INTRODUCTORY.

The first effort to collect and publish a record of the alumni of the University was made in 1877, when the late Dr. John B. DeMotte, as secretary of the Faculty, prepared the material included in the "Triennial Catalogue" of that year. This record was added to and published as a triennial several times, then as a quinquennial, under the editorship of Dr. DeMotte, and later of Dr. William F. Swahlen. The last Quinquennial was prepared by the editor of the present edition, in 1900. In 1905 it was decided to defer the publication until 1910, making it a Decennial Record.

During the last ten years the editor has made every effort, by personal communications, by correspondence, and by noting items in the press, to correct and complete the old records and to collect and file data for the present edition. Of one thing he has become firmly convinced,—that in no other nation on the globe do the younger college graduates change their occupations and addresses so frequently as in America. Under the circumstances, he feels that no apology is due for any omission of facts or for an occasional "lost" or wrong address. Some addresses which were correct when the copy was sent to the printers will be out of date before the book is delivered. On the day this page was written, no less than four "records" were received, just five months after the printed blanks were mailed to the alumni.

The thanks of the editor are due to the many alumni who have so promptly responded to requests for information in regard to addresses and other information concerning some of the "lost" or deceased. His especial thanks are due to Dr. Edwin Post and Dr. Salem B. Towne, who were appointed by the University Executive Committee to serve with the editor as a special committee on the publication of this book. The improvement in the general make-up of this book over former editions is to be placed to their credit.

DECENNIAL RECORD
OF
DEPAUW UNIVERSITY.

I. Corporation.

It is the aim in the following lists to preserve in a historical form the names and official terms of those who have served the University as members of the Joint Board of Trustees and Visitors. The first list contains the names of the Presidents, Secretaries, and Treasurers of the Joint Board, and the names of all *Trustees*. The second list contains the names and dates of service of all who have served as *Visitors*, classified according to the conferences by which they have been appointed. For the Joint Board now acting, the reader is referred to the current year-book.

II. Boards of Instruction.

It is the object of the following lists to preserve for historical reference the names and times of service of those who have filled the various chairs of instruction in the University from its founding to the present time. As in the case of the Joint Board, the officers of the Faculty are given first, the Professors and instructors afterwards, each group in the order of original appointment to that rank. For the present Faculty of the University, refer to the current year book.
