8. On August 25, a closing ceremony of the Third Lecture Course for the Recognition of Qualification of Nurse was held and 81 nurses finished the whole courses.

Child Welfare Center

A. Meetings concerning child welfare:

1. On July 28, at 10 a.m. to 3 p.m., a trauelling local juvenile information meeting was held at the Kawai Primary School in the Village of Yamagata, Kunohe County, attended by 14 school teachers, 5 child welfare workers and 18 general people, 37 in all, of which 25 were men and 12 were women.

The Director of the Center talked a juvenile story and made a speech on the subject of "Home Education". Doctor Suzuki made a lecture on the fresh infection of tuberculosis. Then an individual consultation was held on the week minded child and the self intoxication.

In Kawai Hamlet the interestedness of people in the child welfare is generally low and the child welfare workers have seldom had a meeting. The dwelling houses being scattered, a gathering of people to a meeting is bad. That the meeting was held in this low cultured village was a good chance for publicity and enlightenment of the Child Welfare Low and the interstedness of villages in the juvenile problem seemed to be deepened.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

2. On July 29, from 10 a.m. to 3.30 p.m., a trauelling local juvenile information meeting was held at the Shimohata Primary school in the village of Yamagata, Kunohe county, attended by 11 school teachers, 1 child welfare worker and 21 general people, 33 in all, of which 18 were men and 15 were women.

The Director of the Center talked a juvenile story and made a speech on the subject of "Home Education". Doctor Suzuki made a lecture on dysentery and Children's dysentery. Then 56 cases of consultation were handled, namely 5 cases of educational information and 51 cases of health consultation, of which 43 cases were medical treatments.

The status of this hamlet was the same as that of the foregoing one. It being a doctorless hamlet, the health consultation was very effective and served very much for the diffusion of the idea about health.

Notes: The above two meetings were sponsored by the Kunohe Sub-provincial Office, and the Director of the Center, Doctor Kazuo Suzuki and Technical Official Mrs. Mariko Ogawa attended them.

3. On August 1, from 2 p.m. to 4.30 p.m., a lecture meeting on the juvenile education was held at the Akaishi Shirine Office in the Village of Akaishi, Shiwa county, under the sponsorship of the Akaishi Village Women's Association, attended by 60 association members. The Director of the Center made a lecture under the subject of "How the Home Education Shall Be".

4. On August 11, from 10 a.m. to 1 p.m., a lecture meeting on the juvenile education was held at the Ezuriko Primary School in Waga County under the sponsorship of the P.T.A. of the same ship. The Director of the Center made a lecture on the subject of "The Children's Problem".

5. On August 17, from 8 p.m. to 10 p.m., a lecture meeting was held at the Hokkeji Temple in Kitayama, Morioka city, under the sponsorship of the Kitayama District P.T.A. of the Morioka Municipal Nio Primary School, attended by 35 membership. The Director of the Center made a speech on the subject of "How Home Education Shall Be".

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

6. On August 19, at 8 p.m., a lecture meeting was held at the P.L. Religious Organization hall in Kippushi, Morioka city, under the sponsorship of the Kippushi District P.T.A. of the Morioka Municipal Kuriyagawa Primary School, attended by 50 membership. The Director of the Center made a lecture on the subject of "How Home Education Shall Be".

7. On August 20, from 10 a.m. to 4 p.m., an August general meeting of the P.T.A. of Morioka Municipal Motomiya Primary and Lower Secondary Schools was held for a lecture and round table conference on the Child Welfare Law and the juvenile protection at the lecture hall of the same primary school attended by 40 men and 35 women, 75 in all. Secretary Chiba was present there from the Center.

B. Juvenile protection;

On August 22, at 10 a.m., a trial on the protective case of Sanjiro Kawakura, a boy of 11 years old and under protection, on his infanticide was held at the Juvenile Judgment Department, Morioka Family Affairs Court, attended by Justice Tanamura, Assistant Secretary Nasu, Muto and Suzuki, instructors with Juvenile Surveillance and Protection Institute, Professor Miura of the Course of Psychopathy, Iwate Medical Univershity, and Secretary Chiba of the Child Welfare Center. He was sentenced to be sent to the State Musashino Gakuen Reformatory for accommodation.

