The assent must be acknowledged by the several holders of such bonds in the same manner and form as is required in case of a conveyance of land, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of such conveyance. such portion or portions thereof as the board shall deem it for the best interests of the district to include, shall be included within the district, but no land shall be so included unless the board, after the hearing aforesaid shall determine that it can be irrigated by means of some of the works of the district or by means of practicable works connecting therewith and will be benefited by such irrigation; and if the board determines that only a portion or certain portions of the tract or tracts of land described in said petition should be included, said petition shall be dismissed unless the petitioners include a majority of the holders of title or evidence of title of said portion or of each of said portions, of said tract, representing also at least one-half the area of said portion or of each of said portions, or unless, within sixty days from the time such determination is made, there shall be filed with the board the consent in writing, of a majority of the holders of title or evidence of title of said portion, or of each of said portions of said tract or tracts of land, representing also at least one-half of the area of said portion or of each of said portions. The order shall describe the boundaries of the land so included within the district, and if said land adjoins any portion of the district the order shall also describe that portion of the boundary of the district which coincides with the boundary of the land so included, and for the purposes of said order the board may cause a survey to be made of such portions of said boundaries as may be deemed necessary. If more than one petition for the inclusion of lands has been presented, the board may in one order include within the district any number of separate tracts of land; but the owner or owners of separate tracts of land may join in a single petition the application for inclusion of separate tracts of land. Any public land of the United States of America may be included within any water district by such order of the board of directors without any petition therefor except as may be required by the laws of the United States, if such land can be irrigated by means of any of the works of the district or by any practicable works connecting therewith and will be benefited by such irrigation. When land is included within a water district and the board of directors finds that such inclusion without condition would work an injury to the land already within the district either by an impairment of water rights or by requiring a greater expense for furnishing water to the lands proposed to be included, the board may prescribe conditions upon such inclusion of land, either by providing for priority of right to water for the land already in the district or for the payment of an additional annual charge upon the land included or such other conditions as may to the board seem just. If any such conditions are prescribed by the board all the owners of the land subject to such conditions must, before any order for its inclusion is made, sign an agreement with the district describing the land so to be included and specifying such conditions. The signatures to said agreement must be acknowledged or proved as provided by law for

the signatures of instruments to be recorded, and said agreement must be recorded in the office of the county recorder of the county in which such lands are situated, and thereupon and upon the recording of a copy of the order including such lands as hereinafter provided, such lands shall become a part of the district subject to the conditions of said agreement.

The clerk shall record the same in a book kept for that purpose and shall keep an index thereof. No fee shall be charged by the clerk for performing such duties. Such certified copy of such certificate and the record of the same shall have the same legal effect as the original, and if no guardian has been appointed for such persons as provided by sections 1763 and 1764 of the Code of Civil Procedure, or if the secretary of the state department of institutions has been appointed as guardian of such person, or the estate of such person, said certificate and duly certified copies thereof and such record thereof shall have the same legal force and effect as a judgment of restoration to capacity made under the provisions of section 1766 of the Code of Civil Procedure; *provided, however*, that if no guardian has been appointed for the said person, the secretary of the state department of institutions or his successor in office or if the secretary of the state department of institutions has been appointed as guardian of such person, or the estate of such person, said secretary may file such certificate of discharge in any county of the state from which said person was committed or from any county in the state in which said officer was appointed guardian of such person. 7. Whenever any person duly adjudged to be insane has been duly committed to a state hospital for the insane under the provisions of any law of this state, and for whom no guardian has been appointed, and who is absent from the hospital to which he was committed or transferred under the order of commitment, on parole or leave of absence granted by the medical superintendent thereof, or who has been discharged therefrom as improved by said superintendent as provided by this section, is desirous of being declared sane and restored to legal capacity, said insane person or a relative or friend on his behalf may make application in writing to said medical superintendent to be declared sane. On receiving such application, said medical superintendent may make such examination of such person and require such proof as he may reasonably deem necessary to determine whether or not such person is sane. For the purpose of making such examination said superintendent may also require said person to present himself at the hospital for examination. If on making such examination and receiving such proofs as he deems reasonably necessary said medical superintendent shall be satisfied that said person is sane and has recovered his reason, said medical superintendent shall issue to said person his certificate that such person is sane, and recovered and restored to reason. Two copies thereof, duly certified, shall be immediately forwarded to the department of institutions, who shall file one copy in their office and a duly certified copy with the county clerk of the county from whence said person was committed and such certified copy and the record thereof shall have the same legal effect as provided in subdivision 6 of this section. 8. If said medical superintendent is unwilling or refuses, however, to issue a certificate of recovery upon application as in this section provided, he shall so certify in writing, giving his reasons therefor, and said insane person or a relative or friend in his behalf may make application by petition duly verified to a judge of the superior court of the county where such insane person resides to be declared sane. Notice of the hearing of said application shall be given in the manner directed by a judge of said court, to said medical superintendent, and to such relative or relatives of such insane person residing in the county as the judge may direct, who may have opportunity to appear and be heard on the hearing of said application. Such hearing shall be conducted as are civil cases, and on demand of the petitioner the question of the insanity of such person may be tried by a jury, as in civil cases. If on the hearing of said application the court is satisfied from the proofs produced or if a jury trial is had, and the jury shall render a verdict that such person is sane, the court shall by order adjudge such person to be sane. order shall be filed and recorded in the office of the county clerk and certified copies thereof shall be sent by said clerk and filed with the state commission in lunacy and also with the superintendent of the hospital from which said insane person was paroled, granted leave of absence or discharged as improved. If said matter is tried by a jury the cause against said insane person shall be represented by the district attorney of the county. From a decision of the court or verdict of the jury finding the said person insane an appeal may be taken as in civil cases. If three-fourths of the jury fail to declare said person sane, or the court or the jury shall find such person to be insane, said proceeding shall be dismissed and no new application to declare such person sane shall be made for six months thereafter.

Application to and hearing by superior court.

9. Whenever any person who has been adjudged to be insane, who has not been committed to a state hospital for the insane, and who has no guardian, is desirous of being declared sane and restored to legal capacity, said insane person or a relative or friend on his behalf may, by petition duly verified, make application to a judge of the superior court where he resides to be declared sane; said judge shall fix a time for the hearing of said application, and he may, by order, direct that notice of said hearing be given in the manner and to such relative or relatives of said person residing in the county where such application is made, as the judge may direct, who shall have opportunity to appear and be heard at said hearing. Such hearing shall be conducted as are civil cases, and on demand by the petitioner may be tried before a jury as are civil cases. If on said hearing the decision of the court or the verdict of the jury is that such person is insane, an appeal may be taken to the supreme court as in civil cases. If the court shall decide or the jury shall render a verdict declaring said person to be sane, the court shall make an order declaring said person to be sane. If three-fourths of the jury fail to unite in a verdict, or the court or jury shall decide that such person is insane, such proceeding shall be dismissed, and no new application to have such person declared sane shall be made for six months thereafter.

Bond covering costs.

10. Before any order is made or any proceedings are taken for a trial by jury, the person demanding the same shall make a deposit, or give a bond, to be approved by a judge of the superior court where proceedings are had for the payment of all costs of such trial, unless, in the opinion of said judge, the insane person in whose behalf said trial is demanded is a poor or indigent person.

Certificate of recovery

The certificate of recovery by the medical superintendent, the order of the judge or the verdict of a jury and the order of the judge as in this section provided, shall have the same legal effect as a discharge as recovered, and shall be prima facie evidence of the sanity of such person.

Said bonds shall bear the signatures of the persons holding the particular offices referred to at the time the bonds are issued. No bonds authorized under this act shall be sold for less than the par value thereof plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date. Successive issues of bonds within the limits of the original authorization for the issuance of bonds for the acquisition or construction of any particular bridge or bridges or other toll highway crossing shall have equal preference with respect to the redemption thereof and the payment of interest thereon; *provided, however*, the California toll bridge authority may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization. All bonds issued under the terms of this act shall be negotiable instruments under the law merchant. All bonds issued and sold under or by authority of this act shall be sold to the highest and best bidder after such advertising for bids as the California toll bridge authority may deem proper. The said authority may reject any and all bids made for such bonds.

Toll rates **SEC. 7.** The California toll bridge authority is hereby empowered to fix the rates of toll for all toll bridges or other toll highway crossings acquired or built under the terms of this act. Toll charges so fixed may be changed from time to time as conditions may warrant. The said authority in establishing toll charges shall give due consideration to the cost of operating and maintaining such bridge or bridges or other toll highway crossing and to the amount required annually to meet the redemption of bonds and interest payments thereon, and also to appropriations and contributions from other sources to aid in meeting any such payments. The tolls so fixed shall never be less than sufficient to meet the estimated operating and maintenance expenses and all redemption payments and interest charges of the bonds issued for any particular bridge or bridges or other toll highway crossing as the same fall due and the bond redemption and interest payments shall constitute a first lien on all such toll revenues.

Department in charge of acquisition, etc **SEC. 8.** The department of public works shall have full charge of the acquisition and construction of all such toll bridges and other toll highway crossing as may be authorized by the California toll bridge authority, the operation and maintenance thereof and the collection of tolls thereon.

Right of eminent domain **SEC. 9.** When the department of public works can not acquire any toll bridge or any toll highway crossing, or the

real or personal property, franchises, rights, privileges or easements needed for bridge or highway crossing purposes or approaches thereto, by agreement with the owner or owners, it shall be lawful for the department of public works, and said department is hereby authorized, to condemn and take any such bridge or highway crossing, real estate, personal property, franchises, rights, privileges or easements deemed necessary for such bridge or highway crossing or approach thereto, under the provisions of the laws of this state relating to eminent domain proceedings. Said department shall not have power to commence any such proceedings in eminent domain unless and until the California toll bridge authority shall first have passed a resolution declaring that public interest and necessity require the acquisition, construction or completion by the state acting through the said department of public works of any such bridge or highway crossing, or the acquisition of any particular real estate, personal property, franchises, rights, privileges or easements, and that such bridge or highway crossing, real estate, personal property, franchises, rights, privileges or easements are necessary therefor. Such resolution shall be conclusive evidence (a) of the public necessity of such acquisition, construction or completion; (b) that such property and said franchises, rights, privileges or easements are necessary therefore; and, (c) that such proposed acquisition, construction or completion is planned or located in a manner which will be most compatible with the greatest public good and the least private injury. When it becomes necessary for the department of public works to condemn any toll bridge or toll highway crossing, real estate, personal property, franchises, rights, privileges or easements used or to be used in connection with any such bridge or highway crossing, the attorney general of the state shall represent the department of public works, and shall upon his request, be assisted by the district attorney of the county or the city attorney of the city or city and county wherein lies the bridge, highway crossing, real estate, personal property, franchises, rights, privileges or easements sought to be acquired, and by the attorneys for the department of public works. In eminent domain proceedings to acquire property for any of the purposes of this act, any toll bridges or other toll highway crossing, real property, franchises, rights or other property appurtenant to any such bridges or highway crossing already appropriated to a public use by any person, firm or private corporation may be condemned and taken, and the acquisition and use thereof as herein provided for the same public use to which such property has been so appropriated, or for any other public purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use than the public use to which such property has already been appropriated. When the state or any department or governmental agency thereof acquires any toll bridge or the real or personal property used for any toll bridge, said property and toll bridge

SEC. 10. Bonds issued under the provisions of this act shall not constitute or be a debt or general obligation of the state, and the payment of both principal and interest of all such bonds shall be secured only by the tolls or other revenues collected from the particular bridge or bridges or other toll highway crossings for which such bonds were issued, and shall be paid from such tolls or revenues or from such other contributions or appropriations as may be made available under the terms of this act.

SEC. 11. Any city, county, city and county, incorporated city or town, or joint highway district may, upon the request of the department of public works or of the California toll bridge authority advance or contribute money, rights of way, labor, materials and other property toward the expense of building, acquiring and maintaining the bridges or other highway crossings referred to in this act, and for preliminary surveys and the preparation of plans and estimates of cost therefor and other preliminary expenses. Appropriations for such purposes may be made from any funds available, including highway funds received from the state. Any of the political subdivisions or public corporations mentioned in this section may also issue general obligation bonds for any of such purposes, and all proceedings for the authorization, issue and sale of such bonds shall be had under the law governing the issue and sale of bonds for public improvements by the particular political subdivision or public corporation. Money or property so advanced or contributed may be immediately transferred or delivered to the department of public works or to the California toll bridge authority to be used for the purpose for which such advance or contribution was made. The California toll bridge authority may enter into a binding agreement with any city, county, city and county, incorporated city or town, or joint highway district to repay any money or the value of any rights of way, labor, materials or other property advanced or contributed toward the expense of acquiring or constructing any bridge or other toll highway crossing acquired or constructed as provided for in this act; *provided*, no repayment therefor shall be made until all obligations issued by the California toll bridge authority for the acquisition or construction of any such bridge or other toll highway crossing have been fully redeemed and paid, and then only out of the toll revenues received from the operation of any such bridge or highway crossing. After all bonds issued hereunder for the acquisition or construction of any bridge or other toll highway crossing have been fully redeemed and paid no further tolls shall be collected thereon unless, because of some extraor-

The collection of tolls shall be continued on any such bridge or other highway crossing until all bonds issued hereunder for the acquisition or construction or such particular bridge or highway crossing are fully redeemed and paid.

SEC. 12. When any privately owned toll bridge is acquired or the location of any toll bridge or other toll highway crossing to be constructed under this act is determined upon, and revenue bonds of the character herein provided for have been authorized for such acquisition or construction, no city, county, city and county, joint highway district, bridge and highway district, or other public corporation or district of the state shall build or authorize the building of any bridge, subway or other highway crossing or establish or authorize the establishment and maintenance of any free ferry across the same body of water within five miles on either side of any such bridge so acquired or the location of any such bridge to be constructed under this act, nor shall the department of public works build any additional bridge, subway or other highway crossing or establish any free ferry within said distance of five miles until all of said revenue bonds issued for such acquisition and construction, together with interest thereon, shall have been paid; *and provided, further*, that no city, county, city and county, joint highway district, bridge and highway district or other public corporation or district shall build or authorize the building of any bridge, subway or other highway crossing or authorize the establishment of any free ferry across the same body of water within a distance greater than five miles and less than fifteen miles on either side of any bridge acquired or constructed or for which bonds may have been issued under this act without the approval and consent of the California toll bridge authority, which approval and consent may be withheld in the discretion of said California toll bridge authority when the said authority reasonably determines that the establishment of such additional bridge, subway or other highway crossing or ferry would be competitive with any toll bridge acquired or constructed or to be acquired or constructed under this act; *provided, further*, that the limitations as to distance contained in this section shall not apply to the construction of any bridge for which any bridge or highway district has been organized or incorporated, or proceedings

If the California toll bridge authority shall authorize the acquisition or construction of any toll bridge designed for and limited to the carrying of a particular class or particular classes of traffic, or issue bonds therefor, the construction of other bridges designed for and limited to the carrying of different and distinct classes of traffic shall not be deemed competitive, and the limitations as to distance contained in this section shall not then apply. The provisions of this section relating to restrictions against the construction of competitive bridges, ferries, subways and other highway crossings may be recited in said revenue bonds as and as evidence of a contract to that effect between the California toll bridge authority and the holders of said revenue bonds. The California toll bridge authority may except any existing or proposed bridge, ferry, subway or other highway crossing from the limitations as to distance within which another bridge, subway or other highway crossing may be constructed by the proceedings authorizing the issuance of said revenue bonds provided recital of such exception is made on the face of said bonds.

of bonds.

SEC. 13. The proceeds from the sale of all bonds authorized under the provisions of this act shall be deposited forthwith by the California toll bridge authority in the state treasury to the credit of a fund to be designated as the acquisition and construction fund of the particular bridge, or bridges or other highway crossing for which such bonds were issued and sold.

Disposition
of tolls
and revenue

All tolls or other revenues received from the operation of any bridge or bridges or other highway crossing acquired or constructed from the proceeds of bonds issued and sold hereunder shall be deposited by the department of public works at least monthly in the state treasury to the credit of a fund to be designated as the toll revenue fund of the particular bridge or bridges or other highway crossing producing such tolls or revenue.

Transfer of
moneys to

fund

From the money so deposited in each separate acquisition and construction fund as hereinabove provided, the state treasurer shall, upon the demand of the California toll bridge authority, transfer to a special fund to be designated as a bond interest and redemption fund, such sums designated by the California toll bridge authority as may be required to pay the

interest as it becomes due on all bonds sold and outstanding for the construction of any particular bridge or bridges or other toll highway crossing during the period of actual construction and during a period of six months immediately thereafter. The treasurer shall thereafter transfer from each such separate toll revenue fund into said bond interest and redemption fund, such sums designated by the California toll bridge authority as may be required to pay the interest on said bonds and redeem the principal thereof as such interest payments and bond redemptions fall due for all bonds issued and sold for the construction or acquisition of the particular bridge or bridges or other highway crossing producing the tolls or revenues so deposited in said toll bridge revenue fund.

The moneys remaining in each separate toll revenue fund after providing the amount required for interest and redemption of bonds as hereinabove provided shall be devoted to the payment of the costs of operation and maintenance of such bridge or bridges or other highway crossing to the extent necessary therefor. Any balance remaining in said fund after paying such operation and maintenance expenses may be allocated and used for such other purposes incidental to the acquisition, construction, operation and maintenance of such bridge or bridges or other highway crossing as the California toll bridge authority may determine.

Maintenance
and
operation
costs

The principal of and interest on all said bonds which may be sold shall be paid by the state treasurer at the time the same become due from said bond interest and redemption fund upon presentation of the bonds or bond interest coupons by the holders thereof. Warrants for such payment shall be duly drawn by the state controller upon request of the state treasurer.

Payment of

Moneys required to meet the costs of acquisition or construction and all expenses and costs incidental to the acquisition or construction of any particular bridge or bridges or other highway crossing, or to meet the costs of operating, maintaining and repairing the same shall be paid from the proper fund therefor as herein provided upon demand of the department of public works and after audit thereof in the manner provided by law and upon warrants drawn by the controller.

All interest received or earned on money deposited in each and every fund herein provided for shall be credited to and become a part of the particular fund from which said interest is derived.

SEC. 14. Nothing in this act shall be construed to prevent the state from making appropriations from time to time in aid of the acquisition or construction of any such toll bridge or bridges or other toll highway crossing, or property, franchises or rights appurtenant thereto, or for the purpose of making preliminary surveys, plans and estimates of the cost thereof, and meeting other preliminary expenses as the Legislature may deem proper.

If the California toll bridge authority refuses to authorize the acquisition or construction of any such proposed toll bridge or other toll highway crossing, or in the event said authority does not within three years from the receipt of said petition authorize the acquisition or construction of such toll bridge or other toll highway crossing, then any such city, county, city and county, incorporated bridge and highway district or joint highway district, either singly or in conjunction with other cities, counties, cities and counties, incorporated bridge and highway districts or joint highway districts, may acquire or construct such toll bridge or other toll highway crossing, subject, however, to the limitations of section 12 of this act relative to the building of bridges in competition with bridges acquired or constructed.

the legislative body thereof or adopted by the people under the initiative power or otherwise, to regulate or supervise or to provide for the regulation or supervision of any dams or reservoirs in this state, or the construction, maintenance or operation thereof, nor to limit the size of any dam or reservoir or the amount of water which may be stored therein, it being the intent of the Legislature by this act to provide for the regulation and supervision of dams and reservoirs exclusively by the state. Whenever supervision of safety of design or construction of a proposed or existing dam is exercised by the United States or any of its agencies pursuant to a jurisdiction superior to that of the state, and the requirements made under authority of such jurisdiction are so contradictory with requirements made by the department under this act that a compliance can not be made which will meet both federal and state requirements, then the state requirements shall be modified by the department sufficiently to make possible compliance with both federal and state requirements. The department shall employ such clerical, engineering and other assistants and at such compensation in accordance with civil service regulations as may be necessary for carrying on the work of dam supervision in accordance with this act. The department may employ such consultants none of whom need be civil service employees, as may be necessary, and when the safety and technical considerations pertaining to a dam or plans and specifications pertaining thereto are such as to require it, or when requested in writing to do so by the owner, the department shall appoint a consulting board of two or more such consultants, which board shall report to the department on the safety features involved. The cost and expense of such a board if appointed on the request of an owner shall be paid by the owner. The records pertaining to the supervision of dams shall be public documents. The department shall adopt and revise from time to time such rules and regulations and issue such general orders not inconsistent herewith as may be necessary for carrying out the provisions of this act.

SEC. 4. Every owner of a dam completed prior to the effective date of this act shall, within six months after the effective date of this act, file an application for the approval of such dam. A separate application shall be made for each dam and shall be filed with the department and upon forms to be supplied by it and shall supply such available and appropriate information concerning said dam as may be required by the department. Upon the expiration of said six months period, the department shall give notice to file to owners who have failed to do so as herein required, and a failure to file within thirty days after such notice shall be punishable as hereinafter provided. The notice herein provided for may be given by registered mail and a return receipt signed by such owner shall constitute prima facie evidence of service. Within three years after the effective date of this act, the department shall cause an examination to be made of all such

completed dams in the state and shall, within said time, issue either certificates of approval of such dams or orders directing such work as may be necessary and fixing the time for completion of such work. Upon the completion, to the satisfaction of the department, of all work that may be ordered and upon a finding that the dam is safe to the full extent for which use is or will be made, a certificate of approval shall be issued forthwith. Costs of examinations conducted under this section shall be borne by the state and paid for out of funds appropriated for use by the department, but work ordered hereunder shall be done at the expense of the owner.

SEC. 5. After the effective date of this act construction of any new dam or the enlargement of any dam shall not be commenced until the owner has applied for and obtained from the department written approval of plans and specifications. A separate application for each dam shall be filed with the department upon forms to be provided by it and shall give the name and address of the owner, the location, type, size and height of the proposed dam and appurtenant works, the storage capacity of the reservoir and such other pertinent information as the department shall require. It shall also give as accurately as may be readily obtained, the area of the drainage basin, rainfall and stream flow records and flood flow records and estimates. The department may also require data concerning subsoil and foundation conditions and may require that the site be drilled or otherwise prospected and may require such other appropriate information as may be necessary in a given instance but in instances wherein the physical conditions involved and the size of the dam are such as to render the above requirements as to drainage areas, rainfall, stream flow and flood flow and drilling or prospecting of site unnecessary, said requirements may be waived.

Also the application shall set forth the estimated cost, as hereinafter defined, of the dam or enlargement and shall be accompanied by a filing fee based upon said estimated cost and according to the following schedule, to wit: for the first one hundred thousand dollars a fee of one per cent of the estimated cost; for the next nine hundred thousand dollars a fee of one-half of one per cent; for the next four million dollars a fee of one-tenth of one per cent; and for all costs in excess of five million dollars a fee of one-twentieth of one per cent. veys, and the cost of the construction plant properly chargeable to the cost of the dam; and dry and all other items entering directly into the cost of the dam; *provided*, that the costs of right of way, detached power houses, electrical generating machinery and roads and railroads affording access to the dam shall not be included among the items used in the determination of cost. An application shall not be considered by the department until the filing fee is received. In the event that the actual cost exceeds the estimated cost by more than ten per cent, a further fee shall be required by the department before final approval and shall be one hundred and ten per cent of the amount by which the original fee is less than it would have been had the cost it was based upon been the same as the actual cost. Any dam which the department finds was not ninety per cent constructed at the date this act goes into effect, shall be subject to the same provisions as a dam commenced after the effective date of this act; *provided, however*, that construction work on such a dam may proceed, if an application for approval thereof is filed within sixty days after the effective date of this act, until an order from the department is received approving said dam or specifying how its construction must be made or altered to render it safe. After receipt of an order directing the construction of such a dam work thereafter must be in accordance with said order. Either an application for the approval of a dam under construction must be filed within sixty days after the effective date of this act or a statement must be filed showing that such dam was ninety per cent or more constructed at the effective date of this act. Dams found to be ninety per cent or more constructed at the effective date of this act shall be subject to the same supervision as dams which were completed prior to the effective date of this act. Applications for dams found by the department to have been less than ninety per cent constructed at the effective date of this act shall be accompanied by fees as much less than provided for dams commenced after the effective date of this act as the percentage of construction found by the department to have been completed at the effective date of this act. All filing fees collected under the provisions of this act shall be paid once each month into the state treasury. The fees herein provided for shall be required of all enumerated in the definition of owner as made in section 2 of this act.

SEC. 6. Before commencing the repair, alteration or removal of a dam, whether it was completed before or after the effective date of this act, the owner must secure the written approval of the department, except as hereinafter provided. Application for such approval shall give the name and address of applicant, and shall adequately detail, with appropriate references to the existing dam, the changes which it is proposed to effect and shall be accompanied by maps and plans and specifications which shall be a part of said application and which shall be of such character and size and set

forth such pertinent details and dimensions as the department may require; *provided*, that the department may waive any of the above requirements if found by it unnecessary. Such application shall also give such other pertinent information or data concerning the dam and reservoir as may be required by the department and such information as to other matters appropriate to a thorough consideration of the safety of such a change as may be required by the department and shall also state the proposed time of commencement and of completion of construction. In case of an emergency where repairs are necessary to safeguard life and property repairs may be started immediately, but in the event of such emergency repairs the department shall be notified at once of proposed repairs and of work under way and said proposed repairs and work shall be made to conform to such orders as the department shall issue.

SEC. 7. Upon receipt of any application other than an application provided for in section 4 hereof, the department shall give its consideration thereto and shall approve or disapprove the same within the time hereinafter provided. A defective application made in a bona fide attempt to conform to the law and rules and regulations of the department shall not be rejected but notice of defect shall be sent to the applicant by ordinary and registered mail and if within thirty days of the date of mailing said notice applicant shall not file an amended and perfected application, said application shall be rejected and canceled unless for good cause shown the department shall allow applicant further time. No application shall be approved in less than ten days from the receipt of said application, and all applications shall be approved or disapproved as soon as practicable after the receipt of all data and information found necessary by the department. Approvals may be granted under terms, conditions and limitations necessary to safeguard life and property. Actual construction shall be started within one year after date of approval, otherwise the approval shall become void; *provided, however*, that the department may upon written application and for good cause shown, extend the time for beginning of construction. Notice shall be given the department at least ten days before construction is to be started and such other notices shall be given to the department as may be required by it.

SEC. 8. During the construction, enlargement, repair, alteration or removal of any dam the department shall make or cause to be made such continuous or periodical inspections, investigations or examinations as may be necessary to secure conformity with the approved plans and specifications. If, after any such inspections, investigations or examinations, or at any time as the work progresses or at any time prior to issuance of a certificate of approval it shall be found by the department that amendments, modifications or changes are necessary to insure safety, the department shall have authority to order the owner to revise the plans and

specification as may be necessary or, if conditions are revealed which will not permit of the construction of a safe dam the approval may be revoked. In the event that conditions imposed may be waived or made less burdensome without sacrificing a proper margin of safety, the department shall have authority to authorize an owner to revise the plans and specifications accordingly. If at any time during construction, enlargement, repair or alteration of any dam the department shall find that the work is not being done in accordance with the provisions of the approval and the approved plans and specifications or in accordance with the approval or plans and specifications as same may have been revised, it shall give a written notice and order by registered mail or by personal service to the owner. Said notice and order shall state the particulars in which the approval and approved plans and specifications or the approval and approved plans and specifications as revised are not being or have not been complied with and shall order the immediate compliance with the approval and approved plans and specifications or with the approval and approved plans and specifications as revised as may be the case. Also, the department may order that no further work be done until such compliance has been effected and approved by the department. A failure to comply with the approval and approved plans and specifications as originally approved or revised as may be the case, shall render such approval subject to revocation by the department, if compliance is not made in accordance therewith after notice and order from the department as above provided.

New and
enlarged
dams

SEC. 9. Immediately upon completion of a new dam or enlargement of a dam the owner shall give a notice of completion to the department and as soon thereafter as possible there shall be filed with the department supplementary drawings or descriptive matter showing or describing the dam as actually constructed, including a record of all grout holes and grouting; a record of permanent location points and bench marks; a record of tests of concrete or other material used in the construction of the dam; and any other items which may be of permanent value and have a bearing on the safety and permanency of the dam; *provided*, that in connection with the enlargement of a dam, the supplementary drawings and descriptive matter need apply only to the new work. No certificate of approval shall be issued by the department until the above data and such other pertinent data as may be required by it are filed. As soon as practicable the completed dam shall be inspected by the department and upon a finding that the work has been done in accordance with the approved plans and specifications or in accordance with the approved plans and specifications as same may have been revised and that the dam is safe for use to the full extent contemplated in the approved plans and specifications or in the approved plans and specifications as same may have been revised, a certificate of approval shall be issued forthwith. Pending issuance of a

certificate of approval by the department the dam shall not be used except upon written consent from the department and subject to such conditions as may be imposed by it for the protection of life and property.

SEC. 10. Immediately upon completion of the repair or alteration of any dam, the owner shall give notice of completion to the department and as soon thereafter as possible there shall be filed with it supplementary drawings or descriptive matter showing or describing the dam as actually repaired or altered together with such maps, data, records and information pertaining to such dam as repaired or altered as the department may require. No certificate of approval for a dam as repaired or altered shall be issued by the department until the above data and such other pertinent data as may be required by the department are filed. As soon as practicable the dam as repaired or altered shall be inspected by the department and upon a finding that the work has been done in accordance with the approved plans and specifications or in accordance with the approved plans and specifications as same may have been revised and that the dam is safe for use to the full extent contemplated in the approved plans and specifications or in the approved plans and specifications as same may have been revised, a certificate of approval shall be issued forthwith. Such certificate of approval shall either supersede any previous certificate of approval issued for the dam so repaired or altered or be supplemental thereto as may be declared by the department. No such repaired or altered dam shall be used prior to the issuance of a new certificate of approval or a supplemental certificate of approval except upon written consent from the department and subject to such conditions as may be imposed by it for the protection of life and property.

Repaired or altered dams.

Inspection and approval.

