TYLER, - TEXAS.

FALL and SPRING CATALOG

Look at pretty pictures mailed out by others but order the best plants possible to grow, from us.

We grow our plants and ship them fresh from our fields.

ROSES :: SHRUBS :: EVERGREENS :: FRUITS

TYLER CHAMBER OF COMMERCE

Tyler, Texas, June 17th, 1927.

Mr. A. L. Thompson,
Prop., Rosemont Nursery Co.,
Tyler, Texas.

Dear Sir:-

We are pleased to express our appreciation for the very fine nursery which you are building up from year to year, and we consider it a distinct asset to our city and county.

We believe that you have equally as good, if not one of the finest assortments of shrubbery, evergreens, roses, etc., which it has been our privilege to inspect and, apparently, they are true to type.

We are pleased to have such men as you as members of our Chamber of Commerce who are ever striving for the betterment and up-building of Tyler and Smith County.

Yours very truly,

E. P. McKENNA, President

A Peep Into One of Our Rose Fields

ROSEMONT NURSERY CO., Tyler, Texas

A WORD OF APPRECIATION—In presenting this our latest catalogue to the public, we wish to thank each and every old customer for their patronage in the past. We know we have pleased most of you by the many repeat orders we have received and personal letters praising our stock. We shall endeavor to merit and hold your confidence from season to season.

NEW CUSTOMERS—Those whom it has not been our pleasure to serve will please give us at least a trial order, we want you to know our plants.

MEMBER OF

American Association of Nurserymen.
Southwestern Association of Nurserymen.
Oklahoma Nurseryman's Association.
American Rose Society.

BUSINESS TERMS AND SUGGESTIONS—INFORMATION

LOCATION—Our Nurseries are located four miles west of Tyler on the Dixie Highway.

VISITORS—Welcome, we are glad to have you visit us and see the plants growing in the fields.

TELEPHONE number 9030.

ORDER BLANK—Please use it and fill out carefully.

TERMS—Cash.

SHIPPING INSTRUCTIONS—Customers will please state how they wish their plants shipped. When left to us we will use our best judgment.

PARCEL POST—Small parcels should be shipped by parcel post as this is safe and much cheaper.

POSTAGE—If order is to be shipped by Parcel Post, remittance must be made to cover postage. If you allow more than enough to cover carriage we will include extra plants if the refund justifies it at all.

PARCEL POST RATES apply on weights up to 70 pounds in the first, second and third zones. In zones 300 miles or more from Tyler, the limit is 50 pounds.

ROSEMONT NURSERY CO., Tyler, Texas

DOMESTIC PARCEL POST RATES

	1st. lb.	Add'l. lb.
First zone—Tyler and within 50 miles of Tyler	5c	1c
Second zone—Within 50 to 150 miles of Tyler	5c	1c
Third zone—Within 150 to 300 miles of Tyler	6c	2c
Fourth zone—Within 300 to 600 miles of Tyler	7c	4c
Fifth zone—Within 600 to 1000 miles of Tyler	8c	6c
Sixth zone—Within 1000 to 1400 miles of Tyler	9c	8c
7th zone—Within 1400 to 1800 miles of Tyler	11c	10c
8th zone—All over 1800 miles of Tyler	-----12c	12c

SAFE ARRIVAL—We guarantee safe arrival on all packages sent by mail or express. Should any customer fail to receive goods in a reasonable time, they should notify us, sending a copy of their order. Claims for adjustment must be made upon receipt of goods.

RESERVATION OF STOCK—Will be made when one-half the price accompanies the order. This is to accommodate those who are not ready to plant but wish to secure the stock before same is sold.

IF PLANTS are received during **FREEZING WEATHER**—do not open in warm air but place the package in good cellar or bury in the ground until it is thawed out.

LET NATURE HELP MAKE HOME ATTRACTIVE

With trees and shrubs as furniture, she will prove herself an artistic housekeeper. Four walls don't make a home. A bare dirt or sod yard about the house is as forbidding and uninviting as a living room without pictures, curtains, rugs or chairs. Poorly groomed house surroundings are discouraging and do not have the proper moral effect on the family. Besides they serve to depreciate the value of property. Every home is entitled to lawns, flowers, trees and shrubs. Give Ma Nature a free hand, and order her materials from Rosemont Nurseries; she will delightfully surprise you by using the rich blue sky as a ceiling, frescoing the walls with the tall members of the forest family and carpeting the floor with well woven bermuda. She will tie the dwelling to the lawn with a beautiful border and arrange beds, etc., just as tidy on the outside as Mary Ann does on the inside.

The effect will be to make the rest at the end of the day more rejuvenating. Dad, mother, brother and the girls will be grateful for the calm beauty of green and flowering shrubs.

ROSEMONT NURSERY CO., Tyler, Texas

THE COST IS LOW

Twenty-five or thirty dollars carefully spent now will be worth a thousand or more in a few years. You don't have to be a landscape gardner. Amateurs may drive around, picking out the best looking grounds and mentally registering the ideas that can be adapted to their own place. Carefully plan every detail. Write Rosemont Nursery Co.; they will gladly assist you in solving your problem. Try to select and arrange planting so that your home will be beautiful all the year. Money is not all. There is something more to be obtained from this life than "dirty lucre" and three meals a day. Every human heart craves beauty and comfort. One way for us to satisfy that inner longing is to create verdant, lovely settings for our homes; to plant grass, trees, bushes and flowers where they will be of esthetic value as well as for monetary worth.

And remember also the orchard and vineyard. They are ornamental and furnish delicious fruit for the family. The health of the family demands an orchard. The surplus, after taking care of home needs, may be turned into ready cash.

OUR SELECT LIST OF ROSEMONT ROSES.

Plant Rosemont Specimen Roses and Avoid Disappointment

Among all the flowering shrubs that make for beauty, grace and ornamentation, there is none that can compare with the Rose. The wide range of color, shape and size of the blooms, and the diversity and character of the foliage give it a wider range for decoration than any other group of plants. When added to those qualifications are the ease of culture, quick and ample response in blossoms, it is not to be wondered at that the Rose has been aptly termed the "Queen of Flowers."

ROSEMONT ROSES are not to be compared with the average class of plants offered the public. We grow our Roses here at Tyler under our personal supervision. The soil and climate is especially adapted to the development of fine Roses.

ROSEMONT ROSES ARE:

1. Field grown.
2. Budded on Disease Resisting Stocks.
3. Two years old.
4. Average Two to Three Feet in Height (Depending upon variety.)
5. Well Branched-Fine Root System.
6. Specimen Plants-only the best grades of plants is offered our customers.
7. Every Rosemont Specimen Rose has bloomed Freely one Season in the Field.

8. Fresh Plants-From the Field. They are not robbed of vitality by repeated handling.
9. True to Label—You get the variety you order or your money back.
10. Just ready to gladden your heart with the best there is in Roses.

We have culled our list of varieties closely, not a variety is offered which is inferior. A Rosemont Rose means a beautiful Rose, with desirable habits of growth.

HINTS ON CARE AND CULTURE OF ROSES

ANY GOOD GARDEN SOIL is alright for Roses, most amateurs make the mistake of enriching the rose garden too much. Select a SUNNY LOCATION away from trees and shrubbery, spade or plow well.

FALL PLANTING is preferred for the reason that the plants develop a root system during winter and are established ready to grow when spring comes. Any time during the dormant season however is alright—(From November the first to March the first, usually with us.)

MAKE AN OPENING LARGE ENOUGH TO RECEIVE THE PLANT with the roots spread out naturally, place the plant in position and fill hole about two thirds with top soil, water well, allow water to settle, and finish filling hole with soil. The plant should be set as deep as it grew in the nursery.

DO NOT EXPOSE PLANTS to the sun and wind, keep protected until you are ready to set each plant.

APPLY FERTILIZER on top the bed, any fertilizer used is best applied on top the bed. Well rotted barnyard manure is a fine fertilizer for roses also wood ashes.

CULTIVATION IS VERY IMPORTANT, keep the rose bed well hoed but do not dig deep—two inches is sufficient.

WATERING—During dry weather water after the fashion of a good rain, allow to dry out and cultivate. Do not keep the bed soaked all the time. Roses love water and must have moisture to grow and bloom but good drainage is also essential. They are never happy in a sour bed.

MILDEW AND BLACK SPOT may be prevented with a mixture composed of 9 parts dusting sulphur (not flowers of sulphur) to 1 part of powdered arsenate of lead. Mildew may be cured with this remedy but Black Spot is best checked by picking off affected leaves.

ROSEMONT NURSERY CO., Tyler, Texas

PRUNING—Rosemont Roses are pruned for setting before being shipped, they will need no further pruning the first season. Bush roses of Hybrid Perpetual type should be cut back to within five or six eyes of the ground and Bush roses of the Tea and Pernetian type should be cut down to about four eyes. Old weak stems should be entirely removed. The stems left should be cut just above an eye which points out. This gives the plant an open and well balanced shape. The proper time for pruning is just before the buds begin to swell in the Spring.

PRUNING CLIMBERS—Climbers which bloom only in the Spring should be pruned after they have finished blooming. They bloom on the wood of the previous season's growth and you cut off your blooms if you prune before they bloom in the spring. They should be pruned sufficient to keep in bounds and to remove old and weak canes and branches. Everblooming climbers should be pruned in the Spring to keep in bounds and to remove weak canes.

HE WHO WOULD HAVE BEAUTIFUL ROSES MUST LOVE THEM AND TAKE CARE OF THEM.

What we mean by Specimen Roses—Our Specimen size rose is the only rose we offer our customers. We find they prefer to pay a little more and get the best there is. Our Specimen size rose represents the very heaviest grade of our rose crop. Our price is the lowest possible considering grade of plants. They are cheap in price and high in quality. Any variety of rose we offer will pay for itself the first season in beautiful blossoms. Compare the value of the blossoms you gather the first season with the price you would have to pay at your florist

ROSEMONT NURSERY CO., Tyler, Texas

OUR SELECT LIST OF PINK BUSH ROSES.

RADIANCE (H. T.)-(J. Cook 1908)-America's leading H. T. Rose according to the decision of the American Rose Society. Indeed a beautiful Rose-we consider it our leading Pink. Beautiful pointed buds of clear even shade of pink, opening into a tulip shaped blossom on long graceful stems. Waxy foliage.

COLUMBIA (H. T.)-(E. G. Hill, 1917)-Ophelia X Mrs. Geo. Sawyer. Words fail to do justice to this marvelous new rose. A peach-blow pink, deepening as it opens. Superbly shaped bud and bloom, very large on nearly thornless stems of good length

MADAM BUTTERFLY-(H. T.)-(E. G. Hill, 1918)-Sport of Ophelia. A harmony of bright pink suffused with apricot and gold. The tight buds are a lovely shade of Indian red, yellow at the base. Unique in every way.

MADAM ABEL CHATANEY-(H. T.)-(Pernet Ducher, 1894)-Dr. Grill X Victor Verdier. A leading pink, good grower, perpetual bloomer, large and beautiful in bud and bloom. Deep recurved petals of rose-pink, tinted salmon; very popular.

JONKEER J. L. MOCK-(H. T.)-(M. Leenders & Co.)-Mme. Caroline Testout X Mme. Abel Chataney X Farbenkonigin. Clear pink, under side of petals rosy; almost silver white. Blooms of magnificent size on long, erect canes. Free bloomer, very double.

PINK MAMAN COCHET-(T.)-(Cochet, 1892)-Hardy vigorous grower; one of the most beautiful pinks. Flowers are of enormous size, very full and of great depth. Color rich coral pink, shaded rosy crimson; broad, thick shell like petals. Long pointed buds, good bloomer.

ROSE PREMIER-(H. T.)-(E. G. Hill, 1918)-A clear shade of deep rose-pink; very fragrant. Free grower; stiff, nearly thornless stems with handsome foliage. A beauty.

MADAM CAROLINE TESTOUT. (H. T.)-Pernet-Ducher 1890), Lady Mary Fitzwilliam X Mme. de Tartas. Brilliant satiny pink; immense broad petals and extremely large flowers. double and beautiful. Very fragrant.

MRS GEORGE SHAWYER-(H. T.)-(Lowe and Sawyer 1911)-Bright peach-pink flowers, large well formed, double. We consider this rose one of our best pinks. It is beautiful in every way; a vigorous grower and blooms well even during our long dry spells of summer. A handsome rose on long graceful stems.

PRICE, All roses except those marked (Special)-2 year field grown budded plants, specimen size, \$1.00 each, \$10.00 per dozen, \$80.00 per hundred. 25 roses may be bought at hundred rate.

