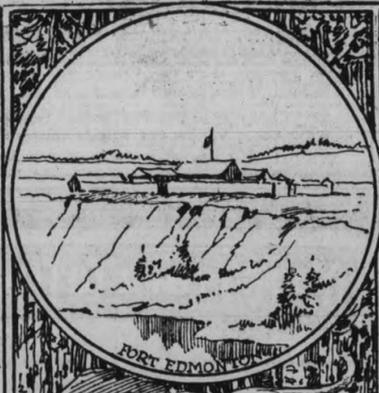

SIR WILLIAM SCHOOLING, K.B.E.,

Author of

"The Hudson's Bay Company, 1670-1920."

THE HUDSON'S BAY COMPANY was founded in an age of large thoughts and fresh ideas. The Old World was seeking riches in the New. The Royal Observatory at Greenwich was established in 1675 to promote the navigation of unexplored seas. The Royal Society was holding its earliest meetings and Sir Isaac Newton was enlarging the boundaries of human knowledge. The first Committee of the Company, passing from the City to the Court, saw the ruins of London after the Great Fire and could watch the building of St. Paul's Cathedral—the enduring monument to the genius of Sir Christopher Wren.

Among the greatest products of that fruitful age was The Hudson's Bay Company. For the purposes of the Fur Trade it placed outposts of civilization throughout the wilds of Canada and thus in the fulness of time, by methods easy to trace but impossible to foresee, it fulfilled its destiny of discovering and creating a great country and of fostering the development of a splendid race.

FIREMEN WALK OFF PRINCESS BEATRICE

Stokers Left Ship in a Body When She Reached Vancouver From North

MANY EMPLOYEES OF C.P.R. HAVE SIGNED

What appears to be the beginning of a seaman's strike in British Columbia coast waters was precipitated this morning when the firemen employed on the C. P. R. steamship Princess Beatrice walked off the ship following her arrival at Vancouver from Prince Rupert.

The firemen of the Princess Beatrice were evidently under the impression that the threatened

strike would be in effect on May 3, as the customary forty-eight hours' notice was given before the vessel left the Northern port. The action of the firemen on the Beatrice may possibly involve the crews of other ships, and the steamship companies are anticipating desultory defections in an attempt to disorganize the water services.

Eager to Negotiate.

For some days past the C. P. R. has been negotiating with its employees and various wage concessions have been granted which appear to be satisfactory to a large percentage of the men. The deckhands and firemen of various ships, including the Princess Victoria, Princess Alice and Princess Patricia, have signed an agreement with the company through representatives delegated to carry on negotiations. At these conferences the C. P. R. invited the secretaries of the unions affected to be present, but they ignored the invitation. The C. P. R. declined to have anything to do with a joint conference between steamship representatives and union officials.

It was stated at the C. P. R. office that the company has no reason to be alarmed over the situation, as the men of the deck department and oil firemen had signed up and the stewards seemed inclined to reach a

settlement under the proposed conditions.

Trouble With Stokers.

It would seem that the chief difficulty will be encountered with the coal firemen, who now come within the same wage classification as the oil firemen.

The coal burning vessels in the C. P. R. fleet comprise only the Princess Beatrice and Princess Royal, and the tugs plying in the Gulf trade.

In view of the fact that the firemen of the Princess Beatrice have quit it is not probable that the remainder of the crew of that particular vessel will be laid off, as it will be impossible to operate without the firemen.

No Changes in Pilotage Rates Under New Order

In a circular letter to all steamship companies the British Columbia Pilotage Association announces that: "The present rates as set by the Department of Marine will remain in force in so far as pilotage to Victoria and Vancouver and Gulf ports for ocean vessel regularly employing pilots of the association. Adjustment of rates for northern ports and coastwise vessels requiring pilots also some of the rates for moorage, and other irregular work, is now in hand and will be submitted at an early date."