Upon completion of the removal of a dam, such evidence as to the manner in which the work was performed and as to the conditions obtaining after such removal as may be required by the department shall be filed with said department. This evidence shall show that a sufficient portion of the dam has been removed to permit the safe passage of floods down the water course across which the dam was located. Before final approval of the removal of a dam shall be issued, the department shall inspect the work and determine that all danger to life and property has been eliminated.

Removed dams.

SEC. 11. The findings and orders of the department and the certificate of approval of any dam issued by the department shall be final and conclusive and binding upon all state agencies, regulatory or otherwise, as to the safety of design, construction, maintenance and operation of any dam; *provided, however,* that nothing in this act shall be construed to deprive any owner of such recourse to the courts as he may be entitled to under the laws of this state. In carrying out the provisions of this act the department is authorized to cooperate with the United States or any of its agencies.

SEC. 12. Supervision over the maintenance and operation of dams in so far as necessary to safeguard life and property from injury by reason of the failure thereof shall be vested in the department. The department shall cause inspections to be made, require reports from the owner and issue rules and regulations and orders necessary to secure maintenance and operation which will safeguard life and property. If the condition of any dam is so dangerous to the safety of life or property as not to permit of time for the issuance and enforcement of an order relative to maintenance or operation or if passing or imminent floods threaten the safety of any dam, the department shall have authority immediately to employ any remedial means necessary to protect life and property. In applying the remedial means provided for in this section, the department may in emergency lower the water level by releasing water from the reservoir, or may completely empty the reservoir and may take such other steps as may be essential to safeguard life and property and shall continue in full charge and control of such dam and reservoir and its appurtenances until the same have been rendered safe or the emergency occasioning the action shall have ceased. The cost and expenses of such remedial means as herein provided, including costs of any work done to render such a dam or its appurtenances safe shall be recoverable by the state from the owner by action brought by the department in the superior court of the county wherein the dam or any part thereof is situate.

Upon receipt of a written complaint alleging that the person or property of the complainant is endangered by the construction maintenance or operation of any dam the department shall cause an inspection to be made unless the data, records and inspection reports on file with it are found adequate to enable a determination whether or not the complaint is meritorious, but if complainant insists upon an inspection and deposits with the department a sum estimated by the department to be sufficient to cover costs of an inspection the same shall be made or caused to be made by the department despite its finding as to the sufficiency of its records to determine the alleged danger. If it be found that an unsafe condition exists, the department shall take such action as shall be necessary to render or cause said condition to be rendered safe and any money deposited to secure an inspection shall be returned but if after an inspection made on account of a complaint, the complaint is found by the department to have been without merit, any money deposited therefor shall be payable into the state treasury.

In the making of any of its investigations or inspections as required or authorized by this act the department or its representatives shall have the right to enter upon private property as may be necessary.

SEC. 15. No action shall be brought against the state or the department or its agents or employees for the recovery of damages caused by the partial or total failure of any dam or through the operation of any dam upon the ground that such defendant is liable by virtue of the approval of such a dam or by virtue of the issuance or enforcement of orders relative to maintenance or operation, or by virtue of control and regulation of such a dam or by virtue of measures taken to protect against failure during an emergency.

Such legislative body is empowered, further, to appoint, and it shall appoint the officers of such election, who shall be, for each voting place, two judges and one inspector, each of whom shall be a qualified elector of said incorporated city.

SEC. 3. Upon the ballots used at any such election there shall be printed the question for determination by the voters substantially in the form as follows: "Shall (herein insert the name of the city or town to be included in such consolidated territory) be included in a district to be hereafter defined by the city and county of San Francisco, which district shall within two years from the date of this election vote upon a proposal submitted as one indivisible question, that such district to be then described and set forth shall consolidate with the city and county of San Francisco in a consolidated city and county government, and that such district shall become subject to taxation, along with the entire territory of the proposed city and county in accordance with the assessable valuation of the property of said district for the following indebtedness of said city and county of San Francisco, to wit: (Herein insert in general terms reference to any debts to be assumed and if none insert 'none')?" Territory to be defined as a district.

SEC. 6. Any and all of the said incorporated cities, to which the foregoing proposal shall have been submitted, and a majority of whose qualified electors voting thereon shall have voted in favor thereof, together with such unincorporated territory as the board of supervisors of the said city and county may determine to have included, the whole to form an area contiguous to said city and county, shall be by the board of supervisors of said city and county, defined as a district, by a resolution, a copy of which shall be forthwith transmitted by said board to the board of supervisors of the county of San

Mateo; *provided, however*, that the limits and boundaries of the district so to be defined by the supervisors of the city and county shall be so determined that each city, a majority of whose qualified electors voting thereon shall have voted against the proposal hereinabove referred to, shall be included in a single area situate within the county of San Mateo lying on one side said district and connecting with the county of Santa Clara or the county of Santa Cruz, or both.

SEC. 7. Thereupon, and within the time prescribed by law, there shall be submitted by the board of supervisors of the county of San Mateo to the voters of said entire district so defined a proposal, as one indivisible question, substantially in the following form: "Shall the territory (herein designate in general terms the territory to be annexed) consolidate with the city and county of San Francisco in a consolidated city and county government, said consolidation to take effect (herein insert date when such consolidation shall take effect) and shall the said annexed territory become subject to taxation, as an integral part of the city and county so formed, in accordance with the assessable valuation of property of said territory for the following indebtedness of said city and county of San Francisco to wit: (Herein insert, in general terms, reference to any debts to be assumed, and if none, insert 'none')?" There shall be two voting squares to the right of and opposite such question the upper one being preceded by the word "Yes" and the lower one preceded by the word "No." If an elector shall stamp a cross in the voting square after the printed word "Yes" the vote of such elector shall be counted in favor of said proposal, and if an elector shall stamp a cross in the voting square after the printed word "No," the vote of such elector shall be counted against such proposal.

SEC. 8. The manner to be followed by the board of supervisors of said county of San Mateo in the submission of said question and the holding of such election, the establishment of election precincts and the appointment of election officers, and the publication of the notice of such election, shall be substantially the same as that set forth in section 2 of this act for the submission of a consolidation proposal to any incorporated city, and the notice thereof shall be published in three newspapers of general circulation printed and published in said San Mateo county, one of which shall be such a newspaper printed and published in said district so proposed to be consolidated with said city and county, if there be such a newspaper printed and published in said district.

Such notice shall include a particular description of said district and shall name any incorporated cities included therein and designate the unincorporated territory included therein by some appropriate name or other words of identification. It shall also briefly describe any debts to be assumed by such district, in the event of such consolidation becoming effective.

District 1. That part of the state south of the San Geronio pass in Riverside county and east of the Sierra Nevada range, comprising parts of the counties of Riverside and San Diego and all of Imperial county.

District 2. All of the state excepting the part included in district one.

Citrus fruits, when being packed, or after packing, or when delivered for shipment, loaded, shipped, or being transported, offered for sale or sold in any container or subcontainer, or in bulk, shall conform to the following standard: Citrus
fruits

Citrus fruits shall be mature, virtually free from marked evidence of freezing injury, free from decay and from serious damage caused by splits, cuts, bruises, stem or thorn punctures, or by drying at the stem or blossom end; and in the case of packed citrus fruits shall be virtually uniform in size; *provided*, that, with the exception of freezing injury, not more than ten per cent, by count, of the citrus fruits in any one container, or in any lot in bulk, may be below these requirements, but not to exceed one-half of this tolerance, or five per cent, shall be allowed for any one cause; *provided*, *further*, that any packed, wrapped citrus fruit which has been in storage or shipped by rail and which fails to meet

Citrus

the requirements of this standard only by reason of brown rot, blue mold or green mold which has occurred after packing, shall not be held for violation of the provisions of this act on account of such deterioration.

Oranges shall not be deemed mature under the provisions of this act unless the juice contains soluble solids equal to or in excess of eight parts to every part of acid contained in the juice, the acidity of the juice to be calculated as citric acid without water of crystallization; *provided*, that the oranges have attained at least twenty-five per cent of yellow or orange color before picking; *provided, however*, that oranges which are substantially or at least seventy per cent colored at the time of picking shall be deemed mature if the juice contains soluble solids equal to or in excess of six and one-half parts to every part of acid contained in the juice; *provided, further*, that no oranges may be accelerated in color unless the juice contains soluble solids equal to or in excess of eight parts to every part of acid contained in the juice, the acidity of the juice to be calculated as citric acid without water of crystallization.

“Virtually free from marked evidence of freezing injury” means that not more than fifteen per cent, by count, of the citrus fruits in any one container, or in any lot in bulk, may show marked evidence of freezing injury, which is hereby defined as a water soaked appearance or evidence of previous water soaking, or the presence of crystals or crystalline deposit, on the two surface membranes of each of two or more segments, as shown on the separation of the segments one from another, of a section, not less than one inch or more than one and one-half inches in thickness, of the central portion of the fruit, obtained by cutting off a portion of each end—the evidence of freezing injury to show for the entire length but not necessarily the entire area of the surface membranes; or a drying or desiccation in twenty per cent or more of the exposed pulp as shown on a transverse cut through the center.

The percentage of marked evidence of freezing injury or other defects in any lot of citrus fruit in bulk may be estab-

lished by inspection of a representative sample, which shall consist of not less than one hundred fruits.

Damage caused by splits, cuts, bruises, or stem or thorn punctures, in any citrus fruit, shall not be considered serious if the injury is well healed and free from mold or decay.

Damage caused by drying at the stem or blossom end of any citrus fruit shall not be considered serious unless twenty per cent or more of the pulp shows a marked drying or desiccation.

In addition to the markings required by section 9 of this act, all containers of citrus fruits, when packed, shall bear upon them in plain sight and in plain letters on the outside thereof the following: The number and average diameter of citrus fruits in the container, and, in the case of oranges, the name of variety, if known, and when not known the words "unknown variety" or "seedlings."

Containers of citrus fruits which are not packed shall not be required to show any markings.

All packed oranges, grapefruit and tangerines shall be in standard containers numbers twenty-six or twenty-seven, and all packed lemons shall be in standard containers numbers twenty-nine, twenty-nine A, thirty or thirty A, established in section 11 of this act; *provided*, that other sized containers may be used if conspicuously marked in letters not less than one-half inch in height "irregular size container." No standard containers are established for other species of citrus fruits or for loose citrus fruits which are not packed.

Declaration
of intention

Sec. 2. Before ordering any improvement to be made which is authorized by section 1 of this act, the city council shall pass an ordinance declaring its intention so to do. Said ordinance shall be sufficient if it describes the land necessary or convenient to be taken for the proposed improvement, and describes briefly and in general terms the proposed improvement and the district to be benefited by said improvement and to be assessed to pay the expense thereof, to be known as the assessment district, and refers to a map or plat, approved by the city council, which shall be on file in the office of the city clerk or city engineer at the time of passing the said ordinance which said map shall indicate the land necessary or convenient to be taken for the proposed improvement and shall indicate by a boundary line the extent of the territory to be included in the assessment district. Said map shall govern for all details as to the extent and description of the land to be taken for the proposed improvement and as to the extent of said assessment district. Said ordinance of intention shall contain also a notice of the day, hour and place when and where any and all persons having any objections to the proposed work or improvement may appear before the legislative body and show cause why said proposed improvement should not be carried out in accordance with said ordinance; said time shall not be less than fifteen nor more than sixty days from the date of the passage of said resolution. The city clerk shall cause said ordinance of intention to be published twice in one or more newspapers published and circulated in said city. If no newspaper be published in said city, then the publication shall be made twice in some newspaper published in the county in which said city is located. The city council may in its discretion include in one proceeding under one ordinance of intention all or any of the improvements mentioned in section 1 of this act, on any number of any public streets, squares, lanes, alleys, courts or places within such municipality, or any portion or portions thereof whether contiguous or otherwise. Said city council may in its discretion declare that the whole or any percentage of, or any sum toward the expense of said improvement will be paid by said municipality, in which case the sum or percentage to be so paid shall be stated in said ordinance of intention.

improvements

SEC. 2. Section 3 of said act is hereby amended to read as follows:

Sec. 3. The street superintendent shall thereupon cause to be conspicuously posted along all streets and parts of streets or other public places or rights of way where any property is

to be taken for the widening or straightening thereof, and along or upon any private unimproved property which is to be taken for the opening or extending of any street or other public place, at not more than three hundred feet apart, notices (not less than three in all) of the passage of said ordinance. Said notices shall be headed, "Notice of public improvement under street opening act of 1903," in letters not less than one inch in length, shall be in legible characters, and shall state the fact and date of the passage of said ordinance, describe briefly and in general terms the proposed improvement, and refer to said ordinance of intention and to the map on file in the office of the city clerk or city engineer for all details. Said notices shall contain also a statement of the day, hour and place when and where any and all persons having any objections to the proposed improvement may appear before the legislative body and show cause why said proposed improvement should not be carried out in accordance with said ordinance. In every case all posting must be fully completed at least ten days before the day set for the hearing of protests or objections as provided in section 2 hereof. The city council may if it deems it advisable direct the clerk to mail a post card notice postage prepaid, to each property owner in the assessment district, at his last known address as same appears on tax rolls of said city or on file in the office of the city clerk, or when no address so appears, to the general delivery, notifying said property owner of the date of passage and number of the ordinance of intention, and the time and place set for the hearing of protests against the improvement.

Mailing of notices.

If any lots or parcels of land in the assessment district be assessed to "unknown owners" on the tax rolls of said city, or if the address of any property owner is not on file in the office of the city clerk, no notice shall be mailed to the owners thereof, but the ordinance of intention by the publication as herein provided shall be deemed legal notice to such owners of such contemplated improvement.

The failure of the city clerk to mail said notices, or any thereof, or the failure of the property owners to receive the same, or the failure of the superintendent of streets to post the notices of street work shall in no wise affect the validity of the proceedings or prevent the city council from acquiring jurisdiction to order the work; *provided, however*, that the city council may require affidavits to be filed showing the posting of notices and the mailing of postal cards before it adopts the resolution ordering the improvement.

Sec. 4. Any persons interested, objecting to said improvement or to the extent of the assessment district may, at any time not later than the hour set for hearing objections to the proposed improvement as provided in section 2 hereof, file a written protest with the clerk of the city council. Such protest must be in writing and no other protest or objection shall

be considered. The clerk shall indorse on every such protest the date of its reception by him. At the time set for hearing said protests, the city council shall proceed to hear and pass upon all protests so made and its decision shall be final and conclusive; *provided, however*, that when the protest is against the proposed improvement and the city council finds that such protest is made by the owners of more than one-half of the area of the property within the assessment district, no further proceedings shall be taken for a period of six months from the date of the decision of the city council on said hearing, unless the said protest be overruled by an affirmative vote of four-fifths of the members of the city council. If no protests in writing have been filed within the time hereinbefore provided for filing the same, or if any protest shall be found by the city council to be insufficient, or shall be overruled, or if a protest against the proposed assessment district shall be heard and denied, immediately thereupon the city council shall be deemed to acquire jurisdiction to order the proposed improvement. The city council may adjourn said hearings from time to time.

SEC. 4. Section 19 of said act is hereby amended to read as follows:

Objections.

Sec. 19. All objections shall be in writing and shall be filed with said clerk within the time prescribed in the notice required by section 18 hereof. The clerk shall, at the next regular meeting of the city council after the expiration of the time for filing objections, lay said assessment and all objections so filed with him, before the council; and said council shall hear all such objections at said meeting, or at any other time to which the hearing thereof may be adjourned. Upon such an appeal, the city council may remedy and correct any error or informality in the proceedings; may confirm, amend, alter, modify or correct the assessment in such manner as to them shall seem just; and may instruct and direct the street superintendent to correct the assessment or diagram in any particular. All the decisions and determinations of said city council, upon notice and hearing as aforesaid, shall be final and conclusive upon all persons entitled to appeal under the provisions of this section, as to all errors, informalities, and irregularities which said city council might have avoided, or have remedied, during the progress of the proceedings, or which it can at that time remedy. No assessment, or diagram, and no proceedings prior to the assessment, shall be held invalid by any court for any error, informality, or other defect in the same, where the ordinance of intention of the council to do the work, has been actually published as herein provided. When no appeal is taken or when the orders and determinations of the council upon appeal have been complied with, and the council is satisfied with the correctness of the assessment, thereupon the city council shall confirm said assessment.

SEC. 5. Section 27 of said act is hereby amended to read as follows:

Sec. 27. A redemption of any parcel of property sold for a delinquent assessment may be made by any party in interest, at any time prior to the execution and delivery of a deed therefor, by paying to the street superintendent the amount for which the property was sold, and in addition thereto five per cent of the amount of said delinquent assessment with interest thereon at the rate of one per cent per month until paid, said interest to be computed from the date the assessment becomes delinquent and if such amount be not paid within six months thereafter, there shall be added thereto an additional penalty of five per cent of the principal amount due. When redemption is made, the street superintendent shall note that fact on the duplicate certificate of sale on file in his office, and deposit the amount paid with the city treasurer, who shall credit the purchaser named in the certificate of sale with the said amount, and pay the same to such purchaser, or his assignee, upon the surrender of the certificate of sale, and upon satisfactory proof of assignment thereof, if any. When the municipality is the purchaser, the treasurer shall notify the clerk of the council of the redemption, and such clerk shall thereupon cancel the certificate of sale on file in his office.

(g) On or before the fifteenth day of July of each year certified copies of such statement shall be transmitted to the governing board of each city within the district, together with a notice that at a place and on a day and at an hour named therein, which day shall be between the fifteenth and twenty-fifth days of August, both inclusive, the board of directors of the district will hear any protest or objections to the apportionment which shall have been regularly filed. A similar notice together with a copy of said statement shall be published once in a newspaper of general circulation printed, published and circulated within the district. It shall also be competent for the board of directors to order and provide for the publication or posting of such additional notices as may be deemed desirable or necessary to fully apprise all persons affected thereby of the contents of the statement and the time and place of hearing thereon. Failure to give such additional notice shall not affect the regularity of proceedings hereunder.

Notice of
hearing of
objections

(h) At any time not later than one week before the time noticed for hearing, any city or the owner or owners of any property assessable for district purposes within the district may file a protest against the apportionment. At the time and place set for hearing or at any time or place to which such hearing may be continued, the board of directors shall hear and pass upon all protests and objections regularly filed, and may confirm or modify and confirm the apportionment as contained in said statement of the controller, and its decision thereon shall be final and conclusive. No action shall be taken upon any protest filed later than one week preceding such hearing.

Filing and
hearing of
objections

(i) When the assessed valuations of property assessable for district purposes within the respective cities within the district shall have been received and the apportionment of money to be derived from taxation shall have been finally determined, the board of directors shall cause to be computed and shall levy upon property taxable for district purposes in each city, a tax sufficient to raise the amount of money apportioned to each city respectively, designating the rate of taxation in each city, and designating the number of cents upon each one hundred dollars assessed valuation of property taxable for district purposes in each city. Certified copies of the ordinance levying such tax and fixing the rate of taxation in each city shall,

on or before the thirtieth day of August of each year, be transmitted to the auditor of each county wherein said district or any part thereof shall lie.

Notice of
intention of
city to pay
in cash.

(j) On or before the fifteenth day of August of each year, it shall be competent for any city within any metropolitan water district incorporated hereunder to file with the controller of the district a copy of its ordinance duly certified electing to pay at a time or times therein set out the amount or any part or percentage thereof which would otherwise be raised by taxes levied upon property within the city as such amount shall be determined. Such ordinance shall be presented to the board of directors at the time of said hearing and if approved by the board the rate of taxation for district purposes in the city filing such ordinance shall be so fixed that the aggregate of moneys derived from payments to be made pursuant to such ordinance and the money to be derived from the taxation of property within such city for district purposes shall not exceed the amount finally apportioned thereto as herein provided but if any fraction of a cent occur, it must be taken as a full cent on each one hundred dollars.

Collection
of taxes.

(k) Upon receipt by the auditor of each county wherein such district or any part thereof shall lie of a certified copy of the controller's statement or the ordinance of the board of directors as the case may be fixing the tax rate upon the various cities and a statement of the cities to be exempted therefrom, if any, it shall be the duty of the county officers to collect taxes for the benefit of the district at the rates specified as herein provided. The taxes so levied shall be computed and collected at the time and in the manner required by law for the computation and collection of taxes for county purposes, and the property subject to such tax shall be subject to the same penalties for delinquency and the same provisions of law relating to the sale of property for nonpayment of county taxes and redemption thereof shall apply to the tax herein authorized. When so collected, such taxes shall be paid over to the treasury of the district, subject to the deduction herein authorized.

In consideration of services rendered hereunder, any county shall annually be entitled to deduct and withhold an amount not exceeding one per cent on the first twenty-five thousand dollars collected hereunder, and one-fourth of one per cent of any amount in excess of twenty-five thousand dollars collected hereunder. The board of supervisors of each such county may provide such extra help as in their judgment may be necessary for the proper performance of duties hereunder.

Lien of
taxes

(l) Whenever any real property situated in any district organized hereunder and upon which a tax shall have been levied, as herein provided, shall be sold for taxes and shall be redeemed, the money paid for such redemption, except advertising costs, shall be apportioned and paid in part to such district in the proportion which the tax due to such district shall bear to the total tax for which such property shall have been

sold. All taxes levied under the provisions of this act shall be a lien upon the property upon which levied, and the enforcement of the collection of such tax shall be had in the same manner and by the same means as is or shall be provided by law for the enforcement of liens for state and county taxes, and all of the provisions of law relating to the enforcement of such taxes are hereby made a part of this act so far as applicable.

(m) Cities, the areas of which are included within water districts incorporated hereunder, are hereby authorized to pay to such districts, out of funds derived from the sale of water or other funds not appropriated to some other use, such amounts as may be determined upon by the governing bodies, or other bodies, boards, commissioners or officers having control of such funds, thereof, respectively. Such payments may be made in avoidance of taxes as herein provided, or otherwise, and shall not be deemed gratuitous or in the nature of gifts, but shall be deemed payments for water or services in connection with the distribution of water. Any city making any such payment to any district incorporated hereunder, whether in avoidance of taxes or otherwise, shall receive credit therefor and the amount of the payment so made by any city shall be deducted from the amount of taxes which would otherwise be levied against property lying therein as herein provided. In the event that payment so made by any city shall exceed the amount of taxes which would otherwise have been levied against property within such city, the amount of such excess without interest shall be carried over and apply in reduction of taxes levied, or which would otherwise have been levied during the ensuing year or years. Any city which shall have incurred expenses in preliminary work in preparing for the incorporation of or in the incorporation of any district hereunder, or in the investigation of or preliminary work upon any works or project taken over by the district may certify, the amount thereof without interest to the board of directors of said district at any time within two years from the date of the incorporation of such district, or the incurring of such expenses if such district be already incorporated, and if allowed by the board such amount shall be credited to the city incurring the same and shall be considered as a payment of money made as herein provided; *provided, however*, that no such payments of money made in avoidance of taxes or otherwise, or such credit allowed by such board shall apply to reduce the amount of tax which would otherwise be levied against the property within such cities respectively to meet interest and sinking fund requirements on outstanding bonded indebtedness of such district. Such certification and allowance shall be made on or before the first Monday in July, and the amount of money to be raised by taxation shall be computed with reference to the credit to be allowed as herein provided, but such credit may, in the discretion of the board, be considered in connection with the

amount of money to be raised by the next tax levy, or may be spread over subsequent years, not to exceed five.

Failure of
city to pay

(*n*) If any city shall fail to comply with the terms of the order relating to payments to be made to the district in lieu of taxation, the amount of the delinquency, plus a penalty of ten per cent shall be added to the taxes to be collected during the ensuing fiscal year, and thereafter for a period of two (2) years no order or ordinance shall be sufficient to exempt the property in said city from taxation hereunder unless it be accompanied by payment in cash of the amount which would otherwise be collected from owners of property within the city, together with all moneys due but unpaid under any previous order.

Annexation
of territory

SEC. 4. Section 9 of said act, approved May 10, 1927, is hereby amended to read as follows:

Sec. 9. Annexation to the territory of any district organized hereunder may be effected by either of the following methods:

(*a*) Whenever any area shall be annexed to or consolidated with any city, the area of which shall be a part of any district organized hereunder, such annexed or consolidated area shall by virtue of its annexation or consolidation to such city become and be a part of such district and shall be taxable equally with other parts of such district to pay the indebtedness of the district outstanding at the time of such annexation or consolidation.

(*b*) The governing or legislative body of any municipality may apply to the controller of any metropolitan water district for a statement showing the amount of the bonded and other indebtedness of the district, the assessed value of the taxable property therein according to the most recent assessment, and the names of all municipalities, the areas of which are included within the district, and it shall thereupon be the duty of the controller to furnish such information to the applicant. After consideration of such statement the governing body of such municipality may apply to the board of directors of such metropolitan water district for consent to annex such municipality to the metropolitan water district. The board of directors may grant or deny such application and in granting the same may fix the terms and conditions upon which such city may be annexed to and become a part of the metropolitan water district, to the end that burdens, including the bonded debt, shall be equitably distributed over all parts of the district, having due regard to benefits. The action of the board of directors evidenced by order made on motion shall be promptly transmitted to the governing body of such applying city, which governing body may thereupon submit to the qualified electors of such city, at any general or special election held therein, the proposition of such annexation subject to the terms and conditions fixed as herein provided. Notice of such election shall be given by posting or publication; when given by posting such notice shall be posted at least ten days

and in three public places in the city; when given by publication such notice shall be published once at least ten days before the date fixed for the election in a newspaper of general circulation published in the city. Such notice shall contain the substance of the terms and conditions fixed by the board of directors, as herein provided. Such election shall be conducted and the returns thereof canvassed in the manner provided by law for municipal elections in such city. If such proposition shall receive the affirmative vote of a majority of electors of such city voting thereon at such election, the governing body of such municipality shall certify the result of such election on said proposition to the board of directors of said district and a certificate of proceedings hereunder shall be made by the secretary of the district and filed with the secretary of state. Upon the filing thereof in the office of the secretary of state, such municipality shall become and be an integral part of such water district, and the taxable property therein shall become taxable for the payment of bonds and other obligations of such district in accordance with the terms and conditions fixed by the board of directors as herein provided.

[Approved by the Governor June 14, 1929. In effect August 14, 1929.]

The people of the State of California do enact as follows:

Stats 1925,
p. 452,
amended.

SECTION 1. Section 2 of an act entitled "An act to provide for the establishment and change of grade of public streets, lanes, alleys, courts, places and rights of way, and of any of the following avenues of public travel, namely, tunnels, subways, viaducts, bridges or independent subterranean ways in municipalities and providing for the construction or improvement thereof, in cases where any damage to private property would result from such improvement, and for the assessment of the costs, damages and expenses thereof upon the property benefited thereby, and to provide a system of local improvement bonds to represent the assessments for the costs, damages and expenses of such improvement, and for the payment and effect of such bonds," approved June 16, 1913, as amended, is hereby amended to read as follows:

Resolution
of intention

Sec. 2. Before ordering any establishment, change or modification of grade, or any work done or improvement made which is authorized by this act, the said legislative body shall pass a resolution of intention so to do, referring to the street by its lawful or official name, or the name by which it is commonly known; when the work is not upon a public street or public way, then by briefly describing the property or right of way on which the same is to be constructed, and briefly describing the work. Said resolution shall declare that in the opinion of the legislative body damage to private property will result from such improvement. The said resolution of intention shall be sufficient if it states in general terms the class or kinds of work contemplated such as grading or regrading, paving or repaving, sewerage or resewerage or other work or improvements, and gives in general the location of the proposed improvement and refers to plans, profiles, detailed drawings and specifications or such of them as may be suitable or proper for the full and detailed description of said proposed work or improvement. Said resolution shall contain also a notice of the day, hour and place when and where any and all persons having any objections to the proposed work or improvement may appear before the legislative body and show cause why

said proposed improvement should not be carried out in accordance with said resolution; said time shall not be less than thirty nor more than sixty days from the date of the passage of said resolution. Said resolution shall describe the exterior boundaries of the district of land to be benefited by said improvement, and to be specially assessed to pay the costs and expenses of said work or improvement, and the damages caused thereby, which shall be known as the assessment district, or said district may be described by giving a description according to any official or recorded map or maps or by referring to a plat or map which shall be on file in the office of the city clerk or city engineer at the time of passing the resolution of intention, which shall indicate by a boundary line the extent of the territory included in the proposed district, which map or plat shall govern for all details as to the extent of the said assessment district. The said district need not be described in any of the notices or resolutions provided for herein other than the resolution of intention. The grade to which any work shall be done or improvement made shall be such as may be shown on the plans or profiles therefor or it may be done on such a grade as may have been formally established by the legislative body. If any official grade has already been adopted or established for any of the streets, avenues, or other places or property, proposed to be improved, it shall be lawful for the resolution of intention to provide that said work shall be done to new grades or grades different from those so established or adopted, and shall refer to plans, profiles or specifications for the description of the grade at which the work is to be done.

Such legislative body may include in one improvement, under one ordinance or resolution of intention and order and under one contract, the grade of all or any portion of one or more streets, avenues, lanes, alleys, courts, places, rights of way or other land of the city, or land in which and where the city has an easement or right of way, established, changed, or modified, and the grade of the roadway of any of the following avenues of public travel, namely tunnels, subways, viaducts, bridges, or independent subterranean ways, in, on, under, over or through any portion of any of said streets, avenues, lanes, alleys, courts, places, right of way or other land of the city, or land in which and where the city has an easement or right of way, established, changed or modified, and the construction of any one or more or all of the different kinds of work enumerated in section 1 hereof, upon the same or any part or portion thereof, and may exclude therefrom any of such work already done.

with the clerk of said legislative body. Such protest must be in writing and no other protest or objection shall be considered. The clerk shall endorse on every such protest the date of its reception by him, and at the time fixed for the hearing, or at any other time to which the hearing may be adjourned, he shall present to said legislative body all protests so filed with him. Before the hearing of any protest there shall be filed with such legislative body affidavits showing that the said notices have been posted and published as hereinbefore required, and the said legislative body shall thereupon cause to be entered in its minutes an order reciting that notice of said hearing has been posted and published as required by law, and such order shall be prima facie evidence of the truth of the facts therein recited. The legislative body shall hear said protests at said meeting, or at any time to which the hearing thereof may be continued, and pass upon the same, and its decision shall be final and conclusive; *provided, however*, if such protests are against the proposed improvement, and the legislative body finds that such protests are signed by the owners of a majority of the frontage of the property fronting on the streets or parts of streets within the assessment district for such improvements, all further proceedings shall be stayed and barred for six months from and after the filing of such majority protests, unless the owners of a majority of such frontage shall in the meantime petition for the said improvement to be made. If such protests are not signed by a majority of the owners of such property, and such protests are sustained, no further proceedings shall be had under said ordinance or resolution of intention, but a new ordinance or resolution of intention for the same improvement may be passed at any time. If such protests are denied, the proceedings shall continue as if such protests had not been made.