ROSEMONT NURSERY CO., Tyler, Texas

FRANK W. DUNLOP—(H. T.)- A brilliant rose-pink variety of clear color, good bloomer, vigorous grower. Flowers on long stiff stems. Excellent for cutting.

MRS. CHAS RUSSELL—(H. T.)-(A. Montgomery, 1913). A bright rose-pink, deepening toward the center; large buds and flowers, with heavy leathery foliage. Thrifty, another good one.

PAUL NEYRON—(H. T.)-(Levet, 1869)-Victor Verdier X Anna de Diesbach. Paul Neyron though an old rose, has the distinction of producing the largest pink rose in the world, very double and full. Long graceful stems. Color a clear pink shaded to rose. Ranks second among the H. P. roses. Blooms profusely about three times each season in our section. A half dozen of these large pompons make a nice bouquet.

Every Rosemont Rose Has Bloomed Profusely One Year In The Field.

All Rosemont Roses are overbloomers except a few. Those which bloom only in the Spring are so listed.

LOS ANGELES—(H. T.)-(Howard & Smith 1916)-~~Madame~~ Segond Weber X Lyon Rose. Chosen by the American Rose Society as one among the twelve best roses in America. Los Angeles is a new rose originated in California and has made a big sensation. Subject to black-spot but may be protected from this trouble by formula given on page 4. The growth is vigorous and produces flowers continually on large stems, color a luminous flame-pink, toned coral, shaded gold at base of petals. Richly fragrant and having long pointed buds which open into a mammoth bloom.

HILLS AMERICA—Special—(H. T.)-(E. G. Hill Co., 1921). Premier X Hoosier Beauty. A fine new rose resembling Columbia. It blooms continuously from early May until frost. The buds are long and pointed and the color is the most glorious glowing rose-pink imaginable, opening up most artistically as the outer petals fold back, leaving the high pointed center fully exposed. You will be pleased with this fine rose.

Price 2 year field grown budded plants, Specimen size \$1.50 each, \$15.00 per dozen.

PRICE on all roses except those marked (Special)-2 year field grown budded plants, Specimen size \$1.00 each, \$10.00 per dozen. \$80.00 per hundred. 6 roses may be bought at dozen rate. 25 roses may be bought at hundred rate.

ROSEMONT NURSERY CO., Tyler, Texas

MME EDOUARD HERRIOT OR DAILY MAIL—(Pernet Ducher, 1913)-Mme. Caroline Testout X A Pernetiana Rose. A great novelty which is winning the admiration of all who see it. Produced by a French hybridizer and exhibited by him at the International Horticultural Exhibit held in London, England, May 1912. The London Daily Mail had offered a gold cup for the best new rose exhibited, Mr. Ducher won the cup with this beauty in competition with the world's greatest Rose Growers. The buds are coral-red shaded with yellow at the base, the open flower of medium size, semi-double, of a superb coral-red, shaded with yellow and bright rosy scarlet passing to shrimp-red. The bud is long, pointed and slender. Another rose among the best dozen of America, chosen by the American Rose Society. We consider it the best of its color.

COMMONWEALTH—(H. T.)-(A Montgomery Co., 1922)-Special. A new rose having long pointed buds and very large double open flowers borne singly on medium strong stems. The color is an even shade of pink, very clear. Has few thorns, good foliage, very fragrant. Good bloomer.

Price: 2 year field grown budded plants, Specimen size \$1.50 each, \$15.00 per dozen.

PILGRIM—(H. T.)-(A. Montgomery)-Special. A very full double rose of bright silvery-pink, delightfully fragrant has a large number of petals and never shows its center The open flower is flat in appearance.

Price 2 year field grown budded plants, Specimen size \$1.25 each \$12.50 per dozen.

TRY A BED OF ROSES ALL ONE COLOR. IMAGINE A LARGE BED OF RADIANCE OR COLUMBIA. IT'S THE IDEA NOW.

HAVE YOUR VARIETY ROSE GARDEN TOO—PLANT VARIETIES RELATED WITH COLORS WHICH BLEND.

PRICE all roses not marked "Special" 2 year field grown budded plants Specimen size \$1.00 each, \$10.00 per dozen, \$80.00 per hundred. 6 roses may be bought at dozen rate, 25 roses may be bought at hundred rate

ROSEMONT NURSERY CO., Tyler, Texas

OUR SELECT LIST OF FLESH PINK BUSH ROSES.
LARGE SPECIMEN 2 YEAR FIELD GROWN BUDDED
PLANTS.

MRS. CHAS. BELL—OR SHELL PINK RADIANCE—(H. T.)-(Mrs. Chas Bell 1927)-A sport from Radiance and just like it except the color is a very even shade of soft clear shell pink.

ANTOINE RIVOIRE—(H. T.)-(Pernet-Ducher 1895)-Dr. Grill X Lady Mary Fitzwilliam. Rich creamy white, delicately tinted with pink; extra large petals, full and double. Not just a faded pink—a distinct blending of rich cream and delicate pink, one of the most delicate shades.

CAPTAIN CHRISTY—(H. P.)-(Lacharme, 1873)-Victor Verdier X Safrano Large full buds, flowering delicate flesh-color, shading deeper in the center with prominent veins in the petals.

DEAN HOLE—(H. T.)-Flowers a splashed silver carmine, shaded salmon large, full and of fine form, highly fragrant; Growth robust and free flowering.

Do you know the thrill of a stroll in a rose garden, early in the morning when each blossom is laden with pearls of dew? It is doubtful if even an Infidel could look into their sweet faces and say "There is no God."

ROSEMONT SPECIMEN ROSES ARE SUPERIOR

Read what the leading rose "wizards" have to say on Field Grown Budded Roses—The American Rose Annual 1927 addition. They like them.

OUR SELECT LIST OF FIELD GROWN BUDDED
YELLOW ROSES.

Specimen Size Plants

LUXEMBOURG—(H. T.)-A new yellow. Flowers deep orange, much larger than Sunburst. Long, pointed buds on graceful stems; beautiful foliage strong thrifty grower. The best and most beautiful deep yellow Rose we have grown.

PRICE on all roses except those marked "Special", 2 year field grown budded plants, specimen size \$1.00, \$10.00 per dozen, \$80.00 per hundred. 6 roses may be bought at dozen rate, 25 roses may be bought at hundred rate.

ROSEMONT NURSERY CO., Tyler, Texas

LADY HILLINGDON—(T)-Lowe & Shawyer 1910)-Papa Gontier X Mme. Hoste. A leading yellow. Has a long slender, pointed bud of clear deep golden yellow; is always an even, intense golden yellow. Very thrifty.

MRS. AARON WARD—(H. T.)-(Pernet Ducher 1907)-A sport from an unknown seedling. Absolutely distinct, a color that catches the eye at once; coppery orange in open bud, golden orange later, pinkish fawn of lovely shade when fully developed.

ETOILE DE LYON—(T)-Deep golden yellow; full deep and rich flowers; very sweet. Free bloomer.

SUNBURST—(H. T.)-(Pernet-Ducher 1912)-Another leading yellow. The color is golden orange and deep yellow, varying at different stages of development.

PERLE DES JARDINES OR PERLE OF THE GARDENS—(T)-Flowers large globular in form, very double; color is clear rich yellow; richly perfumed.

GOLDEN OPHELIA—(H.T.)-(B. R Cant & Sons, 1919)-A Seedling of Ophelia. Bright golden yellow, slightly paler at outer petals. Medium sized, well formed buds, opening into a symmetrical, perfect bloom closely set, glossy green foliage.

OPHELIA—(H. T.)-(Wm. Paul & Son, 1912)This rose is loved by all who know it. Its blooms are large, full and perfect in form. The color is light salmon flesh, shading to yellow.

MISS LOLITA ARMOUR—(Per.)-Howard and Smith 1919 This sensational rose is a blending of orange, copper, yellow and fawn. It won the Bagatelle (Paris) prize in 1921-Large globular flowers on good stems. Fragrant. SPECIAL price: 2 year field grown budded plants, specimen size \$1.50 each. \$15.00 per dozen.

DUCHESS OF WELLINGTON—(H. T.)-(A. Dickson & Sons 1909)-Long pointed buds; blooms intense saffron-yellow, flushed crimson, changing to lighter yellow. A leading rose.

BETTY—(H. T.)-(A Dickson & Sons, 1905)-Large blossoms, full and well shaped, coppery pink, overspread with golden yellow. Deliciously fragrant.

WILLOWMERE—(Per.)-(Pernet Ducher, 1913)-Un-named Variety X Lyon rose. SPECIAL.

Color a rich shrimp pink, shaded yellow in center and toning to carmine pink towards the edge of the petals. Long coral buds on good stems.

Price: 2 year field grown budded plants, Specimen size \$1.25 each, \$12.50 per dozen.

PRICE on all roses except those marked "Special", 2 year field grown budded plants. Specimen size \$1.00 each, \$10.00 dozen, \$80.00 per hundred. 6 roses may be bought at dozen rate, 25 roses may be bought at hundred rate.

ROSEMONT NURSERY CO., Tyler, Texas

MADAM JENNY GUILLEMOT OR YELLOW KILLARNEY—(H. T.)-(Pernet Ducher 1905-A brilliant saffron- yellow opening canary with dark golden shades. Buds long and pointed; blooms large with immense petals. Thorny- good bloomer-good grower.

HUGONIS—(Rosa Hugonis)—A natural species from China which makes a dense round bush about 6 ft. high. The branches are long and arching and thickly set with small single flowers of clear bright yellow which does not fade. The foliage is finely cut pale green and borne on red stems. This rose blooms but once each season, very early in the Spring. It is such a beauty that every one wants it as an early Spring treat. It should not be planted in the bed with the Hybrid Teas and dwarf growing roses. Fine as a specimen plant.

Special Price 2 year field grown budded plants, Specimen size \$1.25 each, \$12.50 per dozen.

MRS. CALVIN COOLIDGE—Special—(H. T.)-(U. S Cut-Flower Co., 1924)-A sport from Ophelia. Bright yellow which darkens as the bloom develops-does not fade. New.

Price 2 year field grown budded plants, Specimen size \$1.50 each, \$15.00 per dozen.

GOLD MINE—Special—(H. T.)-(Jos H Hill Co., 1925)-Golden Rule X Mrs. Aaron Ward. A fairly strong and vigorous grower. Beautiful Bud, opening into golden yellow with orange center. New.

Price 2 year field grown budded plants, Specimen size \$1.50 each, \$15.00 per dozen.

SOUVENIR DE CLAUDIUS PERNET—Special—(Per.)-(Pernet-Ducher. 1920)-Constance X Nnamed seedling. This new rose is highly prized by a host of friends. It is a true sunflower yellow, very large and shows a large tuft of stamens when full blown. The foliage is especially pretty, luxuriant and bright green. This Rose is a wonder when developed perfectly. Personally we have not had the success with it in our section which most growers claim. We are trying to learn its "whims" and hope to be more successful with it. It loves dry sunny weather.

Price 2 year field grown budded plants, Specimen size \$1.50 each, \$15.00 per dozen.

PRICE on all roses except those marked "Special"-2 year field grown budded plants, Specimen size \$1.00 each \$10.00 per dozen, \$80.00 per hundred. 6 roses may be bought at dozen rate, 25 roses may be bought at hundred rate.

ROSEMONT NURSERY CO., Tyler, Texas

Every Rosemont Specimen Rose Has Bloomed Freely One Season Before Shipping.

WHY NOT HAVE A YELLOW ROSE BED—IMAGINE LUXEMBOURG, LOS ANGELES, WILLOWMERE, MISS SOLITA ARMOUR, SUNBURST AND LADY HILLINGDON!

Our Select List of White Bush Roses. Large Specimen, 2 Year Field Grown Budded Plants.

KAISERINE AUGUSTA VIKTORIA—(H. T.)-(P. Lambert, 1891)-Coquet de Lyon X Lady Mary Fitzwilliam. Queen of the white family. Pure white, never a tinge of pink. Splendid large buds and superb full double blooms. A continuous and profuse bloomer. We consider this rose our very best white. It has been chosen by vote of the American Rose Society as one of the best twelve roses in America from the H. T., T. and Per. group.

FIELD GROWN BUDDED ROSES ARE SUPERIOR

WHITE MAMAN COCHET—(T.)-(J. Cook, 1896)-Sport of Maman Cochet, Creamy white, with edges flushed Rose. Profuse bloomer, good grower-One of the best Tea Roses.

WILLIAM R. SMITH—(T.)-(Smith, 1908)-A seedling from Maman Cochet and Kaiserine Augusta Viktoria. Creamy white with strong tints of pink. Flowers freely-of good size-another good Tea Rose.

NATALIE BOTTONER OR YELLOW KAISERINE—(T.)-Delicate creamy yellow; almost pure white, extremely large and double. A fine Rose; very popular.

