Simple Hints for Growing Prize-Winning Roses

We advise fall planting when and where possible. You should be guided by climatic conditions in your section and the experience of successful local gardeners. We usually begin shipping about October 1 and continue until April 1, but find late spring plantings do not survive the first summer as well as earlier plantings.

Any good soil in a sunny location, and away from trees and shrubbery, is right for Roses. The soil should be spaded deep—about 18 inches. Any manure used should be mixed with soil and placed within the first 9 inches at the bottom of the bed. Don't let the roots touch the manure. Fill top of bed with top soil.

Make the holes deep and large enough to receive the roots without bending. Place the plant with roots spread out, and slightly deeper than the plant grew in the nursery. Work soil in around the roots until hole is three-fourths full. Pack well and water thoroughly. When water settles, finish filling hole with loose top soil; this acts as a mulch. If fertilizer is required on the surface, spread it carefully and work into the top soil.

Should watering be required in dry weather, be sure to soak the soil thoroughly. A light sprinkling is almost useless. Good

cultivation and loose top soil or a mulch of peat moss are surely as important as watering.

Foliage diseases may be controlled with Tri-ogen or its equivalent. Good sprays may be bought from your local merchant with directions on the containers.

Pruning: Prune Hybrid Tea and Hybrid Perpetual bush Roses by removing misplaced canes and old and diseased wood at the base; shorten remaining canes to desired height. To keep Tea and Polyantha bush Roses in shape, remove dead wood. Prune Hybrid Tea Climbers and Tea Climbers to remove old or diseased wood, and to keep in bounds. Prune Shrub Roses and Climbers which bloom only in the spring by removing old, weakened canes at the base, leaving the new and thrifty canes for next year's bloom. (Example, Excelsa and Banksia.) All Rose pruning should be done in the spring when buds begin to swell (about February 15 here) except Climbers and Shrub Roses that bloom only in the spring; these should be pruned in early summer, soon after they have finished blooming.

Abbreviations Used: CHT., Climbing Hybrid Tea; Flor., Floribunda; HT., Hybrid Tea; LC., Large-flowered Climber.

ROSEMONT'S Hardy Climbers, Rambles

A Climbing Rose is a Rose that grows higher and higher, near the top of the previous year's growth.

A Rambler, properly called, has long, thin, flexible branches which if not supported, will touch the ground and take root.

A Pillar Rose does not climb, but are too stiff. Some are so stiff that others require a stake or support.

Price, except as noted, best-grade 2-yr. plants, \$1.10 each; 3 for \$2.85; \$11.50 per doz.

American Pillar. Rose with center and yellow suffused petals. A rambler but is actually a climber.

Dr. W. Van Fleet. A climber with long-stemmed, delicate flowers in all ways.

Mary Wallace. Bud long pointed; semi-double, cupped, profuse seasonal blooms. Actually a strong pillar climber.

Mme. Gregoire Staerlin. Long pointed; flower very fragrant. Delicate pink, followed by pear-shaded dant-blooming climber.

Paul's Scarlet Climber. Large clusters; flame scarlet. None better. This is a climber. \$1.10 each; 3 for \$2.85.

Silver Moon. Large, early flowers; yellow star-shaped.

Everblooming Polyantha or Baby Roses

The origin of the Polyantha is not clear. It is believed to have come from the Multiflora ramblers; hence the misleading name sometimes applied to them, "Baby Ramblers." They are not ramblers in any sense of the word, but very dwarf, bushy plants, blooming in large clusters of tiny flowers. Excellent for mass planting or dwarf, informal hedges and borders.

Ellen Poulsen. Large, double, bright cherry-pink clusters.

George Elger (Yellow Cecile Brunner). Copper yellow.

Gloria Mundi. The prettiest orange-scarlet Baby Rose we know. A deserving winner of medals.

Ideal. Velvety crimson trusses of fragrant flowers.