KATORI MARU IS CROSSING PACIFIC

The Nippon Yusen Kaisha liner Katori Maru sailed from Yokohama April 27 with passengers and cargo for Victoria and Seattle. The Japanese liner is scheduled to reach here May 11, but it is likely that she will arrive a day ahead of schedule.

ARABIA MARU'S LIST

The O.S.K. liner Arabia Maru, which is due to arrive here Friday, has 48 steerage passengers and 550 tons of freight for Victoria. In addition to a number of cabin passengers the liner has 260 steerage for Seattle. The Arabia Maru sailed from Yokohama, April 24.

PUBLIC NOTICE

OWING TO THE STRIKE of Bakers' Operatives, the Firms of Rennie & Taylor, D. W. Hanbury and Shelly Bros.

Have Amalgamated Their Manufacturing Operations, and all bread is now being made at one plant

For the present it is utterly impossible to make house to house deliveries, but every effort is being made to maintain adequate supplies to All Stores, and the bread manufacturers beg the indulgence and kindly assistance of the public by getting their supplies from this source.

**PLEA FOR SYMPATHY
FOR SETTLERS AND
THEIR WAR-BRIDES**

Mrs. J. D. Gordon Addresses
Women's Canadian
Club

**MRS. PANKHURST PAYS
TRIBUTE TO CANADA**

A plea for continued sympathy—not charity—for the returned soldier, now that he has returned to civil life and is facing the difficulties incumbent upon the taking up of the threads of his former existence after years of army discipline and freedom from individual responsibility, was made by Mrs. J. D. Gordon, Provincial Director of the Homes Branch of the Soldier Settlement Board in the course of a splendid address before the Women's Canadian Club yesterday afternoon.

30,000 War-Brides.

Mrs. Gordon spoke of her work among the families of soldier-settlers on the land in British Columbia and of the difficulties experienced by the new settlers in their transition period from consumer to producer. Reminding her hearers that Canada now had 30,000 new citizens in the brides brought back from overseas by returned soldiers, she paid warm tribute to the English bride who, after a few years in this country and adjustment to the new conditions of life, made the finest woman settler in the world. "I appeal to all Canadian women throughout the province to be neighborly and sympathetic to the girl who has just arrived from overseas and is settling down with her soldier-husband and babies to a life on the farm. A little kindness and neighborly feeling will help those young brides to forget their natural homesickness, and will strengthen them for the difficulties which lie ahead of them," was Mrs. Gordon's plea.

Is "General Encourager."

Declaring that her role of "general encourager" was the most important of her duties as Director of the Homes branch of the Board, Mrs. Gordon spoke of the difficulties facing the expectant mothers in the outlying settlements where lack of proper medical and nursing attention accentuated the dangers of maternity. Many Canadian women living in the remote regions in the western part of the province had to go down to the States to receive attention at childbirth, said Mrs. Gordon, deprecating the fact that many children of Canadian parents were thus born on American soil.

"We ought to have within our Canadian borders everything for the protection of our Canadian mothers, and I hope that eventually the State will take up this matter of provision for maternity." In conclusion, the speaker said: "Your duty and friendship to the returned soldier should not end now the war is over. Now is the time that he needs encouragement and help, so please remember him now, not by way of charity—he does not want that—but by your friendliness."

Grateful reference was made to the parcels sent out to returned men and their families by various organizations, and which had brought a message of cheer to many a lonely settler.

Mrs. Pankhurst Speaks.

Mrs. Emmeline Pankhurst, the eminent economist and suffrage leader who was the chief guest of honor, in a brief address gave a few impressions of Canada from the point of view of a citizen of the Empire not born on Canadian soil. She was touched by Mrs. Gordon's appeal to the women for sympathy and friendliness for the English war-bride, which reminded her of her first impression of Canada, received on her arrival from England in September last, said Mrs. Pankhurst.

When the boats touched at Halifax, the debarking soldiers and their families were met by a reception committee formed of the women of Halifax and warmly welcomed to Canadian soil, while their restrooms were attended to in the canteen and reception rooms especially equipped for this purpose by the warm-hearted citizen of the Eastern port.