WHITE LA FRANCE—(H. T.)-Large and fine formed buds and blooms. Broad petals of silvery white with delicate shadings of pink; fragrant

PRICE on all roses except those marked "Special"-2 year field grown budded plants, Specimen size \$1.00 each \$10.00 per dozen, \$80.00 per hundred. 6 roses may be bought at dozen rate, 25 roses may be bought at hundred rate.

ROSEMONT NURSERY CO., Tyler, Texas

FAU KARL DRUSCHKI or WHITE AMERICAN BEAUTY—(H. P.)-(P. Lambert, 1900)-Merville de Lyon X Mme. Caroline Testout. This rose stands at the top of the H. P. group of Roses in America. Pure snow white, long pointed buds, large full flowers. The bud sometimes has just a tinge of flesh as it begins to open but develops into a pure white blossom. It has held its own in competition with all the new roses introduced since 1900. It will take a good one to beat it.

Our Select List of Red Bush Roses. Specimen 2 year, Field Grown Budded Plants.

SENSATION—(H. T.)-Jos.H. Hill & Co., 1924) Cross of Hoosier Beauty and Premier.

This new red Rose is a thrifty grower, luxuriant, waxy foliage, long jointed canes, willowery and graceful. Long pointed buds, large full blossoms of darkest velvety red, tinges and shadings of almost black. We consider this our most beautiful red rose.

SPECIAL—Price, 2 year field grown budded plants, specimen size \$1.50 each, \$15.00 per dozen.

RED RADIANCE—(H. T.)-(Gude Bros., 1916)-A glowing crimson sport of Radiance. Just like the parent except its color. Stands second among the twelve best roses of its class in America. You will want it with your collection.

FRANCIS SCOTT KEY—(H. T.)-(John Cook)-Seedling-One of the largest reds; easy to cultivate. Its color is deep red shading to cerise. A profusion of petals opening to a high center. Thrifty grower, very thorny, beautiful foliage-last well when cut.

HADLEY—(H. T.)-(Montgomery Co., 1914)-Liberty X Gen. McArthur. One of the most beautiful crimsons. Dark, Rich velvety. Well formed buds, large, double blossoms, very graceful on long stems.

CRUSADER—(H. T.)-(Montgomery Co., 1920)—Large double blooms on long necked stems. Rich velvety crimson Robust, free flowering, one of the best.

MARY COUNTESS OF ILLCHESTER—(H. T.)-(A Dickson & Sons, 1909-Unique in its warm crimson-carmine color. Flowers of great size, deliciously scented. A free Bloomer on long upright stems.

PRICE on all roses except those marked "Special"-2 year field grown budded plants, Specimen size \$1.00 each \$10.00 per dozen, \$80.00 per hundred. 6 roses may be bought at dozen rate, 25 roses may be bought at hundred rate.

ROSEMONT NURSERY CO., Tyler, Texas

GEN McARTHUR—(H. T.)-(E. G. Hill Co., 1924) A most beautiful shade of vivid crimson-scarlet. An eye catcher—one of the best.

ETOILE DE FRANCE—(H. T.)-(Pernet-Ducher 1904)-Abel Chatney X Fisher Holmes. A brilliant shade of clear red-crimson velvet, centering to a vivid cerise. Large flowers on long stiff stems. Bronze-green foliage.

GRUSS AN TEPLITZ—(H. T.)-(Geschwindt, 1897)-Sir J. Paxton X Fellenberg X Papa Contier X Gloire des Rosemones. Hardy over a wide range of territory; thrifty grower; incessant bloomer; produces a mass of vivid, dazzling, fiery crimson blooms, sweetly fragrant. Makes a great show.

AMERICAN BEAUTY—(H. P.)-(Bancroft, 1886)-An old favorite, well known, Large flowers, each born on separate stems. Vivid crimson in color; very fragrant.

EDWARD MAWLEY—(H. T.)-(S. McGrady & Son, 1913)-One of the finest of the dark crimson roses. Rewarded the gold medal of the National Rose Society of England.

RED COLUMBIA—(H. T.)-Special—A sport from Columbia. Semi-double, free flowering, thrifty grower, beautiful foliage. Shows the Columbia traits. Fragrant.

Price: 2 year field grown budded plants, specimen size, \$1.50 each, \$15.00 per dozen.

TEMPLAR—Special—(H. T.)-(Montgomery Co., 1924)-Premier X Montgomery. Seedling. A clear even shade of bright red, medium size, perfect stem, good foliage—A fine new Rose.

Price: 2 year field grown budded plants, specimen size, \$1.50 each, \$15.00 per dozen.

MATCHLESS—Special—(H. T.)-(Ducham-Pierson)—A sport from premier. Absolutely distinct; a deep rosy cerise color, deepening to pure red in cool weather. Large blossoms on good long stems. New.

Price: 2 year field grown budded plants, specimen size, \$1.50 each, \$15.00 per dozen.

HAVE YOU ORDERED ROSES AND FAILED TO GET WHAT YOU ORDERED? THEN AVOID SUCH DISAPPOINTMENT BY BUYING DIRECT FROM THE GROWER. ROSEMONT ROSES ARE MANUFACTURED BY ROSEMONT AND GUARANTEED BY ROSEMONT.

ROSEMONT NURSERY CO., Tyler, Texas

OUR SELECT LIST OF DWARF POLYANTHA ROSES

Specimen 2 year field grown budded plants.

This group of roses is entirely different to the large-flowered varieties, being of dwarf, compact habit of growth. Very beautiful used in masses or as borders. Many people of refined taste are using these as borders on the walk or as a division between lots, also as an outer border for beds of taller growing roses. They make a wonderful dwarf hedge of solid bloom from early April until freezing weather.

RED BABY RAMBLER OR ORLEANS—Dwarf Pol.—(Levavasseur, 1910)—The showiest and prettiest of the red baby Roses. Dwarf, compact habit of growth. This charming variety is a huge bouquet of small, double, red roses from early Spring until killing frost. Planted in mass or as a hedge it makes a grand show and is the admiration of all who see it.

GEORGE ELGER —T. Pol.—(E. Turbat & Co., 1912)—A superb Polyanthus rose with sufficient tea blood to make it different. It produces great quantities of lovely little buds of golden yellow opening into miniature symmetrical Roses. The plant is so loaded with blooms that it resembles a large bouquet. Free in growth and blooms all Summer.

MME CECIL BRUNNER—(Sweetheart Rose)—H. Pol.—(Mme. Ducher, 1881)—R. Polyantha X. Mme. de Tartas—This rose is rated as the leading dwarf Rose of America. No Polyantha Rose in commerce that can surpass it. It is exquisite with sprays of rich, rosy pink baby buds, which open into lovely, perfectly double, miniature flowers of seashell-pink. From a row of this rose you can have flowers all season for bouquets or boutonnières. It is intensely fragrant.

KATHERINE ZEIMET—Dwarf Pol.—Etoile de Mai X Marie Pavic. The baby white rose, produces pure white miniature blossoms in abundance, with fragrance similar to Hyacinths. Free growth, attractive.

BABY DOLL or TIP TOP—Pol. A new rose of the dwarf family, the most beautiful and unique of the group. It grows about 18 inches high and is literally covered with exquisite miniature blooms from early Spring until freezing weather. The tips of the petals show a vivid crimson, mellowing down into shades of pink, saffron, lavender, gold and finally at the base of the petals it is deep old gold. It rivals the rainbow—we have never seen a picture which represented it accurately, the artist seems to fail to get the proper blend with his pigment.

PRICE on all roses except those marked "Special", 2 year field grown budded plants, Specimen size \$1.00 each, \$10.00 per dozen, \$80.00 per hundred. 6 roses may be bought at dozen rate, 25 roses may be bought at hundred rate.

OUR SELECT LIST OF EVERBLOOMING CLIMBING
ROSES—PINK.

Specimen 2 year field grown budded plants

CLIMBING COLUMBIA—H. T. Special—Sport of Columbia. A climber of recent introduction, just like the parent except it is a vigorous climber. A peach blow pink, deepening as it opens. A large rose with long stiff stems, nearly thornless; free from mildew. Excites the admiration of all who see it.

Price two year field grown budded plants, specimen size, \$1.25 each, \$12.50 per dozen.

CLIMBING CAROLINE TESTOUT—H. T.-Sport of Mme. Caroline Testout.. Beautiful glowing pink, large petals, immense blooms. A rampant climber, very desirable, one of the best pink climbers.

CLIMBING CECIL BRUNNER—Cl. Pol. A sport of the dwarf bush variety of this name. Rosy pink on a rich creamy white ground, shaded light salmon. A beauty.

CLIMBING JONKEER J. L. MOCK— Cl. H. T. (Howard Rose Co., 1923)-A sport of bush Jonkheer J. L. Mock and like it except it is a vigerous climber. Read description of its parent on page 6.

CLIMBING HELEN GOULD—Cl. H. T. —Sport of Helen Gould. Bright Watermelon Red. The color could be classed dark pink or light red.

OUR SELECT LIST OF RED CLIMBING ROSES

Specimen 2 year field grown budded plants.

CLIMBING REINE MARIE HENRIETTA—Cl. T. (Lovet, 1878)-A strong growing and climbing rose, making a grand pillar rose in the South. Flowers full and well formed, rich brilliant crimson. We consider this rose one of our best red climbers.

CLIMBING AMERICAN BEAUTY—H. W. (Hoopes Bros. & Thomas Co., 1909)-R Wichuraiana Seedling X American Beauty. A beautiful red like the well known American Beauty bush Rose, with the addition of the climbing habit. A vigorous grower and free bloomer, producing its heaviest crop of bloom early in the season.

CLIMBING WOOTTON—Cl. H. T.—(Butler, 1899)—Velvet Red; profuse bloomer. A strong vigorous climber. Beautiful blooms well formed.

PRICE on all roses except those marked "Special", 2 year field grown budded plants, Specimen size \$1.00 each, \$10.00 dozen, \$80.00 per hundred. 6 roses may be bought at dozen rate, 25 roses may be bought at hundred rate.

ROSEMONT NURSERY CO., Tyler, Texas

CLIMBING METEOR—Cl. H. T.—Intense velvet crimson; large buds and blooms. Very double and born on long stems, with bright foliage of darkest green. Buds sometime ball in damp weather.

CLIMBING GRUSS AN TEPLITZ—Cl. H. T.—(Storrs & Harrison 1911)—A sport Gruss an Teplitz on a perfect sheet of crimson. Read description of its parent on page 14.

CLIMBING BABY RAMBLER—A true everblooming Crimson Rambler, covered with immense clusters of crimson blooms. Very popular. A solid mass of miniature red blooms the entire season. Not a rampant climber but climbs sufficient to cover a small trellace or makes an excellent pillar when trained to a stake.

OUR SELECT LIST OF WHITE CLIMBING ROSES

CLIMBING KAISERINE AUGUSTA VIKTORIA—Cl. H. T. (A. Dickson & Sons, 1897)—The best white climbing Rose—Pure white, shading at base of petals to a light cream. Very fragrant.

CLIMBING WHITE MAMAN COCHET—Cl. T. Leedle Co., 1911)—Very large beautifully formed in bud and bloom. Pure waxy white pink shade. A sweet and continuous bloomer.

OUR LIST OF CLIMBING YELLOW ROSES.

Specimen 2 year field grown budded plants

CLIMBING SUNBURST—Cl. H. T.—(Stuart, Low & Co., 1914)—Orange-copper, golden orange and golden yellow are its colors at different stages of development. All intense shades. A giant rose, long stems, long pointed buds, vigorous climber.

CLIMBING OPHELIA—Special—Cl. H. T.—A brilliant salmon flesh shaded with rose on outer edges of petals, with a heart of glowing peach pink and orange, yellow blendings, all passing finally to lighter shades. Very fragrant, faultless form in bud and flower; erect habit, stiff long stems; free and continuous in bloom; handsome bright foliage.

Price two year field grown budded plants, Specimen size, \$1.25 each, \$12.50 per dozen.

MARCHAL NIEL—(Fradel, 1864) Noisette rose from Isabella Gray. This is an old favorite which still holds its prestage in competition with the many fine new ones. A vigorous climber.

CLIMBING PERLE DES JARDINS—Cl. T.—Rich and beautiful shade of clear golden yellow; flowers large, globular formed, richly perfumed.

ROSEMONT NURSERY CO., Tyler, Texas

CLIMBING MRS. Aaron Ward—Special Cl. H. T.—(A. Dickson & Sons, 1922)—A climbing sport of Mrs Aaron Ward—flowers identically with bush variety. Vigorous and free blooming. Read description of parent on page 10.