Katharina Zeimet. Large clusters of small white flowers. One of the best white Baby Roses.

Perle d'Or. Dainty, long-pointed, salmon-orange buds; medium-sized, double, lasting, intensely fragrant, salmon-pink flowers borne in large clusters.

Tip-Top (Baby Doll). Tyrian-rose at edge of blooms, passing to white and pale yellow.

Price, except as noted, best-grade, 2-yr. plants, \$1.10 each; 3 for \$2.85; \$11.50 per doz.

Cecile Brunner. The true Sweetheart Rose. Sprays of rosy pink buds open into shell-pink flowers. \$1.50 each; 3 for \$3.75.

Everblooming CLIMBING ROSES

Blaze. Vigorous climber producing a gorgeous mass of brilliant scarlet in the spring. Often an intermittent bloomer for the remainder of the season. \$1.35 each; 3 for \$3.15.

Climbing American Beauty. Climbing form of American Beauty with large, rose-pink flowers.

Cl. Caledonia. Climbing form of the well-known white Rose that has long been a favorite. \$1.25 each; 3 for \$3.15.

Cl. Cecile Brunner. Climbing sport of Cecile Brunner. Large clusters of miniature seashell-pink flowers. Good grower. \$1.50 each; 3 for \$3.75.

Cl. Columbia. Peach-bloss-pink. Nearly thornless. \$1.25 each; 3 for \$3.15.

ROSEMONT'S Hardy Climbers, Ramblers and Pillar Roses

A Climbing Rose is a plant that, if given support, grows higher and higher, starting each year from or near the top of the previous year's growth.

A Rambler, properly speaking, has long, thin, pliable branches which if not supported, take root where they touch the ground and thus "ramble."

A Pillar Rose does not climb or "ramble," its canes are too stiff. Some are strong and self-supporting; others require a stake or some support.

Price, except as noted, best-grade, 2-yr. plants, \$1.25 each; 3 for \$3.15

American Pillar. Rosy pink or carmine, with white center and yellow stamens. Usually classed as a rambler but is actually a vigorous climber.

Dr. W. Van Fleet. A very hardy, vigorous climber with long-stemmed, appleblossom-pink flowers. Extra fine in all ways.

Mary Wallace. Bud long pointed; flower very large, semi-double, cupped, fragrant, warm rose-pink. Profuse seasonal bloom. Classed as large climber; actually a strong pillar or self-supporting shrub.

Mme. Gregoire Staechelin (Spanish Beauty). Bud long pointed; flower very large, of distinct form, fragrant. Delicate pink, stained, crimson outside, followed by neat-shaped fruit. Long stems. Abundant-blooming climber.

Paul's Scarlet Climber. Semi-double flowers in large clusters; fragrant scarlet with a crimson shade. None better. This is an excellent pillar Rose. \$1.10 each; 3 for \$2.85.

Silver Moon. Large, clear silvery white, semi-double flowers; yellow stamens. Excellent climber.

Floribunda or Hybrid Polyantha Roses

This is not any particular strain of Roses, but rather a new group derived from various sources. They are strong growers, more cold-resistant than Hybrid Teas; the flowers are single to very double, borne in huge clusters throughout the season. They are most effective planted all one color in mass plantings or as informal borders and hedges.

Price, except as noted, best-grade, 2-yr. plants, \$1.10 each; 3 for \$2.85; \$11.50 per doz.

Baby Chateau. Bud ovoid, crimson; flower double, red shaded garnet. Blooms are carried in clusters. Very vigorous.

Ele Poulsen. Flowers medium size, semi-double, fragrant, slightly fragrant, bright rose-pink, borne in clusters on long stems.

Eutin. Bud pointed, globular; flowers double, glowing carmine-red, in clusters of as many as 200. Bounded on long, strong stems. Dark, glossy foliage. Very vigorous. Attains a height of 2 to 3 feet, continuous bloom. \$1.50 each; 3 for \$3.75.

