AYER'S
CHERRY PECTORAL,
FOR THE RAPID CURE OF
Coughs, Colds, Hoarseness, Bronchitis, Whooping Cough, Croup, Asthma and Consumption.

Whether theft has down to it, and the great of the earth have bowed before it, and with more truth than it can be applied to this remedy, for affections of the throat and lungs. The medical profession is acknowledging its power, while both the title and the people proclaim it the best. The liberal manner in which it has been brought before the public, and the fact that it is not a secret nostrum, but that the ingredients of which it is composed are known, has induced physicians of the most extensive practice to prescribe it, and clergymen to recommend it, as the best antidote for pulmonary complaints that has ever been discovered. Its unparalleled success in curing the most distressing cases of Pulmonary Complaints that have baffled the skill of the most eminent Physicians, and the cures it has performed, are publicly known in every section of the country. Many of the most respectable citizens of Lowell have certified to the effects of this medicine in their own families, and the Agent will furnish the names of those who have tried it, and who will gladly answer inquiries concerning its virtues.

Consumption is the most fatal disease that afflicts mankind, and the most obstinate to cure. Many who feel the insidious approaches of this disease are not aware of their danger until the lungs are hopelessly diseased. Relief may be obtained by the use of this Pectoral, and a perseverance in its use for a short time will prove its value. Those who have suffered from Bronchitis, Coughs, Colds, Hoarseness, Croup, Asthma, and Consumption, are earnestly invited to make a trial of this remedy. Public Speakers and Singers will find it invaluable for Clergymen, Lawyers, Singers, Actors, and Public Speakers, it is the best protector of the Throat and Lungs that can be used.