Price two year field grown budded plants, Specimen size, \$1.25 each, \$12.50 per dozen.

CLIMBING LADY HILLINGDON—Special—Cl. T. (Hicks 1917)—This climber is proving as popular as its parent, the bush variety of same name. Deep yellow, orange shade, good size bloom, long pointed bud.

Price: two year field grown budded plants, specimen size, \$1.25 each, \$12.50 per dozen.

OUR SELECT LIST OF HARDY RAMBLER AND PILLAR ROSES.

SPECIMEN 2 YEAR FIELD GROWN BUDDED PLANTS

This type of rose is being appreciated more each year. True most of them bloom only in the Spring, but what a feast while it lasts.

DR. VAN FLEET—H. W. (Dr. W. P. Van Fleet, 1910)—R. Wichuraiana Seedling X Souvenir du President Carnot. Selected by the American Rose Society as the best climbing rose in America. Large delicate, flesh pink flowers borne singly on long stems. The center of the blossom is built high, petals beautiful undulated and cupped. Color is dark in center—rosy flesh. This wonderful new Rose blooms only in the Spring but is a treat you will look forward to from season to season. It is a rampart grower and should have plenty of room. It will make good in just ordinary soil and may be trained over a fence, wall trellis or to a stake. Will produce hundreds of long stemmed blossoms each season.

MARY WALLACE—Special—H. W. (Dr. Van Fleet 1921)—H. Wichuraiana X Pink Hybrid Tea. Another one of Dr. Van Fleet's productions. As with all the Van Fleet family it is a very thrifty and free bloomer Large Glossy foliage. Flowers large, semi-double, bright clear rose-pink with salmon base. Blooms profusely in Spring and again occasionally through out the season.

Price: 2 year field grown budded plants, Specimen size, \$1.50 each, \$15.00 per dozen.

SILVER MOON—H. W. (Van Fleet, 1910)—Wichuraiana X Cherokee. The flowers run four and one half inches in di-

ROSEMONT NURSERY CO., Tyler, Texas

ameter, clear silver-white in color, petals of great substance and beautifully cupped. The center is filled with beautiful bright yellow stamens, a very attractive feature. The plant literally covers itself with clematis like flowers born on long strong stems, 12 to 18 inches long and delicate. Blooms for a long time in the Spring.

EXCELSA OR RED DOROTHY PERKINS—H.W.-Walsh, 1909)—Intense crimson-scarlet; double flowers in brilliant clusters set in glossy shining foliage which never mildew or spots. An intensified Crimson Rambler. Extremely vigorous and handsome. Blooms only in the Spring for a long period.

PINK DOROTHY PERKINS—H. W.-(Perkins, 1902)-This is a beautiful Rambler which is fairly well known. The growth of a single season is wonderful, its handsome green foliage being one of its strong points. The flowers however are its crowning glory, being born in immense clusters of fifteen to thirty, and possess great lasting qualities. Color is a beautiful shell-pink, very double, pink petals artistically crinkled. It is subject to mildew but this may be prevented by dusting with formula on page 4. Don't wait for mildew dust ahead of it and keep it off. Flowers only in the Spring.

TAUSENDSCHON OR THOUSAND BEAUTIES—(Schmidt, 1906)—Crimson Rambler X Tea Rose X Polyantha. A grand hardy climbing Rose—soft pink, flowering very freely in the Spring in large clusters. Vigorous and almost free from mildew. Makes a fine pillar rose or is wonderful on trellis, fence, or any place one desires a vigorous Rambler.

PAUL'S SCARLET CLIMBER—H. W.—(William Paul & Son, 1916)—This rose in reality is not a Rambler but an entirely distinct hybrid, and without doubt the most important addition to our list of climbers in many years. No other rose in any class can compare with it for brilliancy of color, which is a vivid scarlet that is maintained without burning or bleaching until the petals drop. The flowers are of medium size, semi-double, very freely produced in clusters of from three to twenty flowers each on much branched canes, the plants being literally covered with flowers from top to bottom. A strong climber and perfectly hardy. The very finest pillow rose when trained to stake. You have to see this rose to appreciate it for words fail to describe the brilliant color. Blooms in Spring.

PRICE on all roses except those marked "Special", 2 year field grown budded plants \$1.00 each, \$10.00 per dozen, \$80.00 per hundred. 6 roses may be bought at dozen rate, 25 roses may be bought at hundred rate.

ROSEMONT NURSERY CO., Tyler, Texas

AMERICAN PILLAR-H. W.-(Dr. Van Fleet, 1905)-R
Wichuniana Setigera Seedling X a red Hybrid perpetual, large,
five petal single rose of rosy pink color, approaching brilliant
carmine, white center and golden yellow stamens. Borne in
clusters and completely covering the plant in spring. A very
vigorous and rank grower. Foliage is dark green and hangs
on until after heavy frost.

AMERICA'S BEST DOZEN BUSH ROSES.

As determined by mail vote of the American Rose Society 1927
(H. T. and Per Groups).

Each Rose listed in accordance with the number of votes
cast in its favor.

1. Radiance	each, \$1.00
2. Red Radiance	each, 1.00
3. Ophelia	each, 1.00

12. Kaiser in Auguste Viktoria	each, 1.00
Total	12.50

We will supply America's best dozen in two year field grown
budded plants. Specimen size for \$10.00.

SHRUBS THAT BLOOM.

Flowering shrubs have their place in every landscape plant-
ing. At the house foundation is an excellent place to plant
shrubs. They tie the house to the lawn and add such an invit-
ing "homy look," "its not a home until its planted." It is well
to use enough evergreen to give your planting a "live" appear-
ance in winter and use flowering shrubs for color during spring,
summer and fall. By careful selection one may have something
"blooming pretty" all the time.

We list only One Size of Flowering Shrubs-Large plants
Which You Will Appreciate.

ALTHEA-ROSE OF SHARON.—This plant is an old time
favorite which may be trained into a small tree or allowed to
branch from the ground forming a clump. It is beautiful either
way. We have them with large double blossoms, following
colors: RED-PINK-WHITE-PURPLE.

Price: Large choice plants, 4 feet high, 75c each, \$7.50
per dozen.

ROSEMONT NURSERY CO., Tyler, Texas

BUDDLEIA or **BUTTERFLY SHRUB**—Called Butterfly Shrub because it attracts butterflies in large numbers with its fragrant blossoms. A quick growing soft-wooded plant bearing tapering pinacles of lilac-colored flowers in great profusion. Begins blooming in May with us and continues profusely until frost. If left unpruned it makes a dense symmetrical plant 6 to 7 feet high.—75 cents each, \$7.50 per doz.

CALYCANTHUS or **SWEET SHRUB**—Produces a rare chocolate-colored flower with a fragrant odor. Fragrant wood. Remains in bloom a long time in summer.

Price, Large 2 year plants 2 feet high and branched 60 cents each. \$6.00 per doz.

CORAL BERRY—A small shrub attaining a height of 4 feet, graceful arching habit of growth. Produces red berries in profusion in early Autumn which hang on until spring.

Price, Large plants 3 feet high, well branched 40 cents each. \$4.00 per doz.

CREPE MYRTLE—This shrub makes a good showing all summer, stands drought well and should be in every Southern Planting. May be trained into a small tree, allowed to branch from the ground, used as a screen planting or pruned into a hedge. We have it in **WATERMELON-RED**—(the prettiest of the Crepe Myrtles), **PINK**, **WHITE** and **PURPLE**.

Price, Large 2 year plants, 3 feet high, well branched, 75 cents each, \$7.50 per doz.

FORSYTHIA or **GOLDEN BELL**—The earliest blooming of all shrubs. Plants a mass of golden fringe shaped blooms before the leaves appear. We have two varieties.

FORTUNIA—(The upright Golden Bell attains a height of 8 to 10 feet.

SUSPNSA—(Drooping Golden Bell—Attains a height of 6 to 8 feet.

Price, Large 2 year plants 3 feet high or more, well branched 75 cents each. \$7.50 per doz.

DEUTZIA—Pride of Rochester, grows strong and upright six to eight feet, blooms in panicles 1 to 2 feet long. Small double blossoms, white, tinged lavender.

Price, Large 2 year plants 4 feet high and well branched 75 cents each. \$7.50 per dozen

WHITE FLOWERING DOG-WOOD-CORNUS—A native tree known to every one. Desirable for flower effect early in the spring before the leaves appear.

Price, Nice, well branched plants 3 to 4 feet high 60 cents each. \$6.00 per dozen.

FLOWERING PEACH—We have the double red, pink and

ROSEMONT NURSERY CO., Tyler, Texas

white. A most beautiful small tree rarely over twenty feet tall, at its blooming time in March. here, every twig and branch is bright with beautifully formed flowers, rendering the tree showy and attractive. The habit of the three varieties is the same, the only difference being the color of the flowers. Useful as a lawn specimen or in a tall screen.

Price, strong plants, 3 feet high 75 cents each. \$7.50 per dozen.

HYDRANGEA—The New Everblooming Hydrangea is as its name implies constantly in bloom. This plant is one of the most valuable additions in recent years in the way of flowering shrubs. The blooms are borne in clusters of immense size of pure white flowers. It will grow to perfection on the north-side in a shady position, making it most valuable for massing under trees where other shrubs do not thrive. This plant is subject to root knot and if planted on infected premises small amount of lime or ashes should be sprinkled on the bed to protect it.

Price, strong well branched plants \$1.00 each, \$10.00 per dozen.

LILAC—Everyone knows this legacy from grand-mother's garden. We offer one variety, the one we consider best.

ROTHOMAGENSIS—This lilac is a good grower and profuse bloomer. flowers in panicles of a good lilac color. very fragrant. Our plants are all grafted from flowering stock, there is no disappointment in blooms- they are sure to blossom.

Price, heavy plants 3 to 4 feet high, well branched \$1.00 each, \$10.00 per dozen.

MOCK ORANGE—An old favorite with grand-mother. A vigorous growing shrub attaining a height of 8 feet. Used extensively as hedge or specimen plant. Literally covers itself in Spring with white blossoms.

Price, heavy plants 3 feet high or more, well branched 60 cents each, \$6.00 per dozen.

POMGRANATE—this is a well known shrub having glossy green leaves with large, wax-like beautiful flowers about two inches across. Generally hardy in north Texas but fully hardy from Tyler, Waco and South. One of the brightest and most popular flowering shrubs in the South. When pruned becomes spiny and makes a defensive hedge. We have two colors, Red and Yellow with red splashes.

Price heavy plants 3 feet high or more, well branched 60c each, \$6.00 per dozen.

ROSEMONT NURSERY CO., Tyler, Texas

RED BUD—*Cercis*. Also called Judas Tree, a native of our woods, literally covered with its red or pink blossoms in spring, early before the leaves appear. It is a small shapely tree, wood very tough and the leaves rather heart shaped and of fair size. Beautiful mixed with Dog-Wood in mass plantings

Price, strong plants 3 to 4 feet high 50c each, \$5.00 per dozen.

SPIREA—No other class of shrubs embraces a more extensive variety of flowers, foliage and habit of growth than Spireas. Hardy and desirable.

VAN HOUTTE—Grandest of all the Spireas: always beautiful, but when in bloom a complete fountain of white foliage hardy showing.

Price, hardy plants, well branched 4 to 5 feet high 50c each, \$5.00 per dozen, \$35.00 per hundred.

ANTHONY WATERER—This a dwarf member of the Spirea family and very valuable as a specimen, mass planting or border work. Color bright pink, a compact low growing shrub, with dense foliage, silvery-green, occasional sprays variegated yellow. Flowers are borne in full flat clusters on erect stems, always in bloom from early May until freezing weather. Attains a height of 2 feet.

Price, strong hearty plants 18 inches high, well branched 75c each. \$7.00 per dozen.

SPIREA CALLOSA ROSE—Has large panicles of deep rosy blooms. Grows freely and blooms nearly all summer. Excellent.

Price, strong plants, \$1.00 each, \$10.00 per dozen.

THUNBERGII—This is another dwarf Spirea and one of the prettiest of the family. Rounded and graceful in form; branches slender and drooping, foliage narrow, yellowish-green and very dense. Blooms very early in spring and is literally covered with clusters of small white flowers just as the leaves begin to appear. Wonderful for mass planting in front of taller growing flowers or border work. Attains a height of about 2 feet.

Price, heavy plants, well branched 75c each, \$7.50 per dozen, \$60.00 per hundred

BILLARDI—Very graceful, flowers bright pink, medium height. A pretty Spirea. Price. Strong plants 3 feet high, branched 75c each, \$7.50 per dozen.

BILLARDI—White—same as Spirea Billardi Pink except it is white. Price, strong plants well branched, 3 ft. high 75c each, \$7.50 per doz.

