CUT FLOWERS.

We can furnish cut flowers during the respective blooming season of the plants listed in this catalogue.

Usually, peonies bloom here early in May, and 1924 is the first year that we had blooms for Decoration Day.

We will probably have blooms for Mother's Day.

Send in your orders early, so if we can't supply you we can return your money in time to allow you to order elsewhere and not be disappointed.

Our price on the ordinary varieties is \$1.00 per dozen, plus postage, if desired by parcel post. At this price we can furnish reds, whites, pinks and assorted, but no special variety. At \$2.00 per dozen we can furnish named varieties of good (but not the highest priced) named kinds, such as Karl Rosenfield, Mons. Jules Elie, Baroness Schroeder, etc.

We can supply blooms from plants worth \$10.00 each and up at \$5.00 per dozen, and can send all different varieties, each labeled if desired. Blooms of such choice varieties as Therese, Solange, Le Cygne, Tourangelle, etc., will also be \$5.00 per dozen.

If desired, we can furnish thirteen different varieties, named, all rating 90 or above for \$5.00

We can furnish you 300 peonies in 100 choice named varieties for \$50.00, including some of the finest.

As we have no cold storage facilities, these must be picked when in bud, wrapped in parchment paper and shipped, but they can be placed in cold storage on receipt and kept in good condition for a few days, until ready for use, if desired.

The Iris blooms are so fragile that they cannot be satisfactorily shipped.

Glads will be shipped at \$1.00 to \$3.00 per doz., plus postage and later, dahlias at the same rate.

If you will leave the selection to us, giving your preference as to colors desired, we will try to please you. You will not be sent cheap or inferior stock, as all orders will be filled, only from varieties listed in this catalogue, and they are the "blue-bloods" of the species.

TERMS AND CONDITIONS OF SALE.

All prices quoted are F. O. B. Oswego, Kansas, and postage or express is payable by the purchaser. No charge is made for packing.

Terms are cash with order, or one-fourth cash and balance C. O. D. All remittances will be acknowledged the day received.

No substitutes will be made on any order without permission, and refund check will be promptly mailed for any goods we cannot furnish.

Personal supervision by a principal is given in filling all orders, and every care is taken to fill orders with superior goods that will give satisfaction, but if they do not please you when received, return promptly and we will refund your money and pay transportation both ways.

Every plant in our garden is labeled with name of variety, the date planted and from whom purchased.

We also have plats, and can tell in a minute from our books where every plant in our garden is located.

We believe our system will eliminate mistakes as nearly as possible, but if an error should occur, and you receive the wrong variety, it will, of course, be replaced with the correct one, free of charge.

DISCOUNTS.

\$11.00 worth may be selected for	-----	\$10.00
\$60.00 worth may be selected for	-----	\$50.00
\$125.00 worth may be selected for	-----	\$100.00

GREETINGS

We have been growing flowers for many years, and as the neighbors and visitors say, they do well for us.

For the past ten years, we have visited many peony fields at blossom time. We can truthfully say that we could pick handsomer bouquets from our garden than from those we visited. Of course, our garden, compared with many of these, is of modest size, as our total planting of peonies, irises, gladioli and dahlias, only comprises about three and one-half acres, but our 10,000 peonies, 5,000 irises, 30,000 gladioli and 1,000 dahlias are all aristocrats and when in bloom they make a showing worth coming a long way to see, and visitors are always welcome.

They were welcome when we did not have a plant or flower to sell, and of course, are still welcome, that we have some to sell, altho' no one will be solicited to buy in our gardens.

We will probably be criticized by the older and more experienced growers for listing too many varieties, but every one has merit in some locality, but we will probably have to cull out some of the novelties after their merits or demerits are proven in our garden.

As the old lady said of the patent medicine, "She believed it was good because it was well recommended by the advertiser," so we may have fallen for some of the alluring descriptions of the originators of these novelties.

We expect to maintain a high standard, and do not intend to propagate or sell any variety that does not measure up to this standard.

We do not expect to reduce our list to one hundred varieties of Irises, Peonies, Gladioli, or Dahlias, because we could not do so without leaving out some very nice ones, and we want to grow ALL the really good ones.

Average seasons these four flowers will furnish continuous bloom in our garden, from March until November. In 1923 we picked flowers from our garden in February and on Christmas Day.

IRISES

Few people realize the remarkable development and improvement that has been made in recent years in some of the new introductions of this delicately beautiful flower.