Total 184

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

The Following cases were remarkable among the cases handled in August.

Anjiro Kawakura, 11 years old, juvenile delinquent, in the village of Makibori, Iwate County:

On June 12, in the village of Tamayama, Iwate county, he took out of a cradle the first son of Takeo Takizawa, a baby of 106 years old, hit its head several times onto the ground and killed it by skull fracture. He is a feeble-minded boy and his intellect is only that of 3 years child. He becomes violent by fit and his neighlours are very afraid of him. His family is poor and has no protective power. On August 22, he was decided to be sent to the State Home for Juvenile Training and Education at the Morioka Family Affairs Court and will be transferred there on August 28.

Kikuo Sato, 13 years old, a juvenile delinquent, in the village of Shibutami, Higashi-iwai County:

Concerning him the report was submitted in the July report of 1948. He was thought to be corrected and returned home on August 9, 1949. After his accommodation into the Institution, he often wrote to his teachers in charge and classmates in his native place. His environment has been much inproved.

Shigeru Osawa, 15 years old, a juvenile delinquent, in Ueda-takamatsu Street, Morioka city:

He was much indulged and softly bred from his childhood. After his father's truant from school, and took out money and properties of his home. A child welfare official took up the case and he was taken into the Protection Center on May 17. He ran away from there two times on May 24 and June 29, but he becoming gradually better, he is now obedient. He is thought to have been corrected but he will be observed about more one week in his attendance to school in the second term. If he show a good result, he will be sent back to his home.

Tadasu Kumagai, 14 years old, a juvenile delinquent, in Kagano, Morioka City:

He was already reported in the report of previous month. He became better by protection, so he is expected to be sent back home as the foregoing case of Shigeru Osawa.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

The principal case of the above is mentioned as follows:

1. Minoru Omukai (13 year old) Morioka City
On May 16, 1949, this boy came to child welfare center together with his brother and a teacher in charge of the boy in a school. In 1947, his parents were separated and mother got married with others. In the mean time his father died in last year. He has been lived with his step-mother and older brother since his father's death. His brother is a carpenter and no one is in a house during day time. He does not like to go to school and has attended only 4 days since April. He has pocket a brother's money from time to time and just recently he brought out a sum of ¥1,700 and went to Hanamaki Hot-Springs with his freind where he spent two days. Such being the case, this boy has been accommodated immediately into the protection institution for guidance. At present he is attending to the school from the institute, and the situation is likely good. It is expected to reform his character if proper guidance continues a month.

2. Consultation of education:
Kenjiro Miyano (14 year old) Ganshuryo, Aoyama-cho, Morioka City
On April 28, 1947, this boy came to the center with his mother. He said he wants to get job instead going to school, therefore we told them that compulsory education must be take if circumstances permit. It was cleared that this boy intend to get job in order to help support a poor family after investigation. Such being the case, a liaison between welfare section of the city office and child welfare committee member has been made for actual investigation. After this, the highest amount of allowance to applicable person for Life Protection Law has given to this family and the boy has entered the school right after that day.
On May 6, 1949, his mother has visited to this center again and saying that the family has no mattress at all and sleeping without it. After inspection of the actual situation has made by member of child welfare committee, 2 sets of mattress were given them through welfare section of the prefecture. The boy is attending his school every day.

3. Foster Child:
Yae Kuzumaki (12 year old) Yamagishi-cho, Morioka City
When visited this family on March concerning the school problem of her brother, we recognized that this family is being in a very difficult condition with 8 family

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

members. At that time, her parents said that Yaeko (a child by a former marriage) will be given to foster parents. Under the circumstances, we have sent a letter to Sosuke Miura, a registered person as a foster parent, saw-mill master in Otsuchi Town for foster child in question. Then Miura's wife came to Morioka on May 23, 1949, and met the foster child, Yaeko. All went well and on the same day Yaeko' went to Miura's house with pleasedly. 5 pcs. of RALA gift goods were given to Yae.

