GENERAL IMPORTS INTO THE UNITED STATES

June 1944

Part II. Country of Origin by Commodity

Section B.—Europe, Asia, Australia, Oceania, and Africa

Prepared under the supervision of
J. EDWARD ELY
Chief, Foreign Trade Division

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50, 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 - (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 - (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>					
1	0010600-0015500	Animals, edible, except for breeding	53	5000000-5014500	Coal and related fuels
2	0018000-0035500	Meat products	54	5052000-5079100	Petroleum and products

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

GENERAL IMPORTS INTO THE UNITED STATES

July 1944

Part II. Country of Origin by Commodity

Section A.—North and South America

Prepared under the supervision of
J. EDWARD FIY
Chief, Foreign Trade Division

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50; 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 - (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 - (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

AVAILABLE FOR RELEASE
TO THE PUBLIC

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>					
1	0010600-0015500	Animals, edible, except for breeding	53	5000000-5014500	Coal and related fuels
2	0018000-0035500	Meat products	54	5032000-5079100	Petroleum and products
3	0036000-0038900	Animal oils and fats, edible	55	5080100-5193900	Stone, lime, cement, gypsum and gypsum products
4	0037000-0048900	Dairy products			Glass and products
5	0047000-0079500	Fish and fish products, except shellfish	56	5200400-5290850	Clay and products
8	0080100-0087900	Shellfish and products	57	5300000-5390700	Other nonmetallic minerals and manufactures, except precious stones and imitations
7	0088100-0097500	Other edible animal products	58	5391000-5930980	Precious stones and imitations, and industrial diamonds
<u>Group 0 - Animals and Animal Products, Inedible</u>			59	5950000-5959100	
8	0201000-0299900	Hides and skins, raw, except furs			<u>Group 6 - Metals and Manufactures, Except Machinery and Vehicles</u>
9	0300100-0345900	Leather			
10	0350000-0899990	Leather, rawhide, and parchment manufacture	60	6001000-6001100	Iron ore and concentrates
11	0700000-0759900	Furs and manufactures	61	6002000-6116108	Steel mill products
12	0803000-0821600	Animal and fish oils, and greases, inedible	62	6117000-6200998	Iron and steel manufactures
13	0840000-0990290	Other inedible animals and animal products	65	6211000-6270900	Ferro-alloys, ores and metals, n.e.s.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Whenever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

GENERAL IMPORTS INTO THE UNITED STATES

July 1944

Part II. Country of Origin by Commodity

Section B.—Europe, Asia, Australia, Oceania, and Africa

Prepared under the supervision of

J. EDWARD ELY

Chief, Foreign Trade Division

OCT 1944

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50; 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
- (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
- (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedules A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>					
1	0010600-0015500	Animals, edibles, except for breeding	53	5000000-5014500	Coal and related fuels
2	0018000-0035500	Meat products	54	5052000-5079100	Petroleum and products
3	0036000-0036900	Animal oils and fats, edibles	55	5080100-5193900	Stone, lime, cement, gypsum and gypsum products
4	0037000-0046990	Dairy products	56	5200400-5290850	Glass and products
5	0047000-0079500	Fish and fish products, except shell-fish	57	5300000-5390700	Clay and products
6	0080100-0087900	Shellfish and products	58	5391000-5930980	Other nonmetallic minerals and manufactures, except precious stones and imitations
7	0088100-0097500	Other edible animal products	59	5950000-5958100	Precious and semiprecious stones, imitations, and industrial diamonds
<u>Group 0 - Animals and Animal Products, Inedible</u>			<u>Group 6 - Metals and Manufactures, Except Machinery and Vehicles</u>		
8	0201000-0299900	Hides and skins, raw, except furs	60	6001000-6001100	Iron ore and concentrates
9	0300100-0345900	Leather	61	6002000-6116108	Steel mill products
10	0350000-0699990	Leather, rawhide, and parchment manufacture	62	6117000-6200998	Iron and steel manufactures
11	0700000-0759900	Furs and manufactures	63	6211000-6270900	Ferro-alloys, ores and metals, n.e.s.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

GENERAL IMPORTS INTO THE UNITED STATES

AUGUST 1944

Part II. Country of Origin by Commodity

Section A.—North and South America

Prepared under the supervision of
J. EDWARD RY
Chief, Foreign Trade Division

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50; 51 and 52. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

OCTOBER 1944

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 - (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 - (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>					
1	0010600-0015500	Animals, edible, except for breeding	53	5000000-5014300	Coal and related fuels
2	0018000-0035500	Meat products	54	5052000-5079100	Petroleum and products

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Whenever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transaction.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

^{1/} The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions.