Hearings of
petitioners for
damages

SEC. 3. Section 7 of said act is hereby amended to read as follows:

Sec. 7. Upon the passage of the final ordinance or resolution referred to in section 5 hereof, said commission shall appoint a time and place for the hearing of petitions for damages caused by said improvement, and shall cause notice of such time and place to be published for at least five days in a daily newspaper, or three times in a weekly newspaper, published in said city, or if no such newspaper is so published and circulated, then by posting for two days in three public places in said city. Said commission shall also cause a similar notice to be mailed to each owner of property, abutting upon the work or improvement where any change of grade is proposed to be made, at his last known address as the same appears on the tax rolls of the city, or as known to the clerk; *provided*, that the failure of said commission to cause said notices to be mailed, or the failure of property owners or any of them, to receive the same, shall in no wise affect the validity of the proceeding or the jurisdiction of the legislative body to pro-

ceed with the same. The time set for hearing such petitions shall be not less than thirty days from the first publication or posting of such notice. Before said hearing said commission shall view the location of the proposed improvement, and the property affected thereby. Said hearing may be continued from time to time by said commission.

SEC. 4. Section 8 of said act is hereby amended to read as follows:

Stats. 1915, p. 1221, amended.

Sec. 8. Every such petition shall be verified by the oath of the petitioner or his agent. After considering the petitions filed as herein provided, and after hearing the petitioners who may appear, and after viewing the location of the proposed improvement and the property affected thereby, said commission shall proceed to determine the amount of damages, if any, which will accrue to each parcel of property and to each separate estate or interest therein because of the proposed improvement. Any property owner who fails to file any such petition shall be deemed to have waived his right to a hearing with respect to any damages to any property owned by him, and to object to the amount of such damages fixed by said commission. Benefits to be received from the making of the improvement shall not be considered in computing damages.

A proposed assessment of the total amount of damages that will be caused by said improvement, as determined by the commission, the total amount of the contract price for the work and the total amount of the incidental expenses thereof as above specified, upon the respective lots or parcels of land in said district in proportion to the benefits to be received by such lots or parcels of land, respectively, from said improvement. Said assessment shall refer to such lots or parcels of land upon said diagram by the red ink numbers thereof, and need contain no other description thereof, and shall show the names of the owners, if known, otherwise designating them as unknown; but no mistake in the name of the owner of any lot or parcel of land shall affect the validity of the assessment thereon.

SEC. 5. Section 11 of said act is hereby amended to read as follows:

Time for hearing on report and notice thereof.

Sec. 11. Upon the filing of the report provided for in section 10 hereof, the clerk of the legislative body shall present such report to the legislative body, which shall fix a day for the hearing thereof by such legislative body, which day shall not be less than twenty days from the date of filing such report, and shall cause a notice of such hearing to be published by the clerk thereof, by three insertions in a daily newspaper published and circulated in said city, or if there be no daily newspaper in said city, then by two successive insertions in a weekly newspaper so published and circulated; or if no newspaper is so published and circulated, then by posting for two days in three public places in said city. Such publication shall be completed at least ten days before the date fixed for the hearing. Said notice shall state the fact that such report has been filed, and the date set for the hearing thereof, and require all persons interested to file with the clerk their objections, if any they have, to the confirmation of said report at or before the time fixed for the hearing. Such notice shall also be given by mailing a post card to each owner of property abutting upon said improvement at his last known address as the same appears on the tax rolls of the city, or as known to the clerk, provided that a failure of the clerk to give such notice by mailing or of the person addressed to receive same shall not affect the jurisdiction of the council to proceed with the hearing noticed.

SEC. 6. Section 12 of said act is hereby amended to read as follows:

Stats 1921, p. 268, amended

Sec. 12. The owners and all other persons interested in said report having any objection thereto shall prior to the date fixed for the hearing thereof, appeal to the city council by briefly stating in writing the grounds of appeal. At the time fixed, or at any other time to which the hearing may be continued, the legislative body shall hear said report and any objections thereto. The legislative body, upon such appeal, may remedy and correct any error or informality in the proceedings; may confirm, amend, alter, modify or correct said report in such manner as to them shall seem just; and may instruct and direct said commission to correct said report in any particular. All the decisions and determinations of said legislative body upon notice and hearing as aforesaid, shall be final and conclusive, except as to the damages to be caused by said proposed improvement, upon all persons entitled to appeal under the provisions of this section, as to all errors, informalities and irregularities which said legislative body might have avoided, or have remedied, during the progress of the proceeding, or which it can at that time remedy. Neither said report, nor any proceedings prior thereto, shall be held invalid by any court for any error, informality or other defect in the same, where the resolution of intention of the legislative body to do the work, has been actually published as herein provided. When no appeal is taken or when the orders and determinations of the legislative body upon appeal have been complied with, and the legislative body is satisfied with the correctness of said report the clerk of the legislative body shall transmit the diagram and assessment provided for in section 10 hereof, as finally confirmed, to the superintendent of streets. The superintendent of streets shall thereupon record such assessment and diagram in his office, in a suitable book to be kept for that purpose, and append thereto his certificate of the date of such recording, and such record shall be the assessment roll. From the date of such recording all persons shall be deemed to have notice of the contents of such assessment roll. Immediately upon such recording the several assessments contained in such assessment roll shall become due and payable, and each of such assessments shall be a lien upon the property against which it is made, paramount to all other liens, except liens for state, county and municipal taxes; *provided, however*, that such lien shall be subordinate to all special assessment liens previously imposed upon the said property, but it shall have priority over all special assessment liens which may thereafter be created against the same property; and such liens shall only be discharged by payment of the assessment or by redemption of the land after sale for delinquency. The superintendent of streets shall, upon the recording of said assessment, give notice by publication for five days in a daily newspaper published and circulated in said city, or by two insertions in a weekly

Said notice shall also contain a statement that all assessments not paid before the expiration of the said thirty days shall become delinquent, and that thereupon five per cent upon the amount of each such assessment will be added thereto. When payment of any assessment is made the superintendent of streets shall mark opposite such assessment the word "paid," the date of payment, and the name of the person by or for whom the same is paid, and shall give a receipt therefor. An act to amend section 3480a of the Political Code, providing a method of refunding reclamation district bonds now or hereafter issued or outstanding and to add a new section to the Political Code to be designated section 3457a thereof providing for the cancellation of warrants or reclamation districts and for the issuance of warrants in lesser dcmoniations in lieu thereof.

[Approved by the Governor June 14, 1929. In effect August 14, 1929.]

The people of the State of California do enact as follows:

SECTION 1. Section 3480a of the Political Code is hereby amended to read as follows:

3480a. Any reclamation district now existing or hereafter created may refund the whole or any part of any installment or installments of the principal of any bond issue now or hereafter outstanding in manner as follows:

Refunding
installments
of outstanding
bonds

Whenever in the judgment and opinion of the board of trustees of said district it would be for the best interest of said district or the landowners therein to refund any installment or installments of the principal of any outstanding bonds of the said district or any portion of said installment or installments, the board of trustees of said district may, by order enter upon the records thereof, order a special election to be held at some place in said district to be designated by the board at which said election shall be submitted to the owners of land in said district the question of whether or not any installment or installments of the principal of the outstanding bonds of said district or any part of any such installment or installments, shall be refunded. Section 3 of an act entitled "An act to provide for work in and upon streets, avenues, lanes, alleys, courts, places, and sidewalks within municipalities, and upon property and rights of way owned by municipalities or of which a municipality has possession and the right of use under the provisions of section 14 of article one of the constitution, and for establishing and changing the grades of any such streets, avenues, lanes, alleys, courts, places, sidewalks, properties or rights of way, and providing for the issuance and payment of street improvement bonds to represent certain assessments for the cost thereof, and providing a method for the payment of such bonds," approved April 7, 1911, as amended, is hereby amended to read as follows:

Resolution
of intention
to improve

Sec. 3. Before ordering any work done or improvement made which is authorized by this act, the city council shall pass a resolution of intention to do so, referring to the street

by its lawful or official name, or the name by which it is commonly known; when the work is not upon a public street or public way, then by briefly describing the property or right of way on which same is to be constructed, and briefly describing the work. The said resolution of intention shall be sufficient if it states in general terms the class or kinds of work contemplated such as grading, paving, sewerage or other work or improvements, and gives in general the location of the proposed improvement and refers to plans, profiles, detailed drawings and specifications or such of them as may be suitable or proper for the full and detailed description of the said proposed work or improvement. Said resolution shall contain also a notice of the day, hour and place when and where any and all persons having any objections to the proposed work or improvement may appear before the legislative body and show cause why said proposed improvement should not be carried out in accordance with said resolution; said time shall not be less than fifteen nor more than sixty days from the date of the passage of said resolution. The city clerk shall cause said resolution of intention to be published twice in one or more newspapers published and circulated in said city. If no newspaper be published in said city, then the publication shall be made twice in some newspaper published in the county in which said city is located. The city council may include in one proceeding, under one resolution of intention and in one contract, any of the different kinds of work mentioned in this act on any number of streets, properties and rights of way or portions thereof, contiguous or otherwise, and it may except therefrom any of said work already done.

Publication

The grade to which any work shall be done or improvement made shall be such as may be shown on the plans or profiles therefor or it may be done on such a grade as may have been formally established by the city council. If any official grade has already been adopted or established for any of the streets, avenues, or other places or property, proposed to be improved, it shall be lawful for the resolution of intention to provide that said work shall be done to new grades or grades different from those so established or adopted, and shall refer to plans, profiles or specifications for the description of the grade at which the work is to be done. Any property owner whose property is to be assessed to pay the costs and expenses of the proposed improvement may at the time fixed in the resolution of intention for hearing of objections to the proposed work and improvement, appear before the city council and make objection to the proposed grade or proposed modification of grade. A failure to make objection at such time shall be deemed to be a waiver of all objections to the proposed grade or proposed change or modification of grade and shall operate as a bar to any claim for damages or any subsequent action looking to the prevention of the work or the recovery of damages on account of the performance of the work to such grade or changed grade. In the event that the council shall, in such resolution of intention, declare that said lots, pieces or parcels of land so owned as aforesaid, or any of them, shall be included in the assessment, or in the event that no declaration is made respecting such lots, pieces or parcels of land, or any of them, then said city shall be liable for such sum or sums as may thereafter be assessed against any such lots, pieces or parcels of land so owned and used, and so included in the assessment by reason of the aforesaid declarations, or such lots, pieces or parcels of land so owned and used respecting which the resolution of intention makes no declaration, which shall be payable by the said city out of the general fund unless the legislative body shall in its resolution of intention designate another fund; *provided, however*, that any such sum or sums which may be assessed against any such lots, pieces or parcels of land so owned and used, shall not be payable by the city when such sum or sums are paid by the owner of or the governing body controlling such lots, pieces or parcels of land.

Sec. 20h. It shall be lawful for the owner or owners of lots or lands fronting upon any street, the width and grade of which have been established by the city council, to perform, at his or their own expense (after obtaining permission from the council so to do, but before said council has passed its resolution of intention to order grading inclusive of this), any grading upon said street, to its full width, or to the center line thereof, and to its grade as then established, and thereupon to procure, at his or their own expense, a certificate from the city engineer, setting forth the number of cubic yards of cutting and filling made by him or them in said grading, and the proportions performed by each owner, and that the same is done to the established width and grade of said street, or to the center line thereof, and thereafter to file said certificate with the superintendent of streets, which certificate the superintendent shall record in a book kept for that purpose in his office, properly indexed. Whenever thereafter the city council orders the grading of said street, or any portion thereof, on which any grading certified as aforesaid has been done, the bids and contracts must express the price by the cubic yard for cutting and filling in grading; and the said owner or owners and his or their successor in interest, shall be entitled to credit, on the assessment upon his or their lots and lands fronting on said streets for the grading thereof, to the amount of the cubic yards of cutting and filling set forth in his or their certificate, at the prices named in the contract for said cutting and filling; or, if the grade meanwhile has been duly altered, only for

so much of said certified work as would be required for grading to the altered grade; *provided, however*, that such owner or owners shall not be entitled to such credit as may be in excess of the assessments for grading upon the lots and lands owned by him or them, and proportionately assessed for the whole of said grading; and the superintendent of streets shall include in the assessment for the whole of said grading upon the same grade the number of cubic yards of cutting and filling set forth in any and all certificates so recorded in his office, or for the whole of said grading to the duly altered grade so much of said certified work as would be required for grading thereto, and shall enter corresponding credits, deducting the same as payments upon the amounts assessed against the lots and lands owned, respectively, by said certified owners and their successors in interest; *provided, however*, that he shall not so include any grading quantities or credit any sums in excess of the proportionate assessments for the whole of the grading which are made upon any lots and lands fronting upon said street and belonging to any such certified owners or their successors in interest. Whenever any owner or owners of any lots and lands fronting on any street shall have heretofore done, or shall hereafter do any work (except grading) on such street, in front of any block, at his or their own expense and the city council shall subsequently order any work to be done of the same class in front of the same block, said work so done at the expense of such owner or owners shall be excepted from the order ordering work to be done; *provided*, that the work so done at the expense of such owner or owners shall be upon the official grade, and in condition satisfactory to the street superintendent at the time said order is passed.

Sec. 20i. Whenever the resolution of intention declares that the cost and expenses of the work and improvement are to be assessed upon a district, the city engineer shall prior to completion of the contract make a diagram of the property affected or benefited by the proposed work or improvement, as described in the resolution of intention, and to be assessed to pay the expenses thereof. Such diagram shall show each separate lot, piece or parcel of land, and the dimensions of each such lot, piece or parcel of land, and the relative location of the same to the work proposed to be done, all within the limits of the assessment district; and when said diagram shall have been approved by the city council, the clerk shall certify the fact and date thereof. Immediately thereafter the said diagram shall be delivered to the superintendent of streets of said city, who shall immediately, after the contractor of any street work has fulfilled his contract to the satisfaction of said superintendent of streets or city council on appeal, proceed to estimate upon the lands, lots or portions of lots within said assessment district, as shown by said diagram, the benefits arising from such work, and to be received by each such lot,

portion of such lot, piece or subdivision of land, and shall thereupon assess upon and against said lands in said assessment district the total amount of the costs and expenses of such work, and in so doing shall assess said total sum upon the several pieces, parcels, lots or portions of lots, and subdivisions of land in said assessment district, benefited thereby, to wit: Upon each respectively, in proportion to the estimated benefits to be received by each of said several lots, portions of lots, or subdivisions of land. In other respects the assessment shall be as provided in the next section, and the provisions of sections 20, 20*a*, 20*b*, 20*c*, 20*d*, 20*e* and 20*f* of this act shall not be applicable to the work or improvement provided for in this section.

Sec. 21. After the contractor of any street work has fulfilled his contract to the satisfaction of the street superintendent of said city, or the city engineer, if such power has been delegated to him, as hereinbefore provided, the superintendent or city engineer, if the power and duty to do so has been delegated to him as hereinbefore provided, shall forthwith make an assessment to cover the sum due for the work performed and specified in said contract (including all incidental expenses), in conformity with the provisions of the preceding section according to the character of the work done. The assessment shall briefly refer to the contract, the work contracted for and performed, and shall show the amount to be paid therefor, together with all incidental expenses, the amount of each assessment against each lot or portion of a lot, the number of each lot or portion or portions of a lot so assessed, and shall have attached thereto a diagram exhibiting each street or street crossing, lane, alley, place or court, property or rights of way on which any work has been done, Assessment

showing the relative location of each lot, or portion of lot to the work done, numbered to correspond with the numbers of the assessments. The said assessment shall then be filed with the city clerk. Said clerk shall then give notice of the filing of said assessment and of a time to be therein fixed by said clerk when all persons interested in the work done, or in the assessment will be heard by the city council. Such notice shall be posted for not less than five (5) days on or near the council chamber door, and in addition be published twice in a newspaper published in such city if there be any, and if there be none, then in some newspaper published in the county in which such city is located, the first of which publications shall be not less than fifteen (15) days before the time fixed for such hearing. Such notice shall also be given by mailing a post card to the owner of each lot listed according to the name and address appearing on the last equalized assessment roll for city taxes prior thereto, or as known to the clerk; *provided*, that a failure of the clerk to give such notice by mailing or of the person addressed to receive same shall not affect the jurisdiction of the council to proceed with the hearing noticed. Reference shall therein be made to the resolution of intention and the date of its passage or a description of the work therein mentioned and no other description thereof shall be necessary. The owners, the contractor, or his assigns, and all other persons interested in any work done under this act, or in the assessment, feeling aggrieved by any act or determination of the superintendent of streets, or city engineer in relation thereto, or who claim that the work has not been performed according to the contract in a good and substantial manner or who claim that any portion of the work for any reason was omitted or illegally included in the contract for the same, or having or making any objection to the correctness of the assessment or diagram or other act, determination or proceedings of the superintendent of streets, or city engineer, shall prior to the day fixed for the hearing upon the assessment, appeal to the city council by briefly stating in writing the grounds of appeal. Upon such appeal, the said city council may remedy and correct any error or informality in the proceedings, and revise and correct any of the acts or determinations of the street superintendent or city engineer, relative to said work; may confirm, amend, alter, modify or correct the assessment or diagram in such manner as to them shall seem just, and require the work to be completed according to the directions of the city council; and may instruct and direct the street superintendent to correct the warrant, assessment, or diagram in any particular. All the decisions and determinations of said city council, upon notice and hearing as aforesaid, shall be final and conclusive upon all persons entitled to appeal under the provisions of this section, as to all errors, informalities, and irregularities which said city council might have avoided, or have remedied during the progress of the

No assessment, warrant, or diagram, and no proceedings prior to the assessment, shall be held invalid by any court for any error, informality, or other defect in the same, where the resolution of intention of the council to do the work, has been actually published as herein provided. When no appeal is taken or when the orders and determinations of the council upon appeal have been complied with, and the council is satisfied with the correctness of the assessment, thereupon the council shall forthwith confirm the proceedings and the assessment and the street superintendent shall attach thereto a warrant bearing the date of said order of said city council.

Upon such filing the warrant shall be redelivered to the contractor, or his assigns.

The said superintendent of streets is authorized at any time to receive the amount due upon any assessment and warrant issued by him and give a good and sufficient discharge therefor; *provided*, a bond has not issued to represent said assessment; *provided, further*, that when suit shall have been brought to collect the amount due upon any assessment as herein provided, the plaintiff shall file with the superintendent of streets a written notice of the pendency of said action showing the particular assessments affected by said action or actions; and after the filing of said notice the said superintendent of streets shall not receive any money on account of said assessment, and thereafter he shall have no authority to cancel said assessment or give a discharge thereof without the written consent of the owner of said assessment until judgment has been rendered in said action or the same has been dismissed and the street superintendent shall omit from the list of properties provided to be sent to the tax collector in section 27 hereof any property upon which the assessment described in said notice is a lien. In case any warrant is lost, upon proof of such loss a duplicate can be issued, upon which collections may be made, with the same effect as on the original. After the filing of the written statement of payments as aforesaid, all amounts remaining due thereon shall draw interest at the rate of one per cent per month until paid, said interest to be computed from the date of the filing of the contractor's statement and if such amount be not paid within six months thereafter, there shall be added thereto a penalty of five per cent of the principal amounts then due thereon.

Sec. 27. It shall be the duty of the superintendent of streets on or before the fourth Monday of September of each year to certify to the city tax collector, or in case the city taxes are collected by the county, to the county tax collector, a list of the properties within said city upon which there is a lien for delinquent assessments, as shown by the records of the street superintendent.

In cases where the county collects city taxes the notice herein provided to be attached to or pasted to or printed or stamped upon the tax bill shall, if the county tax collector so requires, be prepared by the superintendent of streets and shall be forwarded to the county tax collector on or before the dates herein provided for forwarding said list. Such tax collector shall cause to be pasted or attached to or printed or stamped upon the tax bill or tax receipt, a notice which shall, in substance be as follows:

“Notice of Assessments.”

“There is an assessment lien on this property which must be paid to city street superintendent (or bureau of assessments in cities where such bureau exists) to avoid foreclosure.”

At any time after the first day of July next succeeding nine months following the date of recording of such assessment, the contractor or his assignee may sue in his own name the owner of the land, lots or portions of lots assessed on the day of the date of the recording of the warrant, assessment and diagram, and recover the amount of any assessment remaining unpaid together with interest and any penalties allowed hereunder; *provided*, that if any state, county or municipal taxes or other special assessment or assessments be delinquent on said property then such action may be brought at any time after ninety days after the recording of such assessment.

Attorney's
fees

When suit has been brought in accordance with the provisions of this section, the plaintiff shall be entitled to have and recover five dollars attorney fees on each assessment sued on in the event that said suit be settled or a tender made prior to the trial of said action, or in the event that judgment be taken on default; if said suit proceeds to trial then in that event the court having jurisdiction of said cause shall fix and allow a reasonable attorney fee for the prosecution of said suit which fee in either case shall be in addition to all taxable costs and the plaintiff may have judgment therefor; *provided*, that if the court finds an unnecessary number of actions have been brought, where the parties are identical, it may allow the costs of one action only. Suit may be brought in the superior court within whose jurisdiction the city is, in which said work has been done, and in case any of the assessments are made against lots, portions of lots, or lands, the service of process may be had in said action, in such manner as is prescribed in the codes and laws of this state. It shall be competent to bring a single action under any such assessment

irrespective of the number of lots assessed where the parties defendant are identical, and where separate actions are brought, the same may be consolidated by order of the court. The said warrant, assessment and diagram, with proof of nonpayment shall be held prima facie evidence of the regularity and correctness of the assessment and of the prior proceedings and acts of the superintendent of streets, and city council upon which said warrant, assessment and diagram are based, and like evidence of the right of the plaintiff to recover in the action. The plaintiff in such action may recover the cost of any abstract or report of search of title procured in good faith in order to determine ownership, such search to be by a reputable abstractor or title company and such cost not to exceed five dollars per lot, and such abstract or report of search with affidavit of payment to be filed in the action. The provisions hereof shall not be applicable to assessments represented by the issuance of bonds nor to assessments collected on the tax rolls but shall be applicable only to cash assessments levied pursuant to part one of this act.

Consolidation of actions

Evidence

In a complaint in any such action it shall be held sufficient to allege briefly that the city council ordered the work, the performance of the work under the contract, the making of the assessment, the issuing of said warrant and the making of said diagram; that an assessment (naming the amount) was levied against that certain lot or parcel of land (describing the same) which, according to the information and belief of the plaintiff, is owned by the defendant; that payment of said assessment has not been made. Upon the entry of judgment or dismissal of said suit the county clerk shall forthwith mail to the street superintendent of the city having jurisdiction over the proceeding in which said assessment was levied, a certified copy of said judgment or evidence sufficient to advise the street superintendent of the judgment of the court in said action.

Complaint.

In describing said lot or parcel of land in said complaint it shall be sufficient to refer to the same by its number upon said diagram, provided a certified copy of said warrant, assessment and diagram shall have been previously filed in the office of the recorder of the county or city and county in which the same is situated. It shall be the duty of such recorder to so file any such certified copy presented to him upon payment of the filing fee therefor, which fee is hereby fixed at fifty (50) cents.

Description of lots

If the contractor or his agent or any person acting in behalf of the contractor shall, prior to the filing of a complaint for the recovery of any assessment as herein provided or subsequent to the filing of suit and prior to the allowance of attorney fees and costs as herein provided, make any written demand upon or present any bill or notice in writing to such owner, demanding, requesting or notifying such owner to pay or that there is due, attorney's fees or court costs in connection with the collection of such assessment, then, the superintendent of

streets is authorized, upon written demand of such owner, accompanied by the affidavit of such owner, that such written demand, bill or notice for the payment of attorney's fees and costs, or either thereof, was made upon or presented to such owner prior to the commencement of suit, or subsequent to the filing of suit and prior to the allowance of attorney's fees and costs, together with such written demand, bill or notice to mark said assessment "paid" and such assessment shall thereby be deemed to be paid and the lien thereof released; *provided*, that this clause shall not be held to apply to the service of summons and complaint in a civil action.

Should suit be brought for the recovery of any assessment prior to the time permitted for bringing same as herein provided, then in such action, so brought, the plaintiff shall not recover and defendant shall be entitled to have and recover such attorney's fees as the court may deem reasonable in addition to all taxable costs and he may have judgment therefor.

SEC. 4. Section 4 of said act is hereby amended to read as follows:

Resolution
of intention

SEC. 4. Before ordering any work done or improvement made which is authorized by this act, the city council or board of supervisors shall pass a resolution of intention so to do, referring to the street by its lawful or official name, or the name by which it is commonly known; when the work is not upon a public street or public way, then by briefly describing the property or right of way or the property for which an order of immediate possession and use has been obtained, on which the same is to be constructed, and briefly describing the work. The said resolution of intention shall be sufficient if it states in general terms the class or kinds of work contemplated such as grading, paving, sewerage or other work or improvement and gives in general the location of the proposed improvement and refers to plans, profiles, detailed drawings and specifications or such of them as may be suitable or proper for the full and detailed description of the said proposed work or improvement.

Hearing on
objections

Said resolution shall contain also a notice of the day, hour and place when and where any and all persons having any objections to the proposed work or improvement may appear before the legislative body and show cause why said proposed improvement should not be carried out in accordance with said resolution; said time shall not be less than fifteen or more than sixty days from the date of the passage of said resolution. The city clerk or the clerk of the board of supervisors shall cause said resolution of intention to be published twice in one or more newspapers published and circulated in said city or in said county. The city council or board may include in one proceeding, under one resolution of intention and in one contract, any of the different kinds of work mentioned in this act on any number of streets, properties and rights of way or portions thereof, contiguous or otherwise, and it may except therefrom any of said work already done.

Grades.

The grade to which any work shall be done or improvement made shall be such as may be shown on the plans or profiles therefor or it may be done on such a grade as may have been formally established by the city council or board. If any official grade has already been adopted or established for any of the streets, avenues, or other places or property, proposed to be improved, it shall be lawful for the resolution of intention to provide, that said work shall be done to new grades or grades different from those established or adopted, and shall refer to the plans, profiles or specifications for the description of the grade at which the work is to be done. Any property owner whose property is to be assessed to pay the costs and expenses of the proposed improvement may at the time fixed in the resolution of intention for the filing of objections to the proposed work and improvement, make objection in writing to the proposed grade or proposed modification of grade. A failure to make objection in writing at such time

shall be deemed to be a waiver of all objections to the proposed grade or proposed modification or change of grade and shall operate as a bar to any claim for damages or any subsequent action looking to the prevention of the work or the recovery of damages on account of the performance of the work to such grade or changed grade. The provisions of this section relative to grades are alternative and shall not repeal other provisions of this act, or other statutes relative to the change of grade.

Whenever the contemplated work or improvement, in the opinion of the city council or board, is of more than local or ordinary public benefit, or whenever, according to estimate to be furnished by the city engineer or county surveyor, the total estimated costs and expenses thereof would exceed one-half the total assessed value of the lots and lands assessed, if assessed upon lots or land fronting upon said proposed work or improvement, according to the valuation fixed by the last assessment roll whereon it was assessed for taxes for municipal or county purposes, and allowing a reasonable depth from such frontage for lots or lands assessed in bulk, the city council or board may make the expenses of such work or improvement chargeable upon a district, which the said city council or board shall, in its resolution of intention, declare to be the district benefited by said work or improvement, and to be assessed to pay the costs and expenses thereof. Such district may be described by stating the exterior boundaries thereof, or by giving a description thereof according to any official or recorded map or maps, or by referring to a plat or map which shall be on file in the office of the city clerk, or clerk of the board, or city engineer at the time of passing the resolution of intention, which shall indicate by a boundary line the extent of the territory included in the proposed district, which said plat or map shall govern for all details as to the extent of the assessment district. The said district need not be described in any of the notices or resolutions provided for herein, other than the resolution of intention.

benefited

In the event that the legislative body initiating the proceedings is of the opinion that the improvement should extend beyond the limits of the city or outside the limits of unincorporated territory of the county, as the case may be, then the said legislative body shall introduce its proposed resolution of intention and submit a copy of the same to such legislative bodies as have jurisdiction over the territories into which the work is proposed to extend and which are proposed to be included within the assessment district. The proposed resolution of intention may be altered to meet objections of such other legislative bodies and shall not be passed until it shall be consented to by resolution of such other legislative bodies, which consent shall of itself constitute assent to the assumption of jurisdiction thereover for all purposes of the proceeding.

Improvements

After the adoption of the resolution of intention, the street superintendent or county surveyor shall cause to be conspicuously posted along the line of said contemplated work or

improvement, at not more than three hundred feet in distance apart, but not less than three in all, or when the work to be done is only upon an entire crossing or intersection or any part thereof, in front of each quarter block or irregular block liable to be assessed, notices of the passage of said resolution of intention. In case the work is chargeable upon a district as herein provided, copies of said notice shall also be posted along all the open streets within such district at not more than three hundred feet in distance apart on each street so posted, but no proceeding shall ever be held invalid for failure to post any street or streets therein if this provision has been substantially complied with. In every case all posting must be fully completed at least ten days before the day set for hearing protests or objections as hereinbefore provided. Said notice shall be headed "Notice of Street Work" in letters not less than one inch in length; and shall, in legible characters state the fact of the passage of the resolution of intention, its date, and briefly describe the work or improvement proposed, and refer to the resolution of intention for further particulars. Said notices shall contain also a statement of the day, hour, and place, when and where any and all persons having any objections to the proposed work or improvement may appear before the legislative body and show cause why said proposed improvement should not be carried out in accordance with said resolution of intention. The council or board, may if it deems it necessary, direct the clerk to mail copies of said notices to the owners or reputed owners whose names and addresses are known to him, but the mailing of such notices shall not be essential to obtaining jurisdiction by the council or board, and the failure to do so shall not affect in any manner the validity of any proceedings taken hereunder.