Our stock of Perry's, Bliss, Cayeux, Vilmorin, Maron and other foreign novelties is limited, as we can only dispose of the increase under import regulations, and of the more expensive varieties only one or two rhizomes can be spared this season, so late customers may be disappointed in securing them.

Most of the stock of our rare varieties, both American and foreign, was secured direct from the introducers.

Orders will be taken in the spring, but no deliveries of the rare varieties will be made until after blooming season is over. If our supply of any variety for sale is exhausted when your order is received, you will be promptly advised and your money returned, not be kept waiting, as we have in many cases, two or three months, and then disappointed in getting the desired plants.

The American Iris Society has issued a symposium, giving the average rating by a committee of Iris specialists or experts, on each variety, and these ratings should be a guide as to the desirability of old or standard varieties.

100 denotes perfection (not yet attained) and any variety rated above 60 is supposed to be good, but we have discarded and are not listing anything rating below 70.

Preceding the name of each variety we are giving this rating. Where the rating is omitted the variety is so scarce or recent that it has not yet been voted upon.

In giving descriptions the following abbreviations are used:

S.—Standard. F.—Falls. T. B.—Tall Bearded.

SASS BROS. INTRODUCTIONS.

(6 varieties)

- AKSARBEN**, T. B. (1923)—An uncommonly rich plicata; fawn and velvety brown markings on a cream colored ground. 24-in.--- \$10.00
- AUTUMN KING**, T. B. (1921)—This is a real autumn blooming Iris of fine size and beautiful colors. It created quite a furore when in bloom in our garden last fall, and garden clubs from neighboring towns visited our garden especially to see it and were enthusiastic in their admiration. This is probably the progenitor of a new race of Irises and should be in the garden of every Iris collector. Mr. H. P. Sass, of Washington, Neb., has it for sale at \$7.50 when my stock is exhausted. It multiplies rapidly and I will probably have six rhizomes to spare at that price this spring. It blooms in October and frosts may get it in the north.----- \$7.50
- BEAU IDEAL**, T. B. (1924)—The white segments have a solid half-inch border of pectunia violet, flower large and of fine substance. 33-inches.----- \$10.00
- JUBILEE**, T. B. (1923)—A ruffled heavy textured flower with peach tinted standards, the haft and edge of the flaring white falls peppered. 30-inches.----- \$10.00
- LONA**, T. B. (1923)—Standards sanded with pale purple on white, the falls purple with a yellow sheen, the flower enlivened by the yellow haft and beard. 30-inches \$5.00
- MIDWEST**, T. B. (1923)—A ruffled flower flushed and dotted with deep rose violet on a white ground. Multiplies rapidly. 30-inches. ----- \$5.00

THE PEONY.

Someone has written that the world has gone crazy about the Peony, and it is small wonder when we consider how beautiful it is, how easy to grow, how few its faults, and that no other plant responds so readily and gives so much for the care bestowed upon it. The Peony increases and grows more beautiful year after year.

If you plant three or four of the finer peonies, you will certainly become a convert to the craze, for after that you will never be able to get enough.

The peony is equally at home in nearly all parts of our country. It is the flower incomparable for the north and flourishes as no where else in Duluth, Minn., and Winnipeg, Canada, where it has been adopted as the city flower and grows in every garden.

Some authorities say the peony does not do well in the South, but here in Kansas, almost against the Oklahoma line, it certainly does flourish and the Sarcoxie, Mo., peony fields only 65 miles east of us, are famous. More than 5,000 cars of flower lovers visited that little place on one day last May, and the Kansas City Star gave the fields a whole page write-up.

The Peony takes care of itself all the year after once planted, and does not need spraying and attention required for success with most flowers.

The finest varieties are unsurpassed in beauty by any other flower, with such richness and delicacy of coloring, elegance of form, enormous size and sweet perfume.

It is splendid both for the border and for bouquets in the home.

By a proper selection of varieties and including the delightful and incomparable tree peonies, it can be had in bloom for six weeks.

The people who dislike, or do not care for the peony have formed their judgment of it from one or two bad sorts which are all too common.

We will guarantee that anyone, with any natural appreciation of the beauty of flowers, will be converted into a peony enthusiast by the sight of such lovely blooms as Walter Flaxon, Therese, LeCygne, Lady Alexandra Duff, Kelway's Glorious, Baroness Schroeder, Milton Hill, Phillipe Rivoire, Mme. Jules Dessert, Tourangelle.

These and hundreds of others almost as desirable are growing in our gardens.