General Imports, country of origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

The 1941 edition of "Foreign Commerce and Navigation of the United States" has just been published and is now available at the office of the Superintendent of Documents, Government Printing Office, Washington 25, D. C., for the price of \$2.50 per copy.

A limited number of free copies for the use of Government agencies will be supplied upon request of the appropriate officials. Such requests should be addressed to the Director of the Bureau of the Census. Government agencies requiring a large number of copies should write directly to the Superintendent of Documents, Government Printing Office, Washington 25, D. C., in accordance with their established procedures.

Particular attention is called to the foreword to the 1941 "Foreign Commerce and Navigation" in which an attempt is made to describe in detail the definitions used and coverage of the foreign trade statistics presented. Comments on this presentation in the foreword together with any other comments on the publication itself will be greatly appreciated.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
- (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
- (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>					
1	0010600-0015500	Animals, edible, except for breeding	53	5000000-5014500	Coal and related fuels

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions.

General Imports, country of origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

The 1941 edition of "Foreign Commerce and Navigation of the United States" has just been published and is now available at the office of the Superintendent of Documents, Government Printing Office, Washington 25, D. C., for the price of \$2.50 per copy.

A limited number of free copies for the use of Government agencies will be supplied upon request of the appropriate officials. Such requests should be addressed to the Director of the Bureau of the Census. Government agencies requiring a large number of copies should write directly to the Superintendent of Documents, Government Printing Office, Washington 25, D. C., in accordance with their established procedures.

Particular attention is called to the foreword to the 1941 "Foreign Commerce and Navigation" in which an attempt is made to describe in detail the definitions used and coverage of the foreign trade statistics presented. Comments on this presentation in the foreword together with any other comments on the publication itself will be greatly appreciated.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
- (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
- (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions.

General Imports, country or origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

The 1941 edition of "Foreign Commerce and Navigation of the United States" has just been published and is now available at the office of the Superintendent of Documents, Government Printing Office, Washington 25, D. C., for the price of \$2.50 per copy.

A limited number of free copies for the use of Government agencies will be supplied upon request of the appropriate officials. Such requests should be addressed to the Director of the Bureau of the Census. Government agencies requiring a large number of copies should write directly to the Superintendent of Documents, Government Printing Office, Washington 25, D. C., in accordance with their established procedures.

Particular attention is called to the foreword to the 1941 "Foreign Commerce and Navigation" in which an attempt is made to describe in detail the definitions used and coverage of the foreign trade statistics presented. Comments on this presentation in the foreword together with any other comments on the publication itself will be greatly appreciated.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 (1) Commodities entered into bonded customs warehouse for storage.
 (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on this line with the subgroup code designations.

References to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, the minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for use here from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions.

General Imports, country of origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

The 1941 edition of "Foreign Commerce and Navigation of the United States" has just been published and is now available at the office of the Superintendent of Documents, Government Printing Office, Washington 25, D. C., for the price of \$2.50 per copy.

A limited number of free copies for the use of Government agencies will be supplied upon request of the appropriate officials. Such requests should be addressed to the Director of the Bureau of the Census. Government agencies requiring a large number of copies should write directly to the Superintendent of Documents, Government Printing Office, Washington 25, D. C., in accordance with their established procedures.

Particular attention is called to the foreword to the 1941 "Foreign Commerce and Navigation" in which an attempt is made to describe in detail the definitions used and coverage of the foreign trade statistics presented. Comments on this presentation in the foreword together with any other comments on the publication itself will be greatly appreciated.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 - (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 - (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>					
1	0010600-0015500	Animals, edible, except for breeding	53	5000000-5014300	Coal and related fuels

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions.

General Imports, country of origin by commodity arrangement, is issued in 2 sections. A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 - (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 - (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>					
1	0010600-0015500	Animals, edible, except for breeding	55	5000000-5014300	Coal and related fuels

The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Whenever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/

The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions.

General Imports, country of origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
- (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
- (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions.

General Imports, country of origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
- (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
- (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

References to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>					
1	0010600-0015500	Animals, edible, except for breeding	53	5000000-5014500	Coal and related fuels

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/

The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions.

General Imports, country of origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
- (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
- (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED

TO THE PUBLIC

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.