Protests.

At any time not later than the hour set for hearing objections to the proposed work as provided hereinbefore, any owner of property liable to be assessed for said work may make written protest against the proposed work or against the extent of the district to be assessed, or both, and may also file objections to the proposed grades. Such protests or objections must be in writing and be delivered to the said clerk of the city council or board, and no other protests or objections shall be considered. At the time set for hearing protests, the city council or board shall proceed to hear and pass upon all protests so made, and its decision shall be final and conclusive; *provided, however*, that when the protest is against the proposed work, and the cost thereof is to be assessed upon the property fronting thereon, and the city council or board finds that such protest is made by the owners of a majority of the property fronting on the proposed work, or when the protest is against the proposed work and the cost thereof is to be assessed upon the property within a district, and the city council or board finds that such protest is made

by the owners of more than one-half of the area of the property to be assessed for said improvement, no further proceedings shall be taken for a period of six months from the date of the decision of the city council, or board, on said hearing, unless the said protest is overruled by an affirmative vote of four-fifths of the members of the city council, or board. The words "proposed work" as used herein, shall mean and include all the work described in the resolution of intention. The city council or board may adjourn said hearings from time to time.

If no protests or objections in writing have been delivered to the clerk within the time set for the filing of the same as hereinbefore provided, or when a protest or objection shall have been found by said city council, or board to be insufficient, or shall have been overruled, or, when a protest against the extent of the proposed district shall have been heard and denied, immediately thereupon the city council, or board, shall be deemed to have acquired jurisdiction to order the proposed improvements which order may be made by resolution.

Jurisdiction
acquired.

In all resolutions, notices, orders and determinations, subsequent to the resolution of intention, it shall not be necessary to describe the assessment district, and in all of the same, subsequent to the resolution of intention and the notice of street work, it shall be sufficient to refer to the resolution of intention for a description of the work or improvement and the assessment district.

Sec. 7. The superintendent of streets, or county surveyor, is hereby authorized, in his official capacity, to make all written contracts, and receive all bonds authorized by this act, and to do any other act, either express or implied, that pertains to the street department under this act; and he shall fix the time for the commencement, which shall not be more than fifteen days from the date of the contract, and for the completion of the work under all contracts entered into by him, which work shall be prosecuted with diligence from day to day thereafter to completion, and he may extend the time so fixed from time to time, under the direction of the council or board. The work provided for in this act under section 2 hereof must be done under the direction and to the satisfaction of the superintendent of streets, or county surveyor, and the materials used shall comply with the specifications and be to the satisfaction of said superintendent of streets, or county surveyor, and all contracts made therefor must contain a provision to that effect; *provided, however,* that the city council of a city may by resolution adopted within ten days after the passage of the resolution ordering the work direct that the work shall be done under the direction of the city engineer and that materials used shall comply with the specifications and be to the satisfaction of the city engineer,

All contracts made for work hereunder shall also contain a provision to the effect that in no case except where it is otherwise provided in this act, will the municipality, or county, or any officer thereof, be liable for any portion of the expenses, nor for any delinquency of persons or property assessed. The council, or board, may by ordinance, prescribe general rules directing the superintendent of streets, or city engineer, or county surveyor and the contractor, as to the materials to be used, and the mode of executing the work, under all contracts thereafter made. The assessment and apportionment of the expenses of all such work or improvement shall be made by the superintendent of streets, or county surveyor, as set forth in this act; *provided, however*, that the city council of a city may by resolution adopted within ten days from the passage of the resolution ordering the work, provide that the assessment thereafter to be made in the proceedings shall be made and signed by the city engineer instead of by the superintendent of streets, and in such event, the provisions contained in this act with reference to the duties of the superintendent of streets shall be construed as being complied with when such duties are so performed by such city engineer in lieu of the superintendent of streets.

person who supplies both work and materials and whose claim has not been paid by the contractor, company or corporation to whom the contract has been awarded, or by the subcontractors of said contractor, company or corporation may, at any time within thirty days from the date of the recordation of the assessment file with the superintendent of streets a verified statement of his or its claim, together with a statement that the same, or some part thereof, has not been paid. Any laborer, materialman, person, company or corporation entitled to the benefit of this act as hereinbefore set forth, whose claim has not been paid by the said contractor, company or corporation, or his or its subcontractors, shall severally have a first lien upon and against the assessment, any partial assessment, any reassessment and any bonds which may be issued to represent any assessment or reassessment, which lien may be enforced by action in the superior court of the county or city and county in which such work is done according to the custom and practice of such court, and which action must be brought within three months from the date of the filing of such verified statement.

Liens.

No assignment by the contractor of the whole or any part of the money, assessment, partial assessment, or any reassessment and any bonds which may be issued to represent any assessment or reassessment, due him or to be due him under the contract, or for "extras" in connection therewith, whether made before a verified claim is filed as provided for herein, or after said claim is filed, shall be held to take priority over claims filed under this section, and such assignment shall have no binding force in so far as the rights of the claimants who file claims hereunder, or their assigns, are concerned.

Effect of assignments by contractor.

Suit against the surety or sureties on the bond of the contractor required hereunder may be brought by any claimant, or his assigns, at any time after the claimant has ceased to perform labor or furnish materials or both and until the expiration of six months after the period in which verified claims may be filed as provided herein. The filing of a verified claim shall not be a condition precedent to the maintenance of such action against the surety or sureties on the bond and an action on such bond may be maintained separately from and without the filing of an action against the municipality or officer by whom such contract was awarded. Upon the trial of any such action, the court shall award to the prevailing party a reasonable attorney's fee, to be taxed as costs, and to be included in the judgment therein rendered.

Upon the entry of judgment or dismissal of said suit the county clerk shall forthwith mail to the street superintendent of the city, or county surveyor of the county, having jurisdiction over the proceeding in which said assessment was levied, a certified copy of said judgment or evidence sufficient to advise a street superintendent or county surveyor of the judgment of the court in said action.

The people of the State of California do enact as follows:

SECTION 1. Whenever a city, city and county, or county is the owner of real property which has been acquired for a particular purpose by purchase with funds derived from an assessment district, and it appears to the legislative bodies of said city, city and county, or county that it is to the advantage of the property owners lying in said city, city and county, county or assessment district to use said property for purposes other than those for which said property was acquired, power is

City or county to have power to lease real property.

Said property shall be leased by said legislative body upon said legislative body receiving a petition signed by the owners of at least fifty-one per cent of the property lying in the assessment district created for the purpose of acquiring said property, and which said owners of property have paid, or are paying special assessment taxes or assessments for the purchase of said property. Said petition may set forth the terms and conditions under which said property may be leased by said legislative bodies for purposes other than that for which said property was acquired. The legislative bodies of said city, city and county, county or assessment district shall have no power to lease said property or to use the same other than for the purposes for which it is acquired in the absence of a petition signed by the owners of at least fifty-one per cent of the property as hereinabove set forth, and then only according to the terms and conditions set forth in said petition.

Petition for leasing

Limitation.

Form of petition

Resolution of intention.

Property owners may object.

SEC. 2. Said petition shall be in general language and no particular requirements shall be necessary for the validity of said petition, save and except that said petition shall provide that said property shall only be leased to the highest bidder as hereinbefore set forth.

SEC. 3. Upon receiving said petition, said legislative body may pass a resolution of intention to lease said property according to the terms and conditions set forth in said petition. Said resolution of intention shall be sufficient if it states in general terms, the terms and conditions set forth in said petition, the location of the property proposed to be leased and the purpose for which said property is proposed to be leased. Said resolution of intention shall also contain a notice of the day, hour and place, when and where any and all persons having any objection to the proposed leasing of said property may appear before the legislative body and show cause why said proposed leasing should not be carried out in accordance with said resolution of intention and the terms and conditions of said petition. Said time shall be not less than fifteen, nor more than forty days from the date of the passage of said resolution. The clerk of said legislative body shall cause said resolution of intention to be published once a week for two successive weeks in one or more daily newspapers published and circulated in said city, city and county, or county. Any property owner whose property has been, or is being assessed to pay the costs and expenses of purchasing said property to be leased, may at the time fixed in the resolution of intention for hearing of objections to the proposed leasing, appear before the said legislative body and make objections to the said lease. The failure to make objection at said time shall be deemed to be a waiver of all objections to the proposed leasing, and shall operate as a bar to any subsequent action looking to the prevention of said leasing.

SEC. 4. At any time not later than the hour set for hearing objections to said proposed leasing as provided in section 1 herein, any owner of property which is being assessed, or has been assessed for the purchase of said property to be leased, may make written protest against the proposed leasing, such protest must be in writing and must be delivered to the clerk of said legislative body and no other protest or objections shall be considered. At the time set for hearing protests, the said legislative body shall proceed to hear and pass upon all protests so made and its decision shall be final and conclusive. In the event that a majority of the persons owning property which has been, or is being assessed in said city, city and county, or county, for the purchase of said property, shall protest against the leasing of said property according to the terms set forth in said petition, then and in that event, the said legislative body shall cease all further proceedings and no further steps shall be taken for the leasing of said property. Upon the time fixed for the hearing of protests, evidence may be produced going to any of the matters to be determined and in such order as the legislative body may summarily direct. Said hearing may be continued from time to time upon the order of the legislative body. Upon such hearing, all objections and protests to the leasing of the property proposed to be leased shall be heard and considered. In the event that no protests have been received by the legislative body, said legislative body may proceed to lease said property in the manner hereinafter set forth, and according to the terms and conditions set forth in the petition of said assessment paying property owners.

Written protests.

Hearings

Unless the power to proceed shall have ceased as hereinbefore provided, the legislative body shall at the conclusion of the aforementioned hearing and on a determination of all questions arising thereat, by resolution to be entered upon its minutes, declare its finding that the owners of more than one-half of the area of the property included in the assessment district created for the purchase or improvement of said property have not made written objection to the leasing of the property proposed to be leased. Said legislative body shall also pass upon the protests filed by other persons than those petitioning for the leasing of said property and if in the opinion of a majority of said legislative body said protests are valid and the terms and conditions set forth in the petition of the petitioning property owners will not result in the leasing of the property to the best interests of said property owners, said legislative body may deny said petition and decline to proceed further with said leasing unless a majority of said property owners consent to such terms and conditions as shall be embodied in a protest which has been allowed by said legislative body.

Resolution declaring findings

Said coupons shall be consecutively numbered, and shall bear the lithographed signature of the state treasurer who shall be in office at the time of the issuance thereof. But no interest on any of said bonds shall be paid for any time which may intervene between the date of any of said bonds and the issue and sale thereof to a purchaser, unless such accrued interest shall have been, by the purchaser of said bond, paid to the state at the time of such sale.

SEC. 9. When the bonds authorized to be issued under this act shall be duly executed, they shall be by the state treasurer sold at public auction to the highest bidder for cash, in such parcels and numbers as said treasurer shall be directed by resolution of the San Francisco harbor bond finance board, approved by the governor, who shall only direct and approve the same when in their judgment the actual harbor receipts, and those reasonably anticipated, will justify such sale of bonds and the consequent increased burden on harbor receipts; but said treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date; and he may, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof, offered, to such time and place as he may select. Before offering any of said bonds for sale the said treasurer shall detach therefrom all coupons which have matured or will mature before the date fixed for such

sale. Due notice of the time and place of sale of all bonds must be given by said treasurer by publication in two newspapers published in the city and county of San Francisco, and also by publication in one newspaper published in the city of Oakland, and by publication in one newspaper published in the city of Los Angeles, and by publication in one newspaper published in the city of Sacramento, once a week during four weeks prior to such sale. In addition to the notice last above provided for, the state treasurer may give such further notice as he may deem advisable, but the expenses and cost of such additional notice shall not exceed the sum of five hundred dollars for each sale so advertised. The cost of such publication shall be paid out of the San Francisco harbor improvement fund, on controller's warrants duly drawn for the purpose. The proceeds of the sale of such bonds except such amount as may have been paid as accrued interest thereon shall be forthwith paid over by said treasurer into the treasury, and must be by him kept in a separate fund to be known and designated as the "Fourth San Francisco seawall fund" and must be used exclusively for the construction of wharves, piers, seawall, state railroad, spurs, betterments and appurtenances and necessary dredging and filling in connection therewith on the waterfront of the city and county of San Francisco. Claims upon said fund shall be presented to the state controller for payment and paid by said controller in the same manner as claims are presented for payment and paid by said controller out of the San Francisco harbor improvement fund. The amount that shall have been paid at the sale of said bonds as accrued interest on the bonds sold shall be, by the state treasurer, immediately after such sale, paid into the treasury of the state and placed in the "Fourth San Francisco seawall sinking fund."

In the event that the council shall, in such resolution of intention, declare that said lots, pieces, or parcels of land so owned as aforesaid, or any of them, shall be included in the assessment, or in the event that no declaration is made respecting such lots, pieces or parcels of land, or any of them, then said city shall be liable for such sum or sums as may thereafter be assessed against any such lots, pieces or parcels of land so owned and used, and so included in the assessment by reason of the aforesaid declaration, or such lots, pieces or parcels of land so owned and used respecting which the resolution of intention makes no declaration, which shall be payable by the said city out of the general fund unless the city council shall in its resolution of intention designate another fund; *provided, however*, that any such sum or sums which may be assessed against any such lots, pieces or parcels of land so owned and used, shall not be payable by the city when such sum or sums are paid by the owner of or the governing body controlling such lots, pieces or parcels of land.

SEC. 2. Whenever any subdivision of land as defined in this act shall hereafter be laid out for the purpose of sale and before any contract for the sale, or sale, or, offer to sell said subdivision, or any part thereof is made, the subdivider thereof or his agent must cause to be recorded in the office of the county recorder of the county in which any portion of said subdivision is located, a map thereof in all respects in full compliance with the provisions of this act and ordinances and regulations adopted pursuant thereto; *provided*, that any person who desires to subdivide land shall file with the planning commission a copy of the map which he proposes to use in said subdivision and the said planning commission shall issue to said subdivider a receipt given in the name of the record owner of said property, which receipt properly signed and attested by the record owner may be recorded in the office of the county recorder in said county. SEC. 3. It shall be unlawful for any subdivider to contract for the sale, sell, or offer to sell any subdivision or part thereof, until a map thereof in full compliance with the provisions of this act has been duly recorded in the office of the county recorder in which any portion of said subdivision is located or until he shall have recorded in the office of said county recorder the receipt from the planning commission, regional planning commission, county surveyor or the city engineer setting forth that such map has been submitted to such body for approval. If such map has not been approved by such body within thirty days after the date of such recordation thereafter such subdivider or his agent may sell such property by metes and bounds description. Otherwise it shall be unlawful for any person to sell or offer for sale any subdivision or any part thereof, by reference to any map or plat, unless such map or plot has been made, certified, indorsed, acknowledged and recorded in all respects as provided in this act, or was filed or recorded prior to the taking effect of this act, and no person shall sell or offer for sale any subdivision or any part thereof by reference to any map or plat

SEC. 5. Prior to the preparation of any subdivision map the subdivider shall cause one original and as many duplicates as may be required by the city planning commission, city engineer or county surveyor of a tentative map to be prepared by a civil engineer or licensed surveyor. Said tentative map shall indicate the width and approximate grade of all streets, highways, or ways shown thereon; radius of all curves; approximate dimensions of lots; approximate location and width of any watercourses or areas subject to inundation or storm water overflow.

Preparation of tentative maps

SEC. 6. The subdivider shall file one or more copies of said tentative map with the planning commission of the city, city and county, or county having jurisdiction and in which such subdivision or any part thereof is situated, or in the absence of such commission, with such officer or body as may be designated in the subdivision regulations adopted by the legislative body thereof, or in default of any such designated person or body, with the clerk of the legislative body except that in all cities a copy of said tentative map shall also be filed with the city engineer.

Filing of tentative maps

Whenever any such subdivision or any part thereof, shall lie within unincorporated territory and within three miles of the corporate limits of any municipality in the same county which has established a planning commission which is in existence at the time of the filing of such tentative map, the commission, officer or body of the county to whom said tentative map is submitted, shall, within three days of the filing of the same, transmit copies thereof, which copies the subdivider may be required to prepare, to the secretary or engineer of the planning commission and the city engineer of such municipality, and shall certify on the original the fact of such transmission.

When subdivision lies within three miles of a municipality

Said secretary or engineer, or city engineer shall return the copies of the tentative map to the commission officer, or body of the county by whom the same was submitted, within fifteen days of its receipt by them, with a report attached thereto indicating wherein said tentative map may fail to conform to the neighboring street layout of said municipality, or to any major street plan or other plans of said municipality, with such other suggestions and drawings relative to street or highway arrangement as either of them may care to make. Failure of such engineer or secretary and the city engineer, to return said map within said fifteen days, shall be deemed an approval thereof by each or either of them.

When maps
are to be
filed with
regional
planning
commission

SEC. 7. The legislative body of said city, or county may designate in the subdivision regulations adopted pursuant to the provisions hereof, that all tentative and final maps shall be filed for approval and checking respectively, as provided herein, with any regional planning commission already established or created in the future. In such case, all acts required to be done by the planning commission or officer or body charged with the approval of maps shall be done by such regional planning commission, its officers, or deputies, or such officer, or body as may have been designated in such subdivision regulations

Approval and
disapproval
of tentative
maps

SEC. 8. The commission, officer, or body charged with the duty of approving such tentative maps shall within thirty days after the filing thereof, unless such time is extended by agreement with the subdivider or his agent, approve or disapprove the same. Said action shall be indorsed upon the face of the tentative maps. If no action is taken by said commission, officer or body charged with the duty of approving such tentative maps within said thirty days or such longer period as may have been agreed upon, the tentative maps as filed shall be deemed approved, and it shall be the duty of said commission, officer, or body through deputy or officer to indorse upon the face thereof the word "approved" together with a proper attestation. Nothing contained herein shall prevent the governing body from requiring by its subdivision regulations that the tentative map shall be submitted to the city engineer, or county surveyor, or legislative body in addition to being submitted to the planning commission; *provided*, that the total time elapsing between the submission of said map to the planning commission, city engineer, county surveyor or legislative body, unless such time is extended by agreement with the subdivider, or his agent, shall not exceed thirty days.

Grounds for
disapproval

SEC. 9. In the event that such tentative map is disapproved, the reasons for such disapproval shall be stated in clear and concise terms upon a proper memorandum permanently attached to said tentative map, together with a clear and concise statement of what changes will render the map acceptable. In the event that subdivision regulations have been adopted in accordance with the provisions of this act, such memorandum shall refer specifically to the regula-

tions violated by the tentative map. If no such regulations have been adopted, no disapproval can be made except upon the following grounds:

(a) Improper or inadequate provision for streets, highways, and ways.

(b) Improper or inadequate provisions for drainage. In the event of such disapproval the commission, officer or body disapproving such tentative maps shall forthwith upon demand by the subdivider furnish such subdivider with a certificate of disapproval duly attested. Said certificate shall contain a description of the exterior boundaries of such subdivision and shall contain a clear and concise statement of the reasons for such disapproval and of what changes will render the maps acceptable.

(c) Or failure to comply with any existing legal requirements governing subdivisions.

SEC. 10. One copy of the approved or disapproved tentative map together with the aforesaid memorandum, if any, shall be returned to the subdivider; another shall remain permanently in the files of the commission, body or officer charged with the original approval of tentative maps.

Disposal of
tentative
maps

SEC. 11. In the event that any subdivider is dissatisfied with the interpretation placed upon the subdivision regulations by the commission, body or officer charged with the approval of tentative maps, or in the absence of such regulations, such ruling as may have been made by such commission, body, or officer within fifteen days thereafter he may appeal from said ruling to the legislative body, which must hear the same, unless the subdivider consent to a continuance, at the next succeeding regular meeting. Said legislative body may by a majority vote of its members overrule any ruling of the commission, board or officer in regard to said tentative map. Such action shall be indorsed on a properly attested memorandum physically attached to both copies of said tentative map.

Appeals to
legislative
body

SEC. 12. Whenever any tentative map covers territory located in two or more cities, or counties, such map must be filed with the commission, body, or officer having jurisdiction over the approval of such maps in each of said cities, and counties. In the event such commissions, bodies, or officers require mutually inconsistent changes in such map and after consultation refuse to modify said demands, and said refusal has been approved by the respective governing bodies, the subdivider may file a complaint in the superior court in and for the county in which the major portion of such subdivision is located making each of said cities, cities and counties, and counties parties defendant. Such defendants may answer or otherwise plead in such special proceeding in the manner provided for in other civil actions, except as hereinafter provided. Such special proceeding shall take precedence over all matters upon the calendar of said court, criminal, probate, and eminent domain proceedings excepted.

Appeals to
superior
court.

After full opportunity to all parties to be heard, including the subdivider, the court shall determine what are the proper and desirable changes, if any, to be made in said tentative map as filed, attempting in its judgment so far as possible to apply all the subdivision regulations of each entity in its own territory while preserving a harmonious subdivision layout. The decision of said court on said matter and all its rulings on matters incidental thereto shall be final and no appeal therefrom may be had. Said decision shall in no wise determine the validity of any of the various subdivision regulations but shall extend only to their application to the particular subdivision concerned.

Additional
tentative
maps

SEC. 13. Nothing herein contained shall be construed to prohibit the filing of any number of tentative maps, regardless of whether the first one has been approved and optional tentative maps may be filed at the same time.

Preparation
and filing of
final subdivi-
sion map

SEC. 14. The subdivider subsequent to the approval of the tentative map shall proceed within one year to cause said subdivision to be surveyed accurately in accordance with said map and any and all alterations and changes therein, and a final subdivision map prepared, failure to prepare such final subdivision map within one year, unless by mutual agreement between the planning commission, officer or body charged with approving such map and the subdivider, extending the time of filing, shall automatically terminate all proceedings and the subdivider shall be required to submit a tentative map and recommencement proceedings. In making said survey, the engineer or surveyor shall leave sufficient permanent monuments so that another surveyor or engineer may retrace his work, or in accordance with subdivision regulations adopted pursuant hereto. The subdivision regulations adopted pursuant to the provisions of this act may provide in detail for the character, number, location, and time of location of such monuments.

Form of
final map

SEC. 15. The final subdivision map shall be clearly and legibly drawn in india ink upon tracing cloth of good quality. The size of the sheets of tracing cloth must be eighteen by twenty-six inches. Marginal lines must be drawn around the entire sheet, leaving a margin of one inch from the edges of the sheets, and the name, title, or other designation and all drawings, affidavits, certificates, acknowledgements, indorsements, acceptances of dedication, and notarial seals must be within said marginal line. The scale to which the drawing is made shall be large enough to show the details clearly. Enough sheets must be used to accomplish this end. Each sheet must be numbered, the relation of one sheet to another clearly shown and the number of sheets used in the subdivision must be set forth in the title of said map. Affidavits, certificates, acknowledgements, indorsements, acceptances of dedication, and notarial seals required by this act shall appear only once upon the first, or first and such others as may be required, of said several sheets. The subdivision regulations

adopted pursuant to this act may provide additional requirements as to the form or manner of preparation of said maps, not inconsistent with the provisions of this act.

SEC. 16. Such final map shall particularly set forth the exact location of such subdivision with reference to adjacent subdivisions, the maps or plats of which have been previously recorded, if any, or if none, then with reference to corners of a United States survey, or to some natural or artificial monument.

Designation
of location
of subdivi-
sion

SEC. 17. Such final map shall particularly set forth all parcels of land offered for dedication for public uses, whether they be intended for public highways, parks, courts, commons, building sites, drainage, or other public uses of any kind or description whatsoever, and their dimensions and boundaries definitely shown and defined. Such dedication shall be deemed made to the city, city and county, county, school or high school district, reclamation, irrigation, or flood control district or any and all other districts created for a special use or purpose within which such dedicated area is located and the special functions of which embrace the purpose for which the dedication is limited; *provided*, that when such map shows by express language an intention to transfer such dedicated area to another entity, said intention shall control. Such dedication shall convey an easement when a public body can condemn for such purpose only an easement, but in all other cases said dedication shall convey a fee simple estate subject to the terms of the dedication. Unless couched in precise language or limited by the provisions of the acceptance, the dedication shall be conclusively presumed to carry with it all rights and uses necessary or convenient for the use of the property designated on such final map.

Dedication

uses.

SEC. 18. Such final map may particularly set forth easements and rights of way dedicated by said map to any person, association or municipality, county or corporation for itself or as trustee for others for public utility purposes. Any city, city and county, or county may act as trustee for such purposes and may transfer the whole or part of the said easement when not inconsistent with provisions and terms of said trust, without regard to the limitations placed upon ordinary transfers of interest in land by such bodies.

Easements

SEC. 19. Such final map shall particularly define, delineate and designate all lots intended for sale or reserved for private purposes by number with their dimensions, boundaries and courses definitely shown and defined; parcels offered for dedication for highways or other purpose, public or private, but not accepted as provided for in this act, by letter, with their dimensions and boundaries definitely shown and defined; and private streets by letter or name; *provided*, that private streets and streets offered but not accepted for dedication shall have inserted the words "not a public street." The subdivision regulations adopted pursuant to the provisions of this act

Lots for
sale, etc

may provide additional requirements as to the designation of such parcels not inconsistent with the provision of this act.

Endorsement
of final map
by owners of
the land

SEC. 20. Upon every such final map there shall be indorsed a consent to the making thereof, signed by the owner or owners, or his or their attorney in fact, power of attorney therefor having been previously recorded in the office of the recorder of the county in which the subdivision shown on said map is located and also by all other persons, or their attorneys in fact as aforesaid, whose consent is necessary to pass a clear title to such land and acknowledged by all the signers in the same manner as conveyances of real property, except as hereinafter provided. A lien for taxes, state, municipal, county or local and for special assessments shall not be deemed an interest in land for the purpose of this section. Any municipal corporation, county, district, or agency of the state owning an interest in such subdivision, less than a fee and other than a lien for taxes or special assessments, may join in such consent upon such terms as its governing body may determine to be just without regard to other provisions of law regulating public conveyances of real property. Any map covering territory originally patented by the United States or the State of California, under patent reserving interests to either or both of said entities may be recorded under provisions of this act without the consent of the said United States or the State of California thereto or to dedications made thereon.

Statements
of dedica-
tion

SEC. 21. Upon every such final map which shows any parcels of land intended to be dedicated thereby for any of the purposes authorized by this act, there shall be indorsed a statement of the dedication of such parcels of land for the purposes set forth in the body of the map or upon such detailed terms as the subdivider may provide thereon, by all persons whose consent is necessary to pass a clear title to such parcels and acknowledged by all persons executing the same in the same manner as conveyances of real property. Such map shall also contain an acceptance in express language duly executed by the proper officer, body, or individual and attested in the case of a public body and acknowledged in case of a person, association or private corporation, of the parcel or parcels so intended to be dedicated. Recovery on bonds or from securities

In the event that in lieu of any bond under the provisions of this act, a deposit of money or negotiable bonds has been made with the clerk of said board, the clerk shall, subject only to such rules as the board of supervisors may in their discretion provide, dispose of such securities, if any, and apply the proceeds thereof, and any money deposited with such officer to the payment of such taxes and special assessments in the same manner as above provided when a bond has been executed.

In the event the clerk of said board, as a result of this section, has funds in his possession and can not locate the owner thereof, he may deposit the same in the county treasury for the benefit of the depositors thereof.

SEC. 25. The map in such case shall contain a certificate by the clerk of the board of supervisors, if a bond or money or securities has been deposited, securing the payment of such taxes and special assessments collected as taxes. political subdivision adopting such ordinance to record a certified copy thereof in the office of the county recorder in the county in which the municipality or political subdivision is located.

SEC. 30. Such subdivision regulations may include the following matters, but in no case shall they be inconsistent with the provisions of this act:

Subdivision regulations, what they may include

(a) Nature, accuracy and completeness of survey and map for both tentative and final map, and survey including nature, number and location of monuments, and time of placing the same, and location of topographical contours and natural objects.

(b) Materials used in, form of, name, title, and designations appearing on tentative and final maps.

(c) Proof that the parties consenting to the filing of the map and making dedications to public use thereon are all of the parties necessary to give a clear title thereto. Such proof may consist of abstract of title by a competent abstractor, title search and guarantee or other evidence as shall be provided in such regulations.

(d) Requirement that the subdivider improve or agree to improve land dedicated for streets, highways and public ways. Such required improvement may include street surfacing, sidewalks, curbs, culverts, bridges, drains, domestic water supply and other structures necessary to the use of such streets, highways and public ways, or the proper drainage thereof. In the event that an agreement for the improvement of streets, highways and public ways is entered into, such regulations may require that said contract be secured by a good and sufficient bond in an amount not in excess of the estimated cost of the improvement and by its terms made to inure to the city, city and county, or county within which said subdivision or any part thereof is situate and conditioned for the faithful performance of said contract and said contract must be secured by a good and sufficient bond in such amount as may be required by law on such bonds or other public contracts and by its terms made to inure to the benefit of laborers and material men upon such work and improvements conditioned upon the payment of such laborers and material men for labor or material performed or rendered under the terms of said contract. Judgment shall be had on any faithful performance bond required pursuant to this act in favor of the city, or county without proof of loss by such body; *provided, however*, that said subdivision regulations may provide that any subdivider at his option in lieu of the contract to construct improvements and the bonds herein provided for may enter into a contract with the city or county secured by a faithful performance bond in a sum not to exceed the estimated cost of said improvements by which he agrees within such time as may be provided in said contract to initiate, and, so far as may be in his power, to consummate proceedings under an appropriate special assessment act for the formation

of a special assessment district covering such subdivision or part thereof for the financing and construction of the designated improvements upon the streets, highways and ways dedicated by such map. Judgment on any bond accompanying such contract may be had by the city or county without proof of loss and the proceeds of such bond or judgment shall be applied in the same manner and for the same objects as herein provided for the bonds securing other contracts for improvements.