ROSEMONT NURSERY CO., Tyler, Texas

PRUNUS PISSARDII—PURPLE LEAF PLUM—An upright growing small tree; foliage of a decided purple hue. Used extensively for the contrast which the purple foliage gives. Attains height of 10 to 12 feet. Nice trees, well branched about 4 feet high, \$1.50 each

VITEX also called Chaste Tree. A strong grower, growing as high as 8 to 10 feet. One of the best for the background for large shrubberies and for hiding old and unsightly buildings and undesirable views. It blooms in dense spikes 6 to 8 inches long from June first with us until frost. The color we have is a pleasing shade of purple. Price, heavy well branched plants 75c each, \$7.50 per dozen.

TAMARIX AFRICAN—Called salt cedar. Tall upright growing, with soft feathery foliage and panicles of pinkish-lavender flowers. Beautiful in shrub border or as specimen. Attains considerable height but may be pruned to personal taste.

Price, heavy well branched plants 4 feet high 75c each, \$7.50 per dozen.

TAMARIX AMERICAN—Tamarix Hispida. A comparatively new variety of medium height; very vigorous, but not very compact; open and airy looking. Bluish-gray foliage with carmine-pink flowers covering half the length of the new branches in early summer, occasionally blooming again in the fall. Price, heavy well branched plants 3 feet high 75c each, \$7.50 per dozen.

WEIGELA ROSA—The prettiest of the weigelas in our section. Literally covered with trumped shape blossom, pink color. Branches drooping. Price, heavy plants, branched 3 feet high 75c each, \$7.50 per dozen.

YELLOW JASMINE—(Jasmine Nudiflorum)—Planted in a warm, sunny corner, this low-growing, spreading shrub will give a wealth of bright yellow flowers in February. It can also be trained on a trellis and grown as a vine. Price, heavy plants well branched, 50c each, \$5.00 per dozen.

Italian Jasmine—A shrub with bright green arching branches and bright yellow flowers in clusters during summer. Perfectly hardy and nearly evergreen. Price, heavy well branched plants, 50c each, \$5.00 per dozen.

JAPAN QUINCE—(Cydonia Japonica)—Also called flowering Quince. One of the most popular shrubs. The variety we offer has bright red flowers which appear very early in the spring before the leaves force, literally covering the plant. Blossoms hold on for a long time. Fine as specimen when it is old enough to make a clump, nice mixed in the shrub border, mass planting or for hedges. Price, strong well branched plants 75c each, \$7.50 per dozen.

ROSEMONT NURSERY CO., Tyler, Texas

KERRIA—(*Kerria Japonica*)—Graceful arching branches with bright green foliage, dark and small pointed leaves. Bright yellow flowers resembling small double yellow roses, borne in profusion nearly all summer. Attaining a height of 6 to 8 ft. Price, 18 inch plants branched, 50c each, \$5.00 per doz.

FLOWERING ALMOND—An old favorite, Literally covered early in the spring with small double blossoms resembling miniature roses. Attractive in border and foundation plantings. We have it in two colors, pink and white. Price, nice plants 3 feet high, 75c each, \$7.50 per dozen

BUSH HONEYSUCKLE—This plant is often used in hedge, mass or as a specimen plant. Similar to the climbing plant by the same name. Small trumpet shaped blossoms. We have it in two colors pink and white. Price well branched plants 2 to 3 feet high 60c each, \$6.00 per dozen.

FLOWERING WILLOW—This plant makes a small tree of the well known willow type, hardly as switchy. Blooms profusely during summer. We have two colors purple and white. Price, heavy well branched plants 3 feet high 75c each, \$7.50 per dozen.

PUSSY WILLOW—The earliest spring beauty, catkins used by florist. Popular in group or mass plantings. Price, strong well branched plants 40c each, \$4.00 per dozen.

YUCCA—(*Y. filamentosa*)—Sometimes called Adam's needle, long sword like leaves of tough leathery texture. The leaves grow in stools from the center. In spring a large head of white globe shaped blossoms is borne on a tall stem. Price, 50c each, \$5.00 per dozen.

DESMODIUM—(Sweet Pea Shrub)—We have two colors, white and variegated. Flowers late in the summer when others blossoms are scarce. Price, 24 inch plants 50c each, \$5.00 per dozen.

BECHTEL'S FLOWERING CRAB—One of the finest of the flowering crabs. Forms a symmetrical round headed tree virtually covered in early spring with a profusion of double flowers of a most delicate soft pink. Price, tree 3 to 4 feet high well branched \$1.50 ea h

EXORCHORDA—PEARLBUSH—Common Pearlbush (*Exorchora grandiflora*)—A most effective large growing shrub with small, light green foliage; in early spring completely enveloped by beautiful pure white, waxy foliage; ultimate height 8 to 10 feet. Price 2 to 3 feet plants, well branched, 60c each \$6.00 per dozen.

HARDY EVERBLOOMING SALVIA—(*Salvia X Greggii*)—A rugged little shrub from West Texas, with fine dark green foliage, bearing bright carmine red flowers from spring until

frost. Showy and satisfactory under the most adverse conditions. Grows 3 to 4 feet high. Price, 13 to 24 inch plants 75c each, \$7.50 per dozen.

SCOTCHBROOM—(Cytisus Scoparius)—A yellow flowering shrub bearing in spring a profusion of yellow pea shaped flowers along the entire length of the branches, which attains a height of 4 to 5 feet. The flowers are about the shade of Golden Bell and last well when cut. The growth of the plant is slender, switchy and graceful, the leaves small and inconspicuous. Branches remain green all winter. Price 2 year plants well branched 3 feet high 75c each, \$7.50 per dozen.

CLIMBING VINES

Ornamentals of this class are so hardy and beautiful that they deserve greater attention than they have received in times past. Nothing lends such pleasing effect to wall or veranda as the judicious use of vines, and they are indispensable for covering unsightly walls or other objects.

ENGLISH IVY—(Hedera Helix)—A very fine variety with large, thick, shining, leathery leaves; grows rapidly and is considered one of the best of its class. Price, strong plants 50c each, \$5.00 per dozen.

HALL'S JAPAN HONEYSUCKLE—A strong evergreen vine, leaves dark green with slight fuzz or hairs; flowers white, changing yellow; very fragrant. A long continuous bloomer. Price, heavy plants well branched 50c each, \$5.00 per dozen.

RED HONEYSUCKLE—flowers larger than most any other kind, bright red, blooms early and is one of the best. Price, heavy plants well branched 50c each, \$5.00 per dozen.

VIRGINIA CREEPER—A high climbing vine for walls, chimneys, tree trunks, etc. Well known and popular. Leaves take on a striking Autumn hue. Price, heavy plants, well branched 50c each, \$5.00 per dozen.

RED TRUMPET or WOODBINE—A native vine growing throughout the South. A strong grower, and early bloomer. continuous. Flowers red. Price, strong plants 50c each, \$5.00 per dozen.

WISTERIA—CHINESE—A strong growing vine; of good foliage, and with a profusion of bunches, twelve inches long, of purple, pea-shaped flowers in spring.

WHITE—Very similar to above, differing in that the flowers are always white. We have Wisteria seedlings also grafted plants. The seedlings often fail to bloom for several years. The grafted plants are propagated from flowering scions and are sure to bloom. Prices, Heavy well branched seedling plants 50c each, \$5.00 per dozen. Heavy well branched grafted plants \$1.50 each

ROSEMONT NURSERY CO., Tyler, Texas

WINTER CREEPER—(*Euonymus radicans*)—A beautiful evergreen vine small bright green leaves, compact growth, perfectly hardy, moderately rapid growing. Fine for covering stumps and rocky places as well as for planting against buildings. Price, strong well branched plants 15 to 18 inches long 60c each, \$6.00 per dozen.

BABY WINTER CREEPER—(*Euonymus Kewensis*)—Similar to Winter Creeper or *Euonymus Radicans* except it is very small leaved, dainty and trailing. Valuable for a ground cover and to plant under trees and high shrubs where grass will not grow. Price, strong well branched plants 12 inches long 75c each, \$7.50 per dozen.

CAROLINA JESSAMINE—Bright yellow shaped blossoms, extremely fragrant; and borne in profusion during spring. Evergreen—one of the prettiest of Jessamines. Price, 2 year plants 75c each, \$7.50 per dozen.

CLEMATIS PANICULATA—A rapid growing climber, sometimes growing 20 to 30 feet in a season; in September the vine is covered with a mass of small, star-shaped, white flowers and continues to bloom almost till frost; flowers are very fragrant; desirable for porches, arches and fences. Price, strong hardy plants 50c each, \$5.00 per dozen.

ROSA DE MONTANA—(*Antigonon Leptopus*)—Also called Coral Vine and Queens Wreath. A vine from Mexico, which climbs vigorously and produces immense masses of pink flowers, leaves light green, heart shaped. Price, 2 year bulbs 60c each, \$6.00 per dozen.

BIGNONIA—(*Tweedia*)—A yellow trumpet vine with many long slender shoots climbing to any surface, and making a dense mat of foliage. Price, 2 year plants 75c each.

BROAD LEAVED EVERGREENS

These are very essential in every planting; they may be used effectively in any number of situations. As a screen, background, in foundation plantings or as individual specimens. Enough of these should be planted with your flowering shrubs to insure attractiveness in winter as well as summer.

ABELIA GRANDIFLORA—After a thorough test in different parts of the South, we find this plant one of the most valuable shrubs for hedge, massing or as specimens. It does remarkably well in sun or in semi-shade. It is evergreen and the graceful drooping stems are covered with dark glossy green leaves and produce an immense quantity of tubular shaped, flesh-colored flowers about an inch long. It is a profuse bloomer from the middle of May until frost. By pinching back during growing season a compact growth is produced.

ROSEMONT NURSERY CO., Tyler, Texas

Price, well branched plants 2 to 3 feet high \$1.00 each, \$10.00 per dozen Price, heavy well branched plants 3 to 4 feet high \$1.50 each, \$15.00 per dozen. Price, 12 inch plants for hedge and border work \$40.00 per hundred. 25 plants at hundred rate.

Abelia may be shipped bared-rooted with success. Balled if requested for 25c each extra.

CAPE JASMINE—(Gardenia Florida)—Evergreen shrub of medium growth with large glossy foliage and white wax like flowers Extremely fragrant. This is the ever-blooming type, blooms profusely in spring and occasionally during the summer. Large blossoms. Price, 18 inch plants, well rooted. 75c each, \$7.50 per dozen. Price, 24 inch plants, well branched, \$1.00 each, \$10.00 per dozen. Price specimen clumps 3 feet high and 3 feet across \$3.00 each, balled and burlapped.

DWARF CREEPING CAPE JASMINE—(Gardenia Radicans)—A dwarf creeping form of Cape Jasmine, (Gardenia). Grows about 1 foot tall, small glossy green foliage, long pointed. Spreading habit of growth. Flowers similar to the large Cape Jasmine but smaller. Very pretty. Fragrant. Fine as pot plant or out-door specimen. Price, well branched plants \$1.00 each, \$10.00 per dozen.

EUONYMUS

JAPONICA—An evergreen similar in appearance to box, but with large more glossy leaves and more rapid growth than Box. Fine for single specimens. Also makes a beautiful hedge or border. Fine for foundation planting with lower growing plants planted in front of it. Reaches height of 5 to 7 feet un-pruned. Price, 18 to 24 inch plants, branched, \$1.00 each, \$10.00 per dozen. Priced, 12 to 15 inch plants, branched, for border work, \$45.00 per hundred.

EUONYMUS JAPONICA COLUMNARIS—(Evergreen Burning Bush)—This Euonymus is of compact form, the leaves smaller and more densely set than in the plain Japonicas. Price, nice plants, branched, 15 inches high 75c each, \$7.50 per dozen.

EUONYMUS CARRIERI—(Glossy Winter-creper)—This Euonymus is low growing with spreading branches and shiny green leaves turning bronze during winter. Grows well in sun or shade. Price, nice plants, branched 12 inches high 50c each, \$5.00 per dozen.

ELAEAGNUS

BRONZE ELAEAGNUS—(Elaeagnus Reflexa)—Large leaves, slender shape dark green on upper surface, brownish mottled beneath. The new growth is of a rich fawn color and this color is retained for a long time making a beautiful contrast to the mature leaves. Useful in screen planting, speci-

ROSEMONT NURSERY CO., Tyler, Texas

men or mixed with other shrubs makes a beautiful contrast. Price, heavy, well branched plants, balled and burlapped, 3 feet high, \$3.00 each.

THORNY ELAEAGNUS—(*Elaeagnus Pungens*)—Produces fragrant yellowish white flowers about one quarter inch long during January or February. Spreading habit of growth, silvery foliage and brown mottled branches. Price, 18 to 24 inches tall, well branched, balled and burlapped \$1.75 each, \$17.50 per dozen.

