EARL FERRIS SPEAKING --

Our motto is -- "WE HAVE NO AGENTS" -- and our only salesman is our catalog and this little bargain folder. Won't you spend a few minutes going over them by yourself, picking out what you really want and BUYING your nursery stock at a very low price, in place of having something SOLD to you that you do not want, at a very high price?

Sixty-one years is a rather long time for one firm to be in the nursery business, but we have been right here that length of time, and during that sixty-one years I do not feel we have ever made up a bargain sheet equal to this one. It is the first one that has really ever satisfied me when I got through, in each and everyone of these collections I am giving my customers just a little more than their money's worth -- Real Quality at a Real Price!

In the landscape collections I have spent a great deal of time working out combinations suitable for the average home at a minimum cost -- fruit bargains that are small and practical -- flower collections that will give you a wonderful lot of bloom for the least expenditure.

As to Evergreens, you know they are my hobby, and they were my Father's before me. I have made up a few collections that should please you. If you want others, come to the Nursery and see millions of them -- all sizes from 1 in. to 16 ft. -- or order from my big catalog which gives full descriptions and illustrations. I can take care of any kind of order in evergreens, having furnished many thousands of them for some of the largest and finest parks in the United States.

Help me to give you Real Service by getting your order in by return mail. This will give us a little time to properly tag and classify your order, and shipment will be made to you at the proper time to plant in your locality.

Sincerely yours,

Earl Ferris

Gastonia, N. Car., Sept. 24, 1929.
Gentlemen: I've been thinking for some time of writing and telling you about the trees and plants we ordered from you last Spring. Everyone lived and I wish you could see them now. I didn't know it was possible for apple trees to grow as much in one season as our Ferris trees have. We are so proud of them and show them to all our visitors. We are expecting to build a new home in a year or so and will buy the shrubbery needed to landscape our lot from you.
Sincerely,
JOSEPH McD. MOORE.

Pyramidal Arbor-Vitae.

Richmond, Ind., Sept. 5, 1929
Gentlemen: I received your shipment of evergreen trees in the Spring. I immediately planted them and took good care of them, all through the hot, dry Summer. They all lived and are doing fine—about 50 in all.
Yours,
O. T. KNODE.