(e) Minimum lot dimensions and areas.

(f) Front line set-backs and utility easements as a condition for waiving street width requirements or provisions for alleys.

(g) Street, sidewalk, and block widths; locations and block lengths; radius of street curves and of connecting return curves; street grades; location and widths of alleys and ways; *provided*, that such regulations may authorize different requirements for differing topographical, business, traffic and population requirements; *and provided, further*, that when any planning commission has been established in any city, city and county, or county, or portions thereof, in accordance with the provisions of the law, the governing body thereof may accept on recommendation of the planning commission, any street or highway twenty feet in width or over, when such street or highway in its opinion, or pursuant to any subdivision regulations adopted hereto is proper and adequate under the circumstances.

(h) Schedule of fees and charges for filing, checking, investigation, surveying, and other matters required by this act, said subdivision regulations and incidental thereto, except as otherwise provided by law.

(i) Said regulations may require that the street layout of any subdivision shall conform as far as is practicable, to any major street plan or other plans of the city, city and county or county.

(j) Said regulations may require the dedication of streets, highways and public ways when such dedication may be deemed necessary for the public use.

(k) Nothing contained herein shall prevent the governing body from requiring by its subdivision regulations that the tentative map shall be submitted to the city engineer, or county surveyor, in addition to the city planning commission; *provided*, that the total time elapsing between the submission of said map and its return to the planning commission of the county shall not exceed fifteen days.

Said regulations shall not require the dedication of any land for any purposes, public or private, other than those above enumerated; said regulations shall not require any type of deed restriction or of use of such subdivision or any part thereof for any purpose other than those above enumerated.

An owner or his agent filing a subdivision plat may indicate thereon that no dedication is intended of one or more of any

streets or ways shown thereon, in which case title will be deemed to be reserved in the owner and no dedication to public use shall be implied. No plat shall be denied approval merely because no dedication of the streets or ways shown thereon is made, and only such improvements shall be required as are reasonable under the circumstances; *provided, however*, that the provisions of this paragraph shall be subject to the right of the city, city and county, or county, to require the dedication of streets by local regulations as provided in subsection (j) of section 30 hereof.

SEC. 31. In the event that the subdivider fails to comply with the provisions of any contract for the construction of improvements upon such subdivision, or any part thereof, in accordance with the minimum requirements of any subdivision regulations adopted pursuant hereto, or under the optional provision contained herein, the city, or county in whose favor said bond runs, shall collect the principal amount thereof by judgment in a civil suit without proof of any loss to such body. Upon collection of such amount, the city, or county shall thereupon construct improvements of substantially the same character as required by the terms and provisions of said contract to the extent that the proceeds of said bond shall permit and in the construction of such improvements, said city, city and county, or county may perform the work by force account or by contract, subject only to such regulations and conditions as may be imposed by the governing body of said city, city and county, or county, and in spite of any provision of law requiring any mode or procedure other than that set up in said rules and regulations adopted pursuant hereto.

Suit upon
bonds

SEC. 32. The final map together with the tentative map and memorandum, if any, previously returned to the subdivider, shall be filed with the city engineer or county surveyor, or such other commission, body or officer as may be provided by said subdivision regulations, within one year after the return of the tentative map to the subdivider, unless said map shall have been abandoned or the time for action on same extended. The subdivision regulations may provide, however, that the governing body may, upon the recommendation of the planning commission, or in its absence, upon its own motion, accept maps at a subsequent date when public interest will not be injured.

Filing of
final map,
etc

SEC. 33. Such final map shall be checked by such officers, commission, or body as to sufficiency of affidavits, consents to the making thereof, certificates of dedication, acceptances of dedication, acknowledgments, correctness of surveying data, mathematical data and computations, and its compliance with the changes or alterations designated on the tentative map and such other matters as require checking to insure compliance with the provisions of this act; *provided*, that the acceptance of dedication by the body approving the map need not appear thereon until approved. No changes or alterations in said map shall be required other than those enumerated on

Approval and
recording
of final map

the tentative map and the memorandum attached thereto regardless of any intervening amendment to the subdivision regulations, except such as are necessary to comply with this act. If such matters are sufficient, the officer, commission or other body must certify its correctness thereon, and transmit it to the governing body of said city, or county within twenty days after filing of said final map as aforesaid, together with tax receipts, title search and such other papers as may be required in the subdivision regulations for the carrying out of the provisions of this act, or return the map to the subdivider together with a statement setting forth the grounds for its disapproval. It shall thereupon be the duty of said governing body to act upon said map at the first succeeding meeting thereof, following receipt of said map from the officer, commission or other body charged with the duty of checking such final maps. If said legislative body shall approve said map it shall thereupon transmit said map to the city engineer or county surveyor for transmittal to the county recorder's office for recordation.

When approval by more than one legislative body required

SEC. 34. In the event the subdivision map requires the approval of two or more governing bodies, the first governing body shall transmit the same to such other of the bodies as the subdivider shall designate but in no case shall any final map be returned to any subdivider after approval by one body, except for correction by a subsequent body in which case it shall not be approved by such body until returned to all prior bodies for check as to alterations and changes.

Acceptance of final map for recording

SEC. 35. No map referred to in this act shall be accepted by the county recorder for recording unless the same shall in all respects comply with the provisions of this act, and subdivision regulations adopted pursuant hereto. The recorder shall be entitled before accepting or refusing said map to sufficient time not exceeding ten days to enable him to examine the same; *provided*, that the approval in accordance with the provisions of this act by the governing body of any city, or county, of such final map automatically and finally determines the validity of such final map, so far as the property thereon shown is included, within such city, city and county, or county, under the terms and provisions of this act, and subdivision regulations adopted pursuant hereto.

What map to become public record

SEC. 36. When any map referred to in this act is presented to the county recorder and is received and accepted by him, he shall paste, or otherwise fasten, the same securely in a book of maps which he shall keep in his office, and said map shall be deemed to have been received and shall become a public record. He shall also keep a separate book of subdivision regulations and amendments thereto, properly indexed as to cities and counties, and said regulations when copied into said book shall be deemed to have been received, and shall become public records, and above shall constitute recordation; the year, month, the day of the month, and the hour when said map is received shall be engrossed on said map as specifying time of

SEC. 37. When any act required by the provisions hereof or of subdivision regulations adopted pursuant hereto shall require any certificate, affidavit or act by a person in his official capacity who is also a subdivider, agent or employee thereof, such certificates, affidavit or act shall be done and performed by some other person duly qualified by experience and professional attainment to perform the acts of such person, such person when not an official or deputy of the city, or county, to be designated by the governing body thereof, and the reasonable compensation of such person for such affidavit, certificate or act is hereby declared to be a legal charge against the treasury of such city or county.

SEC. 38. All maps filed for the purpose of showing as acreage land previously subdivided into numbered or lettered lots or parcels shall be filed with and checked by the city engineer or county surveyor or such other commission or body or officer as may be provided by subdivision regulations adopted pursuant to the provisions of this act and shall conform to the provisions of this act and subdivision regulations adopted pursuant hereto except that no survey nor certificate of any surveyor or engineer shall be required.

SEC. 39. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this act. The Legislature hereby declares that it would have passed each provision of this act irrespective of the fact that one or more sections, subsections, sentences, clauses or phrases, or provisions hereof, be declared unconstitutional.

SEC. 40. An act entitled "An act requiring the recording of maps of subdivisions or lands into lots for the purpose of sale, and prescribing the conditions on which such maps may be recorded and prohibiting the selling or offering for sale of land by reference to said maps unless the same are recorded," approved March 15, 1907, and all other acts and parts of acts in conflict with this act are hereby repealed.

Of the members of the commission first appointed, two shall be appointed for the term of one (1) year, two for the term of two (2) years, one for the term of three (3) years, and one for the term of four (4) years, from and after their appointment respectively. Their successors shall be appointed for terms of four (4) years. If a vacancy shall occur otherwise than by expiration of term, it shall be filled by appointment for the unexpired portion of the term. The terms of ex officio members shall correspond to their respective official tenures. In any city, city and county, or county in which there is a planning commission created in accordance with law or charter provisions, the ordinance establishing said commission under this act, instead of providing for the appointment of a new planning commission, may provide that the existing commission shall continue, the mem-

bers thereof to complete the terms for which they were appointed and thereafter to be appointed in accordance with the provisions of this act, with the powers and duties provided in this act, in addition to the powers and duties they may already possess. Members of any planning commission appointed pursuant to the provisions of the planning act prior to the going into effect of this act shall continue in office until the completion of their respective terms, unless removed for cause as hereinafter provided; *provided*, that the terms of such members named for five years or for six years shall cease respectively four years after the date of the appointment of each such member and their successors shall be appointed for the term of four years. Any appointee member of the planning commission may be removed by the appointing official, at his pleasure, with the concurrence of the legislative body. All members of the commission shall serve as such without compensation, except reasonable traveling expenses to and from their usual place of business to the place of meeting of said commission. When duly authorized by the commission, its members, including ex officio members, or members of its staff, may attend city planning conferences, or meetings of city planning executives, hearings upon city planning legislation or matters affecting the master plan or any part thereof when held within the state, and the reasonable traveling expenses incidental to such attendances shall be charges upon the funds allocated to such commission.

SEC. 3. The commission shall elect its chairman from among the appointed members for a term of one year and, subject to other provisions of law, may create and fill such other offices as it may determine. The commission shall hold at least one regular meeting in each month. It shall adopt rules for transaction of business and shall keep a record of its resolutions, transactions, findings and determinations, which record shall be a public record. The commission may appoint such officers and employees as it may deem necessary for its work, whose appointment, promotion, demotion and removal shall be subject to the same provisions of law as govern other corresponding civil employees. The commission may also contract with architects, city planners, engineers, and other consultants for such services as it may require. The expenditures of the commission, exclusive of gifts shall be within the amounts appropriated for that purpose by the legislative body which shall provide the funds, equipment, and accommodations necessary for the commission's work. Each city, county and city and county which has established a planning commission, may, in making its annual tax levy and as a part thereof, levy and collect a tax, not to exceed in any fiscal year the sum of two mills on the dollar of assessed valuation for the purpose of defraying the lawful expenses incurred by the planning commission in carrying out the purposes of this act, and may make appropriations from other funds therefor.

In the event that no address appears on the current county assessment roll for the owner of any such parcel of property, the post-card notice shall be addressed to general delivery. As to any parcels of property which may be assessed to unknown owners, no post-card notice need be mailed. The commission shall further cause notice of the hearing to be posted along the line of any street upon which it is proposed to establish such future street lines, at intervals of not less than five hundred feet, at least fifteen (15) days before the first of said hearings. The planning commission, after such public hearings, may recommend to the legislative body the adoption of such precised street plan and the adoption of the future street lines shown thereon, by resolution carried by the affirmative vote of not less than two-thirds of its entire membership, and shall thereupon certify the map and resolution to the legislative body. The legislative body, upon receipt of any such precised street map as recommended for adoption by the planning commission may, by ordinance, adopt the same and establish the future street lines shown thereon. In the event that said city, city and county, or county shall fail within three months after filing of the claim as aforesaid to acquire a limited easement over said property for the life of the said precised street plan, or to begin condemnation proceedings for the acquisition thereof, or to vacate by ordinance the precised street plans so far as it applies to claimant's property, then said precised street plans shall automatically be declared, so far as claimant's property is concerned to be vacated and he shall hold the same free from any claim under the provisions of this act for the control of said property. Said owner or claimant of an interest therein shall be entitled, upon demand, to a certificate from the clerk of the governing body of the city, city and county, or county, that said city, city and county, or county has failed to acquire such limited easement or begin condemnation proceedings as required by this section for the acquisition thereof, and said certificate duly filed in the office of the county recorder shall constitute conclusive evidence of the removal of any cloud on his title by virtue of the adoption of said precised street plan.

The governing body may at any time within three months after the filing of such affidavit purchase or commence eminent domain proceedings for the acquisition of a street easement across said property in accordance with the provisions of said precised street plan. The cost of acquisition of said street easement may be made a part of the preliminary expenses of any acquisition of the entire street as shown on said precised street plan by a subsequent special assessment proceeding and in said case out of the funds obtained from the special assessment proceedings, if provided by the resolution of intention therein, there shall be returned to the revolving fund established by section 14b of this act, the cost of acquisition of the street easement over said particular parcel.

Failure to commence proceedings within three months

No damage shall hereafter be awarded in any eminent domain proceedings for the taking of or damage to any structure located within the right of way shown upon such precised street plan by reason of the carrying out of the proposed public improvement shown upon such a precised street plan where the owner of any parcel contained therein has failed to file the affidavit or failed to wait thereafter the prescribed time, or in excess of the amount of damage which would have been awarded had the structure built been fairly included within that set forth in the description contained in the affidavit filed by such person; *provided, however,* that nothing contained herein shall be construed to prevent an owner from filing subsequent and different affidavits and offers when his plan for the proposed structure are changed, said additional affidavits and offers to be subject to all provisions of this section.

In the case of a single-county district, such petition shall be signed by qualified electors residing within said district and the number of signatures shall be at least as many as five per cent of the number of voters registered within said district for the last preceding general election. In the case of a multi-county district, a separate petition shall be made to the board of supervisors of each county, any portion of the territory of which is included in said district, and the petition to any board of supervisors shall be signed by qualified electors residing within the portion of said district embraced in the county governed by said board of supervisors, and the number of signatures to such petition

At such time the board of supervisors shall hear the petition and may modify the boundaries of the proposed district as set forth in said petition to exclude therefrom any voting precinct, the lands in which, in their judgment, would not be benefited by the formation of such district.

Examination of petitions

Hearings

The board of supervisors shall, upon determining that the certificates and statements submitted to it are to the effect that such petition complies in all respects to the provisions of this act, thereupon call a special election for the submission of the matter proposed in said petition to the electors residing within the proposed district, and for the election of members of a regional planning commission. The three candidates receiving the highest number of votes shall be the long-term members of the commission, and the remaining candidates shall be the short-term members of the commission. The short-term members shall serve until the first day of January next following the first general biennial election occurring after the special election creating the district. SEC. 6. Section 5 of said improvement bond act of 1915 is hereby amended to read as follows:

SEC. 5. After confirmation of the assessment by the city council and after the return of the warrant attached thereto and after the filing of the statement of payments received upon the assessment by the contractor as provided in said street work act, or after thirty days from the date of the first publication of the notice of recording the assessment, if

proceedings are had under the street opening act of 1903, the street superintendent shall make and file with the clerk of the city council a complete list of all assessments unpaid, upon any assessment. Said clerk shall then give notice of the filing of said list and of a time, to be therein fixed by said clerk, when interested persons may appear before the city council and show cause why bonds should not be issued upon the security of the unpaid assessments shown on said list. Such notice shall be posted for not less than five days on or near the council chamber door and be published twice in a newspaper published in such city, if there be any, the first of which publications shall be not less than five days before the time fixed for such hearing. If no newspaper be published in said city then in addition to the notice by posting hereinbefore provided for, said notice shall also be posted in two other public places in said city, as provided in section 19 hereof. Such notice shall also be given by mailing same to the owner of each lot listed according to the name and address appearing on the last equalized assessment roll for city taxes prior thereto, or as known to the clerk; *provided*, that a failure of the clerk to give such notice by mailing or of the person addressed to receive same shall not affect the jurisdiction of the council to proceed with the hearing noticed. Reference may therein be made to the resolution of intention and the date of its passage for a description of the work therein mentioned and for other particulars therein set forth, and no other description thereof need be necessary. At the hearing upon such notice any owner of property affected by the assessment, the contractor, or his assigns, and any other person or persons interested in the matter, may appear and set forth any objections which they have to offer, or any reason which they may have why bonds should not be issued upon the security of the assessments which may be unpaid. They may show any act or determination done or made in the proceeding whereby they are aggrieved and any act or thing done in the proceeding which may be irregular, defective, erroneous or faulty, and may set forth what assessments are unpaid and what assessments have been paid. If they claim that the council does not have jurisdiction in the premises, they shall set forth the grounds upon which their contention is made. The council shall at the date so fixed hear any such objections or matters so presented, whether in writing or orally, and shall pass upon the same. It may continue the hearing from time to time. Evidence may be adduced going to any of the matters to be determined and in such order as the council may direct. If the council does not so meet at the day fixed in said notice it may hear the matter at its first adjourned or regular meeting to be held thereafter. Upon the conclusion of such hearing the council may remedy and correct any error or informality in the proceedings and revise and correct any of the acts or determinations previously had relative to said work, and it may thereupon determine the

assessments which are unpaid and the aggregate amount of same. All the decisions and determinations of said city council, upon notice and hearing as aforesaid, shall be final and conclusive upon all persons entitled to appear at such hearing. Thereupon the city council shall then prescribe the denominations of such bonds, which shall be in convenient amounts, not necessarily equal, and shall provide for the issuance of same in annual installments or series. Said bonds shall be forthwith delivered to said contractor in satisfaction of the balance due him upon his assessment and warrant, or, if the proceedings are had under the street opening act of 1903, said bonds shall be sold to the highest cash bidder after advertising for bids, which advertisement shall be published for at least three times in a daily newspaper published and circulated in said city, or if there is no such newspaper, then such advertisement shall be published once in a weekly or semiweekly newspaper so published and circulated; *provided, however,* that said bonds shall not be sold for less than par.

Invalid assessments If the council for any reason shall determine any such assessment to be void or unenforceable at such hearing for any cause, then in such event the council shall order a reassessment to be issued as provided in subdivision (b) of section 11 hereof, and thereafter such proceedings shall be taken as provided in said last mentioned subdivision. The estimated cost of the publications herein provided for and of the printing of such bonds shall be deemed to be an incidental expense of the work and be allowed by and included in the assessment issued to the contractor. In the event bonds can not be issued upon the security of any particular unpaid assessments by reason of any restraining order, injunction or other cause not applicable to other unpaid assessments, then the issuance of bonds upon the security of the assessments not affected by such restraining order, injunction or other cause, shall not be delayed, but such bonds may be issued in advance of the issuance of the bonds so affected.

New section **SEC. 7.** A new section to be known as section 5a is hereby added to said "Improvement bond act of 1915" to read as follows:

politic or corporate beneficially interested in such property shall come into the actual possession or enjoyment thereof, and in that case such person or persons or body politic or corporate or trustees shall execute a bond to the people of the State of California in a penalty of the amount of said tax plus interest thereon for five years at the rate of seven per cent per annum with such sureties as the said superior court may approve, conditioned for the payment of said tax and interest thereon at the rate of seven per cent per annum commencing at the expiration of eighteen months from the death of the decedent at such time or period as they or their representatives may come into the actual possession or enjoyment of such property, and conditioned further, that if said bond be not renewed and the returns made as herein provided, the amount of said tax and interest thereon shall immediately become due and payable. Said bond shall be filed in the office of the county clerk of the proper county and a certified copy thereof shall be immediately transmitted to the state controller; *provided, further*, that such person or persons or body politic or corporate, or trustees, shall enter into such security within a period of ninety days after the entry of the order or decree fixing the inheritance tax charged against such transfer, or within such period thereafter as the court may in its discretion permit, and shall make a full and verified return of such property to said court and file the same in the office of the county clerk within one year from the date of such order or decree fixing tax, and at such times thereafter as the court on the application of the state controller may require, and renew such security every five years after the date of the approval thereof. Upon the approval of said bond as herein provided, said tax shall cease to be a lien upon the property so transferred. If such security shall not be renewed before the expiration of each five year period, said bond shall immediately become due and payable and if the same be not paid forthwith, the attorney general shall file an action in the name of the people of the state on the relation of the controller, to recover the same and the penalties thereunder and no demand for payment shall be necessary before the institution of such suit. Whenever it shall be made to appear to the satisfaction of the court that any surety on such bond or undertaking has for any reason become insufficient, the court may on motion of the state controller, after such notice to such person or persons, body politic or corporate, or trustees as the court may require, order the giving of a new undertaking with sufficient sureties in lieu of such insufficient undertaking. In case such new undertaking so required shall not be given within the time required by such order, or in case the sureties thereon fail to justify thereon when required, all rights obtained by the filing of such original undertaking, or subsequent undertaking, shall cease and the amount of said tax and interest thereon shall immediately become due and payable.

(4) Estates in expectancy which are contingent or defeasible and in which proceedings for the determination of the tax have not been taken or where the taxation thereof has been held in abeyance, shall be appraised at their full, undiminished value when the persons entitled thereto shall come into the beneficial enjoyment or possession thereof, without diminution for or on account of any valuation theretofore made of the particular estates for purposes of taxation, upon which said estates in expectancy may have been limited.

(6) The value of every future, or contingent or limited estate, income or interest, shall, for the purposes of this act be determined by the rule, methods and standards of mortality and of value that are set forth in the actuaries' combined experience tables of mortality for ascertaining the value of policies of life insurance and annuities and for the determination of the liabilities of life insurance companies, save that the rate of interest to be assessed in computing the present value of all future interest and contingencies shall be five (5) per cent per annum. The insurance commissioner shall without a fee on the application of any superior court or of any inheritance tax appraiser determine the value of any future or contingent estate, income or interest therein limited, contingent, dependent or determinable upon the life or lives of persons in being, upon the facts contained in any such appraiser's application or other facts to him submitted by said appraiser or said court and certify the same in duplicate to such court or appraiser, and his certificate thereof shall be conclusive evidence that the method of computation therein is correct. When an annuity or a life estate is terminated by the death of the annuitant or life tenant, and the tax upon such interest has not been fixed and determined, the value of said interest for the purpose of taxation under this act shall be the amount of the annuity or income actually paid or payable to the annuitant or life tenant during the period for which such annuitant or life tenant was entitled to the annuity or was in possession of the life estate.

Future, contingent or limited estates

(7) Notwithstanding any provisions hereof whereby final determination of taxability of the transfer of property or interests therein or income therefrom, is or may be deferred until the happening of certain contingencies or conditions, the state controller may compromise, adjust and settle with the administrator, executor or trustee having charge of the estate or property in question, the taxability of the transfer of such property and of each and every interest therein, including the income therefrom, whether such interests be absolute or qualified, perpetual or limited, present or future, vested or contingent, or otherwise.

(2) When a person has been thus represented to be a partner in an existing partnership, or with one or more persons not actual partners, he is an agent of the persons consenting to such representation to bind them to the same extent and in the same manner as though he were a partner in fact, with respect to persons who rely upon the representation. Where all the members of the existing partnership consent to the representation, a partnership act or obligation results; but in all other cases it is the joint act or obligation of the person acting and the persons consenting to the representation.

2411. A person admitted as a partner into an existing partnership is liable for all the obligations of the partnership arising before his admission as though he had been a partner when such obligations were incurred, except that this liability shall be satisfied only out of partnership property.

(a) Each partner shall be repaid his contributions, whether by way of capital or advances to the partnership property and share equally in the profits and surplus remaining after all liabilities, including those to partners, are satisfied; and must contribute towards the losses, whether of capital or otherwise, sustained by the partnership according to his share in the profits.

(b) The partnership must indemnify every partner in respect to payments made and personal liabilities reasonably incurred by him in the ordinary and proper conduct of its business, or for the preservation of its business or property.

(c) A partner, who in aid of the partnership makes any payment or advance beyond the amount of the capital which he agreed to contribute, shall be paid interest from the date of the payment or advance.

(d) A partner shall receive interest on the capital contributed by him only from the date when repayment should be made.

(e) All partners have equal rights in the management and conduct of the partnership business.

(f) No partner is entitled to remuneration for acting in the partnership business, except that a surviving partner is entitled to reasonable compensation for his services in winding up the partnership affairs.

(g) No person can become a member of a partnership without the consent of all the partners.

(h) Any difference arising as to ordinary matters connected with the partnership business may be decided by a majority of the partners; but no act in contravention of any agreement between the partners may be done rightfully without the consent of all the partners.

Partnership books

2413. The partnership books shall be kept, subject to any agreement between the partners, at the principal place of business of the partnership, and every partner shall at all times have access to and may inspect and copy any of them.

Duty of partners to render information.

2414. Partners shall render on demand true and full information of all things affecting the partnership to any partner or the legal representative of any deceased partner or partner under legal disability.

Partner accountable as a fiduciary

2417. (1) When a partnership for a fixed term or particular undertaking is continued after the termination of such term or particular undertaking without any express agreement, the rights and duties of the partners remain the same as they were at such termination, so far as is consistent with a partnership at will. Continuation of partnership beyond fixed term

(2) A continuation of the business by the partners or such of them as habitually acted therein during the term, without any settlement or liquidation of the partnership affairs, is prima facie evidence of a continuation of the partnership.

PROPERTY RIGHTS OF A PARTNER.

Section 2418. Extent of property rights of a partner.

Section 2419. Nature of a partner's right in specific partnership property.

Section 2420. Nature of partner's interest in the partnership.

Section 2421. Assignment of partner's interest.

(2) The incidents of this tenancy are such that:

(a) A partner, subject to the provisions of this chapter and to any agreement between the partners, has an equal right with his partners to possess specific partnership property for partnership purposes; but he has no right to possess such property for any other purpose without the consent of his partners.

(b) A partner's right in specific partnership property is not assignable except in connection with the assignment of the rights of all the partners in the same property.

(c) A partner's right in specific partnership property is not subject to attachment, or execution, except on a claim against the partnership. When partnership property is attached for a partnership debt the partners, or any of them, or the representatives of a deceased partner, can not claim any right under the homestead or exemption laws.

(d) On the death of a partner his right in specific partnership property vests in the surviving partner or partners,

except where the deceased was the last surviving partner, when his right in such property vests in his legal representative. Such surviving partner or partners, or the legal representative of the last surviving partner, has no right to possess the partnership property for any but a partnership purpose.

(e) A partner's right in specific partnership property is not subject to dower, curtesy, or allowances to widows, heirs, or next of kin, and is not community property.

Nature of a partner's interest in the partnership
Assignment of partner's interest

2420. A partner's interest in the partnership is his share of the profits and surplus, and the same is personal property.

2421. (1) A conveyance by a partner of his interest in the partnership does not of itself dissolve the partnership, nor, as against the other partners in the absence of agreement, entitle the assignee, during the continuance of the partnership, to interfere in the management or administration of the partnership business or affairs, or to require any information or account of partnership transactions, or to inspect the partnership books; but it merely entitles the assignee to receive in accordance with his contract the profits to which the assigning partner would otherwise be entitled.

(2) In case of a dissolution of the partnership, the assignee is entitled to receive his assignor's interest and may require an account from the date only of the last account agreed to by all the partners.

Partner's interest subject to charging order

2422. (1) On due application to a competent court by any judgment creditor of a partner, the court which entered the judgment, order, or decree, or any other court, may charge the interest of the debtor partner with payment of the unsatisfied amount of such judgment debt with interest thereon; and may then or later appoint a receiver of his share of the profits, and of any other money due or to fall due to him in respect of the partnership, and make all other orders, directions, accounts, and inquiries which the debtor partner might have made, or which the circumstances of the case may require.

(2) The interest charged may be redeemed at any time before foreclosure, or in case of a sale being directed by the court may be purchased without thereby causing a dissolution:

(a) With separate property, by any one or more of the partners, or

(b) With partnership property, by any one or more of the partners with the consent of all the partners whose interests are not so charged or sold.

(3) Nothing in this chapter shall be held to deprive a partner of his right, if any, under the exemption laws, as regards his interest in the partnership.

(9) Nothing in this section shall be held to modify any right of creditors to set aside any assignment on the ground of fraud.

(10) The use by the person or partnership continuing the business of the partnership name, or the name of a deceased partner as part thereof, shall not of itself make the individual property of the deceased partner liable for any debts contracted by such person or partnership.

2436. When any partner retires or dies, and the business is continued under any of the conditions set forth in section 2435 (1, 2, 3, 5, 6), or section 2432 (2b) without any settlement of accounts as between him or his estate and the person or partnership continuing the business, unless otherwise agreed, he or his legal representative as against such persons or partnership may have the value of his interest at the date of dissolution ascertained, and shall receive as an ordinary creditor an amount equal to the value of his interest in the dissolved partnership with interest, or, at his option or at the option of his legal representative, in lieu of interest, the profits attributable to the use of his right in the property of the dissolved partnership; *provided*, that the creditors of the dissolved partnership as against the separate creditors, or the representative of the retired or deceased partner, shall have priority on any claim arising under this section, as provided by section 2435 (8) of this code.

(2) A limited partner shall have the right to receive a share of the profits or other compensation by way of income, and to the return of his contribution as provided in sections 2491 and 2492.

2487. A person who has contributed to the capital of a business conducted by a person or partnership erroneously believing that he has become a limited partner in a limited partnership, is not, by reason of his exercise of the rights of a limited partner, a general partner with the person or in the partnership carrying on the business, or bound by the obligations of such person or partnership; *provided*, that on ascertaining the mistake he promptly renounces his interest in the profits of the business or other compensation by way of income.

2489. (1) A limited partner also may loan money to and transact other business with the partnership, and, unless he is also a general partner, receive on account of resulting claims against the partnership, with general creditors, a pro rata share of the assets. No limited partner shall in respect to any such claim

(a) Receive or hold as collateral security any partnership property, or

(b) Receive from a general partner of the partnership any payment, conveyance, or release from liability, if at the time the assets of the partnership are not sufficient to discharge partnership liabilities to persons not claiming as general or limited partners.

(4) When a contributor has rightfully received the return in whole or in part of the capital of his contribution, he is nevertheless liable to the partnership for any sum, not in excess of such return with interest, necessary to discharge its liabilities to all creditors who extended credit or whose claims arose before such return.