"Those women coming from England had the first Canadian note struck by those women of Halifax. My heart is full to think that Canadian women are going to care for those women from England. If you could only realize the difference in the life and conditions which face those girl-brides who are going on your farms after living in one of our big cities, I feel that you would make excuses for the girl who in her homesickness compares conditions here with those she has left. . . . My hope and belief is that we British women—whether born in Canada or the Mother Country—have the power as well as the opportunity to develop this wonderful country, make it one of the biggest and best in our wonderful Empire," continued Mrs. Pankhurst.

Urges National Service.

Referring to the maternity problem, Mrs. Pankhurst voiced the opinion that national service should be included in the educational system. "Our sons and daughters should be trained in national service—taught to be able to give to the nation as well as to receive, and each should be trained in productive knowledge to that end. The daughters of the rich should be taught nursing, so that in time there might be developed a vast national organization which would ensure that every woman, in no matter how remote a district, would receive proper care and attention in time of childbirth or illness," she concluded.

Preceding the address of Mrs. Gordon was a very charming vocal number, rendered by Mrs. Harry Lansen, who shared in the vote of thanks tendered by Mrs. Spofford and Mrs. Alfred Watt, M.B.E., in behalf of the club, to the speaker.

**MISSION WORK SHOWS
FINE PROGRESS**

Encouraging Reports Given at
Annual Session of Metho-
dist Women's Society

The opening session of the twenty-ninth annual meeting of the British Columbia branch of the Methodist Women's Missionary Society was held in Metropolitan Church last evening. Delegates were present from all parts of the Province, and much enthusiasm was evidenced as reports showed that substantial progress had been made during the year.

On the platform were Mrs. W. J. Sippell, branch president; Mrs. C. A. Wickens, corresponding secretary, and Mrs. M. Derbyshire, treasurer, together with Rev. H. S. Osborne, pastor of the church, and Rev. R. M. Thompson, of Wesley Church. Mrs. C. A. Wickens presented an interesting statistical report. There were 63 auxiliaries, with a total membership of 1961. New auxiliaries had been formed during the year at Revelstoke, Merritt, Maple Ridge, 14th Avenue, Vancouver, Marpole, and Hampshire Road, Victoria. The treasurer's statement by Mrs. Derbyshire gave the total income as \$16,981.02, made up as follows, balance on hand, \$102.25; annual members' fees, \$1,448; life members, \$2,125; donations, \$1,645; little light bearers, \$46.90; associate helpers, \$38.03; mite boxes, \$1,228.49; Easter offering, \$1,938.41; rest fund, \$214.42; public meetings, \$470.58; other sources, \$1,356.69; delegates expenses, \$146.15; Railway centre fund, \$1,226.24. This was an increase in the total givings of \$4,649.87.

The objective set before the auxiliaries had been an increase of twenty per cent. in numbers and finance, and both of these had been achieved, the membership increase being 248 and the finance over thirty per cent. This announcement was received with applause.

In a speech of great earnestness, Mrs. W. J. Sippell delivered the president's message in which she expressed profound thankfulness to God for the success attending the year's efforts and urged the members to increased faithfulness and loyalty. Rev. R. M. Thompson, of Wesley Church, gave the final address of the evening, when he spoke of the great work of the W. M. S. and of the sacrifice made by the workers in the field. He referred in touching language to the death of Rev. R. E. S. Taylor in West China, who was so well-known to Victoria people, having lived here for over a year before returning to his work.

At this morning's session reports of the district superintendents and other routine business was transacted. The local members of the Women's Missionary Society served lunch to all the delegates in the schoolroom of the church. This will be a feature of each day's proceedings. This evening will be young people's night. Mrs. Hockin, of West China, will deliver an address, and Miss Alcorn, of Japan, will sing some exquisitely colored lantern slides of her work in that country. The prizes to the circles and bands will be distributed.