SILVERLEAF COTONEASTER—(*Cotoneaster Pannosa*)—A beautiful plant of medium height, with slender thick set branches. leaves dark silver gray, margined with lighter shade. Will give life and color when planted with shrubs of darker color. Price 18 inch plants, well branched plants \$1.00 each, \$10.00 per dozen.

YAUPON—(*Ilex Vomitoria*)—Medium to tall shrub with small dark green oblong leaves having serrated edges, small flowers of yellowish white borne in clusters during spring. Bright scarlet berries are borne in profusion on wood of previous season. With age attains height of 25 feet. Price 12 to 18 inch plants, branched, \$1.50 each, \$15.00 per dozen.

CAROLINA CHERRY LAUREL—Large shrub or small tree, with dark green glossy foliage. Used as specimen plant or for screen planting. Blooms of yellowish white borne in panicles in spring. Attains height of 10 to 15 feet. Price, 18 to 24 inch plants, bushy, \$1.25 each.

LIGUSTRUM

JAPANESE PRIVET—(*Ligustrum Japonica*)—A vigorous graceful and symmetrical plant with dark green glossy foliage; bright glossy green, well covering the plant. Leaf large and eningated, flowers white in spring, followed by clusters of purplish black berries, carried nearly all winter. Price, heavy 3 foot plants, well branched \$1.50 each, \$15.00 per dozen

LARGE LEAVED JAPANESE PRIVET—(*Ligustrum Japonicum Macrophyllum*)—One of the most striking and rare of the privet family; leaves of huge size and intense dark green, sometimes shade rich brown which adds to its attractiveness. Upright grower which attains a height of 8 to 10 feet. Price, 3 to 4 foot plants, well branched, \$2.50 each, \$25.00 per dozen.

NEPAL PRIVET—(*Ligustrum Nepalense*)—A compact, graceful and symmetrical plant with dark green glossy foliage; white flowers in spring and covered all fall and winter with blue-black berries. Attains height of 6 to 8 feet. Price, 24 to 30 inch plants well branched, \$2.00 each. \$20.00 per dozen.

ROSEMONT NURSERY CO., Tyler, Texas

MAGNOLIA—(*Magnolia Grandiflora*)—Large pyramid tree, very large glossy green foliage; blossoms, large white, very fragrant. Price, 2 to 4 foot trees, branched, \$2.00 each.

ROSEMARY—(*Lavanduca officinalis*)—A low gray herb 1 to 2 feet high, with a spread about equal its height. Very fragrant. Useful for borders. Price, strong well branched plants 15 to 18 inches, \$1.00 each, \$10.00 per dozen.

NANDINA—(*Nandina Domestica*)—A slender stemmed shrub growing to a height of about 4 feet and having an abundance of fine foliage on slender but erect stems. This plant is evergreen or ever-red depending on the season of the year. It is grey green in summer changing to bronze in fall and then to deep red with the falling of frost. There is no plant more valuable for giving a touch of brilliant color in winter, especially when planted so as to show against something green. Throws panicles of white flowers in spring, followed by red berries. You can't afford to be without a few of these to touch up your plantings in winter. Should be planted where it will be exposed to cold and sun or it will not color up so well in winter. Absolutely hardy. Price, nice stocky plants 12 inches high, 1.50 each. Price nice stocky plants 18 inches high, \$2.00 each.

PHOTENIA—(*Photenia Serrulata*)—A small tree or large shrub with large shining foliage which frequently colors crimson and bronze in winter. Its flowers are white, similar to elderberry trusses and followed by red berries. In spring the young growths are a delight with their shades of delicate green in contrast to the foliage of old wood. Does well in sun or semi-shade. Attains a height of 5 to 12 feet. Price well branched plants, 18 to 24 inches high \$1.50 each.

TOBIRA—(*Pittosporum Tobira*)—A compact shrub of rounded form with dark green shining leaves clustered at ends of branches. Flowers fragrant, yellowish white, unusually in April or May. Prefers partial shade. Needs protection north of Tennessee. Price, strong plants 10 to 12 inches tall \$1.00 each, \$10.00 per dozen.

CALIFORNIA PRIVET—Of upright growth, rapid. Foliage of lighter green than Amoor River Privet. One of the most popular plants for hedging. Usually holds foliage during winter but not so well as Amoor River. Price, 4 ft plants, well branched \$2.50 doz., \$18.00 per hundred. Price, 3 ft. plants well branched, \$1.50 doz., \$14.00 per hundred. Price, 2 ft. plants, well branched, \$1.00 doz., \$7.00 per hundred.

Field of Our Amoor River Privet—Seedling
Hedge for the South.

LIGUSTRUM LUCIDUM—A beautiful form of privet. Leaves rather pointed, thick and of a very dark, shiny green. Large heads of white flowers in May, followed by blackberries, which are retained throughout the winter. Very desirable for individual specimens on lawn, or banking or massing with other shrubs for landscape effect. Price, 24 to 36 inch plants, well branched, \$2.00 each, \$20.00 per dozen.

EVERGREEN AMOOR RIVER PRIVET—A rapid grower and a graceful looking variety. Used as specimen on lawn, in clumps, as screen planting, foundation planting, or as a trimmed hedge. No plant has more various uses or is more valuable in our Southern plantings. Drouth resistant and holds foliage well during winter. Price, heavy well branched plants 5 feet high, 50c each \$5.00 per dozen, \$25.00 per hundred. Price, heavy well branched plants 4 feet high, 40c each, \$4.00 per dozen, \$20.00 per hundred. Price, heavy well bran her plants 3 feet high, 30c each, \$3.00 per dozen, \$15.00 per hundred. Price, heavy well branched plants, 2 feet high 20c each, \$2.00 per dozen, \$10.00 per hundred.

Specimen plants, well branched, even uniformshape, \$1.00 each, \$10.00 dozen. These plants are three years old, about 5 feet high and suitable for lawn specimen.

PYRACANTHUS FIRETHORNS

EVERGREEN ENGLISH HAWTHORN—(*Pyracantha Coccinea Lalanda*)—A tall growing picturesque shrub or small tree with box-like foliage; panicles of white flowers in spring, followed in summer and fall by clusters of orange scarlet berries. Useful as a specimen or for mass planting. Thrives in most soils and situations. Attains height of 10 to 12 feet. Price 24 inch plants, branched, \$1.25 each, \$12.50 per dozen.

CHINESE FIRETHORN—(*Pyracantha Yunnanensis*)—A variety of recent introduction by explorers in China. The plant is of broad spreading habit, attaining a height of about 6 feet. It bears a profusion of white flowers in spring, followed by bright scarlet berries in fall which remains on all winter. We consider this the most desirable of all the Firethorns. Price, strong, well branched plants, 15 inches tall \$1.25 each, \$12.50 per dozen.

NARROW LEAF FIRETHORN—(*Pyracantha Angustifolia*)—An upright variety similar to Lalanda Firethorn, with narrow leaves; berries yellow borne in clusters. Price, 18 inch plants, branched, \$1.00 each, \$10.00 per dozen.

NEPAL FIRETHORN—(*Pyracanthus Crenulate*)—Another good variety of *Pyracanthus* similar to *Yunnanensis* but slightly denser foliage. Plant lovers will find group plantings of several of these Firethorns very interesting for their foliage and color effects. Price, well branched plants, 18 inches tall, \$1.25 each, \$12.00 per dozen.

JESMINE PRIMULIUM—Evergreen in the South, flowers appear in great profusion in early spring, of deep yellow color in center, shading to a delicate cream at edge of petals. Attaining height of 3 feet. Price, strong plants, 50c each, \$5.00 per dozen

CONIFEROUS EVERGREENS

This family of evergreens comprise the plant families generally known as Cedars, Arborvitaes, Spruces and Pines. They are listed Coniferous Evergreens (meaning cone bearing) to distinguish them from other evergreens which generally have broad shining leaves. Coniferous Evergreens are essential in the treatment of the home and its grounds. They may be used in foundation plantings, either alone or with other plants; in border, mass or as specimen plants. They are very effective Summer or Winter and add an artistic air which can be obtained by the planting of any other class of plants. Most Conifers to be transplanted safely should be dug with a ball of earth on the roots. A few, especially when small transplant well bare-rooted when given proper care.

ROSEMONT NURSERY CO., Tyler, Texas

Any Conifer should receive the best of care when being transplanted. As soon as conifers are received, place in a cool location protected from sun and wind; uncrate and sprinkle, taking care not to over do the task by watering sufficient to loosen the ball of earth on the roots. When place is prepared for receiving plant, lift carefully by the ball of earth and not by the stem of the plant. Place in position, unpin burlap and roll back, fill hole nearly level with soil, water well and finish filling hole with soil. Do not put manure in the hole. Conifers do better in just good soil suitable for garden or field crops. Place a stake near plant and tie plant to it with a wide cloth string (not a wire or cord as these will cut the plant) to keep wind from whipping plant loose in ball before it is established. If set during sunshiney weather especially if there are dry winds, the plant should be protected by burlap. To do this, set stakes around plant to form a pen and stretch burlap over them and around them. Keep burlap sprinkled. After two or three weeks the stakes and burlap may be removed. If not protected by burlap the plant should at least be sprinkled several times a day to keep the top from drying out before the roots are able to draw water sufficient to nourish it. When sprinkling do not keep your Conifers in a soggy condition, this repeated sprinkling is just a shower to keep the top from drying out by evaporation. Conifers need watering during long dry summers but they never do well if kept continually soggy.

ARIZONA CYPRESS—(*Cupressus Arizonica*) —Tall columnar plants with foliage similar to Cedar in texture, but with silvery-blue sheen. Rapid grower, makes a large tree. Spectacular as a lawn specimen also may be used in a tall screen.

We have these plants of good color, well shaped from one foot in height up to 6 feet.

Price 1 foot.....	\$1.00 each
Price 2 feet.....	2.00 each
Price 3 feet.....	3.50 each
Price 4 feet.....	4.50 each
Price 5 feet.....	6.00 each
Price 6 feet.....	7.25 each

ITALIAN CYPRESS—(*Cypressus Sempervirens*)—Grows straight up, making a tall, narrow appearance. Trees 4 feet high will not be over 6 inches in width all the way up. Sometimes reaches a height of 75 feet where especially favored. We have these up to 5 feet. Prices same as for Arizona Cypress mentioned above.

HORIZONTAL ITALIAN CYPRESS—Same as Italian Cypress except the limbs are in a horizontal position giving the plant a very open airy appearance. We have these up to 6 feet in height. Prices, same as for Arizona Cypress.

ROSEMONT NURSERY CO., Tyler, Texas

LAWSON CYPRESS—(*Chamaecyparis Lawsonia*)—Foliage a bluish metallic hue, branches close and compact. Broad at the base, tapering to a point at tip, often appears to have a changeable color of silver and grey-green. Attains height of 8 to 10 feet. We have these plants in sizes up to 5 feet. Prices same as for Arizona Cypress.

ARBORVITAE COMPACTA PYRAMIDAL—(*Thuja Orientalis Bakerii*)—Dark green, very compact foliage, rather columnar than Pyramidal. Fine for column effect.

Price	2 feet high		\$2.00	B+B
Price	3 feet high		\$3.00	B+B
Price	4 feet high		\$4.50	B+B
Price	5 feet high		\$6.00	B+B

ARBORVITAE ROSEDALE—(*B. Orientalis* var. *Rosedale*)—Foliage a pleasing pale green, feathery in texture. Very pleasing when combined with other shades of green. Attains a height of 6 feet. Useful in foundation, or as specimen plant. Also use in urns when small and transplanted to the yard when they have out-grown the urn.

Price	12 inches	\$1.50 each	\$15.00 per doz.	B+B
Price	2 feet	\$2.50 each	\$25.00 per doz.	B+B
Price	3 feet	\$3.50 each	\$35.00 per doz.	B+B

JAPANESE CEDAR—(*Cryptomeria Japonica*)—A handsome rapid growing tree with a pyramidal outline and plume like foliage; spreading and open. Attains a height of 100 feet in favored locations. Prefers deep well drained soil.

Price	1 foot		\$1.00 each	B+B
Price	2 feet		\$2.00 each	B+B
Price	3 feet		\$3.50 each	B+B

RED CEDAR—(*Juniperus Virginiana*)—The well known Cedar. Foliage dark green; has a brown cast in winter which makes a beautiful contrast. Attains height of 25 feet.