Mechanics
have lien
upon prop-
erty on
which they
have la-
bored, etc

SECTION 1. Section 1183 of the Code of Civil Procedure is hereby amended to read as follows:

1183. Mechanics, materialmen, contractors, subcontractors, artisans, architects, machinists, builders, miners, teamsters and draymen, and all persons and laborers of every class performing labor upon or bestowing skill or other necessary services, or furnishing materials to be used or consumed in or furnishing appliances, teams and power contributing to the construction, alteration, addition to or repair, either in whole or in part, of any building, wharf, bridge, ditch, flume, aqueduct, well, tunnel, fence, machinery, railroad, wagon road or other structure, or other work of improvement, or performing labor upon or bestowing skill or other necessary services, or furnishing materials to be used or consumed in or furnishing appliances, teams and power contributing to the grading, filling in, or other improvement of any lot or tract of land or the making of any improvement in connection therewith, including within the meaning of the said word "improvement" any seeding, sodding or planting of such lot or tract of land for landscaping purposes or the demolition of buildings thereon or the removal of buildings therefrom, made or done on such real property, shall have a lien upon the property upon which they have bestowed labor or furnished materials, for the value of such labor done and materials furnished and for the value of the use of such appliances, teams or power, whether at the instance of the owner, or of any other person acting by his authority or under him, as contractor or otherwise; and every contractor, subcontractor, architect, builder or other person having charge of the construction, alteration, addition to or repair either in whole or in part of any building or other improvement as aforesaid shall be held to be the agent of the owner for the purposes of this chapter.

Mining
claims

Any person who performs labor in any mining claim or claims, or in or upon any real property worked as a mine, either in the development thereof or in working thereon by the subtractive process or furnishes materials to be used or consumed therein, has a lien upon the same and the works owned and used by the owners for milling or reducing the ores from the same, for the value of the work or labor done or materials furnished by each respectively, whether done or furnished at the instance of the owner of such mining claim or claims or real property worked as a mine, or his agent, and every contractor, subcontractor, superintendent or other person having charge of any mining or work or labor per-

formed in and about such mining claim or claims or real property worked as a mine, either as lessee or under a working bond or contract thereon shall be held to be the agent of the owner for the purposes of this chapter.

The liens in this chapter provided for shall be direct liens, and shall not in the case of any claimants, other than the contractor be limited, as to amount, by any contract price agreed upon between the contractor and the owner except as hereinafter provided; but said several liens shall not in any case exceed in amount the reasonable value of the labor done or material furnished, or both, for which the lien is claimed, nor the price agreed upon for the same between the claimant and the person by whom he was employed, nor in any case, where the claimant was employed by a contractor, or subcontractor shall the lien extend to any labor or materials not embraced within or covered by the original contract between the contractor and the owner, or any modification thereof made by or with the consent of such owner, and of which such contract, or modification thereof the claimant shall have had actual notice before the performance of such labor or the furnishing of such materials. The filing of such original contract, or modification thereof, in the office of the county recorder of the county where the property is situated, before the commencement of the work, shall be equivalent to the giving of such actual notice by the owner to all persons performing work or furnishing materials thereunder. In case said original contract shall, before the work is commenced, be so filed, together with a bond of the contractor with good and sufficient sureties in an amount not less than fifty (50) per cent of the contract price named in said contract, which bond shall in addition to any conditions for the performance of the contract, be also conditioned for the payment in full of the claims of all persons performing labor upon or furnishing materials to be used in, or furnishing appliances, teams or power contributing to, such work, and shall also by its terms be made to inure to the benefit of any and all persons who perform labor upon or furnish materials to be used in or furnish appliances, teams or power contributing to, the work described in said contract so as to give such persons a right of action to recover upon said bond in any suit brought to foreclose the liens provided for in this chapter or in a separate suit brought on said bond, then the court must, where it would be equitable so to do, restrict the recovery under such liens to an aggregate amount equal to the amount found to be due from the owner to the contractor, and render judgment against the contractor and his sureties on said bond for any deficiency or difference there may remain between said amount so found to be due to the contractor and the whole amount found to be due to claimants for such labor or materials or both. No change or alteration of the work or modification of any such contract between the owner and his contractor, nor rescision or attempted rescision thereof, or of

said bond, nor conditions precedent nor conditions subsequent, contained therein, attempting to limit the right of recovery under said contract or under the bond given for the benefit of laborers and materialmen under the foregoing provision nor any fraud practiced by any person other than such laborer, materialman or other person seeking to recover thereon nor any change in any agreement pertaining to the furnishing of labor or materials, nor the terms or time of payment thereof, shall release or exonerate any surety or sureties upon any bond given under this section. All bonds given pursuant to the provisions of this chapter will be construed most strongly against the surety and in favor of all persons for whose benefit such a bond is given, and under no circumstances shall a surety be in any wise released from liability to the said laborers or materialmen or persons furnishing appliances, teams or power, for whose benefit said bond has been written, by reason of any breach of contract between owner and contractor or on the part of any obligee named in said bond, but the sole condition of recovery on the part of such person furnishing labor or material or appliances, teams or power as aforesaid, shall be that said labor or materials has been used or consumed in or said appliances, teams or power have contributed to the work of improvement to which said bond refers, and that the said third person for whose benefit said bond has so been made to inure has not been actually paid some part or all of the sums due him for the same.

Provisions
limiting
actions

No provision in any of the bonds given pursuant to any of the provisions of this chapter attempting by contract to shorten the period prescribed for the commencement of an action thereon as laid down in section 337 of this code, shall be valid if such provision attempts to limit the time for commencement of action thereon to a shorter period than six months from the completion of said structure or work of improvement, as "completior" is defined in section 1187 of this code, nor shall any provision in any of said bonds attempting to limit the period for the commencement of actions thereon be valid in so far as actions brought by persons furnishing labor or materials, appliances or teams or power as aforesaid, are concerned, unless said bond be filed for record, with the contract to which it refers, before the work of improvement is commenced, with the county recorder of the county or city and county in which the property referred to therein, or some part thereof, is situated.

Filing of
bond

In case the surety or sureties on any bond given as in this chapter provided shall have caused said bond to be filed and recorded in the office of the county recorder of the county in which the property is situated, before the work of improvement is completed, then no action may be maintained thereon unless there shall previously have either been filed a mechanic's lien claim as in this chapter provided or unless written notice shall previously have been given to the surety on said bond before the expiration of the time prescribed in this chapter for

filing a lien to enforce such claim, which notice shall state that the person giving such notice has performed labor or furnished materials, or both, or furnished appliances, teams or power, to the contractor or other person acting by the authority of the owner, or that they have agreed to do so, stating in general terms the kind of labor, materials, appliances, teams or power and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, and of the whole agreed to be done or furnished, or both. The filing of an action to foreclose such lien shall not be a condition precedent to a recovery on said bond. If said bond has been so filed as herein last provided then any suit brought against such surety or sureties shall be filed within six months after completion of said structure or work of improvement, as "completion" is defined in section 1187 of this code. The written notice to be given to the surety or sureties hereinabove provided for may be given by delivery thereof personally to, or by depositing same in the mail, postage prepaid, and registered, addressed,

Notice to
sureties

(1) If to an individual surety, at his residence or place of business, if known, or

(2) If to an individual surety and his residence is unknown, then in care of the county clerk of the county in which said bond has been so filed, or

(3) At the place designated as the residence of the surety in the certificate, if any, filed by such surety or sureties as provided by section 1163 of the Civil Code, or

(4) If to a corporate surety, at the office or care of the agent designated by the surety in the bond as the address to which such notice shall be sent, or

(5) At the office or care of any officer of the surety in the State of California, or

(6) At the office of or care of the statutory agent of the surety in the State of California, or

(7) By service in the manner prescribed for the service of summons as provided by section 411 of the Code of Civil Procedure.

It is the intent and purpose of this section to limit the owner's liability, in all cases, to the measure of the contract price where he shall have filed or caused to be filed in good faith with his original contract a valid bond with good and sufficient sureties in the amount and upon the conditions as herein provided. It shall be lawful for the owner to protect himself against any failure of the contractor to perform his contract and make full payment for all work done and materials furnished thereunder by exacting such bond or other security as he may deem necessary.

with
recorder.

The owner shall within ten days after the completion of any contract or work of improvement provided for in this chapter, or within ten days after there has been a cessation from labor thereon for a period of thirty days, file for record in the office of the county recorder of the county where the property is situated a notice setting forth the date when the same was completed, or on which cessation from labor occurred, together with his name, address and the nature of his title, and a description of the property sufficient for identification, together with the name of the contractor, if any, which notice shall be verified by himself or some other person on his behalf. The fee for recording the same shall be one dollar. In case such notice be not so filed, then all persons claiming the benefit of this chapter, shall have ninety days after the completion of said work of improvement within which to file their claims

of lien. The phrase "work of improvement" and the word "improvement" as used in this chapter are each hereby defined to mean the entire structure or scheme of improvement as a whole.

SEC. 2. Section 1188 of the Code of Civil Procedure is hereby amended to read as follows:

1188. In every case in which one claim is filed against two or more buildings, mining claims, or other improvements owned or reputed to be owned by the same person or on which the lien claimant has been employed by the same person to do his work or furnish his materials, whether said parcels are owned by one or more owners, the person filing such claim must at the same time, designate the amount due to him on each of such buildings, mining claims, or other improvements; otherwise the lien of such claim is postponed to other liens. In the event such lien claimant has been employed to furnish labor or materials under a contract providing for a lump sum to be paid to him for his work or materials on said buildings, mining claims or other improvements as a whole, and such contract does not segregate the amount due for the work done and materials furnished on such buildings, mining claims, or other improvements separately, then such lien claimant for the purposes of this section, may estimate an equitable distribution of the sum due him over all of said buildings, mining claims or other improvements based upon the proportionate amount of work done or materials furnished upon said respective buildings, mining claims or other improvements. The lien of such claimant does not extend beyond the amount designated, as against other creditors having liens, by judgment, mortgage, or otherwise, upon either of such buildings or other improvements, or upon the land upon which the same are situated; *provided, however*, that, for all purposes of this section, if there is a single structure on more than one parcel of land owned by one or more different owners, it shall not be the duty of the lien claimant to segregate the proportion of material or labor entering into the structure on any one of said parcels; but upon the trial thereof the court may, where it deems it equitable so to do, distribute the lien equitably as between the several parcels involved; *provided, further*, that all persons interested as owners of, encumbrancers on, contractors, subcontractors, or entitled to liens on any of said parcels, may be joined in one action to foreclose the liens hereinabove referred to.

CHAPTER 872.

An act to amend section 1168 of the Penal Code, relating to terms of imprisonment, credits to prisoners for good behavior and parole of prisoners; and to repeal sections 18, 18a and 1588, of the Penal Code, relating to terms of imprisonment.

[Approved by the Governor June 13, 1929. In effect August 14, 1929.]

The people of the State of California do enact as follows:

Stats 1927,
p 1491,
amended
Term of im-
prisonment
not fixed

SECTION 1. Section 1168 of the Penal Code is hereby amended to read as follows:

1168. (1) Imprisonment. Every person convicted of a public offense, for which imprisonment in any reformatory or state prison is now prescribed by law shall, unless such convicted person be placed on probation, a new trial granted, or the imposing of sentence suspended, be sentenced to be imprisoned in a state prison, but the court in imposing the sentence shall not fix the term or duration of the period of imprisonment.

It is hereby made the duty of the warden of any of the state prisons to receive such person, who shall be imprisoned until duly released as provided for in this section. The term of imprisonment shall not exceed the maximum or be less than the minimum term of imprisonment provided by law for the public offense of which such person was convicted. Term limits

It shall be the duty of the judge before whom the convicted person was tried, and of the district attorney conducting the prosecution, to obtain, and, with the commitment, furnish to the state board of prison directors, in writing, all information that can be given in regard to the career, habits, degree of education, age, nativity, nationality, parentage, and previous occupation of such convicted person, together with a statement to the best of their knowledge, as to whether such person was industrious or not, of good character or not, the nature of his associates and his disposition. Information regarding convicts

The state board of prison directors shall determine after the expiration of the minimum term of imprisonment provided by law, except that in cases in which the minimum term of imprisonment is more than one year, the state board of prison directors may determine after the expiration of one year from and after the actual commencement of such imprisonment, what length of time, if any, such person shall be imprisoned, unless the sentence be sooner terminated by commutation or pardon by the governor of the state. The term of imprisonment so fixed by the state board of prison directors, shall not thereafter be increased or diminished by said board for any reason whatsoever except as in this section provided. In all cases there may be allowed to apply upon the term of imprisonment fixed such credits for meritorious conduct and diligent labor as are or may be authorized by law. Period of confinement.

Any convicted person undergoing sentence in any of the state prisons, not sooner released under the provisions of this section shall, in accordance with the provisions of existing law, be discharged from custody on serving the maximum punishment provided by law for the offense of which such person was convicted.

(2) Maximum penalty, generally. Except in cases where a different punishment is prescribed by this code, every offense declared to be a felony is punishable by imprisonment in any of the state prisons, not exceeding five years. Maximum penalty.

(3) Minimum penalty, generally. Except in cases where a different minimum punishment is prescribed by this code, for every offense declared to be a felony and punishable by imprisonment in the state prison, the minimum punishment shall be imprisonment in any of the state prisons for not less than six months. Minimum penalty.

(4) Certain minimum penalties. The following shall be the minimum term of sentence and imprisonment in certain cases, notwithstanding any other provisions of this code, or any provision of law specifying a lesser sentence: Minimum penalties in certain cases.

(a) For a person not previously convicted of a felony, but armed with a deadly weapon either at the time of his commission of the offense, or a concealed deadly weapon at the time of his arrest, seven years;

(b) For a person previously convicted of a felony either in this state or elsewhere, and armed with a deadly weapon, either at the time of his commission of the offense, or a concealed deadly weapon at the time of his arrest, fifteen years;

(c) For a person previously convicted of a felony but not armed with a deadly weapon at the time of his commission of the offense, or a concealed deadly weapon at the time of his arrest, seven years.

"Deadly
weapon"
defined

The words "deadly weapon" as used in this section are hereby defined to include any instrument or weapon of the kind commonly known as a blackjack, slung shot, billy, sand club, sand bag, metal knuckles, any dirk, dagger, pistol, revolver or any other firearm, any knife having a blade longer than five inches, any razor with an unguarded blade and any metal pipe or bar used or intended to be used as a club.

Good
credits

(5) Good credits. The state board of prison directors shall require of every able-bodied prisoner imprisoned in any state prison as many hours of faithful labor in each and every day during his term of imprisonment as shall be prescribed by the rules and regulations of the prison.

Except as otherwise provided in this section, every prisoner who has committed no infraction of the rules or regulations of the prison, or the laws of the state, and who performs in a faithful, diligent, industrious, orderly and peaceable manner the work, duties and tasks assigned to him to the satisfaction of the prison officials, and in whose behalf the warden of the prison shall file a report certifying that his conduct and work have been meritorious and recommending allowance of time credits to him, shall upon, but not until, the adoption of such recommendation by the state board of prison directors, be allowed time credit deducted as from his term of confinement as fixed by the board of directors (instead of and in lieu of such time credits as were heretofore allowed by law) a deduction of two months in each of the first two years, four months in each of the next two years, and five months in each of the remaining years of said term, and correspondingly for any part of the year, where such term of confinement is for more or less than a year. The mode of reckoning credits, recommended by the warden and allowed by the board of prison directors, shall be as shown by the following table:

Number of years of sentence	Good time that may be earned	Total good time that may be earned	Time to be served if full credits are earned and allowed
1st year-----	2 months	2 months	10 months
2d year-----	2 months	4 months	1 year 8 months
3d year-----	4 months	8 months	2 years 4 months
4th year-----	4 months	1 year	3 years
5th year-----	5 months	1 year 5 months	3 years 7 months
6th year-----	5 months	1 year 10 months	4 years 2 months
7th year-----	5 months	2 years 3 months	4 years 9 months
8th year-----	5 months	2 years 8 months	5 years 4 months
9th year-----	5 months	3 years 1 month	5 years 11 months
10th year-----	5 months	3 years 6 months	6 years 6 months

And so on, through as many years as may be the time of confinement.

If any convict shall assault any keeper, guard, foreman, officer convict or other person, or threaten or endanger the person or life of anyone, or violate or disregard any prison rule or regulation, or neglect or refuse to do the work to which he is assigned, or be guilty of any misconduct, or violate any of the rules or regulations governing parole, the board of prison directors may declare a forfeiture of all time credits theretofore earned by or allowed to him before the commission of such offense, and/or all time credits which he may thereafter earn, or the board of prison directors may forfeit such part of such time credits as they may determine; such forfeitures, however, shall be made only by the board of directors after due proof of the offense and notice to the offender and the board may restore time credits forfeited for good cause shown.

(6) Parole. The state board of prison directors shall have power to establish rules and regulations under which any prisoner who is now, or who hereafter may be imprisoned in any of the state prisons, and who has served the period of time prescribed by this section, may be allowed to go upon parole outside the prison buildings and inclosures.

No prisoner may be paroled in any case until he has served the minimum term of imprisonment provided by law for the offense of which he was convicted.

No prisoner who has served a previous sentence in a state prison in this or any other state may be paroled until he has served at least two calendar years, or, if the minimum term of imprisonment imposed by law for the offense of which he was convicted be greater than two years, until he has served such minimum term.

No prisoner who has had imposed upon him two or more cumulative or consecutive sentences may be paroled until he has served at least two calendar years of the aggregate time of such cumulative or consecutive sentences, or, if the minimum term of imprisonment imposed by law for the offenses of which the prisoner was convicted be greater than two years, until he has served such minimum term.

No prisoner imprisoned under a life sentence may be paroled until he has served at least seven calendar years.

No prisoner serving terms of imprisonment running concurrently may be paroled until he has served the greater of the minimum terms of imprisonment imposed by law for the offenses of which he was convicted.

If no maximum term of imprisonment is imposed by law for the offense of which the prisoner was convicted, he may be paroled at the expiration of the minimum term of imprisonment imposed by law.

If neither a maximum nor a minimum term of imprisonment is imposed by law for the offense of which the prisoner was convicted, but a fixed and definite term is imposed by the court, he may be paroled after serving one calendar year of his term.

At least thirty days before the state board of prison directors shall meet to consider the granting of a parole to any prisoner or to fix and determine the length of time any prisoner shall be confined, the said board shall send written notice thereof to the judge of the superior court before whom the prisoner was tried and convicted, and to the district attorney and the sheriff of the county from which the prisoner was sentenced.

Prisoners on parole shall remain under the legal custody and control of the state board of prison directors and shall be subject at any time to be taken back within the inclosure of the prison. If any paroled prisoner shall leave the state without permission of the state board of prison directors, he shall be held as an escaped prisoner and arrested as such.

Forfeiture
of credits
after parole
granted.

The state board of prison directors upon granting any parole to any prisoner may impose on the parole such conditions as it may deem proper, and may impose as a condition of the parole, that all or a portion of his credits earned, or to be earned, may be forfeited by order of the state board of prison directors in the event that such prisoner shall break his parole or violate any law of the state, or rule or regulation of the prison, or of the state board of prison directors, or any of the conditions of his parole.

Such forfeiture of credits shall not be had except upon a hearing upon the question of such violation and an adjudication by the board that such prisoner was guilty thereof, which adjudication shall be final. At such hearing such prisoner shall be present and entitled to be heard and may present evidence and witnesses in his behalf.

Full power to make and enforce rules and regulations relating to the parole of prisoners, to grant paroles thereunder, and to retake and imprison any prisoner so upon parole, is hereby conferred upon the state board of prison directors. The written order of the board certified by the president of the board shall be a sufficient warrant for all officers named therein to authorize such officers to return to actual custody any conditionally released or paroled prisoner.

It is hereby made the duty of all chiefs of police, marshals of cities and villages, sheriffs of counties, and all police, prison and peace officers, and constables to execute any such order in like manner as ordinary criminal process.

The governor of the state shall have like power to cancel and revoke the parole of any prisoner. The written authority of the governor shall likewise be sufficient to authorize any of the officers named therein to retake and return said prisoner to the state prison. His written order canceling or revoking the parole shall have the same force and effect and be executed in like manner as the order of the state board of prison directors.

Powers of
governor

No parole shall be revoked and no credits forfeited without cause, which cause must be stated in the order revoking the parole or forfeiting the credits.

Nothing contained in this section shall be deemed in any way to affect or control the admission to parole of any prisoner whose term of imprisonment shall have commenced prior to the first day of September, 1929.

Construction
of act

(7) Rules and regulations. The state board of prison directors shall make all necessary rules and regulations to carry out the provisions of this section not inconsistent therewith, and may provide the forms of all documents necessary therefor.

To assist the jury in deciding such questions, the jury may consider the opinion with the reasons stated therefor, if any, by the expert who gives the opinion. The jury is not bound to accept the opinion of any expert as conclusive, but should give to it the weight to which they shall find it to be entitled. The jury may, however, disregard any such opinion, if it shall be found by them to be unreasonable.

No further instruction on the subject of opinion evidence need be given.

It shall be the duty of the Commission to make and maintain, including necessary changes therein, a plan of the physical development of the City and County. Said plan, including maps, plats, charts and descriptive matter, shall provide for the development of all areas within the City and County and for three miles outside of such boundaries, including among other things, the general location, character and extent of streets, viaducts, subways, bridges, boulevards, parkways, playgrounds, squares, parks, aviation fields and other public ways, grounds and open spaces, the general location of public buildings and other public property, and the removal, relocation, widening, narrowing, vacating, abandonment or extension of any of the foregoing ways, grounds, open spaces or buildings.

The Commission shall also act in an advisory capacity to the Supervisors and other departments of the City and County in all matters affecting the general location and extent of public improvements, ways and structures. All departments and officials of the City and County shall, upon request, furnish to the Commission, within a reasonable time, such information as it may require for its work, and the Commission shall, whenever possible, furnish all departments and officials such information as said departments and officials may require.

Zoning.

Section 4. The Commission from time to time shall consider and hold hearings on proposed changes in the classification of the use to which property in the City and County may be put, on its own motion, or on application filed by the owner of any property desiring a change in zoning classification, which application shall be accompanied by a diagram showing the boundaries of the area sought to be reclassified, together with the names and addresses of all owners of property therein and within a distance of 300 feet of all exterior boundaries of said area, and within the entire area of the square block within which said property sought to be reclassified is situated. Before acting upon any proposed change,

the Commission shall, not less than twenty days before the date of said hearing, publish at least once in the official newspaper of the City and County, notice of public hearings thereon, and shall, in writing, not less than ten days before the hearing, notify the applicant and all persons whose names appear as owners of property within the area delineated upon the map accompanying said application, such notices to indicate the proposed change to be considered, and the place and time of public hearing thereon, which shall be not less than twenty days after completion of public notice and completion of posting herein referred to. The Commission shall cause to be conspicuously posted throughout the area delineated upon said map, notices of intention to consider the motion or petition to change the zoning classification of such property and the use to which such property may be put. Said notice shall be headed in conspicuous letters, "Notice of Proposal to Change Zoning Classification," and shall state in full the proposed change and the place, date and hour fixed for hearing thereon. The Supervisors, by ordinance, may provide that the applicant for any proposed change may be charged with the costs of posting, written notices, advertising and other costs incidental to consideration of and public hearings on such proposed change. Such persons as desire shall be heard by the Commission at the meeting or meetings designated therefor.

Zoning.

On the completion of the hearing on any proposed change, the Commission shall, by resolution, disapprove or approve the proposed change, which, if approved, shall not become effective for thirty days. Property owners affected may appeal from any ruling of the Commission by filing protests in writing against such ruling with the Board of Supervisors within thirty days of the date of the Commission's resolution thereon, which objections shall state the reasons therefore, the location of the property owned by the protestant and his post-office address. Said Board shall cause such signatures to be checked, and if such protest is subscribed to by the owners of 20 per cent or more of the property delineated upon said map, the Supervisors shall fix a time and place for hearing said objections, not less than thirty days thereafter, and the Supervisors shall hear the objections urged at the time specified. Upon the filing of said protests the ruling of the Commission shall be suspended pending action by the Board of Supervisors upon said appeal.

The Clerk of the Board of Supervisors shall notify the proponents and the persons making such objections by depositing a notice thereof in the post-office, postage prepaid, addressed to each such objector.

Upon conclusion of the hearing or hearings by the Supervisors, which shall include hearing and consideration of all data which the Commission may desire to present, the Supervisors by resolution approved by a vote of not less than two-thirds of all members thereof may disapprove and, by a

Zoning

majority of all of the members of the Board, may approve the action of the Commission; provided, however, that any change in zoning classification made by the Commission on its own motion or change diminishing the use to which property may be put, shall not become effective until ratified by a vote of two-thirds of the entire membership of the Board of Supervisors. In case of approval or disapproval by the Commission, or by the Supervisors on appeal as herein provided, of a proposed change in classification, such proposed change may not be resubmitted to nor reconsidered by the Commission for at least one year.

No ordinance shall be considered by the Supervisors, the purpose and intent of which is the classification, regulation or control of the height, area, bulk, location or use of any building or buildings, or premise or premises, and classifying any property into any district or zone for such purpose, or establishing a set-back line or lines along any street or portion thereof in the City and County, without being first submitted to the City Planning Commission for a report and recommendation. If the Commission disapprove any such ordinance, the Supervisors may adopt the same only by an affirmative vote of at least two-thirds of its entire membership.

The failure of the Commission to act within ninety days from and after the date of official submission of any proposed zoning classification by the Board of Supervisors, or from and after the date of first publication of notice of hearing, if upon application of any property owner, shall be deemed and be approval of such classification by the Commission.

Section 5. Every resolution of the City Planning Commission and every ordinance of the Board of Supervisors which shall be adopted or passed relative to the subject matter of this Article shall be presented to the Mayor for his approval. The Mayor shall return such resolution or ordinance to the City Planning Commission or Board of Supervisors, respectively, within ten days after receiving it. If he approves it he shall sign it and it shall thereupon become effective unless an appeal to the Board of Supervisors is pending. If such an appeal is pending, the approval by the Mayor shall not result in rendering such resolution or ordinance effective. If he disapproves it he shall specify his objections thereto in writing. If he does not return it with such disapproval within the time above specified it shall take effect as if he had approved it, unless an appeal to the Board of Supervisors is pending. The objections of the Mayor shall be entered at large in the Journal or proceedings of the Commission, and the Commission or Board of Supervisors, as the case may be, shall, after five and within thirty days after such resolution or ordinance shall have been so returned, reconsider and vote upon the same. If the same shall, upon reconsideration by the Commission, be again passed by the affirmative vote of not less than four members of the Commission, the president of the Commission shall certify that fact on the resolution or ordinance, and

when so certified, the resolution or ordinance shall become effective, unless an appeal to the Board of Supervisors is pending. If the same is reconsidered by the Board of Supervisors and shall again be passed by the affirmative vote of not less than fourteen members of the Board, the presiding officer shall certify that fact upon the resolution or ordinance, and when so certified the same shall become effective. If the same shall fail to receive the vote by the Commission or the Board, respectively, herein prescribed, it shall be deemed finally lost. The vote on reconsideration in the Commission or the Board shall be taken by Ayes and Noes and the names of the members voting for and against the same shall be entered in the Journal.

Establishment and Change of Building Set-Back Lines.

Section 5a. All building set-back lines heretofore established by ordinances of the Board of Supervisors shall remain as so established until and unless changed in accordance with the provision of this amendment.

Building
set-back
lines.

Building set-back lines may be established or changed by resolution of the City Planning Commission on its own motion or on the application of an interested property owner, subject to the disapproval of two-thirds of the membership of the Board of Supervisors, as hereinafter provided. Whenever the City Planning Commission proposes on its own motion to establish or change a set-back line, or when an application to establish or change such line has been filed with the Commission by an interested property owner, the Commission shall cause to be conspicuously posted three notices of intention to consider the motion or application within the distance of one block on the side of the street on which it is proposed to establish or change such set-back line. Said notice shall be headed in conspicuous letters "Notice of proposal to establish a building set-back line" or "Notice of proposal to change building set-back line" as the case may be. Said notice shall state the proposal to establish or change said set-back line and the place, date and hour fixed for the hearing thereon. A similar notice shall be published in the official newspaper for five days before the hearing. The owners of property within the block affected, whose property fronts on the side of the street where it is proposed to establish or change the set-back line, shall be heard by the Commission at the time specified in the notice, or at such subsequent time to which the hearing may be continued. Upon the hearing, the Commission shall by resolution disapprove or approve the establishment of such set-back line or change thereof, and if approved, the resolution shall not become effective for 30 days. Property owners affected by the ruling may appeal therefrom to the Board of Supervisors by filing a protest against such ruling with said Board within 30 days from the date of the Commission's ruling. Such protest shall state the reasons therefor, the location of the property owned by the protestants and their respective post office

addresses. The Commission shall cause said signatures to be checked, and if said protest is signed by the owners of 20 per cent or more of the area of property within the block affected fronting on the street on which it is proposed to establish or change the set-back line, ruling of the Commission shall be suspended until action by the Board of Supervisors on such appeal. The Board of Supervisors shall fix the time and place of hearing such appeal within 30 days from the date of filing thereof. The Clerk of the Board of Supervisors shall notify the persons making such appeal by depositing notice of hearing in the post office, postage prepaid addressed to each objector. A like notice shall be addressed to each other property owner owning property within the block affected fronting on the street where it is proposed to establish or change the set-back line. If the address of any property owner is not known to the Commission, the notice shall be posted in a conspicuous place on his property. Upon the conclusion of the hearing or hearings by the Supervisors, they shall approve or disapprove the ruling of the Commission. Any resolution by the Commission establishing or changing a set-back line shall become effective unless disapproved by a vote of two-thirds of the entire membership of the Board of Supervisors. In a case of approval or disapproval by the Commission or the Board of Supervisors of a proposal to establish or change a set-back line, no further application to establish or change a set-back line on the same side of the same street and in the same block shall be entertained by the Commission for one year after a set-back line has been finally established or changed, or within one year after a proposal to establish or change such a set-back line has been disapproved by the Commission, or in the event of appeal, within one year after the decision of the Board of Supervisors on appeal.

