3. INTELLIGENCE OBJECTIVES:

a. Takagi Iron Works (1046.6-1278.7)
Mr. Kumjro TAKAGI, manager
This plant manufactured bombs, shells, and mines for the Navy during the war. It is now engaged in the manufacture of bicycle parts. There are no explosives in the area at present; however, there are bomb and shell casings here. We have requested the plant manager to locate a furnace to melt this metal down so that it may be salvaged. This plant was connected with the Osaka Arsenal during the war.

b. Shimano Iron Works Limited (1047.5-1281.3)
Sueo SHIMAISU, plant manager
This target was connected with the Osaka Arsenal during the war, and there are bombs and shell casings now in the area, but they contain no explosive. The plant manager has been requested to locate a large furnace to melt the steel so that it may be salvaged.

INTELLIGENCE INCLOSURE TO OCCUPATION REPORT NO. 27.

Maps: Central JAPAN, 1/250,000
Southern HONSHU, 1/50,000

1. GENERAL SITUATION:

Occupation continuing without incident.

2. ORDER OF BATTLE:

See attached S-2 reports.

3. INTELLIGENCE OBJECTIVES:

a. Military:

The following information is submitted on a possible target which is believed not to have been assigned to date:
The Sakai Branch of the Osaka Metal Mfg. Co. Ltd.
This factory is located at (1046.7-1278.7) 1/50,000 map 5150-I.

During the war the plant turned out bombs ranging in size from 100kg to 500kg; 47 anti-tank gun parts - all parts with exception of tires and barrels; Marine motors of varying sizes; 20, 30 and 47mm gun shell casings.

At its peak the factory employed 3,000 civilians under the supervision of a Colonel NAKAMURA and 2nd Lt ABE. At present there are no military personnel at the installation but 250 civilians remain. The factory will manufacture air-conditioning equipment after reconversion.

A civilian, Mukai WAKAO, was left in charge and states that the inventory is complete and that he is anxious to have the Allied forces take over the installation.

The factory was investigated when an officer from this Regiment observed two cart-loads of rifles being hauled into the factory area.

Upon more thorough investigation it was discovered that the Sakai police are consolidating weapons in a building, inside the factory area, that was formerly used as a dining hall for employees.

Approximately 3,634 rifles and carbines, 3,326 bayonets, 151 LMG's, 114 knee mortars, and 67 sabres were shown on the inventory presented by a policeman, Masaji MINAMI, who was in charge. In addition, there were about 90 rounds of small ammunition and 3,378 rounds of blank ammunition.

C O N F I D E N T I A L

These weapons haveno connection with the factory proper. Only the space in the old dining room is being used for temporary storage. Policeman MINAMI stated that all of the weapons are to be turned over to Sakai police on 5 November 1945, thence to "I Corps."

There were a few rifles, bayonets, parry sticks and some fencing equipment in a recreation hall in the factory. This equipment was used to train the employees of the factory.

The following is a list of the general type of supplies that are at the installation:

Bombs (100 kg to 500 kg, large quantity)
47 AT guns
47 AT gun parts (large quantity)
Marine motors
Anti-tank gun shell casings(large quantity)
Rifles
Bayonets
Light machine guns
Knee mortars
Sabres
Fencing equipment

Address of the target is Osaka Fu; Sakai Shi; Mimibara Cho, No. 1310.