**IN THE HEART OF
CHANGLESS CHINA**

Missionary Sends Interesting
Account to Local
Lady

Rev. C. A. Bunting, of the China Island Mission, at Kanchow, in Kiangsi province, sends an interesting account of this city to Miss McGowan here. In the course of the article he says:

The City

Kanchow is the second city in the Province of Kiangsi, it is situated in Lat. 25.47 N., Long. 114.36 E. This observation was made by an astronomer in our company some years ago, and he asked that it should not be published. It is used in a very general sense here as sufficiently accurate for the present purpose. The city is almost completely surrounded by water. The Kan River, which rises in the hills on the border of the Kwangtung Province, some 100 miles further south, strikes the city at the south-west, flows along the south and west sides, and leaves at the north-west corner. The East River, which has its rise on the border of the Province of Fukien, some 300 miles east, touches the city at the east gate, and flows along to the north-west corner, where it joins the other stream, so there is only a strip of land from the east to the south-east which has no water boundary. This strip is almost completely surrounded by water. The Kan River, which rises in the hills on the border of the Kwangtung Province, some 100 miles further south, strikes the city at the south-west, flows along the south and west sides, and leaves at the north-west corner. The East River, which has its rise on the border of the Province of Fukien, some 300 miles east, touches the city at the east gate, and flows along to the north-west corner, where it joins the other stream, so there is only a strip of land from the east to the south-east which has no water boundary. This strip is almost completely surrounded by water. This observation was made by an astronomer in our company some years ago, and he asked that it should not be published. It is used in a very general sense here as sufficiently accurate for the present purpose. The city is almost completely surrounded by water. The Kan River, which rises in the hills on the border of the Kwangtung Province, some 100 miles further south, strikes the city at the south-west, flows along the south and west sides, and leaves at the north-west corner. The East River, which has its rise on the border of the Province of Fukien, some 300 miles east, touches the city at the east gate, and flows along to the north-west corner, where it joins the other stream, so there is only a strip of land from the east to the south-east which has no water boundary. This strip is almost completely surrounded by water.

Walled All Round

The city is walled all round, and the walls are kept in good repair, considering the fact that all public work is done in the cheapest and worst possible way, and paid for at the highest possible rate. It is about 3 1/2 miles in circumference, and in shape represents the capital letter D, the extremes of the straight side being the east and north-west corners. There are five gates open every day—east, west, south, and two others called by pet names "Warrior" and "Spring." There are three other gates now built up for various reasons, one because it looks across the river to a bare red sandhill, and if opened there would come rolling in through that gate, and up that street, a ball of fire so large that all in its way would be burned up, was not to prevent any such calamity, and it was not only built up, but the spot was consecrated by building a small temple against the wall just there,

DOMINION TIRES

Royal Cord

Construction

TENS OF THOUSANDS of slender cords in many compact layers, each cord and each layer laid parallel one to another, and each embedded in pure rubber so they cannot touch—each separate cord and layer bringing its individual strength to the tremendous sum total of power and resistance—so is built the tire structure of the Dominion Royal Cord Tire. The key principle is the slender cord and the many layers or plies; thus the enormous strength to the structure and the heavier side walls make practical immunity from blow-out, puncture and the bruise.

**Why
"Royal Cord"?**

BECAUSE—"Royal Cords" make possible Lower Gas Consumption, more miles per gallon than the same car can get on fabric tires. This saving alone pays the difference in cost, within the life of an ordinary set of tire

BECAUSE—"Royal Cords" afford More Mileage than is possible from fabric tires. The carcass of the "Royal Cord," as well as the tread, absorbs the road shocks, and the carcass, in absorbing these road shocks, relieves the tread of a portion of its strain, giving longer life to the tread than is possible in fabric tires.

BECAUSE—"Royal Cords" are Non-Skid, and are so designed to be equally desirable for all four wheels, and their construction reduces side-slipping without impairing the ease in steering.

BECAUSE—"Royal Cords" eliminate Interior Friction. There's no chance for friction in them.