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the title to Article XVII of the Charter of said City and County and Section 1, Section 2, Section 3, Section 4 and Section 8, all of Article XVII of the Charter, of the said City and County, relating to the establishment of a retirement system for aged and disabled officers and employees of the said City and County.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County at the general election to be held on the sixth day of November, 1928, a proposal to amend said Charter as follows:

That the title of Article XVII be amended to read as follows:

RETIREMENT OF AGED AND DISABLED OFFICERS
AND EMPLOYEES OF THE CITY AND COUNTY
OF SAN FRANCISCO.

That Section 1, Section 2, Section 3, Section 4 and Section 8 of Article XVII be amended to read as follows:

Retirement
of officers
and employ-
ees of city
and county
of San
Francisco

Section 1. The Board of Supervisors of the City and County of San Francisco is hereby empowered under the conditions set forth in this article, on the vote of fourteen members and the approval of the Mayor, to establish a retirement system, which shall provide for death benefits, for officers and employees of the City and County of San Francisco, provided that elective officers and officers appointed by the Mayor and persons entitled to the benefits of any pension system now or hereafter established by the City and County of San Francisco for firemen or policemen, shall not be eligible to the benefits of any retirement system established under this Article. No member of any retirement system established under the provisions of this Article shall be retired, except in case of disability incapacitating him for the performance of his duties, unless he shall have attained the age of sixty-two years and completed ten years of continuous service, as defined by the Board of Administration hereinafter provided for, except that retirement shall be compulsory at the age of seventy years. It may be provided, however, under such retirement system, that members may retire after thirty years of continuous service, as defined by the Board of Administration; the benefits at retirement in such cases to be determined, because of retirement at an age below sixty-two, in accordance with the tables recommended by the actuary and approved by said Board of Administration.

Section 2. The said Board of Administration shall secure from a competent actuary a report of the cost of establishing a general retirement system for all officers and employees of the City and County. Said actuary shall be one who has had actual experience in the establishment of retirement systems for public officers and employees, and his position shall be considered one requiring expert or technical training within the meaning of Section 2, Article XVI of this Charter.

Section 3. The retirement system shall be conducted on the contributory plan. The City and County shall contribute jointly with the members of the retirement system. Members of the system shall contribute not to exceed ten per centum of their salaries or wages, provided that members may, at their option, elect to contribute at rates in addition to those fixed as normal by the Board of Administration. The City and County shall contribute an amount equal to normal contributions of members as provided for in the preceding sentence, but the City and County shall not contribute any amount because of additional contributions by members. The system shall be applied to such offices, departments, bureaus, or classes of officers or employees of the City and County as the Supervisors shall determine. The mortality, service, or

other tables calculated by the actuary and the valuation determined by him, and approved by the Board of Administration, shall be conclusive and final and any retirement system established under this Article shall be based thereon. Liabilities accruing under the retirement system because of service rendered to the City and County of San Francisco by individuals prior to the establishment of the system for their respective classes shall be met by contributions to the retirement system by the City and County, in addition to any amount contributed to match members' contributions, provided that such liabilities may be met by annual appropriations instead of by one appropriation for the total amount of liabilities. The retirement system shall be managed by a Board of Administration as established in Section 4 hereof. The right of a person to a retirement allowance or to the return of accumulated contributions, the retirement allowance itself, the accumulated contributions themselves, any death or optional benefit, any other right accrued or accruing to any person under any retirement system established under the provisions of this Article and the moneys in any Fund created under such retirement system shall not be subject to execution, garnishment, attachment, or any other process whatsoever, and shall not be assignable except as specifically provided in the Ordinance authorized in Section 1 of this Article.

Section 4. A Board of Administration of said retirement system is hereby created, consisting of the Chairman of the Finance Committee of the Board of Supervisors, the Auditor, three members elected from the active members of the retirement system, a resident official of a life insurance company, and an officer of a bank, to be appointed by the Mayor within sixty days of the taking effect of this amendment. Such appointees shall serve without compensation. Provided, however, that pending establishment of a retirement system, the Mayor shall appoint the three members to represent the active members of the retirement system from a list of nominees presented by the officers and employees who would be affected by such a system. Members other than ex-officio members shall so classify themselves by lot, that one term shall expire each year.

Section 8. The Board of Supervisors is empowered to extend the provisions of the retirement system established under the conditions set forth in this Article to cover teachers in the San Francisco School Department; provided, however, that the contributions to be made by such teachers and the benefits to be received by such teachers under such retirement system shall be based upon the proportion of the salaries of such teachers which have been and shall be paid out of funds contributed by the City and County, excluding therefrom the portion of such salaries which have been or shall be paid out of funds contributed by the State of California; and in determining such proportion it shall be taken to be the same proportion which the whole amount of money contributed by the City and County to the Common School Fund in any fiscal

year bears to the whole amount of money contributed to such fund in such year by the State and by the City and County; and provided, further, that nothing herein contained shall be construed to deprive any teacher of the rights to receive benefits under any pension or retirement system now or hereafter established by the State of California.

Resolved, That the cost of printing such constitutions and other documents be charged to legislative printing.

CHAPTER 16.

Assembly Joint Resolution No. 3—Relative to memorializing congress to adopt a bill to provide compensation in lieu of taxes for the several states with respect to certain lands of the United States within the borders of said states, and for other purposes.

[Filed with Secretary of State March 14, 1929.]

WHEREAS, There has been introduced a bill in the house of representatives of the United States, which provides: "That the United States government hereby assumes, subject to the conditions of this act or any subsequent act of congress, the payment to the several states of sums of money equivalent to the amounts which such states would receive from the taxation of said lands of the United States within their respective borders if such lands were owned by individuals"; and

Federal compensation in lieu of taxes with respect to federal lands within state borders

WHEREAS, Under an act of congress of the United States approved March 3, 1891, large areas of territory with the timber and other resources thereon and therein were "set apart, reserved, and withdrawn from entry" in the states of California, Oregon, Washington, Idaho, Montana, Wyoming, Colorado, Utah, Nevada, Arizona and New Mexico and in a lesser degree in several of the other states of the Union; and

WHEREAS, The United States government has withdrawn, set apart and reserved within permanent national forests eighteen million eight hundred ninety-one thousand one hundred sixty-one acres of land within the State of California, approximating one-fifth of the total land area of the state, said lands being set apart, withdrawn from entry and reserved for the purpose of conserving the resources thereof and particularly the standing timber thereon for the benefit of future generations of mankind; and

WHEREAS, The lands of the United States above referred to, comprise in several of the counties upwards of one-half of the area within the borders of the counties, and, although exempt from annual taxation, are being put to commercial and industrial uses for the benefit of all the people of the United States, which fact places these lands on the same basis, as to use, as privately owned lands used for the same purpose, and said lands of the United States are in competition with said privately owned lands, and the setting aside, reserving and withdrawing from entry of these large areas of territory in the sparsely settled forest counties and on which the United States pays no taxes, results in throwing a heavy tax burden on privately owned property in the same political subdivision of government thus making the financing of local government a difficult problem indeed; and

WHEREAS, This area is not and can not be taxed by any of the thirty-nine counties of California wherein this vast domain is situated, although each of said counties is required to and do perform therein and thereon all necessary and requisite

Same

police powers, equip, maintain and operate schools; equip, maintain and operate courts for the punishment of offenders against the forest and other laws; construct, repair and maintain trails, roads and bridges and to do and perform such other acts, duties and powers as may be necessary to the enjoyment of such forests by the people of the United States as well as of other nations; and

WHEREAS, When state government was instituted and the several states admitted into the Union they were divided into counties, and townships and each of the states, counties and townships were guaranteed the full right of enjoyment of all the territory and resources within their respective borders and the declared policy of the United States government being to dispose of all the public domain, and article ten of the declaration of rights, which formed the basis for the union of the states provides, that "No state shall be deprived of territory for the benefit of the United States." In setting apart, reserving and withdrawing from entry nineteen million acres of land for national forest purposes within the boundaries of a single state, surely territory has been taken from that state for the benefit of the United States; and

WHEREAS, The following clause is contained in the enabling act of every state admitted into the Union, beginning with Ohio in 1803: "The state when admitted shall be on a basis of equality with the original states in all respects whatever." Therefore all political subdivisions of government should be on a basis of equality, which makes it necessary for all to contribute on a basis of equality to the solution of all problems of national necessity (and we deem the national forests to be such a problem), and if in so doing it becomes necessary to take territory and resources from some of the subdivisions of government and "set apart, reserve or withdraw" the same from entry for the benefit of all the others, then those benefited should join in reimbursing the subdivisions of government from which the territory and resources were taken, otherwise there can be no basis of equality; and

WHEREAS, The congress of the United States has enacted legislation known as the "exchange bills," and under the provisions of said law, private owners are enabled to exchange cut-over lands for standing timber on the lands of the United States, and since said law has become operative, private owners have availed themselves of the right granted to them under said law and have conveyed hundreds of thousands of acres of such lands to the United States and have received in exchange, hundreds of millions of feet of standing virgin timber from the United States, and as a result of the operation of such legislation, counties in which such exchange have been made or in which such exchanges may hereafter be made, have had or will have taken from them and removed from the assessment rolls of such counties, many thousands of dollars in assessed valuation, and in addition to this loss of assessed valuation such counties are losing the percentage

which they would receive were a sale made instead of an exchange, and as Colonel Greeley, chief forester of the United States, has said of this law, "The forest counties lose both going and coming"; and

WHEREAS, The congress of the United States has enacted the so-called Clark-McNary law, and under the provisions of section 7 of said law, private owners are enabled to donate or devise to the United States lands chiefly valuable for the growing of forests, the private owner reserving the timber, mineral, grazing and other rights and when so conveyed become a part of the national forest reserve and not open to entry or taxation, and should timber owners in some of the counties in several of the western states exercise their just right under this law, and convey their said lands to the United States, thus taking from the assessment rolls of the counties the immense valuation involved and the right of taxation, it will result in putting many of the forest counties of the west out of business, because such counties will be unable to raise sufficient revenue to maintain county government, and if such counties are annexed to a nonforest county in the same state the county to which it is annexed will receive not an asset but a liability; and

WHEREAS, It is only just and right that a heavy burden of local taxation should not be placed annually on the people of any state, in which, and by reason of the fact that, extensive areas of territory having great natural resources, guaranteed to them in the beginning and later legislated from them, have been set apart, reserved and withdrawn from entry for the economic use and benefit of all of the people of the United States, and we believe that if the government of the United States can not afford to finance its national forests, then in right and justice it should not expect the sparsely settled forest counties to do so for it; now, therefore, be it

Resolved by the Assembly and Senate, jointly, That the Legislature of the State of California approves of the purpose of the bill referred to and respectfully request its support and adoption, by the congress of the United States at the earliest possible date; and be it further

Resolved, That any moneys to be paid to the State of California, by the United States under the provisions of any law enacted by the congress of the United States, based on forest values of the forest counties of California, shall be divided among said forest counties in proportion to the forest values fixed by the United States bureau of public roads; *provided,* that by the term "forest counties" is meant those counties of California, a part of which are in the present national forests; *and provided, further,* that any portion of the timber sale, grazing or other receipts of national forests returned by the federal government to the State of California, are excepted herefrom; and be it further

Resolved, That the chief clerk of the Assembly of the State of California be authorized and directed to transmit copies

of this resolution by mail to the governors of the states of Oregon, Washington, Idaho, Montana, Wyoming, Utah, Nevada, Colorado, New Mexico and Arizona with the request that similar action be taken by their respective legislatures; and be it further

Resolved, That the chief clerk of the Assembly of the State of California be authorized and directed to transmit copies of this resolution by mail, to all the members of the congress and senate of the United States.

Assembly Joint Resolution No. 5—Relating to the participation of California in the Great Lakes-St. Lawrence Tide Water Association to facilitate and expedite the prosecution of the construction of a seaway connecting the Great Lakes with the Atlantic ocean.

[Filed with Secretary of State March 29, 1929.]

Participation of California in the Great Lakes-St. Lawrence Tidewater Association.

WHEREAS, The growth of the essential industries of the State of California depends in large measure upon the extension of her commerce with the interior of the nation—an interior now handicapped in its development by high transportation rates to and from the sea; and

WHEREAS, Such handicap, both to present commerce and to the development of a still larger, wider and more valuable commerce, may be overcome only by bringing ocean transportation to the heart of the continent, thereby giving to the

interior direct low cost transportation to its markets, both selling and buying, throughout the world, and by reason of such action stimulating a business development and population growth that shall enlarge the market outlets for the products of the State of California; and

WHEREAS, The Panama canal has made it possible for the producers of the State of California to reach the seaboard markets of the Atlantic coast to their very great advantage, while the equally desirable markets upon and surrounding the Great Lakes are still closed to our producers; and

WHEREAS, The joint board of engineers for the United States and Canada has declared that a seaway connecting the Great Lakes with the Atlantic by way of the St. Lawrence river, thereby extending to our producers the full benefits of direct ocean connection with the interior of the continent, is practical from the engineering standpoint, and the St. Lawrence commission of the United States, on December 27, 1926, after an investigation, at the instance of the national government, of the economic needs and requirements, declared "The construction of the shipway from the Great Lakes to the sea is imperative"; and

WHEREAS, Eighteen states, by action of their legislatures, have joined the Great Lakes-St. Lawrence Tidewater Association, an association of sovereign states, having as its object the early undertaking and completion of this improvement; and

WHEREAS, The transportation situation now existing constitutes an emergent need calling for immediate relief; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the State of California is hereby associated in the above named organization with its neighboring commonwealths in pressing to advance to completion this undertaking, and that participation by this state in the council of the said associated states by the governor and by those whom he may appoint to said council as representing the State of California is hereby ordered and approved, and that the representatives of this state in the congress of the United States are hereby requested to facilitate and expedite in every possible way the prosecution of this undertaking for the economic freedom of a landlocked continent.

Sec. 74a. The city clerk shall cause to be printed sample ballots identical with the ballot to be used at any election, except as to quality and color of paper, and numbering, and shall mail one such ballot to each voter entitled to vote at any such election, so that all of said sample ballots shall have

Sec. 202*n*. Should it be determined by either the unanimous vote of the board of education or the unanimous vote of the playground and public recreation commission, or of both, that it is advisable to discontinue the coordinated plan of playground and recreation and supervision and administration, as in this article provided, then written notice of such decision shall be given to the other board herein named by the board making such decision, and one (1) year thereafter such plan shall be discontinued; then in that event, all the foregoing provisions of this chapter shall remain in full force and effect, except as follows:

Sec. 229. The board of harbor commissioners, at such time as it may deem necessary, may appoint, with the confirmation of the city council, a general manager in the harbor department, who shall have the following powers and duties in addition to the powers and duties which are or may be conferred upon him elsewhere in this charter:

(1) To enforce all orders, rules and regulations adopted by the board relating to regulation, operation or control;

(2) To supervise and manage all construction and maintenance work authorized or ordered by the board, and to that end the board shall have power to delegate to him such necessary powers and duties as are by this charter conferred upon said board;

notice to be stated therein; such notice in no case to exceed one year.

(7) Every such assignment or revocable permit shall be issued on printed forms, which shall set forth the terms and conditions thereof.

Sec. 229a. (a) All tidelands and submerged lands within the harbor district, whether filled or unfilled, now owned or hereafter acquired by the city of Long Beach, are hereby declared to be required for use for purposes in connection with, or for the promotion and accommodation of commerce, navigation or fishery, and shall, except as hereinafter provided, continue to be withheld for such purposes. It shall be unlawful to grant, sell, convey, alienate, transfer or otherwise dispose of, except as herein provided, any part of or any interest in the water front, tidelands, submerged lands, or appurtenances thereto belonging, owned, controlled, possessed or held by the city of Long Beach in the harbor district; *provided*, that grants of such lands may be made to the State of California or to the United States of America, for public purposes.

(b) The board of harbor commissioners shall have power to grant to any person, firm or corporation franchises and permits to use the water frontage and/or publicly-owned terminal facilities in the harbor district for purposes in connection with or for the promotion and accommodation of commerce, navigation and fishery, together with the necessary coterminus and adjacent tide or submerged lands, for periods not exceeding forty (40) years, as hereinafter provided. Whenever it shall be determined by the board, by order, approved by the city council, by ordinance, that certain parts of such tide or submerged lands therein described may not be required at such time for use for purposes in connection with, or for the promotion and accommodation of commerce, navigation and fishery, the board of harbor commissioners shall have power to grant leases of such tide or submerged lands for periods not exceeding forty (40) years, for any and all purposes which shall not interfere with commerce or navigation and are not inconsistent with the trusts upon which said lands are held by the city of Long Beach.

(c) All such franchises, permits and leases shall be granted subject to such terms and conditions and such rental and compensation as prescribed therein, and to the limitations, conditions, restrictions and reservations in this charter contained. Every such grant for a definite period of time shall be made by order. Every order making any such grant for a period of five (5) years or less shall be published once in the same manner as ordinances of said city, and shall take effect ten (10) days after the first publication thereof.

Every order making any such grant for a period of more than five (5) years shall, before the same shall become effective, be submitted to the city council for its approval or disapproval. Action must be taken thereon by the council

within thirty (30) days after such order shall have been sub-^{Same}mitted to it. If the council shall approve the same, such order shall thereupon be published once in the same manner as ordinances of said city; or, if the council shall fail to disapprove any such order within said thirty (30) days, such order shall thereupon be published once in the same manner as ordinances of said city. Every such order, when published, shall, before the same becomes effective, be subject to the referendum provisions of this charter relating to ordinances.

Every such grant shall provide for a readjustment of the rental or the compensation every ten (10) years during the term thereby created, upon such procedure as shall be specified in such grant.

(d) Every such grant shall be made only upon the condition, whether expressed therein or not, that the construction of the works, structures or improvements provided for therein shall, if the same be not already constructed or made, be commenced within ninety (90) days of the date of such grant, and be prosecuted diligently to completion upon such further terms and conditions as may be prescribed therein.

(e) No total or partial assignment, transfer, sublease, gift or grant of control shall be valid for any purpose unless first approved by the board of harbor commissioners.

(f) Every such grant shall be subject to such rights of way over the lands embraced therein for such sewers, pipe lines, conduits, and for such telephone, telegraph, light, heat or power lines as may from time to time be determined by the board of harbor commissioners, and the same shall be subject to such rights of way for such streets and other highways and for such railroads and other means of transportation as shall have been duly established or shall be reserved in such grant. No such grant shall ever be made that shall provide for any use of the property or for the construction or placing of any structure, building or other improvement thereon that shall interfere with any plan approved or adopted by the city for harbor improvements, or for the development of facilities for the promotion and accommodation of commerce, navigation or fishery, or for providing railroad or other terminal facilities.

(1) For the necessary expenses of conducting the harbor department, including the operation and maintenance of all harbor or port improvements, works, utilities, appliances, facilities and water craft, owned, controlled or operated by the city for the promotion and accommodation of commerce, navigation and fishery, or used in connection therewith;

(2) For the acquisition, construction, completion and maintenance of harbor and port improvements, works, utilities, appliances, facilities, and water craft for the promotion and accommodation of commerce, navigation and fishery, or used in connection therewith; and for extraordinary improvements and betterments to lands and property under the control, supervision and management of the department, including the purchase or condemnation of necessary lands and other property and property rights;

CHAPTER 25.

Senate Concurrent Resolution No. 19—Relative to the orderly addition of new roads to the state highway system, after engineering and economic studies by the California highway commission and the department of public works.

[Filed with Secretary of State March 29, 1929.]

Preamble

WHEREAS, It appears that some highways not now in the state highway system are carrying a volume of state traffic that far exceeds the local traffic carried on said roads thus placing upon the counties in which these roads are located an undue and heavy maintenance burden; and

WHEREAS, A preliminary investigation by the California highway commission and department of public works indicates that there is at the present time a decidedly greater mileage of such roads in the south, as compared with those in the north, carrying this excessive state traffic; and

WHEREAS, An executive message was transmitted to the Legislature under date of March 12 in which was suggested certain underlying principles to be observed in the inclusion of new secondary roads within the state highway system; now therefore be it

Orderly

new roads

Resolved by the Senate, the Assembly concurring, That the principles enunciated in said executive message be observed in the inclusion of new roads within the state highway system, and that the California highway commission and the department of public works be, and they are hereby directed to observe the following principles in the inclusion of new roads within the state highway system.

1. Additions shall during the next two years be made to the present secondary highway system, totaling between ten and twelve per cent of existing state highway mileage, said mileage to be added in the ratio of not less than three or four miles in the south to one mile in the north.

2. For budgetary purposes, this mileage shall be included as a part of the state highway system by the California highway commission when the necessary surveys are completed; *provided, however,* no money be expended on same until they have been finally included in the system by legislative act.

3. There shall be no change in the present statutory division of secondary highway funds; and, be it further

ment of

works.

Resolved, That the California highway commission and the department of public works be and they are hereby directed to make a careful study of the state highway system to ascertain and determine routes not now in the system which, either by reason of the large volume of state traffic that they are now carrying, or by reason of the relief that they would afford to heavy traffic upon present state highways, or as highways serving as important interstate links, might properly be included and added to the state highway system; and be it further

Resolved, That this study shall, in accordance with the above mentioned executive message, include an investigation into the engineering, economic and traffic facts involved in the matter; that a comprehensive report shall be made to the forty-ninth Legislature embodying such recommendations as the investigation may disclose as proper and a recital of such facts as may have been taken into account; that this investigation shall begin not later than May 1, 1929, and that this report shall be completed and made public not later than August 1, 1930, and that pending the adoption of such report authority be hereby given to the California highway commission to take into consideration for its next budget such roads as it is thus designating and bringing to the attention of the Legislature at its next session.

WHEREAS, In 1924, after full investigation and consideration, congress by general law prohibited the immigration of aliens ineligible to citizenship; and

WHEREAS, There is now in progress a nation-wide campaign designed to substitute the quota system for the rigid and effective exclusion of Asiatic laborers as provided in the General Immigration Act of 1924; now therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of this state protests against any character of action designed to modify the present immigration laws relating to the exclusion of Asiatic laborers and reaffirms its belief that the privilege of American citizenship should continue to be restricted as at present, and that the privilege of immigration should be extended only to those

WHEREAS, An earned income is the measure of value of service rendered by the worker to the community and unearned income is the measure of value received by the individual from the community, and earned incomes are thus received in return for service of any sort—mental or physical—as distinguished from incomes from investments or from property, and

WHEREAS, It is apparent that wealth received by an individual who did not create it should bear a heavier tax than wealth received by an individual who did create it; and

WHEREAS, To tax earned income heavily is to penalize thrift and industry, and is a direct tax on labor and tends to retard enterprise and achievement; therefore, be it

Sec. 57. The council shall institute all suits necessary to remove persons from office for cause and for the enforcement of all proper penalties, but this shall not be construed to prevent any citizen bringing any proper suit to remove from office any officer for any sufficient cause specified in law or this charter, or construed to limit the power of the mayor in making removals and suspensions and preferring charges, given elsewhere in this charter, and it shall be the duty of the mayor, with the approval of the council, to remove from office any appointive officer violating any of the provisions of this chapter or this charter.

The expense of any such audits shall be paid out of the general fund in the same manner as other claims against the city are paid. The result of all such audits and examinations shall be reported to the council and such report filed with the city clerk. Any person refusing to permit such examinations or purposely delaying or impeding the same, may be suspended or removed from office according to the provisions of this charter.

A majority of the board shall constitute a quorum, but the affirmative vote of three members shall be necessary to authorize the payment of public money, the election of superintendent, deputy superintendents, principals, teachers, and all officers and employees the board is authorized to select or appoint.

In case a vacancy should occur on the board of education, the remaining members of the board shall appoint a qualified person to fill such vacancy, but in case of tie vote the superintendent of schools of Riverside county shall have the casting vote. In either case the appointee shall serve the balance of the unexpired term for which he was appointed.

The powers and duties of the board of education are and shall be such as are now or shall hereinafter be provided by the laws of the State of California.

8. 9. To provide memorial tablets and niches to perpetuate the memory of any person making donations or bequests to said library;

10. To purchase books, journals, maps, publications and other supplies and personal property for the use of said library;

16. To conduct a library school for training students in the science and art of library work under such rules and regulations as the board of trustees shall prescribe, and to issue diplomas or certificates to such students as shall complete the said course; said board shall fix the fees for students in said school on a basis designed to make the school self-sustaining, and when the board becomes satisfied at any time that it will not be financially self-supporting, it may discontinue the same;

17. To control and order the expenditure of all money at any time in the library fund, and order the drawing and payment of all moneys out of said fund for such expenditures or liabilities as are herein authorized, subject to the general provisions for the payment of demands on the city treasury, contained in article sixteen.

Sec. 128. The board of trustees shall annually, on or ^{Library.} before the third Tuesday of July, make a report to the council showing the condition of their trust for the year ending June thirtieth of that year; the various sums of money received from the library fund and from other sources; for what purposes such money has been expended, the amount so expended and the balance on hand; the number of books and periodicals on hand; the number added by purchase gift or otherwise during the year; the number lost or missing; the number of persons entitled to borrow books; the number of books circulated and the general character and kind of such books; the names of all employees and the salary paid to each; with such other information, statistics and suggestions as it may deem of general interest. The statement of financial receipts and disbursements shall be verified under oath by the secretary. A duplicate of said report and estimate shall be sent to the auditor.

Sec. 129. At the request of the board of trustees of the public library, as expressed in the annual estimate and budget of the board, the council shall in making the annual tax levy and as a part thereof, if the maintenance of the library is not otherwise provided for, levy a tax sufficient to maintain said library, reading rooms and branches, and for purchasing or leasing such real and personal property, books, papers, publications, furniture, fixtures, and erecting such buildings as may be necessary therefor; said levy to be in addition to other taxes, the levy of which is permitted in the municipality; *provided*, said levy for library purposes shall not be less than five cents, nor more than twenty cents on each hundred dollars of value of all real and personal property in the city as assessed for city purposes.

All money received for such library from any source, except as herein otherwise provided for, shall be deposited in the treasury of the city to the credit of the library fund and shall be kept separate and apart from all other moneys of the city, and shall be disbursed only for library purposes herein authorized and only upon the order of the board of trustees of the public library as hereinbefore provided.

Sec. 130. No indebtedness exceeding the funds available for library purposes during such year shall be incurred in any one year; *provided*, that this limitation shall not be construed to prevent the incurring of indebtedness for permanent improvements, to be liquidated by the proceeds of municipal bonds issued by the city of Riverside, in accordance with the provisions of this charter or of the general laws of the state, for the purpose of defraying the cost of such improvements; *and provided*, that the contracts for such improvements, the construction of the same and the allowing of demands in payment therefor shall be under the control of the board of

trustees of the public library, subject to the general provisions herein contained relating to the allowance of demands.

Sec. 131. Any person desiring to make donations of money, securities or other personal property or real estate, shall have the right to vest the title to such money, personal property or real estate so donated in the board of trustees of the Riverside Public Library, hereby created, to be owned, held and controlled by such board when accepted according to the terms of the deed, gift, devise or bequest of such property; and as to such property, the board shall be held and considered to be a special trustee thereof for the city. No real property used for library purposes can be sold by the council or otherwise disposed of without the approval of four trustees of the public library.

Sec. 132. The council shall have power to appropriate and authorize the use, either in whole or part, of any real estate belonging to the city for the purpose of erecting and maintaining a building or buildings thereon to be used for the public library or branches thereof, and may appropriate the whole or any portion of any public building belonging to or used by the city, for such use.

Sec. 133. The council shall pass proper ordinances imposing suitable penalties for the punishment of persons committing any injury upon said library or the grounds or property thereof, and for injury to or failure to return or for unlawfully obtaining or detaining any book or publication or other property of said library.

ARTICLE VIII.

Department of Public Utilities.

Public
utilities.

Section 134. There is hereby created a department of public utilities which shall be under the control and management of a board of public utilities, hereinafter called the board, consisting of the mayor and four commissioners. These commissioners shall be appointed, and may be removed by the mayor pursuant to the provisions of this charter. Each commissioner shall be at least twenty-five years of age, and shall have been a qualified elector of the city for the three years next preceding the day of his appointment. Members of the board serving at the time of the adoption of this charter shall continue in office until the expiration of their respective terms, and thereafter their successors shall hold office for four years, and until their successors are appointed and have qualified. The mayor shall be the presiding officer of the board. The members shall serve without compensation. Unless otherwise provided by ordinance, the city clerk or his deputy, shall act as secretary of said board and keep the minutes and records thereof and shall, whenever required to do so, certify such proceedings under his hand, the same to be authenticated by seal if a seal is adopted and provided by said board for that purpose.

Sec. 135. The board shall hold regular meetings at least once in every month at such times and place as it may determine by resolution. Three members shall constitute a quorum for the transaction of business, but a less number may adjourn from time to time. Special meetings may be called pursuant to the provisions of section 46.

Sec. 136. The board shall have the exclusive control and management of all electric and other light and power works, gas works, water works, ice works or other systems of providing and distributing refrigerating means, materials and service, and all other public utilities that now belong to, or that may hereafter be acquired by the city; the acquisition, construction, extension, maintenance, operation and improvements of such works and systems; the management, rental, use, sale and distribution of electricity, light, power, gas, fuel, water, ice or other products, merchandise or service therefrom; the collection of the rates and payment for the same and the general charge thereof; by ordinance of the council, the board may be given charge of the fire and police telegraph and alarm systems, together with the charge and oversight and upkeep of any or all electrical equipment or lighting system of any public building or place owned by the city.

Sec. 137. The board may appoint, transfer, remove, discharge, suspend, or require bonds of superintendents, engineers, laborers and all other persons employed in or by said department or in connection therewith in whatever capacity, and may prescribe their duties, compensation and authority, except as otherwise provided herein for the city auditor, his deputies and clerks; *provided, however*, that all salaries and scale of wages must be first approved by the council by resolution.

