Betty Baxter's Gossip.

Vacation days are about over.

Narberth roads are being put in

Labor Day was a day for sports in every section.

Infantile paralysis has upset the school programs.

Narberth folks are still returning from the seashore and mountains.

Our local bank reports a steady increase in deposits.

Mr. Samuel P. Bowman and family are home from Ocean City.

Mrs. F. D. Walker has returned to her home on Elmwood avenue.

# WHY WE DID NOT PLAY KIRKPATRICK AND TOWN

Editor of Our Town:

As the result of numerous inquiries received from our many friends on the South Side, including postcard and telephone messages, and culminating in a somewhat lengthy petition, asking why we did not match our skill against Bill Kirkpatrick and Bob Town in the doubles tennis tournament now in progress, we take this occasion, speak-Mrs. Kennedy Duff and Miss Helen ing as one man, to state our case fully,

We knew from the outset that following the regular double matches, which we looked upon as being purely preliminary, there would be played the more important contests popularly Miss Mary Campbell has returned known as the consolation doubles. All season we have watched with the keenest pride the work of Messrs. Cowan and Shaw and we long ago resolved that while it is a good thing to encourage beginners up to a certain point, there comes a time when older and more experienced players must say, quite emphatically, "thus far, but no farther must you go." That time came on Labor Day afternoon and we went into the ring determined that Cowan and Shaw must be kept out of the consolation doubles at all costs. After two of the hardest sets in the history of the association, we succeeded in eliminating these two gentlemen, and they will not, therefore, participate in the matches for the consolation prizes.

In closing, we wish to announce to our many friends, including our financial backer, Bill Goodall, and our Sport Goodall, mascot, that we will appear on the courts at 2 o'clock sharp, Saturday afternoon, ready and willing to defend our title, no matter Municipal Hospital, in Philadelphia, what it is.

Black No Terror for the Champions-Bill Simpson Stars With the Bat—So Do All the Rest of the Team-Bobby Gibson Pitches Shut-out Ball for Six Innings

What had seemed would be a hard game for the champions last Saturday turned out to be one of the easiest. Bob Black, the Autocar's left hander, who has always given the Narberth boys a run for their money, was on the mound for the visitors and Narberth took to his pitching in the very first inning and scored five runs when George Howes led off with an infield single, Wallace then sacrificed him to second, and Davis scored Howes with a scorching two-bagger able to hold. Flick Stites was then poked in the ribs; Durbin and Koons then singled in succession, and after Fleck had flied out to center field, Simpson doubled to right field, and Gibson flied out to second base, all during which time Narberth scored

This seemed to take all the ginger out of the visitors.

While the Autocar builders started off with two hits in the first inning, yet they did not score, much to the credit of Vernon Fleck, whose wonderful throw to Nig Koons caught Bob Gilmore at the plate, who was rent season will be amplified by the trying to score from second on Charlie Barker's single. The Automobilists connected with Bob Gibson's shoots for one hit in the second inning; Earl Dickie, who played with one, but after that nothing like a hit was made while Gibson stayed in the box (six innings.)

During this time the Narberth boys ad increased their lead

# THE DUN GAME IS NEARING

Next Saturday Week, Sept. 23rd

The Main Line in general is looking forward with much interest to the game in which the champions and the R. G. Dun & Co. team clash. Last year, the Narberth team was in the lead at this time, with Dun & Co. in second place. This year it is exactly reversed, but we hope that the Narberth team will be able to beat the Dun team in their next game.

It is expected that fully three thousand spectators will be on hand. The 0 field will be roped off, and it is hoped that they will have the pleasure of seeing the best team win, whether it be Narberth or not. While we hope Narberth will win, yet the Dun & Co. team have a good many friends in Narberth owing to the clean game which they play. Catcher Fahey is well liked by the Narberthites, and we hope he is the backstop for the visitors as usual.

#### NOTICE FOR YOUNG MEN.

#### CURIOUS NESTING-PLACES.

Every year some fresh discovery is made respecting the curious habits of birds. The boldness shown by even our shy birds when domestic duties are concerned is surprising. Robins are especially noted for their boldness, and a pair have been known to build and rear their family on a beam in a school, entering by the window, which was left open. Swallows seldom build in odd places, but a pair have been known to build their nest against a pane of window-glass. A swallow's nest in a funnel is an exceptionally queer place for a bird of this species to choose Wrens are very ingenious, and their

dome-shaped nests, which are so heautifully woven, are often found in old kettles and tins, and even in the pockets of old coats which have been left hanging about. A hedge-sparrow's nest in a kettle was found in a bunch of nettles close to a public footpath, where school-children passed every day, but the faithful bird, with no thought of danger, reared a family quite unmolested.

#### MOTHER'S WAY BEST.

Little Willie felt indisposed, and the family doctor ordered him take a powder.

"Come on, dear," said mother coax ingly when the powder arrived, "take once."

"Don't want to!" wailed Willie,

"Oh, Willie," his mother said reproachfully, as she drew the small boy near to her, "you've never heard me complain about a little powder, have you?"

"No, and neither would I," was young William's startling reply, "if I could just put it on my face as you do. But I have to awallow it!"

#### WATER SPOILED EASILY BY IRON

Half a part per million of iron in water is detectable by taste, and more than four or five parts makes water inpalatable. In some mineral springs iron is the constituent which imparts a medicinal value to the water, but ordinarily it is undesirable.

More than 2.5 parts per million in water used for laundering makes a stain on the clothes. Iron must be removed from water from which ice is made, or a cloudy, discolored product will result. An iron content of over two or there parts per million in water used in the manufacture of paper will stain the paper. Iron is harmful in water used for

steaming, for it is in equilibrium with acids which inside the boiler become dissociated, with the result that the free acids corrode the boiler plates; but the amount of iron carried in solution by most waters is so small Sherron, Raymond C. Jones, George that the damage it does to steam boilers generally amounts to little.