In "Royal Cords" each individual cord is coated with rubber, which prevents the parallel cords from rubbing each other. And a layer of live, stretchable rubber separates each of the transverse layers of cords, preventing any friction there. No internal friction means Longer Life to the Tire.

BECAUSE—Lower Air Pressure is possible, and this means more comfort and easier riding.

**Dominion Tires,
Inner Tubes and
Accessories are
distributed
through
Dominion Rubber
System Branches
and sold
by the
Best Dealers
throughout
Canada.**

Dominion Tire Accessories
include everything you need to close a hole, plug up a bruise, or heal a cut in your tire. These helps will make your tires last longer. Carry a supply in your car.

Dominion Inner Tubes
fit all Dominion Tires and ensure perfectly balanced tires. To add comfort to your car and mileage to your tires, always insist on having Dominion Inner Tubes.

with an idol inside to keep watch. Another was built up because the merchants in that quarter found that every evening there was a brisk trade in their shops for the purchase of the usual articles of food—rice, oil, salt, etc.—but at the end of the day, when they reckoned up they found that the money thrown in to the date of the reign of this Emperor or "till" had turned to ash, so thus it was plain that these evening customers were demons, and not human. The only way to get rid of such was to build up that gate by which they entered. Another was closed because it gave a clear view of the

residence of Emperor Lo Wang Tien Tsi, which Kanchow has the honor of producing, real or legendary, who knows, and if it was left open the gent which produced him would depart; thus the glory of the past would be dimmed, and the hope of the future perish. I have not been able so far to find any record of the date of the reign of this Emperor or of his doings, but we still have the Imperial city, a small spot whereon stands the examination halls of ancient days, a short street of shops, with a few tradesmen's homes, and it is still known as the Imperial City.

There is also a street called after the Emperor's tutor, wherein that dignitary's yamen was situated. The above is about all that is left of the former glory, and most of the present residents of the city could not tell you why that street was so named. The closing of this last-mentioned gate must have been a big blow to trade, as just at that spot there is always deep water in the river, and boats, large and small, can come alongside Winter and Summer. But superstition reigned supreme, and it was shut up.

Outside the "West" and "Spring" gates there are Custom Houses, through which all goods must pass, that which goes out, as well as that which comes in. Goods coming from a town only twenty miles distant have to pay Custom dues twice ere they get inside the city, and as the dues are fairly high, these houses collect annually a very large sum. To keep order along the river front, there are several gunboats, on each of which there are ten men and an officer. Please, kind friend, don't think of the Western gunboat, with the latest in steam or motor, plus an installation of wireless. These are

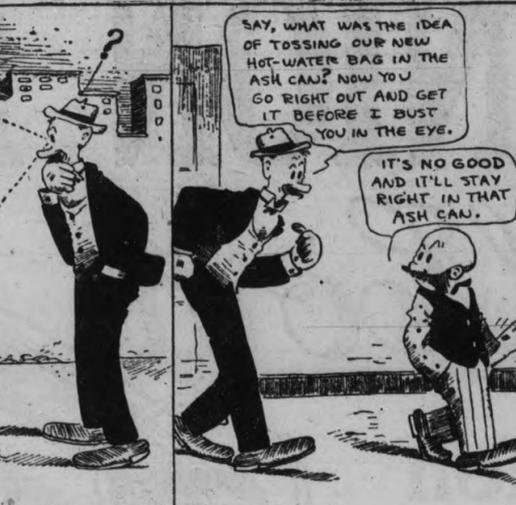

only wooden boats, about 60 feet long by 12 broad, with a round keel and open top. They are about 3 feet deep, with a cloth awning which can be erected tent-shape in time of rain. Since the revolution this force has been called "Water Police"—no "pun" intended. From the east gate to the north-west corner is one long series of wharfs, and there may be seen at any time about 300 boats of all sizes, some large enough to carry 100 tons cargo, while there are others so small that two men can lift them. These mostly ply between the provincial capital and this city, a dis-

tance of 300 miles. Families live on many of them, and the floating population must number a good few thousand. Outside the city wall, and near the water edge, there are several streets of shops who cater for the needs of this floating population, as well as many tradesmen whose work it is to produce the different articles of boat wear and tear; there are pulley makers, rope makers, mat makers, ship carpenters, blacksmiths, etc., etc. Then there is the boat office, a kind of trade union society, the officials of which receive 10 per cent. on all passages taken in these boats.