Sec. 138. The rates to be charged for the use, rental and sale of electricity, light, power, heat, gas, water or for any other service supplied by such department for which it is practicable to establish fixed rates, shall be fixed by the board of public utilities annually, or oftener if desired, but must be approved by the council. Said rates should preferably, but not necessarily, yield a reasonable profit and interest on the investment of the city, but must not be less than the actual cost of providing such service or utility, including all repairs, maintenance, operating expenses and the depreciation hereinafter provided for in section 148 of this article, unless approved by two-thirds of all the qualified electors voting on such proposition at any election, *and further provided*, that the board shall have power by a vote of four members, approved by a vote of six members of the council, and by the mayor, when, in their judgment such would be for the best interests of the city as a whole, to make special and discriminating rates and contracts which may or may not be less than the said cost.

Sec. 139. The board shall have authority to purchase all machinery, material, fuel, merchandise and supplies for the use of the department, and such purchases may be made in

Public
utilities.

the open market for the best advantage of the city, and bids shall not be required except at the option of the board, notwithstanding any other provision to the contrary contained in this charter elsewhere. The board is authorized to acquire and take by purchase, condemnation or otherwise, in the name of the city, any and all property, including water and water rights, situated within or without the limits of the city, that may be necessary or convenient for the construction, operation, maintenance or extension of any of the said works or public utilities, the consent of the council being first obtained by resolution.

Sec. 140. Said board shall have power to contract or to extend contracts for power, electric current, gas, fuel, or similar commodity; if said contracts or extensions are for a period exceeding one year and shorter than five years they shall require the approval of the council; if longer than five years they must, in addition, be ratified by a majority of the qualified voters voting on such proposition at any election, before they shall be binding on the city. The board may, however, subject to the approval of the council, make such contracts or make leases of machinery or apparatus for a longer term than five years if such contracts or leases provide for the acquisition by the city of the machinery or apparatus so leased, or provide for the acquisition of the machinery or apparatus producing the electric current, power, gas, or other product so contracted for by the city.

Sec. 141. The city, by said board, shall have the right to sell, lease, rent or furnish any of the commodities, merchandise or service herein provided for, to persons or corporations using the same outside of the city limits, provided the same does not interfere with the proper service of the inhabitants of the city, and any contracts must be subject to this provision, and contain a clause to that effect. The rates so charged shall be fixed by the board, but must be approved by the council.

Sec. 142. The city, by said board shall have power to purchase, acquire by leasing or renting, to sell, to rent or lease out, to install, repair and maintain every kind of electric current, power, fuel, heat, machinery apparatus, supplies and all other articles of merchandise necessary, convenient or profitable either for its own use in any of the public utilities operated by the city, or for the use of customers of the city wherever located. Such service to persons outside of the city shall be subject to the provisions of section 141. When the board deems it to be to the profit and best interests of the city, it may furnish, free of charge, or give away to its customers, under proper restrictions to be approved by resolution of the city council, apparatus, lamps, and other articles intended to consume or make use of electricity, gas, power or other commodities furnished by the department.

Sec. 143. The board shall have entire charge of the system of street lighting; *provided*, that before any extensions of same are made, the approval of the council shall be necessary.

The rate to be charged the city for street lighting shall be determined by the board and approved by the council, but must not be less than the actual cost of same. Bills for same shall be rendered monthly and approved in the same manner as other demands. The auditor shall then credit the electric fund and charge the proper fund with the said amount. Light, power and other items and supplies furnished other departments of the city shall be treated in like manner. ^{Public utilities}

Sec. 144. The board shall have power, by a resolution adopted by a majority of all its members and recorded at length on the minutes with the ayes and noes, to make and enforce all such reasonable regulations, rules and by-laws as may be necessary for its government, for the administration of the department and for the exercise of the powers conferred by this article. In the event that electric transmission lines have been paid for, in whole or in part, by persons or corporations other than the city, the board may require persons desiring to connect with said lines, to pay a proper proportion of such cost before being allowed to make such connection, and the said payment may be repaid pro rata to the persons originally paying for such lines.

Sec. 145. The city auditor, as provided in section 95, shall have entire charge and control of all records, books, documents and accounts relating to property and the receipts and expenditures and all accounts of purchases and sales of the department. His department shall also attend to the correspondence of the board or of the superintendent, but this shall be under the control and direction of the board. The board shall allow out of each utility fund the wages of the deputies and clerks employed in that department, which wages shall be fixed by resolution of the council.

The auditor shall annually make an inventory of all property belonging to each utility and shall keep this record posted up to date. A record shall be kept of all property sold, lost, destroyed, worn out or discarded, and a record of all connections and the number of lamps in use. The auditor shall accurately apportion all income and expenditures so that regular operating expenses, repairs, betterments, extensions, replacements, depreciation, cost of operation, power and fuel, the income from various sources, and the net income and real value of the plant can always accurately be told. The board and superintendent shall so conduct the department that this can be done and the auditor is instructed and given power to see that this provision is complied with.

Sec. 146. All money received by the board from the collection of rates or otherwise shall be paid over to the treasurer of the city, daily, unless otherwise provided by ordinance, to the credit of each utility fund, which shall be kept separate and apart from all other moneys of the city, and shall only be drawn from said funds by demands previously approved by a vote of three members of the board taken with the ayes and noes, and spread on the minutes, and the action of said

Public
utilities.

board endorsed on said demands and signed by the mayor as president of the board and by the secretary thereof. All demands must be approved by the superintendent or managing head of the department and by the auditor or his deputy before being presented to the board. In case of emergency the council may transfer money from the general fund to the respective utility funds. Any moneys raised by issuing the bonds of the city for the use of the department of public utilities shall be expended and controlled by said board. Money may be temporarily transferred from the utility funds or either of them, to the general fund by the council, but only with the consent of the board of public utilities, and such money must be returned to the respective utility fund from which it was transferred by the first day of the following May.

Sec. 147. None of the money in any utility fund shall be apportioned and used for any purpose or purposes other than for the following:

1. For the necessary expenses of conducting each utility, operating the same and making all current and ordinary extensions, betterments and repairs;

2. For the extraordinary improvement of and betterment to the plant, property, equipment and system of supply and distribution of each utility including purchase of necessary lands, rights and other properties;

3. Any unused balance in the fund of any utility, after deducting for the depreciation sinking fund as provided in section 148, may with the approval of both the board and the council, be used for payment of principal and interest of any bonds of such utility outstanding;

4. After all expenditures have been made that are required in the first, second, and third subdivisions of this section, the profit, if any there be, remaining in the fund of any utility at the end of the fiscal year, from the operation of such utility for such year, may, with the consent of both the council and the board, be transferred, in whole or in part, into the general fund.

Sec. 148. At the end of each fiscal year the auditor shall take the total value of property belonging to each utility as obtained from the inventory and property record; he shall deduct not less than two per cent therefrom, which shall represent the estimated depreciation of the plants and systems of each utility for the year. Said per cent shall thereupon be transferred from each utility fund to the credit of its depreciation sinking fund. He shall then charge to such sinking fund and credit to its respective utility fund the amount expended during the year in actual replacements of wornout machinery and plant, but must not include therein amounts expended in betterments, extensions, changes and repairs. The balance remaining in the depreciation sinking fund shall then be invested by the treasurer, subject to the approval of the council, in United States, state, school or municipal bonds, or deposited in banks organized under the

laws of California, or national charter at interest, and the interest thereon shall accrue to said fund. If the per cent deducted from any utility fund in any one year shall not be sufficient to offset the expenditures for said actual replacements for such year as above specified, then sufficient bonds from the depreciation sinking fund shall be converted into cash, or cash withdrawn from said banks, and said cash transferred to the utility fund to make up such deficiency; but this shall be done only on the recommendation of the auditor and approved by the said board and the council. The depreciation sinking fund of each utility shall otherwise remain inviolate except as authorized by a two-thirds vote of the qualified electors voting on such proposition at any election; *provided*, that the said board by a four-fifths vote of all the members, approved by the council by a vote of six-sevenths of all the members, and by the mayor, shall have the power to instruct the treasurer and auditor to convert sufficient of said bonds into cash or withdraw said deposits, and thereupon to temporarily transfer the proceeds and to use same for betterments and extensions of said utility, or to acquire any other public utility elsewhere provided for in this charter, but must not use the same for repairs or operating expenses. Said temporary transfers must be repaid to the respective sinking fund from which any such transfer was made, in annual installments not less than ten in number, with five per cent interest on same, computed semiannually, and the auditor is authorized and instructed to make such transfer and the council must provide the funds therefor if the balances in such fund be insufficient. Annual reports in detail must be made by the auditor and the treasurer of all increments, changes, conversions, investments, interest, loans from and repayments to said depreciation sinking funds. The auditor shall report to the board the rate of depreciation he deems wise and necessary to charge each public utility each fiscal year, with his reasons therefor, and the board may, if not entirely satisfied or if it has any doubt, take other advice and may change the per cent recommended by the auditor and substitute and charge a different per cent, and the responsibility shall rest with the board. If the money in each or either public utility fund be insufficient to provide the amount of the depreciation charge respectively, the auditor shall create a deficit in either or each of said funds and if said deficit be not balanced at the time the next annual tax levy is made, the council must, by levy or otherwise, provide the money to balance the said fund. Said per cent shall not be less than two per cent unless approved by a majority of the electors voting on such proposition at any election.

Sec. 149. The board shall present to the council a monthly report segregated as to each utility operated by it, showing expenditures for operating expenses, fuel, power, wages, repairs, replacements, betterments, and extensions; also all income and net profit itemized into proper classes, and also an

Public
utilities.

annual report showing in addition to these items the nature and condition of the property under their control with such information and suggestions as it may deem of general interest. If funds be needed for extensions, improvements, repairs or other expenditures, too great to be paid out of the estimated current income of the department, the board shall, as provided in section 203, article fifteen, make an itemized statement of the same to the council and the council may make such proper tax levy to provide such funds, and said taxes shall, when collected, be credited to the particular utility fund entitled thereto. Duplicates of all reports shall be filed in the auditor's office.

Sec. 150. It shall be the duty of the council to pass such ordinances as may be necessary to enforce the rules and regulations made by the said board.

Sec. 151. The board shall possess such other powers and perform such other duties as may be necessary to carry any of the powers and duties prescribed in this article into full force and effect, or as may be elsewhere prescribed by this charter or by ordinance.

Sec. 152. It is understood that at the time of the adoption of this charter, the electric and water departments are the only public utilities operated by the city. In case any other public utility shall hereafter be acquired and pass under the control and management of the board of public utilities, the said board shall create separate departments therefor, and such departments shall each be subject to all of the provisions of this article as far as they can be made applicable, and the accounts thereof shall be kept entirely separate each from the other, and separate and appropriate funds shall be established for each.

Sec. 153. No public utility once acquired and operated by the city shall, nor shall the control of same or the products therefrom, ever be sold, leased, abandoned or otherwise disposed of to any person or corporation except such proposition is approved by a two-thirds vote of all the qualified electors voting on such proposition at any election at which said proposition shall be legally submitted; *provided*, that said prohibition shall not be construed to prevent the ordinary sale of electricity, gas, water, power, service, merchandise, supplies, materials and unused or abandoned machinery or apparatus to the customers of the city in the regular course of business.

Duplicates of these estimates shall be submitted to the auditor.

Sec. 204. On or before the fourth Tuesday in July of each year, unless a different time is fixed by ordinance, the auditor shall prepare and transmit to the mayor and council an estimate of the probable financial necessities of the municipal government for the fiscal year, stating the amount required to meet the interest and principal on all bonded or funded indebtedness of the city, and all special assessments, together with the amount needed for the salaries and probable

wants of all the departments of the municipal government in detail, showing specifically the necessities of each fund in the treasury. The estimate shall also show what amount of income and revenue is likely to be collected from fines, licenses and all other sources of revenue, exclusive of taxes upon property, and what amount will probably be required to be levied and raised by taxation in order to meet the necessities of each specific fund for such fiscal year. ^{Revenue and taxation.}

Sec. 205. The council shall have the power and it shall be their duty to fix by ordinance the amount of money necessary to be raised by taxation upon the taxable property of the city, as a revenue to carry on the various departments of such city for the current fiscal year, not to exceed the limit fixed by this charter, or by vote of the electors, and to pay the bonded or other indebtedness of said city. The council shall meet for such purpose and shall so ascertain and fix said amount on the first Tuesday in August in any year when provision has been made by ordinance for the assessment and collection of the city taxes by the county assessor and county tax collector, and in any other year at such time as may be fixed by ordinance.

Sec. 206. During such time as the assessment and collection of city taxes shall be made by the proper officers of said city, the council shall meet at their usual place of holding meetings at ten o'clock a.m. on the second Monday of August of each year, unless a different time is fixed by ordinance, and sit as the board of equalization, and shall continue in session by adjournment from day to day until all the returns of the assessor have been rectified and the assessment equalized. They shall have power to hear complaints and to correct, modify or strike out any assessment made by the assessor, and may, of their own motion, raise or lower any assessment upon notice to the parties whose assessment is to be changed. The corrected list for each tax shall be the assessment roll of said tax for said year. It shall be certified by the city clerk, who shall act as clerk for the board of equalization, as being the assessment roll for said tax and shall be the assessment roll upon which such tax is to be levied in said year.

Sec. 207. The mayor and council shall have power and it shall be their duty, unless the city taxes are assessed and collected as provided in section 209 of this article, to provide by ordinance a system for the assessment, levy and collection of all city taxes and for the sale of property for delinquent taxes, which system shall conform, as nearly as the circumstances of the case may permit, to the provisions of the laws of this state with reference to assessment, levy and collection of state and county taxes and sale of property for delinquent taxes, except as to the times of such assessment, levy and collection and except as to the officers by whom such duties are to be performed. All taxes assessed, together with any percentage imposed for delinquency and the cost of collection, shall constitute liens on the property assessed from and after the date of assessment.

taxation.

Sec. 208. If there shall be no ordinance in force availing the city of the privilege of having its taxes assessed and collected by the officers of the county, the city clerk shall be ex officio tax collector; and they shall perform respectively the duties and have all the powers prescribed by law or ordinance for assessors and tax collectors. While the city avails itself of the privilege of having its taxes assessed or collected by the county officers, the offices of city assessor and city tax collector shall not exist. The taxes so levied and collected shall be paid by the proper county officers to the city treasurer and be apportioned by the city auditor to the several specific funds.

Sec. 209. The mayor and council shall, during the month of January in any year after the adoption of this charter, pass an ordinance electing to avail the city of Riverside of the provisions relating to the making of assessments and collection of taxes by the assessor and tax collector of the county of Riverside, pursuant to the provisions of an act of the Legislature of the State of California entitled "An act to provide for the levy and collection of taxes by and for the use of municipal corporations and cities incorporated under the laws of the State of California, except municipal corporations of the first class, and to provide for the consolidation and abolition of certain municipal offices, and to provide that their duties may be performed by certain officers of the county, and fixing the compensation to be allowed for such county officers for the services so rendered to such municipal corporation," approved March 27, 1895, and amendments thereto; *provided*, that act be then in force, and shall cause a certified copy of such ordinance to be filed with the auditor, assessor and tax collector of said county of Riverside. If said act shall be amended or some other law be substituted instead, providing for the assessment and collection of city taxes by county officers, any ordinance passed therefor by the mayor and council shall conform to the provisions of such amended act or such law in order to avail the city of the privilege of having its taxes assessed and collected by such county officers.

Sec. 210. On the first Tuesday of September in any year when provision has been made by ordinance for the assessment and collection of the city taxes by the county assessor and county tax collector, the council shall fix the rate of taxes for such year as provided in section 4 of said act of the Legislature referred to in section 209 of this article, and shall immediately thereafter transmit to the county auditor of said county of Riverside a statement of such rate as fixed by said council.

Sec. 211. No money from bond, interest or sinking funds of the city shall be transferred to other funds, except as provided herein, until the necessity for which such bond, interest or sinking funds were created no longer exists. Ordinances providing for the levying of the taxes mentioned in this article shall not be subject to the provisions of the referendum referred to in section 233, of article twenty-one.

The council shall not have power to levy a general tax greater than one dollar and thirty-five cents on each one hundred dollars of the assessed valuation of all property within said city. This limit is exclusive of all taxes for the payment of the principal and interest of the bonded indebtedness of the city, all district taxes, special taxes, special assessments and all taxes for library or school purposes. This limit may be changed at any time by an ordinance adopted by a majority vote of all the electors voting on such question at any general or special election and such ordinance may originate in the council or may be proposed by initiative petition.

Sec. 214. All demands on the library fund, or any public utility fund, must be approved by a majority vote of all the members of the board of trustees of the Riverside public library or the board of public utilities respectively, and approved by the auditor. The approval of the mayor and council shall not be necessary, but the mayor may disapprove any such demand and such demand shall be then paid only if approved, as provided in section 216 of said article.

Sec. 215. All demands except those referred to in section 214 of this article must be approved by a majority vote of all the members of the council, by the mayor and by the auditor.

Sec. 220. The system of accounting and forms relating to demands and their approval and payment prescribed by the board of city accounting under the former charter of the city of Riverside, shall continue in force until changed by ordinance.

Sec. 221. If rejected in part, suit may be brought to recover the whole. Except in those cases where a shorter period of time is otherwise provided by law, all claims for damages against the city of an officer or board of the city, must be presented within three months after the occurrence from which the claimed damages arose, and all other claims or demands shall be presented within three months after the last item of the account or claim accrued. Nor shall suit be brought against said city, or any board or officer thereof, upon any claim or demand that has been in whole approved and audited as provided herein; *provided*, that nothing herein contained shall be construed so as to deprive the holder of any demand of his right to resort to writ of mandamus or other proceeding against the council, or any board or officer of said city, to compel it or him to act upon such claim or demand, or to pay the same when so audited.

Sec. 222. All said claims or demands, except those provided for in section 214 of this charter, shall be presented to the mayor and common council for allowance. All claims or demands mentioned in section 214 of this charter must be presented to the board of directors of the Riverside public library or the board of public utilities respectively for allowance and must be approved by the auditor.

Such position or office may be filled by one of the officers or employees of the city so designated, or a new and separate office or position may be created. If the petition shall be found to be sufficient the clerk shall submit the same to the council without delay.

If the petition accompanying the proposed ordinance be signed by qualified and registered electors equal in number to ten per cent of the entire vote cast for all candidates for mayor at the last preceding general municipal election, the council must either pass such ordinance without alteration or submit the same to the electorate at the next general municipal election that shall occur at any time after thirty days from the date of the clerk's certificate of sufficiency. But if such petition is signed by qualified and registered electors equal in number to fifteen per cent of said vote and contains a request that such ordinance be submitted to a vote of the people at a special election, then the council must either pass the ordinance without alteration or submit the same to the electorate at a special election to be called within sixty days from the filing of such petition.

The ballots used when voting upon such proposed ordinance shall contain the words: "For the ordinance"; (stating the general nature of the ordinance) and "Against the ordinance," (stating the nature of the proposed ordinance). If a majority of the qualified electors voting on said proposed ordinance shall vote in favor thereof, such ordinance shall thereupon become a valid and binding ordinance of the city; and any ordinance proposed by petition or which shall be adopted by a vote of the people, can not be repealed or amended except by a vote of the people obtained in like manner.

Any number of proposed ordinances may be voted upon at the same election in accordance with the provisions of this sec-

tion; *provided*, that there shall not be held under this section of the charter more than one special election in any period of twelve months.

The Referendum.

Section 233. No action providing for the sale or lease of any city property exceeding one thousand dollars in value and no ordinance passed by the council (except when otherwise required by the general laws of the state or by the provisions of this charter, respecting street improvements and except an ordinance for the immediate preservation of the public peace, health or safety, which contains a statement of its urgency, and is passed by a vote of six members of the council and approved by the mayor or the unanimous vote of the council over the mayor's disapproval, but no grant of any franchise shall be construed to be an urgency matter), and no action made subject to the referendum by this charter shall go into effect before thirty days from the time of its approval by the mayor or the time of its passage over his veto, as the case may be; and if during said thirty days, a petition signed by electors of the city equal in number to at least ten per cent of the entire vote cast for all candidates for mayor at the last preceding city election at which a mayor was elected, protesting against the passage of such ordinance, be presented to the council, the same shall thereupon be suspended from going into operation and it shall be the duty of the council to reconsider such ordinance and if the same is not entirely repealed, the council shall submit the ordinance proposed, to the vote of the electors of the city either at the next general municipal election or at a special municipal election to be called for that purpose, and such ordinance shall not go into effect or become operative unless a majority of the qualified electors voting on the same shall vote in favor thereof. Said petition shall be in all respects in accordance with the provisions of the first section of this article (The initiative) and shall be examined and certified by the clerk in all respects as therein provided. If the provisions of two or more measures approved and adopted at the same election under the provisions of this charter, conflict, then the measure receiving the highest affirmative vote shall control.

The Recall.

Section 234. The holder of any elective office may be removed or recalled at any time by the electors qualified to vote for a successor to such incumbent; *provided*, such elective officer has held his office at least six months. The procedure to effect such removal or recall shall be as follows:

The petition demanding the election of a successor to the person sought to be removed shall be filed with the city clerk, which petition shall be signed by qualified voters equal in number to at least twenty-five per cent (25%) of the entire vote cast for all candidates for such office at the last preceding

Recall

regular municipal election at which such officer was voted for, and shall contain a statement of the grounds on which the removal or recall is sought, which statement is intended solely for the information of the electors. Any insufficiency of form or substance in such statement shall in no wise effect the validity of the election and proceedings held thereunder. The signatures to the petition need not all be appended to one paper. Each signer shall add to his signature his place of residence, giving street and number. Each separate paper shall have attached thereto an affidavit made by a qualified elector and sworn to before an officer, competent to administer oaths, stating that the affiant circulated that particular paper and saw written the signatures appended thereto; and that, according to the best information and belief of the affiant, each is the genuine signature of the person whose name purports to be thereunto subscribed and is that of a qualified elector. Within ten days from the date of filing such petition, the clerk shall examine and from the records of registration ascertain whether or not said petition is signed by the requisite number of qualified electors, and he shall attach to said petition his certificate showing the result of said examination. If by the clerk's certificate the petition is shown to be insufficient, it may be supplemented within ten days from the date of such certificate by the filing of additional papers, duplicates of the original petition except as to the names signed. The clerk shall, within ten days after such supplementing papers are filed, make like examination of the supplementing petition and if his certificate shall show that all the names to such petition, including the supplemental papers, are still insufficient, no action shall be taken thereon, but the petition shall remain on file as a public record; and the failure to secure sufficient names shall be without prejudice to the filing later of an entirely new petition to the same effect. If necessary the council shall allow the clerk extra help for the purpose of such examination. In case the clerk is the officer sought to be recalled, the duties herein provided to be performed by him shall be performed by some other person designated by the council for that purpose. If the petition shall be found to be sufficient, the clerk shall submit the same to the council without delay, and the council shall thereupon cause a special election to be held within not less than thirty-five nor more than forty days after the passage of an ordinance calling such election, to determine whether the voters will recall such officer; *provided*, that if a regular municipal election is to occur within sixty days from the date of the filing of the petition with the council, the council may, in its discretion, submit such recall at such regular municipal election. If a vacancy occurs in said office after a recall petition is filed, the election shall nevertheless proceed as in this section provided. One petition is sufficient to propose the removal and election of one or more elective officials. One election is competent for the removal and election of one or more elective officials. Nominations for any office under such recall election shall be

made by petition in the manner prescribed by section 1188 of the Political Code; except that no party affiliation of candidate, signer or verification deputy shall be given, nor shall the election as a convention delegate or participation in a primary election be any bar to signing such petition. Upon the sample ballot there shall be printed in not more than two hundred words, the reasons set forth in the recall petition for demanding the recall of the officer, and upon the same ballot in not more than two hundred words, the officer may justify his course in office. There shall be printed on the recall ballot, as to every officer whose recall is to be voted on thereat, the following question: "Shall (name of person against whom the recall petition is filed) be recalled from the office of (title of the office)?" following which question shall be the words "Yes" and "No" on separate lines with a blank space at the right of each, in which the voter shall indicate by stamping a cross (X) his vote for or against such recall. On such ballots, under each such question, there shall also be printed the names of those persons who have been nominated as candidates to succeed the person recalled, in case he shall be removed from office by said recall election; but no vote shall be counted for any candidate for said office unless the voter also voted on said question of the recall of the person sought to be recalled from said office. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office. If a majority of those voting on said question of the recall of any incumbent from office shall vote "No" said incumbent shall continue in said office. If a majority shall vote "Yes" said incumbent shall thereupon be deemed removed from such office, upon the qualification of his successor. The canvassers shall canvass all votes for candidates for said office and declare the result in like manner as in a regular election. If the vote at any such recall election shall recall the officer, then the candidate who has received the highest number of votes for the office shall be thereby declared elected for the remainder of the term. In case the person who received the highest number of votes shall fail to qualify within ten days after receiving the certificate of election, the office shall be deemed vacant and shall be filled according to law.

If any special election be ordered, held and conducted it shall be ordered, held and conducted (except as to date thereof) and the result be made known and declared, in the same manner as herein provided for other elections.

CHAPTER 34.

Senate Joint Resolution No. 7—Relative to memorializing and petitioning the President of the United States and congress to support congressional action and administrative leadership toward securing the benefits of tariff protection to all American farm producers, regardless of commodity, and petitioning for the restoration of adequate tariffs on imports of agriculture products from the Philippine Islands.

[Filed with Secretary of State April 10, 1929.]

Preamble.

WHEREAS, The encouragement and protection of the growth of agriculture products in the United States, and of the production of agriculture products, in interest of agriculture and as a measure of economic stability and defense, has been an important feature of our tariff policy; and

WHEREAS, A continuation of such policy is highly important from the standpoint of agriculture and as a defense against the dangers inherent in a condition of dependence on foreign supplies of agriculture products; and

WHEREAS, From the time the Philippine Islands were ceded to the United States, by treaty of peace April 11, 1899, until the passage of the so-called Philippine act of March 8, 1902, sugar and other products of the Philippine Islands entering our ports were assessed the same rate of duty as like products coming from other countries; and

WHEREAS, The act of March 8, 1902, provided that upon all articles the growth of the Philippine Islands coming into the United States from such islands there should be levied, collected, and paid only seventy-five per cent of the rate of duty upon like articles imported from other countries; and

WHEREAS, The tariff act of August 5, 1909, the Payne-Aldrich act, provided that all articles, the growth or product of the Philippine Islands, should be admitted into the United States free of duty, except rice and a specified amount of tobacco and cigars, and except in any fiscal year sugar in excess of three hundred thousand gross tons; and

WHEREAS, The fact that congress saw fit to levy the full rate of duty on Philippine products entering the United States from the time of the acquisition of the islands in 1899 until the passage of the act of 1902, and by the passage of the latter act continued to levy such duty to the extent of seventy-five per cent of the rates levied against other countries, is conclusive evidence that congress intended to protect American farmers from competition with cheaply produced products of Philippine soil; and

WHEREAS, There is now pending in congress an act for tariff revision; now therefore be it

Resolved by the Assembly and the Senate of the State of California, jointly, That we, the members of the Legislature of the State of California, urge and support congressional action and administrative leadership toward securing the benefits of tariff protection to all American farm producers, regardless of commodity, and also on those commodities that are competitors, but not necessarily produced in the United States, and for restoration of adequate tariffs on imports of agriculture products from the Philippine Islands; and be it further

Resolved, That the chief clerk of the Assembly be and he is hereby directed to send copies of this resolution to the President of the United States and to each member of the senate and house of representatives of the United States.

Assembly Joint Resolution No. 7—Relating to memorializing the congress of the United States for federal aid in making provision for the national forests of the state.

[Filed with Secretary of State May 15, 1929]

WHEREAS, The national forests in California constitute a large and important part of the natural resource of the state ;

WHEREAS, The adequate protection and successful management of this resource is of vital importance socially and economically to the people of California ; and

WHEREAS, Large losses from fire continue to occur and operate to defeat the purposes for which these national forests were created ; now, therefore, be it

Resolved, by the Assembly and Senate of the State of California, jointly, That the attention of congress be respectfully called to the need for making additional provision for the national forests of the state. Among the immediate needs are those having to do with the proper housing, communication and travel of the existing protection force, such as look-out houses, firemen's cabins, telephone lines, roads, trails, and fire trucks. Lack of sufficient facilities of this nature results in many fires becoming conflagrations, with large expenditures for their suppression and tremendous losses of timber and other forest resources. Second only to this need for additional facilities is the importance of augmenting the protection personnel to the end that the number of fires may be reduced through the employment of proper prevention activities and that the fires that do start may be held to minimum area through prompt and adequate attack.

of Oregon, Washington, and with the United States department of fisheries, relative to the control of salmon fishing.

[Filed with Secretary of State May 15, 1929.]

Preamble

WHEREAS, The reports of the fish and game commission of the State of California show that for some years last past the amount of salmon taken in the waters of the State of California has been diminishing, and that one of the chief causes thereof has been the excessive use of trolling, both adjacent to and off the coasts of California, Oregon and Washington; and,

WHEREAS, It has been reported that by reason of the fact that a part of said trolling activities have been conducted so far off-shore that no state, acting alone, has ample jurisdiction to regulate, prohibit or control the said fishing by trolling, and that millions of immature salmon are taken in their natural feeding grounds in this manner, thereby reducing the annual catch of this valuable food fish; now, therefore, be it

Fish and game commission directed to confer with other officials for protection of salmon industry

Resolved by the Senate, the Assembly concurring, That the fish and game commission of the State of California, be, and is hereby directed to confer with the proper officials of the states of Oregon, and Washington, and also with the United States department of fisheries, to the end that a comprehensive plan for the protection and control of the salmon industry may be outlined, and to report to the Legislature at the next regular session its findings and recommendations.

It shall be competent in any charter framed under the authority of this section to provide that the municipality governed thereunder may make and enforce all laws and regulations in respect to municipal affairs, subject only to the restrictions and limitations provided in their several charters, and in respect to other matters they shall be subject to general laws. The percentages of the registered electors herein required for the election of freeholders or the submission of amendments to charters shall be calculated upon the total vote cast in the city or city and county at the last preceding general state election; and the qualified electors shall be those whose names

appear upon the registration records of the same or preceding year. The election laws of such city or city and county shall, so far as applicable, govern all elections held under the authority of this section.