The peony will grow, and give good returns in wonderful flowers each year, if the following simple instructions are followed in planting:

The soil, which should be rich, should be spaded deep, and well rotted manure can be put in the bottom of the hole, but no manure of any kind should come in direct contact with the roots.

Plant so the eyes are about two inches below the level of the surface and then mound up a little which can later be leveled by cultivation when the shoots are up. We sprinkle a small handful of bone meal around each plant after the roots are covered with about an inch of soil.

If possible, plant in full exposure to the sun, and the peony does best away from the roots of trees or shrubs, although we grow it there in our borders.

Most peonies that do not bloom, are planted too deep.

We are listing each grower's introductions separately.

We know there are some advantages in listing alphabetically instead, and may list that way next year if our customers prefer it. Will appreciate your advice.

The peony should be planted in the fall and we will start filling orders Sept. 15th.

Preceding the name of each variety we are giving the rating of the American Peony Society on its merits, 100 being perfect. We list very few ratings below 70 and

these only because they are good shipping and keeping varieties, and popular with commercial growers for that reason.

The date of introduction, where known, is given in brackets following name of variety.

Where rating is not given, the variety is so recent or scarce that it has not yet been voted on.

Our prices are for two to five eye divisions or one year roots, which should bloom the first year after planting.

THE GLADIOLUS.

Most decorative and most easily grown of all summer flowering bulbs.

To those who grow flowers for sheer garden effect, as well as to furnish the most exquisitely beautiful bouquets for indoor decoration there is no flower to compare with the gladiolus.

Some of the newer introductions are gems of the hybridizers art, and the term "Glorious Glads" is certainly well deserved, for no other flower furnishes such a wealth of glorious blooms, for so little effort and expense.

By a succession of plantings, saving the largest bulbs to plant last, the blooming period can be prolonged for three months or more. In our garden the Gladiolus maintains a continuous bloom from "peony time" until the dahlias start their display, and we even have "Glorious Glads" in bloom to compete with the dahlias.

As in our other specialties, we confine our plantings mostly to the rare and choice varieties and it is not our intention to grow or propagate anything that deserves less than a XXXX rating.

All the varieties we list have been highly recommended to us but if any of them do not measure up to our high standard, they will be discarded.

Most of our stock was acquired from the originators and is guaranteed true to name. We have no bulbs to sell before fall, and these prices are for delivery after digging the bulbs this fall, or for next spring. Prices per dozen are eight times the single price.

We are planting over 30,000 bulbs, between the peonies and irises, and in the borders among the shrubbery and perennials.

If you are not familiar with the modern Gladiolus, these blooms will make you rub your eyes to see if you are not dreaming.

THE DAHLIA.

Of all the autumn flowers the Dahlia has pre-eminently taken first place, and has been unanimously crowned King.

It is entitled to this honor for several reasons; the gigantic size of the flowers, the brilliancy of the numerous colors, its long season of bloom, ended only by severe frosts, its high value for decoration, both for the border and interior, its ease of cultivation and quick response to good treatment, all destine it for first place. It ends our year of "Continuous Bloom in the Garden" in a "blaze of glory."

Our list of varieties is comprehensive and includes most, if not all, of the leading prize winners at the prominent shows, both East and West.

We are listing these varieties, which are all growing in our gardens, but will have no tubers for sale until this fall, or the spring of 1926.

You are invited to visit our gardens this fall and make your selection while the Dahlias are in bloom.

We are pricing these at this spring's prices and if other dealers' prices are lower this fall or next spring, ours will be accordingly lowered.

