1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions

General Imports, country of origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50; 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 - (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 - (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions

General Imports, country of origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50: 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 - (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 - (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>					
1	0010600-0015500	Animals, edible, except for breeding	53	5000000-5014300	Coal and related fuels
2	0018000-0035500	Meat products	54	5052000-5079100	Petroleum and products
3	0036000-0036900	Animal oils and fats, edible	55	5080100-5193900	Stone, lime, cement, gypsum and gypsum products
4	0037000-0046990	Dairy products			Glass and products
5	0047000-0079500	Fish and fish products, except shell-fish	56	5200400-5290850	Clay and products
6	0080100-0087900	Shellfish and products	57	5300000-5390700	Other nonmetallic minerals and manufactures, except precious stones and imitations
7	0088100-0097500	Other edible animal products	58	5391000-5930980	Precious and semiprecious stones, imitations, and industrial diamonds

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event; these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions

General Imports, country of origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50: 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

May 1944

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 (1) Commodities entered into bonded customs warehouses for storage.
 (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

NOTE: NT - No Transactions

General Imports, country of origin by commodity arrangement, is issued in 2 sections, A covering the countries of North and South America and B covering all other countries.

General Imports, commodity by country of origin arrangement, is issued in 3 sections as Part I.

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50; 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

MAY 1944

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 - (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 - (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>					
1	0010600-0015500	Animals, edible, except for breeding	53	5000000-5014500	Coal and related fuels
2	0018000-0035500	Meat products	54	5052000-5079100	Petroleum and products

GENERAL IMPORTS INTO THE UNITED STATES

APRIL 1944.

Part II. Country of Origin by Commodity Section A.—North and South America

Prepared under the supervision of
J. EDWARD ELY
Chief, Foreign Trade Division

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50; 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 (1) Commodities entered into bonded customs warehouses for storage.
 (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

GENERAL IMPORTS INTO THE UNITED STATES

APRIL 1944

Part II. Country of Origin by Commodity

Section B.—Europe, Asia, Australia, Oceania, and Africa

Prepared under the supervision of
J. EDWARD ELY
Chief, Foreign Trade Division

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50; 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 (1) Commodities entered into bonded customs warehouses for storage.
 (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in this report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products, Edible</u>			<u>Group 5 - Nonmetallic Minerals</u>		
1	0010600-0015500	Animals, edible, except for breeding	53	5000000-5014500	Coal and related fuels
2	0018000-0035500	Meat products	54	5052000-5079100	Petroleum and products
3	0036000-0038900	Animal oils and fats, edible	55	5080100-5193900	Stone, lime, cement, gypsum and gypsum products
4	0037000-0048990	Dairy products	56	5200400-5290850	Glasses and products
5	0047000-0079500	Fish and fish products, except shell-fish	57	5500000-5590700	Clay and products
6	0080100-0087900	Shellfish and products	58	5391000-5930980	Other nonmetallic minerals and manufactures, except precious stones and imitations
7	0098100-0097500	Other edible animal products	59	5950000-5958100	Precious stones and imitations, and industrial diamonds
<u>Group 0 - Animals and Animal Products, Inedible</u>			<u>Group 6 - Metals and Manufactures, Except Machinery and Vehicles</u>		
8	0201000-0299900	Hides and skins, raw, except furs	60	6001000-6001100	Iron ore and concentrates
9	0300100-0345900	Leather	61	6002000-6116108	Steel mill products
10	0350000-0699990	Leather, rawhide, and parchment manufacture	62	6117000-6200998	Iron and steel manufactures
11	0700000-0759900	Furs and manufactures	63	6211000-6270900	Ferro-alloys, ores and metals, n.e.s.
12	0803000-0821600	Animal and fish oils, and greases, inedible	64	6301000-6305900	Aluminum and manufactures
13	0840000-0990290	Other inedible animals and animal products	65	6400400-6450300	Copper and manufactures
<u>Group 1 - Vegetable Food Products and Beverages</u>			66	6453000-6459900	Brass and bronze manufactures
14	1020000-1090260	Grains and preparations	67	6502300-6509900	Lead and manufactures
15	1101000-1190800	Fodders and feeds, n.e.s.	68	6540000-6544900	Nickel and manufactures
16	1191100-1250990	Vegetables and preparations	69	6550000-6551900	Tin
17	1290000-1330990	Fruits and preparations	70	6557000-6559900	Zinc and manufactures
18	1350000-1380140	Nuts and preparations	71	6650000-6790990	Other nonferrous ores, metals, and alloys, except precious
19	1420000-1428900	Vegetable oils and fats, edible	72	6820000-6900500	Precious metals, jewelry, and plated ware
20	1501300-1521000	Cocoa, coffee, and tea	<u>Group 7 - Machinery and Vehicles</u>		
21	1523100-1550390	Spices	73	7083000-7100900	Electrical machinery and apparatus
22	1570000-1654800	Sugar and related products	74	7110000-7110700	Engines, turbines, and parts, n.e.s.
23	1711300-1900000	Beverages	75	7400200-7800990	Other machinery, except agricultural
<u>Group 2 - Vegetable Products, Inedible, Except Fibers and Wood</u>			76	7850000-7890150	Agricultural machinery and implements
24	2011000-2098900	Rubber and allied gums and manufactures	77	7900100-7940290	Vehicles and parts
25	2102000-2189300	Naval stores, gums, and resins	<u>Group 8 - Chemicals and Related Products</u>		
26	2201000-2220450	Drugs, herbs, leaves, roots, etc.	78	8000000-8090900	Coal-tar products
27	2231000-2240700	Oil seeds	79	8102000-8150600	Medicinal and pharmaceutical preparations
28	2241000-2290580	Vegetable oils and waxes, inedible	80	8170000-8380992	Industrial chemicals
29	2302000-2345900	Vegetable dyeing and tanning materials	81	8400100-8441300	Pigments, paints, and varnishes
30	2401000-2480990	Seeds, except oil seeds	82	8500000-8559900	Fertilizers and fertilizer materials