4. Vocational Guidance:
Masahiro Iida (18 year old) Tokyo Metropolis
This boy were handed over from police station on April 22, 1949, as a wanderer. A guidance has been given after accommodation in the protection institution. At first, he said that he is a repatriate from Manchuria and his all family members were died there. But afterwards, it was cleared that his talk is somewhat different from the fact, and his grand-mother is now living in Shizuoka City. He wishes to settle down here and to reform his living attitude, so after making every possible efforts, we got him a job in adjustment of motor truck at Repatriates Relief Association. At present, he has exerting his effort to his job and get a confidence from the association. He is now living happily.

Total: 545

Of the cases handled, the following ones were remarkable:

A. Mitsuko Nakamura, a foster child, 2 years old, Yamagishi-machi, Morioka City:

Koichi Nakamura, Mitsuko's father, came to the Center on June 9, saying that his wife having died from heart disease on April 30, 1949, he could not work by dint of pour children ranging from two to eight years old and wished to entrust Mitsuko to ony foster parent earlier.

On June 10, the Center made an inquiry to Mr. Hatsutaro Kato, registered foster parent in the town of Kurosawajiri.

On June 15, Mr. and Mrs. Kato and Nakamura father and child met and the child was entrusted to the former. A future guidance is to be made.

B. Minoru Komukai, a juvenile delinquent, 13 years old, Morioka City:

The report was already submitted on the subject last month and the subsequent progress was good.

Having received the request for entrust to a proper foster parent, an inquiry was made to Mr. Gizaemon Iwaki, registered foster parent, who replied to take him in on June 13. Therefore, on June 21, a member of the Center carried the boy to Mr. Iwaki's in the village of Okkirai, Kesen County and the boy was very glad and in high spirits. A future guidance and observation is to be made.

C. Masako Kikuchi, juvenile delinquent, 17 years old, Yamada Town, Shimohei County:

The report was already submitted on her in April.

Mr. Goro Takahashi, an applicant for foster parent, became improper on account of an illness of his wife and

CONGRATULATORY ADDRESS

I am Sgt. Tatem of Public Welfare Section, Iwate Military Goverrment Team. I am here representing Lt. Bentley who was unable to attend this meeting. Lt. Bentley is very sorry that he could not attend. We the members of Iwate Military Government Team Public Welfare Section feel that it is of up most importance that we have good Children's Welfare Center. We feel that the people should be congratulated on the fine work that they have been doing toward building this building.

We must not stop at only one of these Centers, but others should be planned. Now that this building has been completed means that our work has just began, look in the future.

The ideals and purpose of building such buildings are that they should be put into use and encourage that public use them. There will be no discrimination in race or colour. They are open to the people rich or poor. We want to give you what knowledge we have and we are here to help you and are backing you up.

Effectness of this building depends completely upon its use. This building is only a stepping stone we need to have many buildings of this type. To have good [redacted] foundation we must have many well organized and well supervised Children's Welfare Centers. We should have them not only in Iwate Prefecture, but all over the JAPAN. It means a better life and better health for the children.

Now in closing I will say again that we congratulate you on the fine work that you have been doing and we hope that you will continue to do so.

Minimum Standards for Children's Institutions

The Children's Bureau, Ministry of Welfare, has completed and will soon release an extremely important ordinance concerning minimum standards for the operation of children's agencies, both public and private, Mr. Irvin H. Markuson, Chief, Public Assistance and Child Welfare Branch, Welfare Division of SCAP's Public Health and Welfare Section, announced today.

"These standards are the result of the combined efforts of many prominent social workers and managers of children's agencies," Markuson stated. "The Central Child Welfare Board and the Children's Bureau cooperated in every respect and are responsible for the final sifting of all material and for coordinating this material with existing standards, such as those set up by the Medical Treatment Law.

"Success in eliminating such exploitation of children as was revealed in the shocking Kotobuki Maternity Home case will, of course, depend entirely upon the type of supervision local authorities give these children's agencies. The standards themselves will be of little value unless the licensing and supervisory procedures are carried out with precision and authority. Local authorities will need the understanding and support of the public as well as the support of prefectural Child Welfare Boards in performing their prescribed duties.