- ROBERT TREAT, D. (Mueller)—This was the sensational prize winner at the big Eastern shows, winning the Garden Magazine Sweepstake prize for the best dahlia never before exhibited at the American Dahlia Society 1924 Show. Also has won many other cups and medals. Its coloring is a brilliant American Beauty rose shade, stiff upright stem and good bloomer.----- \$10.00
- RODMAN WANAMAKER—Dec. Peo—This is probably Peacock's best dahlia and one of the best in existence. The buds are pale yellow, as is each petal as it first expands, but it quickly develops into a golden-bronze-salmon-pink. A profuse bloomer and fine for the garden, cutting or exhibition ----- \$10.00
- ROBERT LAURIE BLACK, D.—This glorious ivory-white variety is really a hybrid show, a flower of great depth that when fully open almost becomes a ball.---- \$2.00
- ROLLO BOY----- \$4.00
- REGENT C. (Bessie Boston)—A prize winning clear mauve-pink of incurved formation. Blooms average over 8 inches.----- \$1.50
- ROSALIA STYLES (colossal peony)—Beautiful form, immense size, stiff stems and continuous bloomer, while last but not least, a wonderful live, lustrous color; bright tyrian-pink, tipped lighter, reflex pink. Superb cut flower and for exhibition \$1.50
- RUBE GIRL, C.—Bronzy autumn shade and very popular. Soft yellow suffused and tipped coral-red.----- 50c
- ROOKWOOD, D. (Bessie Boston)—Of an entirely new shade, bright cerise-rose without the faintest tint of magenta. Flowers are large, of good depth and are held aloft on splendid stems. Very profuse bloomer \$4.00
- ROSA NELL, D.—Mr. Broomall, whose introduction this is, describes it as the greatest of all decorative dahlias. Large bright rose flowers of good shape, on fine strong stems. Fine for exhibition or cutting \$2.00
- SOPHY MOREY, C.—Ideal in every way; large size; fine form and delicately beautiful color, a good keeper, vigorous and free bloomer. One of the best new ones.--- \$2.50