Price	1 foot		\$1.00 each	B+B
Price	2 feet		\$2.00 each	B+B
Price	3 feet		\$3.50 each	B+B
Price	4 feet		\$4.50 each	B+B

TOM THUMB ARBORVITAE—(*Thuja clwangeriana*)—A low, broad, symmetrical conifer, globular in form as a young plant, gradually becoming broadly pyramidal as it attains maturity. The slender branches and fine cut Juniper-like foliage give it the softest, most pleasing texture. Light green in color and semi-formal in appearance. Valuable for urns and general planting. Attains height of 3 to 4 feet.

Price	6 inches		\$1.00 each	B+B
Price	12 inches		\$2.00 each	B+B

ROSEMONT NURSERY CO., Tyler, Texas

BERKMAN GOLDEN ARBORVITAE—(Thuja Orientalis Aurea Nana)—This is one of the prettiest of the dwarf growing Arborvitaes. Compact, rich golden green color, pyramidal shape, tapering to a blunt point. Attains height of 4 feet.

Price—12 inches-----\$1.50 each B+B

Price—24 inches-----\$3.00 each B+B

EXCELSA ARBORVITAE—An excellent new variety belonging to the Chinese family. In form midway between the globe-shaped and the pyramidal type. Dark green lacy foliage, dense, compact. Perfect shape.

Price—2 foot size-----\$2.25 each B+B

TEXANA GLAUCA—An Arborvitae of the Rosedale type with fine feathery glaucous foliage, but a tall rapid grower. Attains a height of 40 feet. Easy to transplant.

Price—18 inches tall, \$1.00 each, \$10.00 per dozen B+B.

RETINOSPORAS OBTUSA—This is a Japanese Cypress with plume like foliage of Arborvitae shape. Fine in foundation plantings or for lawn specimen. Very pretty.

Price—18 inch plants-----\$1.50 each B+B

JACK PINE or YELLOW PINE—This pine has medium length needles, easy to transplant, fast grower. Thrives on most soils. We have nice stocky 18 inches plants at \$1.00 each, \$10.00 per dozen B+B.

DEODARA—(Cedrus Deodara)—Himalayan Cedar. Beautiful pyramidal, large evergreen from broad base to point at tip. Branches horizontally, foliage of short needles in silver blue in color. A striking beauty on the lawn as a specimen or in groups. Attains height of 50 to 75 feet with age.

Price—24 inch plants-----\$3.00 each B+B

BULBS

GLADIOLI—We do not attempt to carry all the "Glad" family, beautiful as it is. Our list comes from the pick of the family, however and if you are looking for the best, we have it.

The Gladiolus is easy to grow, thrives best if treated similar to the Irish potato. A good plan is to spade out the bed, put in well-rotted manure, mixing with the soil, cover with an inch of soil, place the bulbs and cover with 2½ or three inches of soil.

No plant gives better satisfaction as a cut flower. If cut when the first bloom begins to open and placed in fresh water every day every bud will develop into a perfect bloom.

Price, except where noted, first size bulbs 10c each, \$1.00 per dozen, \$8.00 per hundred.

ROSEMONT NURSERY CO., Tyler, Texas

MRS. FRANK PENDLETON—Salmon-pink, with rich wine-colored maroon blotches on lower petals; a large blossom, many blooms open at once, making a grand show.

SCHWABEN—Delicate shade of clear canary-yellow; shading to softest sulphur. This is a giant of a Gladiolus, large leaves, strong stalk, large spike of blooms. One of the prettiest.

AMERICA—A good clear shade of pink, very pretty.

CHICAGO-WHITE—A leading white, fine for cutting.

WAR—A deep blood red, shades crimson black. Prettiest red.

PRINCE OF WALES—Delicate salmon-pink, very large flowers. The prettiest of the salmon-pinks.

Price, first size bulbs, 15c each, \$1.50 per dozen, \$10.00 per hundred.

TUBE ROSES

Nothing so sweet as a Tuberose; very pretty, bloom continuously from about June 15th until frost.

MEXICAN TUBEROSE—White; long spike of bloom.

Price, 10c each, \$1.00 per dozen, \$8.00 per hundred.

CANNAS

Nothing so showy as a bed of Cannas and so easy to care for. For effective display plant Canna beds all one color.

YELLOW KING HUMBERT—Attains height of 4 feet. An orchid-flowering sport of the well known variety King Humbert. Foliage a very dark green, with flowers measuring 5 to 7 inches cross; color of flower a deep rich yellow, softly spotted and blotched with bright red.

Price 25c each, \$2.00 per dozen, \$12.00 per hundred.

KING HUMBERT—Large Scarlet flowers, bronze leaves; greatest favorite today.

Price 25c each, \$2.00 per dozen, \$12.00 per hundred.

THE PRESIDENT—By a sweeping majority this Canna won the honor of being named "The President," for it is so surpassingly fine that no other red Canna could be a competitor. The color is a rich glowing scarlet, flowers often 7 inches across on strong erect stems, well above the foliage. Foliage rich green.

Price 30c each, \$3.00 per dozen, \$18.00 per hundred.

ROSEMONT NURSERY CO., Tyler, Texas

CITY OF PORTLAND—Attains a height of 3½ feet. Distinct among the several really worth while pink cannas. A deep pink which does not fade during hot weather. A free bloomer, with flowers well above the foliage.

Price 30c each, \$3.00 per dozen, \$18.00 per hundred.

PEONIES

Peonies should be planted in a sunny location in deep rich soil about two inches deep. Manure may be placed around the plants but be careful to keep it from touching the stems. This sometimes causes them to cease blooming. See that they get plenty of moisture while they are blooming. Should be planted in the Fall.

DUC DE WELLINGTON—Very large, well-formed sulphur-white double bloom. One of the best.

Price 75c each.

MADAME DE VERNEVILLE—Guard petals sulphur-white, center delicate rose-white, one of the most desirable white peonies.

Price 75c each.

FELIX CROUSSE—An exceptionally fine red Peony. Is extremely brilliant in color, good grower and free bloomer.

Price 75c each.

PERENNIALS

BURBANK'S SHASTA DAISY—In growth the plants are as strong as common field daisies; very tall, well branched, with fine cut foliage and huge white flowers, borne on long stiff stems. The flowers are pure white with gold center; petals long, center, soft and velvety.

Divisions, 10c each; \$1.00 per dozen.

HARDY CHRYSANTHEMUMS—There are many lovely flowers that give a succession of beauty throughout the Summer day, but we have the best in reserve for Fall in these old-time favorites. The hardy Chrysanthemum is especially recommended to inexperienced gardeners for no other class of plants is so easy to manage. We have the following colors, all good size, very double and beautiful.

Red, White, Yellow, Lavender and Bronze.

Price 10c each, \$1.00 per dozen.

SHADE TREES FOR THE SOUTH

It only takes a few minutes to set a shade tree, the cost is small and compared with the benefit to be obtained, the complete out-lay of obtaining shade is insignificant. Shade adds comfort, protection and beauty. In Summer when old "Sol" is beaming his hardest, your shade trees are cooling the atmosphere about your home after the style of a lawn sprinkler throwing water into the air. An average size shade throws gallons of water into the air every hour through its leaves. Plant shades for the babies if for no other reason. Be humane—it is so cruel to force the little ones to play in the sun during the hot summer.

A Tree

Joyce Kilmer, the patriotic poet gave free expression to the nobility of a tree when he wrote:

I think that I shall never see
A poem lovely as a tree

A tree whose hungry mouth is prest
Against the earth's sweet flowing breast;

A tree that looks at God all day,
And lifts her leafy arms to pray;

A tree that may in Summer wear
A nest of robins in her hair;

Upon whose bosom snow has lain;
Who intimately lives with rain.

Poems are made by fools like me,
But only God can make a tree.

CATALPA

SPECIOSA—Broad, deep green foliage, and large fragrant trumpet flowers in immense clusters in the Spring. The Catalpa is native in most parts of the South. Valuable for its durable timber and for ornamental purposes. Catalpa Speciosa is the best of the many varieties.

Price 4 to 6 feet, 50c each, \$5.00 per dozen.

ROSEMONT NURSERY CO., Tyler, Texas

POPLAR

CAROLINA—Distinctive from Cottonwood. It differs in its strict straight appearance, making a more uniform head. A very rapid growing effective tree, widely planted. Free from cottony bloom.

Price 4 to 6 feet, 50c each, \$5.00 per dozen.

Price 6 to 8 feet, 75c each, \$7.50 per dozen.

LOMBARDY—Named from Lombardy, an Italian province. Makes a very striking tall growing tree. Limbs grow perpendicular almost, making a columnar shaped tree. With age it becomes one of the most picturesque of trees. For a long time planted in America.

Price 4 to 6 feet, 50c each, \$5.00 per dozen.

Price 6 to 8 feet, 75c each, \$7.50 per dozen.

CHINESE—Like Lombardy in having a pyramidal or columnar head. The leaf is medium green, red veined, and smaller than Lombardy. This is a good tree for narrow streets. It is useful too, where a naturalistic effect is wanted.

Price 4 to 6 feet, 50c each, \$5.00 per dozen.

WEEPING WILLOW

BABYLONIAN WEEPING—Weeping Willows have for centuries been planted and are the symbol of romance. They grow fast, and lend themselves nicely to groupings for backgrounds for flower garden or lawn. Near pools or over-hanging streams, they are at their best from an artistic viewpoint, but they thrive well in a wide range of conditions.

Price 4 to 6 feet, 75c each, \$7.50 per dozen.

SYCAMORE

ORIENTAL—The Oriental Plant or Sycamore has been famous for centuries in European countries. It succeeds well in the Southern United States. Is said to hold its foliage better than our native Sycamore.

Price 4 to 6 feet, 50c each, \$5.00 per dozen.

Price 6 to 8 feet, 75c each, \$7.50 per dozen.

Price 8 to 10 feet, \$1.50 each.

TEXAS UMBRELLA—This fine Southern tree was first noticed near the battle ground of San Jacinto. It is thought to

ROSEMONT NURSERY CO., Tyler, Texas

be a distinct species from the common China tree, which originated in Persia and India, and was introduced into the United States during the last century.

Price 3 to 4 feet, 30c each, \$5.00 per dozen.

Price 4 to 5 feet, 75c each, \$7.50 per dozen.

Price 5 to 6 feet, \$1.50 each.

BOX ELDER—A large, rapid growing native tree of spreading habit of growth; belongs to the Maple family.

Price 4 to 6 feet, 50c each, \$5.00 per dozen.

Price 6 to 8 feet, 75c each, \$7.50 per dozen.

COTTONWOOD—One of the best of the Poplars. Large, spreading, luxuriant; to be used in background effects. Partial to low lands but succeeding on uplands.

Price 4 to 6 feet, 50c each, \$5.00 per dozen.

Price 6 to 8 feet, 75c each, \$7.50 per dozen.

SILVER MAPLE—This is one of the prettiest of the Maples, makes a large shade, leaves silvery-green on top, white underneath, makes a pretty show when blown by breezes. Grows best in moist soil but succeeds almost anywhere. Rapid grower.

Price 4 to 6 feet, 50c each, \$5.00 per dozen.

Price 6 to 8 feet, 75c each, \$7.50 per dozen.

PECANS

Plant Pecans for Profit and Shade

The growing of the large thin-shelled varieties has long passed the experimental stage, and now a pecan orchard is regarded, next to government bonds, as being absolutely the safest investment possible. If a good size tree is set and cared for it will usually bear a few nuts the third year and gradually increase in yield each season. By the tenth year you may expect a profitable crop and after this time the increase in yield is rapid. If you do not have space for a Pecan orchard it will pay you handsomely to put out Pecans for shade. They make beautiful shade at the same time produce a very profitable crop.

How to plant—Proper distance is 40 to 60 feet apart each way. A very good plan is to set Pecans in every other row of the peach orchard. The peach trees will have done their duty by the time the pecans get large enough to crowd very much and you can then cut out the peach orchard and have a pecan orchard in its place for generations to come. Dig a hole larger than just sufficient to receive the roots, usually 24 to 36 inches square and three feet deep or more. After carefully setting tree in position fill in with top soil and water well. Let water settle and finish filling hole with dry soil.

ROSEMONT NURSERY CO., Tyler, Texas

Pruning—The top should be severely cut back, especially if the trees are planted where they can not be watered during the droughts of the first Summer. We list the three best varieties for sections reached by us.

SCHLEY—One of the best nuts grown, on the coast and very successful inland. Nut very large, shell thin. The meat readily cracks out whole.

SUCCESS—Large moderately thin shell. Kernel plump, quality rich; good flavor.

STUART—Nuts large or very large, 1 $\frac{1}{4}$ to 2 inches long, oblong with brownish shell, strongly marked with dark color. Shell of medium thickness and of very good cracking quality. Kernel full, plump, bright colored. In quality, one of the best. A heavy bearer. Tree a strong grower, reaching an immense size.