"Minimum standards are generally enthusiastically accepted by those agencies which are earnestly endeavoring to maintain a high level of care. Most such agencies welcome standards and licensing as a means by which

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

unprincipled institutions seeking to exploit children can be refused a license to operate. Although there is no desire on the part of anyone concerned with minimum standards to put children's agencies out of business, there will be some institutions closed because of inadequate buildings and equipment, and untrained, inexperienced personnel."

Following are some of the more important provisions of these minimum standards:

a. Educational qualifications and work experience for heads of agencies and key employees.

b. Provision for periodic health examinations and medical care for both children and agency employees.

c. Cleanliness of kitchen, kitchen utensils, toilets, bedding, etc.

d. Window and door screening and periodic spraying with insecticides.

e. Adequate provision for fire control and provision for safety of children in the event of fire.

f. Provision for adequate space per child to prevent unhealthy overcrowding.

g. Provision for adequate diet.

h. Provision for education and for vocational training.

Agencies covered are:

Homes for Juvenile Training and Education

Homes for Dependent, Neglected and Abused Children

Lying-in Agencies

Mothers' and Children's Homes

Infant Homes

Weak Children's Homes

Home for Physically Handicapped

Homes for the Blind

Homes for Feeble-minded Children

Children's Recreational Agencies

Day Nurseries

"To the best of my knowledge Japan is the only country in the world which will have national minimum standards for children's agencies," Markuson concluded. "While it has been difficult to establish a minimum standard below which no children's institution should be allowed to operate, I believe that an exceptional job has been done by the men and women who spent months on this project.

"Right now these minimum requirements are based on Japan's current economic status and her ability to comply on a nation-wide level. It is hoped that later on as building materials and institutional equipment become available, these basic requirements may be expanded to provide even better care and additional comforts for Japan's homeless children."

Manuscript of Lecture on Enlightenment and Publicity of Child Welfare in Higashi-iwai County

Ladies and Gentlemen:

I think that our father-land Japan has become a little brighter at the fifth year after the conclusion of war, don't you think so? As a matter of course, it owes to a comparative easiness of our food problem through the good offices of the Allied Powers. But I suppose it is in evidence that the mental composure has slowly risen in the feelings of Japanese people.

Nevertheless, our daily living is not easy at all even now. It is hard, far from being easy. But it is not my living alone that is hard. Those of our next doors and our second doors are also hard. Therefore, by sharing difficulties among us and possessing the spirit of social solidarity, we shall be able to have light and encouragement in our future. Moreover, we are guarranteed by the stipulation of Article 25 of the Constitution to have the rights of carrying on the healthy cultural life in the lowest degree.

The Popular Welfare Department of the Prefectural Government handles various business stipulated by the law based on this spirit, of which I shall speak in order. But, at the first, I wish you will fully remember that the business handled by the pOpular Welfare Department is carried on basing on the spirit shown in Article 14 of the Japanese Constitution, that all the nationals are equal under the law and are not in the political, economical or social distinction according to their race, faith, sex, social status or birth.

1. Livelihood Protection Law:

The Livelihood Protection Law is the one enforced on the first of October, 1946, based on the spirit of Article 25 of the Japanese Constitution.

Before the establishment of this law, there were the Relief and Protection Law, the Military Affairs Aid Law, the Medical Protection Law, the Mother and Child Protection Law, the War-time Disaster Protection Law and so on. All of them were the laws for especial protection to the especial persons and had, more or less, the beneficial and charitable colours. But this law in question has a character of social guarrantee and Has been established

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

in the spirit of indiscriminate and equal protection to the persons who are in the actual state of poverty by the responsibility of the State.

The following are the type of protection.

(1) Livelihood aid: The daily living cost is granted.

(2) Medical aid: The medical fees are granted.

(3) Child-birth aid: The expenses for child-birth are granted.

(4) Vocational aid: The expenses necessary for starting work are granted.