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned to the chief component of the transactions.

$\frac{1}{2}$ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

GENERAL IMPORTS INTO THE UNITED STATES

May 1944

Part II. Country of Origin by Commodity

Section A.—North and South America

Prepared under the supervision of
J. EDWARD ELY
Chief, Foreign Trade Division

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50; 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
 (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
 (1) Commodities entered into bonded customs warehouses for storage.
 (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>					
<u>Edible</u>					
1	0010600-0015500	Animals, edible, except for breeding	53	5000000-5014500	Coal and related fuels
2	0018000-0035500	Meat products	54	5052000-5079100	Petroleum and products
3	0036000-0038900	Animal oils and fat, edible	55	5080100-5193900	Stones, lime, cement, gypsum and gypsum products
4	0037000-0048990	Dairy products	56	5200400-5290850	Glass and products
5	0047000-0079500	Fish and fish products, except shell-fish	57	5300000-5390700	Clay and products
6	0080100-0087900	Shellfish and products	58	5391000-5930980	Other nonmetallic minerals and manufactures, except precious stones and imitations
7	0088100-0097500	Other edible animal products	59	5950000-5958100	Precious and semiprecious stones, imitations, and industrial diamonds
<u>Group 0 - Animals and Animal Products, Inedible</u>					
8	0201000-0299900	Hides and skins, raw, except furs	60	6001000-6001100	Iron ore and concentrates
9	0300100-0345900	Leather	61	6002000-6116108	Steel mill products
10	0350000-0699990	Leather, rawhide, and parchment manufacture	62	6117000-6200998	Iron and steel manufactures
11	0700000-0759900	Furs and manufactures	63	6211000-6270900	Ferro-alloys, ores and metals, n.e.s.
12	0803000-0821600	Animal and fish oils, and greases, inedible	64	6301000-6305900	Aluminum and manufactures
13	0840000-0990290	Other inedible animals and animal products	65	6400400-6450300	Copper and manufactures
<u>Group 1 - Vegetable Food Products and Beverages</u>					
14	1020000-1090260	Grains and preparations	66	6453000-6459900	Brass and bronze manufactures
15	1101000-1190800	Fodders and feeds, n.e.s.	67	6502300-6509900	Lead and manufactures
16	1191100-1250990	Vegetables and preparations	68	6540000-6544900	Nickel and manufactures
17	1290000-1330990	Fruits and preparations	69	6550000-6551900	Tin
18	1350000-1380140	Nuts and preparations	70	6557000-6559900	Zinc and manufactures
19	1420000-1428900	Vegetable oils and fats, edible	71	6650000-6790990	Other nonferrous ores, metals, and alloys, except precious
20	1501300-1521000	Cocoa, coffee, and tea	72	6820000-6900500	Precious metals, jewelry, and plated ware
21	1523100-1550590	Spices	73	7063000-7100900	Electrical machinery and apparatus
22	1570000-1654800	Sugar and related products	74	7110000-7110700	Engines, turbines, and parts, n.e.s.
23	1711300-1900000	Beverages	75	7400200-7800990	Other machinery, except agricultural
<u>Group 2 - Vegetable Products, Inedible, Except Fibers and Wood</u>					
24	2011000-2098900	Rubber and allied gums and manufactures	76	7850000-7890150	Agricultural machinery and implements
25	2102000-2189300	Naval stores, gums, and resins	77	7900100-7940290	Vehicles and parts
26	2201000-2220490	Drugs, herbs, leaves, roots, etc.	78	8000000-8090900	Coal-tar products
27	2231000-2240700	Oil seeds	79	8102000-8150600	Medicinal and pharmaceutical preparations
28	2241000-2290580	Vegetable oils and waxes, inedible	80	8170000-8300992	Industrial chemicals
29	2302000-2345900	Vegetable dyeing and tanning materials	81	8400100-8441500	Pigments, paints, and varnishes
30	2401000-2480990	Seeds, except oil seeds	82	8500000-8559900	Fertilizers and fertilizer materials
31	2501000-2599100	Nursery and greenhouse stock	83	8620000-8695000	Explosives, fireworks, and ammunition
32	2601000-2629900	Tobacco and manufactures	84	8711000-8721200	Soap and toilet preparations
33	2800000-2960150	Miscellaneous vegetable products, inedible	85	9001000-9040400	Photographic goods
<u>Group 3 - Textile Fibers and Manufactures</u>					
34	3001000-3005000	Cotton, unmanufactured	86	9140200-9180290	Scientific and professional instruments, apparatus, and supplies, n.e.s.
35	3006100-3020999	Cotton semimanufactures	87	9200000-9280700	Musical instruments, parts, and accessories
36	3030000-3230900	Cotton manufactures	88	9400000-9459990	Toys, athletic and sporting goods
37	3241000-3250900	Jute and manufactures	89	9470000-9477000	Firearms and parts
38	3261000-3390490	Flax, hemp, and ramie, and manufactures	90	9500000-9530790	Books, maps, pictures, and other printed matter, n.e.s.
39	3401000-3421500	Other vegetable fibers and manufactures	91	9540100-9590061	Clocks, watches, clockwork mechanisms, and parts
40	3501000-3541000	Wool, unmanufactured	92	9610000-9670500	Art works and antiques
41	3550000-3574600	Wool semimanufactures	93	9700000-9990750	Miscellaneous articles, n. e. s.
42	3607000-3680800	Wool manufactures			
43	3690000-3698900	Hair and manufactures, n.e.s.			
44	3702000-3799900	Silk and manufactures			
45	3800000-3860490	Synthetic fibers and manufactures			
46	3900100-3981100	Miscellaneous textile products			
<u>Group 4 - Wood and Paper</u>					
47	4007100-4080500	Wood, unmanufactured			
48	4103100-4207555	Sawmill products			
49	4208000-4280990	Wood manufactures			
50	4300000-4321900	Cork and manufactures			
51	4590000-4692900	Paper base stocks			
52	4711000-4799990	Paper and manufactures			
<u>Group 5 - Nonmetallic Minerals</u>					
<u>Group 6 - Metals and Manufactures, Except Machinery and Vehicles</u>					
<u>Group 7 - Machinery and Vehicles</u>					
<u>Group 8 - Chemicals and Related Products</u>					
<u>Group 9 - Miscellaneous</u>