Prices, select trees, 4 to 5 feet high, \$2.50 each, \$25.00 per dozen, \$200.00 per hundred.

Prices, select trees, well branched, 8 to 10 feet high \$5.00 each, \$50.00 per dozen, \$400.00 per hundred.

PLANT AN ORCHARD

Plant an orchard; the health and happiness of your family demand it. The old saying that, "An apple a day drives the doctor away," is very well grounded on fact, as fresh fruit is one of the best forms of health insurance. In addition, the home orchard adds immeasurably to the value of the farm, and a few trees planted on the city lot are a source of great satisfaction to the owner.

ROSEMONT SURE-CROP PEACHES

Peach trees should be planted 16 to 18 feet apart. To secure healthy, vigorous and fruitful trees and fine fruit, the following points should be well attended to: (1) Keep the ground clean and mellow; (2) Keep the heads low—the trunk of the tree should not exceed 3 feet in height; (3) Prune every Spring, shortening the shoots of the previous year's growth. This keeps the head round, full and well furnished with bearing wood. Cut strong shoots back about one-third, remove weak ones entirely. Do not cut back too much as you will cut off your crop of fruit. Fruit is borne on wood of previous seasons growth, hence the necessity of keeping up plenty of vigorous annual shoots all over the tree. Most important of all spray your fruit trees two or three times during the dormant season with LIME SULPHUR to prevent diseases. Lime Sulphur may be bought at drug stores and directions for dormant spray accompany the package.

ROSEMONT NURSERY CO., Tyler, Texas

Our peaches are propagated from bearing orchards, an assurance of bearing trees. The time of ripening will vary with local climatic conditions.

We list only two sizes of fruit trees—a choice large grade for home orchards and a smaller tree for commercial orchard planting. We have culled our list of varieties down to include only the best. We find this eliminates a great deal of confusion and is a real aid to our customers in making a proper selection.

Price, heavy select trees, 5 to 6 feet, well branched \$1.00 each, \$10.00 per dozen, \$75.00 per hundred.

Price, choice trees, 2 to 3 feet, branched, commercial planting \$20.00 per hundred. 25 trees at hundred rate.

J. H. HALE—Probably no new peach has ever been introduced claiming to be so much superior in all ways. It averages one-third to one-half larger than Elberta, ripens about five days earlier and is much superior in flavor. Color a beautiful golden yellow, with deep carmine blush. Ripens about July 1st.

INDIAN BLOOD—Large, dark claret, with deep red veins; downy; flesh deep red, very juicy. Middle of August

BELLE—(Belle of Georgia)—Very large; skin white, with red cheek, flesh white, firm and of excellent flavor; very prolific; excellent shipper. Tree of rapid growth. July 5 to 20th.

ELBERTA—Too well known to need description. Sure and prolific. Very large. Orange-yellow, more or less covered with crimson. Flesh firm, good quality. Freestone. Seed large. This is the leading commercial variety grown in the South. About July 10 to 15th.

CARMAN—Large; resembles Elberta in shape; color creamy white or pale yellow with deep blush; skin very tough; flesh tender, fine flavor and quite juicy; one of the hardiest. June 15th.

OLD MIXON FREE—Large, pale yellow, with red cheek; rich good; one of the best. August.

MAMIE ROSS—A Chinese type; white, with a beautiful blush next to the sun; semi-cling; one of the best in quality; hardy; an immense bearer. May 20th.

HEATH CLING—An old favorite, large creamy white, thin skin, white flesh, very firm, fine pickling. August.

APRICOTS

Apricots are among the most delicious of fruits and will succeed where proper care is given to protect them from late

ROSEMONT NURSERY CO., Tyler, Texas

freezes. A sheltered location is best. They succeed in towns and cities when planted in the yard or near the house.

Price, heavy select trees 4 to 5 feet \$1.00 each, \$10.00 per dozen, \$75.00 per hundred.

MOORPARK—One of the largest; orange, with red cheek; firm, juicy with a rich flavor; very productive. July.

EARLY GOLDEN—Small, pale orange; juicy and sweet; hardy as the Russian Apricot, and productive. July 1st.

ROYAL—Large, dull yellow with red cheek; flesh pale orange; firm juicy and sweet. Fine.

PLUMS

The plum succeeds best in heavy soil with some clay, fairly free from the attack of disease, easy to grow and very desirable for home use as well as market.

Price, heavy select trees 4 to 5 feet, \$1.00 each, \$10.00 per dozen, \$75.00 per hundred.

Price, choice trees 2 to 3 feet for commercial planting \$30.00 per hundred, 25 trees at hundred rate.

ABUNDANCE—One of the oldest and best known plums. A Japanese variety, hardy, productive; large fruit, lemon-yellow, with blush. August.

COMPASS CHERRY PLUM—Cherries do not thrive in sections reached by our catalog as a rule. This hybrid Cherry-Plum is the nearest to cherries we can produce. It resembles a big red cherry considerably but is borne on short stems like plums, also the shape is slightly like a small plum. Flavor is divided between cherry and plum but slightly in favor of the cherry. Trees bear when quite young, even in the nursery row. You will not regret trying a few of this valuable fruit.

Price, large select trees 4 to 5 feet high, \$1.00 each, \$10.00 per dozen.

APPLES FOR HEALTH

"An apple a day drives the doctor away." While the section principally reached by our catalog do not seem especially adapted to the Apple, they succeed well enough to warrant the planting of a few trees for home use. They produce best if planted in a well drained place and should be planted 25 feet apart.

Price, heavy select trees 4 to 5 feet high \$1.00 each, \$10.00 per dozen.

ROSEMONT NURSERY CO., Tyler, Texas

ARKANSAS BLACK—Tree a beautiful upright grower; young wood very dark. There is scarcely an apple that is more brilliantly colored; round or slightly conical, smooth, glossy yellow where not covered with deep crimson, almost black. Flesh, yellow, juicy, sub-acid, pleasant, rich.

EARLY MAY—Ripens among the earliest, valuable because of its early ripening habit. May 20th to June 1st.

CAROLINA RED JUNE—Medium to large, oblong; deep red, sometimes with splashes of yellow; very tender, juicy and high flavored. June 15 to July.

HORSE APPLE—Large; yellow, occasional blush next the sun; oblate conical; sub-acid and good. August.

JONATHAN—Fruit medium, roundish; skin yellow, nearly covered red. Fine flavor. October.

CRAB APPLES

Crab apples are unexcelled for jellies, preserving, pies also makes a pretty ornamental tree.

HYSLOP—Almost as large as hen's egg, deep crimson; very popular on account of its size and beauty.

TRANSCENDENT—Fruit is large for its class; golden yellow, red cheek. Ripens in September.

PEARS

This is an allround good fruit. Excellent for preserves or served fresh. We list only leading varieties which have proven to be of first quality.

EARLY HARVEST—Tree a strong grower, hardy and nearly free from blight. Fruit large; yellow, with a showy blush, making it one of the most beautiful pears. Last half of June.

GARBER—Large, slight red blush. Hardy and bears young. One of the best.

KIEFFER'S HYBRID—Very large, skin yellow with a bright vermilion cheek; flesh brittle, very juicy, with a marked musky aromatic flavor; quality good. Matures in September.

LE CONTE—Large, bell shaped, smooth, rich, creamy yellow; quality better than Kieffer, a good storage and shipping pear. Fine for cooking, canning and marketing. Tree a rapid grower, bears young but blights easier than Kieffer.

ROSEMONT NURSERY CO., Tyler, Texas

Price, heavy select trees 4 to 5 feet \$1.00 each, \$10.00 per dozen, \$75.00 per hundred.

Price, choice trees for commercial planting, 2 to 3 feet high, \$30.00 per hundred, 25 trees at hundred rate.

FIGS

Any home garden should have some figs. Sprouts and suckers should be kept down and the tree pruned so the trunks are clean for at least 2 feet from the ground. They will bear better and stand more cold if treated this way.

Proper distance for planting figs is 15 by 15 feet in orchard. Ten by ten feet is alright in good soil and where space is limited.

MAGNOLIA—Fruit very large and of rich straw color. Begins to ripen the last of June and continues to put on new fruit until frost.

BROWN TURKEY—Brown; medium size; very sweet; prolific.

Price, heavy select trees 3 feet high 50 each, \$5.00 per dozen, \$40.00 per hundred.

Price, 18 inch trees for commercial planting \$25.00 per hundred, 25 trees at hundred rate.

JAPANESE PERSIMMONS

HYAKUME—Large, 2½ by 3 inches; skin light buff-yellow; flesh dark brown, sweet and meaty; not astringent.

TRIUMPH—Of good quality; size medium, tomato-shaped; color yellow tinged carmine; very productive; flesh rich golden yellow; astringent until fully ripe, when it is one of the best.

TANE-NASHI—Very large, conical, pointed; skin smooth, light yellow changing to bright red at maturity; flesh yellow and quite astringent until fully ripe, when it becomes probably one of the best of the Japanese Persimmons.

ZENGI—Not as large as some but one of the best. Roundish oblate; color reddish yellow; flesh dark, being edible when hard; not astringent. Commences to ripen early and continues late.

Price, heavy select trees 3 to 4 feet high, \$1.50 each, \$15.00 per dozen.

GRAPES

The grape is easily grown, they may be enjoyed by any one who has a garden, yard or a wall. It can be confined to a stake, trellis, or trained over an arbor. They thrive in various soils, require good drainage, and exposure to sun and air.

PRUNING—Depends on the manner of training desired but remember that grapes are borne on the new growth and not on the old.

Price, 2 year heavy plants 35c each, \$3.50 per dozen.

Price, 2 year plants, average grade for large plantings \$20.00 per hundred; fifty plants at hundred rate.

CONCORD—Bunches large, berries large, round; skin thick and covered with bloom; flesh juicy, sweet. Vine very hardy, vigorous and productive.

WORDEN—Resembles Concord but is earlier.

MOORE'S EARLY—A seedling of the Concord, combining the vigor, health and productiveness of its parent, and ripening a few days earlier. Bunch medium; berry quite large; color black, with heavy blue bloom.

CARMEN—Medium, round, black, fine quality, vigorous and productive. August.

MOORE'S DIAMOND—Origin, New York. Said to be a cross between Concord and Iona. This handsome new grape has met with favor where ever known. Ripens two or three weeks ahead of Concord; the bunch is medium size, slightly shouldered; color greenish-white; has a yellow tinge when fully ripe. Flesh juicy and almost without seeds.

NIAGARA—A magnificent white grape, valuable for home use also shipping. The vine is strong growing, healthy and prolific; bunches large, uniform and compact; berry large, skin greenish white, slightly ambered in the sun. Ripens with Concord.

BLACKBERRIES

No other fruit is as sure to bear every year as Blackberries. Comes into bearing the second year, thrives in most any soil.

McDONALD—The earliest blackberry in cultivation; size medium to large, exceedingly good quality, few seeds; a good shipper. The most prolific bearer we have seen, ripens two or three weeks ahead of Lawton.

ROSEMONT NURSERY CO., Tyler, Texas

LAWTON—We consider the Lawton the best berry for commercial purposes and also to prolong the berry season after McDonald is gone. Strong upright grower, large, firm berries, juicy, sweet and small seed. Ripens in June.

Price, strong plants \$1.00 per dozen, \$3.50 per hundred, \$30.00 per thousand.

DEWBERRIES

Plant dewberries in rows five feet apart and three feet apart in the row. Do not need any pruning ordinarily.

AUSTIN-MAYES—This is an extraordinary Dewberry found in Denton County several years ago. Bears mammoth berries of fine quality.

Price, \$1.00 per dozen, \$3.50 per hundred, \$30.00 per thousand.

THORNLESS DEWBERRY—We especially recommend this new variety. It was introduced a few years ago by Jim Parker of Tecumseh, Okla. It is of exceedingly fine quality in every way, prolific bearer, and without thorns. You will enjoy picking as fine dewberries as ever grew and from thornless vines.

Price, \$2.00 per dozen, \$8.00 per hundred.

STRAWBERRIES

Everyone with space for a back yard may enjoy strawberries. They come early in the Spring when we are all starving for fresh fruit. We know of no fruit producing greater returns for the cost of production and space required. May be grown in beds where space is limited. When planted in the field where they can not be watered during summer drought, they should be set 24 inches apart in the row and the rows should be three to four feet apart.

Price 75c per dozen, \$3.00 per hundred, \$15.00 per thousand.

IMPROVED KLONDIKE—We consider Klondike the best strawberry for general purposes. Noted for its large yield of beautiful berries, uniform in shape, rich blood-red in color and having a flavor that is neither sweet nor sour, but mildly delicious.