(5) Funeral aid: The expenses necessary for funeral are granted.

2. Popular Welfare Worker Law:

The popular welfare worker system of Japan started with the social aid councillor system established in Okayama Prefecture in 1916 and afterward this system, being established in all prefectures as the district welfare worker system, became an official organ in 1937 by the establishment of the district welfare workers association.

After the conclusion of war, this system was under the fundamental renovation, its title was changed into the popular welfare worker, and the popular welfare association was established in October, 1946. Considering from the importance of this system, the Popular Welfare Worker Law was established and enforced in July, last year. Along with the enforcement of the Child Welfare Law in January 1948, the popular welfare worker has concurrently become the child welfare worker.

In Iwate Prefecture, at present, about 3200 popular welfare workers are making their activities in the enforcement of the Livelihood Protection Law and the Child Welfare Law, and the protection and guidance of persons in need of protection. By the by, you must engrave on your mind the fact that the popular welfare workers have made their social services without any renumeration.

3. Disaster Relief Law:

Formerly every prefecture kept the fixed amount of funds for the urgent calamity under the Disaster Relief Funds Law. The Disaster Relief Law was es-

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

tablished and enforced in October, 1947, and it is decided that the State is to make a powerful relief activity in her responsibility in the case of a disaster covering wide range. The type of relief under this law is as follows:

(1) Supply of accommodation facilities:
The afflicted are to be accommodated in a suitable facilities and a barrack is to be constructed and supplied.

(2) Supply of food by means of the boiled rice and others.

(3) Supply or lending of clothings, beddings and other essential commodities.

(4) Medical treatment and child-birth.

(5) Supply of school things.

(6) Funeral.

4. National Health Insurance Law:
As they say, "A sound mind is in a sound body", the health is, ns doubt, a motive power for the exultation of the State. Many persons have lost their property by the payment of a hospital. The National Health Insurance Law was established in 1938 based on the spirit of mutual and social aid, and in this prefecture the national health insurance union was established in most of towns and villages in 1942, but they have been inactive on account of the non-payment of union members and so on. But, considering from the importance of this system, the law was revised in July, last year, and the obligation of the establishment of a union has been made the burden of city, town and village. The nationals must co-operate with this system imagining the time when one is sick oneself.

No! Tell what the benefits are. How it operates.

5. Child Welfare Law:
I spoke of the details of the Child Welfare Law in my last speech to you, which I think you understood fully. Therefore I shall speak of two points simply today.
One of them is the system of foster parent.
Last time I told you that there were the asylum system and the foster parent system for those children who have no guardians or who are thought improper to be under the guidance of guardian.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

It is good for a child to be accommodated in an agency, but it is better for him to be put under the care of a person who will take a fatherly interest in him. It is the system of a foster parent that was hit on here.

To speak of a foster parent, it is desirous for us if all the applicants for foster parent are suitable as such, but there may be some who wishes to be a foster parent for his own sake, not for the sake of the child, like the cases of human traffic you have seen in the recent newspaper. Therefore the Prefectural Government make them investigate on the applicant of a foster parent whether he is suitable to commission a child or not, and after listening to the opinions ofthe Child Welfare Board, a foster parent is decided. The following are the conditions of the foster parent.

(1) The same person takes interest in the rearing of a child and wishes to bring him up for child's own sake.

(2) The same person has a healthy common sense.

(3) The same person and all his family members have no hereditary nor infectious disease.

(4) The same person has a considerable amount of property.

(5) The environments of the dwelling place is good.

This prefecture has registered 21 persons as a foster parent and has now 30 applicants for foster parent. The foster child was commissioned to 10 parents, and we have had no trouble till now. To speak the truth, I myself was a foster child in my childhood and can fully appreciate the foster parents.

If there is any of you who wishes to take care of a child as a foster parent, please apply the matter to the child welfare worker who is the popular welfare worker. If you find a child in need of a foster parents, please come to the Prefectural Office to notice the matter together with the child welfare worker.

I add that it is decided to grant a foster parent ~~fourty-four yen and eighty sen (¥44.80) per child per~~ month as a commission expenses.