- SAN MATEO, D.** (Bessie Boston)—A monster bi-color of deep yellow, heavily striped and splashed scarlet. A flower of great substance and good stem. Won first prize for best fancy dahlia at San Francisco show in 1923----- \$1.50
- SENATOR BAIRD, D.**—A noble flower of immense size and very beautiful. Color the richest glowing red and one of the finest ever introduced----- \$5.00
- SAGAMORE, D.**—Badetty Bros., the introducers of this great dahlia claim that it is the most popular cut flower variety on the New York market. It certainly is a grand dahlia and the most gorgeous autumn coloring, a beautiful golden, deepening in the center. Greatly admired and a prize winner wherever shown----- \$10.00
- SCARAMOUCHE, H. C.**—General effect Indian-red, but the color is a very deep rose, shading a trifle lighter at tips. A very fine cactus on long, strong stems; a good cutter and keeper----- \$3.00
- SHOWER OF GOLD, D.** (Bessie Boston)—A brilliant yellow, deepening to soft apricot towards the center. A new type with slightly fluted petals. Free bloomer on strong stems. Fine cut flower----- \$1.00
- SINBAD, C.** (Bessie Boston)—A bright maroon, reverse of petals a lighter shade and as they twist and turn the effect is a blossom tipped with mauve. Petals many and slender for a cactus and incurved. Free bloomer on good stems. Very fine but scarce ----- \$5.00
- SISKIYOU, H. C.** (Broomall)—Pink tinged mauve. This has won first prize as largest dahlia wherever shown. It was shown at Short Hills, N. J. in 1923, measuring 14 inches in diameter. A sensational dahlia and Mr. Broomall states it attracts more attention than any other flower in his gardens ----- \$10.00
- SNOWDRIFT, D.** (Broomall)—One of the best white decoratives. A very deeply built, immense flower with broad, waxy, pure white petals. Fine for exhibition----- \$1.00
- ST. FRANCIS** (Bessie Boston)—Soft cream color, brightened with a pinkish glow on outer petals, creating a delightful blossom which can be used for all purposes. Good stems ----- \$4.00
- SUSAN G. TEVIS, D.** (Bessie Boston)—Distinctive new color, best described as a deep shade of lilac with a bluish sheen. Very large, graceful bloom. One of the best. ----- \$4.00
- SUNSET** (Pom.)—Orange color, desirable 40c
- SUNSET GLOW, H. C.**—A world beater; color yellow at base of petal, outer part overlaid flame scarlet. Profuse bloomer and perfect flower----- \$2.00
- THE CHOCOLATE SOLDIER, C. P.** (Doolittle) A new type. The color is a rare shade, being chocolate-maroon. A large flower and greatly admired----- \$3.00
- THE EMPEROR, D.** (Marean)—A maroon of the finest type. Perfect flowers on extra long stems. A prize winner of the highest merit ----- \$3.00
- THE GRIZZLEY, D.** (Burns)—A great velvety-maroon beauty. Flowers are extra large with reflected petals, extra long stems. A rare prize-winning novelty----- \$1.50
- THE LITTLE PINK KITTEN OF OZ** (Doolittle) A beautiful pink flower----- \$1.00
- THE PRESIDENT**----- \$1.00
- T. A. LEONARD, D.** (Bessie Boston)—One of the best for garden, home and exhibition. Free and continuous bloomer of immense flowers. Color is a deep cerise, or bright carmine-rose. Recommended highly \$3.00
- THE MERRY WIDOW, D.** (Marean)—Extraordinary flower. Enormous flowers on short, stiff stems held erect. Main color is clear yellow. This is suffused with a pleasing shade of red, but so combined as to make a most handsomely colored dahlia. A fine exhibition variety---- \$5.00
- THE SCREAMER, P.** (Doolittle)—A large flower, violet-purple, suffused mauve, long, strong stems. Exceptionally attractive. ----- \$3.00
- THOMAS CHALLIS, C.**—A very rich tone of salmon-red. The florets are beautifully incurved. Fine cut flower variety---- 75c
- TOMMY ATKINS** (Bessie Boston)—A startling color, flaming scarlet, so full of metallic lustre that it fairly glistens in the sunshine. The large deep blossoms are held high above the bush on long, stiff stems. An early bloomer. Excellent----- \$2.00
- UNCLE SAM, P.**—Orange-buff, blending into pink at edge; reverse spinal-red. Very large beautiful flower on long stems \$3.00
- U. S. A., D.** (Stillman)—Color, rich glowing deep orange; flowers of enormous size and splendid form. Blooms early and continuously ----- \$1.50
- VALIENT II, C.** (Stredwick)—Very large brilliant crimson with incurved petals. Fine for exhibition and very showy in the garden ----- \$1.00
- VALLEY FORGE, D.**—Flowers of enormous size on stiff stems. Light purple tinted white ----- \$1.50
- VENUS, D.** (Marean)—Soft shade of creamy-white with lavender suffusion low growing bush, flowers carried well above the foliage on long, straight stems. Profuse bloomer ----- \$1.00
- VALENTINE, D.** (Bessie Boston)—A wonderful exhibition and garden flower of immense size and a lovely color of pure cerise. The bloom is composed of many flat narrow petals, giving it substance and an uncommon appearance. A 12 inch bloom won the prize for largest flower at Oakland, Cal. show in 1923----- \$2.00
- VANITY, D.** (Bessie Boston)—An entrancing variety of glowing coral-pink. A high grade flower of charming and unique coloring which is admired by all----- \$1.50
- VICAR OF WASPERTON, C.**—One of the best English importations. An ideal exhibition flower. Base of petals a beautiful pink with overlay of yellow, edging off to a delicate cameo-pink, the center of flower a charming primrose-yellow----- \$2.50
- WASHINGTON CITY, H. C.** (Broomall)—A large waxy-white bloom on good stem. A fine cut flower----- 75c
- WHITE SISTER, D.** (Mrs. Stout)—A beautiful white decorative dahlia that has attracted the attention of expert dahlia growers for the past two years, on account of its beauty and size. A free bloomer on stiff stems. A prize winner wherever exhibited. Scarce. ----- \$5.00
- W. D'ARCY RYAN, D.** (Bessie Boston)—A striking fancy of violet-purple, heavily tipped white. Stem is good, size is large, and it is free flowering----- \$1.00
- WINFIELD SLOCOMB, D.** (Slocomb)—The center of this fine decorative dahlia is a beautiful gold, shading to burnt orange, a very alluring combination under artificial light for decorative purposes. Fine stem; profuse bloomer----- \$2.50
- WIZARD OF OZ, D.** (Doolittle)—This veritable giant is a rare shade of glowing amber-pink, of soft salmon shades and held high on strong stems. One of the finest exhibition and cut-flower dahlias----- \$5.00
- WHITE SWAN**—The standard pure white ball dahlia. Strong grower and free bloomer ----- 25c

- WORLD'S BEST WHITE, D.** (Murphy)—Very large white blooms far above the foliage. on extra strong stems----- \$5.00
- W. W. WILMORE** (Davis)—Originator's description: "Words on paper cannot possibly visualize this grand new dahlia. While it has the finest of artistic coloring, yet the blending is so unique as to baffle description. In an attempt we might say a light flame shaded to amber at the petal base. Yet each petal curves at the tip, showing a glint of opal shading. A veritable sunburst and electric fountain combined. Flowers are large and carried on fine stems. A thrifty grower of spreading habit."----- \$15.50
- YELLOW COLLOSSE, D.**—Clear canary-yellow of fine form and produced freely on long stems ----- 35c
- YELLOW KING, C.**—Immense flowers on long, stiff, but slender stems. Color light yellow, tinting to cream at tips----- 35c