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

COUNTRY TOTAL					

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

GENERAL IMPORTS INTO THE UNITED STATES

May 1944

Part II. Country of Origin by Commodity

Section B.—Europe, Asia, Australia, Oceania, and Africa

Prepared under the supervision of
J. EDWARD ELY
Chief, Foreign Trade Division

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50; 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
- (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
- (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

UNCLASSIFIED
AVAILABLE FOR RELEASE
TO THE PUBLIC

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description
<u>Group 00 - Animals and Animal Products</u>			<u>Group 5 - Nonmetallic Minerals</u>		
<u>Edible</u>

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

GENERAL IMPORTS INTO THE UNITED STATES

June 1944

Part II. Country of Origin by Commodity

Section A.—North and South America

Prepared under the supervision of
J. EDWARD ELY
Chief, Foreign Trade Division

This report contains information affecting the National Defense of the United States within the meaning of the Espionage Act, U. S. C. 50; 31 and 32. The transmission or revelation of its contents in any manner to an unauthorized person is prohibited by law.

General imports of merchandise include the following types of transactions:

- a. Immediate consumption entries
- (1) Commodities which, upon arrival, enter immediately into domestic merchandising or consumption channels.
 - (2) For statistical purposes, commodities such as wheat and petroleum products entered directly into bonded manufacturing warehouses for further processing to be subsequently withdrawn for exportation are included with immediate consumption entries.
- b. Warehouse entries
- (1) Commodities entered into bonded customs warehouses for storage.
 - (2) Imported ores and crude metals such as copper, lead, and zinc entered into warehouses bonded for smelting and refining are included with warehouse entries.

UNCLASSIFIED
AVAILABLE FOR RELEASE
TO THE PUBLIC

IMPORT GROUP AND SUBGROUP CODE DESIGNATIONS - 1944

Group Code - The first digit in the Schedule A number of each commodity (or the first two digits, in the case of Group 00) indicates the group to which it belongs. Group value and shipping weight totals are shown in this report at the end of each group.

Subgroup Code - Subgroup code designations are shown at the end of each subgroup in the same column with the unit of quantity. Subgroup value and shipping weight totals appear on the line with the subgroup code designations.

Reference to the corresponding code designations in the following list will identify the groups and subgroups, which are indicated in the report in code only.

Subgroup Code No.	Schedule A Commodity Code No.	Description	Subgroup Code No.	Schedule A Commodity Code No.	Description

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Whenever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ * The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

^{1/} The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.

1/ The shipping weight may include that of minor components of the ore when this ore is composed of two or more components. In such event, these minor components are reported under their respective commodity numbers without a shipping weight. Wherever the shipping weight for the ore from a given country is less than the gross weight of the ore, there may have been transactions fully reflected in the gross weight totals but for which the shipping weight has been assigned only to the chief component of the transactions.