Floradora. One of the most satisfactory of the Floribundas. An eye-catching scarlet-red. Always in bloom. Height 24 to 30 inches. \$1.50 each; 3 for \$3.75.

Grass an Aachen. Large, double flowers of Hybrid Tea quality, in clusters. Flesh-pink and salmon-yellow.

Improved Lafayette. Semi-double, open, slightly fragrant, deep glowing red, suffused with crimson. Vigorous, bushy.

Kirsten Poulsen. Medium-sized, bright scarlet flower, single, open, lasting, slightly fragrant. Borne in clusters on long stems. Vigorous, bushy plant that blooms profusely during the entire season. Foliage light green.

Mrs. R. M. Finch. Double, rosy pink flowers, 2 inches in diameter, that make a fine big cluster. Bushy, profuse bloomer.

Banksia, Cherokee and Miscellaneous Roses

Price, except as noted, best-grade, 2-yr. plants, \$1.50 each; 3 for \$3.75

Yellow Banksia. Double yellow flowers. \$2.00 each; 3 for \$5.00.

Pink Cherokee. Single, silvery pink flowers. Excellent in the South.

Red Cherokee. Bright carmine-crimson blooms.

White Cherokee. Fragrant white flowers.

American Beauty. HP. An old-time Rose that everyone admires because of its perfume. Both buds and flowers are very large, the color deep carmine, shaded Noyon-rose. Free blooming. The plants should be well fed to produce the finest flowers. \$1.10 each; 3 for \$2.85; \$11.50 per doz.

Frau Karl Druachki (White American Beauty). HP. Snow-white, large and full; at times tinged flesh or light pink, but its color becomes white. \$1.10 each; 3 for \$2.85; \$11.50 per doz.

Briar Rose (Rosa coronaria). Often called Easter Rose, Carolean Rose, or Mother's Day Rose. This old-fashioned shrub of grandmother's garden belongs to the Bramble family. It is an excellent ground cover with a solid mass of white carmine-like flowers at Easter time. Sprays of buds, unopened, curled. Exceptionally good for mass planting. Endures shade.

Paul Neyron. HP. Very double, carried on long stems, clear pink shading to rose. In the South, the plants are likely to bloom about three times each season if the faded flowers and seed pods are clipped. Half a dozen of the large blooms will fill an ordinary basket. \$1.10 each; 3 for \$2.85; \$11.50 per doz.

Rosemont's Select List of Old-Fashioned Tea Roses

The Tea Roses we have today are descendants of *Rosa indica odoratissima*, originally a native species of South China. They are nicknamed Tea Roses because they have the odor of crushed tea leaves. They succeed in Florida and the Gulf Coast sections where other kinds fail. For Rose satisfaction in these sections, plant now Tea Roses.

Price, best-grade, 2-yr. plants, \$1.50 each; 3 for \$3.75

Alexander Hill Gray (Yellow Maman Cochet). Large, very fragrant, deep lemon-yellow, becoming deeper as the bloom develops.

Bon Silene. This old Rose was introduced in 1835. Flower large, double, fragrant, deep rose or rosy carmine. Profuse, constant bloom.

Bridesmaid. Well-shaped buds and large, full, globular, clear pink flowers on good stems.

Comtesse Riza du Parc. Fragrant, rose to carmine.

Devoniansia (Magnolia Rose). Flower very large, full, double, moderately fragrant, creamy white; center sometimes tinged with blush. Growth very vigorous; profuse, continuous bloom.

Duchesse de Brabant. Soft rosy pink blooms that deepen to bright rose. Large, double, sturdy fragrant.

The 3 PINOCCHIOS

These three Pinocchios are just about the most satisfactory Roses you can plant. All are extremely hardy, easy to grow and always in bloom. The clusters of dainty pointed buds open to long-lasting small blooms like miniature Hybrid Teas. Delightfully fragrant. Bushy plants 2 to 3 feet tall, excellent for borders and mass planting.