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

I told you last time that there was a day nursery for the child whose parents had to work or could not bring the child up on account of disease. I think many persons are apt to think a day nursery something like a kindergarten. Not only the general people but also the proprietor of a day nursery are apt to think that only those who are well can afford to send their children to a day nursery and those who are living the hand-to-mouth living or those who can not pay a nursery fee cannot afford to do so. But, as I told you at the first, the Child Welfare Law has also been established based on the spirit of Article 25 of the Japanese Constitution, and it is the prinpal objective of the day nursery to accommodated and give nursing to those children in worse economical condition as well as to the children of an ordinary family. For the children in such a condition it is decided that whole or partial amount of a nursing fee shall be burdened by the State, prefecture, city, town or village in accordance with the circumstances. I hope that not merely the child welfare workers but also the general people will fully understand these points and all the children will have the benefit of the Child Welfare Law.

I have explained briefly on the principal business charged by the Popular Welfare Department of Iwate Prefectural Government. In the past Japan, the central government established many laws but did make no efforts to disseminate them to the nationals, and the nationals, too, though they make fuss about the taxes or ration, have no interest in other matters. In such a condition, even if a good and splendid law is established, it is of no use. All the laws I have spoken of today are very propressive legislature in their spirit. Among them, the National Health Insurance Law and the Child Welfare Law are the laws with which the nationals must actively make especial co-operation. But, practically they can not be said to have been managed well. It is shown in the fact that there is not one mother's home or one day nursery in this county. Though you say that there is no parent who does not think of his own children, it is true that no action follows your words.

Dont' you think so?

Nothing can make the management of the law more smooth than the understanding of the law by general people. It is my earnest desire that you will study what you can not understand to your heart's content and all the good laws will be managed by their real spirit of legislation, thus a bright and democratic cultural Japan will sooner be realized.

Total: 112

DECLASSIFIED E. O. 12065 SECTION 3-402 / NNDG NO. 775013

Of the foregoing cases, the remark-able ones are as follows:

A. On April 18, Ryo Sagara, two years old, on the rearing information, was entrusted to Mrs. Toki Yoshida, a foster parent, in Shinjo in the city of Morioka. On April 19, the mother of Ryo got a job in the Tsuchizawa Hotel as a living-in-maid. Since the first rearing consultation on Ryo, we criticized justly the troubles in the home and gave the mother several guidance, and many a time was spent in the search of a foster-parent and the good offices for her employment. A guidance will be continued in future.

B. On April 22, Masako Kikuchi, a delinquent of 17 years old, in the town of Yamada, Shimohei county, met Mr. Goro Takata, an applicant for foster parnt, in the city of Kamaishi and Mr.Takata, acknowledging all the past of Masako, sweared to restore her to goodness by adot adoption.

On January 21, Masako had been caught by the City Police in the act of pickpocketing. As she is a girl of strong individuality, the special guidance had been given her day and night in the child welfare center and the protection institution, and she had been put in the Toryo Gakuen Reformatory till a foster parent would be found. Thus she had been guided specially for more than three months.

She will be officially entrusted to Mr. Takata as a foster juvenile in these days and the future guidance of her will be charged by a child welfare official.

C. On April 16, Misao Yoshida, a waif of 18 years and 10 months old, in Kitayama, Morioka city, was entrusted to Mr. Arata Yoshida, her uncle, in Nataya Street, Morioka City.

She was handed over from the Morioka city Police on February 25, and feigned herself to be Junko Yoshida, an orphan repatriated from Saghalien. As she said that she had become deaf since February last year, she was examined by the ear and nose specialist, who discovered no obstacle. Then she was examined by a psychiatrist and was discovered to be in hysteria and was under the continual medical treatment. When her all lies became clear, she disturbed herself very much and was needed day and night nursing. As she disliked to return to her home, she was decided to be entrusted to her uncle mentioned above.

She, being very fond of sewing, obtained a job in the Knitted-wool plant in Kashimashita in the city of Morioka through our good offices. She attends the plant from her uncle's and is making a satisfactory progress.
