# Wholesale Bulb, Seed and Plant Catalogue

Autumn of Nineteen Hundred Fourteen

---

These Prices are for Florists and Dealers Only

---

ONCE more, with the arrival of the Fall Bulb Season we present our Wholesale Catalogue and respectfully solicit the orders of all particular buyers. We list herein an excellent line of Bulbs of every kind, so that Florists and Dealers can secure a wide range in variety and color, all of which, in their respective classes, will give abundant satisfaction.

**Our Wide Experience** enables us to secure for Florists and Dealers the very best quality of Bulbs, which we import direct from the most careful and experienced growers in Holland. Our French and Bermuda bulbs are selected with the greatest care.

**Our Trade** continues to grow steadily each year, thus showing that we are caring for the wants of our customers satisfactorily. Florists and Dealers who once use VICK QUALITY stock seldom after risk their success by purchasing elsewhere.

**Our Prices** are very reasonable for the quality of stock we offer. By reason of the immense quantity we import, we are able to offer the highest quality of stock at low prices.

**Our Terms** are liberal. To parties of approved credit we allow 60 days time, or 2 per cent. discount if paid in 10 days from date of invoice, or 3 per cent. if cash is sent with order. Orders from new or unknown customers should be accompanied by cash; or, if credit is desired, satisfactory reference. No goods will be sent C. O. D. unless a partial remittance is made as a guarantee that goods will be accepted. *These prices are subject to change without notice.*

**Our Facilities** are unsurpassed. With splendid freight and express accommodations we can handle orders rapidly. Nine railroads enter Rochester, whose numerous fast freight and express trains enable customers to secure their shipments promptly.

**At prices here quoted** we deliver all goods to the freight or express companies in Rochester, with no charges for boxes, packing or carting. With our excellent equipment for shipping we can be depended upon to send out bulbs in good condition; after that our responsibility ceases.

**Special Notice.** Customers should give on every order, full name, postoffice, freight or express station, county and State; and also advise whether goods are wanted by express or freight. In the absence of such instructions we will ship according to our best judgment, but will not be responsible for the consequences. WE USUALLY SHIP BY EXPRESS, believing that course to be safer and more satisfactory. But sometimes, in the absence of instructions, we ship by freight, especially in cases of heavy shipments, to points easily reached. We have no fixed rule, however, and advise that customers give their preference.

**A Final Request.** Customers should advise whether they desire the varieties shipped when ready, or the entire order held until it can be shipped together. If not advised, we will ship when each kind of bulb is ready. The early Bulbs—Roman Hyacinths, Paper White Narcissus, Freesias, Candidum, Harrisii and Calla Lilies—can be furnished at once; nearly all of these have already arrived. Hyacinths, Tulips, Crocus, etc., in September; Lilies of our own growing can be furnished in October while most imported hardy lilies, Lily of the Valley etc. do not, as a rule arrive until late in October or November.

## A WORD CONCERNING THE EFFECT OF THE EUROPEAN WAR ON OUR FALL BULB BUSINESS

We had our wholesale catalogue all ready to mail August first, but on account of the sudden upheaval in Europe and the paralysis of ocean traffic, we ordered the mailing stopped until more favorable conditions might prevail.

At last we have heard from most of our shipments, a large part of which are already on the water, and it now seems certain that we shall be in position to handle our regular fall trade in bulbs just the same as if no war in Europe had arisen. We have already received part of our bulbs and by the time this catalogue reaches your desk we will probably have had several more shipments. We have received our Pansy seed and all other varieties of flower seeds and seeds of perennials for summer and fall sowing so that these cannot possibly be a source of alarm.

On account of unusual conditions prevailing at the present time we respectfully request that you send your order as soon as possible. Even if you do not want the shipment until later on, it will be well to send your entire order and have the goods held until a specified time.

It is evident that there will be a heavy demand on our stock. Already we are receiving inquires, and even tentative orders, from seedsmen, nurserymen, and florists who have evidently purchased from traveling Dutchmen in this country, who on account of unprecedented condition of affairs, cannot reasonably be expected to fill their orders this year. So far as we are able, we desire to hold our stock for our regular customers, but it will be a benefit to all concerned if you will make up your order as complete as possible and send it along at an early date, no matter what you may have done in previous years.

In common with all other Americans we earnestly hope that peace may somehow be brought out of chaotic conditions which prevail abroad, and that the blessings of prosperity may abound as never before, not only in this country, but throughout the world.

Very respectfully yours,

JAMES VICK'S SONS

# HYACINTHS

First Size Bulbs, Especially Selected for Our Trade

**T**HE growers from whom we import our Hyacinths are famous as Hyacinth specialists all over the world. Our instructions to them are to send us bulbs which are free from disease, true to name, of good size, well cured,—in short, bulbs of best quality regardless of price. And yet you will not find very much difference between our prices to you and those of most other catalogue concerns, because we are apparently selling our bulbs on a closer margin of profit. We import more bulbs into Rochester than all the other Seedsmen, Nurserymen and Florists combined. Orders already booked are far ahead of previous years, plainly indicating a record breaking season, all because we endeavor to furnish "The best the earth produces." The quality will be remembered when the price has been forgotten.

Not less than 6 of one variety at dozen rate, 25 at hundred rate.

Where less than 6 are ordered, 8 cents each

## LATE VARIETIES

While there has been a rapid increase in the popularity of all kinds of bulbs during the last few years, among no other classes have there been such an increase in demand as for the Late Flowering kinds. We are devoting considerable attention to these various classes and recommend them to the careful consideration of gardeners, florists and dealers.

### Vick's Superfine Strain Darwin Tulips

Too much praise cannot be given to this new Late Flowering class, which excel in brilliancy of colors and perfection of flowers. They are very robust and will grow anywhere and produce splendid results. While they are especially adapted for outdoor growing, they can be grown for cut flowers under glass if forced slowly. We recommend these named varieties as our selection of over fifty kinds.

### Late or May Flowering Tulips

During the last few years there has been an immense sale on many of these varieties. They surpass the earlier kinds for outdoor growing because of their length of stems. Many of them have large, open flowers, while others, especially the so-called "Botanical Tulips," though small, are exquisitely beautiful.