URGES INCREASED FREIGHT RATES

C. P. R. President Says at Annual Meeting Higher Levels Needed

Declares Results of Government Operation in U. S. Prove Case

Montreal, May 5.—Reconsideration of an increase in freight rates was declared necessary by E. W. Beatty, president of the Canadian Pacific Railway Company, at the annual meeting of its shareholders held here this morning. Mr. Beatty pointed out that while the gross earnings of the company were the largest in its history, the net earnings showed decreases from previous years because of the rise in the cost of wages and material. He said that the relations between earnings and expenses must receive careful attention. The extent of rate increases fixed by the Dominion Railway Commission had not equalled the increased costs forced on all railway companies.

Declared Inadequate.

Mr. Beatty went on to point out that owing to the peculiar conditions existing between the United States and Canada, Canadian roads during the war had accepted high wage scales made effective under the Government control of the American roads and had to continue to operate under similar tariff tolls. These tariffs were entirely inadequate, as shown in the United States had showed. Recent legislation had assured American carriers of rates which would return a fixed percentage of the value of the undertakings used in the public service. No doubt the necessity for rate adjustments would be given earnest consideration by both the Canadian Government and the Dominion Railway board, Mr. Beatty stated.

Four Per Cent.

Mr. Beatty contended further that freight rate adjustments were amply warranted both on the ground of value of service rendered by the carriers and the cost of them of maintaining such service. The earnings for the year 1919 presented a return of only four per cent. on the actual cash invested. Any industry conducting so extensive an enterprise must have reasonable surpluses, yet, with the Canadian Pacific Railway, the surplus after deduction of fixed charges and dividends amounted to less than half of one per cent. of the gross earnings.

No Confiscation.

The revenues, therefore, were obviously inadequate. The profits earned by the company's efficiency and the extent and character of its equipment and facilities should not be confiscated, and should revenue accruing to one company from service well performed be taken to supplement the revenue of a competitor less successful. The theory that the rates be not increased, but that deficits be met from the general revenue of the company, was economically unsound and discriminating against the public in favor of those using railway facilities.

Directors.

Four retiring directors, Sir John C.

FINANCIAL NEWS

FIRM CLOSE ON STOCK MARKET

(By Burdick Brothers, Ltd.)

New York, May 5.—Favorable news and substantial buying had a decided effect on the stock market here to-day and prices closed firm. The oil and steel groups had an active day and best prices were obtained near the close. B. S. B. advanced 2 1/2 points and closed at 96 1/2. U. S. S. also made a gain of two points, closing on the top at 95 1/2. The oil issues were active. Standard Petroleum which had a sharp advance of 3 points, closing at 32 1/2. On reports that the company had struck a 25,000-barrel well in Chiampa field, Atlantic Gulf had a sudden advance of six points, closing at 127 1/2. Industrials, rubbers, sugars, closed steady.

TO-DAY'S EXCHANGE

New York, May 5.—Sterling to-day was \$3.87 1/2.

Chicago, May 5.—The market opened to-day seemingly weak and support on the long side was very light, but this was short lived, and before long a good class of buying began which stimulated the market considerably. Prices, however, saw-sawed up and down with a range of practically only a point and half, finally closing near yesterday's levels. No news of great importance.

FIRST CARLOAD OF GRAPEFRUIT HERE

Victoria's Increase in Fruit Consumption Forces Full Order Importations

The first complete carload of grapefruit that has ever come to Victoria arrived to-day from California consigned to A. P. Slade & Co. Up until now Victoria wholesalers have been importing their grapefruit by the fifty or hundred case lots in broken shipments from Vancouver or other distributing centres. Lately, however, grapefruit consumption has increased so greatly that direct carload importations from California has been started by one firm.

The consumption of grapefruit in Vancouver has also increased enormously this year.

Up until the end of April our figures show that Vancouver consumed in four months more grapefruit than it did during the whole of 1919," said George Colgan, of Vancouver, sales manager of the California Fruit Growers' Exchange. "The reason for this is the high price of other fruits, especially apples. The prices of citrus fruits have not advanced nearly as much as have the prices of other fruits. Making known to the public the citrus fruits has also added to the demand and consumption. Being acid fruits the citrus fruits show a greater proportion of fruit efficiency than any other fruit."

To Have Fruit Week.

L. T. Dickinson, of Los Angeles, special representative of the California Fruit Growers' Exchange, also arrived in Victoria to-day. He is to undertake in connection with the retail and fruit stores of the city a campaign for increased fruit consumption to cut down the high cost of living and improve the health of Victorians.

By the end of this week every store in Victoria will carry full window displays of fruit. These displays will be continued all next week. Vancouver had its fruit week last week. All up and down the coast there are also to have their fruit weeks. Mr. Dickinson will tour the island to stimulate fruit consumption as soon as he completes his work in Victoria.

TO-DAY'S TRADING IN WINNIPEG MARKET

Winnipeg, May 5.—The demand for cash was poor to-day for most of the grades. There was some inquiry for No. 3 C. W. buyers offering to pay the brokerage. Barley was not in demand to-day.

A few buyers were looking for the No. 3 grade, while all spreads remained un-ordered. Oats closed 3 cents lower for May, one cent down for July and 1/2 cent lower for October; barley 1/2 cent higher for May and 1/2 cent lower for July; flax 2 cents up for May and one cent down for July; rye unchanged for May.

EXCHANGE SUMMARY.

New York, May 5.—Merchandise paper, 7 1/2; commercial 60-day bills on banks, 22 1/2; commercial 60-day bills, 23 1/2; demand, 23 1/2; cables, 16.50.

Belgian francs, demand, 15.40; cables, 15.40.

Gold, demand, 165 1/2; cables, 165.

Life, demand, 11 1/2; cables, 11 1/2.

Marka, demand, 1.85; cables, 1.84.

Government bonds and railroad bonds irregular.

Time loans strong; 60 days, 90 days and 6 months, 8 1/2.

Call money easy; high, low, ruling rate and last loan, 7.

Bank acceptances, 6.

STEEL CORPORATION MAY ABSORB POLSON'S

Toronto, May 5.—Among the yet unmentioned concerns which may be absorbed by the British Empire Steel Corporation, there is strong local rumor that Polson's Iron Works will be included. This plant, after several post-war vicissitudes, went into liquidation and tenders were opened last Saturday. No announcement as to the result is forthcoming and it is understood that the merger has its eye on the plant should the present offers be turned down.

TO change your Will

is the work of a few minutes only and can be done as often as necessary. There is therefore no good reason for delay in making a Will.

If you have not made your Will, it would be well to do so now and The Royal Trust Company solicits appointment as Executor thereunder.

If you have made a Will appointing other Executors and would prefer to have a Trust Company act instead, The Royal Trust Company could be appointed by a simple codicil as Executor in place of those named in the Will.

Interviews and correspondence solicited.

A Small Investment in Local Oil Field May Make You Independent

NATIONAL OIL

Offers the best opportunity to get into the oil business. Holding over 2,000 acres and options on 8,000 acres in Fraser Valley, 450 acres Katella, Alaska, undivided quarter interest in 3,200 acres, Graham Island; 640 acres Peace River, and 250 acres Starr County, Texas.

Remember, every shareholder is an owner in all these.

National Oil is, because of the above facts, the cheapest stock on the market to-day. Buy National before a commercial well is brought in.

\$10.00 WILL BUY 100 SHARES. Limited offering only at this price. CAN YOU AFFORD TO STAY OUT?
